

## **Tata Power to develop 50 MW at Dholera Solar Park in Gujarat**

**National, 11 Nov, 2019** – Tata Power, India's largest integrated power company, announced that Tata Power Renewable Energy Limited (TPREL), the Company's wholly owned subsidiary, has received a Letter of Award from Gujarat Urja Vikas Nigam Limited (GUVNL) on 07<sup>th</sup> Nov 2019 to develop a 50 MW solar project in Dholera Solar Park in Gujarat. This LOA is in addition to the 250 MW Solar Project being set up by the Company at Dholera Solar Park.

The energy will be supplied to GUVNL under a Power Purchase Agreements (PPA), valid for a period of 25 years from scheduled commercial operation date. The Company has won this capacity in a bid announced by GUVNL in June 2019. The project has to be commissioned within 15 months from the date of execution of the PPA.

Speaking on this achievement, **Mr. Praveer Sinha, CEO & MD, Tata Power**, said, *"We are proud to announce that we have been awarded 50 MW Solar Project in Gujarat, and are thankful to the Government of Gujarat and the officials at GUVNL for this opportunity. With this award the cumulative capacity under development in Gujarat would be 400 MW. We are delighted to contribute towards the realisation of our country's commitment towards clean and green energy through solar power generation."*

*"We are pleased with our second win which will make us largest developer in Dholera Solar Park, we continue to demonstrate our strong commitment towards renewable energy as well as project development, engineering and execution capabilities. This is an important milestone in our endeavour to generate 35-40 per cent of Tata Power's total generation capacity from clean energy sources. We hope to continue to build on our capabilities, deliver over expectations and create high benchmarks all around."* said **Mr. Ashish Khanna, President-Renewables, Tata Power**.

The Plant is expected to generate 118 MUs of energy per year and will annually offset approximately 118 Million Kg of CO<sub>2</sub>.

### **About Tata Power Renewable Energy Limited:**

Tata Power's renewable operating capacity is 2627 MW comprising of 932 MW wind and 1695 MW solar capacity located in the various states of India including Maharashtra, Gujarat, Madhya Pradesh, Andhra Pradesh, Telangana, Punjab, Bihar, Tamil Nadu, Karnataka and Rajasthan. TPREL is a wholly owned subsidiary of Tata Power, and is Tata Power's primary investment vehicle for clean and renewable energy based power generation capacity. The company is also in the process of implementing 700 MW of renewable power projects at various locations on Greenfield basis. TPREL is seeking to grow its renewable portfolio in India and in select international markets through organic and inorganic opportunities. ### **About Tata Power:**

Tata Power is India's largest integrated power company and, together with its subsidiaries & jointly controlled entities, has an installed capacity of 11,264 MW. A pioneer in the field, it has a presence across the entire power value chain: Generation of renewable as well as conventional power including hydro and thermal energy; transmission & distribution, trading and coal & freight logistics. With renewable energy assets in solar and wind accounting for 30% of the company's portfolio, Tata Power is a leader in clean energy generation. In line with the company's view on sustainable and clean energy development, Tata Power is steering the transformation of utilities to integrated solutions by looking at new business growth in EV charging & storage, distributed generation & rooftops, microgrids and home automation & smart meters.

It has successful public-private partnerships in generation, transmission & distribution in India namely: 'Tata Power Delhi Distribution Ltd.' with Delhi Vidyut Board for distribution in North Delhi; 'Tata Power Ajmer Distribution Ltd.' with Ajmer Vidyut Vitran Nigam Ltd. for distribution in Ajmer; 'Powerlinks Transmission Ltd.' with Power Grid Corporation of India Ltd. for evacuation of Power from Tala hydro plant in Bhutan to Delhi; 'Maithon Power Ltd.' with Damodar Valley Corporation for a 1050 MW Mega Power Project at Jharkhand. Tata Power is serving more than 2.6 million distribution consumers in India and has developed the country's first 4000 MW Ultra Mega Power Project at Mundra (Gujarat) based on super-critical technology.

With growing international focus, Tata Power's global presence includes strategic investments in Indonesia through a 30% stake in the coal company PT Kaltim Prima Coal (KPC); 26% stake in mines at PT Baramulti Suksessarana Tbk (BSSR); in Singapore through Trust Energy Resources; in South Africa through a joint venture called 'Cennergi' to develop projects in sub-Saharan Africa; in Zambia through a 50:50 joint venture with ZESCO for 120 MW Hydro project; in Georgia through AGL which is a joint venture with Clean Energy, Norway & IFC for development of 187 MW hydro project; in Bhutan through a hydro project in partnership with The Royal Government of Bhutan.

With its 103 years track record of technology leadership, project execution excellence, world-class safety processes, customer care and driving green initiatives, Tata Power is poised for multi-fold growth and committed to 'lighting up lives' for generations to come.
