Separate Meeting of Independent Directors

The Independent Directors are kept informed of your Company's business activities in all areas. A separate Meeting of Independent Directors was held on 21st February, 2023 in which the Independent Directors reviewed the performance of (i) non- Independent Directors, (ii) the Board as a whole and (iii) Chairperson of your Company for the year under review.

They also assessed the quality, quantity and timeliness of flow of information between your Company's Management and the Board that are necessary for the Directors to effectively and reasonably perform their duties. Independent Directors expressed their satisfaction on the working of your Company, Board deliberation and contribution of the Chairman and other Directors in the growth of your Company. All the Independent Directors were present at the Meeting.

Board Evaluation

Pursuant to the provisions of the Act and Listing Regulations, the Board has carried out an annual performance evaluation of its own performance, the performance of Independent Directors and other Directors individually, as well as the evaluation of the working of its Committees for the Year 2023. The evaluation has been carried out based on the criteria defined by the Nomination & Remuneration Committee.

Based on the evaluation, Company expects the Board and the Directors to continue to play a constructive and meaningful role in creating value for all the stakeholders in the ensuing years.

Training and familiarization programme for Directors

Your Company has adopted the familiarization programme for independent Directors in compliance of the Regulation 25(7) of the Listing Regulations, with an aim to provide them with an insight into their roles, rights, responsibilities within your Company, the nature of the business of your Company and the business model of your Company. The Board Members are provided with necessary documents, reports and internal policies to enable them to familiarize themselves with your Company's procedures and practices.

Periodic presentations were made at the Board and its Committee Meetings, on business and performance updates of your Company, the global business environment, business strategy and various risks involved. B. TECHNOLOGY ABSORPTION

(i) Following efforts were made towards technology absorption:

- **Specific areas in which Research and Development (“R&D”) was carried out by the Company**

Year 2023 was the year of capturing value from technologies amidst pressure on prices, driving growth in new products launched over the last 3-5 years, and preparing new product launches for new applications/markets. These focus areas were critical to drive growth during subdued demand. Continued evaluation and approvals of alternate raw materials and

alternate suppliers allowed your Company to ensure reliability and continuity of business at acceptable costs. The R&D team continued to support your Company's production process through various activities to maintain a technological as well as a cost edge, provide effective solutions to customers and improve internal productivity through process improvements and introduction of new cost-effective raw materials.

The Company's R&D center was engaged in the development and launch of new insulation materials and in the absorption of technology acquired from overseas affiliates of ELANTAS division for the manufacture of certain wire enamels, varnishes and casting and potting systems to address electrical and electronic applications.

There were over 10 new product launches in 2023 across all business lines, targeting multiple end-markets such as Automotive (including E-Mobility), Power, Solar Energy and Motors / Alternators / Generators.

(ii) Benefits derived as a result of the above R & D:

- Some of the new products introduced and process improvements conducted were:
 - New differentiated potting products, conformal coatings and thermal interface materials to address specific needs of the growing E-Mobility segment.
 - Focused on growing the commercialized niche, value-added wire enamels to strengthen market leadership.
 - Cost reduction and process improvement in manufacturing using cost efficient raw materials including solvents.
 - Focused on growing new potting systems addressing unique REACH/RoHS compliance needs from customers.
 - Strong progress on localization of a global impregnation resin in the e-mobility segment.
- Future plan of action:
 - Continued efforts on efficient customer service and improved speed of product development with the newly formed teams keeping in mind the requirements for REACH/RoHS regulations.
 - Continued adaptation of new products from group companies under 'Technology Transfer' in your Company's business segments to cater to the local market.
 - Initiate and continue participation in new global R&D projects for the benefit of local and global customers.
 - Focus on establishing strength in the portfolio to address strategic markets/applications such as Electronics and E-Mobility.
 - Cost reduction based on substitution of raw materials and improvement in process efficiency.
 - Introduction of new raw materials for sustainable product development.
 - Continue participation in the M. Tech training programme for students from local Institute on subjects complementary to your Company's business.
 - Focus on additional efforts on process optimization and standardization in material production.
 - Continued focus on efficient formulation and cost management to ensure business continuity and reliability.

(iii) in case of imported technology (imported during the last three years reckoned from the beginning of the financial year)

ANNEXURE C
FORM MR-3
SECRETARIAL AUDIT REPORT

FOR THE FINANCIAL YEAR ENDED 31st DECEMBER 2023

[Pursuant to Section 204(1) of the Companies Act, 2013 and rule No.9 of the Companies
(Appointment and Remuneration Personnel) Rules, 2014]

To,
The Members,
Elantas Beck India Limited,
CIN: L24222PN1956PLC134746
147, Mumbai-Pune Road, Pimpri,
Pune – 411018

We have conducted the Secretarial Audit of the compliance of applicable statutory provisions and the adherence to good corporate practices by ELANTAS Beck India Limited (“the Company”). Secretarial Audit was conducted in a manner that provided us a reasonable basis for evaluating the corporate conducts/statutory compliances and expressing my opinion thereon.

The procedure for Secretarial Audit is selected on the Secretarial Auditor’s judgment of material facts of the documents submitted. Our responsibility is to express an opinion on the secretarial compliances of the aforesaid laws done by the Company on the basis of our audit. We have conducted the audit solely on the basis of secretarial compliances and filing done by your Company, under the below mentioned laws.

Based on our verification of the Company’s books, papers, minute books, forms and returns filed and other records maintained by the Company and also the information provided by the Company, its officers, agents and authorized representatives during the conduct of secretarial audit, we hereby make our report on the basis of our opinion during the audit conducted covering the financial year ended on 31st December 2023, on various secretarial compliances with statutory provisions listed hereunder and on Board processes and compliance mechanism to the extent, in the manner and subject to the reporting made hereinafter.

We have examined the books, papers, minute books, forms and returns filed and other records maintained by the Company for the financial year ended on 31st December 2023, according to the provisions of:

- (i) The Companies Act, 2013 (the Act) and the rules made thereunder;
- (ii) The Securities Contracts (Regulation) Act, 1956 (‘SCRA’) and the rules made thereunder;
- (iii) The Depositories Act, 1996 and the Regulations and Bye-laws framed thereunder;
- (iv) Foreign Exchange Management Act, 1999 and the rules and regulations made thereunder to the extent of Foreign Direct Investment, Overseas Direct Investment and External Commercial Borrowings;

- (v) The following Regulations and Guidelines prescribed under the Securities and Exchange Board of India Act, 1992 ('SEBI Act'):
- (a) The Securities and Exchange Board of India (Substantial Acquisition of Shares and Takeovers) Regulations, 2011;
 - (b) The Securities and Exchange Board of India (Prohibition of Insider Trading) Regulations, 2015;
 - (c) ~~The Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018~~ [Not applicable to the Company during the Audit Period];
 - (d) ~~The Securities and Exchange Board of India (Share Based Employee Benefits and Sweat Equity) Regulations, 2021~~ [Not applicable to the Company during the Audit Period];
 - (e) ~~The Securities and Exchange Board of India (Issue and Listing of Debt Securities) Regulations, 2008~~ [Not applicable to the Company during the Audit Period];
 - (f) The Securities and Exchange Board of India (Registrars to an Issue and Share Transfer Agents) Regulations, 1993 regarding the Companies Act and dealing with client;
 - (g) ~~The Securities and Exchange Board of India (Delisting of Equity Shares) Regulations, 2021~~ [Not applicable to the Company during the Audit Period];
 - (h) ~~The Securities and Exchange Board of India (Buyback of Securities) Regulations, 2018~~ [Not applicable to the Company during the Audit Period];
 - (i) ~~The Securities and Exchange Board of India (Issue and Listing of Non-Convertible Securities) Regulations, 2021~~ [Not applicable to the Company during the Audit Period]; and
 - (j) The Securities and Exchange Board of India (Listing obligations and Disclosure Requirements) Regulations, 2015.

We further report that, having regards to the business operations of the Company, in our view following are the laws specifically applicable to the Company for which we have conducted audit on test-check basis, and on the basis of representation made by the Company and its Officers considering the secretarial compliance systems prevailing in the Company:

- (a) Inflammable Substances Act, 1952;
- (b) Petroleum Act, 1934 read with Petroleum Rules, 2002;
- (c) The Hazardous and other waste (Management Handling & Transboundary Movement) Rules, 2015; and
- (d) Manufacture, Storage and Import of Hazardous Chemical Rules, 1989.

We have also examined secretarial compliances with the applicable clauses of the following:

- (i) Secretarial Standard 1 & 2 issued by The Institute of Company Secretaries of India; and
- (ii) The Listing Agreements entered into by the Company with Stock Exchange.

During the year under review the Company has complied with the provisions of the Act, Rules, Regulations, Guidelines, Standards, etc. as mentioned above.

We further report that the Board of Directors of the Company is duly constituted with proper balance of Executive Directors, Non-Executive Directors and Independent Directors including Woman Director. Further, the changes in the composition of the Board of Directors that took place during the year under review were carried out in compliance with the provisions of the Act.

As per information and representation given, we also report that adequate notice along with agenda and detailed notes on agenda of the Board meetings was given to all Directors and a system exists for seeking and obtaining further information and clarifications on the agenda items before the meeting and for meaningful participation at the meeting.

As per minutes of the meetings duly recorded and signed by the Chairman, no dissenting views have been recorded.

We further report that the compliances of applicable financial statements (including maintenance of books of account) and laws relating thereto has not been reviewed in this audit since the same has been subject to review by statutory financial audit and other designated professionals.

We further report that based on the information provided by the Company, its officers and authorised representatives during the conduct of the audit and also on the review of representation provided by the Officers, Company Secretary and Director of the Company, in our opinion adequate systems and processes and control mechanism exist in the Company to monitor and ensure compliance with the applicable laws, rules, regulations and guidelines as mentioned above.

We further report that during the audit period there were no specific events/actions having a major bearing on Company's affairs in pursuance of the above-referred laws, rules, regulations, guidelines, standards, etc.

This Report is to be read with our letter of even date which is annexed as annexure and forms an integral part of this report.

24. Overview of the entity's material responsible business conduct issues

Sr. No.	Material issues identified	Indicate whether risk or opportunity. (R/O)	Rationale for identifying the risk/opportunity	In case of risk, approach to adapt or mitigate	Financial Implications of the risk or opportunity (Indicate positive or negative implications)
1.	Emissions & Climate Change	Risk	<p>Risk: The Company recognizes that climate change and global warming pose severe climate risks for every organisation around the world. Climate risks include physical risks, transitional risk, liability risk and reputational risks.</p> <p>In addition, carbon pricing mechanisms are becoming prevalent and companies with high emission intensity will be subjected to high transactional taxes and incur high cost for energy, transport, and raw materials.</p>	We have started monitoring of our emission intensity in Scope 1 and Scope 2 categories. In regard to this, we have started actions towards reducing the GHG emissions targets in coming future. Strategically, we aim to reduce consumption of fossil fuels and transition to cleaner fuels. Further, we are planning to increase our renewable mix to reduce dependence on grid electricity.	<p>Negative:</p> <ul style="list-style-type: none"> Implementing emissions reduction measures and transitioning to low-carbon technologies may involve significant investments in the short-term.

Sr. No.	Material issues identified	Indicate whether risk or opportunity. (R/O)	Rationale for identifying the risk/opportunity	In case of risk, approach to adapt or mitigate	Financial Implications of the risk or opportunity (Indicate positive or negative implications)
2.	Circular Raw Materials and Efficient Waste Management	Opportunity	Opportunity: For us, repurposing and utilizing hazardous waste not only cuts down on the costs linked to waste disposal but also diminishes the need for acquiring fresh raw materials. We are confident that circular economy strategies would lead to product innovation and promote manufacturing with recycling in mind along with retrieval and reuse of waste.	We have collaborated with plastic collection & recycling vendors to meet EPR targets. We are also planning to increase our sale of such products where we use of Intermediate Bulk Containers (IBCs), as these are reusable in nature.	Positive: <ul style="list-style-type: none"> • Hazardous waste reuse can reduce operational costs. • Encouraging recyclability and circular economy initiatives for packing materials can lead to resource efficiency and cost control in the longer run.
3.	Occupational Health & Safety	Risk	Risk: Unsafe working environment can lead to high workplace injuries and accidents and failure to comply with occupational health and safety regulations can result in legal consequences and fines. Also, frequent accidents or health issues can lead to increased absenteeism and more lost time injury.	<ul style="list-style-type: none"> • We have implemented ISO 45000: 2018 occupational health and safety standard at both our plants. • Our operations are guided by our integrated policy on Quality, Health, Safety & Environment (QHSE) to ensure a safe and healthy working environment across all plants and offices. The Company has in place proactive measures like Hazard Identification and Risk Assessment (HIRA), Hazard and Operability study (HAZOP), and Safety Audits. • We have implemented Standard Operating Procedure (SOPs) and safety protocols for all employees and workers to follow, preventing damage to life and property. • We provide safety training to employees & workers and conduct regular risk assessments. 	Negative: <ul style="list-style-type: none"> • OHS is critical to prevent accidents and casualties. If workplace accidents or health-related problems occur, the associated costs may encompass initial medical care, hospitalization expenses, rehabilitation services, and continuous healthcare for affected employees. • Employees who are injured or unwell might need time off for recuperation, leading to reduced efficiency. This can have repercussions on overall productivity and potentially result in missed business opportunities.
4.	Energy Management	Opportunity	Opportunity: Organisations around the world are implementing energy-efficient practices and technologies, leading to significant cost savings in utility bills. We embrace energy management and consider improving our renewable mix which would lower our utility cost in the long run along with carbon footprint reduction.	We regularly undertake energy efficiency projects. In 2023 we reduced our energy intensity by 3.32% compared to 2022.	Positive: <ul style="list-style-type: none"> • Investments in energy-efficient technologies and systems may have an initial cost, but organizations can realize a positive return on investment over time through reduced energy expenses. • Energy-efficient equipment often requires less maintenance, leading to lower maintenance costs over the lifecycle of the equipment.

Sr. No.	Material issues identified	Indicate whether risk or opportunity. (R/O)	Rationale for identifying the risk/opportunity	In case of risk, approach to adapt or mitigate	Financial Implications of the risk or opportunity (Indicate positive or negative implications)
5.	Employee Engagement & Human Capital Development	Opportunity	Opportunity: It is evident that by establishing an engaging workforce with core capabilities in new and emerging skill areas will assist enhancing the business performance and encourage collaborative, innovative, and inclusive culture within the Company.	Periodic employee engagement surveys are conducted and the action areas emerging from the same are addressed appropriately.	Positive: <ul style="list-style-type: none"> Employee satisfaction ensures low attrition rate and motivation to work towards Company's goals. Workforce with diverse skills and technological capabilities help Company to adapt and transition quickly in the current market, resulting in positive financial performance of the Company.
6.	Chemical Management	Risk	Risk: We understand that improper handling, storage, or disposal of chemicals can lead to accidents, spills, leaks, or exposure, posing serious health and safety risks to employees, surrounding communities, and the environment. Further, incidents related to improper chemical management can lead to negative publicity, damage the Company's reputation, and erode consumer trust.	We abide according to the Hazardous and other Wastes (Management, and Transboundary Movement) Rules, 2016 issued by Government of India. Most of our products are compliant with RoHS regulations and product exported to European Economic Area (EEA) are also REACH (Registration, Evaluation, Authorisation and Restriction of Chemicals) compliant.	Negative: <ul style="list-style-type: none"> Accidents or regulatory non-compliance can lead to financial repercussions, including cleanup costs, legal fees, fines, and potential lawsuits. The Company may also face increased insurance premiums or difficulty while obtaining insurance coverage.
7.	Community Engagement	Opportunity	Opportunity: Positive community engagement builds a strong reputation for the Company as a responsible and socially conscious entity. Also, many investors and financial institutions look into social contributions and CSR spending of Company before investment.	We engage and address concerns of our community transparently and execute CSR initiatives to promote education to children.	Positive: <ul style="list-style-type: none"> Companies with a strong community presence can contribute positively to the society. Good community relationship can have positive impact on overall stakeholders' relationship.

Sr. No.	Material issues identified	Indicate whether risk or opportunity. (R/O)	Rationale for identifying the risk/opportunity	In case of risk, approach to adapt or mitigate	Financial Implications of the risk or opportunity (Indicate positive or negative implications)
8.	Regulatory Compliance	Risk	<p>Risk:</p> <ul style="list-style-type: none"> Chemical producers are subject to a dynamic regulatory environment influenced by laws, regulations, and policies affecting their facilities and operations. The regulations governing the storage and disposal of hazardous substances and waste are progressively becoming stringent around the globe, emphasizing the need for adaptability to meet compliance standards. For a major B2B manufacturer, it is critical to maintain regulatory compliance to improve relations with the customers. 	We regularly monitor the regulatory changes to stay updated on new requirements. Further, we assess the potential risks and non-compliance issues that may arise from regulatory requirements.	<p>Negative:</p> <ul style="list-style-type: none"> Non-compliance can result in legal actions, fines, and penalties, potentially leading to severe financial losses.

Our sustainable sourcing policy guides us on how to engage with our value chain partners on sustainability. We are dedicated to manufacturing our products responsibly and take necessary steps to ensure that the procurement process is conducted in a transparent, ethical, safe, and environmentally conscious manner.

Our sustainable procurement policy can be accessed here: <https://www.elantas.com/beck-india/financial-documents/corporate-governance-report.html>

b. If yes, what percentage of inputs were sourced sustainably?

We evaluate our suppliers based on the disclosures provided by them on the public platform and we have segregated suppliers with ISO 14001:2015, ISO 45001:2018 and other environmental & social standards implemented as sustainable suppliers. As per the evaluation, it is calculated that the Company has sourced nearly 40% of its raw materials sustainably from sustainable suppliers.

3. Describe the processes in place to safely reclaim your products for reusing, recycling, and disposing at the end of life, for (a) Plastics (including packaging) (b) E-waste (c) Hazardous waste and (d) other waste.

The Company's manufacturing facilities operate in compliance with Consents to Operate (CTO) and the Hazardous Waste Management Rules. In accordance with these regulations, the Company has diligently reported and accounted for all its waste, including plastic packaging. We try to ensure that solvents and chemicals are reused in the process before being discarded as hazardous waste. All waste generated is subsequently entrusted to authorized waste disposal service providers approved by the State Pollution Control Board. This process ensures the proper and responsible disposal of waste materials.

4. Whether Extended Producer Responsibility (EPR) is applicable to the entity's activities (Yes / No). If yes, whether the waste collection plan is in line with the Extended Producer Responsibility (EPR) plan submitted to Pollution Control Boards? If not, provide steps taken to address the same.

Yes, EPR is applicable to our activities, and we have registered as brand owner and importer with CPCB. We have established the collection plan in line with the EPR plan submitted to Pollution Control Boards. As chemical packaging is hazardous in nature and collection of hazardous packaging material requires significant investments and processes in place to recycle and reuse, therefore, EBIL has collaborated with registered recyclers / Plastic Waste Processors (PWPs) to achieve the target.

Leadership Indicators

1. Has the entity conducted Life Cycle Perspective / Assessments (LCA) for any of its products (for manufacturing industry) or for its services (for the service industry)? If yes, provide details:

EBIL proposes to conduct LCA of some of its products in the coming years. This will allow us to acquire a comprehensive idea of the environmental effects of our products at every stage of their existence. Through the implementation of LCA, we aim to pinpoint areas for enhancement, with the goal of reducing the ecological impact of our products and advancing their sustainability.

In our production process, solvents used in Wire Enamels are recovered and re-used in subsequent production batches. Part of the solvent is sold in the market depending on its quality.	1.45%	1.42%

4. Of the products and packaging reclaimed at end of life of products, amount (in metric tonnes) reused, recycled, and safely disposed:

We reclaim and reuse the intermediate bulk container or totes, which are reusable in nature, used for sale of wire enamels. For products sold in plastic or metal containers, as they contain hazardous chemicals which are used / consumed by other organisations and industries, it is not reclaimed by us.

Additionally, we train our customers on ways to safely dispose as per the applicable standards and regulations.

b. What are the processes used to identify work-related hazards and assess risks on a routine and non-routine basis by the entity?

The Company has in place Hazard Identification and Risk Assessment (HIRA), Permit to Work (PTW), and Lock Out Tag Out (LOTO) procedure in a cohesive manner, providing a comprehensive approach to identify hazards, assess risks, implement control measures, ensure compliance, and drive continuous improvement. As a result, EBIL has fostered a safety-conscious culture, leading to zero accidents and injuries, enhanced protection for personnel and assets, and improved overall operational efficiency. The Company has tailored its safety training programmes to address specific hazards associated with each job. This approach ensures that employees are equipped with the necessary knowledge and skills to perform their tasks safely and effectively.

c. Whether you have processes for workers to report the work-related hazards and to remove themselves from such risks. (Y/N)

Yes, the Company has established procedures to enable workers to report any work-related hazards they encounter and take appropriate actions to remove themselves from such risks. The processes for raising concerns or providing feedback can be done by direct interaction with the factory manager or safety officer.

d. Do the employees/ worker of the entity have access to non-occupational medical and healthcare services? (Yes/No)

Yes, employees / workers have access to non-occupational medical and healthcare services as we provide health insurance to all our employees and workers ensuring that ideal support and services are provided in case of any unforeseen event.

11. Details of safety related incidents:

Safety Incident/Number	Category	FY 2023	FY 2022

	Workers	0	0

In 2023, no employees or workers working at EBIL had any minor / major incidents resulting in any Lost Time Injury.

12. Describe the measures taken by the entity to ensure a safe and healthy workplace.

We have taken several measures to ensure a safe and healthy working environment for all employees, workers, and other stakeholders such as visitors. Some key measure implemented at our plants to ensure a safe and healthy workplace are as follows:

- a) **Provision of Personal Protective Equipment (PPE):** We ensure that all the employees and workers working in our plants have access to appropriate PPE to protect themselves from potential hazards.
- b) **Regular 5S (Sort, Set in order, Shine, Standardize, and Sustain) and Safety Audits:** We conduct periodic audits, including 5S and safety audits, to evaluate and improve the overall safety standards within the Company.
- c) **Effective Permit to Work (PTW) System:** The Company has implemented a PTW system to ensure that non-routine work activities are authorized, monitored, and conducted safely.
- d) **Installation of a Complete Fire Hydrant System:** Fire hydrant systems are installed at key locations with fire extinguishers to effectively address fire-related risks. Recently, we also had a fire safety audit by an external agency to identify possible gaps in our safety practices and address the same.
- e) **Availability of Safe Emergency Assembly Area:** A designated emergency assembly area is provided to ensure the safe gathering of individuals during emergencies.

- f) **Defined Safety and Health Standard Operating Procedures (SOPs):** The Company has established clear and communicated SOPs related to safety and health, ensuring that employees are aware of and adhere to safety protocols.
- g) **Health and Safety Trainings and Mock Drills:** The Company conducts regular health and safety trainings as well as mock drills at all locations to prepare employees and workers for emergency situations and reinforce safety practices.

By implementing these measures, we aim to create a safe and healthy work environment that prioritizes the well-being and safety of all individuals associated with the Company.

13. Number of Complaints on the following made by employees and workers:

	(Y/N)
Employees	Y
Workers	Y

2. Provide the measures undertaken by the entity to ensure that statutory dues have been deducted and deposited by the value chain partners.

The Company has implemented a standard procedure to verify that its value chain partners have deducted and remitted their statutory dues. Adherence to the applicable statutory provisions including payment and deduction of statutory dues is incorporated in the Purchase Order / contract agreement with the value chain partners. Before approving the monthly bills from contractors, the contractors are required to provide copies of the wage register and PF / ESI challans for the relevant month as evidence of wage payments and PF / ESI contributions for their workers. Once these documents are verified, EBIL proceeds to approve the contractors monthly bills for payments.

3. Provide the number of employees / workers having suffered high consequence work-related injury / ill-health / fatalities (as reported in Q11 of Essential Indicators above), who have been rehabilitated and placed in suitable employment or whose family Members have been placed in suitable employment:

	Total no. of affected employees/ workers		No. of employees/workers that are rehabilitated and placed in suitable employment or whose family Members have been placed in suitable employment

Employees	0	0	0	0
Workers	0	0	0	0

4. Does the entity provide transition assistance programmes to facilitate continued employability and the management of career endings resulting from retirement or termination of employment? (Yes/ No)

No, we currently do not have a transition assistance programme for our employees, who are in the separation stage, but we are assessing the programmes that we could offer in the upcoming years in order to facilitate continued employability due to career endings resulting from retirement or employment termination.

5. Details on assessment of value chain partners:

We currently assess/evaluate our new suppliers on various environmental and social parameters including health and safety practices as well as on their working conditions during the onboarding but do not conduct yearly assessments. The reported figure is based on the assessment done for new suppliers in FY 23 during their on-boarding.

Further, we are in the process to finalize mechanism to conduct assessment for all our suppliers on health & safety practices and working conditions.

	% of value chain partners (by value of business done with such partners) that were assessed
Health and safety practices	2.9%
Working Conditions	2.9%

6. Provide details of any corrective actions taken or underway to address significant risks / concerns arising from assessments of health and safety practices and working conditions of value chain partners.

No significant risks/concerns were identified based on our assessments of health and safety practices and working conditions of our new suppliers.

PRINCIPLE 4: Businesses should respect the interests of and be responsive to all its stakeholders.

Essential Indicators

1. Describe the processes for identifying key stakeholder groups of the entity.

EBIL categorizes its primary stakeholders as individuals or groups who experience a substantial impact from the Company's activities or hold the potential to exert a significant influence on the Company's operations. Consistently engaging with these stakeholders aids the Company in comprehending their requirements and expectations, evaluating them internally, and integrating them into the formulation of strategies, plans, and business activities. While stakeholder engagement is a part of day-to-day routine, over the years, the Company has engaged with the following major stakeholder groups that influence or are influenced by activities of EBIL:

- I. Shareholders
- II. Government and Regulatory Bodies
- III. Dealers and distributors
- IV. Customers
- V. Banks / Financial Institutions
- VI. Employees
- VII. Insurers
- VIII. External providers: suppliers, vendors & contractors (Onsite)
- IX. Local residents/communities

The Company engages with them through multiple channels such as formal meetings, customer helplines, industry forums, dealer / distributor / conventions, surveys amongst others.

2. List stakeholder groups identified as key for your entity and the frequency of engagement with each stakeholder group.

Leadership Indicators

- 1. Provide the processes for consultation between stakeholders and the Board on economic, environmental, and social topics or if consultation is delegated, how is feedback from such consultations provided to the Board.**

At EBIL, stakeholder consultations are carried out by specific groups, business leaders, and relevant Company executives. Any feedback or identified issues of corporate importance are then elevated to the Board level, either through direct channels or via various Board Committees. Board Committees are responsible for overseeing aspects such as business risks, corporate social responsibility (CSR) and sustainability, marketing strategies and information technology oversight, planning, and projects, as well as dispute resolution.

- 2. Whether stakeholder consultation is used to support the identification and management of environmental, and social topics. (Yes / No). If so, provide details of instances as to how the inputs received from stakeholders on these topics were incorporated into policies and activities of the entity.**

Yes, stakeholder consultation plays a crucial role in assisting EBIL in identifying and managing environmental and social matters. The development of Company Policies related to the environment and social aspects is a direct outcome of ongoing engagements with various stakeholders, including government regulatory authorities, distributors, suppliers, and the local community. Through these consultations, EBIL gathers valuable insights and feedback from stakeholders, enabling a deeper understanding of environmental and social concerns. This input is then utilized to formulate robust policies that align with regulatory requirements, stakeholder expectations, and industry best practices.

- 3. Provide details of instances of engagement with, and actions taken to, address the concerns of vulnerable/ marginalized stakeholder groups.**

We address the concerns and requirements of vulnerable and marginalised stakeholders' groups by undertaking CSR projects related to providing educational support to the children. Under the

project, 'Surrajya Sarvangin Vikas Prakalp', we support in running study centres: Abhyasika to help students from Class 1 to Class 10 belonging to underprivileged community. Further, with our project Maharshi Karve Shikshan Sanstha, we supported educational fees of girls from underprivileged Sections.

The individuals managing these complaints maintain strict confidentiality to safeguard the complainant, not only during the process but also after the complaint has been resolved. The complainant is shielded from any adverse actions, including but

not limited to harassment, unjust termination of employment, demotion, suspension, and biased treatment.

8. Do human rights requirements form part of your business agreements and contracts? (Yes/No)

Yes, human rights requirements form part of your business agreements and contracts as per our Sustainable Procurement Policy.

9. Assessments for the year:

	% of your plants and offices that were assessed (by entity or statutory authorities or third parties)
Child labour	100%
Forced/involuntary labour	
Sexual harassment	
Discrimination at workplace	
Wages	

In FY 2023, we carried out internal assessment of all our plants and facilities on matters related to human rights such as sexual harassment, discrimination at workplace, child labour, forced labour and low pay wages.

10. Provide details of any corrective actions taken or underway to address significant risks / concerns arising from the assessments at Question 9 above.

Not Applicable.

Leadership Indicators

1. Details of a business process being modified / introduced as a result of addressing human rights grievances/complaints.

During the reporting period, no business processes have been modified or introduced for addressing human rights grievances/complaints.

2. Details of the scope and coverage of any Human rights due diligence conducted.

In FY 2023, we had taken up EcoVadis assessment and as part of the assessment, we carried out due diligence of all our plants and facilities on matters related to human rights such as sexual harassment, discrimination at workplace, child labour, forced labour and low pay wages. As a result of this activity, it was reported that our facilities and plants are compliant with our Code of Conduct and there were no violations related to human rights.

3. Is the premise/office of the entity accessible to differently abled visitors, as per the requirements of the Rights of Persons with Disabilities Act, 2016?

Currently, we are in the process of reviewing the changes required in our infrastructure for making our premises and offices accessible to the differently abled visitors.

4. Details on assessment of value chain partners:

We currently assess/evaluate our new suppliers on various environmental and social parameters including human rights during the onboarding but do not conduct yearly assessment. The reported figure is based on the assessment done for new suppliers in FY 23 during their onboarding. However, we are in the process to finalize mechanism to conduct assessment for all our suppliers based on criteria such as sexual harassment, discrimination at workplace, child labour, forced labour/involuntary labour and wages etc.

	% of value chain partners (by value of business done with such parties) that were assessed
Sexual Harassment	2.9%
Discrimination at workplace	2.9%
Child Labour	2.9%
Forced Labour/Involuntary Labour	2.9%
Wages	2.9%

5. Provide details of any corrective actions taken or underway to address significant risks / concerns arising from the assessments at Question 4 above.

No significant risks/concerns related to human rights such as sexual harassment, discrimination at workplace, child labour, forced labour / involuntary labour or wages were identified based on our assessments of our new suppliers.

PRINCIPLE 6: Businesses should respect and make efforts to protect and restore the environment.

Essential Indicators

1. Details of total energy consumption (in Gigajoules) and energy intensity, in the following format:

Parameter	FY 2023	FY 2022
Total electricity consumption (A)	17,081.53	16,644.02
Total fuel consumption (B)	45,940.58	42,919.17
Energy consumption through other sources (C)	-	-
Total energy consumption (A+B+C)	63022.11	59563.18
Energy intensity per rupee of turnover (Total energy consumption, GJ / turnover in rupees)	0.00000927	0.00000928
Energy intensity (GJ/MT of production)	2.12	2.20

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N). If yes, name of the external agency.

No

2. Does the entity have any sites / facilities identified as designated consumers (DCs) under the Performance, Achieve and Trade (PAT) Scheme of the Government of India? (Yes/No). If yes, disclose whether targets set under the PAT scheme have been achieved. In case targets have not been achieved, provide the remedial action taken, if any.

No, none of our site is covered under the PAT scheme.

3. Provide details of the following disclosures related to water:

Parameter	FY 2023	FY 2022
Water withdrawal by source (in kilolitres)		
(i) Surface water	0	0
(ii) Groundwater	8137.40	7267.80
(iii) Third party water	61106.00	58108.80
(iv) Seawater / desalinated water	0	0
(v) Others	0	0
Total volume of water withdrawal (in kilolitres) (i + ii + iii + iv + v)	69,243.40	65,376.60
Total volume of water consumption (in kilolitres)	69,243.40	65,376.60
Water intensity per rupee of turnover (Water consumed / turnover)	0.00001	0.00001
Water intensity (kL/MT of production)	2.33	2.41

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N). If yes, name of the external agency.

No

4. Has the entity implemented a mechanism for Zero Liquid Discharge? If yes, provide details of its coverage and implementation.

EBIL has implemented a sustainable water management system that includes the recycling of treated water from its Effluent Treatment Plants (ETP). Though, we do not have a Zero Liquid Discharge equipment in place, we utilize the treated water for various purposes such as green area development within the plant premises, for fire hydrant system, utility purposes in the cooling tower and for flushing purposes after undergoing tertiary treatment.

At our Ankleshwar plant, we also send the treated water to a common effluent treatment plant setup for industrial effluent treatment. By recycling the treated water, EBIL ensures that no untreated water is discharged outside the plant periphery. This approach minimizes water wastage and contributes to efficient water resource management. It also helps in reducing the plant's environmental impact by avoiding unnecessary water consumption and external discharge.

5. Please provide details of air emissions (other than GHG emissions) by the entity:

Parameter	Please specify unit	FY 2023	FY 2022
NOx	Metric Tonnes	7.29	6.39
SOx	Metric Tonnes	8.74	7.33
Particulate matter (PM)	Metric Tonnes	2.75	2.43
Persistent organic pollutants (POP)	NA	Nil	Nil
Volatile organic compounds (VOC)	NA	Nil	Nil
Hazardous air pollutants (HAP)	NA	Nil	Nil

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N). If yes, name of the external agency.

No.

6. Provide details of greenhouse gas emissions (Scope 1 and Scope 2 emissions) & its intensity:

Parameter	Unit	FY 2023	FY 2022
Total Scope 1 emissions (Break-up of the GHG into CO ₂ , CH ₄ , N ₂ O, HFCs, PFCs, SF ₆ , NF ₃ , if available)	Metric tonnes of CO ₂ equivalent	3,369.75	2,933.66
Total Scope 2 emissions (Break-up of the GHG into CO ₂ , CH ₄ , N ₂ O, HFCs, PFCs, SF ₆ , NF ₃ , if available)	Metric tonnes of CO ₂ equivalent	3225.60	3071.47
Total Scope 1 and Scope 2 emissions per rupee of turnover	Metric tonnes of CO ₂ equivalent / INR of turnover	0.00000097	0.00000094
Total Scope 1 and Scope 2 emission intensity – the relevant metric may be selected by the entity	Metric tonnes of CO ₂ equivalent / MT of production	0.222	0.221

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N). If yes, name of the external agency.

No

- 7. Does the entity have any projects related to reducing Green House Gas emission? If yes, then provide details.**

EBIL focuses on reducing its greenhouse gas emissions. It has taken multiple operational projects to reduce fuel and electricity consumption. Further, GHG Emissions were calculated for FY 2023 and FY 2022. It is always the endeavour of EBIL to ensure continual improvement in reduction of GHG emissions. EBIL has set target in its ESG roadmap for 2026 to reduce emissions intensity by 7% on a year-on-year basis.

- 8. Provide details related to waste management by the entity:**

Parameter	FY 2023	FY 2022
Total Waste generated (in metric tonnes)		
Plastic waste (A)	44.00	33.00
E-waste (B)	0.20	0.40
Bio-medical waste (C)	0.00294	0.0097
Construction and demolition waste (D)	0	0
Battery waste (E)	0	0
Radioactive waste (F)	0	0
Other Hazardous waste. Please specify, if any. (G)	728.79	679.84
Other Non-hazardous waste generated (H)	112.60	83.34
Total (A+B+C+D+E+F+G+H)	885.59	796.59
For each category of waste generated, total waste recovered through recycling, re-using or other recovery operations (in metric tonnes)		
Category of waste		
(i) Recycled	592.34	476.58
(ii) Re-used	44	33
(iii) Other recovery operations	0	0
Total	636.34	509.58
For each category of waste generated, total waste disposed by nature of disposal method (in metric tonnes)		
Category of waste		
(i) Incineration	200.82	173.76
(ii) Landfilling	0	0
(iii) Other disposal operations	48.43	113.25
Total	249.25	287.01

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N). If yes, name of the external agency.

No

- 9. Briefly describe the waste management practices adopted in your establishments. Describe the strategy adopted by your Company to reduce usage of hazardous and toxic chemicals in your products and processes and the practices adopted to manage such wastes.**

EBIL prioritises waste management as a critical aspect of business and so, within the factory, waste produced during diverse operations across different departments is categorized and classified based on its nature. Following this classification, the waste is separated at its point of origin and

stored in either sealed or open-top MS drums, and then placed at their designated locations. Paper waste is collected separately and placed in dedicated bags.

A color-coding system is implemented to facilitate easy visual recognition. All waste is stored and disposed of in compliance with relevant regulations and guidelines.

10. If the entity has operations/offices in/around ecologically sensitive areas (such as national parks, wildlife sanctuaries, biosphere reserves, wetlands, biodiversity hotspots, forests, coastal regulation zones etc.) where environmental approvals/clearances are required, please specify details:

No, we do not have any office or plant location in the buffer zone of any ecological sensitive areas.

Sr. No.	Location of operations/offices	Type of operations	Whether the conditions of environmental approval / clearance are being complied with? (Y/N) If no, the reasons thereof and corrective action taken, if any.
Not Applicable.			

11. Details of environmental impact assessments of projects undertaken by the entity based on applicable laws, in the current financial year:

In FY 2023, no project was undertaken which required an environmental impact assessment based on applicable laws, therefore, this question is not applicable.

Name and brief details of project	EIA Notification No.	Date	Whether conducted by independent external agency (Yes / No)	Results communicated in public domain (Yes / No)	Relevant Web link
Not Applicable.					

12. Is the entity compliant with the applicable environmental law/ regulations/ guidelines in India, such as the Water (Prevention and Control of Pollution) Act, Air (Prevention and Control of Pollution) Act, Environment protection act and rules thereunder (Y/N). If not, provide details of all such non-compliances:

EBIL is in compliance with all applicable laws and regulations.

On 6th March 2019, the Company was directed for closure of its operations in Ankleshwar by the Gujarat Pollution Control Board (GPCB) due to a suspected ground water contamination issue. The GPCB through its subsequent orders had granted temporary revocation of the closure order until 6th May 2024. The Company has represented to the GPCB for a permanent revocation of the closure order and based on the remediation done the Company is expecting a positive outcome. The Company has also installed a Groundwater Treatment System (GTS) for treating and replenishing the groundwater.

Sr. No.	Specify the law / regulation / guidelines which was not complied with	Provide details of the non-compliance	Any fines / penalties / action taken by regulatory agencies such as pollution control boards or by courts	Corrective action taken - if any
Not Applicable.				

Leadership Indicators

1. Provide break-up of the total energy consumed (in GJ) from renewable and non-renewable sources:

Parameter	FY 2023	FY 2022
From renewable sources		
Total electricity consumption (A)	863.44	1,200.87
Total fuel consumption (B)	0	0

4. Please provide details of total Scope 3 emissions & its intensity:

Parameter	Unit	FY 2023	FY 2022
Total Scope 3 emissions (Break-up of the GHG into CO ₂ , CH ₄ , N ₂ O, HFCs, PFCs, SF ₆ , NF ₃ , if available)	Metric tonnes of CO ₂ equivalent	-	-
Total Scope 3 emissions per rupee of turnover			
Total Scope 3 emission intensity (optional) – the relevant metric may be selected by the entity			

We are yet to calculate the Scope 3 emissions resulting from our value chain activities. We intend to conduct Scope 3 Emissions calculations in the coming years.

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency.

No

- 5. With respect to the ecologically sensitive areas reported at Question 10 of Essential Indicators above, provide details of significant direct & indirect impact of the entity on biodiversity in such areas along-with prevention and remediation activities.**

Not Applicable. With respect to the ecologically sensitive areas, all locations are outside the buffer zone from forests, national park/sanctuaries, seacoast, and ecologically sensitive areas.

- 6. If the entity has undertaken any specific initiatives or used innovative technology or solutions to improve resource efficiency, or reduce impact due to emissions / effluent discharge / waste generated, please provide details of the same as well as outcome of such initiatives:**

Sr. No.	Initiative undertaken	Details of the initiative <i>(Web-link, if any, may be provided along-with summary)</i>	Outcome of the initiative
1	Energy and fuel saving projects at our manufacturing sites	<p>In FY 2023, we had undertaken numerous projects to improve our environmental impact. The following interventions is as listed below:</p> <ul style="list-style-type: none"> Switched from vacuum transfer of RM and Intermediates to gear pump. Replaced diesel forklifts with electric forklifts at both manufacturing sites. Replaced water-cooled pumps with air cooled hot oil pumps. Replaced fluorescent lights with LED lights. Eliminated use of compressed air in the FG packing process by use of pumps. Installed modern energy efficient chilled water plant and new blower for ETP at Ankleshwar Plant. Automated packing lines resulting in reduced cycle times & power savings. 	<p>The measures led to a reduction of the electricity consumption per unit of production by 1.6%.</p> <p>Also there was a 3.5% reduction in Light Diesel Oil (LDO) consumption for per unit of production.</p>

- 7. Does the entity have a business continuity and disaster management plan? Give details in 100 words/ web link.**

Yes, EBIL has implemented a robust business continuity and disaster management plan. The purpose of this plan is to allow for Continuity of Business Operations at all facilities of EBIL in the event of an emergency. The plan provides details of responsibilities, communication, preparedness, business continuity process, safety procedures, mock drill. The plan also provides emergency actions for hazards such as fire, earthquake, flood, and cyclones. These procedures are aimed primarily at serving as guidance for the Emergency Response Teams at plant level who are responsible for managing the employees to safety during times of crisis.

- 8. Disclose any significant adverse impact to the environment, arising from the value chain of the entity. What mitigation or adaptation measures have been taken by the entity in this regard?**

Currently, we have not conducted assessments of our value chain partners. However, we plan to assess our value chain partners to identify and address any significant risks or concerns that may arise from these assessments, in the near future.

9. Percentage of value chain partners (by value of business done with such partners) that were assessed for environmental impacts.

We are yet to conduct value chain partner assessment on environmental impacts, and we are in the planning phase to set targets to assess certain percentage of our suppliers (by value of business done) by 2026.

PRINCIPLE 7: Businesses, when engaging in influencing public and regulatory policy, should do so in a manner that is responsible and transparent.

Essential Indicators

1. a. Number of affiliations with trade and industry chambers/ associations.

We are currently part of five trade and industry chambers / associations.

b. List the top 10 trade and industry chambers/ associations (determined based on the total Members of such body) the entity is a Member of/ affiliated to.

Sr. No.	Name of the trade and industry chambers/ associations	Reach of trade and industry chambers/ associations (State/National)
1	Maharatta Chamber of Commerce, Industries and Agriculture	State
2	Indo-German Chamber of Commerce	National
3	Ankleshwar Industries Association	State
4	Federation of Indian Chambers of Commerce & Industry	National
5	Indian Electrical and Electronics Manufacturers Association	National

2. Provide details of corrective action taken or underway on any issues related to anti-competitive conduct by the entity, based on adverse orders from regulatory authorities

EBIL has not received any adverse order from any regulatory authority.

Name of authority	Brief of the case	Corrective action taken
Not Applicable		

Leadership Indicators

1. Details of public policy positions advocated by the entity

Sr. No.	Public policy advocated	Method resorted for such advocacy	Whether information available in public domain? (Yes/No)	Frequency of Review by Board (Annually/ Half yearly/ Quarterly / Others – please specify)	Web Link, if available
Not Applicable					

There were no public policy positions advocated by the entity in FY 2023.

PRINCIPLE 8: Businesses should promote inclusive growth and equitable development

Essential Indicators

- 1. Details of Social Impact Assessments (SIA) of projects undertaken by the entity based on applicable laws, in the current financial year.**

There were no projects undertaken by the entity which required a Social Impact Assessment and therefore, EBIL has not conducted any Social Impact Assessments (SIA) in FY 2023.

Name and brief details of project	SIA Notification No.	Date of Notification	Whether conducted by independent external agency (Yes / No)	Results communicated in public domain (Yes / No)	Relevant Web link
Not Applicable					

- 2. Provide information on project(s) for which ongoing Rehabilitation and Resettlement (R&R) is being undertaken by your entity:**

Our operations and expansion projects have not resulted in the displacement of any population or their livelihoods. As a result, we have not undertaken any Rehabilitation and Resettlement (R&R) activities.

Sr. No.	Name of Project for which R&R is ongoing	State	District	No. of Project Affected Families (PAFs)	% of PAFs covered by R&R	Amounts paid to PAFs in the FY (In INR)
Not Applicable						

- 3. Describe the mechanisms to receive and redress grievances of the community.**

All grievances are dealt with in accordance with our stakeholder grievance redressal policy. Stakeholders can register their grievances via email, phone or in writing. All grievances are acknowledged by the concerned stakeholder contact officer of the Company; i.e. Person-in-charge - CSR. The stakeholder contact officer is responsible for investigating the concern and may form a team for investigation, if required. Based on findings from investigation, team creates an action plan outlining the steps to be taken to resolve the grievance. The team defines roles and responsibilities for assigning actions and monitoring the actions undertaken and ensures that timelines committed for implementing the action plan are adhered to. The resolution and closure of the complaint is documented over an email providing stakeholder an opportunity to share their feedback on the resolution. In case, the stakeholder is not satisfied by the resolution provided, he/she may escalate his/her grievance to next level using the escalation matrix. We also have internal procedures in place for implementing and monitoring compliance with stakeholder grievance redressal policy.

- 4. Percentage of input material (inputs to total inputs by value) sourced from suppliers:**

	FY 2023	FY 2022
Directly sourced from MSMEs/ small producers	15.29%	6.92%
Sourced directly from within the district and neighbouring districts	13.28%	11.67%

Leadership Indicators

1. Provide details of actions taken to mitigate any negative social impacts identified in the Social Impact Assessments (Reference: Question 1 of Essential Indicators above):

Details of negative social impact identified	Corrective action taken
Not Applicable	

No project was undertaken in the FY 2023 which required a Social Impact Assessment and therefore this question is not applicable.

2. Provide the following information on CSR projects undertaken by your entity in designated aspirational districts as identified by government bodies:

S.No.	State	Aspirational District	Amount spent (In INR)
Not Applicable			

EBIL has been instrumental in commissioning significant CSR programmes especially in the areas of its operations at Bharuch district of Gujarat & Pune district of Maharashtra. Nevertheless, none of the CSR projects implemented by the Company is in the aspirational district and hence this disclosure is not applicable. However, in the coming future, we propose to take up projects in the designated aspirational districts as identified by government bodies.

3. (a) Do you have a preferential procurement policy where you give preference to purchase from suppliers comprising marginalized /vulnerable groups? (Yes/No)
No.
- (b) From which marginalized /vulnerable groups do you procure?
No.
- (c) What percentage of total procurement (by value) does it constitute?
Nil.

4. Details of the benefits derived and shared from the intellectual properties owned or acquired by your entity (in the current financial year), based on traditional knowledge

S.No.	Intellectual Property based on traditional knowledge	Owned/ Acquired (Yes/No)	Benefit shared (Yes / No)	Basis of calculating benefit share
Not Applicable				

5. Details of corrective actions taken or underway, based on any adverse order in intellectual property related disputes wherein usage of traditional knowledge is involved

Name of authority	Brief of the Case	Corrective action taken
Not Applicable		

6. Details of beneficiaries of CSR Projects:

CSR Project	No. of persons benefitted from CSR Projects	% of beneficiaries from vulnerable and marginalized groups
<p>Support for Maharshi Karve Shikshan Sanstha - Educational Fees for higher education of under -privileged girl students</p> <p>Description: We continued to support for educational fees of the girls from under-privileged Section for 5th year with the project “Maharshi Karve Shikshan Sanstha”. Girls from various background were screened and selected for the benefit. The selection process of girls was made on the basis of merit and income level of their families.</p>	<p>35 underprivileged girl students benefitted from the project in FY 2023</p>	<p>100%</p>
<p>Surrajya Sarvangin Vikas Prkalp - Running of study centers (8 nos.) in low-income neighbourhood areas.</p> <p>Description: This project is aimed to support and promote education for underprivileged / marginalized groups. We supported children in their educational activities through the way of study centres (Abhyasika). The students from under-privileged Section from Class 1 to Class 10 received benefit out of this project. FY 2023 marked our 5th year of engaging in this project.</p>	<p>675 students from underprivileged families were supported and provided necessary education from Class 1 to Class 10.</p>	<p>100%</p>
<p>Contribution to Prime Minister's National Relief Fund (PMNRF)</p>	<p>As this is a relief fund, it is targeted to communities and individuals affected with natural calamities and disasters. The beneficiaries could range from few individuals to a significant group of persons (in lakhs).</p>	<p>The beneficiary data on fund allocation is not available publicly. However, during disasters and calamities the most affected group include people from low socio-economic status, so it is understood that majority of the fund is allocated towards the vulnerable and marginalized groups.</p>

PRINCIPLE 9: Businesses should engage with and provide value to their consumers in a responsible manner.

Essential Indicators

1. Describe the mechanisms in place to receive and respond to consumer complaints and feedback.

We at EBIL have established a comprehensive system to effectively address and resolve our customer complaints as per our Stakeholder Engagement and Grievance Policy. We value our customers' feedback and take their concerns seriously. When a complaint is received, it goes through a thorough analysis and resolution process.

Weblink: <https://www.elantas.com/beck-india/financial-documents/corporate-governance-report.html>

The business line leaders and lead technical services play a crucial role in managing customer complaints. As our business is mainly concerned with various organisations and entities, who are our customers, we collect and document their complaints and provide feedback to the respective technical or commercial team for further action. In cases involving any quality requirements, the technical team collaborates with the Quality Department to analyse the nature of the complaint and implement necessary corrective measures.

To ensure transparency and accountability, we maintain a customer complaint register that is regularly updated once the necessary actions on the complaint are completed. We also provide multiple channels for customers to reach us, including a toll-free number and contact details available on our Company website.

We strive to address customer complaints promptly and effectively, with the goal of continuously improving our products and services. Our commitment to customer satisfaction is reflected in our proactive approach to resolving issues and maintaining open lines of communication with our valued customers.

2. Turnover of products and/ services as a percentage of turnover from all products/service that carry information about:

	As a percentage to total turnover
Environmental and social parameters relevant to the product	100%
Safe and responsible usage	100%

Management Discussion and Analysis Report

Industry Structure and Developments

In 2023, ELANTAS Beck India Limited ("Company / EBIL") sustained its positive momentum, capitalizing on heightened demand during the seasonal months of the year to achieve record revenue milestones. Despite facing challenges such as the continued Russia Ukraine conflict and uncertainty stemming from the Middle East conflict which disrupted supply chains your Company remained steadfast in its efforts to ensure supply continuity for customers while minimizing cost impacts.

By continuing to build a better understanding of the market, your Company's teams managed the volatile costs' situation through effective price management to maximize value creation for your Company and the industry.

Strategic investments in new product development and additional manufacturing assets allowed your Company to position its products to meet the demands of emerging applications. Reporting a record revenue of ₹ 67,528.50 Lakhs, a 5.20% increase compared to 2022, with a margin of ₹ 22,249.09 Lakhs, up by 24% over 2022, your Company achieved its highest-ever sales. Focused on developing innovative solutions to address evolving industry trends, your Company continued to grow despite a subdued in demand through the year.

To bolster its market position, your Company capitalized on increased capacity at its Ankleshwar plant, Gujarat in 2023 and also prepared to meet the additional demand growth as the economy expands, through requisite permissions. The Company's team remains committed to anticipating industry requirements and delivering value-added products through its technology leadership and local manufacturing capabilities.

Segment wise Performance

Electrical Insulation Business

The Electrical Insulation Business comprising of Wire Enamels and Secondary Insulation products account for approximately 85% of your Company's sales revenue and constitutes the core business of your Company.

- Wire Enamel business primarily caters to Magnet Wire manufacturers, whose end customer base span the Home Appliances, Transformers, automotive and Industrial Segments. Secondary Insulation products like Varnishes find application in Rotating Machines used in Home Appliances, Automotive Components, Industrial Motors, Generators and Transformers apart from the Repair and Refurbishment industry.
- 2023 focused on maximizing value through volume growth, by managing price in line with the raw material cost.
- Business exhibited a typical volume cycle with a slow Q3, and with volume growth across the remaining quarters. The overall industry indicated a slightly subdued demand in the second half of the year, compared the first half.

Your Company continued its focus on expanding its product basket in line with the industry expectations and sustained its growth in the value-added segments.

Your Company continues to focus on the trends in the market to sustain and grow its business in the coming period driven by:

The audit is based on Internal Audit plan which is reviewed each year in consultation with the Statutory Auditors and Audit Committee. The conduct of the internal audit is oriented towards review of internal controls and risks in your Company's operations such as accounting, finance, procurement, employee engagement, factory operations, travel, its processes etc.

Based on the evaluation, the Audit Committee has concluded that the financial controls of your Company have been adequate and operating effectively.

Technical Management and Infrastructure Development

Technical improvements in plant and especially in manufacturing process are ongoing and there has been a continuous importance given to enhance productivity and increase savings in operational costs and also on improved EHS standards. Operational improvements lead to meet the surge in market demand without major CAPEX. Efficient change management, and strong preventive measures ensured that manufacturing operations remained un-interrupted. Company continued to enhance and upgrade infrastructure capabilities across sites.

Following measures were taken at both the production sites: -

- Initiation of PSM (Process Safety Management) at both sites.
- Increased automation led to improve safety, energy saving, productivity improvement etc.
- Process improvements and De-bottlenecking measures in various production line.
- Capacity expansion with latest state of art technology equipments.
- Increased safety of our processes by conducting Safety Audits & Risk Assessments.
- Implementation of various Operational excellence Projects through several lean management tools i.e Lean six sigma, Kaizens & 5S etc.

All the above measures undertaken have enabled the way for more efficient production and to meet the market demands for new and existing products. Ensured high plant reliability by adopting appropriate maintenance practices and management systems. Focused Preventive Maintenance, Spare parts management, helped manufacturing sites achieve improved reliability and efficiency.

Some Major Projects undertaken, during the year -

- Installation of new finished goods warehouse at Ankleshwar, Gujarat Plant considering all safety measures, efficient material handling system is in progress and includes provision for generation of renewable energy to ensure improved sustainability.
- This new FG warehousing will be green building based on 100% on green energy.
- Some process improvement projects are also planned which will lead to increase in productivity & thus less power consumption in addition to meeting the Market requirements.
- Scrubber system for vent gases is installed at Pimpri, Pune & Ankleshwar, Gujarat plant.

Some small/medium projects undertaken during the year -

- Upgradation of DCS software
- Energy conservation through various measures. Ideas are generated through multiple brainstorming session of employees and by hiring of external experts.
- Scrubbing system for vents for Stores & Quality Control
- New auto packing lines to improve the packaging cycle and avoid mistake.

Your Company believes that its leadership in the electrical insulations industry is an outcome of its long-standing reputation and relationship with customers along with product quality and the necessary technical services of high standards. Such a reputation has been built over many decades of satisfied customers and your Company works hard to maintain it even today through technological leadership,

understanding the technical needs of the customer, as well as by educating the customers on technological upgradations of our products and thereby creating value for them. This support, over a period, has helped our reputation as a consistent and preferred supplier to our satisfied customers.

Your Company continuously endeavors to maintain its leadership position and technological superiority by continuously focusing on operational excellence and cost effectiveness, a fact highlighted by a few examples as mentioned below:

- Identifying the market requirements by close coordination with our Marketing & Technology Department as well as developing and launching new cost-effective products.
- Continuing the business excellence culture across the organization by continuously identifying new projects under “Altana X” a Global programme devised on Lean Six sigma techniques, for operational excellence.
- Reduction in customer complaints over the past years and thus sales returns, if any, due to quality issues are practically negligible.

Benchmarking with our overseas affiliates is undertaken to upgrade and improve our technical capabilities. This is done by regular meetings wherein best practices are shared at various forums formed under the stewardship of ALTANA Group and ELANTAS GmbH, Germany. Outcomes of these forums are utilized for product development, optimizing the production processes as well as safety of our plants and products.

Quality, Environment Management and Occupational Health & Safety

Safety, Occupational Health & Environment Protection continue to be accorded the highest priority. Your Company is committed to maintain its operations free from incidents and significant risk to the health & safety of its stakeholders through improved engineering practices, constant communication, safety awareness, robust checking systems and sound training practices and through audits.

Your Company already holds accreditations for its Quality Management System (ISO 9001:2015), Environment Management System (ISO 14001:2018) and Occupational Health & Safety Management System (ISO 45001:2018). The IMS was audited by TÜV NORD and your Company successfully completed the Re-Certification audit in 2022 at the Manufacturing sites in Ankleshwar & Pimpri as well as Corporate office.

Your Company is devoted towards achieving its sustainability goals. In line with ALTANA vision of being CO₂ neutral by 2025 and fossil free by 2040, your Company has prepared a roadmap and currently evaluating on several initiatives. Your Company uses solar power for Corporate & R&D buildings. Some actions are planned like solar energy at Ankleshwar with some smaller projects towards sustainable operations. By making continuous efforts to lower effluent loads, reduce consumption of energy and water, reduce usage of toxic materials, lower emission of VOCs, and greening its factory sites, your Company continues to re-affirm its commitment to Sustainable Development

Research & Development

Your Company has continued to focus on developing capabilities in new and different areas such as continuous product development, cost saving through formula management and process upgradation. New and continuing efforts have been focused in these areas and for growth into new markets.

Your Company’s active participation in ALTANA’s global R&D initiatives also allows it to have ready access to recent technological developments in the processing, application and end use of insulation

products. The participation of your Company has grown this year, with two new approved global projects (by the Technical Steering Committee) exhibiting strong progress through the year.

The Market Technology & Development Department (MTD) developmental activity across all businesses is showing enhanced responsiveness, with a variety of products developed and launched in the last year for automotive, electrical and electronics market segment. Strengthened the product base and customer base through addressing new opportunities and maintaining a healthy balance of low volume-high value specialty products.

The Research and MTD teams are engaged in a wide range of activities aimed at maintaining a technological edge, providing effective solutions to the customers, improving internal productivity through process improvements and by using alternative raw materials.

Human Resource/ Industrial Relations

Your Company's Industrial Relations at both locations were peaceful and harmonious throughout the year. The year ended with 184 on roll employees.

As your Company continues to look at ways of sustaining growth, the human resources team continued to look at upskilling its employees across all the levels. This was enhanced by introduction and upgrade of Learning Management System which introduces employees to many online/e-learning modules for Self-Development. Employees used these trainings for enhancing their learning.

Your Company continues to deploy new tools which make the onboarding and management of talent more effective. At the same time it is progressing on the key action areas that emerged from the global

Your Company's HR and IR policy will continue to constantly evaluate the needs of its talent pool and take appropriate action to ensure that their contributions sustain the growth.

Independent Auditors' Report

To the Members of ELANTAS Beck India Limited
Report on the Audit of the Financial Statements

Opinion

1. We have audited the accompanying financial statements of ELANTAS Beck India Limited (the "Company"), which comprise the Balance Sheet as at December 31, 2023, and the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information (hereinafter referred to as "financial statements").
2. In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 (the "Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at December 31, 2023, and total comprehensive income (comprising of profit and other comprehensive income), changes in equity and its cash flows for the year then ended.

Basis for Opinion

3. We conducted our audit in accordance with the Standards on Auditing (SAs) specified under Section 143(10) of the Act. Our responsibilities under those Standards are further described in the "Auditors' Responsibilities for the Audit of the Financial Statements" Section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key audit matters

4. Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key audit matter	How our audit addressed the key audit matter
<p>Recognition of Revenue: (Refer Note 1 (d) and 25 to the Financial Statements). The Company recognizes revenue in accordance with Ind AS 115 "Revenue from Contracts with Customers". The Company's revenue from sale of goods is recognized when control of the goods is transferred to the customer and there remains no unfulfilled performance obligation. Revenue is measured at transaction price received or receivable, after deduction of any discounts, volume rebates and any taxes or duties collected on behalf of the government such as goods and services tax etc.</p>	<p>Our audit procedures included :</p> <ul style="list-style-type: none"> • Obtaining an understanding, evaluating the design and testing the operating effectiveness of key controls over revenue recognition process including contract monitoring, billings and approvals; • Testing whether recognition of revenue is in line with the terms of customer contracts and in accordance with the Company's accounting policy for recognition of revenue;

<p>We have considered recognition of revenue as a key audit matter as there exists a risk of material misstatement considering significance of the amounts involved and exercise of judgement in recognition of revenue in accordance with the terms of customer contracts and detailed disclosures required to be made in accordance with the applicable accounting standards.</p>	<ul style="list-style-type: none"> • Assessing whether transaction price received or receivable has been determined appropriately in terms of the customer contracts, reviewing customer correspondence and ensuring that the revenue is recognised in the correct period; • Performing risk based testing of journal entries in revenue; and • Evaluating adequacy of the presentation and disclosures. <p>Based on the above stated procedures, we did not identify any significant exceptions in recognition of revenue and its presentation and disclosure as per the applicable accounting standards.</p>

Other Information

5. The Company’s Board of Directors is responsible for the other information. The other information comprises the information included in the annual report, but does not include the financial statements and our auditors’ report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements, or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

Responsibilities of Management and those charged with governance for the Financial Statements

6. The Company’s Board of Directors is responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgements and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.
7. In preparing the financial statements, management is responsible for assessing the Company’s ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate

the Company or to cease operations, or has no realistic alternative but to do so. Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditors' Responsibilities for the Audit of the Financial Statements

8. Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.
9. As part of an audit in accordance with SAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:
 - Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
 - Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
 - Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
 - Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern.
 - Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
10. We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

11. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.
12. From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on other legal and regulatory requirements

13. As required by the Companies (Auditor's Report) Order, 2020 (the "Order"), issued by the Central Government of India in terms of sub-Section (11) of Section 143 of the Act, we give in the **Annexure B** a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
14. As required by Section 143(3) of the Act, we report that:
 - (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books, except that the backup of books of account and other books and papers maintained in electronic mode has not been maintained on a daily basis on servers physically located in India during the period January 1, 2023 to February 17, 2023. Refer note 43 to the financial statements.
 - (c) The Balance Sheet, the Statement of Profit and Loss (including other comprehensive income), the Statement of Changes in Equity and the Statement of Cash Flows dealt with by this Report are in agreement with the books of account.
 - (d) In our opinion, the aforesaid financial statements comply with the Accounting Standards specified under Section 133 of the Act.
 - (e) On the basis of the written representations received from the Directors as on December 31, 2023, taken on record by the Board of Directors, none of the Directors is disqualified as on December 31, 2023, from being appointed as a Director in terms of Section 164(2) of the Act.
 - (f) With respect to the maintenance of accounts and other matters connected therewith, reference is made to our remarks in paragraph 14(b) above.
 - (g) With respect to the adequacy of the internal financial controls with reference to financial statements of the Company and the operating effectiveness of such controls, refer to our

separate Report in “Annexure A”.

- (h) With respect to the other matters to be included in the Auditors’ Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014 (as amended), in our opinion and to the best of our information and according to the explanations given to us:
- i. The Company has disclosed the impact of pending litigations on its financial position in its financial statements – Refer note 35(a) to the financial statements.
 - ii. The Company was not required to recognise a provision as at December 31, 2023 under the applicable law or accounting standards, as it does not have any material foreseeable losses on long-term contracts. The Company did not have any derivative contracts as at December 31, 2023.
 - iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company during the year.
 - iv. (a) The management has represented that, to the best of its knowledge and belief, as disclosed in the notes to the financial statements, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other persons or entities, including foreign entities (“Intermediaries”), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company (“Ultimate Beneficiaries”) or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries (Refer note 44(vi) to the financial statements);

(b) The management has represented that, to the best of its knowledge and belief, as disclosed in the notes to the financial statements, no funds have been received by the Company from any persons or entities, including foreign entities (“Funding Parties”), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party (“Ultimate Beneficiaries”) or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries (Refer note 44(vi) to the financial statements); and

(c) Based on such audit procedures that we considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (a) and (b) contain any material misstatement.
 - v. The dividend declared and paid during the year by the Company is in compliance with Section 123 of the Act.
 - vi. As proviso to Rule 3(1) of the Companies (Accounts) Rules, 2014 (as amended), which provides for books of account to have the feature of audit trail, edit log and related

matters in the accounting software used by the Company, is applicable to the Company only with effect from financial year beginning April 1, 2023, the reporting under clause (g) of Rule 11 of the Companies (Audit and Auditors) Rules, 2014 (as amended), is currently not applicable.

15. The Company has paid/ provided for managerial remuneration in accordance with the requisite approvals mandated by the provisions of Section 197 read with Schedule V to the Act.

Annexure A to Independent Auditors' Report

Referred to in paragraph 14(g) of the Independent Auditors' Report of even date to the Members of ELANTAS Beck India Limited on the financial statements for the year ended December 31, 2023.

Report on the Internal Financial Controls with reference to Financial Statements under clause (i) of sub-Section 3 of Section 143 of the Act

1. We have audited the internal financial controls with reference to financial statements of ELANTAS Beck India Limited (the "Company") as of December 31, 2023 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

2. The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

3. Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing deemed to be prescribed under Section 143(10) of the Act to the extent applicable to an audit of internal financial controls, both applicable to an audit of internal financial controls and both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements was established and maintained and if such controls operated effectively in all material respects.
4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditors' judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.
5. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system with reference to financial statements.

Meaning of Internal Financial Controls with reference to Financial Statements

6. A Company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the

preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial controls with reference to financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of management and Directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with reference to Financial Statements

7. Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial controls with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

8. In our opinion, the Company has, in all material respects, an adequate internal financial controls system with reference to financial statements and such internal financial controls with reference to financial statements were operating effectively as at December 31, 2023, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note issued by ICAI.

Annexure B to Independent Auditors' Report

Referred to in paragraph 13 of the Independent Auditors' Report of even date to the Members of ELANTAS Beck India Limited on the financial statements as of and for the year ended December 31, 2023.

- i. (a) (A) The Company is maintaining proper records showing full particulars, including quantitative details and situation, of Property, Plant and Equipment.
(B) The Company is maintaining proper records showing full particulars of Intangible Assets.
 - (b) The Property, Plant and Equipment are physically verified by the Management according to a phased programme designed to cover all the items over a period of three years which, in our opinion, is reasonable having regard to the size of the Company and the nature of its assets. Pursuant to the programme, a portion of the Property, Plant and Equipment has been physically verified by the Management during the year and no material discrepancies have been noticed on such verification.
 - (c) The title deeds of all the immovable properties (other than properties where the Company is the lessee and the lease agreements are duly executed in favour of the lessee), as disclosed in Note 3, 4 and 15 to the financial statements, are held in the name of the Company.
 - (d) The Company has chosen cost model for its Property, Plant and Equipment (including Right of Use assets) and intangible assets. Consequently, the question of our commenting on whether the revaluation is based on the valuation by a Registered Valuer, or specifying the amount of change, if the change is 10% or more in the aggregate of the net carrying value of each class of Property, Plant and Equipment (including Right of Use assets) or intangible assets does not arise.
 - (e) Based on the information and explanations furnished to us, no proceedings have been initiated on or are pending against the Company for holding benami property under the Prohibition of Benami Property Transactions Act, 1988 (as amended in 2016) (formerly the Benami Transactions (Prohibition) Act, 1988 (45 of 1988)) and Rules made thereunder, and therefore the question of our commenting on whether the Company has appropriately disclosed the details in its financial statements does not arise. (Also refer note 44(i) to the financial statements).
- ii. (a) The physical verification of inventory has been conducted at reasonable intervals by the Management during the year and, in our opinion, the coverage and procedure of such verification by Management is appropriate. The discrepancies noticed on physical verification of inventory as compared to book records were not 10% or more in aggregate for each class of inventory.
 - (b) During the year, the Company has not been sanctioned working capital limits in excess of INR 5 crores, in aggregate, from banks and financial institutions on the basis of security of current assets and accordingly, the question of our commenting on whether the quarterly returns or statements are in agreement with the unaudited books of account of the Company does not arise.

- iii The Company has not made any investments, granted secured or unsecured loans or advances in nature of loans, or stood guarantee, or provided security to any parties. Therefore, the reporting under clause 3(iii), (iii)(a), (iii)(b), (iii)(c), (iii)(d), (iii)(e) and (iii)(f) of the Order are not applicable to the Company.
- iv The Company has not granted any loans or made any investments or provided any guarantee or security to the parties covered under Sections 185 and 186. Therefore, the reporting under clause 3(iv) of the Order is not applicable to the Company.
- v. The Company has not accepted any deposits or amounts which are deemed to be deposits referred in Sections 73, 74, 75 and 76 of the Act and the Rules framed there under to the extent notified.
- vi. Pursuant to the rules made by the Central Government of India, the Company is required to maintain cost records as specified under Section 148(1) of the Act in respect of its products. We have broadly reviewed the same and are of the opinion that, prima facie, the prescribed accounts and records have been made and maintained. We have not, however, made a detailed examination of the records with a view to determine whether they are accurate or complete.
- vii. (a) According to the information and explanations given to us and the records of the Company examined by us, in our opinion, the Company is regular in depositing the undisputed statutory dues, including goods and services tax, provident fund, professional tax, employees' state insurance, income tax, sales tax, service tax, duty of customs, duty of excise, value added tax, cess, and other material statutory dues, as applicable, with the appropriate authorities. Also, refer note 35(a) to the financial statements regarding management's assessment on certain matters relating to provident fund.
- (b) According to the information and explanations given to us and the records of the Company examined by us, there are no statutory dues of goods and services tax, provident fund, professional tax, employees' state insurance, sales tax, duty of customs, value added tax and cess which have not been deposited on account of any dispute. The particulars of other statutory dues referred to in sub-clause (a) as at December 31, 2023 which have not been deposited on account of a dispute, are as follows:

Name of statute	Nature of dues	Gross amount (INR in Lakhs)	Paid under protest (INR in Lakhs)	Net amount (INR in Lakhs)	Period to which the amount relates	Forum where the dispute is pending
Central Excise Act, 1944	Excise Duty	0.93	-	0.93	FY 1997	Additional Commissioner, Surat
	Excise Duty	0.21	-	0.21	FY 2004	Dy Commissioner, Pune
	Excise Duty	49.56	-	49.56	FY 1994-1997	Dy Commissioner, Pune
Finance Act, 1994	Service Tax	117.26	-	117.26	FY 2005-2008	Asst. Commissioner GST, Pune & Baroda
Income Tax Act, 1961	Income Tax	43.42	8.69	34.73	AY 2018-2019	Commissioner of Income Tax (Appeals), Pune
		25.89	5.19	20.70	AY 2019-2020	Commissioner of Income Tax (Appeals), Pune
		18.76	3.76	15.00	AY 2020-2021	Commissioner of Income Tax (Appeals), Pune

- viii. According to the information and explanations given to us and the records of the Company examined by us, there are no transactions in the books of account that have been surrendered or disclosed as income during the year in the tax assessments under the Income Tax Act, 1961, that have not been recorded in the books of account.

- ix. (a) As the Company did not have any loans or other borrowings from any lender during the year, the reporting under clause 3(ix)(a) of the Order is not applicable to the Company.
- (b) According to the information and explanations given to us and on the basis of our audit procedures, we report that the Company has not been declared wilful defaulter by any bank or financial institution or government or any government authority.
- (c) According to the records of the Company examined by us and the information and explanations given to us, the Company has not obtained any term loans.
- (d) According to the information and explanations given to us, and the procedures performed by us, and on an overall examination of the financial statements of the Company, the Company has not raised funds on short term basis.
- (e) According to the information and explanations given to us and procedures performed by us, we report that the Company did not have any subsidiaries, joint ventures or associate companies during the year. Hence, reporting under clause 3(ix)(e) of the Order is not applicable.
- (f) According to the information and explanations given to us and procedures performed by us, we report that the Company did not have any subsidiaries, joint ventures or associate companies during the year. Hence, reporting under clause 3(ix)(f) of the Order is not applicable.
- x. (a) The Company has not raised any money by way of initial public offer or further public offer (including debt instruments) during the year. Accordingly, the reporting under clause 3(x)(a) of the Order is not applicable to the Company.
- (b) The Company has not made any preferential allotment or private placement of shares or fully or partially or optionally convertible debentures during the year. Accordingly, the reporting under clause 3(x)(b) of the Order is not applicable to the Company.
- xi. (a) During the course of our examination of the books and records of the Company, carried out in accordance with the generally accepted auditing practices in India, and according to the information and explanations given to us, we have neither come across any instance of material fraud by the Company or on the Company, noticed or reported during the year, nor have we been informed of any such case by the Management.
- (b) During the course of our examination of the books and records of the Company, carried out in accordance with the generally accepted auditing practices in India, and according to the information and explanations given to us, a report under Section 143(12) of the Act, in Form ADT-4, as prescribed under rule 13 of Companies (Audit and Auditors) Rules, 2014 was not required to be filed with the Central Government. Accordingly, the reporting under clause 3(xi)(b) of the Order is not applicable to the Company.
- (c) During the course of our examination of the books and records of the Company carried out in accordance with the generally accepted auditing practices in India, and according to the information and explanations given to us, the Company has received whistle-blower complaints during the year, which have been considered by us for any bearing on our audit and reporting under this clause.

- xii. As the Company is not a Nidhi Company and the Nidhi Rules, 2014 are not applicable to it, the reporting under clause 3(xii) of the Order is not applicable to the Company.
- xiii. The Company has entered into transactions with related parties in compliance with the provisions of Sections 177 and 188 of the Act. The details of such related party transactions have been disclosed in the financial statements as required under Indian Accounting Standard 24 “Related Party Disclosures” specified under Section 133 of the Act.
- xiv. (a) In our opinion and according to the information and explanation given to us, the Company has an internal audit system commensurate with the size and nature of its business.
(b) The reports of the Internal Auditor for the period under audit have been considered by us.
- xv. The Company has not entered into any non-cash transactions with its Directors or persons connected with him. Accordingly, the reporting on compliance with the provisions of Section 192 of the Act under clause 3(xv) of the Order is not applicable to the Company.
- xvi. (a) The Company is not required to be registered under Section 45-IA of the Reserve Bank of India Act, 1934. Accordingly, the reporting under clause 3(xvi)(a) of the Order is not applicable to the Company.
(b) The Company has not conducted non-banking financial or housing finance activities during the year. Accordingly, the reporting under clause 3(xvi)(b) of the Order is not applicable to the Company.
(c) The Company is not a Core Investment Company (CIC) as defined in the regulations made by the Reserve Bank of India. Accordingly, the reporting under clause 3(xvi)(c) of the Order is not applicable to the Company.
(d) Based on the information and explanations provided by the management of the Company, the Group does not have any CICs, which are part of the Group. We have not, however, separately evaluated whether the information provided by the management is accurate and complete. Accordingly, the reporting under clause 3(xvi)(d) of the Order is not applicable to the Company.
- xvii. The Company has not incurred any cash losses in the financial year or in the immediately preceding financial year.
- xviii. There has been no resignation of the statutory auditors during the year and accordingly the reporting under clause (xviii) is not applicable.
- xix. According to the information and explanations given to us and on the basis of the financial ratios (Also refer Note 42 to the financial statements), ageing and expected dates of realisation of financial assets and payment of financial liabilities, other information accompanying the financial statements, our knowledge of the Board of Directors and management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report that Company is not capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date. We, however, state that this is not an assurance as to the future viability of the Company. We further state that our

reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date will get discharged by the Company as and when they fall due.

- xx. As at balance sheet date, the Company does not have any amount remaining unspent under Section 135(5) of the Act. Accordingly, reporting under clause 3(xx) of the Order is not applicable.
- xxi. The reporting under clause 3(xxi) of the Order is not applicable in respect of audit of Standalone Financial Statements. Accordingly, no comment in respect of the said clause has been included in this report.

ELANTAS Beck India Limited
Notes to the financial statements
(All amounts are in INR lakhs, unless otherwise stated)

Background:

ELANTAS Beck India Limited (the “Company”) is a public limited Company domiciled in India and was incorporated on March 15, 1956 under the provisions of the Companies Act, 1956. It is listed on the Bombay Stock Exchange (BSE). The Company is a subsidiary of ELANTAS GmbH, based in Germany. ELANTAS GmbH is part of Altana Group whose Ultimate Holding Company is SKion GmbH. The registered office of the Company is situated at 147, Mumbai-Pune Road, Pimpri, Pune, Maharashtra - 411018.

The Company manufactures a wide range of specialty chemicals for electrical insulation and construction industries. It has manufacturing plants at Pimpri and Ankleshwar in India.

1. Significant accounting policies:

This note provides a list of the significant accounting policies adopted in the preparation of these financial statements. These policies have been consistently applied to all the years presented, unless otherwise stated.

(a) Basis of preparation

(i) Compliance with Ind AS

The financial statements comply in all material aspects with Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 (the “Act”) [Companies (Indian Accounting Standards) Rules, 2015] and other relevant provisions of the Act.

The Board of Directors have authorized these financial statements for issue on February 20, 2024.

(ii) Historical cost convention

The financial statements have been prepared on a historical cost basis, except for the following:

- a. Certain financial assets and liabilities which are measured at fair value;
- b. Defined benefit plans - plan assets measured at fair value.

The financial statements are presented in Indian Rupees in Lakhs, except when otherwise indicated.

(iii) Current/ Non-current classification

All assets and liabilities have been classified as current or non-current as per the Company’s operating cycle and other criteria set out in the Schedule III of the Companies Act, 2013. Based on the nature of products and the time between the acquisition of assets for processing and their realization in cash and cash equivalents, the Company has ascertained its operating cycle as 12 months for the purpose of current and non-current classification of assets and liabilities.

(iv) New amendments issued but not effective

The Ministry of Corporate Affairs has vide notification dated 31 March 2023 notified Companies (Indian Accounting Standards) Amendment Rules, 2023 (the ‘Rules’) which amends certain accounting standards, and are effective 1 April 2023. The Rules predominantly amend Ind AS 12, Income taxes, and Ind AS 1, Presentation of financial statements. The other amendments to Ind AS’ notified by these rules are primarily in the nature of clarifications. These amendments are not expected to have a material impact on the Company in the current or future reporting periods and on foreseeable future transactions.

ELANTAS Beck India Limited
Notes to the financial statements
(All amounts are in INR lakhs, unless otherwise stated)

(b) Segment Reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. The chief operating decision maker is the Company's Managing Director. Refer note 37 for segment information presented.

(c) Foreign currency translation

(i) Functional and presentation currency

Items included in the financial statements of the Company are measured using the currency of the primary economic environment in which the entity operates ('the functional currency'). The financial statements are presented in Indian rupee (INR), which is the Company's functional and presentation currency.

(ii) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates are recognized in profit or loss.

Non-monetary items that are measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. Translation differences on assets and liabilities carried at fair value are reported as part of the fair value gain or loss. For example, translation differences on non-monetary assets and liabilities such as equity instruments held at fair value through profit or loss are recognised in profit or loss as part of the fair value gain or loss and translation differences on non-monetary assets such as equity investments classified as FVOCI are recognised in other comprehensive income.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions.

(d) Revenue recognition

(i) Revenue from contracts with customers

Revenue is recognized when a customer obtains control of a promised good or service and thus has the ability to direct the use and obtain the benefits from the good or service in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods and services.

Revenue recognition policy

Revenue is recognised at point in time when control of goods is transferred to the customer - based on delivery terms, payment terms, customer acceptance and other indicators of control as mentioned above; at an amount that reflects the consideration which the Company expects to be entitled in exchange for those goods.

The five-step process that is applied before revenue can be recognised:

- (i) identify contracts with customers;
- (ii) identify the separate performance obligation;
- (iii) determine the transaction price of the contract;
- (iv) allocate the transaction price to each of the separate performance obligations, and
- (v) recognise the revenue as each performance obligation is satisfied.

ELANTAS Beck India Limited

Notes to the financial statements

(All amounts are in INR lakhs, unless otherwise stated)

The timing of when the Company transfers the goods may differ from the timing of the customer's payment. Amounts disclosed as revenue are net of returns, trade allowances, rebates, taxes and amounts collected on behalf of third parties such as Goods and Services Tax (GST).

The Company does not expect to have any contracts where the period between the transfer of goods or services to the customer and payment by the customer exceeds one year. As a consequence, the Company does not adjust any of the transaction prices for the time value of money.

(ii) Export incentives

Export incentives are accounted for in the year of export of goods, if the entitlements can be estimated with reasonable accuracy and conditions precedent to claim are reasonably expected to be fulfilled.

(iii) Rental Income

Rental income arising from operating leases on properties is accounted for on a straight-line basis over the lease terms and is included in other income in the statement of profit and loss.

(e) Income tax

The income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses.

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting period. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred income tax is also not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting profit nor taxable profit (tax loss). Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset is realized or the deferred income tax liability is settled.

Deferred tax assets are recognized for all deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilize those temporary differences and losses.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

ELANTAS Beck India Limited
Notes to the financial statements
(All amounts are in INR lakhs, unless otherwise stated)

Current and deferred tax is recognized in profit or loss, except to the extent that it relates to items recognized in other comprehensive income or directly in equity. In this case, the tax is also recognized in other comprehensive income or directly in equity, respectively.

(f) Leases

As a Lessee:

Leases are recognised as a Right of use asset and a corresponding liability at the date at which the leased asset is available for use by the Company. Each lease payment is allocated between the principal (liability) and finance cost. The finance cost is charged to the Statement of Profit and Loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

Assets and liabilities arising from a lease are initially measured on a present value basis. Lease liabilities include the net present value of the fixed payments (including in-substance fixed payments), less any lease incentives receivable.

Lease payments to be made under reasonably certain extension options are also included in the measurement of the liability. The lease payments are discounted using the interest rate implicit in the lease. If that rate cannot be readily determined, the lessee's incremental borrowing rate is used, being the rate that the lessee would have to pay to borrow the funds necessary to obtain an asset of similar value in a similar economic environment with similar terms and conditions.

Right of use assets are measured at cost comprising the following:

- the amount of the initial measurement of lease liability
- any lease payments made at or before the commencement date less any lease incentives received
- any initial direct costs, and
- restoration costs.

Right of use asset is depreciated over the shorter of the asset's useful life and the lease term on a straight-line basis. If the Company is reasonably certain to exercise a purchase option, the Right of use asset is depreciated over the underlying asset's useful life.

Extension and termination options are included in a number of property and equipment leases across the Company. These terms are used to maximise operational flexibility in terms of managing contracts. The majority of extension and termination options held are exercisable only by the Company and not by the respective lessor.

Payments associated with short-term leases and leases of low-value assets are recognised on a straight-line basis as an expense in the Statement of Profit and Loss. Short-term leases are leases with a lease term of 12 months or less. Low value assets mainly comprise small items of office equipment.

As a lessor

Lease income from operating leases where the Company is a lessor is recognized in income on a straight-line basis over the lease term unless the receipts are structured to increase in line with expected general inflation to compensate for the expected inflationary cost increases. The respective leased assets are included in the balance sheet on their nature.

ELANTAS Beck India Limited
Notes to the financial statements
(All amounts are in INR lakhs, unless otherwise stated)

(g) Impairment of assets

Goodwill is not subject to amortization and is tested annually for impairment, or more frequently if events or changes in circumstances indicate that they might be impaired. Property, Plant and Equipment and Intangible assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognized for the amount by which the asset's carrying amounts exceeds its recoverable amount. The recoverable amount is higher of an asset's fair value less costs of disposal and value in use. For the purpose of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows which are largely independent of the cash inflows from other assets or group of assets (cash-generating units). Non-financial assets other than goodwill that suffered an impairment are reviewed for possible reversal of the impairment at the end of each reporting period.

(h) Cash and cash equivalents

For the purpose of presentation in the statement of cash flows, cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value, and bank overdrafts.

(i) Trade receivables

Trade receivables are amounts due from customers for goods sold in the ordinary course of business. Trade receivables are recognised initially at the amount of consideration that is unconditional unless there are significant financing components, when they are recognised at fair value. The Company holds the trade receivables with the objective to collect contractual cash flows and therefore measures them subsequently at amortised cost using the effective interest method, less loss allowance.

(j) Inventories

Inventories are stated at lower of costs and net realizable value. Cost of inventories comprises cost of purchase determined on weighted average basis. Cost of work-in-progress and finished goods comprises of direct materials, direct labour and all manufacturing overheads. Cost of inventories also include all other costs incurred in bringing the inventories to their present location and condition. Costs of purchased inventory are determined after deducting rebates and discounts. Net realizable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

(k) Investments and other Financial assets

(i) Classification & Recognition

The Company classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value (either through other comprehensive income, or through profit or loss), and
- those measured at amortized cost.

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows.

ELANTAS Beck India Limited
Notes to the financial statements
(All amounts are in INR lakhs, unless otherwise stated)

For assets measured at fair value, gains and losses will either be recorded in profit or loss or other comprehensive income. For investments in debt instruments, this will depend on the business model in which the investment is held. For investments in equity instruments, this will depend on whether the Company has made an irrevocable election at the time of initial recognition to account for the equity investment at fair value through other comprehensive income.

The Company reclassifies debt investments when and only when its business model for managing those assets changes.

(ii) Measurement

At initial recognition, the Company measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in profit or loss statement.

Debt instruments

Subsequent measurement of debt instruments depends on the Company's business model for managing the asset and the cash flow characteristics of the asset. The Company classifies its debt instruments as follows:

- **Amortized cost:** Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortized cost. A gain or loss on a debt investment that is subsequently measured at amortized cost and is not part of a hedging relationship is recognized in profit or loss when the asset is derecognized or impaired. Interest income from these financial assets is included in other income using the effective interest rate method.
- **Fair value through other comprehensive income (FVOCI):** Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets' cash flows represent solely payments of principal and interest, are measured at fair value through other comprehensive income (FVOCI). Movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses, interest revenue and foreign exchange gains and losses which are recognised in profit and loss. When the financial asset is derecognised, the cumulative gain or loss previously recognised in OCI is reclassified from equity to profit or loss and recognised in other gains/ (losses). Interest income from these financial assets is included in other income using the effective interest rate method. Foreign exchange gains and losses and impairment expenses are presented as separate lines item in the financial statements.
- **Fair value through profit or loss:** Assets that do not meet the criteria for amortised cost or FVOCI are measured at fair value through profit or loss. A gain or loss on a debt investment that is subsequently measured at fair value through profit or loss and is not part of a hedging relationship is recognised in profit or loss and presented net in the statement of profit and loss within other gains/(losses) in the period in which it arises. Interest income from these financial assets is included in other income.

Equity instruments

The Company subsequently measures equity investment at fair value. The Company's Management elects to present fair value gains and losses on equity investments in the statement of profit and loss on an instrument by instrument basis. Dividends from such investments are recognized in profit or loss as other income when the Company's right to receive payment is established.

Changes in the fair value of financial assets at fair value through profit or loss are recognised in other gain/ (losses) in the statement of profit and loss. Impairment losses (and reversal of impairment losses) on equity investments measured at FVOCI are not reported separately from other changes in fair value.

(iii) Impairment of financial assets

The Company assesses on a forward looking basis the expected credit losses associated with its assets carried at amortized cost. The impairment methodology applied depends on whether there has been a significant increase in credit risk. Refer note 39 for details of how the Company determines whether there has been a significant increase in credit risk.

For trade receivables, the Company applies the simplified approach permitted by Ind AS 109 Financial Instruments, which requires expected lifetime losses to be recognized from initial recognition of the receivables.

In accordance with Ind AS 109, the Company applies expected credit loss (ECL) model for measurement and recognition of impairment loss on the following financial assets and credit risk exposure:

- a) Financial assets that are debt instruments, and are measured at amortised cost e.g., loans, debt securities, deposits, trade receivables and bank balance;
- b) Lease receivables under Ind AS 116
- c) Trade receivables or any contractual right to receive cash or another financial asset that result from transactions that are within the scope of Ind AS 115.

The Company follows 'simplified approach' for recognition of impairment loss allowance on:

- Trade receivables or contract revenue receivables; and
- All lease receivables resulting from transactions within the scope of Ind AS 116

The application of simplified approach does not require the Company to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

For recognition of impairment loss on other financial assets and risk exposure, the Company determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If, in a subsequent period, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the entity reverts to recognising impairment loss allowance based on 12-month ECL. The Company has used a practical expedient by computing the expected credit loss allowance for trade receivables based on provision matrix. The provision matrix takes into account historical credit loss experience and adjusted for forward looking information.

ELANTAS Beck India Limited
Notes to the financial statements
(All amounts are in INR lakhs, unless otherwise stated)

Lifetime ECL are the expected credit losses resulting from all possible default events over the expected life of a financial instrument. The 12-month ECL is a portion of the lifetime ECL which results from default events that are possible within 12 months after the reporting date.

ECL is the difference between all contractual cash flows that are due to the Company in accordance with the contract and all the cash flows that the entity expects to receive (i.e., all cash shortfalls), discounted at the original EIR. When estimating the cash flows, an entity is required to consider:

- All contractual terms of the financial instrument (including prepayment, extension, call and similar options) over the expected life of the financial instrument. However, in rare cases when the expected life of the financial instrument cannot be estimated reliably, then the entity is required to use the remaining contractual term of the financial instrument;
- Cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms. ECL impairment loss allowance (or reversal) recognized during the period is recognized as income/ expense in the statement of profit and loss. This amount is reflected under the head 'other expenses' in the statement of profit and loss. The balance sheet presentation for various financial instruments is described below:
- Financial assets measured as at amortised cost, contractual revenue receivables and lease receivables: ECL is presented as an allowance, i.e., as an integral part of the measurement of those assets in the balance sheet. The allowance reduces the net carrying amount. Until the asset meets write-off criteria, the Company does not reduce impairment allowance from the gross carrying amount.

For assessing increase in credit risk and impairment loss, the Company combines financial instruments on the basis of shared credit risk characteristics with the objective of facilitating an analysis that is designed to enable significant increases in credit risk to be identified on a timely basis.

The Company does not have any purchased or originated credit-impaired (POCI) financial assets, i.e., financial assets which are credit impaired on purchase/ origination.

(iv) Derecognition of financial assets

A financial asset is derecognized only when

- The Company has transferred the rights to receive cash flows from the financial asset or
- retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients.

Where the entity has transferred an asset, the Company evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. In such cases, the financial asset is derecognized. Where the entity has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not derecognized.

Where the entity has neither transferred a financial asset nor retains substantially all risks and rewards of ownership of the financial asset, the financial asset is derecognized if the Company has not retained control of the financial asset. Where the Company retains control of the financial asset, the asset is continued to be recognized to the extent of continuing involvement in the financial asset.

(v) **Reclassification of financial assets**

The Company determines classification of financial assets and liabilities on initial recognition. After initial recognition, no reclassification is made for financial assets which are equity instruments and financial liabilities. For financial assets which are debt instruments, a reclassification is made only if there is a change in the business model for managing those assets. Changes to the business model are expected to be infrequent. The Company's senior management determines change in the business model as a result of external or internal changes which are significant to the Company's operations. Such changes are evident to external parties. A change in the business model occurs when the Company either begins or ceases to perform an activity that is significant to its operations. If the Company reclassifies financial assets, it applies the reclassification prospectively from the reclassification date which is the first day of the immediately next reporting period following the change in business model. The Company does not restate any previously recognised gains, losses (including impairment gains or losses) or interest.

(vi) **Income recognition**

Dividend income from investments is recognized when the right to receive payment is established.

Interest income is recognized on a time proportion basis taking into account the amount outstanding and the rate applicable.

(l) Offsetting financial instruments

Financial assets and liabilities are offset and the net amount is reported in the balance sheet where there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis or realize the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Company or the counterparty.

(m) Property, plant and equipment

Freehold land and Capital work in progress are carried at historical costs. All other items of property, plant and equipment are stated at historical cost, net of accumulated depreciation and accumulated impairment losses, if any. Such historical cost includes the cost of replacing part of the property, plant and equipment and borrowing costs if the recognition criteria are met. When significant parts of the property, plant and equipment are required to be replaced at intervals, the Company depreciates them separately based on their specific useful lives. Likewise, when a major inspection is performed, its cost is recognised in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognised in statement of profit or loss as incurred. No decommissioning liabilities are expected or be incurred on the assets of plant and equipment.

Expenditure directly relating to construction activity is capitalised. Indirect expenditure incurred during construction period is capitalised as part of the construction costs to the extent the expenditure can be attributable to construction activity or is incidental there to. Income earned during the construction period is deducted from the total of the indirect expenditure.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of any

ELANTAS Beck India Limited
Notes to the financial statements
(All amounts are in INR lakhs, unless otherwise stated)

component accounted for as a separate asset is derecognized when replaced. All other repairs and maintenance are charged to profit or loss during the reporting period in which they are incurred.

The Company, based on technical assessments made by technical experts and management estimates, depreciates the certain items of tangible assets over estimated useful lives which are different from the useful life prescribed in Schedule II to the Companies Act, 2013. The management believes that these estimated useful lives are realistic and reflect fair approximation of the period over which the assets are likely to be used. Table below provide the details of the useful lives followed by the management and useful lives prescribed under Schedule II of the Companies Act, 2013:

Assets	Useful life followed by the Management (years)	Useful life prescribed in Schedule II (years)
Building and roads		
Office Building	60	60
Factory Building	30	30
Plant and Machinery (based on single shift)	15-20	15-20
Office Equipment	3-5	5
Laboratory Equipment	10	10
Electrical Installations	10	10
Computers	3-6	3-6
Furniture and Fixtures	10	10
Motor Vehicle	5	8

The leasehold improvements and property, plant and equipment acquired under leases is depreciated over the asset's useful life or over the shorter of the asset's useful life and the lease term, unless the entity expects to use the assets beyond the lease term.

An item of property, plant and equipment and any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the statement of profit or loss when the asset is derecognised.

The asset's residual values and useful lives are reviewed and adjusted if appropriate, at the end of the reporting period. An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gains and losses on disposals are determined by comparing proceeds with carrying amount. These are included in profit or loss within other income/ other expenses respectively.

(n) Investment properties

Property that is held for long-term rental yields or for capital appreciation or both, and that is not occupied by the Company, is classified as investment property. Investment property is measured initially at its cost, including related transaction costs and where applicable borrowing costs. Subsequent expenditure is capitalized to the asset's carrying amount only when it is probable that the future economic benefits associated with the expenditure will flow to the Company and the cost of the item can be measured reliably. All other repairs and maintenance costs are expensed

ELANTAS Beck India Limited
Notes to the financial statements
(All amounts are in INR lakhs, unless otherwise stated)

when incurred. When part of an investment property is replaced, the carrying amount of the replaced part is derecognized.

Investment property includes freehold land and office building. Freehold land is determined to have an indefinite useful life which is reviewed at the end of each financial year. Accordingly, the freehold land is not depreciated. Office buildings generally have useful life of 60 years. Depreciation for office building is provided for on the straight-line method over the useful life as determined based on internal technical evaluation.

The Company has no contractual obligations to purchase, construct or develop investment properties or for repairs, maintenance and enhancements. There is no restrictions on the realisability of investment properties or the remittance of income and proceeds of disposal on the Company.

(o) Intangible assets

Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less accumulated amortisation and accumulated impairment losses. Internally generated intangible assets, excluding capitalised development costs, are not capitalised and the expenditure is recognised in the Statement of Profit and Loss in the period in which the expenditure is incurred.

Intangible assets with finite lives are amortised over their useful economic lives and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at least at the end of each reporting period. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are considered to modify the amortisation period or method, as appropriate, and are treated as changes in accounting estimates. The amortisation expense on intangible assets with finite lives is recognised in the statement of profit or loss.

The Company does not have any intangible assets with indefinite useful lives.

Research costs are expensed as incurred.

Technical Know-how, Customer Lists and Non-Compete Rights acquired in a business combination are recognised at fair value at the acquisition date. They have a finite useful life and are subsequently carried at cost less accumulated amortization.

Gains or losses arising from the retirement or disposal of an intangible asset are determined as the difference between the net disposal proceeds and the carrying amount of the asset and recognized as income or expense in the profit or loss.

Intangible assets are amortized on the straight-line method as follows:

Asset	Useful life (Years)
Computer Software	3
Computer Software (developed internally)	5
Technical Know-how	10
Customer Lists	10
Non-Compete Rights	5

ELANTAS Beck India Limited

Notes to the financial statements

(All amounts are in INR lakhs, unless otherwise stated)

The amortisation period and the amortisation method are reviewed at least at each financial year end. If the expected useful life of the asset is significantly different from previous estimates, the amortisation period is changed accordingly.

The Company has tested the carrying value of Intangible Asset under Development for impairment as at reporting date and no impairment has been identified.

(p) Trade and other payables

These amounts represent liabilities for goods and services provided to the Company prior to the end of financial year which are unpaid. Trade and other payables are unsecured and are presented as current liabilities unless payment is not due within twelve months determined by the Company after the reporting period. They are recognized initially at their fair value and subsequently measured at amortized cost using the effective interest method.

(q) Provisions and contingent liabilities

Provisions are recognized when the Company has a present legal or constructive obligation as a result of a past events, it is probable that an outflow of resources will be required to settle the obligations, and a reliable estimate of the amount of the obligation can be made. Provisions are determined based on the best estimate required to settle the obligation at the Balance Sheet date. Provisions are reviewed at each Balance Sheet date and adjusted to reflect current best estimates. Provisions are not recognized for future operating losses. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as interest expense.

Contingent liabilities are disclosed by way of a note to the financial statements when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made.

(r) Employee Benefits

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognized in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

Company has liabilities for earned and sick leaves that are not expected to be settled wholly within 12 months after the end of the period in which the employees render the related services. But the Company does not have an unconditional right to defer settlement for any of these obligations, hence the entire amount of provision is presented as short-term obligation.

The liabilities for service awards is not expected to be settled wholly within 12 months after the end of the period in which the employees render the related service. They are therefore measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the projected unit credit method. The benefits are discounted using the market yields at the end of the reporting period that have terms approximating to the terms of the related obligation. Remeasurements as a result of experience adjustments and changes in actuarial assumptions are recognized in profit or loss.

Other Post-employment obligations

The Company operates the following post-employment schemes:

- (a) Defined benefit plan – gratuity and cash rewards at retirement
- (b) Defined contribution plans – superannuation fund and provident fund

(a) Defined benefit plans - Gratuity and cash rewards at retirement

The liability or asset recognised in the balance sheet in respect of defined benefit gratuity plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The defined benefit obligation is calculated annually by actuaries using the projected unit credit method.

The Company provides for gratuity, a defined benefit plan (the “Gratuity Plan”) covering eligible employees in accordance with the Payment of Gratuity Act, 1972. The Gratuity Plan provides a lump sum payment to vested employees at retirement, death or termination of employment, of an amount based on the respective employee’s salary and the tenure of employment. This plan is funded.

The Company also has ‘Cash reward at retirement’ plan which provides a payment of Rs. 2,500 for each year of service rendered at the time of normal retirement. This plan is unfunded.

The liability or asset recognized in the balance sheet in respect of defined benefit plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets (as applicable). The defined benefit obligation is calculated annually by actuaries using the projected unit credit method.

The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on government bonds that have terms approximating to the terms of the related obligation.

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expense in the statement of profit and loss.

Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognized in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the statement of changes in equity and in the balance sheet.

Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognized immediately in profit or loss as past service cost.

(b) Defined contribution Plans – Superannuation Fund and Provident Fund

The Company contributes on a defined contribution basis to Employees’ Provident Fund and Superannuation Fund. The contributions towards Provident Fund is made to regulatory authorities and contribution towards Superannuation Fund is made to Life Insurance Corporation of India. Such benefits are classified as defined contribution plans as the Company does not carry any further obligations, apart from the contributions made on a monthly basis. Contributions are recognized as employee benefit expense when they are due.

(iv) Termination benefits

Termination benefits are payable when employment is terminated by the Company before the

ELANTAS Beck India Limited

Notes to the financial statements

normal retirement date, or when an employer accepts voluntary redundancy in exchange for these benefits. The Company recognizes termination benefits in the Statement of Profit and Loss in the year as an expense as and when incurred.

(s) Contributed equity

Equity shares are classified as equity. Incremental costs directly attributable to the issue of new shares are shown in equity as a deduction, net of tax, from the proceeds.

(t) Dividends

Provision is made for the amount of any dividend declared, being appropriately authorized and no longer at the discretion of the entity, on or before the end of the reporting period but not distributed at the end of the reporting period. As per the corporate laws in India, a distribution is authorised when it is approved by the Shareholders. A corresponding amount is recognised directly in equity.

(u) Earnings per share

(i) Basic earnings per share

Basic earnings per share is calculated by dividing the profit attributable to owners of the Company by the weighted average number of equity shares outstanding during the financial year.

(ii) Diluted earnings per share

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account:

- the after income tax effect of interest and other financing costs associated with dilutive potential equity shares, and
- the weighted average number of additional equity shares that would have been outstanding assuming the conversion of all dilutive potential equity shares.

(v) Exceptional items:

When the items of income and expense within profit or loss from ordinary activities are of such size, nature or incidence that their disclosure is relevant to explain the performance of the Company for the period, the nature and amount of such items are disclosed separately as exceptional item by the Company.

(w) Rounding off of amounts:

All amounts disclosed in the financial statements and notes have been rounded off to the nearest lakhs as per the requirement of Schedule III, unless otherwise stated.

2. Significant judgements and estimates

The preparation of financial statements requires the use of accounting estimates which, by definition, will seldom equal the actual results. Management also needs to exercise judgement in applying the Company's accounting policies. This note provides an overview of the areas that involved a higher degree of judgement or complexity, and of items which are more likely to be materially adjusted due to estimates and assumptions turning out to be different than those originally assessed.

ELANTAS Beck India Limited
Notes to the financial statements
(All amounts are in INR lakhs, unless otherwise stated)

Judgements

In the process of applying the Company's accounting policies, management has made the following judgements, which have the most significant effect on the amounts recognized in the financial statements:

i. Legal contingencies

The Company has received various orders and notices from tax and regulatory authorities. The outcome of these matters may have a material effect on financial position and results of operations of cash flows. Management regularly analyzes current information about these matters and provides provisions for probable contingent losses including the estimate of legal expenses to resolve the matters. In making the decisions regarding the need for loss provisions, management considers the degree of probability of an unfavorable outcome and the ability to make a sufficiency reliable estimate of the amount of loss. The filing of suit or formal assertion of a claim against the Company or the disclosure of any such suit or assertions, does not automatically indicate that a provision of a loss may be appropriate. Refer note 35 for details of contingent liabilities as at year end.

ii. Segment reporting

Ind-AS 108 Operating Segments requires management to determine the reportable segments for the purpose of disclosure in financial statements based on the internal reporting reviewed by Chief Operating Decision Maker (CODM) to assess performance and allocate resources. The standard also requires management to make judgements with respect to aggregation of certain operating segments into one or more reportable segment.

The Company has determined that the Chief Operating Decision Maker (CODM) is the Company's Managing Director, based on its internal reporting structure and functions. Operating segments used to present segment information are identified based on the internal reports used and reviewed by the Managing Director to assess performance and allocate resources. Refer note 37 for further details of the operating segments identified.

Significant estimates

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Company based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however may change due to market changes or circumstances arising that are beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

iii. Fair value of Investment Properties

The fair value of land and building recognized under investment property is appraised each year by independent external valuer. The best evidence of fair value are current prices in an active market for similar investment property. In the absence of such information, the Company determines the amount within a range of reasonable fair value estimates. The underlying assumptions of these estimates are explained in more detail in note 4.

ELANTAS Beck India Limited
Notes to the financial statements
(All amounts are in INR lakhs, unless otherwise stated)

iv. Defined benefit obligations

The cost of the defined benefit gratuity plan and the present value of the gratuity obligations are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date. The parameter which is most subject to change is the discount rate. In determining the appropriate discount rate for plans operated in India, the management considers the interest rates of government bonds. The mortality rate is based on Indian Assured Lives Mortality (IALM) (2006-08) (modified) Ultimate. Those mortality tables tend to change only at interval in response to demographic changes. Future salary increases and gratuity increases are based on expected future inflation rates. For further details about gratuity obligations are given in notes 22 and 23.

Estimation of fair value

The Company obtains independent valuation for its investment properties at least annually. The best evidence of fair value is current prices in an active market for similar properties. Where such information is not available, the Company considers information from a variety of sources including:

- current prices in an active market for properties of different nature or recent prices of similar properties in less active markets, adjusted to reflect those differences
- discounted cash flow projections based on reliable estimates of future cash flows
- capitalised income projections based upon a property's estimated net market income, and a capitalisation rate derived from an analysis of market evidence

The fair value of investment properties have been determined by an independent valuer who is a registered valuer. The fair value is measured using external expert appraisals and by applying input factors for comparable assets not traded on active markets. All resulting fair value estimates for investment properties are included in level 2.

A Defined contribution plan

Provident and superannuation fund

The Company has certain defined contribution plans. Contributions are made to provident fund for employees at the rate of 12% of basic salary as per regulations as well as to superannuation fund. The contributions are made to registered provident fund administered by the Government and superannuation trust administered through Life Insurance Corporation of India (LIC). The obligation of the Company is limited to the amount contributed and it has no further contractual nor any constructive obligation. The expense recognised during the year towards defined contribution plan (provident fund) is INR 130.81 lakhs (December 31, 2022 - INR 124.76 lakhs) and defined contribution plan (superannuation fund) is INR 129.70 lakhs (December 31, 2022 - INR 107.16 lakhs).

B Defined benefit plan

I Compensated absences

Company has liabilities for earned and sick leaves that are not expected to be settled wholly within 12 months after the end of the period in which the employees render the related services. These obligations are therefore measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the projected unit credit method. The benefits are discounted using the appropriate market yields at the end of the reporting period that have terms approximating to the terms of the related obligation. Remeasurements as a result of experience adjustments and changes in actuarial assumptions are recognised in profit or loss.

The Company does not have an unconditional right to defer settlement for any of these obligations, hence the entire amount of provision is presented as current. However, based on past experience, the Company does not expect all employees to take the full amount of accrued leave or require payment within the next 12 months."

II Gratuity

The Company provides for gratuity for employees in India as per the Payment of Gratuity Act, 1972 (amended). Employees who are in continuous service for a period of 5 years are eligible for gratuity. The amount of gratuity payable on retirement/termination is the employee's last drawn basic salary per month computed proportionately for 15 days salary multiplied for the number of years of service. The gratuity plan is a funded plan and the Company makes contribution to fund managed by Life Insurance Corporation of India.

Benefits paid	(78.28)	78.28	-
December 31, 2023	755.60	(800.97)	(45.37)

The Company expects to contribute INR 107.68 lakhs (actual contribution for the year ended December 31, 2023 is INR Nil) to its gratuity plan in the year ending December 31, 2024.

The Fair value of the planned assets represents the balance as confirmed by the fund.

(ii) The net liability disclosed above relates to funded plans are as follows :

Particulars	December 31, 2023	December 31, 2022
Present value of funded obligation	755.60	737.80
Fair value of plan assets	(800.97)	(820.89)
(Surplus)/ Deficit of funded plan	(45.37)	(83.09)
Unfunded plan	-	-

(iii) Significant estimates

The significant actuarial assumptions were as follows :

Particulars	December 31, 2023	December 31, 2022
Discount rate	7.50%	7.60%
Salary growth rate	9.00%	9.00%

The estimated future salary increase, considered in actuarial valuation, takes into account the effect of inflation, seniority, promotion and other relevant factors such as supply and demand in the employment market.

(iv) Sensitivity of actuarial assumptions

The sensitivity of defined obligation to changes in the weighted principal assumptions is:

Assumption	Impact on defined benefit obligation	
	December 31, 2023	December 31, 2022
Discount rate		
0.50% increase	(24.48)	(22.88)
0.50% decrease	25.95	24.26
Salary growth rate		
0.50% increase	10.74	11.40
0.50% decrease	(10.70)	(11.08)

The above sensitivity analysis is based on a change in an assumption while holding all the other assumptions constant. In practice, this is unlikely to occur, and changes in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same method (present value of the defined benefit obligation calculated with the projected unit credit method at the end of the reporting period) has been applied as when calculating the defined benefit liability recognised in the balance sheet.

The methods and types of assumptions used in preparing the sensitivity analysis did not change compared to the prior period.

ELANTAS Beck India Limited
Notes to the financial statements
(All amounts are in INR lakhs, unless otherwise stated)

The Expected maturity analysis of undiscounted gratuity is as follows:

Projected benefits payable in future years from the date of reporting	December 31, 2023	December 31, 2022
Less than a year	107.68	118.23
Between 2 to 5 years	357.05	332.02
Between 6 to 10 years	508.72	492.31
Total	973.45	942.56

The weighted duration of the defined benefit obligation is 7 years (December 31, 2022 : 7 years).

(v) The major categories of plan assets are as follows:

Particulars	December 31, 2023	December 31, 2022
Funds managed by insurer	100%	100%

(vi) Risk Exposure

Through its defined benefit plan, the Company is exposed to a number of risks, the most significant of which are detailed below:

Asset volatility:

The plan liabilities are calculated using a discount rate set with reference to bond yields; if plan assets underperform this yield, this will create a deficit. All plan assets are maintained in a trust fund managed by a public sector insurer i.e., LIC of India. LIC has a sovereign guarantee and has been providing consistent and competitive returns over the years. The Company has opted for a traditional fund wherein all assets are invested primarily in risk averse markets. The Company has no control over the management of funds but this option provides a high level of safety for the total corpus. A single account is maintained for both the investment and claim settlement and hence, 100% liquidity is ensured. Also, interest rate and inflation risk are taken care of.

Changes in bond yields:

A decrease in bond yields will increase plan liabilities, although this will be partially offset by an yields increase in the value of the plans' bond holdings.

Future salary escalation and inflation risk:

Since price inflation and salary growth are linked economically, they are combined for disclosure purposes. Rising salaries will often result in higher future defined benefit payments resulting in higher present value of liabilities. Further, unexpected salary increases provided at the discretion of the management may lead to uncertainties in estimating this increasing risk.

Asset-Liability mismatch risk:

Risk which arises if there is a mismatch in the duration of the assets relative to the liabilities. By matching duration with the defined benefit liabilities, the Company is successfully able to neutralize valuation swings caused by interest rate movements. Hence, companies are encouraged to adopt asset-liability management.

Life expectancy risk:

Increases in life expectancy of employee will result in an increase in the plan liabilities. This is particularly significant where inflationary increases result in higher sensitivity to changes in life expectancy.

III Cash rewards at retirement

The Company has a defined benefit plan of cash rewards whereby at the time of normal retirement, INR 2,500 is payable to employees for each year of service rendered. The scheme is unfunded.

Movement in balances - Cash rewards at retirement

Total	23.14	22.39

The weighted duration of the defined benefit obligation is 7 years (December 31, 2022 : 7 years).

(iv) Risk Exposure

Through its defined benefit plan, the Company is exposed to a number of risks, the most significant of which is detailed below:

Changes in bond yields:

A decrease in bond yields will increase plan liabilities, although this will be partially offset by an yields increase in the value of the plans' bond holdings.

IV Long service awards

Long Service Awards are payable to employees on completion of specified years of service wherein a cash amount as a percentage of monthly basic salary is paid at the time of retirement/resignation/termination (ranging from 75% to 300% of basic monthly salary basis number of years served). There are no changes in actuarial assumptions used compared to previous year and are aligned with the other defined benefit plans mentioned above.

- (iii) On March 6, 2019, the Company was directed for closure of its operations in Ankleshwar by the Gujarat Pollution Control Board (GPCB) due to a suspected ground water contamination issue. The GPCB through its subsequent orders had granted temporary revocation of the closure order. The Company has represented to the GPCB for a permanent revocation of the closure order and is expecting a favourable response.

Note:

The Company's pending litigations comprise of proceedings pending with Excise and Income tax authorities. The Company has reviewed all its pending litigations and proceedings and has adequately provided for cases where provisions are required and disclosed as contingent liabilities where applicable, in its financial statements. The Company does not expect the outcome of these proceedings to have a materially adverse effect on its financial results. In respect of the claims against the Company not acknowledged as debts as above, the management does not expect these claims to succeed. It is not practical to indicate the uncertainty which may affect the future outcome and estimate the financial effects of the above liabilities.

The Supreme Court had issued a Judgement in case of "Vivekananda Vidyamandir And Others Vs The Regional Provident Fund Commissioner (II) West Bengal" and the related circular (Circular No. C-1/1(33)2019/Vivekananda Vidya Mandir/284) dated March 20, 2019 was issued by the Employees' Provident Fund Organisation in relation to non-exclusion of certain allowances from the definition of "basic wages" of the relevant employees for the purposes of determining contribution to provident fund under the Employees' Provident Funds & Miscellaneous Provisions Act, 1952. In the assessment of the management, the aforesaid matter is not likely to have a significant impact.

The Code on Social Security, 2020 ('Code') relating to employee benefits received Presidential assent in September 2020. However, the date on which the Code will come into effect has not yet been notified. The Company will assess the impact of the Code when it comes into effect and will record any related impact in the period the Code becomes effective.

i) Fair value hierarchy

This Section explains the judgements and estimates made in determining the fair values of the financial instruments that are (a) recognised and measured at fair value and (b) measured at amortised cost and for which fair values are disclosed in the financial statements. To provide an indication about the reliability of the inputs used in determining fair value, the Company has classified its financial instruments into three levels prescribed under the accounting standard. An explanation of each level follows underneath the table.

Financial assets and liabilities measured at fair value - recurring fair value measurements	Notes	Level 1 (Quoted prices in active market)	Level 2 (Significant observable inputs)	Level 3 (Significant unobservable inputs)	Total
At December 31, 2023

Investments					
Mutual Funds	6	51,713.54	-	-	51,713.54
Financial assets and liabilities measured at fair value - recurring fair value measurements	Notes	Level 1 (Quoted prices in active market)	Level 2 (Significant observable inputs)	Level 3 (Significant unobservable inputs)	Total
At December 31, 2022					
Financial assets					
Investments					
Mutual Funds	6	35,628.58	-	-	35,628.58

Level 1: The fair value of financial instruments traded in active markets (such as publicly traded derivatives and equity securities) is based on quoted market prices at the end of the reporting period. The mutual funds are valued using the closing NAV. The quoted market price used for financial assets held by the Company is the NAV of these mutual funds as at year end. These instruments are included in level 1.

Level 2: The fair value of financial instruments that are not traded in an active market is determined using valuation

(All amounts are in INR lakhs, unless otherwise stated)

techniques which maximise the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3.

ii) Valuation technique used to determine fair value

The fair value of the financial assets and liabilities is included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

Specific valuation techniques used to value financial instruments include:

The use of quoted market prices for same or similar instruments as on the reporting date.

iii) Valuation process

The finance department of the Company includes a team that oversees the valuations of financial assets and liabilities required for financial reporting purposes, including level 3 fair values.

External valuers are involved for valuation of significant assets, such as unquoted financial assets. Involvement of external valuers is decided by the finance team. Selection criteria includes market knowledge, reputation, independence and whether professional standards are maintained. The Finance team decides, after discussions with the Company's external valuers, which valuation techniques and inputs to use for each case.

Changes in level 3 fair values are analysed at the end of each reporting period during the valuation discussion between the valuation team and external valuer. As part of this discussion the team presents a report that explains the reason for the fair value movements.

iv) Fair value of financial assets and liabilities measured at amortised cost

The carrying amounts of trade and other receivables, security deposits, loans and advances to employees, fixed deposits with banks, interest accrued on deposits, cash and cash equivalents, other bank balances, trade payables, security deposits from customers, capital creditors, employee benefits payable, unpaid dividend and other payables are considered to be reasonable approximation of their fair values.

39 Financial risk management

The Company's activities exposes it to market risk, liquidity risk and credit risk. This note explains the sources of risk which the entity is exposed to and how the entity manages the risk. The Company's risk management is carried out by the Company's finance department under policies approved by the Board of Directors. The Finance department identifies, evaluates and manages financial risk. This note explains the Company's exposure to financial risks and how these risks could affect the Company's future financial performance.

(A) Credit risk

The Company is exposed to credit risk from its operating activities (primarily trade receivables) and deposits with banks and other financial instruments. For banks and other financial institutions, only high rated banks/ financial institutions are accepted. The balances with banks, loans given to related parties, loans given to employees, security deposits are subject to low credit risk and the risk of default is negligible or nil. Hence, no provision has been created for expected credit loss for credit risk arising from these financial assets. The Company considers the probability of default upon initial recognition of asset and whether there has been a significant increase in the credit risk on an ongoing basis throughout each reporting period. To assess whether there is a significant increase in credit risk the Company compares the risk of a default occurring on the asset as at the reporting date with the risk of default as at the date of initial recognition. It considers available reasonable and supportive forward-looking information, for eg, external credit rating (to the extent available), actual or expected significant adverse changes in business, financial or economic conditions that are expected to cause a significant change to borrower's ability to meet its obligations.

Trade receivables

Credit risk arises from the possibility that customer will not be able to settle their obligations as and when agreed. To manage this, the Company periodically assesses the financial reliability of customers, taking into account the financial condition, current economic trends, analysis of historical bad debts, ageing of accounts receivable and forward looking information. Individual credit limits are set accordingly. General payment terms include advances and payments with a credit period ranging from 30 to 60 days. The Company has a detailed review mechanism of overdue customer receivables at various levels within the organisation. The Company has used a practical expedient by computing the expected credit loss allowance for trade receivables based on provision matrix. The provision matrix takes into account historical credit loss experience and adjusted for forward looking information.

Change during the year	(30.09)
Allowance for doubtful debts as on December 31, 2023	382.55

Exposure to credit risk

The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk, being the total of the carrying amount of balances with bank, short term deposits with banks, trade receivables and other financial assets is disclosed at the end of the each reporting period. Refer relevant notes for details. At the reporting date, there were no significant arrangements which reduced the maximum credit risk.

(B) Liquidity risk

Liquidity risk is defined as the risk that the Company will not be able to settle or meet its obligations on time or at a reasonable price. The Company's finance department is responsible for liquidity, funding as well as settlement management. In addition, processes and policies related to such risks are overseen by Senior Management.

Prudent liquidity risk management implies maintaining sufficient cash and marketable securities and the availability of funding through an adequate amount of committed credit facilities to meet obligations when due. To assure the solvency and financial flexibility, the Company retains a liquidity reserve through cash and cash equivalents. The tables below analyse the Company's financial liabilities into relevant maturity group based on their contractual maturities for:

Period	As at December 31, 2023		As at December 31, 2022	
	< 1 year	> 1 year	< 1 year	> 1 year
Trade payables	8,765.53	-	7,354.56	-
Security Deposits	1,068.86	46.34	957.45	46.34
Capital Creditors	634.55	-	40.94	-
Employee benefits payable	696.24	-	732.25	-
Unpaid Dividend	14.56	-	15.64	-
Other Payables	50.70	-	62.57	-
Total	11,230.44	46.34	9,163.41	46.34

(C) Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: interest rate risk, currency risk and price risk. Financial instruments affected by market risk include loans give, deposits, trade receivables, trade payables, derivative financial instruments and other financial asset and liabilities.

I) Foreign currency risk

The Company is engaged in international trade and thereby exposed to foreign exchange risk arising from foreign currency transactions, primarily with respect to the USD and EUR. Foreign exchange risk arises from recognised assets and liabilities denominated in a currency that is not the Company's functional currency (INR). The Company's exposure to foreign currency arises from short term receivables and payables where fluctuations in the foreign exchange rates are generally not significant and consequently limiting the Company's exposure.

ELANTAS Beck India Limited
Notes to the financial statements
(All amounts are in INR lakhs, unless otherwise stated)

i) Foreign currency risk exposure

The Company's exposure to foreign currency risk at the end of the reporting period expressed in INR, are as follows :-

Particulars	December 31, 2023		December 31, 2022	
	EUR	USD	EUR	USD
Financial assets				
Trade and other receivables	70.60	54.10	19.47	0.17
Exposure to foreign currency risk (assets)	70.60	54.10	19.47	0.17
Financial liabilities				
Trade payables	355.96	293.21	207.87	436.61
Capital creditors	629.69	-	-	-
Exposure to foreign currency risk (liability)	985.65	293.21	207.87	436.61
Net exposure to foreign currency risk - assets/ (liability)	(915.05)	(239.11)	(188.40)	(436.44)

ii) Sensitivity

The following tables demonstrate the sensitivity to a reasonable possible change in USD and EUR exchange rates, with all other variables held constant. The impact on the Company's profit before tax is due to changes in the fair value of monetary assets and liabilities.

Particulars	Impact on profit before tax	
	December 31, 2023	December 31, 2022
EUR sensitivity		
INR/EUR - Increase by 5% (31 December 2022-5%)	(45.75)	(9.42)
INR/EUR - Decrease by 5% (31 December 2022-5%)	45.75	9.42
USD sensitivity		
INR/USD - Increase by 5% (31 December 2022-5%)	(11.96)	(21.82)
INR/USD - Decrease by 5% (31 December 2022-5%)	11.96	21.82

II) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. Generally, the Company's exposure to the risk of changes in the market interest rates primarily relate to the Company's short term debt obligations with the floating interest rates. The Company does not have any borrowings in the current year as well as previous year.

III) Price risk

The Company's exposure to equity securities price risk arises from investments held by the Company and classified in the Balance sheet either as fair value through OCI or fair value through profit and loss. The Company invests into mutual funds which are subject to price risk changes. These investments are generally for short duration and therefore impact of price changes is generally not significant. Investment in these funds are made as a part of Treasury management activities.

40 Capital Management

a) Risk management

The Company's objectives when managing capital are to safeguard their ability to continue as a going concern, so that they can continue to provide returns for Shareholders and benefits for other stakeholders, and maintain an optimal capital structure to reduce the cost of capital. For the purpose of the Company's capital management, capital includes issued equity capital and all other equity reserves attributable to the equity holders of the Company. The primary objective of the Company's capital management is to maximise the Shareholders value. The Company manages its capital structure and makes adjustments in the light of changes in the economic conditions and the requirements of the financial covenants, if any. The total equity as at December 31, 2023 is INR 73,199.41 lakhs (December 31, 2022: INR 59,860.02 lakhs).

No changes were made in the objectives, policies or processes for managing capital during the years ended December 31, 2023 and December 31, 2022. The Company has no borrowings during the years under consideration and hence there has been no breach in the financial covenants of any borrowings.

b) Dividends

As a part of Company's capital management policy, dividend distribution is also considered as a key element and management ensures that dividend distribution is in accordance with defined policy. Below mentioned are the details of dividend distributed and proposed during the year.

	December 31, 2023	December 31, 2022
(i) Equity shares		
Final dividend for the year of INR 5 per equity share	396.38	396.38
(ii) Dividends not recognised at the end of the reporting period		
The Directors have recommended the payment of a final dividend of INR 5 per fully paid equity share. This proposed dividend is subject to the approval of Shareholders in the ensuing annual general meeting.	396.38	396.38

41 At the year end, the Company has long term contracts for which there were no material foreseeable losses. The Company does not have any derivative contracts as at year end.

- 43 Pursuant to the amendments in the rule 3 of the Companies (Accounts) Rules, 2014, the back-up of the books of account and other books and papers of the Company maintained in electronic mode, including at a place outside India, if any, shall be kept in servers physically located in India on a daily basis. Data center for the ERP used by the management is hosted in a place outside India. Considering the requirement of the amendments, the Company developed a mechanism to take daily backup of the books of account in India which has been implemented in the current year from February 18, 2023. As a part of the mechanism, management saved auto generated logs for successful completion of backup from June 22, 2023 onwards. For the period of February 18, 2023 to June 21, 2023, the Company maintained manual logs to monitor the completion of backup on daily basis.

Further on account of a technical issue the daily backup could not be completed on 12 days during the year. However, the Company has taken appropriate remedial actions with respect to this technical issue.
