CIN L74110MH1983PLC031034

- c) How to retrieve your 'initial password'?
  - (i) If your email ID is registered in your demat account or with the company, your 'initial password' is communicated to you on your email ID. Trace the email sent to you from NSDL from your mailbox. Open the email and open the attachment i.e. a .pdf file. Open the .pdf file. The password to open the .pdf file is your 8 digit client ID for NSDL account, last 8 digits of client ID for CDSL account or folio number for shares held in physical form. The .pdf file contains your 'User ID' and your 'initial password'.
  - (ii) If your email ID is not registered, please follow steps mentioned below in **process for those shareholders whose email ids are not registered.**
6. If you are unable to retrieve or have not received the "Initial password" or have forgotten your password:
  - a) Click on "**Forgot User Details/Password?**"(If you are holding shares in your demat account with NSDL or CDSL) option available on [www.evoting.nsdl.com](http://www.evoting.nsdl.com).
  - b) **Physical User Reset Password?**" (If you are holding shares in physical mode) option available on [www.evoting.nsdl.com](http://www.evoting.nsdl.com).
  - c) If you are still unable to get the password by aforesaid two options, you can send a request at [evoting@nsdl.co.in](mailto:evoting@nsdl.co.in) mentioning your demat account number/folio number, your PAN, your name and your registered address etc.
  - d) Members can also use the OTP (One Time Password) based login for casting the votes on the e-Voting system of NSDL.
7. After entering your password, tick on Agree to "Terms and Conditions" by selecting on the check box.
8. Now, you will have to click on "Login" button.
9. After you click on the "Login" button, Home page of e-Voting will open.

6. You can also take the printout of the votes cast by you by clicking on the print option on the confirmation page.
7. Once you confirm your vote on the resolution, you will not be allowed to modify your vote.

## **General Guidelines for shareholders**

1. Institutional shareholders (i.e. other than individuals, HUF, NRI etc.) are required to send scanned copy (PDF/JPG Format) of the relevant Board Resolution/ Authority letter etc. with attested specimen signature of the duly authorized signatory(ies) who are authorized to vote, to the Scrutinizer by e-mail to [pcshansagaggar@gmail.com](mailto:pcshansagaggar@gmail.com) with a copy marked to [evoting@nsdl.co.in](mailto:evoting@nsdl.co.in). Institutional shareholders (i.e. other than individuals, HUF, NRI etc.) can also upload their Board Resolution / Power of Attorney / Authority Letter etc. by clicking on "Upload Board Resolution / Authority Letter" displayed under "e-Voting" tab in their login.
2. It is strongly recommended not to share your password with any other person and take utmost care to keep your password confidential. Login to the e-voting website will be disabled upon five unsuccessful attempts to key in the correct password. ## Management Discussion and Analysis

### Global Outlook

**The global polymers market size reached USD 716.83 billion in 2022 and is expected to reach around USD 1,207.11 billion by the end of 2032, growing at a compound annual growth rate (CAGR) of 5.4% from 2023 to 2032.**

The global polymers market is booming because polymer is one of the most commonly utilized chemical products in practically all industries, including the medical, aerospace, packaging, automotive, construction, and electrical appliances industries. Because of their great performance, light weight, cost-effectiveness, and polymers are frequently employed as alternatives to items made of metal and mineral materials. The importance of the polymers market is being impacted by the expansion of the retail sector and the thriving e-commerce sector's desire for additional packaging materials.

One of the main factors driving the growth of the polymer market is the increase in demand across several end-use industries. The main factor propelling the market for polymers is the rising demand for them across a variety of sectors. The polymer is suitable for a range of end-user applications in the industry owing to a variety of advantageous characteristics. It is utilized in toys, sports, and fashion because of its great strength, stiffness, and flexibility; because it allows for simple product shaping and packing, it will expand rather than break. Polymer-based products give electrical trembling resistance, although they are electrostatically charged.

### Growth Factors

In the past, polymer goods were discarded after use, which increased the quantity of the garbage that accumulated in landfills and had negative environmental impacts. Manufacturers of polymers have started utilizing cutting-edge mechanical and chemical ways for recycling these goods as time has gone on. Because less new or fresh raw materials are used during production, reusing polymer materials has the significant benefit of lowering manufacturing costs. The main trend in the polymer industry is hence toward optimum resource usage through the recycling of polymer resources to decrease waste and foster a sustainable environment.

- The growing end user demand.
- Increasing demand for eco-friendly products.

### Key Market Drivers

#### Rising demand among end-users

- Due to numerous advantageous characteristics, polymer is suitable for a range of applications in the end-use industry. Despite its low strength and hardness, it will stretch as opposed to shatter because of its excellent ductility and robust impact

(Formerly known as Leena Consultancy Limited)

CIN L74110MH1983PLC031034

resistance. Polymer-based products provide great electrical insulation and provide resistance to electric shaking, but they also run the risk of electrostatic charge.

- Several sectors, including automotive, electrical and electronics, food and beverage, and consumer items, are becoming more dependent on polymers as a result of these properties. The growing demand, which also ensures its future prospects, further positions the polymers market positively. Car manufacturers are focusing on making their vehicles lighter in order to increase efficiency.
- The advantages of polymer material are its light weight, ease of manufacturing, sealing, and stiffness properties. The use of polymers in the food and beverage industry is rapidly increasing as a result of the rising demand from the production of materials for food and beverage packaging. To reduce the danger of food contamination and quality loss, producers prefer packaging that is effective. Polymer is being utilized more frequently in toys, sports, and fashion because of its resilience to physical stress, durability, packaging flexibility, and simplicity of product shape.

## Rising demand for bio-based polymers

- Bio-based plastics are produced entirely or in part from biological resources that are renewable. For instance, the processing of sugar cane results in the production of ethylene, which is subsequently utilised to create polyethylene. Lactic acid and then polylactic acid may be created by processing starch (PLA).
- Bio-based polymers are ideal for lowering global energy consumption, cutting back on carbon emissions, and protecting the environment. As a result, a lot of businesses are turning to this wonderful plastic substitute since it benefits both consumers and packaging businesses. It's also important to realize that renewable carbon components are included in bio-based polymers like bio-based polyethylene. This is one of the key causes for which many firms are switching to plastics derived from biomaterials rather than fossil fuels. A bio-based plastic will return to the atmosphere at the end of its life cycle, but it won't release any additional carbon dioxide into the atmosphere.

## Key Market Challenges

### Plastics' damaging impact on the environment

- Plastics may be utilized in a wide range of residential, commercial, and industrial applications because they are lightweight, strong, and corrosion-resistant. They also have excellent thermal and electrical insulation capabilities. Plastic products are less expensive than those constructed of other metals. As a result, ordinary plastic has been used more often globally during the past 20 years.
- Plastic cannot dissolve due to a number of dangerous chemical components, which limits its use in a number of end-use applications. Exposure to harmful chemicals also has a negative impact on the environment, living things, and people's health. The damaging effects of plastics on the environment are a problem for the polymer sector.
- The usage of microplastics is currently posing a greater hazard to land-based creatures and plants, including people. Thus, stricter laws are being enacted as a result of the increased environmental concern, which is impeding market expansion. Whereas, Governments all across the world have taken efforts to prohibit the plastic.

## Key Market Opportunities

### Increasing opportunities in different sectors using polymers

- The polymer industry has a promising future with opportunities in the automotive, building and construction, industrial, and packaging areas. The market for high performance polymers in the automotive sector is projected to grow by 2030. As a consequence of the increased demand for these materials for various composites used in exteriors, interiors, chassis, and structural components of cars, the market for high performance polymers in the automotive sector is growing.
- Due to the stringent pollution control regulations that have been implemented by many governments across the world, the automotive industry is placing a lot of focus on component downsizing and functional integration. As a result, OEMs are looking for novel polymers with low weight and high strength to provide affordable components with improved efficacy and performance.

### India Plastics Market Overview:

Indian plastics industry has established & expanded expressively since its beginning in 1957. The plastics industry in India has now developed to become one of the prominent areas in the nation's economy, containing of over 30,000 companies & paying more than 4 Mn people. India is also one of the world's best exporters of plastics products. The productions & exports a range of raw materials, laminates, electronic equipment, medical ware, & consumer goods. These plastic products are exported to more than 150 nations, mostly in Europe, Africa, & Asia.

Indian plastics industry also delivers plastic materials to many other industry such as automotive, consumer packaging, & electronics. Over the past few decades, the demand for Plastic has developed by 8 percent yearly. A similar development rate is anticipated to continue during the forecast period. The progress rate of the plastics industry in India is among the top in the world, with plastics consumption rising at 16 percent per year. Considering a rising middle class with low per capita consumption of plastics. This high progress rate is expected to continue, as the per capita consumption of plastics will certainly increase. Although India's plastics industry has been hit by the nation's general economic emergency over the past 2 years, with the weakening rupee, underlying economic movement rests strong as the use of plastic is increasing in more & more segments, opening new markets & substituting traditional materials.

As local plastics demand & consumption in India endure to grow at about twice the rate of country's total economy, polymers are one of the premier sectors with an anticipated growth rate of between 8-12 percent a year through 2021. India's plastics Market will see more than double its polymer consumption by the year 2022, reaching 20 Mn metric tons.

India has witnessed a rapid surge in plastic pollution in recent years, driven by the growth of its population and the corresponding increase in consumption. Rivers and oceans have become dumping grounds for plastic waste, severely impacting marine life and ecosystems. The consequences of this crisis are manifold, ranging from public health hazards to the loss of

biodiversity

and

ecological

imbalance

Recognising the situation's urgency, the Indian government took bold measures to tackle plastic pollution head-on. India took a significant step towards addressing plastic pollution by implementing a ban on manufacturing, selling, and using certain single-use plastic items, including plastic carry bags, starting from July 1, 2022. The Plastic Waste Management Rules, 2016, define carry bags and encourage manufacturers to shift to thicker plastic bags. Initially, the government prescribed a 50-micron thickness for plastic bags, replacing the previous 40-micron requirement.

While the ban on single-use plastics is a positive step towards addressing plastic pollution, it is evident that a multi-faceted approach is required. Alongside regulatory measures, there is a need for increased awareness, education, and the promotion of alternative sustainable packaging options. Collaboration between the government, businesses, and citizens is crucial in creating India's more sustainable and plastic-free future.

## INDEPENDENT AUDITOR'S REPORT

To the Members of Triliance Polymers Limited

Report on Audit of the Financial Statements

### Opinion

We have audited the accompanying financial statements of **Triliance Polymers Limited** formerly known as Leena Consultancy Limited ("the Company"), which comprise the Balance Sheet as at March 31, 2023, the Statement of Profit and Loss (including Other Comprehensive Income), Statement of Changes in Equity and the Cash Flow Statement for the year then ended on that date and a summary of significant accounting policies and other explanatory information (hereinafter referred to as "the financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2023, its loss, total comprehensive loss, its changes in equity and its cash flows for the year ended on that date.

### Basis for Opinion

We conducted our audit of financial statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those SAs are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics issued by ICAI. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the financial statements.

### Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

We have determined that there are no key audit matters to communicate in our report.

### Information Other than the Financial Statements and Auditor's Report Thereon

# TRILIANCE POLYMERS LIMITED

(Formerly known as Leena Consultancy Limited)

CIN L74110MH1983PLC031034

The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in Annual report but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

## **Responsibilities of Management and Those Charged with Governance Responsibilities for the Financial Statements**

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance (including other comprehensive income), changes in equity and cash flows of the Company in accordance with the Ind AS and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, Management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are also responsible for overseeing the Company's financial reporting process.

## **Auditor's Responsibilities for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could

# TRILIANCE POLYMERS LIMITED

(Formerly known as Leena Consultancy Limited)

CIN L74110MH1983PLC031034

reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in

our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

## **Annexure B to the Independent Auditor's Report**

**Referred to in paragraph 2(vi) under "Report on Other Legal and Regulatory Requirements" of our report on even date to the members of the Company on financial statements for the year ended March 31, 2023**

### **Opinion**

We have audited the internal financial controls with reference to financial statements of the Company as of March 31, 2023 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

In our opinion, the Company has, in all material respects, an adequate internal financial controls system with reference to financial statements and such internal financial controls with reference to financial statements were operating effectively as at March 31, 2023 based on the criteria for internal financial control with reference to financial statements criteria established by the Company considering the essential components of internal controls stated in the Guidance Note.

## **Management's Responsibility for Internal Financial Controls**

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting ('Guidance Note') issued by the ICAI. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

## **Auditor's Responsibility**

Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing specified under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both issued by ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk.

The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system with reference to financial statements.

## **Meaning of Internal Financial Controls with reference to Financial Statements**

A company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles and that receipts

and expenditures of the Company are being made only in accordance with authorizations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

## **Inherent Limitations of Internal Financial Controls with reference to Financial Statements**

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial controls with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

**(Formerly known as Leena Consultancy Limited)**  
**NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2023**

**Background**

Triliance Polymers Limited (formerly known as Leena Consultancy Limited) is a company limited by shares domiciled in India and incorporated under the provisions of the

**Summary of significant accounting policies**

This note provides a list of the significant accounting policies adopted in the presentation of these financial statements.

**1.01 BASIS OF PREPARATION**

**(i) Compliance with Ind AS :**

The financial statements comply in all material aspects with Indian Accounting Standards ("Ind AS") notified under Section 133 of the Companies Act, 2013 ("the Act"), and relevant rules issued thereunder. In accordance with proviso to the Rule 4A of the Companies (Accounts) Rules, 2014, the terms used in these financial statements are in accordance with the definitions and other requirements specified in the applicable Accounting standards.

**(ii) Authorization of financial statements**

The financial statements were approved for issue by Board Of Directors on May 26, 2023

**(iii) Historical cost convention :**

The financial statements have been prepared on a historical cost basis, except certain financial assets and liabilities is measured at fair value.

**1.02 FUNCTIONAL AND PRESENTATION CURRENCY**

These financial statements are presented in India Rupees (INR), which is also the company's functional currency. All amounts disclosed in the financial statements and notes have been rounded off to the nearest Lakhs, except where otherwise indicated.

**1.03 CURRENT VERSUS NON-CURRENT CLASSIFICATION**

The Company presents assets and liabilities in the balance sheet based on current/ non-current classification. An asset as current if it is:

- i) Expected to be realized or intended to sold or consumed in normal operating cycle,
- ii) Held primarily for the purpose of trading,
- iii) Expected to be realized within twelve months after the reporting period, or
- iv) Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

All other assets are classified as non-current.

A liability is current when:

- i) It is expected to be settled in normal operating cycle,
- ii) It is held primarily for the purpose of trading,
- iii) It is due to be settled within twelve months after the reporting period, or
- iv) There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

The Company classifies all other liabilities as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle. Based on the nature of operations, the Company has ascertained its operating cycle as twelve months for the purpose of current - non-current classification of assets and liabilities.

**1.04 USE OF JUDGEMENTS, ESTIMATES & ASSUMPTIONS**

While preparing financial statements in conformity with Ind AS, the management makes certain estimates and assumptions that require subjective and complex judgments. These judgments affect the application of accounting policies and the reported amount of assets, liabilities, income and expenses, disclosure of contingent liabilities at the statement of financial position date and the reported amount of income and expenses for the reporting period. Financial reporting results rely on our estimate of the effect of certain matters that are inherently uncertain. Future events rarely develop exactly as forecast and the best estimates require adjustments, as actual results may differ from these estimates under different assumptions or conditions. The management continually evaluate these estimates and assumptions based on the most recently available information.

Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected. In particular, information about significant areas of estimation uncertainty and critical judgments in applying accounting policies that have the most significant effect on the amounts recognized in the financial statements are as below:

**Key sources of estimation uncertainty**

- i) Financial instruments; (Refer note 17)

**1.05 CASH AND CASH EQUIVALENTS**

For the purpose of presentation in the statement of cash flows, cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

**1.06 FINANCIAL INSTRUMENTS**

Financial assets and financial liabilities are recognized when a Company becomes a party to the contractual provisions of the instruments.

**Initial Recognition and Measurement – Financial Assets and Financial Liabilities**

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss and ancillary costs related to borrowings) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognized immediately in the Statement of Profit and Loss.

However, trade receivables that do not contain a significant financing component are measured at transaction price.

#### **Classification and Subsequent Measurement: Financial Assets**

The Company classifies financial assets as subsequently measured at amortized cost, fair value through other comprehensive income ("FVTOCI") or fair value through profit or loss ("FVTPL") on the basis of following:

- the entity's business model for managing the financial assets and
- the contractual cash flow characteristics of the financial asset.

#### **Amortized Cost:**

A financial asset is classified and measured at amortized cost if both of the following conditions are met:

- the financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

#### **FVTOCI:**

A financial asset is classified and measured at FVTOCI if both of the following conditions are met:

- the financial asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

#### **FVTPL:**

A financial asset is classified and measured at FVTPL unless it is measured at amortized cost or at FVTOCI.

All recognized financial assets are subsequently measured in their entirety at either amortized cost or fair value, depending on the classification of the financial assets.

#### **Impairment of Financial Assets :**

The Company assesses on a forward looking basis the expected credit losses associated with its assets carried at amortized cost. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

#### **Classification and Subsequent measurement: Financial Liabilities**

The Company's financial liabilities include trade payables and other financial liabilities.

#### **Financial Liabilities at FVTPL:**

Financial liabilities are classified as at FVTPL when the financial liability is held for trading or are designated upon initial recognition as FVTPL. Gains or losses on financial liabilities held for trading are recognized in the Statement of Profit and Loss.

#### **Other Financial Liabilities:**

Other financial liabilities (including borrowings and trade and other payables) are subsequently measured at amortized cost using the effective interest method.

The effective interest method is a method of calculating the amortized cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability, or (where appropriate) a shorter period, to the net carrying amount on initial recognition.

#### **Derecognition of Financial Assets and Financial Liabilities:**

The Company derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred. If the Company enters into transactions whereby it transfers assets recognized on its balance sheet, but retains either all or substantially all of the risks and rewards of the transferred assets, the transferred assets are not derecognized.

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires.

### **1.07 PROVISIONS, CONTINGENT LIABILITIES AND CONTINGENT ASSETS**

Provisions are recognized when the company has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and the amount can be reliably estimated. Provisions are not recognized for future operating losses.

Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. The discount rate used to determine the present value is a current pre-tax rate. The increase in the provision due to the passage of time is recognized as interest expense.

Contingent liabilities are disclosed in the case of:

- a present obligation arising from the past events, when it is not probable that an outflow of resources will be required to settle the obligation;
- a present obligation arising from the past events, when no reliable estimate is possible;
- a possible obligation arising from past events, unless the probability of outflow of resources is remote.

Contingent Assets is disclosed when inflow of economic benefits is probable.

### **1.08 REVENUE RECOGNITION**

#### **Interest**

Interest income is recognized using the effective interest rate method taking into account the amount outstanding and the applicable interest rate. Interest income is included under the head "other income" in the Statement of Profit and Loss.

### **1.09 EARNINGS PER SHARE (EPS)**

Basic earnings per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders (after deducting attributable taxes) by the weighted average number of equity shares outstanding during the period.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders is adjusted for after income tax effect of interest and other financing cost associated with dilutive potential equity shares and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

(k) Return on investment	$\frac{\text{Net Profit}}{\text{Total Investment}}$	-	-	NA

Explanations to variations in above ratios

Return on equity, Net profit ratio and Return on capital employed: Due to no business activity in current year, there has been substantial reduction in the ratio.

For all the ratios above, there has been no turnover in the current financial year, thus the same is not calculated.

**16 Segment Reporting**

The Company has single business segment, therefore, in the context of Ind AS 108 on "disclosure of segment information" is not applicable.

**17 Financial Instruments**

**(i) Methods & assumption used to estimate the fair value**

The fair values of the financial assets and liabilities are included at the amount at which the instruments can be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

The following methods and assumptions were used to estimate the fair values:

a) The carrying amounts of cash and cash equivalents, inter corporate deposits, trade payables, other financial assets and other financial liabilities are considered to be the same as their fair values, due to their short-term nature.

b) For financial assets and liabilities that are measured at fair value, the carrying amounts are equal to the fair values.

**(ii) Categories of financial instruments**

The Company uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

Level 1: unadjusted quoted prices in active markets for identical assets or liabilities.

Level 2: directly or indirectly observable market inputs, other than level 1 inputs; and

Level 3: inputs which are not based on observable market data
