Financial Overview – Q2 FY20 Vs. Q2 FY19

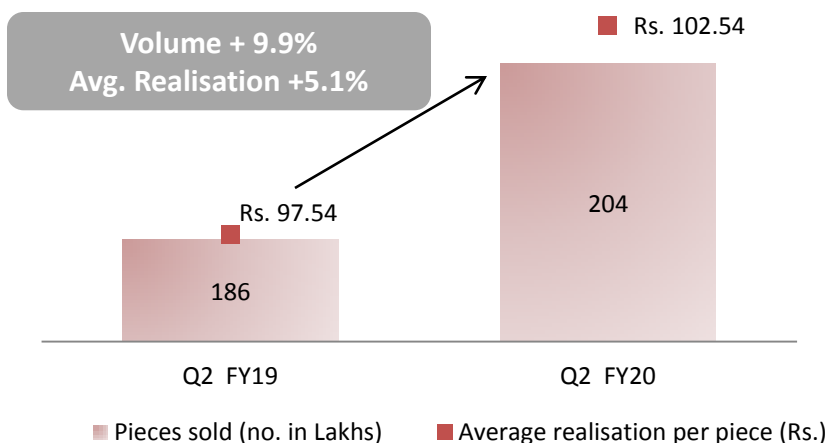

Total Income (Rs. Crore)

EBITDA & PAT (Rs. Crore)

Volume & Realisation

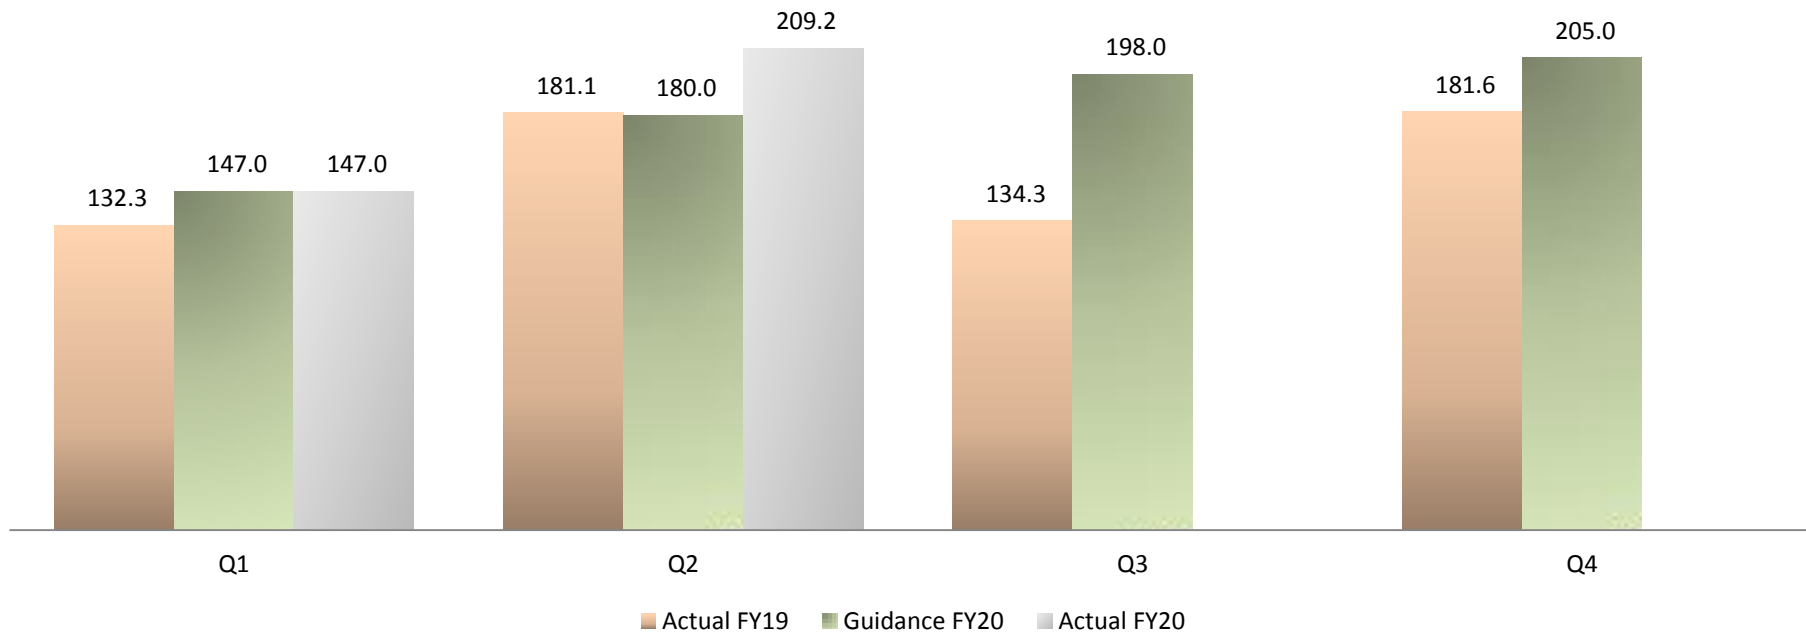

- Revenue for Q2 FY20 grew by 15.5% compared to the same period last year driven by a combination of higher sales volume and better realisation in rupee terms
- EBITDA expanded by ~5.4% in Q2 FY20 compared to the same period the previous year while EBITDA margins were affected on account of comparatively higher job work and freight charges. The Company considers this increase in expenses as a one-off phenomenon which is expected to be reversed in Q3 owing to better utilisation of in-house capacities due to increase in efficiencies on the shop floor
- The reduction in Corporate Income Tax to 22% has had a net positive impact* on Profit After Tax for Q2 FY20 to the tune of ~Rs. 5 Crores

*Tax differential on taxable income

Total Income – Results Vs. Estimates

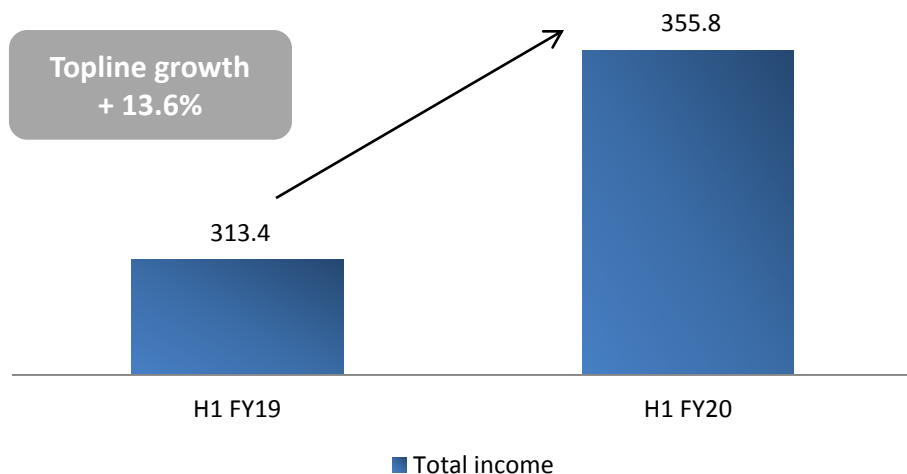

Total Income (Rs. Crore)

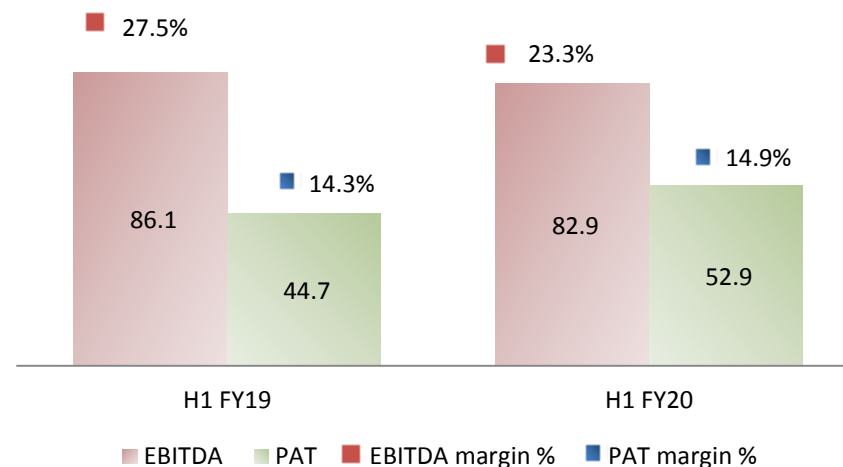

- Total Income for Q2 FY20 was 15.5% higher than Q2 FY19 and 16.2% higher than the Company's guidance for Q2 FY20

Financial Overview – H1 FY20 Vs. H1 FY19

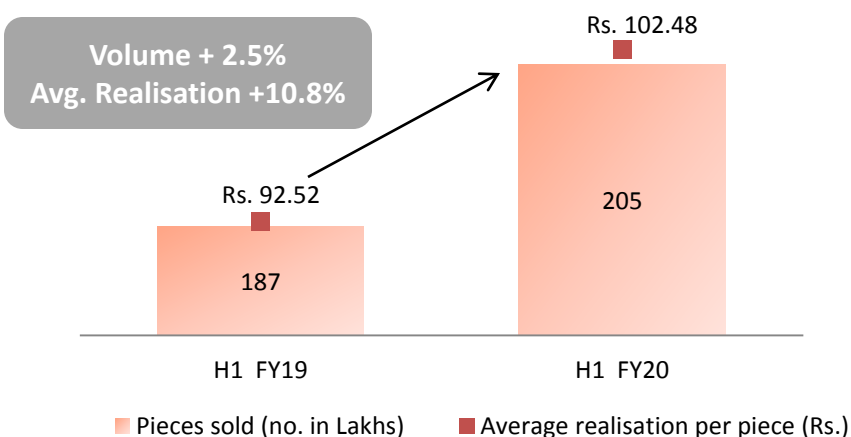

Total Income (Rs. Crore)

EBITDA & PAT (Rs. Crore)

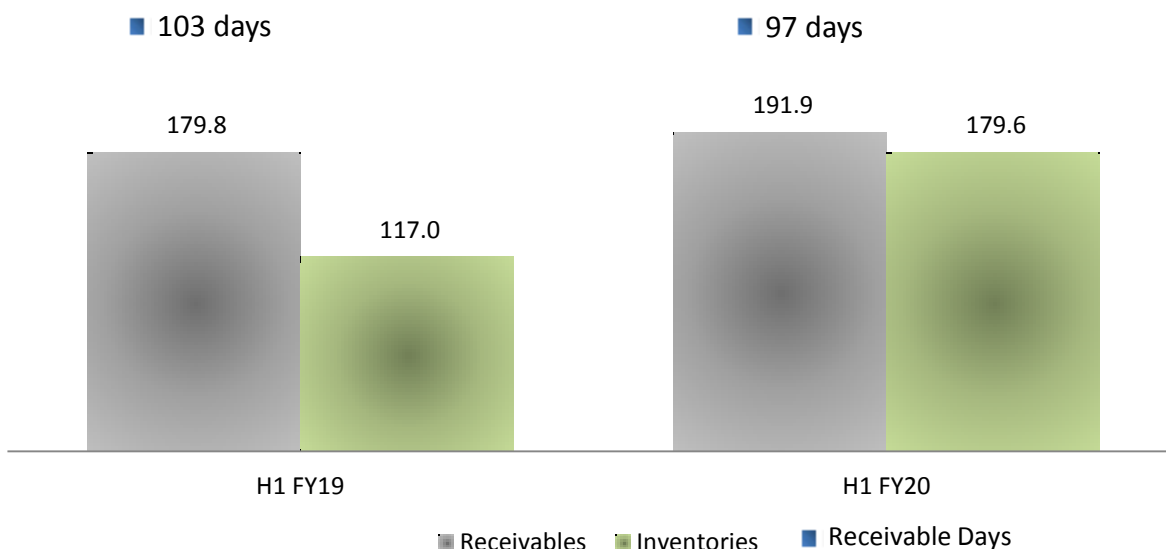

Volume & Realisation

- Total income grew by 13.6% in H1 FY20 compared to the same period last year owing to a combination of higher volumes and better average realisations in rupee terms
- EBITDA margins were impacted on account of comparatively higher job work and freight charges. The Company considers this increase an aberration, These charges are expected to be substantially reduced in H2 FY20 owing to better utilisation of in-house capacities and increase in efficiencies on the shop floor
- A reduction in Corporate Income Tax to 22% has had a net positive impact* on Profit After Tax for H1 FY20 by ~Rs. 7 Crores

*Tax differential on taxable income

Receivable & Inventory (Rs. Crore)

- Receivable days have improved to 97 days in H1 FY20 compared to the same period the previous year
- The Company held ~3 months sales equivalent of inventory as at end of H1 FY20 compared to ~67 days the previous year. This increase is in tandem with the process improvements on the shop floor aimed at improving efficiencies that has resulted in the higher turnover for the current quarter
- The Company considers the elongated working capital cycle (150 days in H1 FY20) a temporary phenomenon necessary for speeding up the production cycle. Layout improvements already executed on the shop floor and infrastructural improvements in the pipeline are expected to further normalise the working capital cycle going forward

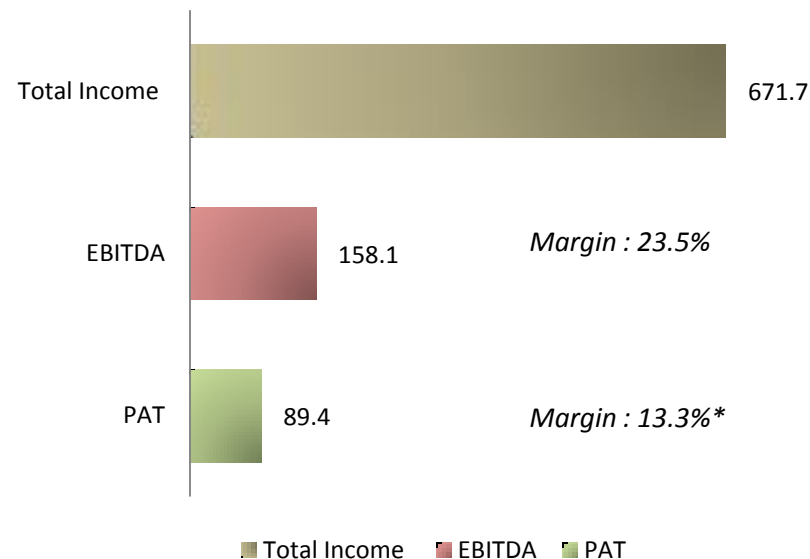

During Q2 FY20, ICRA has reaffirmed the AA- (Stable) and A1+ Credit Rating of the Company (for Term Loans and Working Capital Facilities respectively)

Trailing 12 Months Results

Total Income, EBITDA & PAT - Trailing 12 Months (Rs. Crore)

Avg. Revenue Growth of ~20% per Quarter

- Key metrics are on a positive upward trend over the past 12 months with revenue , EBITDA and PAT growing at an average quarterly rate of 20% ,29% , and 72% respectively.
- EBITDA margins over the previous 4 quarters have averaged at 23.5%
- While average PAT margin was ~8% between Q3 FY19 and Q1 FY20, the reduction in corporate income tax rates has resulted in an *18.3% margin for Q2 FY20.

About KITEX

Kitex Garments Limited (“KGL”, “the Company”) was established in 1992 and supplies to leading global brands like Gerber, Carter’s, Wal-Mart, Amazon, Target, The Children’s Place among others. KGL is among the top three manufacturers of infant wear in the world and has expanded operations into the USA as a licensee for Lamaze Organic brand of kid wear and has also registered its own brand ‘Little Star.’ As part of the expansion, KGL invested in Kitex USA LLC, a venture that has its own in-house design studio and is well-equipped to provide customers with a whole range of value-added services.

The Company enjoys a reputation for having state-of-the-art manufacturing facilities with the latest in automated machineries like automatic mixing and dispensing of dyes, chemicals and printing pastes, cold pad dyeing, fully automated robotised yarn dyeing, digital light exposing – screen engraving system, computerised precision cutting, most modern sewing machines, EDI capabilities, bar coded tracking of garments and biological ETP and waste management.
