Positive market conditions coupled with synergistic market coverage driving growth

Weather :
Conducive weather for most crops with some variations from normal.

Acreages :
Increase in Rabi Rice acreages in South owing to improved irrigation availability & back-to-normal acres of Spring Corn in North; Overall good Rabi and Spring acres across country.

Commodity Price :
Stable commodity price except towards end of March due to COVID-19 leading to stable/higher acres

Sales :
Growth in CP sales on account of higher liquidation and improved channel management
Seeds' growth powered by all-time high sale of Spring Corn due to higher acres & share gain

Liquidation :
Good weather, stable commodity price leading to good acres & farmer demand
Targeted demand generation efforts backed by marketing campaigns drive growth in Bayer demand and liquidation

Synergies :
Cost efficiency measures well on track; with quick wins from integration and organisational optimisation
Leveraging mutual strength of CP & Corn Seeds to drive synergy in market coverage; early benefits seen in Roundup, Laudis and Spring Corn

Key Brands / Crops Growth-Story

Full year growth % vs PY is on proforma basis, for both charts

BCSL Outlook in sync with broad megatrends and market

Megatrends

- // Renewed focus on self-sufficiency in Food with an increasing population and increasingly volatile world trade environment
- // Continued focus on doubling farmer income & Driving sustainable agriculture
- // COVID-19 pandemic led upheaval starting March – renewed focus on Digitisation; Farm-to-Plate connect biz-models in veg & fruits and on mitigating shortage of farm labour

Market & Season

- // Good water availability, stable commodity prices and conducive weather helped increase acres of Spring Corn and positively impact farm income in Jan-Mar quarter
- // Normal monsoon forecast for 2020 augurs well for upcoming kharif
- // COVID-19 impacted operations in March and early April but now inching back to normal: Liquidity impacted due to lower ag-exports & delay in sale of produce

BCSL Outlook

- // Plant operations & warehouses back to normal after COVID-19 interruption; majority of supplies back on-track
- // Demand generation & customer outreach ongoing with focus on digital connect
- // Higher than previous year sales in Apr indicates early onset of farmer purchase this kharif; Proactive channel incentives rolled out to target higher collections

Agenda

- // Bayer Global Update
- // BCSL: Financial perspective
- // BCSL: Business update
- // Addressing the Covid-19 situation

Managing in times of Covid-19

Current Status

Field Operations

- Commercial field activities initiated since early May 2020
- A risk based approach followed considering the district zoning (red, orange & green) and keeping employee health and wellbeing as top priority.

Manufacturing & other sites

- All owned & third party manufacturing sites and warehouses are operating at high capacity
- All owned manufacturing site following Bayer Pandemic Preparedness Plan

Offices

- IT enabled Work from Home implemented since mid-March 2020
- Plan for phased opening of offices in place and communicated to employees
- Health and safety advisory shared with all employees

Necessary safety precautions, hygiene guidelines and physical distancing norms being communicated by the management on regular intervals and also being adhered to across all locations

Business initiatives during Covid-19

Support to smallholder farmers

// Bayer is partnering with its value chain partners **DeHaat** & **AgriBazaar** to facilitate direct offtake of grape produce from farmers in Maharashtra.

// Through this initiative, we are connecting grape farmers directly to bulk buyers.

// Better Life Farming Centers are helping farmers with access to agri-inputs & technology, technical advisory and market linkages

// The BLF centers have already facilitated an offtake of ~100 metric tons of vegetables despite the lockdown.

// Bayer has collaborated with India Post to set up a temporary kiosk at one of its Better Life Farming Centers for better cash liquidity for farmers.

// The Post Office brought cash, biometric scanners & smartphones, enabling cash transactions for more than 100 smallholder farmers.

Business initiatives during Covid-19

Collaborating with our stakeholders effectively

// Bayer set up an e-commerce collaboration with AgroStar for sale of seeds and crop protection inputs in North, West & Central India.

// During the lockdown, the partnership has enabled home delivery of Bayer's agri-inputs to 15,000+ farmers.

// Our 11 call centers across India continue to resolve farmer queries in 16 regional languages.

// We are extending mobile-based live audio conf. & training programs as well as internet-based platforms & digital applications, in turn benefiting 2.5 lakh farmers since the lockdown

// Engaging with multiple stakeholders including key decision makers and providing proactive inputs for critical policies thereby being a valued contributor and cementing trust.

Corporate Societal Engagement (CSE): COVID 19 Response

Protecting healthcare workers and farmers by providing consumables like masks and personal protective equipment (“PPE”), masks, etc.

Supporting communities around manufacturing sites, R&D sites, warehouse locations & offices sites with various Health & Hygiene Initiatives.

Providing support to needy - migrant workers and paramedics by providing food and other essentials.

Contributions to the Chief Minister Relief Fund (Maharashtra & Karnataka) and PM CARES fund

Key Takeaways

Strong Q4 and rebound from PY

Underlying market conditions remain intact besides COVID impact

Integration continues to be well on track

Bayer stepping-up as a strong partner, especially in times of COVID

Continued emphasis on innovative solutions and new business models as key driver of for long term value creation (accelerated due to COVID)

Thank You!
