Management Commentary & **Business Outlook**

"Gravita is strongly progressing towards achieving its ambitious Clear Vision 2027 focusing on diversifying into new business verticals, attaining a revenue cagr and profitability growth of 25%+ and 35%+. Our strategies of expanding the capacities, increasing the proportion of value-added products and back to back hedging for risk mitigation has shown results in the form of strong and sustainable margins. We are confident that, with the same level of commitment and teamwork, we will achieve our mission to Rank among the top five global recycling companies by 2026.

Coming to Q3 & 9MFY24 performance, I am pleased to report that our company has delivered a strong financial & operational performance. Volumes, Revenue, EBITDA and PAT for nine months have increased by 5%, 12%, 19% and 24% resp. ROCE and proportion of Value-added products for 9MFY24 stood strong at 26% and 47% respectively. With the support of all the stakeholders, we are confident that we will be able to achieve our Vision 2027"

Risk Mitigation by **BACK TO BACK HEDGING** mechanism

- To mitigate the risk of commodity prices fluctuation from June, 2016
 - Metal equivalent of the scrap bought, is sold on the same day
 - Pricing against Customer contracts – Natural Hedging
 - Forward Contracts on LME Exchange for balance quantity - till final sale to customer
 - Core inventory was not part of back to back hedging
- Gravita started **hedging of core inventory** also in June, 2019 by taking a forward contact on LME Exchange.
- June, 2019 onwards Gravita is enjoys stable margins and is not affected by the commodity price fluctuations

Improving **MARKET DYNAMICS IN RECYCLING** - Paradigm Shift

Shift from **INFORMAL TO FORMAL**

With redefining of Battery Waste Management Rules (BWMR) , Extended producers responsibility (EPR) and stricter implementation of GST, the scrap availability for formal recycling sector has increased and is further expected to grow.

Informal Lead recycling trend in India

Gravita having Pan India presence and association with OEM's will benefit the most from this shift
