29<sup>th</sup> April, 2024**PRESS RELEASE****Kings Infra Ventures Limited enters into agreement with  
ICAR-CIFT for Technology Transfer**

Kings Infra Ventures Ltd has signed a Memorandum of Agreement with the Central Institute of Fisheries Technology (CIFT) on Monday 29<sup>th</sup> April, 2024 for developing ready-to-eat and serve frozen fish products.

This agreement will facilitate the Technology Transfer of ready-to-heat and serve frozen products for which the institute shall provide the technical assistance, all technical know-how and hands-on training to the personnel from Kings Infra.

Kings Infra already has an MoU with CIFT for transfer of technology and development of Ready-to-Eat seafood using retort packing.

**Indian Council of Agricultural Research-Central Institute of Fisheries  
Technology**

ICAR-CIFT is a technology Institute in India, under ICAR, which caters to the entire spectrum of fisheries from harvest to post-harvest operations. The Institute provides technologies and services to the fishing and fish processing industries in the areas of craft and gear, processing including product development, packaging and waste utilisation, nutrition, microbiology and biotechnology, engineering, quality assurance and socio-economics and extension.

The Institute is desirous of establishing close linkage with the fish and fish processing industries that are willing to take up technology to protect intellectual property rights and willing to incorporate technological changes as may be required from time to time in consultation with the Institute.

Headquartered in Kochi, Kerala CIFT has been at the forefront of developing many cutting edge research projects and product development including Chitosan, development of nano sensors for precision aquaculture, rapid testing platforms, valorisation of marine and agro-waste and SMARK PACK initiative.

**Kings Infra Ventures Limited**

Kings Infra Ventures Limited, a pioneer in India's seafood and aquaculture industry, has several diversified projects with a keen interest in translation of Research & Development to commercial enterprise.

The company is focused on farm-to-fork integration in the aquaculture and seafood industry. As a part of this initiative, Kings Infra is starting commercial production of ready-to-cook and ready-to-eat fisheries products aimed at the domestic and international market. The Company is planning to introduce the products in the domestic market in a phased manner through its own marketing network.

The Company is operating a seafood export processing plant and aquaculture farms at Thoothukudi in coastal Tamil Nadu, and has currently expanded its processing activities to Kerala.

The Company has developed 'SISTA360' protocols and harvested 80 grams size 'Vannamee' shrimps in January 2022, which is a world record in pond based 'Vannamee' culture.

The Company is listed on the Bombay Stock Exchange, actively traded and fully compliant.

**Mr Baby John Shaji, Joint Managing Director, Kings Infra Ventures Limited and Dr. George Ninan, Director, ICAR-CIFT, Cochin at the MoU signing ceremony, in the presence of Dr Bimal Prasanna Mohanty, Assistant Director General (Inland Fisheries), ICAR, New Delhi and Dr. S. Bijoy Nandan, Vice Chancellor (i/c), Kannur University.**
