#### A. Corporate Information

Indoworth Holdings Limited is an entity incorporated in India. The registered office of the Company is located at GREEN ACRES, 2, Nazar ALI Lane 4<sup>th</sup> Floor, Flat 4A, Kolkata-700 019.

#### **B. Significant Accounting Policies**

#### **B.1 Statement of Compliance**

The financial Statements of the Company have been prepared in accordance with the "Ind AS" as notified under the Companies (Indian Accounting Standards) Rules, 2015 read with Section 133 of the Companies Act, 2013. In accordance with the notification issued by the Ministry of Corporate Affairs, the holding Company M/s Indoworth Holdings Limited has adopted Indian Accounting Standards (referred to as "Ind AS") notified under the Companies (Indian Accounting Standards) Rules ,2015 with effect from April 1,2017. The Company has prepared its financial statements in accordance with Indian accounting Standards (referred to as <u>"Ind AS"</u>).

#### **B.2** Basis of Preparation and Presentation

- a) These Ind AS financial statements have been prepared on historical cost basis, except for certain financial instruments which are measured at fair values at the end of each reporting period, as explained in the accounting policies below. Historical cost is generally based on the fair value consideration given in exchange for goods and services. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measured date.
  - b) The preparation of the financial statements in conformity with the Ind AS, requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities and disclosures as at date of the Ind AS financial statements and the reported amounts of these revenues and expenses for the years presented. The

estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant.

Actual results may differ from these estimates under different assumptions and conditions.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future periods if the revision affects both current and future periods.

#### **B.3** Critical Accounting estimates and judgements

The preparation of the Company's Ind AS Financial Statements requires management to make judgement, estimates and assumptions that affect the reported amount of revenue, expenses, assets and liabilities and the accompanying disclosures. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in next financial years.

#### a) **Recognition and measurement of provisions**

The recognition and measurement of provisions are based on the assessment of the probability of an outflow of resources and on past experience and circumstances at the balance sheet date. The actual outflow of resources at a future date may therefore vary from the figure included in provisions.

#### b) Contingencies and commitments

In the normal course of business, contingent liabilities may arise from litigations and other claims against the Company. Where the potential liabilities have a low probability of crystallizing or are very difficult to quantify reliably, the same are treated as contingent liabilities.

#### B.4 Significant Accounting Policies

#### a) Property, Plant and Equipment

Property, Plant and Equipment are stated at cost, net of recoverable taxes, trade discounts and rebates less accumulated

depreciation and impairment losses, if any. Such costs include purchase price, borrowing cost and any cost directly attributable to bringing the assets to its working condition for its intended use.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the items is material and can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognized when replaced.

The Company reviews the estimated useful lives and residual values of property, plant and equipment at the end of each reporting period. Assumption is also made as to whether an item meets the description of asset so as to warrant its capitalization and which component of the asset may be capitalized. Reassessment of life may result in change in depreciation expense in future period.

#### b) Provisions

The recognition and measurement of provisions are based on the assessment of the probability of an outflow of resources and on past experience and circumstances know at the balance sheet date. The actual outflow of resources at a future date may therefore vary from the figure included in provisions.

#### c) Tax Expenses

The tax expense for the period comprises of current tax and deferred income tax. Tax is recognized in Statement of Profit & Loss, except to the extent that it relates to items recognized in the Other Comprehensive Income or in equity, in which case, the tax is also recognized in Other Comprehensive Income or Equity.

i) Current tax

Current tax assets and liabilities are measured at the amount expected to be recovered from or paid to the Income Tax authorities, based on tax rates and laws that are enacted/prevailing at the Balance Sheet date.

ii) Deferred tax

Deferred tax is recognized on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which liability is settled or the asset realized, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of reporting period. The carrying amount of deferred tax liabilities and assets are reviewed at the end of each reporting period.

#### d) Revenue Recognition

Revenue is recognized on accrual basis

#### e) Financial Instruments

#### Cash and cash equivalents

The Company considers all highly liquid financial instruments, which are readily convertible into know amounts of cash that are subject to an insignificant risk of change in value and having original maturities of three months or less from the date of purchase, to be cash equivalents. Cash and cash equivalents consist of balances with banks which are unrestricted for withdrawal and usage.

#### Financial assets at amortized cost

Financial assets are subsequently measured at amortized cost if these financials assets are held within a business whose objective is to hold these assets in order to collect contractual cash flows and the contractual terms of the financial assets give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

# Financial assets at fair value through other comprehensive income FVTOCI)

Financial assets are measured at fair value through other comprehensive income if these financial assets are held within a business whose objective is achieved by both collecting contractual cash flows that give rise on specified dates to solely payments of principal and interest on the principal amount outstanding and by selling financial assets.

#### Financial assets at fair value through profit or loss (FVTPL)

Financial assets are measured at fair value through profit or loss unless it is measured at amortized cost or at fair value through other comprehensive income on initial recognition. The

transactions costs directly attributable to the acquisition of financial assets and liabilities at fair value through profit or loss are immediately recognized in profit or loss.

#### Financial liabilities

Financial liabilities are measured at amortized cost using the effective interest rate method.

#### Offsetting of Financial instruments

Financial assets and financial liabilities are off set and the net amount is reported in financial statements if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, to realize the assets and settle the liabilities simultaneously.

#### f) Provisions, Contingent Liabilities and Contingent Assets

In the normal course of business, contingent liabilities may arise from litigations and other claims against the Company. Where the potential liabilities have a low probability of crystallizing or are very difficult to quantify reliably, we treat them as contingent liabilities

A provision is recognized if, as a result of a past event, the Company has a present legal obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions (excluding retirement benefits and compensated leave) are not discounted to its present value and are determined by the best estimate of the outflow of economic benefits required to settle the obligation at the reporting date. These are reviewed at each reporting date adjusted to reflect the current best estimates.

Contingent liability is disclosed when the Company has a possible obligation or present obligation and it is probable that a cash flow will not be required to settle the obligation.

Contingent assets are not disclosed in the financial statements unless an inflow of economics benefits is probable.

#### g) Earnings Per Share

Basic and Diluted Earnings per share is calculated by dividing the net profit attributable to equity shareholders by weighted average number of equity shares/dilutive potential equity shares outstanding as at end of the reporting period as the case may be.

#### h) Cash Flow

Cash flows are reported using the Indirect Method, whereby profit/loss before tax is adjusted for the effect of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments and items of income or expenses associated with investing or financial cash flows. Cash flows from operating, investing and financial activities of the Company are segregated based on the available information.

For the purpose of cash flow statement, Cash and cash equivalents comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value, net of outstanding bank overdrafts, if any, Bank overdraft are disclosed within borrowings in current liabilities in the Balance Sheet.

classified its financial instruments into the three levels prescribed under the accounting standards

#### Level 1:

Level 1 hierarchy includes financials instruments measured using quoted prices. This includes listed equity instruments that have quoted price. The fair value of all equity instruments which are traded in the stock exchanges is valued using the closing price as at the reporting period.

#### Level 2:

The fair value of financial instruments that are not traded in an active market is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity-specific estimates .If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

#### Level 3:
