MANAGEMENT DISCUSSION AND ANALYSIS

ECONOMIC OVERVIEW

The global bearings market size is expected to reach USD 226.8 billion by 2028, registering a CAGR of 8.5% over the forecast period, according to a new report by Grand View Research, Inc. Bearings are essential in almost every application that involves motion, and they help minimize friction between different mechanical components in several industrial machinery and equipment, resulting in reduced energy consumption. Hence, this machine element finds application in all industries, ranging from automobiles, household appliances, and aerospace to industrial machinery, using machinery or related motor-driven linkages. The market is estimated to witness considerable growth in the forthcoming years, ascribed to the aim to achieve energy efficiency. Energy-saving and bearings go hand-in-hand. The main objective of this element is saving energy by reducing friction, be it during the rotation of shafts of a transmission or the wheel of a vehicle.

India Bearings Market size is projected to grow at a CAGR of 2.6% during 2019-25. (Source: 6Wresearch) due to growing demand for specialized bearing solutions and improved designs to increase product performance and efficiency. However, the outbreak of corona virus pandemic would impact the automotive and other industries affecting the bearings market over the coming years, though the effects might be short lived.

INDUSTRY STRUCTURE AND DEVELOPMENT AND OUTLOOK

The growth of the bearing industry is correlated with the automotive and industrial sectors. The demand for the bearings is derived from two key user segments - the automotive and industrial sectors. A major portion of bearings market in India is unorganized that caters to the low-end replacement market. Several main industrial sectors and user segments are expected to push the production of industrial equipment and automotive, leading to an increase in demand for automotive component, equipment, and vehicles in the developing countries.

The Company is well-positioned to leverage opportunities. Firmly driven by its strategic focus on digitalization, world-class manufacturing, future workforce equipped to face the future with its strong resolute. This enables the Company to offer a comprehensive product portfolio to its customers, emphasizing high-quality standards and service aids, delivering value and sustainable growth.

RISK & CONCERN

The Company is exposed to external business risk, internal risk and financial risk. External business risks arise out of highly competitive industry, Variations in prices of raw-material etc. Internal risks basically cover operational efficiency and ability to withstand competition. Financial risks are basically in the nature of interest rate variations.

OPPORTUNITIES AND THREATS

Opportunities:

Growth in the manufacturing sector due to strong demand from multiple industries such as machinery, construction, automotive, aerospace, defence, etc. is further spurring the growth of India's bearing industry. Notably, with the increasing adoption of new technologies and digitalization, manufacturers are focusing on the utilization of customized bearings to meet their evolving needs. So much so that with rising in demand for specialized bearing solutions that meet different industry-specific requirements such as the growing EV sector will further boost the market. With robust policies providing an impetus to the manufacturing sector, the bearing industry will develop too. Right from helping customers meet efficiency goals, increase productivity to reducing unplanned downtime and longer maintenance cycles, the bearings makers are witnessing high levels of innovation and technological advancements. For example, in industrial applications, Smart bearings, that measure and communicate their operating conditions continuously, are enabling customers to have even better control over the life cycle of their machinery, leading to lower costs and higher reliability and

machinery uptime. These better designed and technologically efficient bearings across critical and hi-tech applications are expected to offer numerous market opportunities.

Threats:

The cost of raw materials remains the top concern for manufacturers. As high-grade steel is the primary raw material used for manufacturing bearings, bearings price is highly correlated with the global steel price movement. The fluctuation of raw material price creates challenges for the bearing manufacturers to produce bearings in comparative price and high quality. Additionally, fluctuating supply and demand scenario is hindering the growth of the bearing industry.

Counterfeit products and the other from cheap imports. Counterfeit products have a multifold impact on the industry; they not only are damaging the brands but also pose a safety and financial hazard for its victims. Cheap imports are a threat as they lead to inefficient utilization of Bearings are mainly manufactured using high grade steel or alloy steel, which exposes them to global steel price movement.

SEGMENT-WISE-PERFORMANCE

Galaxy Bearings is the most trusted supplier in the industry for bearings. It operates in a single segment, namely in “ball and roller bearings”, which are used in widespread applications across industries. The Company’s world-class manufacturing facilities.

INTERNAL CONTROL SYSTEMS

The Company has adequate systems of Internal Controls commensurate with its size and operations to ensure orderly and efficient conduct of business. These controls ensure safeguarding of assets, reduction and detection of fraud and error, adequacy and completeness of the accounting records and timely preparation of reliable financial information.

FINANCIAL PERFORMANCE

During the Financial year 2020-21 the Company has earnings before interest, depreciation and tax amounting to Rs. 1213.49 Lakhs after providing for finance cost of Rs. 16.94 Lakhs and depreciation of Rs. 142.90 Lakhs, Profit before tax comes to Rs. 1053.65 Lakhs which was Rs. 692.69 Lakhs during the financial year 2019-2020.

HUMAN RESOURCES

Employees are biggest source for any Company’s success. Our Human Resource Team based on their strengths, potential and determination towards work evaluates the employees. It is very important to keep the employees encouraged to take decisions and initiatives towards the betterment of their work. The company encourages and provides them a safe and motivating work environment. In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 (the 'Act') in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India including Indian Accounting Standards ('Ind AS') specified under Section 133 of the Act, of the state of affairs of the Company as at **31st March 2021** and its profit (including other comprehensive income) its cash flows and the changes in equity for the year ended on that date.

Basis for Opinion

3. We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Our responsibilities under those standards are further, described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statement section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ('ICAI') together with the ethical requirements that are relevant to our audit of the Standalone Financial Statement under the provisions of the Act and the rules thereunder and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of Matter

4. As described in Note 43 to the standalone annual Standalone Financial Statement, the extent to which the COVID-19 pandemic will impact the company's operations and financial performance is dependent on future developments, which are highly uncertain.

Our opinion is not modified in respect of the above matters.

Key Audit Matters

5. Key audit matters are those matters that, in our professional, judgment, were of most significance in our audit of the, standalone financial statements of the current period. These matters were addressed in the context of our audit, of the standalone financial statement as a whole, and in forming our opinion thereon, and we do not provide a separate opinion, on these matters.
6. Key audit matter identified in our audit is on recoverability assessment of revenue recognition as follows:

Key audit matter	Audit Approach
1. Revenue recognition :Revenue from Contracts	
Revenue from the sale of goods is recognised upon the transfer of control of the goods to the customer, usually on delivery of goods. The Company uses a variety of shipment terms across its	1. There is a risk that revenue could be recognised in the incorrect period for sales transactions occurring on and around the year end therefore revenue recognition has been identified as a key audit matter</p>	<ol style="list-style-type: none"> 2. We performed test of controls of management's process of recognizing the revenue from sales of goods and placed specific attention on the timing of revenue recognition as per the sales terms with the customers. 3. We performed test of details of the sales transactions testing based on a representative sampling of the sales orders to test that the related revenues and trade receivables are recorded appropriately taking into consideration the terms and conditions of the sale orders, including the shipping terms. 4. We also performed sales cut off procedures by agreeing deliveries occurring around the year end to supporting documentation to establish that sales and corresponding trade receivables are properly recorded in the correct period.

Information other than the Standalone Financial Statement and Auditor's Report thereon

7. The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Annual Report, but does not include the Standalone Financial Statement and our auditor's report thereon. The Annual Report is expected to be made available to us after the date of this auditor's report.

Our opinion on the Standalone Financial Statement does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Standalone Financial Statement, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the Standalone Financial Statement or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

When we read the Annual Report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance and as may be legally advised.

Responsibilities of Management and Those Charged with Governance for the Standalone Financial Statements

8. The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the state of affairs, profit (including other comprehensive income), changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Ind AS specified under Section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Standalone Financial Statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.
9. In preparing the Standalone Financial Statement, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

10. Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Financial Statement

11. Our objectives are to obtain reasonable assurance about whether the Standalone Financial Statement as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Standalone Financial Statement.
12. As part of an audit in accordance with Standards on Auditing, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:
 - Identify and assess the risks of material misstatement of the Standalone Financial Statement, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
 - Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3) (i) of the Act, we are also responsible for explaining our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
 - Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
 - Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Standalone Financial Statement or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
 - Evaluate the overall presentation, structure and content of the Standalone Financial Statement, including the disclosures, and whether the Standalone Financial Statement represent the underlying transactions and events in a manner that achieves fair presentation.
13. We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.
14. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

15. From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Standalone Financial Statement of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

16. As required by the Companies (Auditor's Report) Order, 2016 (the 'Order') issued by the Central Government of India in terms of Section 143(11) of the Act, we give in the Annexure A, a statement on the matters specified in paragraphs 3 and 4 of the Order.
17. Further to our comments in Annexure A, as required by Section 143(3) of the Act, we report that:
- a) we have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit;
 - b) in our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;
 - c) the standalone financial statements dealt with by this report are in agreement with the books of account;
 - d) in our opinion, the aforesaid standalone financial statements comply with Ind AS specified under Section 133 of the Act;
 - e) on the basis of the written representations received from the directors and taken on record by the Board of Directors, none of the directors is disqualified as on 31st March 2021 from being appointed as a director in terms of Section 164(2) of the Act;
 - f) we have also audited the internal financial controls over financial reporting (IFCoFR) of the Company as on 31st March 2021 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date and our report as per Annexure B expressed an unmodified opinion;
 - g) with respect to the other matters to be included in the Auditor's Report in accordance with rule 11 of the Companies (Audit and Auditors) Rules, 2014 (as amended), in our opinion and to the best of our information and according to the explanations given to us:
 - i. the Company has disclosed the impact of pending litigations on its financial position in the standalone financial statements; (Refer Note 33 to the Standalone Financial Statement);
 - ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.
 - iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.

Therefore clauses (v) of companies (Auditor’s Report) Order, 2016 is not applicable.

6. We have broadly reviewed the books of accounts relating to materials, labour and other items of cost maintained by the company pursuant to the Rules made by the Central Government for the maintenance of cost records as per the provisions of Companies (Cost Records and Audit) Rules, 2014, and we are of

the opinion that prima facie the prescribed accounts and records have been made and maintained. We have not, however made a detailed examination of the records with a view to determine whether they are accurate or complete.

7. In respect of Statutory Dues :

- (a) According to the records of the Company, the Company is by and large regular in depositing with appropriate authorities undisputed statutory dues including provident fund, employees' state insurance, income tax, sales tax, service tax, duty of customs, duty of excise, value added tax & Goods and Service Tax, cess and any other statutory dues with the appropriate authorities applicable to it.
 - (b) According to the information and explanations given to us, there is no such arrears in respect statutory dues were outstanding as at 31st March, 2021 for a period of more than six months from the date they became payable.
 - (c) According to the records of the company, there is no dues of income tax, sales tax, wealth tax or service tax or duty of customs or duty of excise or value added tax which have not been deposited on account of dispute.
- 8.** Based on our audit procedure and according to the information and explanation given to us, we are of the opinion that the Company has not defaulted in repayment of dues to a Financial Institutions, Banks or debenture holders.
- 9.** According to the information and explanations given to us, the company had not raised any money by way of public issue during the year. According to the information and explanations given to us, and on an overall examination of the balance sheet of the company, in our opinion, the term loans taken during the year were applied for the purpose for which they were obtained.
- 10.** Based upon the audit procedures performed and information and explanations given by the management, we report that no fraud by the Company or any fraud on the company by it's officer or employees has been noticed or reported during the course of our audit.
- 11.** In our opinion and according to the information and explanations given to us, the company had paid managerial remuneration which is in accordance with the requisite approvals mandated by the provisions of section 197 read with schedule V of The Companies Act, 2013.
- 12.** In our opinion and according to the information and explanations given to us, the provisions of special statute applicable to chit funds and nidhi / mutual benefit funds / societies are not applicable to the company. Hence, clause (xii) of the Company's (Auditor's Report) Order, 2016 is not applicable.
- 13.** In our opinion and according to the information and explanations given to us, the transactions entered by the company with related parties are in compliance with the provisions of section 177 and 188 of The Companies Act, 2013 and details thereof are properly disclosed in the Standalone Financial Statement.
- 14.** In our opinion and according to the information and explanation given to us, no preferential allotment or private placement of shares or fully or partly convertible debentures, made during the year under review and hence, clause (xiv) of the Company's (Auditor's Report) Order, 2016 is not applicable.

15. The company had not entered in to any non-cash transactions with the directors or persons connected with him during the year, and hence clause (xv) of Company's (Auditor's Report) Order, 2016 is not applicable.
16. In our opinion and according to the information and explanation given to us the company is not registered under section 45-IA of Reserve Bank of India Act, 1934, hence clause (xvi) of Company's (Auditor's Report) Order, 2016 is not applicable.

ANNEXURE “B” TO INDEPENDENT AUDITORS’ REPORT

Referred to in paragraph 17(f) of “**Report on Other Legal and Regulatory Requirements**” of our Report of even date to the Members of **GALAXY BEARING LIMITED** for the year ended **31st March, 2021**.

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of **GALAXY BEARING LIMITED** as of **31st March 2021**, in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors’ Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the Standalone Financial Statement, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of Standalone Financial Statement for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that (1) Pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) Provide reasonable assurance that transactions are recorded as necessary to permit preparation of Standalone Financial Statement in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance

with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the Standalone Financial Statement.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March 2021, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

1. **Corporate Information**

Galaxy Bearings Limited (referred to as 'the company') is a leading in manufacturing & trading of Ball and Taper Roller Bearing and Steel etc. The company has its registered office at A/53 - 54, Pariseema Complex, C G Road, Ellisbridge, Ahmedabad - 380006, Gujarat, India.

2. **Significant Accounting Policies**

i. **a) Statement of Compliance:**

The financial statements have been prepared with all material aspect with Indian Accounting Standards (Ind As) notified under section 133 of the Companies Act, 2013 (the Act) read with the Companies (Indian Accounting Standards) Rules, 2015 and other relevant provisions of the Act. The accounting policies adopted in the preparation of the financial statements are consistent with those followed in the previous year.

b) **Basis of Preparation:**

The financial statements have been prepared on accrual basis of accounting under historical cost convention in accordance with generally accepted accounting principles in India and the relevant provisions of the Companies Act, 2013 including Indian Accounting Standards notified there under, except for the following where the fair valuation have been carried out in accordance with the requirements of respective Ind As:

- Employee defined benefit plans – plan assets.
- Investments in Equity Instruments

The Operating cycle is the time between the acquisition of assets for processing and their realization in cash and cash equivalents. The Company has identified twelve months as its operating cycle. Accordingly, all assets and liabilities have been classified as current or non-current as per the Company's operating cycle and other criteria set out in Ind AS 1- 'Presentation of Financial Statements' and Schedule III to the Companies Act, 2013.

ii. **Use of Estimates:**

The preparation and presentation of financial statements are in conformity with the Ind As which required management to make estimates and assumptions that affect the reported amounts of assets and liabilities (including contingent liabilities) on the date of the financial statements and the reported amount of revenues and expenses during the reporting year.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to the accounting estimates are recognised in the period in which the estimates are revised and in any future periods affected. Management believes that the estimates used in the preparation of financial statements are prudent and reasonable. Future results could differ due to these estimates and differences between the actual results and estimates are recognized in the year in which the results are known / materialized.

Information about assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment within the next financial year are included in the following notes:

- Note – 2(xvi) Current / Deferred Tax Liabilities
- Note – 2(xiii) Measurement of defined benefit obligations
- Note – 2(vi) Expected credit loss for receivables
- Note – 2(vi) Fair valuation of investments

iii. **Critical Accounting Estimates and Judgement used in application of Accounting Policies**

a. **Income Taxes**

Significant judgements are involved in determining the provision for Income Taxes, including amount expected to be paid / recovered for uncertain tax positions. (Also refer Note 16 and 30.)

b. Property, Plant and Equipment

Property, plant and equipment represent a significant proportion of the asset base of the Company. The charge in respect of periodic depreciation is derived after determining an estimate of an asset's expected useful life and the expected residual value at the end of its life. The useful life and residual values of the Company's assets are determined by the Management at the time the asset is acquired and reviewed periodically, including at each financial year end. The life is based on historical experience with similar assets as well as anticipation of future events, which may impact their life such as changes in technology. (Refer Note 3)

c. Impairment of Financial Assets

The impairment provisions for financial assets are based on assumptions about risk of default and expected loss rates. The Company uses judgement in making these assumptions and selecting the inputs to the impairment calculation based on empirical evidence available without under cost or effort, existing market conditions as well as forward looking estimates at the end of each reporting period. (Refer Note 38).

d. Defined Benefit Plan

The cost of the defined benefit plan and other post-employment benefits and the present value of such obligations is determined using actuarial valuation. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases, mortality rates and attrition rate. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date. (Refer Note 26.1).

e. Fair Value Measurement of Financial Instruments

When the fair value of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including the Discounted Cash Flow (DCF) model. The inputs to these models are taken from observable markets, where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include consideration of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair values of financial instruments. (Refer Note 37).

iv. **Property, Plant and Equipment & Depreciation:**

a) Property Plant and Equipment:

Property, plant and equipment are tangible items that are held for use in the production or supply of goods and services, rental to others or for administrative purposes and are expected to be used during more than one period. The cost of an item of property, plant and equipment is recognised as an asset if and only, if it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. Freehold land is carried at cost less accumulated impairment losses. All other items of property, plant and equipment are stated at cost less accumulated depreciation and accumulated impairment losses.

Cost of an item of property, plant and equipment comprises:

- Its purchase price, all costs including financial costs till commencement of commercial production are capitalized to the cost of qualifying assets. CENVAT/Tax credit, if any, are accounted for by reducing the cost of capital goods;

- Any other costs directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management.

All other repairs and maintenance are charged to profit or loss during the reporting period in which they are incurred.

b) Depreciation methods, estimated useful life and residual value:

Depreciation is provided for property, plant and equipment so as to expense the cost over their estimated useful lives based on evaluation. The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

Depreciation on property, plant and equipment has been provided on straight line method except on Plant & Equipment which is on Written Down Value Method based on the useful life specified in Schedule II to the Companies Act, 2013. However, land is not depreciated.

The estimated useful lives are mentioned below:

Asset Class	Useful life (years)
Building	30
Tube Well	30
Plant & Machinery	15
Furniture and Fixture	10
Vehicle	8
Electric Installation	10
Computer	3

Depreciation is calculated on pro rata basis with reference to the date of addition/disposal. The residual values are not more than 5% of the original cost of asset.

c) Derecognition of Property, Plant and Equipment:

The carrying amount of an item of property, plant and equipment is derecognized on disposal or when no future economic benefits are expected from its use or disposal. The gain or loss from the derecognition of an item of property, plant and equipment is recognised in the statement of profit and loss account when the item is derecognized.

v. Intangible Assets and Amortisation :

a) Intangible Assets:

The Company identifies an identifiable non-monetary asset without physical substance as an intangible asset. The Company recognises an intangible asset if it is probable that expected future economic benefits attributable to the asset will flow to the entity and the cost of the asset can be measured reliably. An intangible asset is initially measured at cost unless acquired in a business combination in which case an intangible asset is measured at its fair value on the date of acquisition.

The Company subsequently measures all intangible assets at cost less accumulated amortisation less accumulated impairment. An intangible asset is amortised on a straight-line basis over its useful life. A rebuttable presumption that the useful life of an intangible asset will not exceed five years from the date when the asset is available for use is considered by the management. Amortisation commences when the asset is in the

location and condition necessary for it to be capable of operating in the manner intended by management. Amortisation ceases at the earlier of the date that the asset is classified as held for sale (or included in a disposal group that is classified as held for sale) and the date that the asset is derecognised. The amortisation charge for each period is recognised in profit or loss unless the charge is a part of the cost of another asset. The amortisation period and method are reviewed at each financial year end. Any change in the period or method is accounted for as a change in accounting estimate prospectively.

The Company derecognises an intangible asset on its disposal or when no future economic benefits are expected from its use or disposal and any gain or loss on derecognition is recognised in profit or loss as gain / loss on derecognition of asset.

vi. **Impairment of non – financial assets**

The Company reviews the carrying amount of its Property, Plant and Equipment, including Capital Work in progress of a “Cash Generating Unit” (CGU) at the end of each reporting period to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). When it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the recoverable amount of the Cash Generating Unit to which the asset belongs.

Recoverable Amount is determined:

- i) In case of individual asset, at higher of the fair value less cost to sell and value in use; and
- ii) In case of cash generating unit (a company of assets that generates identified, independent cash flows), at the higher of the cash generating unit’s fair value less cost to sell and the value in use.

If the recoverable amount of an asset (or cash generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognized immediately in the Statement of Profit and Loss.

vii. **Financial Instruments :**

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

1. Financial Assets:

i. Initial recognition and measurement:

At initial recognition, the Company measures a financial asset (which are not measured at fair value) through profit or loss at its fair value plus or minus transaction costs that are directly attributable to the acquisition or issue of the financial asset.

Financial assets are classified, at initial recognition, as financial assets measured at fair value or as financial assets measured at amortised cost.

ii. Subsequent measurement:

For purposes of subsequent measurement, financial assets are classified in following categories:

- i) Financial assets measured at amortised cost;
- ii) Financial assets at fair value through profit or loss (FVTPL) and
- iii) Financial assets at fair value through other comprehensive income (FVOCI)

The Company classifies its financial assets in the above mentioned categories based on:

- a) The Company’s business model for managing the financial assets, and
- b) The contractual cash flows characteristics of the financial asset.

i) **Financial assets measured at amortised cost :**

A financial asset is measured at amortised cost if both of the following conditions are met:

- a) A financial asset is measured at amortised cost if the financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows and the Contractual terms of the financial assets give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.
- b) Financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in the profit or loss. The losses arising from impairment are recognised in the profit or loss.

ii) **Financial assets at fair value through profit or loss (FVTPL):**

Financial assets are measured at fair value through profit and loss unless it is measured at amortised cost or at fair value through other comprehensive income on initial recognition. The transaction costs directly attributable to the acquisition of financial assets and liabilities at fair value through profit or loss are immediately recognized in profit or loss.

iii) **Financial assets at fair value through other comprehensive income (FVOCI):**

Financial assets are measured at fair value through other comprehensive income if these financial assets are held within a business model whose objective is achieved by collecting both contractual cash flows that gives rise on specified dates to solely payments of principal and interest on the principal amount outstanding and by selling financial assets.

A financial asset is measured at fair value through profit or loss unless it is measured at amortised cost or fair value through other comprehensive income. In addition, The Company may elect to designate a financial asset, which otherwise meets amortised cost or FVOCI criteria, as at FVTPL. However, such election is allowed only if doing so reduces or eliminates a measurement or recognition inconsistency (referred to as 'accounting mismatch')

Trade receivables, Advances, Security Deposits, Cash and Cash Equivalents etc. are classified for measurement at amortised cost.

iii. **Equity Instruments:**

All equity investments in scope of Ind AS 109 are measured at fair value. Equity instruments which are held for trading and contingent consideration recognised by an acquirer in a business combination to which Ind AS 103 applies are classified as at FVTPL. For all other equity instruments, the company may make an irrevocable election to present in other comprehensive income subsequent changes in the fair value. The company makes such election on an instrument by-instrument basis. The classification is made on initial recognition and is irrevocable.

If the company decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to P&L, even on sale of investment. However, the company may transfer the cumulative gain or loss within equity. Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the Profit & Loss.

The company has elected to measure its equity instruments through FVPTL.

iv. Cash and cash equivalents:

Cash comprises cash on hand and demand deposits with banks. Cash equivalents are short-term balances (with an original maturity of three months or less from the date of acquisition), which are subject to an insignificant risk of changes in value.

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above, net of outstanding bank overdrafts as they are considered an integral part of the company's cash management.

v. Derecognition:

The Company derecognizes a financial asset when contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party.

On derecognition of a financial asset in its entirety, the difference between the asset's carrying amount and the sum of the consideration received and receivable is recognized in the Statement of Profit and Loss.

vi. Impairment of financial assets:

The company assesses at each date of statement of financial position whether a financial assets or group of financial assets is impaired. In accordance of Ind AS 109, the company applies expected credit loss (ECL) model for measurement and recognition of impairment loss.

In case of trade receivables, the Company follows a simplified approach wherein an amount equal to lifetime ECL is measured and recognised as loss allowance. As a practical expedient, the company uses a provision matrix to determine impairment loss on portfolio of its trade receivables. The provision matrix is based on its historically observed default rates over the expected life of trade receivables. ECL impairment loss allowances (or reversal) recognized during the period is recognized as an expense / income respectively in the statement of profit and loss. Provision for ECL is presented as deduction from carrying amount of trade receivables.

For all other financial assets, expected credit losses are measured at an amount equal to 12 month expected credit losses or at an amount equal to lifetime expected losses, if the credit risk on the financial asset has increased significantly since initial recognition.

Subsequently, if the credit quality of the financial asset improves such that there is no longer a significant increase in credit risk since initial recognition, the Company reverts to recognizing impairment loss allowance based on 12 month ECL.

2. Financial Liabilities:

i. Initial recognition and measurement:

All financial liabilities are recognised initially at fair value and subsequently carried at amortised cost using the effective interest method.

The company's financial liabilities include trade and other payables, loans and borrowings including bank overdrafts.

ii. Subsequent measurement:

The measurement of financial liabilities depends on their classification, as described below:

i) Financial liabilities measured at amortised cost.

ii) Financial liabilities at fair value through profit or loss.

a. Financial liabilities measured at amortised cost :

Subsequently, all financial liabilities are measured at amortised cost. Any discount or premium on redemption/ settlement is recognised in the Statement of Profit and Loss as finance cost over the life of the liability using the effective interest method and adjusted to the liability figure disclosed in the Balance Sheet.

b. Financial assets at fair value through profit or loss (FVTPL):

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. Gains or losses on liabilities held for trading are recognised in the profit or loss.

Financial liabilities designated upon initial recognition at fair value through profit or loss are designated as such at the initial date of recognition, and only if the criteria in Ind AS 109 are satisfied. For liabilities designated as FVTPL, fair value gains/ losses attributable to changes in own credit risk are recognized in OCI. These gains/ loss are not subsequently transferred to P&L. However, the company may transfer the cumulative gain or loss within equity. All other changes in fair value of such liability are recognised in the statement of profit and loss.

c. Derecognition:

Financial liabilities are derecognised when the liability is extinguished, that is, when the contractual obligation is discharged, cancelled and on expiry. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit and loss.

viii. Off-setting of financial instruments:

Financial assets and financial liabilities are offset and the net amount is reported in the standalone balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realize the assets and settle the liabilities simultaneously.

ix. Fair value measurement:

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date under current market conditions.

The Company categorizes assets and liabilities measured at fair value into one of three levels depending on the ability to observe inputs employed in their measurement which are described as follows:

- (a) Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities.
- (b) Level 2 inputs are inputs that are observable, either directly or indirectly, other than quoted prices included within level 1 for the asset or liability.
- (c) Level 3 inputs are unobservable inputs for the asset or liability reflecting significant modifications to observable related market data or Company's assumptions about pricing by market participants.

x. **Inventories:**

Inventories are valued at lower of cost and net realizable value. Cost in respect of raw materials is determined on FIFO basis. Net realizable value is the estimated selling price in the ordinary course of business less estimated cost necessary to make sale.

Costs in respect of Finished goods and process stock Inventories are computed on weighted average basis method. Finished goods and process stock include cost of conversion and other costs incurred in acquiring the inventory and bringing them to their present location and condition.

xi. **Borrowing Cost :**

Borrowing costs include interest and amortisation of ancillary costs incurred to the extent they are regarded as an adjustment to the interest cost. Costs in connection with the borrowing of funds to the extent not directly related to the acquisition of qualifying assets are charged to the Statement of Profit and Loss over the tenure of the loan. Borrowing costs, allocated to and utilised for qualifying assets, pertaining to the period from commencement of activities relating to construction / development of the qualifying asset upto the date of capitalisation of such asset is added to the cost of the assets. Capitalisation of borrowing costs is suspended and charged to the Statement of Profit and Loss during extended periods when active development activity on the qualifying assets is interrupted.

xii. **Statement of Cash flows:**

Cash flows are reported using the indirect method, whereby profit / (loss) before extraordinary items and tax is adjusted for the effects of transactions of non cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Company are segregated based on the available information.

xiii. **Income recognition :**

Revenue from Contracts with Customers

Revenue from contracts with customers is recognized when control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the company expects to be entitled in exchange for those goods or services.

The revenue towards satisfaction of performance is measured at the amount of transaction price (net of variable consideration) allocated to that performance obligations. The transaction price of goods sold and service rendered is net of variable consideration on account of various discounts offered by the company as part of contract. These variable consideration is estimated based on the expected value of outflow. Revenue (net of variable consideration) is recognised

only to the extent that it is highly probable that amount will not be subject to significant reversal when uncertainty relating to its recognition resolved.

Sale of Product:

The performance obligation in case of sale of product is satisfied at a point in time i.e. when the material is shipped to the customer or on delivery to the customers as may be specified in the contract.

Other Operating Revenue

Export Incentives:

Exports Incentives are treated as income in the year of Exports based on eligibility and when there is reasonable certainty regarding the receiving of the same benefits.

Other Income

Interest income:

Interest Income from financial assets is recognised at the effective interest rate applicable on initial recognition.

Other income is recognized on accrual basis except when realization of such income is uncertain.

xiv. **Government grants & subsidies**

Grants from the government are measured at amounts receivable from the government which are non-refundable and are recognized as income when there is a reasonable assurance that the Company will comply with all necessary conditions attached to them.

Income from the above grants are presented under Revenue from Operations.

xv. **Foreign Currency Transactions:**

Functional currency of the Company is Indian rupee. The financial statements have been presented under its functional currency. Any transaction that is denominated in a currency other than the functional currency is regarded as foreign currency transaction. All foreign currency transactions are recorded, on initial recognition in the functional currency, by applying to the foreign currency amount the spot exchange rate between the functional currency and the foreign currency at the date of the transaction. In case of consideration received or paid in advance, the exchange rate prevailing on the date of receipt or payment of advance is considered when subsequently the related asset is given up or received to the extent of advance consideration.

At the end of the reporting period:

1. foreign currency monetary items are translated using the exchange rate for immediate delivery at the end of the reporting period;
2. non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rate at the date of the transaction; and
3. non-monetary items that are measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was measured.

Exchange difference arising on the settlement of monetary items or on translating monetary items at rates different from those at which they were translated on initial recognition during the period or in previous financial statements are recognised in profit or loss in the period in which they arise.

xvi.

Employee Benefits:

i. Short term employee benefits:

Short Term benefits are recognised as an expense at the undiscounted amounts in the Statement of Profit and Loss of the year in which the related service is rendered . In case of Leave Encashment, the company does not allow carry forward of unavailed leave and hence unavailed leaves are encashed in the current year itself.

ii. Post employment benefits:

a) Defined contribution plan:

The Employee and Company make monthly fixed Contribution to Government of India Employee's Provident Fund equal to a specified percentage of the Cover employee's salary, Provision for the same is made in the year in which service are render by employee.

b) Defined benefit plans:

The Liability for Gratuity to employees, which is a defined benefit plan, as at Balance Sheet date determined on the basis of actuarial Valuation based on Projected Unit Credit method is funded to a Gratuity fund administered by the trustees and managed by Life Insurance Corporation of India and the contribution thereof paid/payable is absorbed in the accounts.

The present value of the defined benefit obligations is determined by discounting the estimated future cash flows by reference to market yields at the end of the reporting period on government bonds that have terms approximating to the terms of the related obligation. The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expenses in the statement of profit and loss.

Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognized in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the statement of changes in equity and in balance sheet. Changes in present value of the defined benefit obligation resulting from plan amendment or curtailments are recognized immediately in profit or loss as past service cost.

xvii.

Earnings per Share

Basic earnings per share is calculated by dividing net profit after tax for the year attributable to Equity Shareholders of the company by the weighted average number of Equity Shares issued during the year. Diluted earnings per share is calculated by dividing net profit attributable to equity Shareholders (after adjustment for diluted earnings) by average number of weighted equity shares outstanding during the year.

xviii.

Provisions, Contingent Liabilities and Contingent Assets :

Provisions are recognised only when there is a present obligation as a result of past events and when a reliable estimate of the amount of obligation can be made. Contingent liability is disclosed for (i) Possible obligation which will be confirmed only by future events not wholly within the control of the Company or (ii) Present obligations arising from past events where it is not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount of the obligation cannot be made. Contingent assets are not recognised in the financial statements.

xix.

Taxes on Income :

a) Current tax:

Current Tax is determined on income for the year chargeable to tax in accordance on the basis of the tax laws enacted or substantively enacted at the end of the reporting period.

Current tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity. Effective from 1st April, 2019, the Company has adopted Appendix C of Ind AS-12 and has provided for the tax liability based on the significant judgment that the taxation authority will not accept the tax treatment. However adoption of the same does not have any impact on the Balance Sheet, Statement of Change in Equity and Statement of Profit & Loss Account.

b) Deferred tax:

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the Financial Statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the deferred tax asset to be utilized.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets include Minimum Alternative Tax (MAT) paid in accordance with the tax laws in India, which is likely to give future economic benefits in the form of availability of set off against future income tax liability. Accordingly, MAT is recognised as deferred tax asset in the balance sheet when the asset can be measured reliably and it is probable that the future economic benefit associated with asset will be realised.

Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

xx. **Segment reporting:**

The Chief Operational Decision Maker (CODM) monitors the operating results of its business Segments separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on profit or loss and is measured consistently with profit or loss in the financial statements. Operating segments are reported in a manner consistent with the internal reporting to the CODM.

Accordingly, the Board of Directors of the Company is CODM for the purpose of segment reporting. Refer Note No. 35 for segment information presented.

xxi. **Leases :**

Effective from 1st April, 2019, the Company has adopted Ind AS-116 "Lease" retrospectively with the cumulative effect of applying this standard recognise at the date initial application.

Due to the same, the associated right-of-use assets are measured either at the carrying amounts as if the Standard has been applied since the commencement date or at the amount equal to the

lease liability are included in and presented as “Right to use Asset” and “Other financial liabilities” respectively on the financial statements.

The right-of-use asset is depreciated over the shorter of the asset’s useful life and the lease term on a straight-line basis. Lease term includes periods of an option to extend the lease if the lessee is reasonably certain to exercise that option and an option to terminate the lease if the lessee is reasonably certain not to exercise that option. Short-term leases for the underlying asset is of low value apply exemption rules of the standards, and recognize the lease payments associated with those leases as an expense mainly on straight-line basis over the lease term.

The cumulative effects due to the application of this standard were recognized on the commencement date of adoption in accordance with the transitional arrangements, the retrospective restatement of prior periods have not been applied.

a) Finance leases:

Assets acquired under lease where the Company has substantially all the risk and rewards of ownership are classified as finance leases. Such assets are capitalised at inception of lease at the lower of fair value or present value of minimum lease payments and a liability is created for an equivalent amount. Each lease rental paid is allocated between the liability and the interest cost so as to obtain a constant periodic rate of interest on the outstanding liability for each period.

b) Operating leases:

Assets acquired on leases where a significant portion of the risk and rewards of ownership are retained by the lessor are classified as operating leases. Lease rentals are charged to the statement of profit and loss on accrual basis.

xxii.

Insurance Claims:

Insurance and other claims are recognised only when it is reasonably certain that the ultimate collection will be made.

xxiii.

Standards issued but not yet effective

Till the date of approval of these financial statements, no amendments to Ind AS that would be effective in future periods have been notified.

<p>The above fair value hierarchy explains the judgements and estimates made in determining the fair values of the financial instruments that are (a) recognised and measured at fair value and (b) measured at amortised cost for which fair values are disclosed in the financial statements. To provide the indication about the reliability of the inputs used in determining fair value, the Company has classified its financial instruments in to three levels prescribed is as under:</p> <p>Level 1 - Quoted prices (unadjusted) in active markets for identical assets or liabilities</p> <p>Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices)</p> <p>Level 3 - Inputs for the assets or liabilities that are not based on observable market data (unobservable inputs)</p> <p>There were no transfers between the levels during the year</p> <p>Valuation process</p> <p>The finance department of the Company includes a team that performs the valuations of financial assets and liabilities required for financial reporting purposes, including level 3 fair values. The fair valuation of level 1 and level 2 classified assets and liabilities are readily available from the quoted prices in the open market and rates available in secondary market respectively. The valuation method applied for various financial assets and liabilities are as follows -</p> <ol style="list-style-type: none"> 1. Quoted price in the primary market (NAV) considered for the fair valuation of the current investment i.e Mutual fund. Gain / (loss) on fair valuation is recognised in profit and loss. 2. The carrying amount of trade receivable, trade payable, cash and bank balances, short term loans and advances, statutory/ receivable, short term borrowing, employee dues are considered to be the same as their fair value due to their short-term nature.

Financial risk management

The Company has exposure to the following risks arising from financial instruments:

I

Credit Risk

II

Liquid Risk

III

Market Risk

Risk Management Framework

The Company's risk management is governed by policies and approved by the board of directors. Company's identifies, evaluates and hedges financial risks in close co-operation with the Company's operating units. The company has policies for overall risk management, as well as policies covering specific areas, such as foreign exchange risk, interest rate risk, credit risk, use of derivative financial instruments and non-derivative financial instruments.

The audit committee oversees how management monitors compliance with the company's risk management policies and procedures, and reviews the adequacy of the risk management framework in relation to the risks faced by the Company. The audit committee is assisted in its oversight role by internal audit. Internal audit undertakes both regular and ad hoc reviews of risk management controls and procedures, the results of which are reported to the audit committee.

I

Credit Risk

Credit risk refers to the risk of default on its obligation by the counterparty resulting in a financial loss. The maximum exposure to credit risk at the reporting date is primarily from trade receivables and loans to related parties. Credit risk has always been managed by the company through credit approvals, establishing credit limits and continuously monitoring the creditworthiness of customers to which the company grants credit terms in the normal course of business. On account of the adoption of Ind AS 109, the company uses ECL model to assess the impairment loss or gain. The company uses a provision matrix to compute the ECL allowance for trade receivables and unbilled revenues. The provision matrix takes into account available external and internal credit risk factors and the company's experience for customers.

The Company reviews trade receivables on periodic basis and makes provision for doubtful debts if collection is doubtful. The Company also calculates the expected credit loss (ECL) for non-collection of receivables. The Company makes additional provision if the ECL amount is higher than the provision made for doubtful debts. In case the ECL amount is lower than the provision made for doubtful debts, the Company retains the provision made for doubtful debts without any adjustment.

The provision for doubtful debts including ECL allowances for non-collection of receivables and delay in collection, on a combined basis, was Rs. 0.15 Lacs as at March, 2021 and Rs. 1.20 Lacs as at March 31, 2020. The movement in allowances for doubtful accounts comprising provision for both non-collection of receivables and delay in collection is as follows:

b) Interest Risk				
Interest rate risk is the risk that the fair value of future cash flows of the financial instruments will fluctuate because of changes in market interest rates. In order to optimize the Company's position with regards to interest income and interest expenses and to manage the interest rate risk, treasury performs a comprehensive corporate interest rate risk management by balancing the proportion of fixed rate and floating rate financial instruments in its total portfolio.				
According to the Company interest rate risk exposure is only for floating rate borrowings. For floating rate liabilities, the analysis is prepared assuming the amount of the liability outstanding at the end of the reporting period was outstanding for the whole year. A 50 basis point increase or decrease is used when reporting interest rate risk internally to key management personnel and represents management's assessment of the reasonably possible change in interest rates.

- 43** Due to outbreak of COVID-19 globally and in India, the company's management has made initial assessment of likely adverse impact on business and financial risks, and believes that the impact is likely to be short term in nature. The management does not see any medium to long term risks in the company's ability to continue as a going concern and meeting its liabilities as and when they fall due.

The Management based on current estimates expects that the carrying amounts of Receivables, Inventories & Advances will be recovered net of provisions made on them.

The extent to which the COVID-19 pandemic will impact the company's financial performance is dependent on future developments, which are highly uncertain including among other things, any new information concerning the severity of the COVID-19 pandemic and any action to contain its spread or mitigate its impact whether government mandated or elected by the Company. Given the uncertainty over the potential macro-economic conditions the impact of COVID-19 pandemic may be different from that estimated as at the date of approval of these financial statements and the company will continue to closely monitor any material changes to future economic conditions, which will be given effect to in the respective future period.

- 44** Previous year's figures have been regrouped and rearranged wherever necessary, to make them comparable with those of current year.
