India Gate Classic Sales increased by 70% in Secondary Market

Impact Associations

Company Overview

A leading branded FMCG company. India's largest producer and exporter of Basmati rice

- Established in 1889, KRBL is India's first integrated rice company.
- Present in the entire value chain from seed development and multiplication, contract farming, production to marketing.
- #1 - Basmati rice producer in India, Basmati rice exporter, Rice miller.

Business Segments

- Agriculture - comprising of agricultural commodities (96% of the total revenue).
- Energy - Power generation from Wind and Solar Power (4% of the total revenues).

Products

- Basmati & Non-basmati rice.
- 'Healthy food' segment - Sprouted Brown Rice, Quinoa, Chia Seed, Flax Seed.
- Milling by-products like bran oil, furfural and furfural alcohol, and de-oiled cakes.

Markets

- India - 35% market share in the branded Basmati rice segment (value).
- Exports to 81 countries.
- Strong presence in the Gulf Cooperation Council (GCC) countries.
- 'India Gate' has 76% market share in the 'premium' category (on RSP basis) in the GCC markets.

Manufacturing

- At 195 MT/hour, KRBL has the largest rice milling capacity in the world.
- 4 rice processing/grading plants which are based in Delhi, Punjab, Haryana and Uttar Pradesh.
- Modern packaging and foodgrain warehousing facility at Alipur and Barota units.

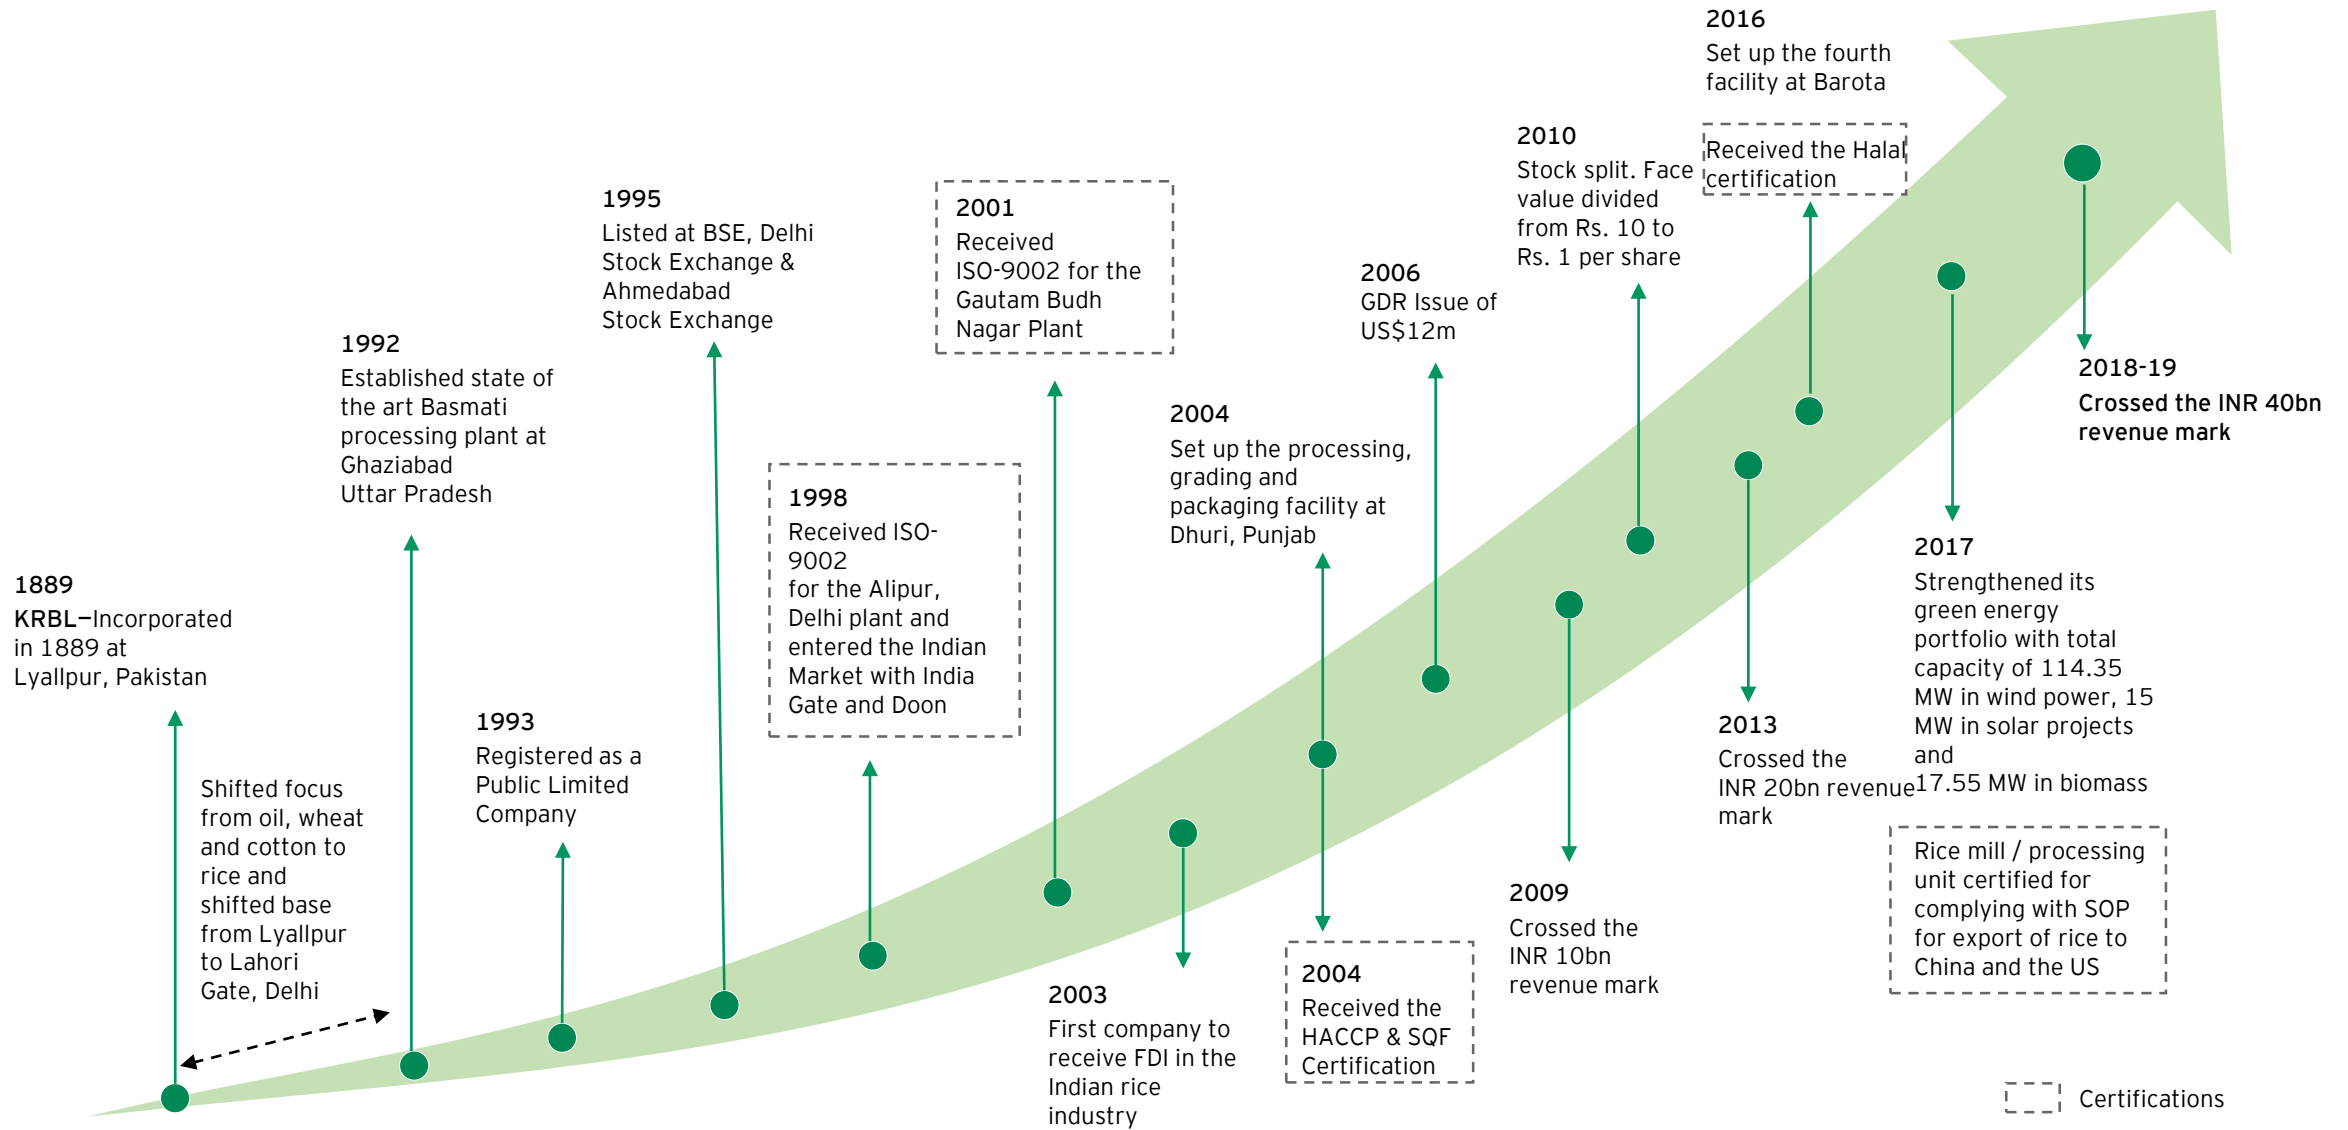

Brands

- Multi-brand presence in Indian & International markets.
- Brand names include India Gate, Doon, Nurjahan, Bemisal and Unity among others.
- Flagship Basmati Rice brand 'India Gate' commands a premium in both international and Indian markets.

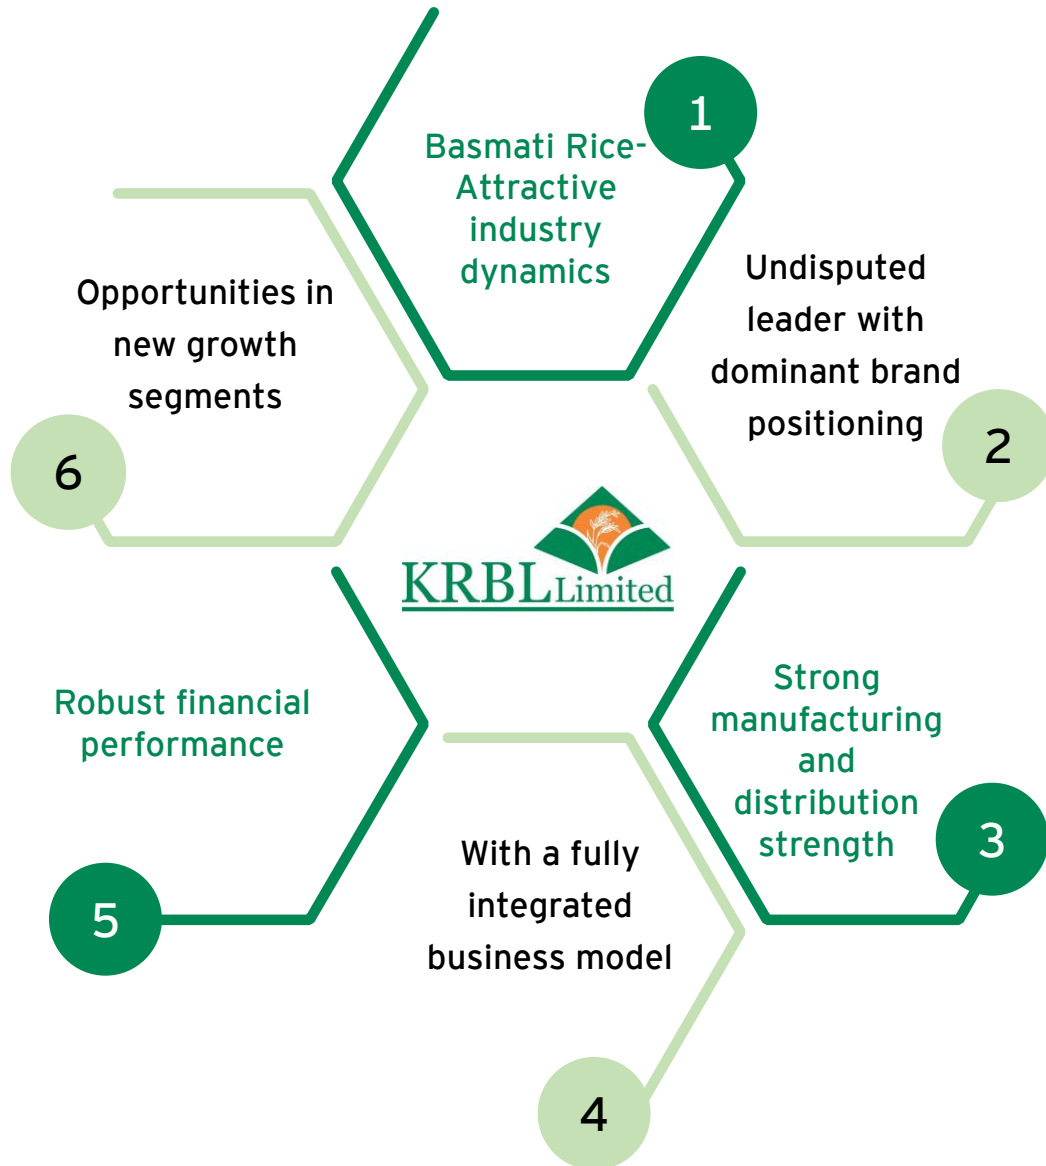

FY19 Financials (Standalone Financials)

A 130-year-old legacy - Evolution and key milestones

Key investment highlights

Basmati Rice - Attractive industry dynamics

Basmati Rice - A niche opportunity

- Basmati producing regions are limited. Exclusively grown in India and Pakistan.
- Legally enforced regional trademark. A Geographic Indication (GI) recognition for Indian Basmati rice.
- Ageing in basmati (~ 18 months) is essential as it enhances the attributes of basmati by reducing moisture content, increasing aroma, length, taste and cooking results.

Growth in India's Basmati production...

- Introduction of higher yielding and shorter duration variety has supported strong growth in Basmati production in the last two decades.
- New variety is increasingly adopted by farmers due to shorter growth cycle, lower irrigation requirements, and higher yields compared to other traditional varieties.
- Basmati rice production in 2017-18 has recovered to 9.0 MMT (1.9 million hectares) compared to 8.0 MMT (1.7 million hectares) in the previous year.

... Coupled with Indian consumption drivers

Growing urbanisation

Rising income levels

Organized Retail - Spread of modern trade

Steadily changing trend of consumers opting for quality and branded rice

India's Basmati exports ¹ - continuously rising demand

Demand | Supply dynamics in GCC importing countries ¹

KRBL is the undisputed leader of Indian Rice Industry

INDIA GATE - The flagship brand

- Largest selling brand of India.
- Well-established in both the Indian market as well as the key International markets.
- Dozens of variants aimed at different consumers and comes in a wide range of formats/sizes.

Corporate Master Chef challenge

Strong manufacturing capabilities, early investments for capacity

Manufacturing and Warehousing capability

- Manufacturing and procurement facilities in close proximity to the Basmati growing regions.
- Production capacity at 195 tonne per hour (TPH), the largest in the industry.
- Sufficient capacity for future growth, limited capex requirements.
- Long-term working relationship with Bühler since 1997. First-mover advantage in accessing the latest technology for the paddy processing industry.

Warehousing space with the most hygienic storage conditions, ongoing fumigation and safe custody of cargo. Equipped with comprehensive systems that ensure maximum protection from ground, moisture, humidity, bird droppings, rodents and infestation through micro-organisms and insects.

Location	Processes	Production capacity (MT/Hr)	Storage capacity (MT)
Gautam Budh Nagar, Uttar Pradesh	Rice processing, grading and packaging	45	405,000
Dhuri, Punjab	Rice processing, grading and packaging	150	515,000
Alipur, Delhi	Grading and packaging	–	20,000
Barota Sonipat, Haryana	Grading and packaging	–	60,000

Distribution network strength - Pan-India and International

Pan-India retail and wholesale network

- In its modern trade channel, enhanced presence to 7,530 stores*.
- Continuously improving same-store sales and category share.

Distribution tie-ups with large retailers globally

Tie-ups with major online players

- Rising opportunity from the online distribution network.
- Dedicated team of professionals to build capabilities in e-commerce channel.

* As of March 2018

Fully integrated operations; present in entire value chain

Integrated value chain - Presence across the entire value chain enables controlling costs and quality

Research-based approach and quality control focus

Seed Development

- Entered into Seed Development & Multiplication (QSDIP program).
- Dedicated team of agricultural experts who continuously research and develop new seeds with better yield.
- Developed seeds distributed to farmers under contact farming.

Strong R&D focus to improve quality

- Extensive research on various parameters such as chemistry, quality and ageing of Basmati rice to constantly improve quality.
- Team of experienced rice professionals and farmers, who blend their traditional knowledge with modern technology.
- Constant improvement of process and enhancement of operational efficiency.

Collaboration with Institutions

- Among the first in the industry to form an association with Pusa Institute, for developing better varieties of Basmati.
- Associations with leading agri-universities such as Indian Agricultural Research Institute to use studied and tested methods for quality.
- Applied for patent on nutritional enhancement of rice through processing.

Endorsement of our strong quality thrust

- Certified/registered by:
- FSSC 22000 issued by SGS
 - SGS HACCP registered
 - SQF Code Edition 7.2 issued by SGS
 - USFDA registered
 - BRC Certification issued by SGS
 - ISO 9001: 2000 certification

Deep-rooted relationships with farmers, nurtured over decades

Contact Farming

- A systematic process developed by KRBL to reach out to farmers at the field level and assist them from the time of procuring agri-inputs/seeds till the time the product is ready to be sold in the markets.
- Hand-holding the farmer every step of the way; both through On-field and Off-field support.

On-field support

- Extension officers are assigned agri-extension routes in specific areas in Uttar Pradesh, Uttarakhand and Punjab. Each route comprises of 40-50 villages in a district.
- Extension officers tour their designated districts and carry out agricultural extension activities such as:
 - ✓ Advising farmers on choice and treatment of seeds, nursery and field preparation, cultivation
 - ✓ Provision of quality seeds for cultivation
 - ✓ Harvest and post-harvest assistance
- Integrated Pest Management support - Pest identification, control, monitoring and prevention.

Off-field support

- Dissemination of information about agricultural practices, modernization and crop management to the farmers without imposing any terms and conditions on them.
- Inform farmers of latest agricultural techniques, modern cultivation technology, new varieties of pesticides and high yielding and disease-resistant varieties of seeds.
- Promote the use of hydroponic technology amongst farmers through a partnership between KRBL and Ayurvet to engage in soil-less cultivation of paddy nursery.
- Participation in farmer meetings conducted by Kisan Vigyan Kendras.
- Organise in-house Kisan Mela with partners such as Bayer Crop Science, Ayurvet and Mahindra etc.

Value-add from by-products of milling plants

Main by-products generated are Rice Bran and Paddy Husk.

- Rice Husk is an excellent source of heat energy. Sold as a fuel to produce steam and electric power.
- Paddy husk is used in the manufacture of rice husk boards, silica gel and manufacture of furfural.
- Dhuri has a 3000 TPA capacity Furfural plant and a 3000 TPA capacity plant to produce Furfuryl Alcohol from Furfural.
- Approx. 25% of Furfuryl Alcohol demand in India is met by KRBL; the rest is met by imports.
- Dhuri also has a 250 TPD capacity solvent extraction plant to produce rice bran oil which is sold to various oil refineries who refine it and sell it as an edible oil.
- Liquid Glucose is produced from smallest broken raw milled rice. KRBL operates a liquid glucose plant with a capacity of 25 TPD.

The power generation business consists of biomass, solar and wind energy plants.

- KRBL uses rice husk that's generated in its facilities to produce non-conventional power, to meet its captive power requirements.
- The Biomass division meets the internal power requirements at Dhuri and Ghaziabad plants. This division produces 17.6 MW, on account of the natural by products of rice-milling - Bran Oil, Furfural etc.
- Any excess energy generated in Biomass is sold to the Punjab State Electricity Board.
- Wind power plant capacity of 114.35 MW and Solar power plant capacity of 15 MW.

Integrating best sustainable practices, contributing to revenue

- Revenues from sale of Rice Bran Oil **increased by 65%** in FY19.
- First full year operation of Furfural oil plant (commissioned in FY17)

- Revenues from D Oil Cake business **increased by 62%**

- Power sales in FY19 **increased by 4%**.
- First full year operation of 27.3 MW wind power plant at Gujarat (commissioned in FY17)

Robust financial performance, fundamentals comparable to FMCG standards

Revenue ^{1&2} (in ₹ Crores) and Capacity Utilization ³ (%)

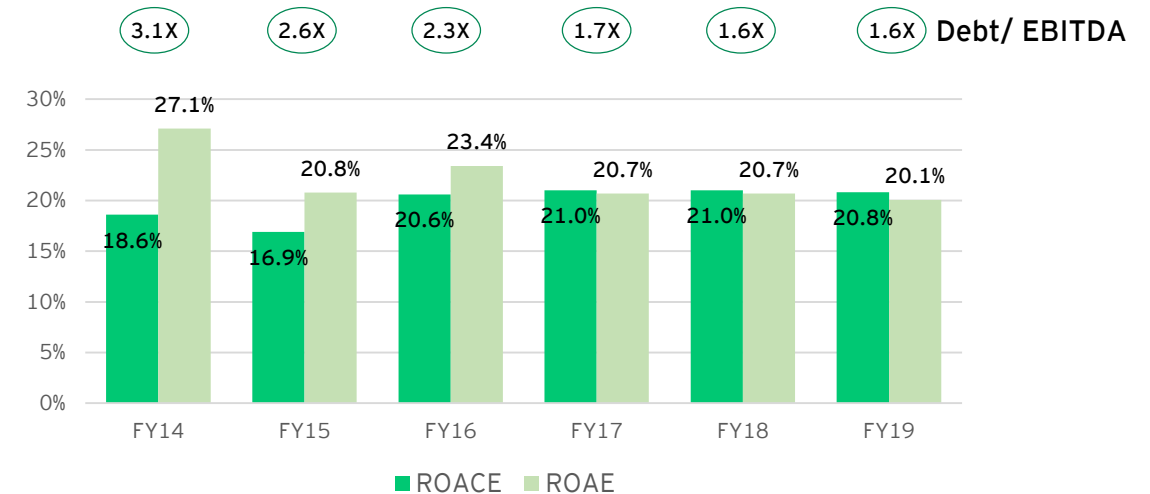

EBITDA¹ (in ₹ Crores) and EBITDA Margin (%)

PAT¹ (in ₹ Crores) and PAT Margin (%)

ROACE and ROAE ^{1&4} (%)

Note:

1 Based on Consolidated Financials

2 Based on revenue from operations which does not include other income

3 Indicates capacity utilisation of the rice business. Calculated basis the plants running on an average for 300 days a year and on an average of 20 hours per day

4. ROACE: Return on average capital employed (EBIT / Average of previous and current fiscal year's capital employed). ROAE: Return on average equity (PAT / Average of previous and current fiscal year's equity capital)

Continuous deleveraging, improving profitability

Total Debt to Equity Ratio

Interest Coverage Ratio

Current Ratio

Reduction in cash conversation cycle despite heavy procurement

#Based on standalone financials

- Net debt starts rising with the commencement of procurement of paddy in H2 every year and becomes insignificantly low by end of H1 of the next financial year. This is a cyclical phenomenon which results in near zero debt at the end of H1 every year for the company. The Inventory days follows the above trend.

- Payable days has at 17 days in H2FY19 as compared to 16 days in H2FY18.
- Receivable days at 28 days in H2FY19.

Capitalising on opportunities in new growth segments

- Constantly innovating on our offerings to the ever changing consumer preferences.
- Moving up the brand value chain. Launch of new products in 'Super Premium', 'Heath food' and 'Specialised' categories.
- Evolving into a maker of 'healthy' and consumer centric food products.
- Producer of 'healthy' food products to meet the increasing trend of consumers wanting to have healthy and nutritionally superior food.
