**FOR IMMEDIATE RELEASE**

## **Sun Pharma signs voluntary licensing agreement with Eli Lilly for expanding access to Baricitinib to help alleviate the burden of Covid-19 in India**

**Mumbai, India, May 10, 2021** - Sun Pharmaceutical Industries Ltd. (Reuters: SUN.BO, Bloomberg: SUNP IN, NSE: SUNPHARMA, BSE: 524715, "Sun Pharma" and includes its subsidiaries and/or associate companies) today announced that it has entered into a royalty-free, non-exclusive voluntary licensing agreement with Eli Lilly and Company ("Lilly") for expanding access to Lilly's drug, baricitinib in India. Sun Pharma will manufacture and distribute the drug in India.

Baricitinib is used in combination with remdesivir for the treatment of suspected or laboratory confirmed COVID-19 in hospitalized adults requiring supplemental oxygen, invasive mechanical ventilation, or extracorporeal membrane oxygenation (ECMO). The drug is approved by the Central Drugs Standard Control Organization (CDSCO) for restricted emergency use in India.

**Kirti Ganorkar, CEO-India business, Sun Pharma**, said, "Through this collaboration, we aim to join our forces with Lilly to accelerate access to baricitinib in India at a time when it is most needed. This is another step by Sun Pharma towards making more treatment options available to patients in India for dealing with the pandemic."

### **About Baricitinib**

Baricitinib, a once-daily, oral JAK inhibitor was discovered by Incyte and licensed to Lilly. It is approved in the U.S. and more than 75 countries as a treatment for adults with moderate to severe rheumatoid arthritis and was recently approved in the European Union and Japan for the treatment of adult patients with moderate to severe atopic dermatitis who are candidates for systemic therapy. Baricitinib is authorized for use under an Emergency Use Authorization (EUA) in combination with remdesivir, for treatment of suspected or laboratory confirmed coronavirus disease 2019 (COVID-19) in hospitalized adults and pediatric patients 2 years of age or older, requiring supplemental oxygen, invasive mechanical ventilation, or extracorporeal membrane oxygenation (ECMO). Baricitinib has not been approved for the treatment of COVID-19, but has been authorized for emergency use by the US FDA.

### **Disclaimer:**

Statements in this "Document" describing the Company's objectives, projections, estimates, expectations, plans or predictions or industry conditions or events may be "forward looking statements" within the meaning of applicable securities laws and regulations. Actual results, performance or achievements could differ materially from those expressed or implied. The Company undertakes no obligation to update or revise forward looking statements to reflect developments or circumstances that arise or to reflect the occurrence of unanticipated developments/circumstances after the date hereof.
