## Avaada Energy Secures Green Financing of 1,190 Cr for New Solar Project in Gujarat

Mumbai, Avaada Energy, the renewable energy arm of Avaada Group, is pleased to announce that it has secured Green Financing of about INR 1,190 crore (~USD 143 million) from India's largest public sector lender, the State Bank of India (SBI).

This financing will support the development of a 400 MWp utility-scale solar PV power project in the Surendra Nagar district of Gujarat. This project underlines Avaada's commitment to expanding its footprint in renewable energy, leveraging strategic financ-

ing to foster growth and innovation. The entire power generated from the project will be procured by GUVNL, an apex body of the Government of Gujarat engaged in the bulk purchase and sale of electricity. This landmark transaction marks Avaada's first endeavour in developing a greenfield project under an existing Special Purpose Vehicle (SPV) that already possesses an operational project. This strategic arrangement will enable the organization to optimize its capital structure and simplify the ownership struc-

ture of its project subsidiaries, demonstrating Avaada's approach to managing and expanding its renewable asset base.

Commenting on the significant development, Mr. Vineet Mittal, Chairman of Avaada Group, said, "This partnership not only reflects our strategic vision to build a diverse and high-quality portfolio of energy transition assets but also highlights the trust and commitment of leading financial institutions to support renewable energy projects with stable, long-term cash flows."

## Microsoft to invest \$2.2 bn to fuel Malaysia's cloud, AI transformation

New Delhi, May 2 (IANS) Microsoft on Thursday announced to invest \$2.2 billion over the next four years to advance new cloud and artificial intelligence (AI) infrastructure in Malaysia. The investment will allow Microsoft to meet the growing demand for cloud computing services in the country, as well as enable Malaysia to capitalise on the significant economic and productivity opportunities presented by the latest AI technology, according to the company. This marks the single largest investment in Microsoft's 32-year history in the country. "Our investments in digital infrastructure and skilling will help Malaysian businesses, communities, and developers apply the latest technology to drive inclusive economic growth and

innovation across the country," said Satya Nadella, Chairman and CEO, Microsoft. This investment will create AI skilling opportunities for an additional 200,000 people in the country, as well as support the growth of Malaysia's developer community. "This strategic emphasis on AI not only boosts economic growth but also promotes inclusivity by bridging the digital divide and ensuring everyone gets a seat at the table, so every Malaysian can thrive in this new digital world," said Andrea Della Mattea, President of Microsoft ASEAN. Earlier this week, Microsoft announced that it will provide AI skilling opportunities for 2.5 million people in the Association of Southeast Asian Nations (ASEAN) member states by 2025.
