## 6. Strengthened Recognition of the *Prakash* Brand

Through decades of quality assurance and research and development, Prakash Pipes has established itself as a strong and reputed brand. Its commitment to delivering exceptional customer service and superior products has earned a strong trust among its stakeholders.

# 7. Operational Efficiencies Derived through Backward and Forward Integration

Being strategically backward and forward integrated gives Prakash Pipes a significant level of control and influence throughout its supply chain, ensuring streamlined operations and enhanced efficiency.

# A JOURNEY OF UNLEASHING PROSPERITY AND REDEFINING VALUE

### Dear Stakeholders,

We stand tall, having been built upon the bedrock of values we've cultivated throughout the entire year. I'm grateful to be able to share this moment with you and say a few words about our remarkable journey in this fiscal year which has been filled with many learnings and immense opportunities of growth.

## Weathering Challenges, Embracing Opportunities

During FY23, the Indian economy showcased robust growth, driven by various sectors rebounding from the pandemic-induced slowdown. Despite the supply-chain disruptions, surging raw material prices and geopolitical tensions in the global economy, Prakash Pipes not only weathered the storm but also achieved recovery and progress. This success can be attributed to our strategic capacity expansion, volume growth and the continuous strong demand from the infrastructure and housing sector, further bolstered by improved customer affordability.

### Resilient Growth in the PVC Pipes & Fittings Industry

As we step into FY24, the PVC pipes & fittings industry in India anticipates remarkable growth. It is projected that the volume of PVC Pipes & Fittings production will witness an increase of 13-15%. Furthermore, the revenue generated from this growth is expected to rise by 5-8%, reflecting on the industry's resilience and potential. Looking ahead, the overall PVC pipes & fittings industry in India is on an upward trajectory, with the projected value set to reach an impressive \$10.9 billion. This remarkable growth is estimated to be driven by a CAGR of 10.30% from FY22 to FY27.

With India's economic growth remaining optimistic in 2024, we are prepared to leverage the opportunities created by the government's increased capex allocation, particularly in the construction and infrastructure sector. The construction industry in India is forecasted to grow by 12% in FY24, reaching ₹45,907 billion.

The success of our business was further fueled by various government initiatives like the Jal Jeevan Mission (JJM), Pradhan Mantri Awas Yojana - Urban (PMAY-U), Gati Shakti plan and National Infrastructure Pipeline (NIP). These initiatives, coupled with increased consumer spending and a revival in industrial activities, played a pivotal role in propelling the recovery and progress in our business.

## Expanding Horizons of the Flexible Packaging Market

In the flexible packaging industry, our significant volume growth acted as a catalyst, reinforcing the overall operational profitability. Additionally, by embracing the principles of Plastic Waste Management and Extended Producer Responsibility, we have taken initiatives to ensure sustainability and environmental stewardship. The prudent utilisation of cutting-edge technologies has enhanced production efficiency and contributed to the reduction of our ecological footprint.

Moreover, the flexible packaging market in India is anticipated to witness substantial growth, with a projected CAGR of 12.60% during the period from 2022 to 2027. As a result of this impressive growth rate, the market's size is expected to expand significantly, with an estimated increase to \$18.65 billion.

### Forging Ahead: Unfolding Values to Our Stakeholders

Driven by relentless dedication, innovation and a customercentric approach, we step into the upcoming year with confidence. Looking forward, we are positioned to harness the value we have carefully formulated, thereby reaping its numerous benefits. With the anticipation of growth in the agricultural sector in India, we are ready to address future production demands and assume a significant role in highgrowth areas like irrigation and drainage.Moreover, in line with the world's increasing awareness of sustainability, we expect a surge in demand from the flexible packaging industry.

Our goal is to enhance volume growth, thereby unveiling new dimensions of prosperity while redefining the value we provide to our stakeholders and society. Together, we are charting a path that transcends limitations, embracing a future where the potential of prosperity knows no bounds.

Warm regards,

Kanha Agarwal,

Managing Director

# DRIVING TOWARDS A RESPONSIBLE GROWTH AND SUSTAINABLE FUTURE

### 1. Pioneering sustainable solutions

Prakash Pipes is at the forefront of developing sustainable solutions by incorporating industry best practices throughout their operations. The Company adopts a sustainable approach in the manufacturing process of PVC pipes & fittings and flexible packaging products, with the aim of minimising environmental impacts. Prakash Pipes are committed to consistently reducing their environmental footprint through process control, optimized resource consumption, technology upgrades, and the implementation of environmentally safe practices. The employees involved in these efforts undergo comprehensive training. In addition to this, the Company is committed to complying with the relevant environmental legislation and regulations.

 Prakash Pipes takes the lead in fulfilling its Extended Producer's Responsibility (EPR) as mandated by the Plastic Waste Management (Amendment) Rules of 2022. The Company diligently takes part in various initiatives to effectively manage waste by adopting a comprehensive approach of recycling, reprocessing and reusing plastic waste generated

- In the PVC pipes & fittings division, Prakash Pipes have accomplished a remarkable feat by achieving 100% recycling of process waste. This was achieved through the re-grinding and reuse of PVC pipe rejects and process waste, ensuring maximum utilisation of resources and waste minimisation.
- Similarly, the Company accomplished 100% recycling of Blown Poly film waste by utilising the online re-pelletisation of side trims, rejects and process waste. This innovative method allowed for the reuse of these materials in blown film production, thereby extending its life cycle promoting sustainability.
- Prakash Pipes excels in the reprocessing of laminate waste by transforming it into lumps. These lumps are subsequently sold to manufacturers of various products such as hose pipes, chairs, flower pots, roadside barriers and plastic bricks. This novel approach not only effectively manages laminate waste but also contributes to the circular economy by repurposing materials for new applications.
- The Company has established an advanced effluent treatment plant that operates with zero liquid discharge. This plant efficiently treats hazardous water with high Total Dissolved Solids (TDS) and brings it down to the level of 500-550 TDS, while maintaining pH levels between 6 and 9. Moreover, the use of ultra-filtration technology and heaters enables evaporation, resulting in zero liquid discharge.

- To ensure zero air pollution, Prakash Pipes utilises gas-based thermic fluid heaters in its operations. This choice of equipment helps mitigate harmful emissions and promotes a cleaner working environment.
- Power efficiency meters are employed to continuously monitor and optimise power consumption in machines. This proactive approach enables the Company to efficiently utilise energy resources and contribute to overall sustainability efforts.
- An annual Energy Audit conducted by BEE certified auditors plays a crucial role in measuring energy efficiency. This comprehensive evaluation not only helps identify areas for improvement but also uncovers further possibilities for reducing power consumption, thus aligning Prakash Pipes with its commitment to responsible energy management.

### 2. Prioritising environmental stewardship

Prakash Pipes not only contributes to the business and economic landscape but also demonstrates its dedication to building a greener tomorrow. The Company undertakes impactful green initiatives that focus on essential aspects such as soil moisture retention, bio-productivity enhancement and soil erosion control measures.

To accomplish these goals, Prakash Pipes has taken proactive steps by initiating a plantation drive, successfully planting and nurturing over 250 tree saplings. This significant effort spans over more than 50% of the plant area in Kashipur, Uttarakhand, covering over 30 acres of land. Prakash Pipes allocated only half of the land for commercial activities, reserving the remaining portion for preservating the vibrant green belt surrounding the plant. This conscious decision reflects the Company's dedication of preserving the natural environment and its steadfast commitment to safeguarding and nurturing this flourishing ecosystem.

# MANAGEMENT DISCUSSION AND ANALYSIS

### 1. Indian economy

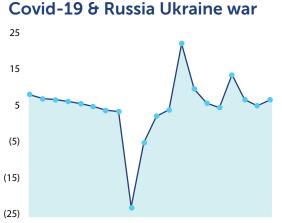

After overcoming various impediments, India is now in the spotlight, demonstrating strong momentum towards regaining its pre-pandemic growth trajectory. As the fastest-growing economy, India is estimated to have achieved a real GDP growth rate of 7% in 2022, with a nominal GDP reaching \$3.4 trillion as of March 2023. This achievement has propelled India to surpass the UK and secure its position as the fifth-largest economy.

#### (Source: Press Information Bureau PIB)

India witnessed a remarkable surge of \$770 billion in services exports encompassing IT and various professional services such as accounting, audit, research and development, quality assurance and after-sales services. Moreover, set a significant goal of achieving \$2 trillion in exports by 2030, which has accelerated efforts to enhance merchandise exports and strengthen manufacturing units in India.

However, the year has not been without its challenges for India. As a consequence of the Russia-Ukraine war, India also witnessed crude oil price volatility and high inflation rates. This collapse in the trade balance occurred during the April-December period of FY23, causing the trade deficit to increase to \$118 billion from \$57 billion for the same period in FY22. Despite this, the country exhibited resilience and managed to change the trade patterns, thus expanding its GDP by 13.50% in Q1 FY23 and 6.3% during Q2 FY23.

### (Source: Ministry of Statistics and Programme Implementation)

The Indian agricultural sector sustained a 4.6%<sup>1</sup> growth rate over the last six years, facilitated by schemes promoting agricultural development, agri insurance, increased Minimum Support Price (MSP) and Agri credit, which accelerated the PVC industry's expansion. The government also undertook other initiatives like the allocation of \$1.2<sup>2</sup> billion loan agreement for infrastructure development. These initiatives focus on projects like highway development in Assam and Tripura, metro rail connectivity in Chennai and enhancing connectivity with key economic areas in Maharashtra. Besides this, India's digital architecture, governance initiatives, vaccine diplomacy and effective Covid-19 prevention measures have also contributed to the country's social and economic recovery.

### 1.1. Outlook

India's economic growth for FY24 is expected to be optimistic, with a projected GDP growth rate of 6-6.8%<sup>3</sup>. The Union Budget FY24 reflects this positive outlook, with a significant increase in the capital investment outlay, set at ₹10 trillion, marking a 33% increase over the previous year. This demonstrates the government's commitment to meeting domestic demand sustainably and creating more employment opportunities.

The focus on higher capital expenditure (Capex), wellcapitalised public sector banks, and increased credit growth to the MSME sector are driving factors aimed at boosting economic growth. The inflation rate is predicted to decrease from  $6.8\%^4$  in FY23 to 5% in FY24, according to the IMF.

In FY24, the agricultural sector is projected to witness a growth rate of 3.6%<sup>5</sup>, with fisheries and animal husbandry making a higher contribution. The industry and services sectors are also expected to experience growth rates of 5.8% and 7.6%, respectively.

The government plans to drive investment and development in the construction sector. Consequently, the construction industry in India is expected to grow by 12.0%<sup>6</sup> in FY24, reaching ₹45,907 billion. With the increased capital expenditure allocation, steady growth is anticipated in the construction industry for FY24, with a projected growth momentum of 9.9% during FY23-FY27. The construction outlay is estimated to reach ₹66,954.8 billion by FY27.

### 2. Indian PVC pipes & fittings industry

### 2.1. Industry overview

The Indian Polyvinyl Chloride (PVC) industry is experiencing accelerated growth, driven by the increasing demand for PVC pipes & fittings in the construction and agriculture sectors. The Union Budget FY23 and various government initiatives have further amplified the Indian PVC market, with significant budget allocations for construction, infrastructure, water supply, irrigation and housing schemes. The volume growth of the PVC pipes industry is projected to reach a decade-high rate of 22-24%<sup>7</sup> after a moderate Compound Annual Growth Rate (CAGR) of 2% over the past three years, with revenue increasing by 8-10% during FY23.

Despite the decline in PVC prices and the subsequent impact on the value of pipes and fittings, manufacturers in the Indian PVC sector have witnessed substantial sales growth in the first two quarters of FY23. From April to November 2022, the cost of PVC resin decreased by 45% or ₹66 per kg, adversely affecting PVC pipes & fittings manufacturers. However, a recovery of ₹15 per kg in December 2022, coupled with increased restocking by consumers and retail chains, has led to a resurgence in PVC prices. The strong demand from the infrastructure and housing sectors has contributed to maintaining a robust growth momentum in the PVC industry, supported by affordable raw material prices.

### 2.2. Market drivers

The rise in population and infrastructure development has fuelled demand for pipes in sectors like water supply, sewage, drainage and irrigation. This has encouraged research and development in PVC products, leading to the introduction of PVC-O (oriented) pipes with superior physical and mechanical properties.

The Government initiatives and schemes to improve the infrastructure, water supply and sewage facilities created new opportunities for the implementation of PVC pipes & fittings for various applications. The Government has decided to impose anti-dumping duties on imports of CPVC resin and its compounds from China and Korea between 2020 and 2025. This will have a direct positive impact on local manufacturers.

The Government's focus on promoting the domestic electronics manufacturing industry and increased public expenditure on healthcare, along with significant budget allocations to the Ministry of Health and Family Welfare, are expected to drive demand for PVC pipes & fittings in the electronics and healthcare sectors. These factors collectively contribute to the projected growth of the PVC market in India.

### 2.3. Government initiatives

- The Union Budget FY23-24 by the Government of India has allotted a substantial amount of ₹70,000 crore for the Jal Jeevan Mission (JJM), aimed at providing clean drinking water to every rural household. This budget allocation increase is crucial, depicting a 17% increase from the previous fiscal year's budget. By the end of FY23, the 'Har Ghar Jal' has reached a significant milestone by reaching 11.66 crore (60%) rural households.
- (Source: Hindustan Times 10<sup>th</sup> May 2023)

 As of December 7, 2022, the Ministry of Housing and Urban Affairs (MoHUA) achieved a significant milestone by sanctioning 2.10 crore households under the Pradhan Mantri Awas Yojana - Urban (PMAY-U). Building upon the remarkable achievements in this initiative, the Government of India has allotted a substantial amount of ₹79,000 crore, reflecting a notable 62% increase from the previous fiscal year's Union Budget (FY22).

#### (Source: The Print)

• Prime Minister Krishi Sinchayee Yojana, aimed at achieving the vision of 'Har Khet ko pani' and enhancing water use efficiency with the mantra of 'More crop per drop'. In the Union Budget FY24, the allocation for this scheme has been increased by 21% to Rs. 8,587 crores.

#### (Source: PRS India)

- The growth of the piping industry is expected to receive further support from other government initiatives, such as the Atal Mission for Rejuvenation and Urban Transformation (AMRUT), Swachh Bharat Mission and Pradhan Mantri Krishi Sinchayee Yojana (PMKSY).
- The introduction of the Gati Shakti plan, a National Master plan for multimodal connectivity, aims to enhance logistics efficiency and improve infrastructure connectivity across the country.
- The Indian logistics market is projected to grow from \$160 billion to \$215 billion by 2024, with a CAGR of 10.5%. The government's National Logistics Policy (NLP) is focused on reducing logistics costs, achieving seamless movement of goods, and creating employment opportunities.
- The National Infrastructure Pipeline (NIP) for FY20-25, with an investment projection of around ₹111 lakh crore, aims to develop world-class infrastructure, improve quality of life and generate employment.

### 2.4. Outlook

The Indian PVC industry anticipates a volume growth of 13-15% and revenue growth of 5-8% in FY24. The overall PVC market is projected to reach \$10.9 billion with a CAGR of 10.3% during FY22-FY27. This growth is driven by increased budget allocations for government schemes in water supply, irrigation, housing, and infrastructure.

The demand for PVC pipes, particularly in agriculture, water supply, irrigation, and sewage applications, is expected to grow between 22-24%. Industrial and residential plumbing applications also contribute to the demand.

Despite price fluctuations, PVC resin production in India is estimated to grow at a CAGR of 7% during FY22-FY27, reaching a volume of 5,300.79 KMT by FY27. The Indian resin industry is moving towards self-sufficiency, as reported by Procurement Resources.

### 3. Indian flexible packaging industry

### 3.1. Industry overview

The paper and packaging industry in India is the fifthlargest, offering pricing levels 40% cheaper than European countries. Flexible packaging dominates the industry, comprising 64% of total packaging. This is due to its economic, non-rigid, and customisable nature using lightweight materials like plastic films, paper and aluminium foils.

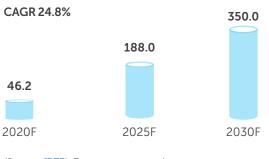

The flexible packaging sector has a reduced environmental footprint, using 70% less plastic and generating 60% fewer greenhouse gas emissions during production. The Indian flexible packaging market<sup>8</sup> was valued at ₹615.27 billion in FY21, projected to grow at a CAGR of 13.12% during FY22-FY27 to reach ₹1491.56 billion by FY27. Factors driving this growth include evolving consumer lifestyles, e-commerce expansion, and a preference for sustainable.

(Source: <sup>8</sup> Mordor Intelligence)

### 3.2. Market drivers

The Indian flexible packaging industry has witnessed a significant growth and development in the past decade. The surge in the industry can be attributed to various factors. The booming e-commerce market in India, projected to reach \$350° billion by 2030, has created a substantial demand for flexible packaging products. The online grocery market, expected to reach \$26.93 billion with a CAGR of 33%, further contributes to this demand.

(Source: IBEF's E-commerce report)

Additionally, the FMCG industry in India, which ranks as the fourth largest sector of the economy, has witnessed notable expansion. Starting from \$110<sup>10</sup> billion in FY20, it has grown at a CAGR of 14.9% and is projected to reach \$220 billion by FY25. Notably, the food services and online food delivery segment have emerged as a prominent trend in the FMCG industry, estimated to reach \$34.6 billion by FY23 with a CAGR of 19.8% during FY23-FY27, eventually reaching \$71.6 billion by FY27. With the government's conscious development plans, there is further potential for growth in the FMCG sector, particularly in online food ordering and grocery markets.

The personal care industry in India is expected to reach \$38 billion by 2028, driven by increased awareness of personal hygiene and the growing penetration of e-commerce. Overall, these factors contribute to the robust growth of the Indian flexible packaging industry.

(Source: <sup>10</sup>-IBEF <sup>11</sup> IMARC)

### 3.3. Government initiatives

- The Government of India undertook the National Packaging Initiative to enhance the Indian packaging sector. This focuses primarily on promoting the packaging sector with appropriate facilities.
- Remission of Duties and Taxes on Exported Products (RoDTEP) Scheme is a major step taken to boost Indian exports. From December 2022, chemical and pharmaceutical products are also added to the list of eligible export item. Due to this expanded list of eligible export items, there is an increasing demand in the packaging industry.
- The 'Make in India' initiative positively made a huge difference to the manufacturing units in India. It increased the infrastructure facilities, improved export facilities and advanced technology adoption. This directly or indirectly improved the potential demand of flexible packaging industries.

• The increase in Foreign Direct Investments (FDIs) and Production Linked Incentives (PLI) across multiple sectors are other government initiatives that are likely to contribute to the overall growth and provide a significant boost to the Indian Packaging industry.

### 3.4. Outlook

India's flexible packaging market is expected to grow at a CAGR of 13.12% between 2022 and 2027, and the size of the market is forecast to increase by \$18.65 billion. The booming e-commerce market and the increasing usage of online food delivery services due to urbanisation and busy lifestyles contribute to this growth. The demand for sustainable and cost-effective packaging solutions drives the preference for flexible materials.

Additionally, industrial consumption of flexible packaging is rising, especially among companies adopting ecofriendly and cost-effective packaging. Flexible packaging offers the best properties of films and plastic, making it an ideal alternative packaging solution. This trend is

### 4.3. Key ratios

expected to continue across various sectors, from FMCG to pharmaceuticals, as it improves product quality, value and marketability.

### 4. Financial performance

### 4.1. Revenue

Revenue from operations reported a 15% growth from ₹616.75 crore in FY22 to ₹709.21 crore in FY23.

### PERFORMANCE

During the year under review, the Company has achieved highest ever Net Sales of ₹709 crore as against ₹617 crore in the previous year reflecting growth of 15% over the previous year. The EBITDA for the year was ₹105 crore as against ₹80 crore in the previous year, up by 30% over the previous year. After providing for interest, depreciation and tax, the profit after tax of the Company also grew by 52% from ₹47 crore to ₹71 crore resulting in EPS of ₹30 in the current year. EBITDA for the year includes profit of ₹16 crore from sale of some assets.

During the year, the PVC pipes & fittings division registered sales volume growth of 23% over the last financial year. The stability in PVC resin prices supported by underlining demand momentum from real estate, agriculture and infrastructure sectors provided strong growth impetus. Further, the Government's continuing focus on various initiatives, like Jal Jeevan Mission, Swatch Bharat Abhiyan, Sanitation, affordable housing and smart cities is also driving the demand for PVC Pipes products.

During the year, the Flexible Packaging division also registered sales volume growth of 24% over the last financial year. The Division is closely working with customers and developing customised solutions for them. The Company expects to achieve growth in this business due to increased customer base in India and abroad.

### FUTURE PROSPECTS

The domestic plastic pipes and fittings industry is likely to cross ₹500 billion mark by FY2024, growing at a CAGR of 12-14%. The Indian industry enjoys competitive edge owing to cost-effective production, cheap labour, and easy availability of raw materials. The government's continuing focus on expanding areas under irrigation and increasing

urban infrastructure spending which augment the demand for water supply and sanitation along with affordable housing projects in urban, semi-urban and rural areas is also thriving the demand for the plastic pipe industry in the country. In this direction, the government has also allocated ₹700 billion to PM Jal Jeevan Mission and ₹790 billion to PM Awas Yojana in the Union Budget 2023-24.

The domestic packaging industry is expected to achieve significant growth in response to shifting consumer preferences, changing lifestyles, increased hygiene awareness, convenience and higher disposable income in the hands of the consumers. In particular, Flexible packaging has become the most sought-after form of packaging for the products belonging to food, pharmaceuticals, beverages, FMCG and other sectors. Further, flexible packaging is more economical as it reduces the packaging and logistics costs due to reduced weight and volume.

# **INDEPENDENT AUDITOR'S REPORT**

Τo,

THE MEMBERS OF PRAKASH PIPES LIMITED

### Report on the Audit of the Financial Statements

### **Qualified Opinion**

We have audited the accompanying financial statements of **Prakash Pipes Limited** ("the Company"), which comprise the Balance Sheet as at 31<sup>st</sup> March 2023, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year on that date and a summary of the significant accounting policies and other explanatory information (hereinafter referred to as "the financial statements").

In our opinion and to the best of our information and according to the explanations given to us, except for the effects of the matter(s) described in the Basis for Qualified Opinion section of our report, the aforesaid financial statements give the true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31<sup>st</sup> March 2023, the profit and total other comprehensive income, changes in equity and its cash flows for the year ended on that date.

### Basis of Qualified Opinion

Note 33 to the financial statement, an amount of ₹2,504 lakh have been withdrawn from general reserve to adjust equivalent amount with respect to write-off/ impairment loss of certain assets due to technology obsolesce and decline in future economic benefit. Had this adjustment not been made, net profit before and after tax and total comprehensive income after tax for the year ended on 31<sup>st</sup> March 2023 would have been lower by ₹2,504 lakh.

We conducted our audit of the financial statements in accordance with the Standards on Auditing specified under section 143(10) of the Act (SAs). Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the independence requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified audit opinion on the financial statements.

### **Key Audit Matters**

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined there are no key audit matter to communicate in our report.

# Information Other than the Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including its Annexures, Business Responsibility Report, Corporate Governance and Shareholder's Information, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

# Management's Responsibilities for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance, total comprehensive income, changes in equity and cash flows of the Company in accordance with the Ind AS and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

# Auditor's Responsibilities for the Audit of Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the financial statements that, individually or in aggregate, makes it probable that the economic decisions of a

reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in(i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with the governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

#### Report on Other Legal and Regulatory Requirements

As required by the Companies (Auditor's Report) Order, 2020 ("the Order"). Issued by the Central Government of India in terms of sub-section (11) of section 143 of the Companies Act, 2013, we give in the **"Annexure-A"** a statement on the matters specified in paragraph 3 and 4 of the order, to the extent applicable.

As required by Section 143(3) of the Act, based on our audit we report that:

- a) We have sought and except for the matter described under "Basis of Qualified Opinion" paragraph, obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
- b) Except for the effect of matter described under "Basis of Qualified Opinion" paragraph, in our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
- c) The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, Statement of Changes in Equity and the Statement of Cash Flow dealt with by this Report are in agreement with the relevant books of account.
- d) In our opinion, except for the effect of matter described under "Basis of Qualified Opinion" paragraph, the aforesaid financial statements comply with the Ind AS specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules 2014.

- e) On the basis of written representations received from the directors as on 31<sup>st</sup> March 2023 taken on the record by the Board of Directors, none of the directors is disqualified as on 31<sup>st</sup> March 2023 from being appointed as a director in terms of section 164(2) of the Act.
- f) The qualification relating to the maintenance of account other connected there with are as stated in the "Basis of Qualified Opinion" paragraph.
- g) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure-B". Our report expresses unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls over financial reporting.
- h) In our opinion and to the best of our information and according to the explanations given to us, the remuneration paid during the current year by the company to directors is in accordance with the provisions of section 197 of the Act.
- i) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended, in our opinion and to the best of our information and according to the explanations given to us:
  - i. The company does not have pending litigation hence there is no impact on its financial position in its financial statements.
  - ii. The Company has made provision, as required under the applicable law or accounting standards, for material foreseeable losses, if any, on long-term contracts including derivative contracts.
  - iii. There has been no delay in transferring amount required to be transferred, to the Investor Education and Protection Fund by the Company during the year.

- iv (a). The management has represented that, to the best of its knowledge and belief, other than as disclosed in the notes to the accounts, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person(s) or entity(ies), including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.
- iv (b). The management has represented that, to the best of its knowledge and belief, no funds have been received by the Company from any person(s) or entity(ies), including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries; and
- iv (c). Based on such audit procedures that we considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (a) and (b) contain any material misstatement.
- v. The Company has Recommended of ₹1.20 per share of ₹10.00 each during the year in compliance with Section 123 of the Act.

### ANNEXURE 'B' TO THE INDEPENDENT AUDITOR'S REPORT

(Referred to in 'Report on other Legal and Regulatory Requirement' section of our report to the Members of PRAKASH PIPES LIMITED of even date)

### Report on the Internal Financial Controls over Financial reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Prakash Pipes Limited ("the Company") as of 31<sup>st</sup> March 2023 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

# Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

### Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified audit opinion on the Company's internal financial controls system over financial reporting.

### Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorization of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements

### Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

### Opinion

In our opinion and according to the information and explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31<sup>st</sup> March 2023, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

## **Notes on Financial Statements**

### 1. Company Overview

Prakash Pipes Limited (the "Company") is a public limited company domiciled in India and is incorporated under the provisions of the Companies Act applicable in India and its equity shares are listed on the National Stock Exchange (NSE) and Bombay Stock Exchange(BSE) in India. It has been engaged primarily in the business of manufacturing of PVC pipes & fittings and Flexible packaging. The Company has its manufacturing facilities in India and sells its products in domestic as well as international market.

The financial statements for the year ended 31<sup>st</sup> March, 2023 were approved for issue in accordance with a resolution of the Board of Directors of the Company dated 23<sup>rd</sup> May 2023.

### 2. Significant Accounting policies

### 2.1 Basis of preparation

These financial statements are prepared in accordance with Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 ('the Act') read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 as amended, and presentation requirements of Schedule III to the Act under the historical cost convention on accrual basis except for certain financial instruments which are measured at fair value.

Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

The financial statements are presented in ₹, which is also the Company's functional currency and all values are rounded to the nearest lakh (₹ 00,000), except when otherwise indicated.

All assets and liabilities, other than deferred tax assets and liabilities, have been classified as current or non-current as per the Company's normal operating cycle and other criteria set out in the Schedule III (Division II) to the Act. Deferred tax assets and liabilities are classified as non-current assets and liabilities. Based on the nature of products and the time between the acquisition of assets for processing and their realisation in cash and cash equivalents, the Company has ascertained its operating cycle as 12 months for current and non-current classification of assets and liabilities.

## 2.2 Critical accounting judgements and key sources of estimation uncertainty

The preparation of the financial statements in conformity with the Ind AS requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities and disclosures as at the date of the financial statements and the reported amounts of the revenues and expenses for the years presented. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates under different assumptions and conditions.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future periods if the revision affects both current and future periods.

**Critical Judgements** In the process of applying the Company's accounting policies, management has made the following judgements, which have the most significant effect on the amounts recognized in the financial statements:

Discount rate used to determine the carrying amount of the Company's defined benefit obligation: In determining the appropriate discount rate for plans operated in India, the management considers the interest rates of government bonds in currencies consistent with the currencies of the post-employment benefit obligation.

**Contingences and commitments:** In the normal course of business, contingent liabilities may arise from litigations and other claims against the Company. Where the potential liabilities have a low probability of crystallizing or are very difficult to quantify reliably, company treats them as contingent liabilities. Such liabilities are disclosed in the notes but are not provided for in the financial statements. Although there can be no assurance regarding the final outcome of the legal proceedings, company does not expect them to have a materially adverse impact on the financial position or profitability.

### Key sources of estimation uncertainty

The key assumptions concerning the future and other key sources of estimation uncertainty at the end of the reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below:

**Income taxes:** The Company's tax jurisdiction is India. Significant judgments are involved in determining the provision for income taxes, including amount expected to be paid / recovered for uncertain tax positions.

**Useful lives of property, plant and equipment:** As described in note 2.7, the Company reviews the estimated useful lives and residual values of property, plant and equipment at the end of each reporting period. During the current financial year, the management determined that there were no

changes to the useful lives and residual values of the property, plant and equipment.

Allowances for doubtful debts: The Company makes allowances for doubtful debts based on an assessment of the recoverability of trade and other receivables. The identification of doubtful debts requires use of judgement and estimates.

## 2.3 Operating Cycle and Current versus non-current classification

The Company presents assets and liabilities in the balance sheet based on current/ non-current classification in accordance with Part-I of Division-II of Schedule III of the Companies Act, 2013.

The operating cycle is the time between the acquisition of assets for processing and their realization in cash and cash equivalents. The Company has identified twelve months as its normal operating cycle.

An asset is treated as current when it (a) Expected to be realised or intended to be sold or consumed in normal operating cycle; (b) Held primarily for the purpose of trading; or (c) Expected to be realised within twelve months after the reporting period, or (d) The asset is cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period. All other assets are classified as non-current.

A liability is current when (a) It is expected to be settled in normal operating cycle; or (b) It is held primarily for the purpose of trading; or (c) It is due to be settled within twelve months after the reporting period, or (d) There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period. Terms of a liability that could, at the option of the counterparty, results in its settlement by the issue of equity instruments do not affect its classification. The Company classifies all other liabilities as noncurrent.

#### 2.4 Revenue recognition

#### Revenue

The Company manufactures and sells a range of PVC pipes & fittings and packaging products. The disclosures of significant accounting judgments, estimates and assumptions relating to revenue from contracts with customers are provided below.

#### Sale of products

Revenue from sale of products is recognised when control of the products has transferred, being when the products are delivered to the customer. Delivery occurs when the products have been delivered to the specific location as the case may be, the risks of loss has been transferred, and either the customer has accepted the products in accordance with the sales contract, or the Company has objective evidence that all criteria for acceptance have been satisfied. Sale of products include related ancillary services, if any.

Revenue from these sales is recognised based on the price specified in the contract, net of the estimated trade discounts. Accumulated experience is used to estimate and provide for the discounts, using the most likely method, and revenue is only recognised to the extent that it is highly probable that a significant reversal will not occur.

No element of financing is deemed present as the sales are generally made with a credit term of 30-90 days, which is consistent with market practice. Any obligation to provide a refund is recognised as a provision. A receivable is recognised when the goods are delivered as this is the point in time that the consideration is unconditional because only the passage of time is required before the payment is due. The Company does not have any contracts where the period between the transfer of the promised goods or services to the customer and payment by the customer exceeds one year.

### Interest income

Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable.

### Dividends

Dividend income from investments is recognised when the Company's right to receive the payment is established, which is generally when shareholders approve the dividend.

### 2.5 Segment Reporting

Operating segments are defined as components of an enterprise for which discrete financial information is available that is evaluated regularly by the Chief Financial Officer, in deciding how to allocate resources and assessing performance. Thus, the Company's business falls under two operational segments i.e. PVC pipes & fittings and Flexible Packaging.

Segment revenue, segment expenses, segment assets and segment liabilities have been identified to segments on the basis of their relationship to the operating activities of the segment. Inter segment revenue is accounted on the basis of transactions which are primarily determined based on market / fair value factors. Revenue, expenses, assets and liabilities which relate to the Company as a whole and are not allocable to segments on a reasonable basis have been included under "unallocated revenue / expenses / assets / liabilities".

### 2.6 Government grants

Grants from the government are recognized where there is a reasonable assurance that the grant will

# 💭 Prakash 🛛

## **Notes on Financial Statements**

be received and the company will comply with all applicable conditions.

Government grants relating to income are deferred and recognized in the profit or loss over the period necessary to match them with the costs that they are intended to compensate and presented within other income.

Government grants relating to the purchase of property, plant and equipment are included in non-current liabilities as deferred income and are credited to profit or loss on a straight line basis over the expected live of the related assets and presented within other income.

### 2.7 Property, plant and equipment

Property, plant and equipment (PPE) are initially recognised at cost. The initial cost of PPE comprises its purchase price, including non-refundable duties and taxes net of any trade discounts and rebates. The cost of PPE includes interest on borrowings (borrowing cost) directly attributable to acquisition, construction or production of qualifying assets subsequent to initial recognition, PPE are stated at cost less accumulated depreciation (other than freehold land, which are stated at cost) and impairment losses, if any.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance are charged to profit or loss during the reporting period in which they are incurred.

Assets held under finance leases are depreciated over their expected useful lives on the same basis as owned assets. However, when there is no reasonable certainty that ownership will be obtained by the end of the lease term, assets are depreciated over the shorter of the lease term and useful lives.

Depreciation is recognised so as to write off the cost of assets (other than freehold land and capital work in progress) less their residual values over the useful lives, using the straight- line method ("SLM") in the manner prescribed in Schedule II of the Act. Management believes based on a technical evaluation (which is based on technical advice, taking into account the nature of the asset, the estimated usage of the asset, the operating conditions of the asset, past history of replacement, anticipated technological changes, manufacturers warranties and maintenance support, etc.) that the useful lives of the assets as considered by the company reflect the periods over which these assets are expected to be used.

The carrying values of property, plant and equipment are reviewed for impairment when events or changes in circumstances indicate that the carrying value may not be recoverable.

The residual values, useful life and depreciation method are reviewed at each financial year-end to ensure that the amount, method and period of depreciation are consistent with previous estimates and the expected pattern of consumption of the future economic benefits embodied in the items of property, plant and equipment.

### 2.8 Capital work-in-progress

Capital work-in-progress are carried at cost, comprising direct cost, related incidental expenses and attributable borrowing cost.

### 2.9 Impairment of PPE:

Property, plant and equipment with finite life are evaluated for recoverability whenever there is any indication that their carrying amounts may not be recoverable. If any such indication exists, the recoverable amount (i.e. higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the cashgenerating unit (CGU) to which the asset belongs.

If the recoverable amount of an asset (or CGU) is estimated to be less than its carrying amount, the carrying amount of the asset (or CGU) is reduced to its recoverable amount. An impairment loss is recognized in the Statement of Profit and Loss.

### 2.10 Income tax

Income tax expense comprises current tax expense and the net change in the deferred tax asset or liability during the year. Current and deferred taxes are recognised in Statement of Profit and Loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity, respectively.

**Current tax:** Current tax is measured at the amount of tax expected to be payable on the taxable income for the year as determined in accordance with the provisions of the Income Tax Act, 1961. Current tax assets and current tax liabilities are offset when there is a legally enforceable right to set off the recognized amounts and there is an intention to settle the asset and the liability on a net basis.

**Deferred tax:** Deferred income tax is recognized using the Balance Sheet approach. Deferred income tax assets and liabilities are recognised for deductible and taxable temporary differences

arising between the tax base of assets and liabilities and their carrying amount, except when the deferred income tax arises from the initial recognition of an asset or liability in a transaction that is not a business combination and affects neither accounting nor taxable profit or loss at the time of the transaction.

Deferred tax assets are recognised only to the extent that it is probable that either future taxable profits or reversal of deferred tax liabilities will be available, against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilized. The carrying amount of a deferred tax asset is reviewed at the end of each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilized.

Deferred tax assets and liabilities are measured using the tax rates and tax laws that have been enacted or substantively enacted by the end of the reporting period and are expected to apply when the related deferred tax asset is realized or the deferred tax liability is settled. Deferred tax assets and liabilities are offset when there is a legally enforceable right to set current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority.

### 2.11 Operating Leases Including Investment Properties

The Company assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

#### As a lessee

### a) Right-of-use assets

The Company recognises right-of-use assets at the commencement date of the lease (i.e. the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets.

If ownership of the leased asset transfers to the Company at the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset. The right-of-use assets are also subject to impairment. Refer to note 2.9 for accounting policies on impairment of non financial assets.

### b) Lease liabilities

At the commencement date of the lease, the Company recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments primarily comprise of fixed payments.

In calculating the present value of lease payments, the Company uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made.

## c) Short-term leases and leases of low value assets

The Company applies the short-term lease recognition exemption to its short-term leases of office spaces and certain equipment (i.e. those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemption to leases of office equipment that are considered to be low value. Lease payments on short-term leases and leases of low-value assets are recognised as expense on a straightline basis over the lease term.

#### As a lessor

Leases in which the Company does not transfer substantially all the risks and rewards incidental to ownership of an asset are classified as operating leases. Rental income arising is accounted for on a straight-line basis over the lease terms. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised over the lease term on the same basis as rental income.

#### 2.12 Cash and cash equivalents

For the purpose of presentation in the statement of cash flows, cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

### 2.13 Provisions and Contingent Liabilities

Provisions are recognised when the Company has a present obligation (legal or constructive) as a

# Prakash

## **Notes on Financial Statements**

result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Provisions are measured at the best estimate of the expenditure required to settle the present obligation at the Balance Sheet date.

If the effect of the time value of money is material, provisions are discounted to reflect its present value using a current pre-tax rate that reflects the current market assessments of the time value of money and the risks specific to the obligation. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount cannot be made.

### 2.14 Inventories

Inventories are valued at lower of cost on FIFO basis and net realisable value after providing for obsolescence and other losses, where considered necessary. Cost includes all charges in bringing the goods to their present location and condition, including octroi and other levies, transit insurance and receiving charges. Work-in-progress and finished goods include appropriate proportion of overheads and, where applicable, excise duty. Net realisable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and the estimated costs necessary to make the sale.

### 2.15 Non-derivative financial instruments

### Classification

The classification is done depending upon the Company's business model for managing the financial assets and the contractual terms of the cash flows.

For assets classified as 'measured at fair value', gains and losses will either be recorded in profit or loss or other comprehensive income, as elected. For assets classified as 'measured at amortized cost', this will depend on the business model and contractual terms of the cash flows.

#### Initial Measurement and Recognition

Financial assets and liabilities are recognised when the Company becomes a party to the contractual provisions of the instrument. Financial assets and liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value measured on initial recognition of financial asset or financial liability.

a. Financial assets – Subsequent measurement

**Financial assets at amortised cost:** Financial assets are subsequently measured at amortised cost if these financial assets are held within a business whose objective is to hold these assets in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

**Financial assets at fair value through other comprehensive income (FVTOCI):** Financial assets are measured at fair value through other comprehensive income if these financial assets are held within a business whose objective is achieved by both collecting contractual cash flows that give rise on specified dates to solely payments of principal and interest on the principal amount outstanding and by selling financial assets.

Financial assets at fair value through profit or loss (FVTPL): Financial assets are measured at fair value through profit or loss unless it is measured at amortized cost or at fair value through other comprehensive income on initial recognition. The transaction costs directly attributable to the acquisition of financial assets and liabilities at fair value through profit or loss are immediately recognised in profit or loss.

## b. Financial liabilities - Subsequent measurement

Financial liabilities are measured at amortised cost using the effective interest method. The measurement of financial liabilities depends on their classification, as described below:

**Loans and borrowings:** After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost on accrual basis.

**Composite financial Instrument:** The fair value of the liability portion of an optionally convertible bond is determined using a market interest rate for an equivalent non-convertible bond. This amount is recorded as a liability on an amortised cost basis until extinguished on conversion or redemption of the bonds. The remainder of the proceeds is attributable to the equity portion of the compound

instrument. This is recognised and included in shareholders' equity.

#### Impairment of financial assets

The Company assesses on a forward-looking basis, the expected credit losses associated with its financial assets carried at amortised cost for e.g., debt securities, deposits, trade receivables and bank balances; and lease receivables. The impairment methodology applied depends on whether there has been a significant increase in credit risk and if so, assess the need to provide for the same in the Statement of Profit and Loss.

The Company follows 'simplified approach' for recognition of impairment loss allowance on trade receivables and all lease receivables.

The application of simplified approach does not require the Company to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime expected credit losses (ECL) at each reporting date, right from its initial recognition.

For recognition of impairment loss on other financial assets and risk exposure, the Company determines whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If, in a subsequent period, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the entity reverts to recognising impairment loss allowance based on 12-month ECL.

Lifetime ECL are the expected credit losses resulting from all possible default events over the expected life of a financial instrument. The 12-month ECL is a portion of the lifetime ECL which results from default events that are possible within 12 months after the reporting date.

ECL is the difference between all contractual cash flows that are due to the Company in accordance with the contract and all the cash flows that the entity expects to receive (i.e., all cash shortfalls), discounted at the original EIR. When estimating the cash flows, an entity is required to consider all contractual terms of the financial instrument over the expected life of the financial instrument.

ECL impairment loss allowance (or reversal) recognised during the period is recognised as income/expense in the Statement of Profit and Loss. This amount is reflected under the head 'other expenses' in the Statement of Profit and Loss. The Balance Sheet presentation for various financial instruments is described below:

• Financial assets measured at amortised cost, revenue receivables and lease receivables: ECL is presented as an allowance, i.e., as an integral part of the measurement of those assets in the Balance Sheet. The allowance reduces the net carrying amount. Until the asset meets write-off criteria, the Company does not reduce impairment allowance from the gross carrying amount.

For assessing increase in credit risk and impairment loss, the Company combines financial instruments based on shared credit risk characteristics with the objective of facilitating an analysis that is designed to enable significant increases in credit risk to be identified on a timely basis.

For debt instruments at fair value through OCI, the Company applies the low credit risk simplification. At every reporting date, the Company evaluates whether the debt instrument is considered to have low credit risk using all reasonable and supportable information that is available without undue cost or effort. In making that evaluation, the Company reassesses the internal credit rating of the debt instrument.

However, in certain cases, the Company may also consider a financial asset to be in default when internal or external information indicates that the Company is unlikely to receive the outstanding contractual amounts in full before taking into account any credit enhancements held by the Company. A financial asset is written off when there is no reasonable expectation of recovering the contractual cash flows.

#### Derecognition

A financial liability is derecognised when the obligation specified in the contract is discharged, cancelled or expires.

#### c. Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in financial statements if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

### 2.16 Borrowing costs

General and specific borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalised during the period of time that is required to complete and prepare the asset for its intended use or sale otherwise to be charged to the statement

# Prakash .

## **Notes on Financial Statements**

of profit and loss. Qualifying assets are assets that necessarily take a substantial period of time to get ready for their intended use or sale.

Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation. Other borrowing costs are expensed in the period in which they are incurred.

### 2.17 Employee Benefits

Employee benefits consist of contribution to employee's state insurance, provident fund, gratuity fund and compensated absences.

### Post-employment benefit plans

### **Defined Contribution plans**

Contributions to defined contribution schemes such as employees' state insurance, labour welfare fund, employee pension scheme etc. are charged as an expense based on the amount of contribution required to be made as and when services are rendered by the employees. Company's provident fund contribution is made to a government administered fund and charged as an expense to the Statement of Profit and Loss. The above benefits are classified as Defined Contribution Schemes as the Company has no further defined obligations beyond the monthly contributions.

### Defined benefit plans

The Company operates defined benefit plan in the form of gratuity and compensated absence. The liability or asset recognised in the balance sheet in respect of its defined benefit plans is the present value of the defined benefit obligation at the end of the reporting period. The defined benefit obligation is calculated annually by actuaries using the projected unit credit method. The present value of the said obligation is determined by discounting the estimated future cash out flows, using market yields of government bonds that have tenure approximating the tenures of the related liability.

The interest expenses are calculated by applying the discount rate to the net defined benefit liability or asset. The net interest expense on the net defined benefit liability or asset is recognised in the Statement of Profit and loss.

Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the Statement of Changes in Equity and in the Balance Sheet.

Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognised immediately in profit or loss as past service cost.

The classification of the company's net obligation into current and non- current is as per the actuarial valuation report.

### 2.18 Earnings per share (EPS)

Basic EPS is computed by dividing the profit or loss attributable to the equity shareholders of the Company by the weighted average number of Ordinary shares outstanding during the year. Diluted EPS is computed by adjusting the profit or loss attributable to the ordinary equity shareholders and the weighted average number of ordinary equity shares, for the effects of all dilutive potential Ordinary shares.

#### (b) Fair value hierarchy

This section explains the judgments and estimates made in determining the fair value of the financial instruments that are (a) recognized and measured at fair value and (b) measured at amortized cost and for which fair values are disclosed in the financial statements. To provide an indication about the reliability of the inputs used in determining fair value, the company has classified its financial instruments into the three levels prescribed under the accounting standards. An explanation of each level follows underneath the table.

Level 1: The fair value of financial instrument traded in active markets (such as publicly traded derivatives and equity securities) is based on quoted market prices at the end of the reporting period.

Level 2: The fair value of financial instrument that are not traded in active markets is determined using valuation techniques which maximize the use of observable market data and rely as little as possible on entity-specific estimate. If all significant input required to fair value an instrument is observable, the instrument is included in level 2.

Level 3: If one or more of the significant input is not based on observable data, the instrument is included in level 3.

#### 42 Financial risk management and policies

#### Capital risk management

The Company manages its capital to ensure that the Company will be able to continue as going concern while maximizing the return to stakeholders through optimization of debt and equity balance. The Company is not subject to any externally imposed capital requirements.

The capital structure of the Company consists of total equity of the Company. Equity consists of equity capital and Retained Earning.

The Company manages its capital structure and makes adjustments in light of changes in economic conditions and the requirements of the financial covenants.

#### Capital management

(a) The company's objectives when managing capital are to

- Safeguard its ability to continue as a going concern, so that it can continue to provide returns to shareholders and benefits to other stakeholders, and
- Maintain an optimal capital structure to reduce the cost of capital.
- The capital structure of the Company consists of net debt (borrowings as detailed in notes 15 & 18 less cash and bank balances as detailed in note 9 & 10) and total equity of the Company. Equity consists of equity capital, share premium and all other equity reserves attributable to the equity holders.

The company's strategy is to optimize gearing ratios. The gearing ratios are as follows:

	(₹ i

#### Financial risk management

The Company's principal financial liabilities comprise loans and borrowings, trade and other payables. The main purpose of these financial liabilities is to finance and support the Company's operations. The Company's principal financial assets comprise inventories, cash and bank balance, trade and other receivables.

The financial risks are identified, measured and managed in accordance with the Company's policies and risk objectives. The Company is not exposed to any financial risks such as market risk, credit risk and liquidity risk.

#### a. Market Risk

The Company's activities expose it primarily to changes in interest rates. There have been no changes to the Company's exposure to market risk or the manner in which it manages and measures the risk in recent past.

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises two types of risk: interest rate risk and currency risk. Financial instruments affected by market risk include borrowings and bank deposits.

#### Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates is limited.

		(< In takn)
	As at 31 <sup>st</sup> March 2023	As at 31 <sup>st</sup> March 2022
Interest-rate risk exposure: the exposure of the company borrowing to interest-rate changes at the end of the reporting period		
Variable rate borrowings	-	-
Fixed rate borrowings	958	510

Sensitivity: Profit or loss is sensitive to higher/lower interest expense from borrowing as a result of change in interest rate.

#### Credit risk

Credit risk is the risk that counterparty will default on its contractual obligations resulting in financial loss to the company. The Company has adopted a policy of only dealing with creditworthy customers.

The credit limit is granted to a customer after assessing the Credit worthiness based on the information supplied by credit rating agencies, publicly available financial information or its own past trading records and trends.

As at March 31, 2023, the company did not consider there to be any significant concentration of credit risk, which had not been adequately provided for. The carrying amount of the financial assets recorded in the financial statements, grossed up for any allowances for losses, represent the maximum exposure to credit risk.

#### INSTRUCTIONS FOR REMOTE EVOTING :

The remote E-voting facility will be available during the following period :

Commencement of E-voting	Wednesday, the 27 <sup>th</sup> September, 2023 from 9.00 a.m. (IST)
End of E voting	Friday, the 29 <sup>th</sup> September, 2023 by 5.00 p.m. (IST)

- During this period shareholders' of the Company, holding shares either in physical form or in dematerialized form, as on the cut-off date 23<sup>rd</sup> September, 2023, may cast their vote electronically. The e-voting module shall be disabled by CDSL for voting thereafter
- Shareholders who have already voted prior to the meeting date would not be entitled to vote at the meeting venue.
- (iii) Pursuant to SEBI Circular No. SEBI/HO/CFD/CMD/ CIR /P/2020/242 dated 9<sup>th</sup> December, 2020, under Regulation 44 of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, listed entities are required to provide remote e-voting facility to its shareholders, in respect of all shareholders' resolutions. However, it has been observed that the participation by the public noninstitutional shareholders/ retail shareholders is at a negligible level.

Currently, there are multiple e-voting service providers (ESPs) providing e-voting facility to listed entities in India. This necessitates registration on various ESPs and maintenance of multiple user IDs and passwords by the shareholders.

- (iv) In order to increase the efficiency of the voting process, pursuant to a public consultation, it has been decided to enable e-voting to all the demat account holders, by way of a single login credential, through their demat accounts/ websites of Depositories/ Depository Participants. Demat account holders would be able to cast their vote without having to register again with the ESPs, thereby, not only facilitating seamless authentication but also enhancing ease and convenience of participating in e-voting process.
- (v) In terms of SEBI circular no. SEBI/HO/CFD/CMD/CIR/P/ 2020/242 dated 9<sup>th</sup> December, 2020 on e-Voting facility provided by Listed Companies, Individual shareholders holding securities in demat mode are allowed to vote through their demat account maintained with Depositories and Depository Participants.
