Management Discussion and
Analysis Report

MANAGEMENT DISCUSSION AND ANALYSIS

1. INDUSTRY STRUCTURE AND DEVELOPMENTS:

COAL INDUSTRY

In India's energy sector, coal accounts for the majority of primary commercial energy supply. India is endowed with large quantum of coal reserves (315 BT) have been estimated by the Geological Survey of India, of which around 90% comprises non-coking coal. India is the world's fourth largest producer of coal, after China, the United States and Australia. India's coal production registered a negative growth of 2.03 % at 602.13 million tonnes (MT) in the current financial year (2020-2021) due to heavy and unseasonal rains.

As per data provided by CCO, even though the effect of the pandemic has been everywhere, the Coal and Lignite sector has shown its resilience reflecting the critically of its contribution to the steady development of the Indian economy. Demand for coal for 2020-21 was estimated at 1052 MT against which, actual supply of coal in 2020-21 (provisional) was 906.08 MT. India accounted for around 11% of the global coal consumption. India remains the second largest coal consumption in the world.

The all India Production and dispatch of coal were 716.084 MT and 690.888 MT respectively. Despite being the third largest coal producing country in the world, India is dependent on imports to meet around 20-25% of its coal demand. India imported a total of 190.95 MT of coal in the year 2016-17, 208.27 MT of coal in the year 2017-18, 176.65 MT in the year 2018-19, 247.1 MT of coal in the year 2019-20 and 214.99 MT of coal in the year 2020-21. In order to meet this massive demand and minimize the imports of coal (especially non-coking coal), the government has put coal production in the country on fast track and has set a target of 1 BT of domestic coal production by FY 2022.

Production of Raw Coal in 2020-21(MT)			
Sector	Coking	Non-Coking	Total Coal
Public	38.934	647.017	685.951
Private	5.853	24.280	30.133
All India	44.787	671.297	716.084
Dispatch in 2020-21 (MT)	44.001	646.887	690.888

In order to satisfy the coal demand, the Indian coal industry needs more investment and private players to raise their production level. The Government has taken initiatives by making Statutory Acts, with an objective of ensuring continuity in mining activities and production of coal and to promote optimum utilization of coal resources consistent with the requirement of the Industry. Steps as to develop better infrastructure of roadways and

railways, augment infrastructure for logistics, smooth land acquisition, easy availability of water, develop coal washeries, capacity building and skill development, etc., are getting better by various projects and actions undertaken by the Government.

REAL ESTATE INDUSTRY

The Indian real estate sector was expected to start recovering in 2020 after few lackluster years wherein the sector was impacted by multiple reforms and the changes brought about by Demonetisation, RERA, GST and the NBFC crisis. It has been a tough task for the sector to align itself with these externalities, but the measures have resulted in much needed transparency, accountability and fiscal discipline for the sector. Prior to the pandemic, the real estate sector was expected to contribute around 13% of India’s GDP by 2025 (from around 6-7% in 2017), according to ANAROCK Research.

The growth in sector, supported by series of reforms has not only resulted in significant residential and commercial real estate, but also complimented the development of physical and social infrastructure of the Country. The Indian real estate market is expected to raise by US\$ 48 billion by 2022 and by US\$ 1 trillion by 2030. Housing sector is expected to contribute around 13 per cent to India’s GDP by 2025. According to India Ratings and Research (Ind-Ra), the Indian real estate sector may stage a sharp K-shaped recovery in FY22. Retail, hospitality and commercial real estate are also growing significantly, providing the much-needed infrastructure for India's growing needs.

2. Government of India along with the governments of respective States has taken several initiatives to encourage development in the sector. **OPPORTUNITIES & THREATS:**

The Company’s business comprises of two segment viz. **Coal Trading and Infrastructure** and the opportunities and threats on the company’s business are summaries below.

3. OUTLOOK

The economy is projected to shrink markedly in FY 2022 (April 2021-March 2022) as Covid-19 containment measures hamper domestic activity and external demand. Moreover, a prolongation of lockdown measures and lack of further fiscal stimulus pose downside risks to the outlook

GDP plunged at the sharpest pace on record in Q2 as lockdown measures decimated economic activity. Plummeting household spending and freefalling fixed investment let the downturn amid a spike in the unemployment rate and as non-essential businesses were forced to shut. That said, government consumption accelerated, while a steeper fall in imports let the external sector to positively contribute to GDP. Turning to Q3, the economy has gained some momentum but remains depressed due to a soaring number of new Covid-19 cases. Industrial production shrank at a less severe pace in July, while the services PMI gained some traction in August, although still signaled deterioration in the services sector. On a brighter note, the manufacturing PMI rebounded in August, suggesting an expansion in

activity. In the external area, however the decline in merchandise exports worsened in the same month, hinting at frail foreign demand.

COAL INDUSTRY

India is the world's third largest coal consumer behind China and the United States; and the share of coal in India's electricity mix has been rising. India's coal consumption was estimated at 790 million tonnes (or 516 million tonnes of coal equivalent (Mtce), around 10 per cent less than the United States (IEA 2014). Thermal coal accounts for around 85 per cent, or 665 million tonnes, of India's coal consumption. Metallurgical coal (80 million tonnes) and lignite (45 million tonnes) make up the balance.

The power sector accounts for more than 70 per cent of India's coal use and supported a five-fold increase in coal use in electricity generation over the past few decades. As such, the power sector is clearly central to the coal outlook in India. India's steel production has increased by around 25 per cent over the past five years to around 83 million tonnes in 2014. The cement industry, the second largest globally after China, is also a major coal user, accounting for around 5 per cent of total coal use. Other industrial sectors, including brick manufacture, Steel, Cement, Drugs and Textiles consume small quantities of coal.

Clean coal as an idea has huge potential in India because of the age and inefficiency of some of our plants. With government's efforts to push renewable energy due to international conventions on climate change, increase in carbon cess and other initiatives for lesser use of coal, there is a need for 'Vision 2030 for the coal sector', which takes into account the environmental factors such as reduction of carbon footprint, abatement of global warming. India's ambitious renewable energy goals have received a lot of international attention, but coal still provides half of India's commercial primary energy and is the dominant fuel for power generation. We expect coal to remain the dominant fuel in the power sector in India, through 2030 and beyond.

REAL ESTATE INDUSTRY

Real estate sector in India is expected to reach a market size of US\$ 1 trillion by 2030 from US\$ 120 billion in 2017 and contribute 13% to the country's GDP by 2025. Retail, hospitality, and commercial real estate are also growing significantly, providing the much-needed infrastructure for India's growing needs. The housing sector alone contributes 5-6 per cent to the country's gross domestic product (GDP). The Securities and Exchange Board of India (SEBI) has given its approval for the Real Estate Investment Trust (REIT) platform, which will allow all kind of investors to invest in the Indian real estate market. It would create an opportunity worth Rs. 1.25 trillion (US\$ 19.65 billion) in the Indian market in the coming years. Responding to an increasingly well-informed consumer base and bearing in mind the aspect of globalisation, Indian real estate developers have shifted gears and accepted fresh challenges.

The residential sector is expected to grow significantly, with the central government aiming to build 20 million affordable houses in urban areas across the country by 2022. Expected growth in the number of housing units in urban areas will increase the demand for commercial and retail office space.

The growing flow of FDI in Indian real estate is encouraging increased transparency. Developers, in order to attract funding, have revamped their accounting and management systems to meet due diligence standards. Indian real estate is expected to attract a substantial amount of FDI in the next two years with US\$ 8 billion capital infusion by FY22.

Annexure - B to the Auditors' Report

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **HEMANG RESOURCES LIMITED** ("the Company") as of 31 March 2021 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2021, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

During pendency of the said execution petition 54300 MT of coal was imported by Sharp Corp in the vessel named MV Vishva Ekta which was discharged at Tuticorin Port. Hemang Resources Ltd. (HRL) entered into two HSS agreement with Sharp Corp for purchase of 34300 MT coal. At the instance of Vitol, Bombay High Court vide Judges order no. 215/2014 issued precept to Tuticorin Court for attachment of entire quantity of 54300 MT coal. Tuticorin Court vide order dated 22.12.2014 passed in EA No. 159/2014 attached the coal. Later on the Tuticorin court vide order dated 10.12.2015 released 20000 MT coal owned by Sharp Corp and the remaining quantity of 34300 MT coal remained attached.

On attachment of coal of HRL, HRL approached Bombay High Court for releasing the coal on the ground that, they are not party to the Execution Petition hence the coal owned by them cannot be attached. However the court dismissed their application against which they went in appeal. The Bombay High Court vide order dated

06.09.2016 passed in Appeal No. 794/2015 held that, “ on account of various factors such as common directorships, interlocking shareholding HRL is not only part of ANRIL/BIL group, but are alter-egos” hence the attachment of coal was upheld.

That out of 34300 MT 17300 MT coal was auctioned to Global Coal Ventures Pvt. Ltd. in compliance to the order dated 16.11.2016 passed by Tuticorin Court and the balance coal of 17000 MT was also auctioned by the Court Receiver appointed by the Bombay High Court to Global Coal Ventures Pvt. Ltd. for a sum of Rs. 3,14,50,000/- which was deposited with the Court Receiver.

HRL had filed an application under Order 21 Rule 58 of Civil Procedure Code before Tuticorin Court claiming his title over the 34300 MT and also filed an application for transferring the said amount Rs. 3,14,50,000/- to Tuticorin Court. But both the said applications were returned back to HRL holding that the applications are not maintainable. Against this order the management is in the process of filing petition before the Madurai High Court. The Management is hopeful of favorable orders from the higher courts and hence no provision has been made.

Further there was an order received from High Court of Judicature at Bombay Ordinary and Original Civil Jurisdiction Chamber Summons No. 1364 of 2018 in Execution Application No.240 of 2011 dated 10.01.2019, Global Coal Ventures Pvt Ltd has taken out chamber summons seeking refund of Rs.78,63,758/- as Global Coal Ventures Pvt Ltd had paid for 17000 Mt but got delivery of only 12,749.32 Mt and therefore Global Coal Ventures has paid for 4250.680 MT coal which the coal was not received.

Global Coal Ventures states that they have paid excess of Rs.78,63,758/- to the court receiver and therefore the said amount to be refunded.

The court was satisfied that the actual available quantity was 12749.32 Mt only and certainly Global Coal Ventures Pvt Ltd has paid excess a sum of Rs.78,63,758/- and therefore they are entitled to be refunded.
