EXPLANATORY STATEMENT IN RESPECT OF THE SPECIAL BUSINESS PURSUANT TO SECTION 102 OF THE COMPANIES ACT, 2013

Item No.4

The Members at the 23rd Annual General Meeting held on September 29, 2015 approved the appointment of Mr. Vinod Balmukand Agarwala as an Independent Director of the Company for a period upto the conclusion of the 27th Annual General Meeting of the Company to be held in the calendar year 2019. Mr. Agarwala will complete his present term on September 20, 2019. The Board of Directors of the Company ('the Board') at the meeting held on August 14, 2019, on the recommendation of the Nomination & Remuneration Committee, recommended for the approval of the Members, for the re-appointment of Mr. Agarwala as an Independent Director of the Company with effect from September 20, 2019, in terms of Section 149 and 152 read with Schedule IV of the Companies Act, 2013 ('the Act'), and Regulation 17 of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 ('Listing Regulations 2015'), or any amendment thereto or modification thereof.

The Board is of the view that the continued association of Mr. Agarwala would benefit the Company, given the knowledge, experience and performance of Mr. Agarwala, and contribution to Board processes by him. Declaration has been received from Mr. Agarwala that he meets the criteria of Independence prescribed under Section 149(6) of the Act read with the Companies (Appointment and Qualification of Directors) Rules, 2014 and Regulation 16(1)(b) of the Listing Regulations 2015. In the opinion of the Board, Mr. Agarwala fulfills the conditions specified in the Act, the Rules thereunder and the Listing Regulations 2015 for re-appointment as an Independent Director and that he is independent of the management of the Company.

Consent of the Members by way of Special Resolution is required for the re-appointment of Mr. Agarwala, in terms of Section 149 of the Act.

Requisite consent has been filed by Mr. Agarwala pursuant to Section 152 of the Act. Additional information in respect of Mr. Agarwala, pursuant to the Listing Regulations 2015 and the Secretarial Standard on General Meetings, is appearing in the Annual Report. Mr. Agarwala does not hold any share in the Company, either in his individual capacity or on a beneficial basis for any other person. Mr. Agarwala and his relatives are interested in this Special Resolution. None of the other Directors and Key Managerial Personnel of the Company, or their relatives, is interested in this Special Resolution. The Board recommends this Special Resolution for your approval.

Item No. 5

The Members at the 23rd Annual General Meeting held on September 29, 2015 approved the appointment of Mr. Vishwambhar C. Saraf as an Independent Director of the Company for a period upto the conclusion of the 27th Annual General Meeting of the Company to be held in the calendar year 2019. Mr. Saraf will complete his present term on September 20, 2019. The Board of Directors of the Company ('the Board') at the meeting held on August 14, 2019, on the recommendation of the Nomination & Remuneration Committee, recommended for the approval of the Members, for the re-appointment of Mr. Saraf as an Independent Director of the Company with effect from September 20, 2019, in terms of Section 149 and 152 read with Schedule IV of the Companies Act, 2013 ('the Act'), and Regulation 17 of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 ('Listing Regulations 2015'), or any amendment thereto or modification thereof.

The Board is of the view that the continued association of Mr. Saraf would benefit the Company, given the knowledge, experience and performance of Mr. Saraf, and contribution to Board processes by him. Declaration has been received from Mr. Saraf that he meets the criteria of Independence prescribed under Section 149(6) of the Act read with the Companies (Appointment and Qualification of Directors) Rules, 2014 and Regulation 16(1)(b) of the Listing Regulations 2015. In the opinion of the Board, Mr. Saraf fulfills the conditions specified in the Act, the Rules thereunder and the Listing Regulations 2015 for re-appointment as an Independent Director and that he is independent of the management of the Company.

Consent of the Members by way of Special Resolution is required for the re-appointment of Mr. Saraf, in terms of Section 149 of the Act. Further, in terms of the recently notified Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) (Amendment) Regulations, 2018, consent of the Members by way of Special Resolution is also required for continuation of a Non-Executive Director beyond the age of seventy five years. Mr. Saraf has also attained the age of 75 years.

Requisite consent has been filed by Mr. Saraf pursuant to Section 152 of the Act. Item No. 8

In pursuance of Section 148 of the Companies Act, 2013 and Rule 14 of the Companies (Audit and Auditors) Rules, 2014, the Board shall appoint an individual/ firm of cost accountant(s) in practice on the recommendations of the Audit Committee, which shall also recommend remuneration for such cost auditor. The remuneration recommended by Audit Committee shall be considered and approved by the Board of Directors and ratified by the shareholders.

On recommendation of the Audit Committee at its meeting held on May 28, 2019 the Board has considered and approved appointment of M/s NKJ & Associates, Cost Accountants having Registration No.101893, for the conduct of the Cost Audit of the Company at a remuneration of ₹ 75,000 plus service tax as applicable and reimbursement of actual travel and out-of-pocket expenses for the Financial Year ending on March 31, 2020.

The Board of Directors of the Company recommends the Ordinary Resolution as set out in the Notice for approval of the members.

None of the Directors and Key Managerial Personnel of the Company or their relatives are concerned or interested in the proposed Resolution as set out in the Notice, except to the extent of their shareholding, if any, in the Company.

Item No. 9

AAIT/Technocraft Scaffold Distribution LLC FZE ("AAIT") is a 'Related Party' within the meaning of Section 2 (76) of the Companies Act, 2013 and Regulation 2 (1)(zb) of the SEBI Listing Regulations. AAIT is a subsidiary of wholly owned subsidiary Technocraft International, UK. The Board of Directors of the Company had, on the recommendation of the Audit Committee, passed a resolution at its meeting held on August 14, 2019, approving of the related party transaction for sale of scaffoldings upto ₹ 300 Crores.

Name of the Related Party	Name of the director of Key managerial personnel who is related, if any	Nature of relationship	Nature, material terms, monetary value and particulars of the contract or arrangement	Any other information relevant or important for the members to take a decision on the proposed resolution.
AAIT/ Technocraft Scaffold Distribution LLC FZE ("AAIT")	Not Applicable	Step-down subsidiary	AAIT is a distribution Company for sale of scaffolding out of India. Sale of scaffoldings upto ₹ 300 Crores for Financial Year 2019-20	The transactions are in the ordinary course of business and are at an Arm's Length basis.

The Board of Directors of the Company has, on the recommendation of the Audit Committee, agreed sale the scaffoldings. As the enhanced limit of ₹ 300 Crores exceeds 10% of the Company's turnover for the last financial year ended March 31, 2019, the export sale of scaffoldings to AAIT would be deemed to be a 'material' related party transaction.

Further, during the Financial Year ended March 31, 2018 the approval for the said transaction the approval of the members were requested and granted was for ₹ 150 Cr however, due to unavoidable circumstances the transaction was increased by ₹ 13.85 Cr. for which rectification approval is required from the shareholders.

Under Regulation 23 (4) of the SEBI Listing Regulations, all material related party transactions have to be approved by Ordinary resolution of the shareholders and the related parties shall abstain from voting on such resolution whether the entity is a related party to the transaction or not.

The Board of Directors of the Company recommends the Ordinary Resolution as set out in the Notice for approval of the members.

None of the Directors and Key Managerial Personnel of the Company or their relatives are concerned or interested in the proposed Resolution as set out in the Notice, except to the extent of their shareholding, if any, in the Company.

It may be noted that the unclaimed dividend for the financial year 2011-12 declared on September 28, 2012, is due to be transferred to the IEPF by November 4, 2019. The same can however be claimed by the Members before it. Members who have not encashed the dividend warrant(s) from the financial year ended March 31, 2012 onwards may forward their claims to the Company's Registrar and Share Transfer Agents before they are due to be transferred to the IEPF.

In accordance with Section 124(6) of the Act, read with the IEPF Rules, all the shares in respect of which dividend has remained unclaimed or unpaid for seven consecutive years or more are required to be transferred to the demat Account of the IEPF Authority. Accordingly, all the shares in respect of which dividends were declared upto the financial years ended March 31, 2011 and remained unpaid or unclaimed were transferred to the IEPF. The details of such shares transferred have been uploaded in the Company's website www.technocraftgroup.com.

The shares and unclaimed dividend transferred to the IEPF can however be claimed back by the concerned shareholders from IEPF Authority after complying with the procedure prescribed under the IEPF Rules. The Member/Claimant is required to make an online application to the IEPF Authority in Form IEPF -5 (available on www.iepf.gov.in)

During the year under review, the Company has transferred a sum of ₹177,289.00 to Investor Education and Protection Fund (IEPF) pursuant to Section 125 of the Companies Act, 2013. The said amount represents dividend for the Financial Year 2010-11 which remained unclaimed by the members of the Company for a period exceeding 7 years from its due date of payment. During the Financial Year the Company has also transferred 484 Equity Shares of 9 Shareholders into IEPF, pursuant to Section 124(6) of the Act.

CORPORATE GOVERNANCE REPORT

The Directors present the Company's Report on Corporate Governance for the year ended March 31, 2019, in terms of Regulation 34(3) read with Schedule V of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 ("SEBI Listing Regulations").

The Corporate Governance signifies the role of the management as the trustees to the property of the shareholders and acceptance of the inherent rights of the shareholders by the management. Corporate Governance is a framework which helps various participants' viz. shareholders, Board of Directors and Company's management, in shaping company's performance and the way it is preceding towards attainment of its goals.

I. COMPANY'S PHILOSOPHY ON CORPORATE GOVERNANCE

The Company's Corporate Governance philosophy encompasses not only regulatory and legal requirements, such as the terms of SEBI Listing Regulations, but also several voluntary practices at a superior level of business ethics, effective supervision and enhancement of shareholders' value.

The Company believes that timely disclosures, transparent accounting policies and a strong and independent Board go a long way in protecting the shareholders' interest while maximizing long term corporate values.

The Company is in compliance with the requirements on the Corporate Governance stipulated under SEBI Listing Regulations.

II. BOARD OF DIRECTORS

(a) Size and Composition of the Board of Directors

The Board of Directors has an ideal combination of executive and non-executive Directors and is in conformity with the provisions of Companies Act, 2013 and Regulation 17 of the SEBI Listing Regulations which *inter-alia* stipulates that the Board should have an optimum combination of Executive and Non-executive Directors with at least one Woman Director and not less than fifty percent of the Board should consist of Independent Directors, if the Chairman of the Board is an Executive Director.

MANAGEMENT DISCUSSION & ANALYSIS REPORT 2018-19

ECONOMIC REVIEW

Global Economic

The world economy grew by 3.6% in 2018, according to the International Monetary Fund (IMF). During the second half of 2018, this rate of development gradually declined, owing to impending US-China trade war and some slowdown across developed markets.

Emerging and developing markets of Asia maintained their steady progress at 6.4% during 2018. However, it's important to note that India's economy expanded at 7.1% in 2018 vis-à-vis 6.7% in 2017, whereas China's growth deteriorated from 6.9% in 2017 to 6.6% in 2018 (Source: IMF)

Outlook

Global growth is projected to moderate further to 3.3% in 2019, reflecting concerns over potential escalation of trade tensions between US and China, unwinding of fiscal stimulus in US, weakening financial market sentiment, uncertainty about BREXIT outcome and possible slowdown in Chinese economy.

Indian Economic

India continues to be one of the fastest growing major economies in the world and is expected to be among the world's top three economic powers in the next 10-15 years. The Indian economy is expected to improve and close the year 2019 with a GDP growth of 7.3% (Source: IMF).

The key contributors to this growth include its robust private consumption, the implementation of GST, an array of structural reforms and low food inflation that was partly offset by disruption caused by the floods in Kerala.

India's ranking in the World Bank's Ease of Doing Business Index continued to improve, jumping 23 places in the 2018 edition to assume the 77th position. Today, India is the world's seventh largest economy in real terms, backed by strong demand, positive consumption pattern and rising disposable income. In PPP terms, the economy is expected to be among the top five global economies by 2020.

BUSINESS OVERVIEW:

Drum Closure

Each steel drum requires one set of closure, a precision engineering product so as to ensure that the liquid inside does not spill out. The Company has designed and developed the next generation technology for manufacturing of drum closures. It also manufactures all its gaskets and clamps and offers a full range of drum closure products to its clients. With patented technology, there has been substantial reduction in manufacturing costs, improvement in quality and this has helped catapult TIL to the second largest global manufacturer of steel drum closures.

Your Company is the second largest manufacturer of steel Drum Closures and continues to enjoy a worldwide market share of about 36% (excluding China). The Company produces a wide variety of closures and related equipment ranging from fully automatic flange insertion systems to cap-sealing tools. The Company caters to all leading steel drum manufacturing companies of the world. The Company is also expanding capacity for which two additional shed already constructed for drum closure division.

Profit before Tax and Interest of the drum closures division was increased by 6.07% as compared to the previous year i.e. from ₹ 8,272.86 Lakhs to ₹ 8,775.07 Lakhs for this year. Out of the total revenue of drum division, approximately 90% of revenue was generated from Export Sales.

Scaffoldings & Formwork

Scaffolding is a temporary structure used to support people and material in the construction industries, real estate and any other large structures. It is usually a modular system of metal pipes or tubes, although it can be from other materials also.

The Company is a leading Indian manufacturer and distributor of scaffoldings and formwork systems. The Company exports approx. 73% of scaffolding formwork out of India. The Company has been supplying scaffoldings to global markets for over 20 years. During the Financial Year the company has increased its domestic sale, as the Company has started supplying to various infra Projects.

Despite the volatile nature of construction and allied activities, the Scaffolding & Formwork (S&F) market is thriving in India and one can expect brighter times ahead.

With the government laying special emphasis on construction and infrastructural development in the 12th Five Year Plan, opportunities abound in the Indian Scaffolding and Formwork (S&F) Industry. With the demand rising in the wake of ongoing and future projects, S&F manufacturers are keeping pace with the Construction Industry.

The Company has strategically located state-of-the-art manufacturing facilities with installed capacities of 40,000 MT and 25,000 MT in India and China, respectively. The Company is positioned as an end-to-end solution provider owing to its well-integrated manufacturing capability. The Company supplies its products to a diversified set of end markets including oil & gas, power, refineries, petrochemical, infrastructure and commercial construction.

The Company is present in the premium segment of Scaffolding business. Scaffolding segment is growing on the back of the strong demand from the international infrastructure markets and also getting good response from infra projects in India.

The Company's Scaffolding segment comprises of Scaffolding and Formwork business. Its major revenues accrue from overseas markets. The Company is also started giving its scaffolding on rental basis; The Company is finding good scope and margin in this growing business.

Formwork Business

Formwork is the term given to either temporary or permanent molds into which concrete or similar materials are poured. Traditionally, formwork was built using easy to produce timber and plywood, or moisture-resistant particleboard. Over a period of time formwork is now made more of steels which are more durable and reusable.

Looking at Indian government's focus on rapid infrastructural development across the country by constructing railways, roads, bridges, dams, airports, power plants and many more, construction is now growing at a fast pace. Contractors have started adapting newer technologies, faster systems, advanced concrete techniques and better and established management tools.

Engineered Formwork Systems are built out of prefabricated modules with a metal frame - usually of steel or aluminum - and covered on the application (concrete) side with material having the wanted surface structure (steel, aluminum, plastic, timber, etc)

The Company has entered into manufacturing of sophisticated engineered Formwork systems for building, construction and infrastructure projects in India. The Company has state-of-the-art manufacturing plant in India and is well placed to play a larger role in the construction growth in India and overseas, with a network of offices at Mumbai and overseas.

The revenue of Scaffolding Segment was increased tremendously by 22.53% during the Financial Year 2018-19 as compared to previous Financial Year. The revenue generated from this division for the current financial year 2018-19 was ₹ 484,56.94 Lakhs and for the previous year ₹ 39,545.66 Lakhs.

Profit before Tax and Interest for the year was reduced to ₹ 7,756.46 with that of previous year i.e., ₹ 7,776.97 which decreased by 0.26% as compared to previous year

Yarn

The Company produces variety of products ranging from NE 20 to NE 40, Carded and Combed varieties of Cotton Yarn. The Spinning mill is equipped with world-class Swiss, Japanese, German, Spanish equipment. Currently, the Company exports approx.60% of yarn products mainly in Europe, Asia, Latin American countries etc.

The Company manufactures premium quality active wear products and provides superior service. Products are custom knit, dyed, finished, cut, sewn, decorated, packaged and distributed.

Being part of a diverse group, the Company has access to the latest trends in the European markets, thus enabling it to offer high quality products and latest fashions with Indian prices in a very short lead-time.

During the Financial Year the revenue of Yarn Division was decreased slightly as compared to last Financial Year. Total revenue from the segment in the Financial Year 2018-19 was ₹ 27,227.92 Lakhs as compared to ₹ 27,327.66 Lakhs for previous year. This division generated loss before Interest and Tax of ₹ 587.07 Lakhs as compare to Loss of ₹ 635.83 Lakhs of last year.

Fabric/ Garments

Changing lifestyles and increasing demand for quality products are set to fuel the need for apparel and corresponding growth in Garment Units.

During the current Financial Year the revenue from the Garment Division was increased to ₹13,540.07 Lakhs as compared to previous year of ₹ 11,659.06 Lakhs, which is increased by 16.13%. Further, this segment generated loss before interest and tax of ₹ 895.46 Lakhs as compare to loss of ₹ 389.51 Lakhs for previous year.

Captive power generation

The Company has a coal based captive power generation plant of 15MW to cater to its power requirements, resulting into less dependence on state electricity board and surety of continuous power supply to all its divisions.

During the current Financial Year the revenue from power division was increased to ₹ 5324.96 Lakhs as compared to previous year of ₹ 5138.75 Lakhs which shows increase of 3.62%. However, profit before tax and interest was decreased to ₹ 874.65 Lakhs against ₹ 905.22 Lakhs of previous year, reflecting decrease of profit by 3.38% as compared with that of previous year.

Engineering & designing services through Subsidiary

Technosoft Engineering Projects Limited ('Technosoft') is a subsidiary of the Company. Technosoft is a global technology services company offering broad-based engineering, designing and IT services using a variety of client-partnership models for delivery. Technosoft's client base spans various industry verticals including heavy machinery, automotive, aerospace, manufacturing, oil & gas, high-tech, telecom, healthcare and financial services. The company's client base is widely spread globally including many clients from US, Canada, UK and Germany.

Technosoft has a strong team of over 250 engineers and designers located worldwide. Its engineers and designers are equipped with state-of-the-art hardware and software tools, including tools for 3-D modeling, Finite Element Analysis and process simulation.

Technosoft operates in North America through its subsidiaries, which provides general engineering & designing services and EPC Management Services in the oil and gas and other industry.

OPPORTUNITY & FUTURE PLAN

For an enterprise there is nothing more important than to find and exploit new market opportunities.

The Government of India has set an ambitious target of increasing the contribution of manufacturing output to 25 percent of Gross Domestic Product (GDP) by 2025.

The Government of India has taken several initiatives to promote a healthy environment for the growth of manufacturing sector in the country. Likewise Ministry of Heavy industries and Public Enterprises, in partnership with industry associations, has announced creation of a start-up center and a technology fund for the capital goods sector to provide technical, business and financial resources and services to start-ups in the field of manufacturing and services.

Focus of the company is to consolidate and grow its position in each of its core businesses which is Drum Closures, Scaffolding, Engineering & Designing Services and Textiles. The Company sees the Drum Closure division growing at same or higher rate next year and this is certainly one of its core focus areas.

The Company is working strongly and increasing the sales and profitability in China which is one of the main growing markets for Drum Closures division. Drum Closure division is growing in China. Scaffolding division can perform better this year. Management expects a good growth rate both in top line and bottom line.

Government initiatives such as RERA, Affordable housing, Smart Cities etc. are expected to bring a transformational shift and boost growth of Indian real estate industry, which will create tremendous growth in scaffolding. Awareness towards safety will also generate more demand and growth for scaffolding business.

RISK & THREAT

Global Slowdown - More than 70 % of TIIL's revenue comes from global markets. Any slowdown in economic activities in global markets in general and U.S. market in particular may affect TIIL's performance.

Foreign exchange - Being an export oriented company, the Company's competitiveness, revenue growth & margins may be affected in case Indian Rupee appreciates significantly against major global currencies in long run. In the short run, volatility in foreign exchange markets may affect the Company's profitability as it does not hedge its export receivables fully.

Commodity prices - Increase in commodity prices like steel & cotton may affect the Company's performance in case it unable to pass the rise in commodity prices to its customers.

Capital allocation – The Company's certain businesses generate significant cash flows and The Company's cash & cash equivalents and current investments were stood at ₹ 3,219.92 Lakhs and ₹ 12,370.99 Lakhs respectively as on March 31, 2019. TIIL's management has plans to invest this amount into various businesses and keep looking for inorganic growth opportunities. Inorganic growth opportunities pursued in future may or may not generate economic returns as desired due to various factors. However, management has narrowed down focus to "engineering" area (considering management's background & expertise) while pursuing inorganic growth opportunities and evaluating certain opportunities in specialized drum closures/scaffolding segment and engineering services segment

Market Share- any rise in competitive landscape in domestic or international markets can lead to reduction in market share and can affect profitability.

Financing: The Company's growth strategy is dependent on the internal cash generation level and ability to draw external capital for growth projects.

Considering the industry volatility, Technocraft continued its journey of developing new markets and products and enhancing value added services to its customer.

The Company aims to address risks, opportunity and threat posed by the business environment by developing appropriate risk mitigation measure.

The Management has also put in place effective measures to monitor the Risk Management System and appropriate steps are taken to strengthen the existing business practices and policies to the overcome the challenges.

Risk Management System is a way to try alternative solution as to determine what works and what doesn't and testing and refining assumptions.

INTERNAL CONTROL SYSTEM AND THEIR ADEQUACY

Internal Control System plays an integral role in the Company's Success. It helps the management to monitor the effectiveness of the controls in an ever-changing environment. Internal control and risk management are critical in the process of setting and achieving operational, strategic, compliance and reporting objectives.

The Company's internal control policies are in line with its size and nature of operations and they provide assurance that all assets are safeguarded, transactions are authorised, recorded and reported properly following all applicable statutes and General Accepted Accounting Principles.

The Company has an Audit Committee all the members including the Chairman are independent directors in order to maintain objectivity. Internal Auditor of the Company conducts audit in various functional areas. Audit planning and executions are oriented towards assessing the state of internal controls, making them stronger and addressing the risks in the functional areas of the Company. Internal Auditor, reports to the Audit Committee its findings and observations. Audit Committee meets at regular intervals to review audit issues and follow up on implementation of corrective actions.

Besides the above, the Company has also met the Internal Financial Control requirements as per Companies Act, 2013 where policies and procedures have been adopted by the Company for ensuring the orderly and efficient conduct of its business, including adherence to Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records and the timely preparation of reliable financial information. Audit Committee also seeks views of the statutory auditors on the adequacy of internal control systems in the Company. In compliance with Section 143(3)(i) of the Act, the Statutory Auditors have issued an unmodified report on the Internal Financial Controls over Financial Reporting which forms a part of the Independent Auditors' Report also forming part of this Annual Report.

INDEPENDENT AUDITOR'S REPORT

TO THE MEMBERS OF TECHNOCRAFT INDUSTRIES (INDIA) LIMITED Report on the Standalone Financial Statements

Opinion

We have audited the accompanying Standalone Ind AS financial statements of **TECHNOCRAFT INDUSTRIES (INDIA) LIMITED**, (“the Company”), which comprise the Balance Sheet as at March 31, 2019, the Statement of Profit and Loss (Including Other Comprehensive Income), the Cash Flow Statement and the Statement of changes in Equity for the year then ended and notes to the financial statements including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone Ind AS financial statements give the information required by the Companies Act, 2013, as amended (“the Act”) in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2019, its profit including other comprehensive income its cash flows and the changes in equity for the year ended on that date.

Basis of Opinion

We conducted our audit of the standalone Ind AS financial statements in accordance with the Standards on Auditing (SAs), as specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the ‘Auditor’s Responsibilities for the Audit of the Standalone Ind AS Financial Statements’ section of our report. We are independent of the Company in accordance with the ‘Code of Ethics’ issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone Ind AS financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone Ind AS financial statements for the financial year ended March 31, 2019. These matters were addressed in the context of our audit of the standalone Ind AS financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

We have determined the matters described below to be the key audit matters to be communicated in our report. We have fulfilled the responsibilities described in the Auditor’s responsibilities for the audit of the standalone Ind AS financial statements section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the standalone Ind AS financial statements. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying standalone Ind AS financial statements.

Key Audit Matters	How our audit addressed the key audit matter
<p>Assessment of impairment of investment in subsidiaries, (Refer Note 6(a) of the Standalone Ind AS Balance Sheets)</p> <p>As at March 31, 2019 the Company balance sheet includes investment in subsidiaries of ₹ 58.26 crores,</p> <p>In accordance with Indian Accounting Standards (Ind-AS), the management has allocated these balances to their respective cash generating units (CGU) and tested these for impairment using a discounted cash flow model. The management compares the carrying value of these assets with their respective recoverable amount. A deficit between the recoverable amount and CGU's net assets would result in impairment. The inputs to the impairment testing model which have most significant impact on the model includes:</p> <ul style="list-style-type: none"> a) Sales growth rate; b) Operating margin; c) Working capital requirements; d) Capital expenditure; and e) Discount rate applied to the projected cash flows. <p>The impairment test model includes sensitivity testing of key assumptions.</p> <p>The annual impairment testing is considered a significant accounting judgment and estimate and a key audit matter because the assumptions on which the tests are based are highly judgmental and are affected by future market and economic conditions which are inherently uncertain, and because of the materiality of the balances to the financial statements as a whole.</p>	<p>As a part of our audit we have, carried out the following procedures:</p> <ul style="list-style-type: none"> a) We assessed the Company's methodology applied in determining the CGUs to which these assets are allocated. b) We assessed the assumptions around the key drivers of the cash flow forecasts including discount rates, expected growth rates and terminal growth rates used; c) We also assessed the recoverable value by performing sensitivity testing of key assumptions used. d) We tested the arithmetical accuracy of the models e) Performed analysis of the disclosures related to the impairment tests and their compliance with Indian Accounting Standard (Ind-AS).

Other Information

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Annual report, but does not include the standalone Ind AS financial statements and our auditor's report thereon.

Our opinion on the standalone Ind AS financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone Ind AS financial statements, our responsibility is to read the other information and, in doing so, consider whether such other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's Responsibility for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone Ind AS financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively

for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone Ind AS financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Ind AS Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone Ind AS financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone Ind AS financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

1. Identify and assess the risks of material misstatement of the standalone Ind AS financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
2. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
3. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
4. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
5. Evaluate the overall presentation, structure and content of the standalone Ind AS financial statements, including the disclosures, and whether the standalone Ind AS financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone Ind AS financial statements for the financial year ended March 31, 2019 and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes

public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

As required by the Companies (Auditor's Report) Order, 2016 (the order); issued by the Central Government of India in terms of sub-section (11) of section 143 of the Companies Act, 2013, we give in the **Annexure - A**, a statement on the matters specified in paragraphs 3 and 4 of the Order to the extent applicable.

ANNEXURE – "B" TO THE INDEPENDENT AUDITORS REPORT

The Annexure referred to in our Report of even date to the Members of TECHNOCRAFT INDUSTRIES (INDIA) LIMITED for the year ended 31st March, 2019. We report that:

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **TECHNOCRAFT INDUSTRIES (INDIA) LIMITED**, ("the Company") as of March 31, 2019 in conjunction with our audit of the Standalone IND AS financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2019, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India.

Notes to the Standalone Financial Statements for the Year Ended 31st March, 2019

Note-1 Company Overview

Technocraft Industries (India) Limited (“the Company”), was incorporated on 28th October 1992, CIN L28120MH1992PLC069252. The company is a Public Limited company incorporated and domiciled in India and is having its registered office at Plot No -47, Opus Centre, 2nd Floor, Opp Tunga Paradise Hotel, MIDC, Andheri (East) Mumbai – 400093, Maharashtra, India. The Company is listed on Bombay Stock Exchange (BSE) and National Stock Exchange (NSE) in India.

The Company is well diversified having its business Interest in Drum Closures (2nd Largest in the World), Scaffolding & Formworks, Yarn, Fabrics & Garments. It has its own 15 MW Captive Thermal Power Plant.

Authorisation of Financial Statements: The Financial Statements were authorized for issue in accordance with a resolution of the directors on 28th May 2019.

Note-2 Significant Accounting Policies:

i) Basis of Preparation and Presentation:

The Financial Statements are prepared in accordance with Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 (“Act”) read with Companies (Indian Accounting Standards) Rules, 2015 (as amended) ; and the other relevant provisions of the Act and Rules thereunder.

The Financial Statements have been prepared under historical cost convention basis except for certain financial assets and financial liabilities measured at fair value (refer accounting policies for financial instruments).

Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

ii) Use of Estimates :

The preparation of the financial statements in conformity with Ind AS requires management to make estimates and assumptions. These estimates and assumptions affect the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the period. Accounting estimates could change from period to period. Actual results could differ from those estimates. Appropriate changes in estimates are made as management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the financial statements in the period in which changes are made and, if material, their effects are disclosed in the notes to the financial statements.

iii) Fair Value Measurement:

Fair value is the price that would be received to sell an asset or settle a liability in an ordinary transaction between market participants at the measurement date. The fair value of an asset or a liability is measured using the assumption that market participants would use when pricing an asset or liability acting in their best economic interest. The Company used valuation techniques, which were appropriate in circumstances and for which sufficient data were available considering the expected loss/ profit in case of financial assets or liabilities

iv) Revenue Recognition

The Company derives its revenue primarily from sales of manufactured goods, traded goods and related services Effective 1st April 2018, the Company has adopted Indian Accounting Standards 115 (Ind AS115) “Revenue from Contracts with Customers”. There was no significant impact on the Company due to adoption of Ind AS-115.

The Company recognizes revenue when control over the promised goods is transferred to the customer at an amount that reflects the Consideration to which the Company expects to be entitled in exchange for goods. The Company considers whether there are other promises in the Contract that are separate Performance obligations to which a portion of the transaction price needs to be allocated .

The Company recognizes revenue from the sale of goods net of returns and allowances, trade discounts and volume rebates. If the revenue cannot be reliably measured, Company defers revenue recognition until the uncertainty is resolved .Such Provisions give rise to variable Consideration and are estimated at Contract inception and updated thereafter.

Notes to the Standalone Financial Statements for the Year Ended 31st March, 2019

Revenue from Rendering of services is recognized as & when the Customer receives the benefit of the Company's performance and the company has an enforceable right to payment for services Performed.

In respect of Short term advances from its customers, using the practical expedient in Ind AS-115, the Company does not adjust the Promised amount of Consideration for the effects of a significant financing component if it expects, at contract inception, that the period between the transfer of the Promised goods or services to the Customer and when the customer pays for that goods or services will be within the normal operating cycle i.e. one year.

Revenue is net of Goods & Service Tax Collected on behalf of the Government.

Contract Balances

Contract Asset

A contract asset is the right to consideration in exchange for goods or services transferred to the Customer. If the Company performs by transferring goods or services to a customer before the customer pays Consideration or before the payment is due, a contract asset is recognized for the earned consideration that is conditional.

Trade Receivables

A receivable represents the Company's right to an amount of consideration that is unconditional (i.e. only the passage of time is required before the payment of the consideration is due).

Contract Liabilities

A Contract Liability is the obligation to transfer goods or services to a customer for which the Company has received consideration (or an amount of Consideration is due) from the Customer. If a customer pays consideration before the Company transfers goods or services to the customer, a contract Liability is recognized when the payment is made or the payment is due (whichever is earlier). Contract Liabilities are recognized as revenue when the Company Performs under the Contract including Advances received from Customer .

Refund Liabilities

A refund liability is the obligation to refund some or all of the consideration received (or receivable) from the Customer and is measured at the amount the Company ultimately expects it will have to return to the Customer. The Company updates its estimates of refund Liabilities (and the corresponding change in the transaction price) at the end of each reporting period.

Other Income

Dividend Income is recognized when the Company's right to receive the payment is established, which is generally when shareholders approve the dividend.

Interest Income on all debt instruments measured at amortized cost is recorded using the effective interest rate (EIR).

Other items of income are accounted as and when the right to receive such income arises and it is probable that the economic benefits will flow to the Company and the amount of the Income can be measured reliably.

v) Inventories

Inventories of Raw Materials, Finished Goods, Semi-Finished Goods, Trading Goods, and Stores, Spares and other components, Packing Materials, Fuel and Oil are valued at cost or net realizable value, whichever is lower. Goods in transit are valued at cost or net realizable value, whichever is lower. Cost comprises of all cost of purchases, cost of conversion and other costs incurred in bringing the inventory to their present location and conditions. Cost is arrived at on FIFO basis. Due allowance is estimated and made for defective and obsolete items, wherever necessary.

If payment terms for inventory are on deferred basis i.e. beyond normal credit terms, then cost is determined by discounting the future cash flows at an interest rate determined with reference to the market rates. The difference between total cost and deemed cost is recognized as interest expense over the period of financing under the effective interest method.

Notes to the Standalone Financial Statements for the Year Ended 31st March, 2019

vi) **Property, plant and equipment**

Property, plant and equipment are stated at cost, net of accumulated depreciation and/or accumulated impairment losses, if any.

vii) **Capital Work in Progress**

Cost of assets not ready for use at the balance sheet date is disclosed under capital work-in-progress. Expenditure during construction period is also included under Capital Work in Progress.

viii) **Intangible Assets**

Intangible assets acquired are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less any accumulated amortization and accumulated impairment losses, if any.

ix) **Depreciation**

Depreciation on Property, Plant and Equipment has been provided on the Written down Value method based on the useful life of the assets as prescribed in Schedule II to the Companies Act, 2013. Leasehold Land is amortized over the period of lease.

Intangible assets are amortized on a straight line basis over the estimated useful economic life.

Depreciation methods, useful lives and residual values are reviewed at each reporting date.

When parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment. Subsequent expenditure relating to property, plant and equipment is capitalized only when it is probable that future economic benefits associated with these will flow to the Company and the cost of the item can be measured reliably. Repairs and maintenance costs are recognized in the statement of profit and loss when incurred. The cost and related accumulated depreciation are eliminated from the financial statements upon sale or disposition of the asset and the resultant gains or losses are recognized in the statement of profit and loss.

x) **Investment Property**

Investment property applies to owner-occupied property and is held to earn rentals or for capital appreciation or both. Hence such properties are reclassified from Property, Plant and Equipment to Investment property. Investment property is measured at its cost, including related transaction cost less depreciation and impairment, if any. Investment properties are depreciated using the written down value method over their estimated useful life. Any transfer to or from Investment property is done at the carrying amount of the Investment Property.

xi) **Government Subsidy**

The Company recognizes government grants only when there is reasonable assurance that the conditions attached to them shall be complied with, and the grants will be received.

Government grants relating to the purchase of property, plant and equipment are treated as deferred income and are recognized in net profit in the statement of profit and loss on a systematic and rational basis over the useful life of the asset.

Government grants related to revenue are recognized on a systematic basis in net profit in the statement of profit and loss over the periods necessary to match them with the related costs which they are intended to compensate.

xii) **Borrowings**

Borrowings are initially recognized at net of transaction Cost incurred and measured at amortized Cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognized in the statement of Profit & Loss over the period of borrowings using the effective Interest method.

xiii) **Income Tax**

Income tax expense comprises current tax expense and the net change in the deferred tax asset or liability during the year. Current and deferred tax are recognized in the statement of profit and loss, except when they relate to items that are recognized in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognized in other comprehensive income or directly in equity, respectively.

Notes to the Standalone Financial Statements for the Year Ended 31st March, 2019

a) Current Income Tax

Current income tax for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authorities based on the taxable income for that period. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted by the balance sheet date.

Current tax assets and liabilities are offset only if, the Company:

- has a legally enforceable right to set off the recognized amounts; and
- Intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

b) Deferred Income Tax

Deferred tax is recognized for the future tax consequences of deductible temporary differences between the carrying values of assets and liabilities and their respective tax bases at the reporting date, using the tax rates and laws that are enacted or substantively enacted as on reporting date.

Deferred tax assets are recognized to the extent that it is probable that future taxable income will be available against which the deductible temporary differences, unused tax losses and credits can be utilized.

Deferred tax assets and liabilities are offset only if:

- Entity has a legally enforceable right to set off current tax assets against current tax liabilities; and
- Deferred tax assets and the deferred tax liabilities relate to the income taxes levied by the same taxation authority.

xiv) Leases

Leases under which the Company assumes substantially all the risks and rewards of ownership are classified as finance leases. When acquired, such assets are capitalized at fair value or present value of the minimum lease payments at the inception of the lease, whichever is lower. Subsequent to initial recognition, minimum lease payments shall be apportioned between the finance charge and the reduction of the outstanding liability. The finance charge shall be allocated to each period during the lease term so as to produce a constant periodic rate of interest on the remaining balance of the liability. Contingent rents shall be charged as expenses in the periods in which they are incurred.

Leases in which significant portion of the risks and rewards of ownership are not transferred to the Company, as lessee are classified as operating leases. Lease Income from operating leases where the Company is a Lessor is recognized in income on straight –line basis over the lease term unless the receipts are structured to increase in line with expected general inflation to compensate for the expected inflationary cost increase.

xv) Financial Assets

a) Initial recognition and measurement

All financial assets (not measured subsequently at fair value through profit or loss) are recognised initially at fair value plus transaction costs that are attributable to the acquisition of the financial asset.

b) Subsequent measurement

Subsequent measurement is determined with reference to the classification of the respective financial assets. The Company classifies financial assets as subsequently measured at amortised cost, fair value through other comprehensive income or fair value through profit or loss on the basis of its business model for managing the financial assets and the contractual cash flow characteristics of the financial asset.

(i) Debt instruments at amortised cost

A 'debt instrument' is measured at the amortised cost if both the following conditions are met:

- The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

Notes to the Standalone Financial Statements for the Year Ended 31st March, 2019

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in the Statement of Profit & Loss. The losses arising from impairment are recognised in the Statement of Profit & Loss.

(ii) Debt instruments at Fair value through Other Comprehensive Income (FVOCI)

A 'debt instrument' is measured at the fair value through other comprehensive income if both the following conditions are met:

- The asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets
- Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, these assets are subsequently measured at fair value. Interest income under effective interest method, foreign exchange gains and losses and impairment are recognised in the Statement of Profit & Loss. Other net gains and losses are recognised in other comprehensive Income.

(iii) Debt instruments at Fair value through profit or loss (FVTPL)

Fair value through profit or loss is a residual category for debt instruments. Any debt instrument, which does not meet the criteria for categorisation as at amortised cost or as FVOCI, is classified as at FVTPL.

(iv) Equity investments

All equity investments in scope of Ind-AS 109 are measured at fair value. Equity instruments which are held for trading are classified as at FVTPL. For all other equity instruments, the Company decides to classify the same either as at FVOCI or FVTPL. The Company makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable.

For equity instruments classified as FVOCI, all fair value changes on the instrument, excluding dividends, are recognized in other comprehensive income (OCI).

Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the Statement of Profit & Loss.

c) De recognition

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised (i.e. removed from the Company's Balance Sheet) when:

- The rights to receive cash flows from the asset have expired, or
- The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either:
 - The Company has transferred substantially all the risks and rewards of the asset, or
 - The Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

d) Impairment of financial assets

The Company measures the expected credit loss associated with its assets based on historical trend, industry practices and the Business environment in which the entity operates or any other appropriate basis. The impairment methodology applied depends on whether there has been as significant increase in credit risk.

e) Income Recognition

Interest Income from debt instruments is recognised using the effective interest rate method.

Notes to the Standalone Financial Statements for the Year Ended 31st March, 2019

xvi) Financial Liabilities

a) Initial recognition and measurement

All financial liabilities are recognised initially at fair value net of transaction costs that are attributable to the respective liabilities.

b) Subsequent measurement

Subsequent measurement is determined with reference to the classification of the respective financial liabilities. The measurement of financial liabilities depends on their classification, as described below:

➤ Financial Liabilities at fair value through profit or loss (FVTPL)

A financial liability is classified as at fair value through profit or loss if it is classified as held-for-trading or is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and changes therein, including any interest expense, are recognised in Statement of Profit & Loss.

➤ Financial Liabilities measured at amortised cost

After initial recognition, financial liabilities other than those which are classified as fair value through profit or loss are subsequently measured at amortised cost using the effective interest rate method ("EIR").

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the Statement of Profit & Loss.

c) De recognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the de-recognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the Statement of Profit & Loss.

xvii) Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, or to realise the assets and settle the liabilities simultaneously.

xviii) Fair value of financial instruments

In determining the fair value of its financial instruments, the Company uses following hierarchy and assumptions that are based on market conditions and risks existing at each reporting date.

Fair value hierarchy:

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- ▶ Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- ▶ Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- ▶ Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

Notes to the Standalone Financial Statements for the Year Ended 31st March, 2019

xix) Cash & Cash Equivalents

The Company considers all highly liquid financial instruments, which are readily convertible into known amounts of cash and that are subject to an insignificant risk of change in value and having original maturities of three months or less from the date of purchase, to be cash equivalents.

Cash and cash equivalents comprise cash at banks and on hand and demand deposits with banks with an original maturity of three months or less.

xx) Investment in Subsidiaries & Joint ventures – Unquoted

Investments in equity shares of Subsidiaries & Joint Ventures are recorded at cost and reviewed for impairment at each reporting date.

xxi) Employee Benefits

➤ Short-term employee benefit

Short term employee benefits are recognized as an expense at an undiscounted amount in the Statement of Profit & Loss of the year in which the related services are rendered.

➤ Post-employment benefits

The Company's net obligation in respect of defined benefit plans such as gratuity is calculated separately for each plan by estimating the amount of future benefit that the employees have earned in the current and prior periods, discounting that amount and deducting the fair value of any plan assets.

The calculation of defined benefit obligation is performed at each reporting period end by a qualified actuary using the projected unit credit method.

The current service cost of the defined benefit plan, recognized in the Statement of Profit & Loss as part of employee benefit expense, reflects the increase in the defined benefit obligation resulting from employee service in the current year, benefit changes, curtailments and settlements. Past service costs are recognized immediately in the Statement of Profit & Loss. The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expense in the Statement of Profit & Loss.

Re-measurements which comprise of actuarial gains and losses, the return on plan assets (excluding net interest) and the effect of the asset ceiling (if any, excluding net interest), are recognized immediately in other comprehensive income.

➤ Other long-term employee benefits

Liability towards other long term employee benefits - leave encashment is determined on actuarial valuation by qualified actuary by using Projected Unit Credit method.

The current service cost of other long terms employee benefits, recognized in the Statement of Profit & Loss as part of employee benefit expense, reflects the increase in the obligation resulting from employee service in the current year, benefit changes, curtailments and settlements. Past service costs are recognized immediately in the Statement of Profit & Loss. The interest cost is calculated by applying the discount rate to the balance of the obligation. This cost is included in employee benefit expense in the Statement of Profit & Loss. Re-measurements are recognized in the Statement of Profit & Loss.

xxii) Foreign Currency Transactions:

a) Functional and Presentation Currency:

The Financial Statements are presented in Indian Rupee (₹) which is Company's Functional and Presentation Currency. All amounts have been rounded off to the nearest lakhs, unless otherwise indicated.

Notes to the Standalone Financial Statements for the Year Ended 31st March, 2019

b) Monetary Items

- Transactions denominated in foreign currency are normally accounted for at the exchange rate prevailing at the time of transaction.
- Monetary assets (including loans to subsidiaries) and Liabilities in foreign currency transactions remaining unsettled at the end of the year (other than forward contract transactions) are translated at the year-end rates and the corresponding effect is given to the respective account.
- Exchange differences arising on account of fluctuations in the rate of exchange are recognized in the statement of Profit & Loss.
- Exchange rate difference arising on account of conversion/translation of liabilities incurred for acquisition of Fixed Assets is recognized in the Statement of Profit & Loss.

c) Non - Monetary Items

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions.

xxiii) Impairment of Non-Financial Assets:

The Company assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's CGU'S fair value less cost of disposal and its value in use. It is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or Companies of assets. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples, or other fair value indicators

xxiv) Provisions

Provisions are recognized when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of economic benefits will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation.

Provisions are not discounted to present value and are determined based on best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates.

xxv) Contingent Liabilities

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The Company does not recognize a contingent liability but discloses its existence in the financial statements.

Notes to the Standalone Financial Statements for the Year Ended 31st March, 2019

xxvi) Earnings per Share

The basic earnings per share is computed by dividing the net profit attributable to equity shareholders for the period by the weighted average number of equity shares outstanding during the period.

The number of shares used in computing diluted earnings per share comprises the weighted average shares considered for deriving basic earnings per share, and also the weighted average number of equity shares which could be issued on the conversion of all dilutive potential equity shares

xxvii) Classification of Assets and Liabilities as Current and Non-Current:

All assets and liabilities are classified as current or non-current as per the Company's normal operating cycle (determined at 12 months) and other criteria set out in Schedule III of the Act.

xxviii) Cash Flows

Cash flows are reported using the indirect method, where by net profit before tax is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities are segregated.

xxix) Operating Segments

Operating segments are reported in a manner consistent with the internal reporting provided to Chief Operating Decision Maker (CODM).

xxx) Recent accounting pronouncements:

On 30th March 2019, the Ministry of Corporate Affairs (MCA) has notified Ind AS 116 Leases, under Companies (Indian Accounting Standards) Amendment Rules, 2019 which is applicable with effect from 1st April, 2019.

Ind AS 116 sets out the principles for the recognition, measurement, presentation and disclosure of leases for both parties to a contract i.e., the lessee and the lessor. Ind AS 116 introduces a single lease accounting model for lessee and requires the lessee to recognize "right of use assets" and lease liabilities for all leases with a term of more than twelve months, unless the underlying asset is low value in nature. Currently, operating lease expenses are charged to the statement of profit and loss. Ind AS 116 substantially carries forward the lessor accounting requirements in Ind AS 17.

As per Ind AS 116, the lessee needs to recognise depreciation on rights of use assets and finance costs on lease liabilities in the statement of profit and loss. The lease payments made by the lessee under the lease arrangement will be adjusted against the lease liabilities.

The Company is currently evaluating the requirement of the amendment & its impact on the Financial Statements.

xxxi) Significant accounting judgments, estimates and assumptions:

The preparation of financial statements requires the use of accounting estimates which, by definition, will seldom equal the actual results. Management also needs to exercise Judgement in applying the Company's accounting policies.

The estimates and judgements involves a higher degree of judgement or complexity, and of items which are more likely to be materially adjusted due to estimates and assumptions turning out to be different than those originally assessed. Detailed information about each of these estimates and judgements is included in relevant notes.

Critical estimates and judgements

The areas involving critical estimates or judgements are

- o Estimation of current tax expenses and payable
- o Estimated useful life of Intangible assets
- o Estimation of defined benefit obligation
- o Estimation of Provisions and Contingencies

Assumptions

With the objective of presenting the plan assets and plan liabilities of the defined benefits plans at their fair value on the balance sheet, assumptions under Ind AS 19 are set by reference to market conditions at the valuation date.

The significant actuarial assumptions were as follows:

Financial Assumptions	As at 31st March, 2019	As at 31st March, 2018
Discount rate	7.65%	7.60%
Salary escalation rate	5.00%	5.00%
Withdrawal Rates	2% at younger ages reducing to 1% at older ages	2% at younger ages reducing to 1% at older ages

Demographic Assumptions

Sensitivity

The sensitivity of the overall plan liabilities to changes in the weighted key assumptions are:

Particulars	As at 31st March, 2019	As at 31st March, 2018
	Increase/ Decrease in liability	Increase/ Decrease in liability
<u>Discount rate varied by 0.5%</u>		
0.50%	1,656.31	1,442.53
-0.50%	1,783.78	1,552.12
<u>Salary growth rate varied by 0.5%</u>		
0.50%	1784.97	1,553.29
-0.50%	1654.73	1,441.02

The sensitivity analyses above have been determined based on reasonably possible changes of the respective assumptions occurring at the end of the reporting period and may not be representative of the actual change. It is based on a change in the key assumption while holding all other assumptions constant. When calculating the sensitivity to the assumption, the same method used to calculate the liability recognised in the balance sheet has been applied. The methods and types of assumptions used in preparing the sensitivity analysis did not change compared with the previous period.

Note 32 : Segment Reporting

Ind AS 108 establishes standards for the way that public business enterprises report information about operating segments and related disclosures about products and services, geographic areas, and major customers. Based on the management approach as defined in Ind AS 108, the chief operating decision maker (CODM) evaluates the companies performance and allocates resources based on an analysis of various performance indicators by business segment and geographic segment. Accordingly, information has been presented both along business segment and geographic segment. The accounting principle used in the preparation of financial statements are consistently applied to record revenue and expenditure in individual segments, and are as set out in the significant accounting policies.

The Company has identified Drum Closures, Scaffoldings, Yarn, Fabric and Power as primary business segments of the Company.

The above business segments have been identified considering :

- i) The nature of the product
- ii) The deferring risk and returns
- iii) The internal financial reporting systems

The Geographical Segments considered for Disclosure are as Follows

- a) Revenue within India includes Revenue from Sales of Products (including Scrap) & Services to Customers Located within India and earnings in India.
- b) Revenue outside India includes Revenue from Sales of Products & Services to Customers Located outside India and earnings outside India and export Incentive benefits.

Revenue and expenses have been accounted for based on the basis of their relationship to the operating activities of the segment. Revenue and expenses, which relate to the enterprise as a whole and are not allocable to segments on a reasonable basis, have been included under "Unallocable" Inter segment transfer, are accounted for at competitive market prices, charged to unaffiliated customer for similar goods.

Note 33: Fair Value Measurements

A. Financial instruments by category and fair value hierarchy :

The following table shows the carrying amounts and fair values of financial assets and financial liabilities, including their levels in the fair value hierarchy. It does not include fair value information for financial assets and financial liabilities not measured at fair value if the carrying amount is a reasonable approximation of fair value.

Level 1 - Quoted prices (unadjusted) in active markets for identical assets or liabilities

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3 - Inputs for the assets or liabilities that are not based on observable market data (unobservable inputs)

During the reporting period ended March 31, 2019 and March 31, 2018, there were no transfers between level 1 and level 2 fair value measurements.

B. Measurement of fair values

The following methods and assumptions were used to estimate the fair values of financial instruments :

- The management assessed that fair value of cash and cash equivalents, trade receivables, trade payables, bank overdrafts and other current financial assets and liabilities approximate their carrying amounts largely due to the short-term maturities of these instruments.
- The fair values of the equity / Mutual Fund investments which are quoted, are derived from quoted market prices in active markets. The investment measured at fair value and falling under fair value hierarchy Level 3 are valued on the basis of valuation report provided by external valuers with the exception of certain investments, where cost has been considered as an appropriate estimate of fair value because of a wide range of possible fair value measurements and cost represents the best estimate of fair values within that range. The carrying value of those investments are individually immaterial.

Note 34 : Financial Risk Management

Risk management framework

The Company's activities expose it to a variety of financial risks, including market risk, credit risk and liquidity risk. The Company's primary risk management focus is to minimize potential adverse effects of all the risk on its financial performance. The Board of Directors and the Audit Committee are responsible for overseeing the Company's risk assessment and management policies and processes.

The Company's has exposure to the following risks arising from financial instruments:

- Credit risk ;
- Market risk ; and
- Liquidity risk

1. Credit Risk

The Credit risk arises from the possibility that the counter party may not be able to settle their obligations as agreed. To manage this, the Company periodically assess financial reliability of customers, taking into account the financial condition, current economic trends, and analysis of historical bad debts and ageing of accounts receivable. Individual risk limits are set and periodically reviewed on the basis of such Information .

Financial assets are written off when there is no reasonable expectations of recovery, such as a debtor failing to engage in a repayment plan with the company. The Company categorises a trade receivable for write off when a debtor fails to make contractual payments or on case to case basis. Where trade receivables have been written off, the company continues to engage in enforcement activity to attempt to recover the receivable due. Where recoveries are made, these are recognized as Income in the statement of profit or loss.

The Company measures loss rate for trade receivables from Individual customers based on the historical trend, industry practices and the business environment in which the entity operates .Loss rates are based on Past Trends . Based on the historical data , no probable loss on collection of receivable is anticipated & hence no provision is considered .

In case of Credit risks from balances with banks and financial institutions , the Company attempts to limit the credit risk by only dealing with reputable banks and financial institutions having high credit-ratings assigned by credit-rating agencies.

In addition, the Company is exposed to credit risk in relation to financial guarantees given to banks and other counterparties. The Company's maximum exposure in this respect is the maximum amount that the Company would have to pay if the guarantee is called upon. The maximum exposure relating to financial guarantees instruments is disclosed in note no 28 (contingent liabilities).

INDEPENDENT AUDITOR'S REPORT

TO THE MEMBERS OF TECHNOCRAFT INDUSTRIES (INDIA) LIMITED

Report on the Consolidated Ind AS Financial Statements

We have audited the accompanying Consolidated Ind AS Financial Statements of **TECHNOCRAFT INDUSTRIES (INDIA) LIMITED** ("the Holding Company), and its Subsidiaries (the Holding Company and its Subsidiaries together referred to as "the Company" or "the Group"), and its Joint Ventures and jointly controlled entities, comprising of the Consolidated Balance Sheet as at 31st March, 2019, the Consolidated Statement of Profit & Loss (Including Other Comprehensive Income), the Consolidated Cash Flow Statement and the Consolidated Statement of Changes in Equity for the year then ended and notes to the financial statements including a Summary of significant accounting policies and other explanatory information (hereinafter referred to as "the Consolidated Ind AS Financial Statements").

In our opinion and to the best of our information and according to the explanations given to us and based on the consideration of the reports of the other auditors on separate financial statements / consolidated financial statements and on the other financial information of the subsidiaries, associates and joint ventures, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013 ('Act') in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India including Indian Accounting Standards ('Ind AS') specified under Section 133 of the Act, of the consolidated state of affairs (consolidated financial position) of the Group and its associates and joint ventures as at 31 March 2019, and its consolidated profit (consolidated financial performance including other comprehensive income), its consolidated cash flows and the consolidated changes in equity for the year ended on that date.

Basis of Opinion

We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ('ICAI') together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors in terms of their reports referred to in paragraph 15 of the Other Matters paragraph below is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Consolidated Ind AS financial statements for the financial year ended March 31, 2019. These matters were addressed in the context of our audit of the Consolidated Ind AS financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

We have determined the matters described below to be the key audit matters to be communicated in our report. We have fulfilled the responsibilities described in the Auditor's responsibilities for the audit of the Consolidated Ind AS financial statements section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the Consolidated Ind AS financial statements. The results of our audit procedures, including the procedures performed provide the basis for our audit opinion on the accompanying standalone Ind AS financial statements.

Other Information

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Annual report, but does not include the Consolidated Ind AS financial statements and our auditor's report thereon.

Our opinion on the Consolidated Ind AS financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Consolidated Ind AS financial statements, our responsibility is to read the other information and, in doing so, consider whether such other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's Responsibility for the Financial Statements

The Holding Company's Board of Directors is responsible for the preparation and presentation of these consolidated Ind AS financial statements in terms of the requirements of the Act that give a true and fair view of the consolidated financial position, consolidated financial performance including other comprehensive income, consolidated cash flows and consolidated statement of changes in equity of the Group in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended. The respective Board of Directors of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Group and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated Ind AS financial statements by the Board of Directors of the Holding Company, as aforesaid.

In preparing the consolidated financial statements, the respective Board of Directors of the companies included in the Group are responsible for assessing the ability of the Group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies included in the Group are also responsible for overseeing the financial reporting process of the each entity.

Auditor's Responsibility

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

1. Identify and assess the risks of material misstatement of the consolidated Ind AS financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
2. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Holding Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
3. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
4. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast

significant doubt on the ability of the Group to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated Ind AS financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.

5. Evaluate the overall presentation, structure and content of the consolidated Ind AS financial statements, including the disclosures, and whether the consolidated Ind AS financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
6. Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group of which we are the independent auditors and whose financial information we have audited, to express an opinion on the consolidated Ind AS financial statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities included in the consolidated financial statements of which we are the independent auditors. For the other entities included in the consolidated financial statements, which have been audited by other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

We communicate with those charged with governance of the Holding Company and such other entities included in the consolidated Ind AS financial statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated Ind AS financial statements for the financial year ended March 31, 2019 and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

THE ANNEXURE – “A” REFERRED TO IN OUR REPORT OF EVEN DATE TO THE MEMBERS OF TECHNOCRAFT INDUSTRIES (INDIA) LIMITED FOR THE YEAR ENDED 31ST MARCH, 2019. WE REPORT THAT:

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

In conjunction with our audit of the consolidated Ind AS financial statement of the Company as of and for the year ended March 31, 2019, We have audited the internal financial controls over financial reporting of **TECHNOCRAFT INDUSTRIES (INDIA) LIMITED** (“the Holding Company”) and its subsidiary companies which are incorporated in India, as of that date.

Management’s Responsibility for Internal Financial Controls

The respective Board of Directors of the Holding company and its subsidiary companies which are incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors’ Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Holding Company and its subsidiary companies which are incorporated in India, have, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2019, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.

Notes to the Consolidated Financial Statements for the Year Ended 31st March, 2019

1. Company Overview

Technocraft Industries (India) Limited (“the Company”), was incorporated on 28th October 1992, CIN L28120MH1992PLC069252. The company is a Public Limited company incorporated and domiciled in India and is having its registered office at Plot No-47, Opus Centre , 2nd floor , Opp Tunga Paradise Hotel , MIDC , Andheri (E), Mumbai -93, Maharashtra, India. The Company is listed on Bombay Stock Exchange (BSE) and National Stock Exchange (NSE) in India.

The Company and its subsidiaries & Joint Venture (collectively referred to as “the Group”) are well diversified having its business Interest in Drum Closures (2nd Largest in the World), Scaffolding & Formworks, Yarn, Fabrics & Garments ,Engineering & Design / Information Technology & Land development business. It has its own 15 MW Captive Thermal Power Plant.

Authorisation of Consolidated Financial Statements: The Consolidated Financial Statements were authorized for issue in accordance with a resolution of the Board of Directors in its meeting held on 28th May 2019.

2. Statement of Significant Accounting Policies:

2.1 Basis of preparation of Consolidated Financial Statements:

The Consolidated Financial Statements are prepared in accordance with Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 (“Act”) read with Companies (Indian Accounting Standards) Rules, 2015; (as amended) and the other relevant provisions of the Act and Rules thereunder.

The Consolidated Financial Statements have been prepared under historical cost convention basis, except for certain assets and liabilities measured at fair value (refer accounting policies for financial instruments).

2.2 Basis of Consolidation and Equity Accounting:

Subsidiary:

Subsidiaries include all the entities over which the Group has control. The Group controls an entity when the Group is exposed to, or has rights to, variable returns through its involvement in the entity and has the ability to affect those returns through its power to direct the relevant activities of the entity. Subsidiaries are consolidated from the date on which Group attains control and are deconsolidated from the date that control ceases to exist.

The Consolidated financial statements of the Group incorporate the assets, liabilities, equity, income, expenses and cash flows of the company and its subsidiaries and are presented as those of a single economic entity. The company has control of the subsidiaries as it has the rights to variable returns from its involvement and has the ability to affect those returns through its power over the subsidiaries.

The consolidated financial statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances. The consolidation procedures principally followed are:

- (a) Like items of assets, liabilities, equity, income, expenses and cash flows of the company and those of its subsidiaries are combined;
- (b) The carrying amount of the parent’s investment in each subsidiary and the parent’s portion of equity of each subsidiary are eliminated;
- (c) Intragroup assets and liabilities, equity, income, expense, and cash flows relating to transactions between entities of the Group are eliminated in full.

Goodwill is recognized when a change in the Group’s ownership interest, (or otherwise), results in the Group acquiring control over a Company

Changes in the Group’s ownership interests in subsidiaries that do not result in the Group losing control over the subsidiaries are accounted for as equity transactions.(i.e. transactions with owners in their capacity as owners)

Goodwill arising on consolidation is tested for impairment at each reporting date. If the recoverable amount of cash generating unit to which the goodwill is attributed is less than the carrying amount of the unit, an impairment loss is recognized, first to reduce the carrying amount of goodwill (and thereafter to the balance assets of the unit, pro rata to their carrying amounts).

Notes to the Consolidated Financial Statements for the Year Ended 31st March, 2019

Non-controlling interests are presented in the consolidated balance sheet within equity, separately from the equity of the owners of the Company. Total comprehensive income of subsidiaries is attributed to the owners and to the non-controlling interests (even if this results in the non-controlling interests having a deficit balance).

2.3 Business Combinations

The Group accounts for its business combinations under acquisition method of accounting. Acquisitions related costs are recognized in profit or loss as incurred. The acquiree's identifiable assets, liabilities and contingent liabilities that meet the condition for recognition are recognized as their fair values at the acquisition date except deferred tax assets or liabilities, and assets or liabilities related to employee benefit arrangements, which are recognized and measured in accordance with Ind AS 12- Income taxes and Ind AS 19- Employee Benefits, respectively.

Goodwill is measured as the excess of the sum of the consideration transferred, the amount of non-controlling interest in the acquiree, and the fair value of the acquirer's previously held equity instrument in the acquiree (if any) over the net of acquisition date fair value of identifiable assets acquired and liabilities assumed. Where the fair value of identifiable assets and liabilities exceed the cost of acquisition, after reassessing the fair values of the net assets and contingent liabilities, the excess is recognized as capital reserve.

The interest of non-controlling shareholders is initially measured either at fair value or at the non-controlling interest's proportionate share of the acquiree's identifiable net assets. The choice of measurement basis is made on an acquisition-by-acquisition basis.

2.4 Use of estimates:

The preparation of the financial statements in conformity with Ind AS requires management to make estimates and assumptions. These estimates and assumptions affect the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the period. Application of accounting policies that require critical accounting estimates involving complex and subjective judgments and the use of assumptions in these financial statements have been disclosed in Note. Accounting estimates could change from period to period. Actual results could differ from those estimates. Appropriate changes in estimates are made as management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the financial statements in the period in which changes are made and, if material, their effects are disclosed in the notes to the financial statements.

2.5 Fair Value Measurement:

Fair value is the price that would be received to sell an asset or settle a liability in an ordinary transaction between market participants at the measurement date. The fair value of an asset or a liability is measured using the assumption that market participants would use when pricing an asset or liability acting in their best economic interest. The Group used valuation techniques, which were appropriate in circumstances and for which sufficient data were available considering the expected loss/ profit in case of financial assets or liabilities

2.6 Revenue Recognition

Effective 1st April 2018, the Group has adopted Indian Accounting Standards 115 (Ind AS115) "Revenue from Contracts with Customers". There was no significant impact on the Group due to adoption of Ind AS-115.

The Group recognizes revenue when Control over the promised goods is transferred to the customer at an amount that reflects the Consideration to which the Group expects to be entitled in exchange for goods. The Group considers whether there are other promises in the Contract that are separate Performance obligations to which a portion of the transaction price needs to be allocated .

The Group recognizes revenue from the sale of goods net of returns and allowances, trade discounts and Volume rebates. If the revenue cannot be reliably measured, Group defers revenue recognition until the uncertainty is resolved .Such Provisions give rise to variable Consideration and are estimated at Contract inception and updated thereafter.

Notes to the Consolidated Financial Statements for the Year Ended 31st March, 2019

Revenue from Rendering of services is recognized as & when the Customer receives the benefit of the Group performance and the Group has an enforceable right to payment for services Performed.

Revenue from Land Development activities is recognized when Performance obligation is satisfied, Customers executes the sales agreement and a reasonable amount of Sales Consideration is received from the Customer. The cost incurred on real estate development activities are carried as “Finished Stock” under Inventories till such time the aforesaid Conditions are satisfied .

In respect of Short term advances from its customers, using the practical expedient in Ind AS-115, the Group does not adjust the Promised amount of Consideration for the effects of a significant financing component if it expects, at contract inception, that the period between the transfer of the Promised goods or services to the Customer and when the customer pays for that goods or services will be within the normal operating cycle ie one year.

Revenue is net of Goods & Service Tax Collected on behalf of the Government.

Contract Balances

Contract Asset

A contract asset is the right to consideration in exchange for goods or services transferred to the Customer. If the Group performs by transferring goods or services to a customer before the customer pays Consideration or before the payment is due, a contract asset is recognized for the earned consideration that is conditional.

Trade Receivables

A receivable represents the Group’s right to an amount of consideration that is unconditional (i.e. only the passage of time is required before the payment of the consideration is due).

Contract Liabilities

A Contract Liability is the obligation to transfer goods or services to a customer for which the Group has received consideration (or an amount of Consideration is due) from the Customer .If a customer pays consideration before the Group transfers goods or services to the customer, a contract Liability is recognized when the payment is made or the payment is due (whichever is earlier) .Contract Liabilities are recognized as revenue when the Group Performs under the Contract including Advances received from Customer .

Refund Liabilities

A refund liability is the obligation to refund some or all of the consideration received (or receivable) from the Customer and is measured at the amount the Group ultimately expects it will have to return to the Customer .The Group updates its estimates of refund Liabilities (and the corresponding change in the transaction price) at the end of each reporting period.

Other Income

Dividend Income is recognized when the right to receive the payment is established, which is generally when shareholders approve the dividend.

Interest Income on all debt instruments measured at amortized cost is recorded using the effective interest rate (EIR).

Other items of income are accounted as and when the right to receive such income arises and it is probable that the economic benefits will flow to the Group and the amount of the Income can be measured reliably.

2.7 Inventories

Inventories of Raw Materials, Finished Goods, Semi-Finished Goods, Trading Goods, Stores, Spares and other components, Packing Materials, Fuel and Oil are valued at cost or net realizable value, whichever is lower. Goods in transit are valued at cost or net realizable value, whichever is lower. Cost comprises of all cost of purchases, cost of conversion and other costs incurred in bringing the inventory to their present location and conditions. Cost is arrived at on FIFO basis. Due allowance is estimated and made for defective and obsolete items, wherever necessary.

Notes to the Consolidated Financial Statements for the Year Ended 31st March, 2019

If payment terms for inventory are on deferred basis i.e. beyond normal credit terms, then cost is determined by discounting the future cash flows at an interest rate determined with reference to the market rates. The difference between total cost and deemed cost is recognized as interest expense over the period of financing under the effective interest method.

The inventories resulting from intra-group transactions have been stated at cost after deducting unrealized profit on such transactions.

2.8 Property, Plant and Equipment (PPE):

Property, plant and equipment are stated at cost, net of accumulated depreciation and/or accumulated impairment losses, if any.

2.9 Capital Work in Progress

Cost of assets not ready for use at the balance sheet date is disclosed under capital work-in-progress. Expenditure during construction period is also included under Capital Work in Progress.

2.10 Intangible Assets

Intangible assets acquired are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less any accumulated amortization and accumulated impairment losses, if any.

2.11 Depreciation

Depreciation on Property, Plant and Equipment has been provided on the Written down Value method based on the useful life of the assets as prescribed in Schedule II to the Companies Act, 2013. Leasehold Land is amortized over the period of lease. Intangible assets are amortized on a straight line basis over the estimated useful economic life.

Depreciation methods, useful lives and residual values are reviewed at each reporting date.

When parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment. Subsequent expenditure relating to property, plant and equipment is capitalized only when it is probable that future economic benefits associated with these will flow and the cost of the item can be measured reliably. Repairs and maintenance costs are recognized in the statement of profit and loss when incurred. The cost and related accumulated depreciation are eliminated from the financial statements upon sale or disposition of the asset and the resultant gains or losses are recognized in the statement of profit and loss.

2.12 Investment Property

Investment property applies to owner-occupied property and is held to earn rentals or for capital appreciation or both. Hence such properties are reclassified from Property, Plant and Equipment to Investment property. Investment property is measured at its cost, including related transaction cost less depreciation and impairment, if any. Investment properties are depreciated using the written down value method over their estimated useful life. Any transfer to or from Investment property is done at the carrying amount of the Investment Property.

2.13 Government Subsidy

The Group recognizes government grants only when there is reasonable assurance that the conditions attached to them shall be complied with, and the grants will be received.

Government grants relating to the purchase of property, plant and equipment are treated as deferred income and are recognized in net profit in the statement of profit and loss on a systematic and rational basis over the useful life of the asset.

Government grants related to revenue are recognized on a systematic basis in net profit in the statement of profit and loss over the periods necessary to match them with the related costs which they are intended to compensate.

Notes to the Consolidated Financial Statements for the Year Ended 31st March, 2019

2.14 Borrowings

Borrowings are initially recognized at net of transaction Cost incurred and measured at amortized Cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognized in the statement of Profit & Loss over the period of borrowings using the effective Interest method.

2.15 Borrowing Cost

Interest and other borrowing cost attributable to qualifying assets are capitalized. Other interest and borrowing cost are charged to the statement of Profit & Loss.

2.16 Income Tax

Income tax expense comprises current tax expense and the net change in the deferred tax asset or liability during the year. Current and deferred tax are recognized in the statement of profit and loss, except when they relate to items that are recognized in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognized in other comprehensive income or directly in equity, respectively.

a) Current Tax

Current income tax for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authorities based on the taxable income for that period. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted by the balance sheet date.

b) Deferred tax

Deferred tax is recognized for the future tax consequences of deductible temporary differences between the carrying values of assets and liabilities and their respective tax bases at the reporting date, using the tax rates and laws that are enacted or substantively enacted as on reporting date.

Deferred tax assets are recognized to the extent that it is probable that future taxable income will be available against which the deductible temporary differences, unused tax losses and credits can be utilized.

2.17 Leases

Leases under which the Group assumes substantially all the risks and rewards of ownership are classified as finance leases. When acquired, such assets are capitalized at fair value or present value of the minimum lease payments at the inception of the lease, whichever is lower. Subsequent to initial recognition, minimum lease payments shall be apportioned between the finance charge and the reduction of the outstanding liability. The finance charge shall be allocated to each period during the lease term so as to produce a constant periodic rate of interest on the remaining balance of the liability. Contingent rents shall be charged as expenses in the periods in which they are incurred.

Leases in which significant portion of the risks and rewards of ownership are not transferred to the Group, as lessee are classified as operating leases. Lease Income from operating leases where the Group is a Lessor is recognized in income on straight –line basis over the lease term unless the receipts are structured to increase in line with expected general inflation to compensate for the expected inflationary cost increase.

2.18 Financial Assets

a) Initial recognition and measurement

All financial assets (not measured subsequently at fair value through profit or loss) are recognised initially at fair value plus transaction costs that are attributable to the acquisition of the financial asset.

b) Subsequent measurement

Subsequent measurement is determined with reference to the classification of the respective financial assets. The Group classifies financial assets as subsequently measured at amortised cost, fair value through other comprehensive income or fair value through profit or loss on the basis of its business model for managing the financial assets and the contractual cash flow characteristics of the financial asset.

Notes to the Consolidated Financial Statements for the Year Ended 31st March, 2019

(i) Debt instruments at amortised cost

A 'debt instrument' is measured at the amortised cost if both the following conditions are met:

- The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in the Statement of Profit & Loss. The losses arising from impairment are recognised in the Statement of Profit & Loss.

(ii) Debt instruments at Fair value through Other Comprehensive Income (FVOCI)

A 'debt instrument' is measured at the fair value through other comprehensive income if both the following conditions are met:

- The asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets
- Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, these assets are subsequently measured at fair value. Interest income under effective interest method, foreign exchange gains and losses and impairment are recognised in the Statement of Profit & Loss. Other net gains and losses are recognised in other comprehensive Income.

(iii) Debt instruments at Fair value through profit or loss (FVTPL)

Fair value through profit or loss is a residual category for debt instruments. Any debt instrument, which does not meet the criteria for categorization as at amortised cost or as FVOCI, is classified as at FVTPL.

(iv) Equity investments

All equity investments in scope of Ind-AS 109 are measured at fair value. Equity instruments which are held for trading are classified as at FVTPL. For all other equity instruments, the Group decides to classify the same either as at FVOCI or FVTPL. The Group makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable.

For equity instruments classified as FVOCI, all fair value changes on the instrument, excluding dividends, are recognized in other comprehensive income (OCI).

Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the Statement of Profit & Loss.

c) De recognition

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognized (i.e. removed from the Group's Balance Sheet) when:

- The rights to receive cash flows from the asset have expired, or
- The Group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either:
 - The Group has transferred substantially all the risks and rewards of the asset, or
 - The Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

Notes to the Consolidated Financial Statements for the Year Ended 31st March, 2019

d) Impairment of financial assets

The Group measures the expected credit loss associated with its assets based on historical trend, industry practices and the Business environment in which the entity operates or any other appropriate basis. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

e) Income Recognition

Interest Income from debt instruments is recognised using the effective interest rate method.

2.19 Financial Liabilities

a) Initial recognition and measurement

All financial liabilities are recognized initially at fair value net of transaction costs that are attributable to the respective liabilities.

b) Subsequent measurement

Subsequent measurement is determined with reference to the classification of the respective financial liabilities. The measurement of financial liabilities depends on their classification as described below

(i) Financial Liabilities at fair value through profit or loss (FVTPL)

A financial liability is classified as at fair value through profit or loss if it is classified as held-for-trading or is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and changes therein, including any interest expense, are recognised in Statement of Profit & Loss.

(ii) Financial Liabilities measured at amortised cost

After initial recognition, financial liabilities other than those which are classified as fair value through profit or loss are subsequently measured at amortised cost using the effective interest rate method ("EIR").

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the Statement of Profit & Loss.

c) De recognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the de-recognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the Statement of Profit & Loss.

2.20 Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, or to realise the assets and settle the liabilities simultaneously.

2.21 Fair Value of financial instruments

In determining the fair value of its financial instruments, the Group uses following hierarchy and assumptions that are based on market conditions and risks existing at each reporting date.

Fair Value hierarchy:

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- ▶ Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities

Notes to the Consolidated Financial Statements for the Year Ended 31st March, 2019

- ▶ Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- ▶ Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

2.22 Cash and cash Equivalents:

The Group considers all highly liquid financial instruments, which are readily convertible into known amounts of cash and that are subject to an insignificant risk of change in value and having original maturities of three months or less from the date of purchase, to be cash equivalents.

Cash and cash equivalents comprise cash at banks and on hand and demand deposits with banks with an original maturity of three months or less.

2.23 Employee Benefits

➤ Short-term employee benefit

Short term employee benefits are recognized as an expense at an undiscounted amount in the Statement of Profit & Loss of the year in which the related services are rendered.

➤ Post-employment benefits

The Group's net obligation in respect of defined benefit plans such as gratuity is calculated separately for each plan by estimating the amount of future benefit that the employees have earned in the current and prior periods, discounting that amount and deducting the fair value of any plan assets.

The calculation of defined benefit obligation is performed at each reporting period end by a qualified actuary using the projected unit credit method.

The current service cost of the defined benefit plan, recognized in the Statement of Profit & Loss as part of employee benefit expense, reflects the increase in the defined benefit obligation resulting from employee service in the current year, benefit changes, curtailments and settlements. Past service costs are recognized immediately in the Statement of Profit & Loss. The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expense in the Statement of Profit & Loss.

Re-measurements which comprise of actuarial gains and losses, the return on plan assets (excluding net interest) and the effect of the asset ceiling (if any, excluding net interest), are recognized immediately in other comprehensive income.

➤ Other long-term employee benefits

Liability towards other long term employee benefits - leave encashment is determined on actuarial valuation by qualified actuary by using Projected Unit Credit method.

The current service cost of other long terms employee benefits, recognized in the Statement of Profit & Loss as part of employee benefit expense, reflects the increase in the obligation resulting from employee service in the current year, benefit changes, curtailments and settlements. Past service costs are recognized immediately in the Statement of Profit & Loss. The interest cost is calculated by applying the discount rate to the balance of the obligation. This cost is included in employee benefit expense in the Statement of Profit & Loss. Re-measurements are recognised in the Statement of Profit & Loss.

2.24 Foreign Currency Transactions:

The presentation currency of the Group is Indian Rupee. Transactions in foreign currency are accounted for at the exchange rate prevailing on the transaction date. Gain /losses arising on settlement as also on translation of

Notes to the Consolidated Financial Statements for the Year Ended 31st March, 2019

monetary items are recognized in the Statement of Profit and Loss.

Exchange differences arising on monetary items that, in substance, form part of the Group's net investment in a foreign operation (having a functional currency other than Indian Rupee) are accumulated in foreign currency translation reserve.

For the preparation of the consolidated financial statements:

- (a) Assets and liabilities of foreign operations are translated to Indian Rupees at exchange rates prevailing at the reporting period end;
- (b) Income and expense items are translated at the average exchange rates prevailing during the period; when exchange rates fluctuate significantly, the rates prevailing on the transaction date are used instead.

Differences arising on such translations are accumulated in foreign currency translation reserve and attributed to non-controlling interests proportionately.

On the disposal of a foreign operation, all of the exchange differences accumulated in equity in respect of that operation, attributable to the owners of the Group is reclassified to the Statement of Profit and Loss. In relation to a partial disposal, that does not result in losing control over the subsidiary, the proportionate exchange differences accumulated in equity is reclassified to the Statement of Profit and Loss.

2.25 Impairment of Non-Financial assets

The Group assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Group estimates the asset's recoverable amount. An assets recoverable amount is the higher of an asset's CGU'S fair value less cost of disposal and its value in use. It is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or Companies of assets. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples, or other fair value indicators.

2.26 Provisions

Provisions are recognized when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of economic benefits will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation.

Provisions are not discounted to present value and are determined based on best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates.

2.27 Contingent Liabilities

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Group or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The Group does not recognize a contingent liability but discloses its existence in the financial statements.

2.28 Earnings per share

The basic earnings per share is computed by dividing the net profit attributable to equity shareholders for the period by the weighted average number of equity shares outstanding during the period.

The number of shares used in computing diluted earnings per share comprises the weighted average shares considered for deriving basic earnings per share, and also the weighted average number of equity shares which could be issued on the conversion of all dilutive potential equity shares.

2.29 Classification of Assets and Liabilities as Current and Non-Current

All assets and liabilities are classified as current or non-current as per the Group's normal operating cycle (determined at 12 months) and other criteria set out in Schedule III of the Act.

2.30 Cash Flows

Cash flows are reported using the indirect method, where by net profit before tax is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities are segregated.

2.31 Operating Segments

Operating segments are reported in a manner consistent with the internal reporting provided to Chief Operating Decision Maker (CODM).

2.32 Recent accounting pronouncements:

On 30th March 2019, the Ministry of Corporate Affairs (MCA) has notified Ind AS 116 Leases, under Companies (Indian Accounting Standards) Amendment Rules, 2019 which is applicable with effect from 1st April, 2019.

Ind AS 116 sets out the principles for the recognition, measurement, presentation and disclosure of leases for both parties to a contract i.e., the lessee and the lessor. Ind AS 116 introduces a single lease accounting model for lessee and requires the lessee to recognize "right of use assets" and lease liabilities for all leases with a term of more than twelve months, unless the underlying asset is of low value in nature. Currently, operating lease expenses are charged to the statement of profit and loss. Ind AS 116 substantially carries forward the lessor accounting requirements in Ind AS 17.

As per Ind AS 116, the lessee needs to recognise depreciation on rights of use assets and finance costs on lease liabilities in the statement of profit and loss. The lease payments made by the lessee under the lease arrangement will be adjusted against the lease liabilities.

The Group is currently evaluating the requirement of the amendment & its impact on the Financial Statements.

2.33 Significant accounting judgments, estimates and assumptions:

The preparation of financial statements requires the use of accounting estimates which, by definition, will seldom equal the actual results. Management also needs to exercise judgment in applying the group accounting policies.

The estimates and judgments involves a higher degree of judgment or complexity, and of items which are more likely to be materially adjusted due to estimates and assumptions turning out to be different than those originally assessed. Detailed information about each of these estimates and judgments is included in relevant notes.

Critical estimates and judgments

The areas involving critical estimates or judgments are

- o Estimation of current tax expenses and payable
- o Estimated useful life of Intangible assets
- o Estimation of defined benefit obligation
- o Estimation of Provisions and Contingencies

Particulars	As at 31st March, 2019	As at 31st March, 2018
Investment Properties	9,936.91	7,851.02

Estimation of Fair value :

The above valuation of the Investment Properties (except for Investment Property located at UAE) are in accordance with the Ready Reckoner rates as prescribed by the Government of Maharashtra for the Purpose of levying Stamp Duty. Since the valuation is based on the Published Ready Reckoner rates , the Group has classified the same under level -2. In case of Investment Property situated at UAE, the management is of the Opinion that, in absence of Comparable market prices , the fair value of Investment properties cannot be reasonably determined but are considered to be atleast equal to their carrying Values. The Investment Property situated at UAE is registered in the name of the directors and is held in trust for and on behalf of the Group.

Note 30 : Segment Reporting

Ind AS 108 establishes standards for the way that public business enterprises report information about operating segments and related disclosures about products and services, geographic areas, and major customers. Based on the management approach as defined in Ind AS 108, the chief operating decision maker (CODM) evaluates the group performance and allocates resources based on an analysis of various performance indicators by business segment and geographic segment. Accordingly, information has been presented both along business segment and geographic segment. The accounting principle used in the preparation of financial statements are consistently applied to record revenue and expenditure in individual segments, and are as set out in the significant accounting policies.

The Group has identified Drum Closures, Scaffoldings, Yarn, Fabric, Power, Engineering & Design / IT & Others as primary business segments of the Group.

Notes to the Consolidated Financial Statements for the Year Ended 31st March, 2019

The above business segments have been identified considering :

- i) The nature of the product
- ii) The deferring risk and returns
- iii) The internal financial reporting systems

The Geographical Segments considered for Disclosure are as Follows

- a) Revenue within India includes Revenue from Sales of Products (including Scrap) & Services to Customers Located within India and earnings in India.
- b) Revenue outside India includes Revenue from Sales of Products & Services to Customers Located outside India and earnings outside India and export Incentive benefits.

Revenue and expenses have been accounted for based on the basis of their relationship to the operating activities of the segment. Revenue and expenses, which relate to the Group as a whole and are not allocable to segments on a reasonable basis, have been included under "Unallocable" Inter segment transfer, are accounted for at competitive market prices, charged to unaffiliated customer for similar goods.

Assumptions

With the objective of presenting the plan assets and plan liabilities of the defined benefits plans at their fair value on the balance sheet, assumptions under Ind AS 19 are set by reference to market conditions at the valuation date.

The significant actuarial assumptions were as follows:

Financial Assumptions	2018-19		2017-18	
	Funded	Unfunded	Funded	Unfunded
Discount Rate (%)	7.65%	7.80%	7.60%	7.70%
Salary Escalation/ Inflation (%)	5.00%	5.00%	5.00%	5.00%
Withdrawal rates	2% at younger ages reducing to 1% at older ages	2% at younger ages reducing to 1% at older ages	2% at younger ages reducing to 1% at older ages	2% at younger ages reducing to 1% at older ages

Demographic Assumptions

Mortality in service : Indian Assured Lives Mortality (2006-08)

Sensitivity analysis

Sensitivity analysis for each significant actuarial assumption as stated above, showing how the defined benefit obligation would be affected, considering increase/decrease as at 31.03.2019 and 31.03.2018 is as below:

Particulars	Increase/Decrease in liability		Increase/Decrease in liability	
	2018-19		2017-18	
	Funded	Unfunded	Funded	Unfunded
Discounting rate varied by 0.5%				
+ 0.5%	1,656.31	110.61	1,442.53	89.15
- 0.5%	1,783.78	126.82	1,552.12	102.46
Salary growth rate varied by 0.5%				
+ 0.5%	1,784.97	127.01	1,553.29	102.62
- 0.5%	1,654.73	110.38	1,441.02	88.97

The sensitivity analyses above have been determined based on reasonably possible changes of the respective assumptions occurring at the end of the reporting period and may not be representative of the actual change. It is based on a change in the key assumption while holding all other assumptions constant. When calculating the sensitivity to the assumption, the same method used to calculate the liability recognised in the balance sheet has been applied. The methods and types of assumptions used in preparing the sensitivity analysis did not change compared with the previous period.

The expected future cash flows as at 31st March 2019 & as at 31st March 2018 were as follows:

Note 33: Fair Value Measurements

A. Financial instruments by category and fair value hierarchy :

The following table shows the carrying amounts and fair values of financial assets and financial liabilities, including their levels in the fair value hierarchy. It does not include fair value information for financial assets and financial liabilities not measured at fair value if the carrying amount is a reasonable approximation of fair value.

Level 1 - Quoted prices (unadjusted) in active markets for identical assets or liabilities

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3 - Inputs for the assets or liabilities that are not based on observable market data (unobservable inputs)

B. Measurement of fair values

The following methods and assumptions were used to estimate the fair values of financial instruments :

- i) The management assessed that fair value of cash and cash equivalents, trade receivables, trade payables, bank overdrafts and other current financial assets and liabilities approximate their carrying amounts largely due to the short-term maturities of these instruments.
- ii) The fair values of the Equity/ Mutual Fund investment which are quoted, are derived from quoted market prices in active markets. The investment measured at fair value and falling under fair value hierarchy Level 3 are valued on the basis of valuation report provided by external valuers with the exception of certain investments, where cost has been considered as an appropriate estimate of fair value because of a wide range of possible fair value measurements and cost represents the best estimate of fair values within that range. The carrying value of those investments are individually immaterial.

Note 34 : Financial Risk Management

Risk management framework

The Group activities expose it to a variety of financial risks, including market risk, credit risk and liquidity risk. The Group primary risk management focus is to minimize potential adverse effects of all the risk on its financial performance. The Board of Directors and Senior Management of the Group are responsible for overseeing the Group risk assessment and management policies and processes.

The Group has exposure to the following risks arising from financial instruments:

- Credit risk ;
- Market risk ; and
- Liquidity risk

1. Credit Risk

The Credit risk arises from the possibility that the counter party may not be able to settle their obligations as agreed. To manage this, the Group periodically assess financial reliability of customers, taking into account the financial condition, current economic trends, and analysis of historical bad debts and ageing of accounts receivable. Individual risk limits are set and periodically reviewed on the basis of such Information .

Financial assets are written off when there is no reasonable expectations of recovery, such as a debtor failing to engage in a repayment plan with the group. The Group categorises a trade receivable for write off when a debtor fails to make contractual payments or on case to case basis. Where trade receivables have been written off, the group continues to engage in enforcement activity to attempt to recover the receivable due. Where recoveries are made, these are recognized as Income in the statement of profit or loss.

The Group measures loss rate for trade receivables from Individual customers based on the historical trend, industry practices and the business environment in which the entity operates .Loss rates are based on Past Trends . Based on the historical data , no probable loss on collection of receivable is anticipated & hence no provision is considered.

In case of Credit risks from balances with banks and financial institutions , the Group attempts to limit the credit risk by only dealing with reputable banks and financial institutions having high credit-ratings assigned by credit-rating agencies.

In addition, the Group is exposed to credit risk in relation to financial guarantees given to banks and other counterparties. The Group's maximum exposure in this respect is the maximum amount that the Group would have to pay if the guarantee is called upon. The maximum exposure relating to financial guarantees is disclosed in Note 28 (Contingent Liability)
