Chairman's Statement

Dear Members,

I feel greatly privileged to welcome you to the 36th Annual General Meeting of your company and hope that all of you and your family members are doing well. The Annual Report together with the Audited Accounts and Board's Report for the Financial Year ended 31st March, 2021 are with you. I am sure you must have gone through them in detail. With your permission, I take them as read and hope that it gives you a clear insight of the working of the Company during the year under review.

Due to restrictions in movement and assembly of people and as a measure of safety and precaution, I am not able to address you in person and are holding this meeting through virtual means. I am glad to see you all joining us in the meeting through the platform provided by the Company for this Annual General Meeting.

Global Economy

Global prospects remain highly uncertain one year into the pandemic. New Virus mutations and the accumulating human toll raise concerns though the growing vaccine coverage and vaccination drives and researches to combat the Covid-19 have to some extent helped in lifting positive sentiments. Economic recoveries are diverging across countries and sectors, depending on the policy support and variation in pandemic induced disruptions. The outlook depends on not just the battle between vaccine and virus but how effectively economic policies are deployed under these high uncertain times to limit the lasting damage from this unprecedented crisis.

As per IMF report, the global growth is projected at 6% in 2021, moderating to 4.4% in 2022. The projections for 2021 and 2022 are stronger than that in the October 2020. The upward revision reflects additional fiscal support in a few large economies, the anticipated vaccine-powered recovery in

the second half of 2021, and continued adaptation of economic activity to subdued mobility. A high degree of uncertainty surrounds these projections, with many possible upside and downside risks. Greater progress with vaccinations can uplift the forecast while new virus variants that evade vaccines may have a downside impact.

Indian Economy

India's Gross Domestic Product (GDP) contracted 7.3% in 2020-21, marginally better than 8% contraction in the economy as projected. GDP growth in 2019-20, prior to Covid-19 pandemic,

was 4%. The IMF, in its April edition, predicted an impressive 12.5% growth rate for India in 2021, stronger than that of China, the only major economy to have positive growth rate last year during the Covid-19 pandemic. As per its reports the Indian economy is expected to grow by 6.9% in 2022.

However, in view of recent jump in Covid-19 cases in India, IMF is expected to revisit the forecast in July, posing a downside risk to its earlier forecast.

Scenario in Kkalpana Industries (India) Limited

Your company mainly caters to wires and cables, packaging, footwear and consumer durables. However, nearly all the manufacturing units, to which your company supplies its goods, have incurred precipitous contraction in production and consequently, your company's topline has also been moderately impacted in the financial year under review i.e. 2020-21. However, because of your company's high grade Research and Development (R&D) and All India Marketing Network and that the Board had factored in the risk portfolios projected to be faced by your company, necessary steps were taken to safeguard the topline and bottomline, considerably.

The company's net revenue for the year ended 31st March, 2021 stood at Rs. 1549.99 Crores

as against Rs. 1762.21 Crores for the Financial Year 2019-20. Profit after tax, for the year under review, stands at Rs. 22.41 Crores, as against Rs. 30.64 Crores in the previous financial year. The Company's EPS is Rs. 2.38 as against Rs. 3.26 in the previous financial year.

Your Directors have recommended dividend of 10% per equity share of Rs. 2/- each for the Financial Year ended 31st March, 2021. The total outgo will be Rs. 188.15 lacs (approximately).

Acknowledgements

At the outset, I would like to extend my heartfelt gratitude to the Colleagues and associates operating from all our manufacturing Units, offices and other ancillary fabrication facilities who have been relentlessly working to ensure smooth and uninterrupted operations and serve the customers, vendors and all stakeholders with utmost efficiency, in spite of the challenging times. As we continue to embark on our transformation journey, I wish to express my heartfelt gratitude to the members of the Board for providing continuous support and guidance to maintain the highest standards

of Corporate Governance and professionalism in running the day to day business of your company. I also place on record my appreciation to regulatory/statutory bodies, banks and financial institutions. My special thanks goes to you, dear members, for reposing your trust in the company and helping it to shape it is an institution of great stability. I also thank our various customers and suppliers, based at various parts of the country.

I take this opportunity to salute the spirit of the Government authorities who have not left any stone unturned in fighting this Pandemic and are carrying out one of the biggest vaccine inoculation across the country. We, as a Country, hope to come out of the pandemic and expect normalcy to resume soon.

Thankyou.

With Best Regards,

Narrindra Suranna

Necessary Newspaper publications to this effect are also being made, requesting members to update their E-mail ID to enable receipt of Annual Report 2020-21.
16. Members, holding shares in physical mode are requested to notify the change in their name/address / mandate/ bank account/ nominations/ e-mail address/ contact/Power of Attorney etc to the Registrar & Share Transfer Agent of the Company ("RTA"), M/s. CB Management Services (P) Limited, P-22, Bondel Road, Kolkata – 700 019,. Members holding shares in demat form, are requested to intimate any change in their address and/or bank mandate to their Depository Participant(s). The Company cannot act on any request received directly from members holding shares in demat form, for any change in their particulars.
17. Members are requested to address all correspondences, including those on dividends, to the Registrar and Share Transfer Agents, as mentioned above.
18. The Securities and Exchange Board of India (SEBI) has mandated the submission of Permanent Account Number (PAN) by every participant in securities market. Members holding shares in electronic form are, therefore, requested to submit the PAN details to their Depository Participants with whom

they are maintaining their demat accounts. Members holding shares in physical form can submit their PAN details to the Company's Registrar and Share Transfer Agents, M/s. CB Management Services Pvt. Limited.

19. Dividend for the financial year ended 31st March, 2014, which remains unpaid or unclaimed, will be due for transfer to Investors' Education and Protection Fund of the Central Government ('IEPF') on 01st November, 2021, pursuant to the provisions of Section 125 of the Companies Act, 2013 corresponding to Section 205C of the erstwhile Companies Act, 1956. In respect of the said dividend, it will not be possible to entertain claims received by the Company after 31st October, 2021.

Members, who are yet to encash their dividend warrants for the financial year 2013-14 or any subsequent financial year(s), are requested to correspond/ lodge their claims with the Company's Registrar & Share Transfer Agents without delay. The details of dividend unclaimed by the members for the past years which have not yet been transferred to the Central Government are readily available for view by the members on the website of the Company (www.kkalpanagroup.com), as also on the website of the Ministry of Corporate Affairs through <http://iepf.gov.in/IEPFWebProject/SearchInvestorAction.do?method=gotoSearchInvestor>. Further, the members are advised to glance through the database and lodge their claim for dividend, which has remained unclaimed, with the Company's Registrar and Share Transfer Agents.

The Ministry of Corporate Affairs has notified provisions relating to unpaid / unclaimed dividend under Sections 124 and 125 of Companies, Act, 2013 and Investor Education and Protection Fund (Accounting, Audit, Transfer and Refund) Rules, 2016 (including amendments from time to time). As per these, members are requested to note that dividends that are not encashed/claimed within seven years from the date of transfer to the Company's Unpaid Dividend Account, will as per Section 124 of the Act, be transferred to Investor Education and Protection Fund (IEPF). Shares on which dividend remains unpaid/ unclaimed for seven consecutive years will be transferred to demat account of IEPF Authority as per section 124 of the Act, and applicable rules, notifications, if any (as amended from time to time). Hence the Company urges all the shareholders to encash/claim their respective dividend during the prescribed period. The shareholders whose dividend/ shares are transferred to the IEPF Authority can claim their shares from the Authority by following the Refund Procedure as detailed on the website of IEPF Authority <http://iepf.gov.in/IEPFA/refund.html> and by following the procedure as prescribed under the IEPF Authority (Accounting, Audit, Transfer and Refunds) Rules, 2016, as amended from time to time.

20. In accordance with the aforesaid IEPF Rules, the Company will send notice to all shareholders whose shares are due to be transferred to the IEPF Authority and also publish newspaper advertisement, in this regard. The said details will also be made available on the website of the Company at www.kkalpanagroup.com/investor-relations/news. Intimation in regard to newspaper publication will also be submitted to the stock exchanges and be available at the website of BSE at www.bseindia.com and that of Calcutta Stock Exchange at www.cse-india.com. The Company is required to transfer all shares, as above, to demat account of the IEPF Authority, in accordance with IEPF Rules as and when notified.
21. As per the provisions of Section 72 of the Companies Act, 2013, facility for making nomination is available for the Members in respect of the shares held by them. Nomination forms can be obtained from the Company's Registrars and Share Transfer Agents, by Members holding shares in physical form. Members holding shares in electronic form, may obtain Nomination forms from their respective Depository Participant.
22. As per the amendment made to Regulation 40 of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 by SEBI Circular No. SEBI/LAD-NRO/GN/2018/24 dated 8th June, 2018, read with press release (2018 PR No. 49/2018) dated 03.12.2018, it is mandated, w.e.f. 1st April, 2019, that except in case of transmission or transposition of securities, requests for effecting transfer of securities shall not be processed unless the securities are held in the dematerialized form with a depository. Further, as per SEBI Circular No. SEBI/HO/MIRSD/DOP1/CIR/P/2018/73 dated April 20, 2018, the Shareholders, who are still holding shares in physical form are requested to take immediate

action to demat their shares to avail easy liquidity and to update their Bank details with the Company to enable direct credit of dividends, if any declared, as per SEBI Regulations.

23. Members holding shares in physical form, in identical order of names, in more than one folio are requested to send to the RTA/Company, the details of such folios together with the share certificates for consolidating their holding in one folio. A consolidated share certificate will be issued to such member after making requisite changes.
24. The Dividend, as recommended by the Board of Directors, if declared at the Annual General Meeting will be credited/dispached between 02nd October, 2021 to 26th October, 2021 to those members or to those mandates :-
- Whose name appear as Beneficial Owners as at the end of 20th September, 2021 in the statements of beneficial owner furnished by National Securities Depository Limited (NSDL) and Central Depository Services (India) Limited (CDSL), in respect of shares held in electronic form and
 - Whose names appear as Members in Register of Members of the Company, after giving effect to all valid share transfers/transmissions in physical form lodged with the Company/ RTA on or before the 20th September, 2021.

It may be noted that in view of the changes made under the Income Tax Act, 1961, by the Finance Act, 2020, dividends paid or distributed by the Company shall be taxable in the hands of the shareholders. Your company shall accordingly make the payments of Dividend after deducting Tax at Source.

25. SEBI vide its Circular No. SEBI/HO/MIRSD/DOP1/CIR/P/2018/73 dated 20th April, 2018 has mandated that for making dividend payments, companies whose securities are listed on the stock exchanges shall use electronic clearing services (local, regional or national), direct credit, real time gross settlement, national electronic funds transfer etc. The Company and its Registrar and Share Transfer Agent are required to seek relevant bank details of members from depositories/ investors for making payment of dividends in electronic mode. Further, pursuant to MCA General Circular 20/2020 dated 5th May, 2020, companies are directed to credit the dividend of the members directly to the bank accounts of the members using Electronic Clearing Service. Accordingly, members are requested to provide or update (as the case may be) their bank details with the respective depository participants for the shares held in dematerialized form and with the Registrar & Share Transfer Agent in respect of shares held in physical form. In case of non availability or non-updation of bank account details of the shareholders, the Company shall ensure payment of dividend to such member post normalization of postal services in the Country, vide dispatch of dividend warrant/ cheque, as the case may be.

The company is required, under provisions of Section 148 of the Companies Act, 2013 (“the Act”) read with the Companies (Cost Records and Audit) Rules, 2014 (“the Rules”), as amended from time to time, to have the audit of its Cost Records conducted by a Practicing Cost Accountant or a firm of Cost Accountants. Further, in accordance with the provisions of Section 148 of the Act read with the Rules, the remuneration payable to the Cost Auditor has to be ratified by the members of the Company.

The Board of Directors of the Company, on the recommendation of the Audit Committee, at their respective meeting held on 31st May, 2021, has approved the appointment of M/s D. Sabyasachi & Co (Firm Registration No. 000369), Cost Accountants, as the Cost Auditor to conduct the audit of the cost records of the Company for the financial year 2021-22, at a remuneration of Rs. 30,000/- plus taxes, as applicable, and out of pocket expenses incurred in connection with the Cost Audit.

Accordingly, the consent of the members is sought by way of an Ordinary Resolution as set out at Special Business under Item No. 4 of the accompanying Notice convening the Annual General Meeting, for ratification of remuneration amounting to Rs. 30,000/- plus taxes, as applicable, and out of pocket expenses, incurred in connection with the Cost Audit, payable to the Cost Auditors for the financial year ending 31st March, 2022.

In view of complying with the requirements of Section 148 of the Act and the Rules, thereunder, the appointment of Cost Auditor for the Financial Year 2021-22, being a special business is unavoidable in nature. The Board of Directors accordingly, commends the ordinary resolution set out at Item No. 4 of the accompanying Notice convening the Annual General Meeting for ratification by the members.

None of the Directors or Key Managerial Personnels of the Company and their respective relatives are, in any way, concerned or interested, financially or otherwise in the resolution.

Item No.5

On recommendation of Nomination and Remuneration Committee, at its meeting held on 13th February, 2021, the Board of Directors of the Company, at its meeting held on 13th February, 2021, approved re-appointment of Mr. Rajesh Kumar Kothari (DIN – 02168932), aged about 57 years, as Whole- Time-Director of the Company for a period of 5 (Five) years with effect from 12th August, 2021, on the following main terms and conditions:

1. The appointment shall be for a period of 5 (Five) years commencing from 12th August, 2021 as Whole - Time Director.
2. Mr. Rajesh Kumar Kothari will be liable to retire by rotation while he continues as a Whole Time Director of the Company.
3. As Whole time Director, Mr. Rajesh Kumar Kothari shall perform such duties and exercise such powers as may be entrusted to him, from time to time, by the Managing Director and /or the Board of Directors.
4. In consideration of the performance of his duties to the Company, Mr. Kothari shall be entitled to the following remuneration:
 - A. Remuneration:
Salary of Rs. 40,00,000/- (Rupees Forty Lakhs only) per annum.
 - B. Perquisites:
 - I. One month’s salary as Ex-gratia per year.
 - II. One month’s paid leave per year, which may be encashable in part or in full, as per the Company Rules.
 - C. Gratuity:
As per Company Rules.

D. Yearly Increment

Such increment as recommended by Nomination and Remuneration Committee and approved by the Board of Directors

5. Minimum Remuneration:

Notwithstanding anything herein contained, where in any financial year during the continuance of the tenure of office of the Whole-Time Director the Company has no profits or its profits are inadequate, the Company will pay remuneration by way of salary and perquisites, as specified above, as minimum remuneration, subject to the ceiling specified in Schedule V to the Companies Act, 2013 or any amendments thereto.

6. Within the overall ceiling on managerial remuneration prescribed under the Companies Act, 2013, or any statutory modification or re-enactment thereof, the Board of Directors (hereinafter referred to as the "Board" which term shall include any Committee thereof and/or any person authorized by the Board of Directors in this regard) shall in accordance within the statutory limits/ approvals as may be applicable for the time being in force, be at full liberty to add, alter/ revise/modify/amend/change or vary any of the foregoing terms and conditions of the appointment and remuneration, benefits or perquisites, from time to time to which Mr. Rajesh Kumar Kothari may be entitled and as may be agreed to by the Board of Directors and Mr. Rajesh Kumar Kothari.

Mr. Kothari (aged about 57 years) has been associated with the Company since 1997 and has over 29 years' experience in areas of marketing, after sale service and market research. COVID-19 Impact

The World Health Organization declared a global pandemic of the coronavirus disease (Covid-19) on 11th February, 2020. The impact of the disease is being felt in India, as well. Due to lockdown and restrictions announced by State/Central Governments, the company had to keep its operations closed for most part of the month of April, 2020 and could, in phased manner, begin its operations from last week of April, 2020 onwards, in compliance with guidelines issued by respective authorities and is continuing to take adequate precautions for safety and wellbeing of its employees/ workers at all levels.

Intermittent lockdowns in the month of July, 2020 adversely affected the demand in several product segments. The severity of intermittent lockdown started to reduce from August 2020 onwards, however, in the last 10 days just before the close of FY 2020-21, the business again witnessed tough situation due to the onset of Second Wave of Covid-19. Most parts of the country were again put under lockdown/ restrictive measures which had an impact on the business of the Company. We expect the Business situation to resume normalcy by July, 2021.

While the pandemic is expected to have negative impact on the financial performance of company in the current year, the situation in the country still remains uncertain and, therefore, it is difficult to quantify the magnitude, and duration of such impact at this stage. However, preliminary estimates, based on sales trend in the past weeks and through interaction with your company's customers, indicate possibly sizeable reduction in turnover & profitability in respect of the financial year 2021-22, if another wave of Covid-19 hits the country. The company's focus on liquidity, supported by strong balance sheet & cost optimization initiatives would help the company in navigating near term challenges in the demand environment.

Your Directors are of the firm view that your company will be able to retrieve the loss in sales revenue within shortest possible time, maybe, within 2021-22, itself. They do not feel that the ongoing liquidity crisis will have such a negative effect that it will ultimately incarcerate the very survival of your company.

Industrial Scenario

The year 2020-2021 was very challenging, particularly, because world economic scenario was affected by Covid-19 pandemic. The second wave of Covid-19 which has hit India in the early period of Financial Year 2021-22 and also affected other countries is expected to affect the world economy. Further, the impact of Covid-19 on the world economy will also have impact on the domestic economy.

Operations and State of Company's Affairs

During the year under review, your Company achieved total revenue of Rs. 1,549.99 Crores as against total revenue of Rs. 1762.21 Crores in the previous financial year. The Profit after Tax is Rs. 22.41 Crores as against Rs. 30.64 Crores in the previous year.

Future Prospects

Your directors feel that your company's Research and Development, which is of a very high standard, will enable your company to make inroads in new markets, both domestic and international from 2021-22. The Company's outlook is very optimistic considering that Indian economy is eyeing "V" shaped recovery. The Make in India/ Atmanirbhar Bharat initiative supported by Production Linked Incentives will help several sectors to grow sustainably to whom the Company is serving. Company is confident about its growth trajectory in time to come as it has several products in pipeline, eyeing new geographies and new customers supported by consistent strong financial ratios.

Share Capital

There is no change in the Share Capital of the Company. As on 31st March, 2021, the paid up equity share capital of the company stood at Rs. 1881.46 lacs divided into 94072930 equity shares of face value Rs. 2/- each.

Transfer to General Reserve

The Board of Directors decided to retain the entire amount of profits for 2020-21 in the retained earnings.

Transfer of Amount to Investor Education and Protection Fund

Dividend for the financial year ended 31st March, 2014, which remains unpaid or unclaimed for a period of seven years, will be due for transfer to Investor Education and Protection Fund (IEPF) on 01st November, 2021. Members who have not yet encashed their dividend warrants for the financial year ended 31st March, 2014 or any subsequent financial years, are requested to lodge their claims without any delay.

Pursuant to the provisions of the Investor Education and Protection Fund (Uploading of information regarding unpaid and unclaimed amounts lying with companies) Rules, 2012, the Company has already filed the necessary form and uploaded the details of unpaid and unclaimed amounts lying with the Company, as on the date of last AGM (i.e.29.09.2020), with the Ministry of Corporate Affairs.

The related data is available on the Company's website.

Fixed Deposits

Your Company has not accepted any deposits from public and /or members during the year under review, within the meaning of Section 73 of the Companies Act, 2013 read with the Companies (Acceptance of Deposit) Rules, 2014 and accordingly as of 31st March, 2021, there were no unpaid fixed deposits with the Company.

Credit Rating

CRISIL has reaffirmed, vide its letter dated 21st December, 2020, the Credit Rating of A- (Long Term Rating) and A2+ (Short Term Rating) given to the company.

Research and Development

Your Company recognizes that Research & Development (“R&D”) plays a vital role in supporting operations as well as future growth. Your Company focuses its attention on development of Products that have wide industrial applications, particularly in cable, piping, packaging and footwear industries. Through R&D, it endeavors to increase production, lower cost of production and lower wastage.

Risks and Concerns:

Risk factor is ingratiated to all business activities of all companies, though in varying degrees and forms. As far as your company is concerned, it has an approved risk management policy by the Board of Directors. Risk evaluation and its management is ongoing process within your company and is periodically reviewed by the Board of Directors of your company.

The main risks of your company are as under:

Business risks

Your company has to face intense competition from unorganized sector pertaining to plastic compounds. Further, the raw material prices remain volatile. It is very difficult to estimate the near future raw material cost.

Technology risks

Quality up gradation and product obsolescence risks are intertwined with your company's business management. However, the high standard of in-house research and development fortifies the technological risks to some extent.

Financial risks

The Company's policy is to actively manage its foreign exchange risk. The company actively manages the interest rate risk by adopting suitable strategies to minimize the impact of interest rate fluctuations, including maintain optimal balance of different loan types and maturities

Credit Risks

The Company sells their products by extending credit to customers, with the attendant risk of payment delays and defaults. To mitigate the risk, appropriate measures like periodic review and rigorous follow-up are put in place for timely collection of dues from the customer. Credit availability and exposure is another area of risk. However all exports and domestic sales of the Company are covered under receivable insurance Policy which further mitigate the risk.

Liquidity Risks

The Company realizes that its ability to meet its obligations to its suppliers and others is linked to timely and regular collection of receivables and maintaining a healthy credit rating. Review of working capital constituents like inventory of raw materials, finished goods and receivables are done regularly by the respective Divisions and closely monitored by Corporate Finance

Risk Management Policy

Your company has an elaborate risk Management procedure and adopted a systematic approach to mitigate risk associated with accomplishments of objectives, operations, revenues and regulations. The Board takes responsibility for the overall process of risk management throughout the organization. In terms of requirement of the Companies Act, 2013, the Company has developed and implemented the Risk Management Policy and the Audit Committee of the Board reviews the same periodically. The company considers activities at all levels of the Organization viz. Enterprise level, Division level, Business Unit Level and Subsidiary level in risk management framework. Risk management process of the Company focuses on three elements viz. 1) Risk Assessment 2) Risk Management and 3) Risk Monitoring. The Company's business units and corporate functions address risk through an institutionalized approach aligned to Company's objective. This is further facilitated by Internal Audit which is reviewed by the Board and Audit Committee of the Company. The key risks and mitigating actions are reviewed and significant audit observations and follow up actions thereon are reported to the Audit Committee and Board.

Significant and material orders passed by the regulators

During the year under review, no significant and material orders were passed by the regulators or courts or tribunals impacting the going concern status and the company's operations. As mentioned earlier the company has filed an application with National Company Law Tribunal for proposed Scheme of Arrangement relating to Demerger of its Compounding Business and vesting the same with M/s Ddev Plastiks Industries Limited, the Resulting Company.

MANAGEMENT DISCUSSION AND ANALYSIS REPORT

GLOBAL OVERVIEW:

In the year 2020, lives and livelihoods both faced dire threat due to world wide spread of Covid-19 infections. Economic wheel came to a standstill due to imposition of strict lockdowns in most parts of the world and could resume activity only after some period of total shut down. Economic activity picked up some pace in the second and third quarter, however, different mutations of Covid-19 again caused surge in infections as second and third waves resulting in disruption of economic activity. As a result global economy contracted 3.5% in 2020.

With introduction of aggressive vaccination programs and financial stimulus packages by various Governments, the global economy is expected to grow at 6% in 2021 and 4.4% in 2022. However, global economic prospects continue to remain uncertain. As per the World Bank, the global economic output is recovering from the downturn triggered by Covid-19 but it will remain below pre-pandemic trends for a prolonged period. A well-coordinated response to the pandemic will shape the future of the global economy for years to come.

INDIAN ECONOMY

India was no exception and national lockdown was announced in March, 2020 leading to disruption of economic activity. The economic activity resumed with slow pace from second quarter of FY 2020-21 with a V shaped recovery. The Indian GDP, after a steep fall of 24.4% and 7.3% in Q1 and Q2 of FY 2020-21 respectively, has shown recovery with 0.4% growth in Q3. Based on this recovery trend, the GDP for 2021 is estimated to be contracting by 8% which is a clear outcome of the efforts undertaken in minimizing the impact of Covid-19 on the economy.

Just when everyone was thinking of return of economic activity to its pre-covid levels, the second wave of the Covid-19 pandemic has struck India with unforeseen fury, compelling many State Governments to impose strict lockdown like restrictions thus expecting to adversely affect rebounding economic activity. With the prediction of repeated waves and still a vast population pending to be vaccinated the misery of repeated economic disruptions and slowdowns is expected. The extent of economic loss will primarily depend on how fast the chain of infections can be broken and how India manages to contain this with mass vaccination efforts. The economic outlook therefore is difficult to assess, however with the aggressive vaccination of Indian population and with various stimulus packages being announced by Indian Government we are hopeful of significant economic growth in FY 2021-22.

Industry Overview

Kkalpana Industries (India) Limited ("KKIL") mainly caters to cable and wire companies, packaging, footwear, pipes, automobiles, consumer durables, electrical appliances, electricals and light fittings and electronics.

The COVID-19 pandemic has reemphasized the indispensable role of plastics in our daily life. Plastics in terms of personal protective equipment (PPEs) and other single-use medical equipment along with packaging solutions owing to their inherent properties have emerged as a life-savior for protecting the health and safety of the frontline health workers and the common citizens during the pandemic. This has resulted in plastics industry being affected to a lesser degree as compared to other sectors. Many plastic manufacturing units were operating as essential commodity even in the period of lockdown in various parts of the world supplying utmost important personal protective equipment, face marks, face shields etc. for protection of world population.

Industry Structure and Developments

Indian plastic Industry has over 50,000 plastic processing units employing more than 50 Lacs people across the Country. Almost 80% to 90% of the total manufacturing units are in small & medium scale sector. The Industry is very fragmented and majority of the manufacturers are from unorganized sector and very few are from organized sector. Plastic industry consumes around seventy five percent of the petrochemicals production, which is quite significant.

The revival process post pandemic one in a way, tested the fundamentals of all businesses particularly the supply chain system, the ability to ramp up production amidst restrictions, efficient working capital management, and the inherent strength of the distribution network

India exported plastics worth US\$ 237.16 million in January 2021, and the export during April 2020 to January 2021 was US\$ 2.76 billion. The total plastic and linoleum export during April 2020 to February 2021 was US\$ 6.73 billion and for the month of February 2021, it was US\$ 630.94 million.

Company's Performance:

Critical financial figures for 2020-21 are as under:-

- f) Return on Equity (RoE)- 6% in FY 2020-21 (It was 9% in FY 2019-20)

Future Outlook

Indian plastic consumption remain at 13 kg which is one tenth that of what is consumed by per person in developed Countries and there is huge potential for growth. Various Government initiatives like Atmanirbhar Bharat, Make in India, Pradhan Matri Krishi Sinchayee Yojana, Smart City Project, establishment of plastic parks, Production Linked Incentive are expected to boost demand in plastics Industry. Government has prioritized the sector and import duty on naphtha has been reduced from 4.00 % to 2.5% in order to

make Indian exporters more competitive in global market. All these Industry friendly policy measures, tax subvention will promote fresh investments and boost new capacities in the near future.

SWOT Analysis

Strength

- Capability of large scale operation allowing economies of scale of production. The company caters to cable and wire companies, packaging, footwear, pipes, automobiles, consumer durables, electrical appliances, electricals and light fittings and electronics.
- Geographical spread of operation in India allows movement of finished goods at the customers' place, quickly with lower cost of transportation.
- Strong financial base
- Proper mix of workforce (skilled, semiskilled and diversified)

Weakness

- The main weakness will flow from deceleration in Indian Economy
- The supply chain will definitely affect the production line

Threat

- Borrowing from Bank will be difficult because of mounting NPAs (Non Performing Assets) of Banks
- Unorganised Sectors will also eat into the demand segment of the Company

Opportunities

- The ongoing trade conflicts among major countries may be a boon for developing country like India and especially KKIL
- KKIL has established digital technology as a lever to enhance efficiency and productivity. This will expand the profit margins

REPORT ON CORPORATE GOVERNANCE

1. COMPANY'S PHILOSOPHY ON CORPORATE GOVERNANCE:

Corporate Governance refers to a set of laws, regulations and good practices that enable an organization to perform efficiently and ethically generate long term wealth and create value for all its stakeholders. It provides structure to set the objectives, the means to attain them and monitor the performance. It is a commitment to the business ethics and values and not limited to compliances and transparency. Since Large Corporations employ a vast quantum of societal resources, Kkalpana believes that the governance process should ensure that these resources are utilized in a manner that meets stakeholders' aspirations and societal expectations.

Corporate Governance helps to serve corporate purpose by providing a framework within which stakeholders can pursue the objectives of the organization most effectively. Corporate governance signifies acceptance by management of the inalienable rights of shareholders as the true owners of the organization and of their own role as trustees on behalf of the shareholders.

Performance Evaluation Criteria

The Company believes in conducting its business affairs in a fair and transparent manner; giving highest regard to good Corporate Governance practices and ensuring transparency, accountability and equity across all facets of operation and in all interactions with Stakeholders.

The Nomination and Remuneration Committee had laid down the evaluation criteria for performance evaluation of every director including Independent director and the Board pursuant to the Corporate Governance norms prescribed by the Companies Act, 2013 and SEBI Listing Regulations.

Remuneration Policy:

Nomination and Remuneration Committee recommends the remuneration for the Executive Directors, key managerial personnel and other employees. The recommendation is then approved by the Board and Shareholders. The remuneration paid to Executive Directors is determined keeping in view the industry benchmark, the relative performance of the Company to the industry performance. Independent Non-Executive Directors are appointed for their professional expertise in their individual capacity as individual Professionals/ Business Executives. Since Independent Non-Executive Directors receive only sitting fees for attending Board and Committee Meetings, therefore, no criteria for making payments, other than sitting fees, is determined. No performance linked incentives or fixed components are paid to Non Executive Directors of the Company.

The Non-Executive Directors of the Company have a crucial role to play in the independent functioning of the Board. They bring in an external and wider perspective to the deliberations and decision-making by the Board. The Independent Directors devote their valuable time to discussions in the course of the Board and Committee meetings of the Company. They also help to ensure good corporate governance norms.

The responsibilities and obligations imposed on the Non- Executive Directors have recently increased manifold owing to new legislative initiatives. Contribution of the Non-Executive Directors in Board and Committee Meetings, time devoted by them, participation in strategic decision making, performance of the Company and industry practices and benchmarks forms the main criteria for determining payments to Non- Executive Directors.

The remuneration of the Non- Executive Directors (NEDs) of the Company is decided by the Board of Directors. The Non- Executive Directors of the Company are being paid sitting fees of Rs. 10000 /- for attending each meeting of Board and Committees of Directors and General Meeting (excluding Court

Convened Meeting, if any). Besides sitting fees, the Non Executive Directors of the company were not paid any other remuneration or commission.

The Company pays remuneration to its Managing Director and Whole Time Directors by way of salary, perquisites and allowances, based on the recommendation of the Committee, approval of the Board and shareholders. The Board, on the recommendation of the Nomination and Remuneration Committee, approves the annual increments (effective from 1st April each year).

INDEPENDENT AUDITOR'S REPORT

TO THE MEMBERS OF KKALPANA INDUSTRIES (INDIA) LIMITED

Report on the Audit of Standalone Financial Statements

Opinion

We have audited the accompanying standalone financial statements of **KKALPANA INDUSTRIES (INDIA) LIMITED** ("the Company"), which comprise the Balance Sheet as at 31st March, 2021, the Statement of Profit and Loss (including Other Comprehensive Income), the Cash Flow Statement and the Statement of Changes in Equity for the year then ended, and a summary of the significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 (the Act) in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at 31st March 2021, its profits (including other comprehensive income), changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the standalone financial statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significant in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key Audit Matters	Auditor's Response
<p>Inventory- existence and valuation</p> <p>Refer to note 12 to the standalone financial statements. The Company is having the Inventories of Rs 22,864.13 lacs as on 31st March 2021. As described in the accounting policies in note 3.12 to the standalone financial statements, inventories are carried at the lower of cost and net realisable value. As a result, the management applies judgement in determining the appropriate provisions for obsolete stock based upon a detailed analysis of old inventory, net realisable value below cost based upon future plans for sale of inventory.</p>	<p>Audit Procedures Performed</p> <p>We have obtained assurance over the appropriateness of the management's assumptions applied in calculating the value of the inventories and related provisions and management assertion regarding existence and ownership by:-</p> <p>Completed a walkthrough of the inventory valuation process and assessed the design and implementation of the key controls addressing the risk.</p>

Key Audit Matters	Auditor's Response
<p>Revenue Recognition</p> <p>Revenue from the sale of goods is recognized at the moment when control has been transferred to the customer and is measured net of trade discounts, rebates and pricing allowances to customers (collectively 'trade spends'). There is a risk that revenue may be overstated because of pressure local management may feel to achieve performance targets. Revenue is also an important element of how the company measures its performance, upon which management is incentivized.</p>	<p>Performing procedures to ensure that the changes in inventory between the last verification date and date of the balance sheet are properly recorded (Roll forward procedures).</p> <p>Verifying for a sample of individual products that costs have been correctly recorded.</p> <p>Identified and assessed a sample of aged and obsolete inventory.</p> <p>We also analysed the level of slow-moving inventory and the associated provision.</p> <p>We have reviewed the historical accuracy of inventory provisioning and the level of inventory write-offs during the financial year.</p> <p>Comparing the net realisable value to the cost price of inventories to check for completeness of the associated provision.</p> <p>Performing substantive analytical procedures to test the correctness of inventory existence and valuation.</p> <p>Testing the accuracy of inventory reconciliations with the general ledger at period end, including test of reconciling items.</p> <p>The procedures performed gave us a sufficient evidence to conclude about the inventory existence and valuation.</p> <p>Our audit procedures included:</p> <ul style="list-style-type: none"> • We assessed the appropriateness of the revenue recognition accounting policies by comparing with applicable accounting standards. • We evaluated the design, tested the implementation and operating effectiveness of key internal controls including general IT controls and key IT application controls over recognition of revenue. • We performed substantive testing by selecting samples of revenue transactions recorded during the year by testing the underlying documents which included invoices, good dispatch notes, customer acceptances and shipping documents (as applicable). • We carried out analytical procedures on revenue recognised during the year to identify unusual variances. • We tested, on a sample basis, specific revenue transactions recorded before and after the financial year end date to determine whether the revenue had been recognised in the appropriate financial period. • We tested manual journal entries posted to revenue to identify unusual items.

Information Other than the Standalone Financial Statements and Auditor's report thereon

The Company's Board of Directors is responsible for the preparation of other information. The Other

information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to the Board report, Business responsibility Report, Corporate Governance report and Shareholder's information, but does not include the standalone financial statement and our auditor's report thereon.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and those charged with Governance for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance (including other comprehensive income), changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the accounting Standards specified under section 133 of the Act.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists.

Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial control relevant to the audit in order to design audit

procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial control system in place and the operating effectiveness of such controls.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of Management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the entity's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the entity to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the standalone financial statements that individually or in aggregate makes it probable that the economic decisions of a reasonably knowledgeable user of the standalone financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) Planning the scope of our audit work and in evaluating the results of our work and (ii) To evaluate the effect of any identified misstatements in the standalone financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2016 ("the Order") issued by the Central Government of India in terms of Section 143(11) of the Act, we give in "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order.
2. As required by Section 143(3) of the Act, based on our audit, we report, to the extent applicable that:
 - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - c) The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, the Cash Flow Statement and Statement of Changes in Equity dealt with by this Report are in agreement with the relevant books of account.
 - d) In our opinion, the aforesaid standalone financial statements comply with the Indian Accounting Standards prescribed under section 133 of the Act read with Rule 7 of the Companies (Accounts) Rules, 2014

- e) On the basis of the written representations received from the directors as on 31st March, 2021 taken on record by the Board of Directors, none of the directors is disqualified as on 31st March, 2021 from being appointed as a director in terms of Section 164(2) of the Act.
- f) With respect to the adequacy of the internal financial controls with reference to financial statements of the Company and the operating effectiveness of such controls refer to our separate Report in "Annexure B". Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls with reference to financial statements of the Company.
- g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended:
In our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Company to its directors during the year is in accordance with the provisions of section 197 of the Act.
- h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended, in our opinion and to the best of our information and according to the explanations given to us:
- i. The Company has disclosed the impact of pending litigations on its financial position in its standalone financial statements.
 - ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.
 - iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company.

ANNEXURE - B TO THE INDEPENDENT AUDITOR'S REPORT

ANNEXURE "B" REFERRED TO IN PARAGRAPH 2(F) UNDER "REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS" SECTION OF OUR REPORT TO THE MEMBERS OF THE KKALPANA INDUSTRIES (INDIA) LIMITED OF EVEN DATE:

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **KKALPANA INDUSTRIES (INDIA) LIMITED ("the Company")** as of 31st March 2021 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

MANAGEMENT'S RESPONSIBILITY FOR INTERNAL FINANCIAL CONTROLS

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

AUDITOR'S RESPONSIBILITY

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

MEANING OF INTERNAL FINANCIAL CONTROLS OVER FINANCIAL REPORTING

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that:

- (1) Pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and

- (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

INHERENT LIMITATIONS OF INTERNAL FINANCIAL CONTROLS OVER FINANCIAL REPORTING

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

OPINION

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March 2021, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Notes to the financial statements for the year ended 31st March, 2021

1. COMPANY INFORMATION

Kkalpana Industries (India) Limited ("the Company") was incorporated in India on 03rd of September 1985. The Company is domiciled in India whose shares are listed on the Bombay Stock Exchange (BSE) and Calcutta Stock Exchange (CSE). The registered office is located at 2B Pretoria Street, Kolkata. The Company is engaged in the manufacturing of Plastic Compounds Exporters.

The financial statements of the Company for the year ended 31st March, 2021 were authorised for issue in accordance with a resolution of the Board of Directors as on 31.05.2021

2. BASIS OF PREPARATION OF FINANCIAL STATEMENTS

2.1 Statement of Compliance

These financial statements have been prepared in accordance with the Indian Accounting Standards (hereinafter referred to as the 'Ind AS') as notified by Ministry of Corporate affairs pursuant to section 133 of the Companies Act, 2013 read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and Companies (Indian Accounting Standards) Amendment Rules, 2016.

The financial statements have been prepared on accrual and going concern basis. The accounting policies are applied consistently to all the periods presented in the financial statements.

All Assets and Liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria as set out in the Division II of Schedule III to the Companies Act, 2013. Based on the nature of products and the time between acquisition of assets for processing and their realisation in cash and cash equivalents, the Company has ascertained its operating cycle as 12 months for the purpose of current or non-current classification of assets and liabilities.

All amounts disclosed in the financial statements and notes have been rounded off to the nearest lakhs as per the requirement of Schedule III, unless otherwise stated.

2.2 Basis of Measurement

The financial statements have been prepared on a historical cost basis (which includes deemed cost as per Ind AS 101), except for the following assets and liabilities which have been measured at fair value:

- (i) Derivative financial instruments
- (ii) Certain financial assets and liabilities measured at fair value (refer accounting policy regarding financial instruments).
- (iii) Defined benefits plans - Plan assets measured at fair value

2.3 Key Accounting Estimates And Judgements

The preparation of financial statements requires management to make judgments, estimates and assumptions in the application of accounting policies that affect the reported amounts of assets and liabilities, disclosures of contingent assets and liabilities at the date of financial statements and reported amount of revenue and expenses during the period. Actual results may differ from these estimates. Continuous evaluation is done on the estimation and judgments based on historical experience and other factors, including expectations of future events that are believed to be reasonable. Revisions to accounting estimates are recognised prospectively.

Information about critical judgments in applying accounting policies, as well as estimates and assumptions that have the most significant effect to the carrying amounts of assets and liabilities within the next financial year, are included in the following notes below :-

(i) Estimation of employee defined benefit obligations

Ind AS 19 requires the exercise of judgment in relation to various assumptions including future pay rises, inflation and discount rates and employee and pensioner demographics. The Company determines the assumptions in conjunction with its actuaries, and believes these assumptions to be in line with best practice, but the application of different assumptions could have a significant effect on the amounts reflected in the income statement, other comprehensive income and balance sheet. There may be also interdependency between some of the assumptions.

Notes to the Financial Statements for the year ended 31st March, 2021

(ii) Estimation of current tax expenses

Significant judgments are involved in determining the provision for income taxes, including amount expected to be paid/recovered for uncertain tax positions. In assessing the realizability of deferred income tax assets, management considers whether some portion or all of the deferred income tax assets will not be realized. The ultimate realization of deferred income tax assets is dependent upon the generation of future taxable income during the periods in which the temporary differences become deductible.

Management considers the scheduled reversals of deferred income tax liabilities, projected future taxable income and tax planning strategies in making this assessment. Based on the level of historical taxable income and projections for future taxable income over the periods in which the deferred income tax assets are deductible, management believes that the company will realize the benefits of those deductible differences. The amount of the deferred income tax assets considered realizable, however, could be reduced in the near term if estimates of future taxable income during the carry forward period are reduced.

(iii) Property, plant and equipment

Property, plant and equipment represent a significant proportion of the asset base of the Company. The charge in respect of periodic depreciation is derived after determining an estimate of an asset's expected useful life and the expected residual value at the end of its life. The useful lives and residual values of Company's assets are determined by the management at the time the asset is acquired and reviewed periodically, including at each financial year end. The lives are based on historical experience with similar assets as well as anticipation of future events, which may impact their life, such as changes in technology.

(iv) Leases

Ind AS 116 requires lessees to determine the lease term as the non-cancellable period of a lease adjusted with any option to extend or terminate the lease, if the use of such option is reasonably certain. The Company makes an assessment on the expected lease term on a lease-by-lease basis and thereby assesses whether it is reasonably certain that any options to extend or terminate the contract will be exercised. In evaluating the lease term, the Company considers factors such as any significant leasehold improvements undertaken over the lease term, costs relating to the termination of the lease and the importance of the underlying asset to Company operations taking into account the location of the underlying asset and the availability of suitable alternatives. The lease term in future periods is reassessed to ensure that the lease term reflects the current economic circumstances. After considering current and future economic conditions, the Company has concluded that no changes are required to lease period relating to the existing lease contracts.

(v) Allowance for credit losses on receivable

The Company determines the allowance for credit losses based on historical loss experience adjusted to reflect current and estimated future economic conditions. The Company considered current and anticipated future economic conditions relating to industries the company deals with and the countries where it operates. In calculating expected credit loss, the Company has also considered credit reports and other related credit information for its customers to estimate the probability of default in future and has taken into account estimates of possible effect from the pandemic relating to COVID -19.

3. SIGNIFICANT ACCOUNTING POLICIES

3.1 Revenue Recognition

The Company recognizes revenue, whenever control over distinct goods or services is transferred to the customer; i.e. when the customer is able to direct the use of the transferred goods or services and obtains substantially all of the remaining benefits, provided a contract with enforceable rights and obligations exists and amongst others collectability of consideration is probable taking into account customer's creditworthiness.

Revenue is the transaction price the Company expects to be entitled to. In determining the transaction price, the Company considers effects of variable consideration, the existence of significant financing contracts, noncash consideration and consideration payable to the customer, if any. The Company considers whether there are other promises in the contract that are separate performance obligations to which the transaction price needs to be allocated (e.g. warranties etc.).

Variable Consideration

If the consideration in a contract includes a variable amount, the company estimates the amount of consideration to which it will be entitled to in exchange for transferring goods to the customer. The variable consideration is estimated at contract inception and constrained until it is highly probable that a significant reversal of revenue will not occur once associated uncertainties are resolved. Some contracts with the customers provide them with a right to return and volume rebates. The right to return and volume rebates gives rise to variable consideration.

Notes to the Financial Statements for the year ended 31st March, 2021

The amount of variable consideration is calculated by either using the expected value or the most likely amount depending on which is expected to better predict the amount of variable consideration. Consideration is also adjusted for the time value of money if the period between the transfer of goods or services and the receipt of payment exceeds twelve months and there is a significant financing benefit either to the customer or the Company. If a contract contains more than one distinct good or service, the transaction price is allocated to each performance obligation based on relative stand-alone selling prices. If stand-alone selling prices are not observable, the Company reasonably estimates those.

Revenue is recognized for each performance obligation either at a point in time or over time.

Sale of goods: Revenues are recognized at a point in time when control of the goods passes to the buyer, usually upon either at the time of dispatch or delivery. Revenue from sale of goods is net of taxes and recovery of charges collected from customers like transport, packing etc.

Contract balances:

Trade Receivables:

A receivable represents the Company's right to an amount of consideration that is unconditional (i.e. only a passage of time is required before payment of the consideration is due).

Contract liabilities:

A contract liability is the obligation to transfer goods or services to a customer for which the company has received consideration (or an amount of consideration is due) from the customer. If a customer pays consideration before the company transfer goods and services to the customer, a contract liability is recognised when the payment is made or the payment is due, whichever is earlier. Contract liabilities are recognised as revenue when the company performs under the contract.

Interest Income

Interest income is recognised using the effective interest rate, which is the rate that exactly discounts the estimated future cash payments or receipts through the expected life of the financial instrument or a shorter period, where appropriate, to the net carrying amount of the financial asset.

Dividend Income

Revenue is recognised when the right to receive the payment is established by the reporting date.

Other Claims / Receipts

Insurance claims and other receipts including export incentives, where quantum of accruals cannot be ascertained with reasonable certainty, these receipts are accounted on receipt basis.

Commission Income

When the Company Acts in the capacity of an agent rather than as the principal in a transaction the revenue recognised is the net amount of the commission earned by the Company.

3.2 Property, Plant and Equipment

Property, Plant and Equipment are stated at cost net of accumulated depreciation and accumulated impairment losses, if any. Cost comprises purchase price including import duties and other non-refundable duties and taxes, borrowing cost if capitalization criteria are met and other directly attributable cost for bringing the Assets to its present location and condition.

The cost of replacing part of an item of Property, Plant and Equipment is recognised in the carrying amount of the item only when it is probable that future economic benefits embodied within the part will flow to the Company and the cost of the item/part can be measured reliably. All other repairs and maintenance are charged to the Statement of Profit and Loss during the period in which they are incurred.

When parts of an item of Property, Plant and Equipment have different useful lives, they are accounted for as separate items (major components) of Property, Plant and Equipment.

Gains or losses arising on retirement or disposal of Property, Plant and Equipment are recognised in the Statement of Profit and Loss.

Property, Plant and Equipment which are not ready for intended use as on the date of Balance sheet are disclosed as "Capital Work-in-progress".

Notes to the Financial Statements for the year ended 31st March, 2021

Items of Property, Plant and Equipment acquired through exchange of non-monetary assets are measured at fair value, unless the exchange transaction lacks commercial substance or the fair value of either the asset received or asset given up is not reliably measurable, in which case the asset exchanged is recorded at the carrying amount of the asset given up.

The Assets which are held for Sale shall be reclassified to Current Assets only if its carrying amount will be recovered principally through a sale transaction (within one year) rather than through continuing use.

Depreciation and Ammortization:-

Depreciation is provided on a pro-rata basis on the straight line method based on estimated useful life prescribed in Part - C under Schedule II to the Companies Act, 2013.

Particulars	Years
Factory Building	30
Plant & Machinery	25
Electrical Installation	10
Lab Equipments	10
Furniture and Fixtures	10
Motor Car	8
Air Conditioner	15
Scooter, Moped and Cycle	10
Office Equipment	5
Computer	3

Useful life of Plant and Machinery has been considered 25 years as against 15 years as prescribed in Shedule II of the Companies Act, 2013 which is based on the prevailing practices of the comparable industries and our past experience for last 30 years.

3.3 Intangible Assets :

Separately purchased intangible assets are initially measured at cost. Subsequently, intangible assets are carried at cost less any accumulated amortisation and accumulated impairment losses, if any. The useful lives of intangible assets are assessed as either finite or indefinite. Finite-life intangible assets are amortised on a straight-line basis over the period of their expected useful lives.

The Intangible Assets are derecognised either when they are being disposed off or no future economic benefit is expected from its use or disposal, the difference net disposal proceeds and the carrying amount of Assets is recognised in the statement of Profit and Loss in the period of dereognition.

Intangible assets are amortised as follows:

Technical Know How and Computer Software is ammortized over a period of 10 years except SAP, a new Enterprise Resource Planning (ERP) System which has been implemented and ammortised during the year.

3.4 Non Current Assets held for Sale

Non-current assets or disposal groups comprising assets and liabilities are classified as 'held for sale' when all of the following criteria are met : (i) decision has been made to sell. (ii) the assets are available for immediate sale in its present condition (iii) the assets are being actively marketed and (iv) sale has been agreed or is expected to be concluded within 12 months of the Balance Sheet date.

Subsequently, such non-current assets and disposal groups classified as held for sale are measured at the lower of its carrying value and fair value less costs to sell. Non-current assets held for sale are not depreciated or amortised.

3.5 Investment Property

Investment Property comprises Free-Hold Lands that are held for Capital Appreciation as it has been held for a currently undetermined future use and are recognised at cost.

An Investment Property are derecognised either when they are disposed off or when they are permanently withdrawn from use and no future economic benefit is expected. The difference between the net disposal proceeds and the carrying amount of the asset is recognised in statement of profit and loss in the period of derecognition.

Notes to the Financial Statements for the year ended 31st March, 2021

3.6 Lease

The Company as a lessee

The Company's lease asset classes primarily consist of leases for buildings, machineries and warehouses. The Company assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether:

- (i) the contract involves the use of an identified asset
- (ii) the Company has substantially all of the economic benefits from use of the asset through the period of the lease and
- (iii) the Company has the right to direct the use of the asset.

At the date of commencement of the lease, the Company recognizes a right-of-use asset ("ROU") and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term leases) and low value leases. For these short-term and low value leases, the Company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease.

Certain lease arrangements includes the options to extend or terminate the lease before the end of the lease term. ROU assets and lease liabilities includes these options when it is reasonably certain that they will be exercised.

The right-of-use assets are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses.

Right-of-use assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset. Right of use assets are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.

The lease liability is initially measured at amortized cost at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates in the country of domicile of these leases. Lease liabilities are remeasured with a corresponding adjustment to the related right of use asset if the Company changes its assessment if whether it will exercise an extension or a termination option.

Lease liability and ROU asset have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows.

3.7 Impairment of non-financial assets

As at each balance sheet date, the Company assesses whether there is an indication that an asset may be impaired and also whether there is an indication of reversal of impairment loss recognised in the previous periods. If any indication exists, or when annual impairment testing for an asset is required, if any, the Company determines the recoverable amount and impairment loss is recognised when the carrying amount of an asset exceeds its recoverable amount.

Recoverable amount is determined:-

- a) In the case of an individual asset, at the higher of the fair value less cost to sell and the value in use ; and
- b) In the case of cash generating unit (a group of asset that generates identified, independent cash flow), at the higher of the cash generating unit's fair value less cost to sell and the value in use.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discounting rate that reflect the current market assessment of the time value of the money and the risk specific to the asset. In determining fair value less cost of disposal, recent market transaction is taken into account. If no such transaction can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples, quoted share prices for publicly traded companies or other available fair value indicators.

Notes to the Financial Statements for the year ended 31st March, 2021

3.8 Financial Instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

A) Financial Assets

Initial Recognition and measurement of Financial Assets

All financial assets are recognised initially at fair value plus or minus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset.

Financial assets are classified, at initial recognition, in the same manner as described in subsequent measurement.

Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognised on the trade date, i.e. the date the Company commits to purchase or sell the asset

Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in four categories:

- (a) Financial assets at amortised cost
- (b) Financial assets at fair value through other comprehensive income (FVTOCI)
- (c) Financial assets at fair value through profit or loss (FVTPL)
- (d) Equity instruments measured at fair value through other comprehensive income (FVTOCI)

(a) Financial assets at amortised cost

A financial asset that meets the following two conditions is measured at amortised cost (net of any write down for impairment) unless the asset is designated at fair value through profit or loss under the fair value option.

i) Business model test : The objective of the Company's business model is to hold the financial asset to collect the contractual cash flows (rather than to sell the instrument prior to its contractual maturity to realize its fair value changes).

ii) Cash flow characteristics test : The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in the profit or loss. The losses arising from impairment are recognised in the profit or loss.

Effective Interest Rate (EIR) method is a method of calculating the amortised cost of a debt instrument and of allocating interest income over the relevant period. The effective rate is the rate that exactly discounts estimated future cash receipts (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the debt instrument or where appropriate, a shorter period to the net carrying amount on initial recognition

(b) Financial assets at fair value through other comprehensive income (FVTOCI)

A financial asset that meets the following two conditions is measured at fair value through other comprehensive income unless the asset is designated at fair value through profit or loss under the fair value option.

i) Business model test : The financial asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets.

ii) Cash flow characteristics test : The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Notes to the Financial Statements for the year ended 31st March, 2021

(c) Financial assets at fair value through profit or loss (FVTPL)

FVTPL is a residual category for financial assets. Any financial asset, which does not meet the criteria for categorization as at amortized cost or as FVTOCI, is classified as at FVTPL.

In addition, the Company may elect to designate a financial asset, which otherwise meets amortized cost or FVTOCI criteria, as at FVTPL. However, such election is allowed only if doing so reduces or eliminates a measurement or recognition inconsistency (referred to as 'accounting mismatch') that would otherwise arise from measuring financial assets and financial liabilities or recognising the gains or losses on them on different bases.

Financial assets included within the FVTPL category are measured at fair value with all changes recognized in the statement of profit and loss.

(d) Equity instruments measured at fair value through other comprehensive income (FVTOCI)

Equity instruments which are held for trading are classified as at FVTPL. For all other equity instruments, the Company may make an irrevocable election to present in other comprehensive income subsequent changes in the fair value. The Company makes such election on an instrument by instrument basis. The classification is made on initial recognition and is irrevocable.

If an equity investment is not held for trading, an irrevocable election is made at initial recognition to measure it at fair value through other comprehensive income with only dividend income recognised in the statement of profit and loss.

If the Company decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from other comprehensive income to statement of profit and loss, even on sale of investment. However, the Company may transfer the cumulative gain or loss within equity.

Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the statement of profit and loss.

Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised (i.e. removed from the Company's financial statement) when:

The rights to receive cash flows from the asset have expired, or

The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either:

(i) the Company has transferred substantially all the risks and rewards of the asset, or

(ii) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Company has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Company continues to recognise the transferred asset to the extent of the Company's continuing involvement. In that case, the Company also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Company could be required to repay.

Write Off

An entity shall directly reduce the gross carrying amount of a Financial Asset when the entity has no reasonable expectation of recovering a financial asset in its entirety or for a portion thereof.

Investment in joint ventures and subsidiaries:

The Company has accounted for its investment in joint ventures and subsidiaries at cost.

Impairment of financial assets

The Company applies expected credit losses (ECL) model for measurement and recognition of impairment loss on the following financial assets:

(a) Financial assets measured at amortised cost

(b) Financial assets measured at fair value through other comprehensive income (FVTOCI)

Notes to the Financial Statements for the year ended 31st March, 2021

Expected Credit Losses are measured through either 12 month ECL or lifetime ECL and it is assessed as following:

For recognition of impairment loss on financial assets, the Company determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If, in the subsequent period, credit quality of the instrument improves, such that there is no longer a significant increase in credit risk since initial recognition, then the entity reverts to recognising impairment loss allowance based on 12-month ECL.

Lifetime ECL are the expected credit losses resulting from all possible default events over the expected life of a financial instrument. The 12-month ECL is a portion of the lifetime ECL which results from default events that are possible within 12 months after the reporting date.

The Company follows 'simplified approach' for recognition of impairment loss allowance on trade receivables.

The application of simplified approach does not require the Company to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

The Company follows a provision matrix to determine impairment loss allowance on the portfolio of trade receivables. The provision matrix is based on its historical observed default rates over the expected life of the trade receivables and is adjusted for forward looking estimates. At every reporting date, the historical observed default rates are updated and changes in the forward looking estimates are analysed.

For assessing increase in credit risk and impairment loss, the Company combines financial instruments on the basis of shared credit risk characteristics with the objective of facilitating an analysis that is designed to enable significant increases in credit risk to be identified on a timely basis.

B) Financial liabilities

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The Company's financial liabilities include loans and borrowings, trade and other payables and derivative financial instruments.

Subsequent measurement

The measurement of financial liabilities depends on their classification, as described below:

(a) Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss.

Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the Company that are not designated as hedging instruments in hedge relationships as defined by Ind AS 109. Separated embedded derivatives are also classified as held for trading unless they are designated as effective hedging instruments.

Gains or losses on liabilities held for trading are recognised in the statement of profit and loss.

Financial liabilities designated upon initial recognition at fair value through profit or loss are designated as such at the initial date of recognition, and only if the criteria in Ind AS 109 are satisfied.

(b) Loans and borrowings

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the effective interest rate (EIR) method. Gains and losses are recognised in statement of profit and loss when the liabilities are derecognised as well as through the EIR amortisation process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit and loss.

Notes to the Financial Statements for the year ended 31st March, 2021

(c) Financial Guarantee Contracts

Financial guarantee contracts issued by the Company are those contracts that require a payment to be made to reimburse the holder for a loss it incurs because the specified debtor fails to make a payment when due in accordance with the terms of a debt instrument. Financial guarantee contracts are recognised initially as a liability at fair value, adjusted for transaction costs that are directly attributable to the issuance of the guarantee. Subsequently, the liability is measured at the higher of the amount of loss allowance determined as per impairment requirements of Ind AS 109 and the amount recognised less cumulative amortisation.

Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit and loss.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realize the assets and settle the liabilities simultaneously.

Derivative financial instruments and hedge accounting

The Company enters into derivative contracts such as forward currency contract, option contract and cross currency and interest rate swaps to hedge foreign currency risks and interest rate risks. Such derivative financial instruments are initially recognised at fair value on the date on which a derivative contract is entered into and are subsequently re-measured at fair value. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative.

Any gains or losses arising from changes in the fair value of derivatives are taken directly to profit or loss, except for the effective portion of cash flow hedges, which is recognised in other comprehensive income and later reclassified to statement of profit and loss when the hedge item affects profit or loss.

3.9 Cash and cash equivalents

Cash and cash equivalent in the balance sheet comprises cash in hand, cash at banks and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash in hand, cash at banks and short-term deposits, as defined above, net of outstanding bank overdrafts, if any, as they are considered an integral part of the cash management.

3.10' Foreign currency Transactions

The Company's financial statements are presented in Indian Rupee (Rs.) which is also Company's functional currency.

Foreign currency transactions are recorded on initial recognition in the functional currency, using the exchange rates prevailing on the date of transaction. At each balance sheet date, foreign currency monetary items are reported using the closing exchange rate. Exchange rate differences that arise on settlement of monetary items or on translating of monetary items at each balance sheet reporting date at the closing rate are recognised as income or expense in the period in which they arise except exchange difference on monetary items that qualify as a hedging instrument in a cash flow hedge are recognised initially in OCI to the extent the hedge is effective.

Non-monetary items which are carried at historical cost denominated in a foreign currency are reported using the exchange rates prevailing at the date of the transaction. Non-monetary items measured at fair value in a foreign currency are reported using the exchange rates prevailing at the date when fair value is determined.

When a gain or loss on non-monetary items is recognised in OCI any exchange component of that gain / loss shall be recognised in OCI, conversely when a gain or loss on a non-monetary item is recognised in Profit / loss any exchange component of that gain/loss shall be recognised in Profit / Loss.

Notes to the Financial Statements for the year ended 31st March, 2021

3.11 Fair Value Measurement:

The Company measures financial instruments, such as, derivatives at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- (a) In the principal market for the asset or liability, or
- (b) In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities

Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable

Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

3.12 Inventories

Raw materials : Inventories are valued at cost or net realisable value whichever is lower. Cost is determined by using the Weighted average method. Net realisable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and the estimated costs necessary to make the sale.

Finished Goods and Traded Goods: Inventories are valued at lower of cost and net realisable value. Finished goods include cost of conversion and other cost incurred for bringing the inventories to their present location and condition and Traded Goods includes purchase price and other cost incurred for bringing the inventories to their present location and condition.

Stores & Spareparts : Store and Spare Parts are valued at Cost.

3.13 Employee Benefits

Short Term Employee Benefits

Short term employee benefits are expensed as the related service is provided. A liability is recognised for the amount expected to be settled wholly before twelve months after the year end, if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably. It includes Salary, wages, paid annual leave.

Notes to the Financial Statements for the year ended 31st March, 2021

Post Employment Benefits

Defined Contribution Plan

Retirement benefits in the form of contribution to Provident fund are defined contribution plans. The contributions are charged to the statement of profit and loss as and when due monthly and are paid to the Government administered Provident Fund towards which the Company has no further obligation beyond its monthly contribution. Superannuation benefit scheme is not existing in the Company.

Defined benefit plans:

The Company operates defined benefit plan viz., gratuity. The costs of providing benefits under this plan are determined on the basis of actuarial valuation at each year-end. Actuarial valuation is carried out for the plan using the projected unit credit method.

Defined benefit costs are comprised of:

- a) service cost (including current service cost, past service cost, as well as gains and losses on curtailments and settlements);
- b) Net interest expense or income; and
- c) Re-measurement.

The Company presents the first two components of defined benefit costs in profit or loss in the line item 'Employee benefits expense'. Curtailment gains and losses are accounted for as past service costs. Re-measurement of net defined benefit liability/ asset pertaining to gratuity comprise actuarial gains/ losses (i.e. changes in the present value resulting from experience adjustments and effects of changes in actuarial assumptions) and is reflected immediately in the balance sheet with a charge or credit recognised in other comprehensive income in the period in which they occur. Remeasurement recognised in other comprehensive income is reflected immediately in retained earnings and is not reclassified to profit or loss.

3.14 Borrowing Cost

Borrowing costs that are directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the respective asset. All other borrowing costs are expensed in the period in which it is incurred.

Borrowing costs include interest expense calculated using the effective interest rate method as described in Ind AS 109- Financial Instruments, finance charges in respect of finance leases are recognised in accordance with Ind AS 116- Leases and exchange differences arising from foreign currency borrowings to the extent that they are regarded as an adjustment to interest costs.

3.15 Income Taxes

Income tax expense represents the sum of the tax currently payable and deferred tax. It is recognised in statement of profit and loss except to the extent that it relates to a business combination, or items recognised directly in equity or in other comprehensive income.

Current Tax

Current income tax represents the tax currently payable on the taxable income for the year and any adjustment to the tax in respect of the previous years. It is measured using tax rates enacted or substantively enacted at the reporting date.

Deferred Tax

Deferred tax is provided using the balance sheet approach on temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date. Deferred income tax asset are recognized to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilized.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are reassessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Notes to the Financial Statements for the year ended 31st March, 2021

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognised outside profit or loss is recognised outside the statement of profit and loss. Deferred tax items are recognised in correlation to the underlying transaction either in other comprehensive income or directly in equity.

Deferred tax assets and liabilities are offset only if:

- (i) entity has a legally enforceable right to set off current tax assets against current tax liabilities; and
- (ii) deferred tax assets and the deferred tax liabilities relate to the income taxes levied by the same taxation authority.

Current and deferred tax is recognised in the statement of profit and loss, except to the extent that it relates to items recognised in the Other Comprehensive Income or directly in equity. In this case, tax is also recognised in other comprehensive income or directly in equity, respectively.

3.16 Provisions, Contingent Liabilities and Contingent Assets

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. When the Company expects some or all of a provision to be reimbursed, the reimbursement is recognised as a separate asset, but only when the reimbursement is virtually certain. The expense relating to a provision is presented in the statement of profit and loss net of any reimbursement.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

Contingent Liabilities and Assets

Contingent Liabilities are not recognised but are disclosed in the notes. A disclosure for a contingent liability is made where there is a possible obligation arising out of past event, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation arising out of past event where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made. Contingent Assets are not recognised but disclosed in the financial statements when economic inflow is probable.

3.17 Earnings per Share

Basic earnings per share is calculated by dividing the net profit or loss for the period after deducting any attributable tax thereto for the period by the weighted average number of equity shares outstanding during the period. For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period is adjusted for the effects of all dilutive potential equity shares.

3.18 Current and Non-current Classification

The Company presents assets and liabilities in the balance sheet based on current/ non current classification.

An asset is current when:

- It is expected to be realised or intended to be sold or consumed in normal operating cycle (twelve months),
- It is held primarily for the purpose of trading,
- It is expected to be realised within twelve months after the reporting period,
- It is cash or cash equivalents unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in normal operating cycle (twelve months),
- It is held primarily for the purpose of trading,
- It is due to be settled within twelve months after the reporting period,

Notes to the Financial Statements for the year ended 31st March, 2021

Or

- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

All other liabilities are classified as non-current.

3.19 Business Combination

Business combinations, if any, are accounted for using the acquisition accounting method as at the date of the acquisition, which is the date at which control is transferred to the Company. The consideration transferred in the acquisition and the identifiable assets acquired and liabilities assumed are recognised at fair values on their acquisition date. Goodwill is initially measured at cost, being the excess of the aggregate of the consideration transferred and the amount recognised for non-controlling interests, and any previous interest held, over the net identifiable assets acquired and liabilities assumed. If the Goodwill computed as per IND AS 103 is negative, the acquirer needs to reassess the identification and measurement of the acquiree's identifiable assets, liabilities and contingent liabilities and the measurement of the cost of combination. If negative goodwill remains, this is recognised immediately in OCI and accumulated in equity as Capital Reserve. The Company recognises any non-controlling interests, and any previous interest held, over the net identifiable assets acquired and liabilities assumed. The Company recognises any non-controlling interest in the acquired entity on an acquisition-by-acquisition basis either at fair value or at the non-controlling interest's proportionate share of the acquired entity's net identifiable assets. Consideration transferred does not include amounts related to settlement of pre-existing relationships. Such amounts are recognised in the Statement of Profit and Loss.

Transaction costs are expensed as incurred, other than those incurred in relation to the issue of debt or equity securities. Any contingent consideration payable is measured at fair value at the acquisition date. Subsequent changes in the fair value of contingent consideration are recognised in the statement of Profit and Loss.

If there is an acquisition of an asset or a group of assets that does not constitute a business. In such cases the Company shall identify and recognise the individual identifiable assets acquired (including those assets that meet the definition of, and recognition criteria for, intangible assets in Ind AS 38, Intangible Assets) and liabilities assumed. The cost of the group shall be allocated to the individual identifiable assets and liabilities on the basis of their relative fair values at the date of purchase. Such a transaction or event does not give rise to goodwill.

Gratuity

The Employee's Gratuity Fund Scheme, which is defined benefit plan, is managed by Trust maintained with Life Insurance Corporation of India. The liabilities with respect to Gratuity Plan are determined by actuarial valuation on projected unit credit method on the balance sheet date, based upon which the Company contributes to the Group Gratuity Scheme. The difference, if any, between the actuarial valuation of the gratuity of employees at the year end and the balance of funds with Life Insurance Corporation of India, is provided for as assets/ (liability) in the books. Actuarial gains/ (losses) for defined benefit plans are recognised in full and are immediately taken to the statement of profit and loss and Other Comprehensive Income accordingly as per Actuarial Valuation Report.. The Gratuity Plan provides a lump sum payment to vested employees at retirement, death, incapacitation or termination of employment, of an amount equivalent to 15 to 30 days' salary for each completed year of service . Vesting occurs upon completion of five continuous years of service in accordance with Indian law. The gratuity fund is separately administered by a Gratuity Fund Trust.

43 FAIR VALUE MEASUREMENT

The fair value of the financial assets and liabilities are included at the amount at which the instrument could be exchanged in a current transaction between willing parties other than in a forced or liquidation sale.

The following methods and assumptions were used to estimate the fair values:

- (1) Fair value of cash and short-term deposits, trade and other short term receivables, trade payables , other current liabilities, short-term loans from banks and other financial institutions approximate their carrying amounts largely due to the short term maturities of these instruments.
- (2) Financial instruments with fixed and variable interest rate are evaluated by the Company based on parameter such as interest rates and individual credit worthiness of the counterparty. Based on this evaluation, allowances are taken into account for the expected losses of these receivables.

The Company uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique.

Level 1 : Quoted (unadjusted) prices in active markets for identical assets or liabilities.

Level 2 : Other techniques for which all inputs which have a significant effects on the recorded fair value are observable, either directly or indirectly.

Level 3 : Techniques which use inputs that have a significant effects on the recorded fair value that are not based on observable market data.

The following tables provides classification of financial instruments and the fair value hierarchy of the Company's assets and liabilities.

44 FINANCIAL RISK MANAGEMENT OBJECTIVE AND POLICIES

The Company's principal financial liabilities, other than derivatives, comprise loans and borrowings, trade and other payables and advances from customers. The main purpose of these financial liabilities is to finance the Company's operations, projects under implementation and to provide guarantees to support its operations. The Company's principal financial assets include Investment, loans and advances, trade and other receivables and cash and bank balances that derive directly from its operations.

The Company is exposed to market risk, credit risk and liquidity risk. The Company's financial risk management is an integral part of how to plan and execute its business strategies. The Company's financial risk management policy is set by the Managing Board.

All derivative activities for risk management purposes are carried out by specialist teams that have the appropriate skills, experience and supervision. It is the Company's policy that no trading in derivatives for speculative purposes to be undertaken. The Board of Directors reviews and finalises policies for managing each of these risks, which are summarised below.

A. Market Risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: Interest rate risk, Currency risk and Commodity price risk. Financial instruments affected by market risk include investments and deposits, foreign currency receivables, payables, loans and borrowings and derivative financial instruments.

The Company manages market risk through a treasury department, which evaluates and exercises independent control over the entire process of market risk management. The treasury department recommends risk management objectives and policies, which are approved by Senior Management and the Audit Committee. The activities of this department include management of cash resources, implementing hedging strategies for foreign currency exposures, borrowing strategies and ensuring compliance with market risk limits and policies.

(i) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. In order to optimize the Company's position with regard to interest income and interest expenses to manage the interest rate risk, treasury performs a comprehensive corporate interest rate risk management by balancing the proportion of fixed rate and floating rate financial instruments in its total portfolio.

Notes to the Financial Statements for the year ended 31st March, 2021

Interest rate sensitivity

The following table demonstrates the sensitivity to a reasonably possible change in interest rates on the unhedged portion of loans and borrowings. With all other variables held constant, the Company's profit before tax is affected through the impact on floating rate borrowings, as follows:

	2020-21	2019-20
	(+/-) 50	(+/-) 50
	Basis	Basis
	Points	Points
Effect on profit before tax due to interest rate sensitivity	32.08	29.20

(ii) Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Company's exposure to the risk of changes in foreign exchange rates relates primarily to the Company's operating and financing activities. The Company manages its foreign currency risk by hedging transactions that are expected to realise in future.

45 CAPITAL MANAGEMENT

- A. For the purpose of the Company's capital management, equity includes issued equity capital, securities premium and all other equity reserves attributable to the equity share holders, including capital reserve and net debt includes interest bearing loans and borrowings except cash and cash equivalents. The primary objective of the Company's capital management is to safeguard continuity, maintain a strong credit rating and healthy capital ratios in order to support its business and provide adequate return to shareholders through continuing growth.

Notes to the Financial Statements for the year ended 31st March, 2021

The Company manages its capital structure and makes adjustments in light of changes in economic conditions and the requirements of the financial covenants. The funding requirement is met through a mixture of equity, internal accruals, long term borrowings and short term borrowings. The Company monitors capital using a gearing ratio, which is net debt divided by total capital plus net debt.

In order to achieve this overall objective, the Company's capital management, amongst other things, aims to ensure that it meets financial covenants attached to the interest-bearing loans and borrowings that define capital structure requirements.

54 LEASES

Ministry of Corporate Affairs ("MCA") through Companies (Indian Accounting Standards) Amendment Rules, 2019 and Companies (Indian Accounting Standards) Second Amendment Rules, has notified Ind AS 116 Leases which replaces the existing lease standard, Ind AS 17 Leases and other interpretations. Ind AS 116 sets out the principles for the recognition, measurement, presentation and disclosure of leases for both lessees and lessors. It introduces a single, on-balance sheet lease accounting model for lessees.

Effective April 1, 2019, the Company has adopted Ind AS 116 "Leases" using modified retrospective approach. The Company's lease asset classes primarily consist of leases for buildings, machinery and warehouses. These leases were classified as "Cancellable Operating Leases" under Ind AS 17. On transition to Ind AS 116 "Leases", the Company has used following practical expedient, when applying Ind AS 116 to leases previously classified as operating leases under Ind AS 17.

- The company didn't recognized Right to Use and Lease liabilities for lease for which the lease terms pertaining to the uncancellable period ends within 12 months on the date of initial transition and low value assets.
- The Company excluded initial direct cost from measurement of the Right to Use assets at the date of initial application.
- The Company uses hindsight in determining the lease term where the contract contains options to extend or terminate the lease.

Hence, the Company has recognised the lease payments associated with those leases as an expense on a straight line basis over the lease term. Lease liabilities were measured at the present value of remaining lease payments, discounted at the Company's actuarial discounting rate. Right to Use is measured at an amount equal to the lease liability adjusted by the amount of any prepaid or accrued lease payments.

INDEPENDENT AUDITOR’S REPORT

TO THE MEMBERS OF KKALPANA INDUSTRIES (INDIA) LIMITED

Report on the Audit of Consolidated Financial Statements

Opinion

We have audited the accompanying consolidated financial statements of **KKALPANA INDUSTRIES (INDIA) LIMITED** (“the parent company”), its subsidiary and associate (herein after to be referred as “the Group”), which comprises of the consolidated Balance Sheet as at 31st March, 2021, the consolidated Statement of Profit and Loss (including Other Comprehensive Income), the consolidated Cash Flow Statement and the consolidated Statement of Changes in Equity for the year then ended, and a summary of the significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013 (the Act) in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with Companies (Indian Accounting Standards) Rules, 2015, as amended, (“Ind AS”) and other accounting principles generally accepted in India, of the state of affairs of the Group as at 31st March 2021, its profits (including other comprehensive income), changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the consolidated financial statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor’s Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the consolidated financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics.

We believe that the audit evidence obtained by us and the audit evidence obtained by the other auditors in terms of their reports referred to in Other Matter paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significant in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key Audit Matters	Auditor’s Response
<p>Inventory- existence and valuation</p> <p>Refer to note 11 to the consolidated financial statements. The Company is having the Inventories of Rs 22,864.13 lacs as on 31st March 2021. As described in the accounting policies in note 3.12 to the consolidated financial statements, inventories are carried at the lower of cost and net realisable value. As a result, the management applies judgement in determining the appropriate provisions for obsolete stock based upon a detailed analysis of old inventory, net realisable value below cost based upon future plans for sale of inventory.</p>	<p>Audit Procedures Performed</p> <p>We have obtained assurance over the appropriateness of the management’s assumptions applied in calculating the value of the inventories and related provisions and management assertion regarding existence and ownership by:-</p> <p>Completed a walkthrough of the inventory valuation process and assessed the design and implementation of the key controls addressing the risk.</p>

Key Audit Matters	Auditor's Response
<p>Revenue Recognition</p> <p>Revenue from the sale of goods is recognized at the moment when control has been transferred to the customer and is measured net of trade discounts, rebates and pricing allowances to customers (collectively 'trade spends'). There is a risk that revenue may be overstated because of pressure local management may feel to achieve performance targets. Revenue is also an important element of how the company measures its performance, upon which management is incentivized.</p>	<p>Performing procedures to ensure that the changes in inventory between the last verification date and date of the balance sheet are properly recorded (Roll forward procedures).</p> <p>Verifying for a sample of individual products that costs have been correctly recorded.</p> <p>Identified and assessed a sample of aged and obsolete inventory.</p> <p>We also analysed the level of slow-moving inventory and the associated provision.</p> <p>We have reviewed the historical accuracy of inventory provisioning and the level of inventory write-offs during the financial year.</p> <p>Comparing the net realisable value to the cost price of inventories to check for completeness of the associated provision.</p> <p>Performing substantive analytical procedures to test the correctness of inventory existence and valuation.</p> <p>Testing the accuracy of inventory reconciliations with the general ledger at period end, including test of reconciling items.</p> <p>The procedures performed gave us a sufficient evidence to conclude about the inventory existence and valuation.</p> <p>Our audit procedures included:</p> <ul style="list-style-type: none"> • We assessed the appropriateness of the revenue recognition accounting policies by comparing with applicable accounting standards. • We evaluated the design, tested the implementation and operating effectiveness of key internal controls including general IT controls and key IT application controls over recognition of revenue. • We performed substantive testing by selecting samples of revenue transactions recorded during the year by testing the underlying documents which included invoices, good dispatch notes, customer acceptances and shipping documents (as applicable). • We carried out analytical procedures on revenue recognised during the year to identify unusual variances. • We tested, on a sample basis, specific revenue transactions recorded before and after the financial year end date to determine whether the revenue had been recognised in the appropriate financial period. • We tested manual journal entries posted to revenue to identify unusual items.

Information Other than the Consolidated Financial Statements and Auditor's report thereon

The Parent Company's Board of Directors is responsible for the preparation of other information. The Other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to the Board report, Business responsibility Report, Corporate Governance report and Shareholder's information, but does not include the consolidated financial statement and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and those charged with Governance for the Consolidated Financial Statements

The Parent company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these consolidated financial statements that give a true and fair view of the consolidated financial position, consolidated financial performance (including other comprehensive income), consolidated changes in equity and consolidated cash flows of the Group in accordance with the accounting principles generally accepted in India, including the accounting Standards specified under section 133 of the Act.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Group and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, respective Board of Directors of the Companies included in the Group are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the Companies included in the Group are responsible for overseeing the financial reporting process of the Group.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists.

Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit

evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial control system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of Management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the entity's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the entity to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activity within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities included in the consolidated financial statements of which we are independent auditors. For the other entities included in the consolidated financial statements, which have been audited by the other auditors, such other auditors remain responsible for the direction, supervision and performance of the audit carried out by them. We remain solely responsible for our audit opinion.

Materiality is the magnitude of misstatements in the consolidated financial statements that individually or in aggregate makes it probable that the economic decisions of a reasonably knowledgeable user of the consolidated financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) Planning the scope of our audit work and in evaluating the results of our work and (ii) To evaluate the effect of any identified misstatements in the consolidated financial statements.

We communicate with those charged with governance of the Holding Company of which we are independent auditor regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matters:

- a) We did not audit the financial statements of a subsidiary included in the consolidated financial statements of the Group whose financial statements reflects total assets of Rs 47.53 lakhs as at March 31, 2021 (as at 31 March 2020 Rs. 771.12 lakhs); total revenue of Rs. 7.94 lakhs, net loss of

Rs. 28.78 lakhs and net cash outflow of Rs. 20.24 lakhs for the year ended 31st March, 2021 (revenue of Rs 2,175.37 lakhs, net loss of Rs. 41.50 lakhs and net cash outflow of Rs.183.09 Lakhs for the year ended March 31, 2020) as considered in the consolidated financial statements.

- b) We did not audited the financial statement of Associate included in the Consolidated Financial Statements, whose financial statements reflect total assets of Rs.685.07 lakhs as at 31st March, 2021 (as at 31 March 2020 Rs.677.86 lakhs) total comprehensive income/ (loss) of Rs.10.40 lacs for the year ended 31st March 2021 (Rs.0.52 Lakhs for the year ended March 31, 2020) as considered in the statement.

These financial statements have been audited by other auditors whose reports have been furnished to us by the Management and our opinion on the consolidated financial statements, is so far as it relates to the amounts and disclosures included in respect of the subsidiary and associates, and our report in terms of sub- section (3) and (11) of section 143 of the Act, in so far as it relates to the aforesaid subsidiary and associate, is based solely on the report of other auditors.

Our Opinion on the consolidated financial statements is not modified in respect of the above matters with respect to our reliance on the work done and the reports of the other auditors.

Report on Other Legal and Regulatory Requirements

1. As required by Section 143(3) of the Act, based on our audit, we report, to the extent applicable that:

- a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
- b) In our opinion, proper books of account as required by law have been kept by the Group so far as it appears from our examination of those books.
- c) The Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss including Other Comprehensive Income, the Consolidated Cash Flow Statement and Consolidated Statement of Changes in Equity dealt with by this Report are in agreement with the relevant books of account.
- d) In our opinion, the aforesaid consolidated financial statements comply with the Indian Accounting Standards prescribed under section 133 of the Act read with Rule 7 of the Companies (Accounts) Rules, 2014
- e) On the basis of the written representations received from the directors of the Holding Company as on 31st March, 2021 taken on record by the Board of Directors of the Holding Company and the reports of the statutory auditors of the subsidiary and associate companies incorporated in India, none of the directors of the Group companies is disqualified as on 31st March, 2021 from being appointed as a director in terms of Section 164(2) of the Act.
- f) With respect to the adequacy of the internal financial controls with reference to financial statements of the Company and the operating effectiveness of such controls refer to our separate Report in "Annexure A". Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls with reference to financial statements of the Company.
- g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended:

In our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Group to its directors during the year is in accordance with the provisions of section 197 of the Act.
- h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended, in our opinion and to the best of our information and according to the explanations given to us:
 - i. The Group has disclosed the impact of pending litigations on its financial position in its consolidated financial statements.

- ii. The Group did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.
- iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company.

ANNEXURE - A TO THE INDEPENDENT AUDITOR'S REPORT

ANNEXURE "A" REFERRED TO IN PARAGRAPH 2(F) UNDER "REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS" SECTION OF OUR REPORT TO THE MEMBERS OF THE KKALPANA INDUSTRIES (INDIA) LIMITED OF EVEN DATE:

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **KKALPANA INDUSTRIES (INDIA) LIMITED ("the Holding Company")** and its subsidiaries and associates for the year ended 31st March 2021 in conjunction with our audit of the consolidated financial statements of the Company for the year ended on that date.

MANAGEMENT'S RESPONSIBILITY FOR INTERNAL FINANCIAL CONTROLS

The Group management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Group considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to group policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

AUDITOR'S RESPONSIBILITY

Our responsibility is to express an opinion on the Group internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Group internal financial controls system over financial reporting.

MEANING OF INTERNAL FINANCIAL CONTROLS OVER FINANCIAL REPORTING

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that:

- (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and

expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and

- (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

INHERENT LIMITATIONS OF INTERNAL FINANCIAL CONTROLS OVER FINANCIAL REPORTING

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

OPINION

In our opinion, the Group has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March 2021, based on the internal control over financial reporting criteria established by the respective companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

2. BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS

2.1 Statement of Compliance

These consolidated financial statements have been prepared in accordance with the Indian Accounting Standards (hereinafter referred to as the 'Ind AS') as notified by Ministry of Corporate affairs pursuant to section 133 of the Companies Act, 2013 read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and Companies (Indian Accounting Standards) Amendment Rules, 2016.

The consolidated financial statements have been prepared on accrual and going concern basis. The accounting policies are applied consistently to all the periods presented in the consolidated financial statements.

All assets and liabilities have been classified as current or non-current as per the Group's normal operating cycle and other criteria as set out in the Division II of Schedule III to the Companies Act, 2013. Based on the nature of products and the time between acquisition of assets for processing and their realisation in cash and cash equivalents, the Group has ascertained its operating cycle as 12 months for the purpose of current or non-current classification of assets and liabilities.

All amounts disclosed in the financial statements and notes have been rounded off to the nearest lakhs as per the requirement of Schedule III, unless otherwise stated.

2.2 Basis of Consolidation

A) Investment in Subsidiaries

Subsidiaries are all entities over which the group has control. Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to effect those returns through its powers over the investee. Specifically, the Group controls an investee if and only if the Group has :

- Power over the investee (i.e. existing rights that give it the current ability to direct the relevant activities of the investee)
- Exposure or rights to variable returns from its involvement with the investee and,
- The ability to use its power over the investee to affect its return.

The Group re-assesses whether or not it control an investee if facts and circumstances indicate that there are changes to one or more of the three elements of controls. Consolidation of a subsidiary begins when the group obtains control over the subsidiary and ceases when the group losses control of the subsidiary.

Notes to the consolidated financial statements for the year ended 31st March, 2021

Specifically, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated statement of profit or loss and other comprehensive income from the date the Parent Company gains control until the date when the Parent Company ceases to control the subsidiary

Profit or loss and each component of other comprehensive income are attributed to the owners of the Parent Company and to the non-controlling interests. Total comprehensive income of subsidiaries is attributed to the owners of the Parent Company and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

Consolidation Procedure

a) Combine, on line by line basis like items of assets, liabilities, equity, income, expense and cash flows of the parent with those of its subsidiaries. For this purpose, income and expenses of the subsidiary are based on the amounts of the assets and liabilities recognised in the consolidated financial statements of the acquisition date.

b) Offset (eliminate) the carrying amount of the parent's investment in each subsidiary and the parent's portion of equity of each subsidiary. In other words, the excess of cost to the Group of its investment in subsidiaries, on the acquisition dates over and above the Group's share of equity in the subsidiaries, is recognised as 'Goodwill on Consolidation' being an asset in the consolidated financial statements. The said Goodwill is not amortised, however, it is tested for impairment at each Balance Sheet date and the impairment loss, if any, is provided for. On the other hand, where the share of equity in subsidiaries as on the date of investment is in excess of cost of investments of the Group, it is recognised as 'Capital Reserve' and shown under the head 'Reserves and Surplus' in the consolidated financial statements.

c) Eliminate in full intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between entities of the group (profit or losses resulting from intra group transactions that are recognised in assets, such as inventory and fixed assets, are eliminated in full.)

d) Non-controlling interests in the net assets of consolidated subsidiaries is identified and presented in the consolidated Balance Sheet separately within equity.

Non-controlling interests in the net assets of consolidated subsidiaries consists of:

(i) The amount of equity attributable to non-controlling interests at the date on which investment in a subsidiary is made; and

(ii) The non-controlling interests share of movements in equity since the date parent subsidiary relationship came into existence.

e) Consolidated financial statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances. If the member of the group uses accounting policies other than those adopted in the consolidated financial statements for like transactions and events in similar circumstances, appropriate adjustments are made to that group member's financial statements in preparing the consolidated financial statements to ensure conformity with the group's accounting policies.

B) Investment in Associates

An associate is an entity over which the Company has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee, but is not control or joint control over those policies.

The Group's investments in its associate are accounted for using the equity method. Under the equity method, the investment in an associate is initially recognised at cost. The carrying amount of the investment is adjusted to recognise changes in the Group's share of net assets of the associate since the acquisition date. Goodwill relating to the associate or joint venture is included in the carrying amount of the investment and is not tested for impairment individually.

The statement of profit and loss reflects the Group's share of the results of operations of the associate. Any change in OCI of those investees is presented as part of the Group's OCI. In addition where there has been a change recognised directly in the equity of the associate, the Group recognises its share of any changes, when applicable, in the statement of changes in equity. Unrealised gains and losses resulting from the transaction between the Group and the associate are eliminated to the extent of the interest in the associate.

2.3 Basis of Measurement

The consolidated financial statements have been prepared on a historical cost basis (which includes deemed cost as per Ind AS 101), except for the following assets and liabilities which have been measured at fair value:

(i) Derivative financial instruments

(ii) Certain financial assets and liabilities measured at fair value (refer accounting policy regarding financial instruments).

Notes to the consolidated financial statements for the year ended 31st March, 2021

(iii) Defined benefits plans - Plan assets measured at fair value

2.4 Key Accounting Estimates And Judgements

The preparation of consolidated financial statements requires management to make judgments, estimates and assumptions in the application of accounting policies that affect the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates. Continuous evaluation is done on the estimation and judgments based on historical experience and other factors, including expectations of future events that are believed to be reasonable. Revisions to accounting estimates are recognised prospectively.

Information about critical judgments in applying accounting policies, as well as estimates and assumptions that have the most significant effect to the carrying amounts of assets and liabilities within the next financial year, are included in the following notes below :-

(i) Estimation of employee defined benefit obligations

Ind AS 19 requires the exercise of judgment in relation to various assumptions including future pay rises, inflation and discount rates and employee and pensioner demographics. The Group determines the assumptions in conjunction with its actuaries, and believes these assumptions to be in line with best practice, but the application of different assumptions could have a significant effect on the amounts reflected in the income statement, other comprehensive income and balance sheet. There may be also interdependency between some of the assumptions.

(ii) Estimation of current tax expenses

Significant judgments are involved in determining the provision for income taxes, including amount expected to be paid/recovered for uncertain tax positions. In assessing the realizability of deferred income tax assets, management considers whether some portion or all of the deferred income tax assets will not be realized. The ultimate realization of deferred income tax assets is dependent upon the generation of future taxable income during the periods in which the temporary differences become deductible.

Management considers the scheduled reversals of deferred income tax liabilities, projected future taxable income and tax planning strategies in making this assessment. Based on the level of historical taxable income and projections for future taxable income over the periods in which the deferred income tax assets are deductible, management believes that the company will realize the benefits of those deductible differences. The amount of the deferred income tax assets considered realizable, however, could be reduced in the near term if estimates of future taxable income during the carry forward period are reduced.

(iii) Property, plant and equipment

Property, plant and equipment represent a significant proportion of the asset base of the Company. The charge in respect of periodic depreciation is derived after determining an

estimate of an asset's expected useful life and the expected residual value at the end of its life. The useful lives and residual values of Company's assets are determined by the management at the time the asset is acquired and reviewed periodically, including at each financial year end. The lives are based on historical experience with similar assets as well as anticipation of future events, which may impact their life, such as changes in technology.

(iv) Leases

Ind AS 116 requires lessees to determine the lease term as the non-cancellable period of a lease adjusted with any option to extend or terminate the lease, if the use of such option is reasonably certain. The Company makes an assessment on the expected lease term on a lease-by-lease basis and thereby assesses whether it is reasonably certain that any options to extend or terminate the contract will be exercised. In evaluating the lease term, the Company considers factors such as any significant leasehold improvements undertaken over the lease term, costs relating to the termination of the lease and the importance of the underlying asset to Company operations taking into account the location of the underlying asset and the availability of suitable alternatives. The lease term in future periods is reassessed to ensure that the lease term reflects the current economic circumstances. After considering current and future economic conditions, the Company has concluded that no changes are required to lease period relating to the existing lease contracts.

(v) Allowance for credit losses on receivable

The Group determines the allowance for credit losses based on historical loss experience adjusted to reflect current and estimated future economic conditions. The Group considered current and anticipated future economic conditions relating to industries the company deals with and the countries where it operates. In calculating expected credit loss, the Group has also considered credit reports and other related credit information for its customers to estimate the probability of default in future and has taken into account estimates of possible effect from the pandemic relating to COVID -19.

Notes to the consolidated financial statements for the year ended 31st March, 2021

3. SIGNIFICANT ACCOUNTING POLICIES

3.1 Revenue Recognition

The Group recognizes revenue, whenever control over distinct goods or services is transferred to the customer; i.e. when the customer is able to direct the use of the transferred goods or services and obtains substantially all of the remaining benefits, provided a contract with enforceable rights and obligations exists and amongst others collectability of consideration is probable taking into account customer's creditworthiness.

Revenue is the transaction price the Group expects to be entitled to. In determining the transaction price, the Group considers effects of variable consideration, the existence of significant financing contracts, noncash consideration and consideration payable to the customer, if any. The Group considers whether there are other promises in the contract that are separate performance obligations to which the transaction price needs to be allocated (e.g. warranties etc.).

A) Variable Consideration

If the consideration in a contract includes a variable amount, the group estimates the amount of consideration to which it will be entitled to in exchange for transferring goods to the customer. The variable consideration is estimated at contract inception and constrained until it is highly probable that a significant reversal of revenue will not occur once associated uncertainties are resolved. Some contracts with the customers provide them with a right to return and volume rebates. The right to return and volume rebates gives rise to variable consideration.

The amount of variable consideration is calculated by either using the expected value or the most likely amount depending on which is expected to better predict the amount of variable consideration. Consideration is also adjusted for the time value of money if the period between the transfer of goods or services and the receipt of payment exceeds twelve months and there is a significant financing benefit either to the customer or the Group. If a contract contains more than one distinct good or service, the transaction price is allocated to each performance obligation based on relative stand-alone selling prices. If stand-alone selling prices are not observable, the Group reasonably estimates those.

Revenue is recognized for each performance obligation either at a point in time or over time.

B) Sale of goods

Revenues are recognized at a point in time when control of the goods passes to the buyer, usually upon either at the time of dispatch or delivery. In case of export sale, it is usually recognised based on the shipped-on board date as per bill of lading. Revenue from sale of goods is net of taxes and recovery of charges collected from customers like transport, packing etc.

C) Contract balances

Trade Receivables

A receivable represents the Group's right to an amount of consideration that is unconditional (i.e. only a passage of time is required before payment of the consideration is due).

Contract liabilities

A contract liability is the obligation to transfer goods or services to a customer for which the Group has received consideration (or an amount of consideration is due) from the customer. If a customer pays consideration before the Group transfer goods and services to the customer, a contract liability is recognised when the payment is made or the payment is due, whichever is earlier. Contract liabilities are recognised as revenue when the Group performs under the contract.

Interest Income

Interest income is recognised using the effective interest rate, which is the rate that exactly discounts the estimated future cash payments or receipts through the expected life of the financial instrument or a shorter period, where appropriate, to the net carrying amount of the financial asset.

Dividend Income

Revenue is recognised when the right to receive the payment is established by the reporting date.

Other Claims / Receipts

Insurance claims and other receipts including export incentives, where quantum of accruals cannot be ascertained with reasonable certainty, these receipts are accounted on receipt basis.

Commission Income

When the Company Acts in the capacity of an agent rather than as the principal in a transaction the revenue recognised is the net amount of the commission earned by the Group.

Notes to the consolidated financial statements for the year ended 31st March, 2021

3.2 Property, Plant and Equipment

Property, Plant and Equipment is stated at acquisition cost net of accumulated depreciation and accumulated impairment losses (i.e. as per Cost Model), if any. Cost comprises purchase price including import duties and other non-refundable duties and taxes, borrowing cost if capitalization criteria are met and other directly attributable cost for bringing the Assets to its present location and condition.

The cost of replacing part of an item of Property, Plant and Equipment is recognised in the carrying amount of the item only when it is probable that future economic benefits embodied within the part will flow to the Group and the cost of the item/part can be measured reliably. All other repairs and maintenance are charged to the Statement of Profit and Loss during the period in which they are incurred.

When parts of an item of Property, Plant and Equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

Gains or losses arising on retirement or disposal of Property, Plant and Equipment are recognised in the Statement of Profit and Loss.

Property, Plant and Equipment which are not ready for intended use as on the date of Balance sheet are disclosed as "Capital Work-in-progress".

Items of Property, Plant and Equipment acquired through exchange of non-monetary assets are measured at fair value, unless the exchange transaction lacks commercial substance or the fair value of either the asset received or asset given up is not reliably measurable, in which case the asset exchanged is recorded at the carrying amount of the asset given up.

The Assets which are held for Sale shall be reclassified to Current Assets only if its carrying amount will be recovered principally through a sale transaction (within one year) rather than through continuing use.

Depreciation and Ammortization:-

Depreciation is provided on a pro-rata basis on the straight line method based on estimated useful life prescribed under Schedule II to the Companies Act, 2013.

Particulars	Years
Factory Building	30
Plant & Machinery	25
Electrical Installation	10
Lab Equipments	10
Furniture and Fixtures	10
Motor Car	8
Air Conditioner	15
Scooter, Moped and Cycle	10
Office Equipment	5
Computer	3

Useful life of Plant and Machinery has been considered 25 years as against 15 years as prescribed in Schedule II of the Companies Act, 2013 which is based on the prevailing practices of the comparable industries and our past experience for last 30 years.

3.3 Intangible Assets

Separately purchased intangible assets are initially measured at cost. Subsequently, intangible assets are carried at cost less any accumulated amortisation and accumulated impairment losses, if any. The useful lives of intangible assets are assessed as either finite or indefinite. Finite-life intangible assets are amortised on a straight-line basis over the period of their expected useful lives.

The Tangible Assets are derecognised either when they are being disposed off or no future economic benefit is expected from its use or disposal, the difference net disposal proceeds and the carrying amount of Assets is recognised in the statement of Profit and Loss in the period of derecognition.

Intangible assets are amortised as follows:

Technical Know How and Computer Software is amortized over a period of 10 years except SAP, a new Enterprise Resource Planning (ERP) System which has been implemented and amortised during the year.

Notes to the consolidated financial statements for the year ended 31st March, 2021

3.4 Non Current Assets held for Sale

Non-current assets or disposal groups comprising assets and liabilities are classified as 'held for sale' when all of the following criteria are met : (i) decision has been made to sell. (ii) the assets are available for immediate sale in its present condition (iii) the assets are being actively marketed and (iv) sale has been agreed or is expected to be concluded within 12 months of the Balance Sheet date.

Subsequently, such non-current assets and disposal groups classified as held for sale are measured at the lower of its carrying value and fair value less costs to sell. Non-current assets held for sale are not depreciated or amortised.

3.5 Investment Property

Investment Property comprises Free-Hold Lands that are held for Capital Appreciation as it has been held for a currently undetermined future use and are recognised at cost.

An Investment Property are derecognised either when they are disposed off or when they are permanently withdrawn from use and no future economic benefit is expected. The difference between the net disposal proceeds and the carrying amount of the asset is recognised in statement of profit and loss in the period of derecognition.

3.6 Lease

Accounting Policy

The Group as a lessee

The Group's lease asset classes primarily consist of leases for buildings and warehouses. The Group assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Group assesses whether:

- (i) the contract involves the use of an identified asset
- (ii) the Group has substantially all of the economic benefits from use of the asset through the period of the lease and
- (iii) the Group has the right to direct the use of the asset.

At the date of commencement of the lease, the Group recognizes a right-of-use asset ("ROU") and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term leases) and low value leases. For these short-term and low value leases, the Group recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease.

Certain lease arrangements includes the options to extend or terminate the lease before the end of the lease term. ROU assets and lease liabilities includes these options when it is reasonably certain that they will be exercised.

The right-of-use assets are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses.

Right-of-use assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset. Right of use assets are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.

The lease liability is initially measured at amortized cost at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates in the country of domicile of these leases. Lease liabilities are remeasured with a corresponding adjustment to the related right of use asset if the Group changes its assessment if whether it will exercise an extension or a termination option.

Lease liability and ROU asset have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows.

Notes to the consolidated financial statements for the year ended 31st March, 2021

3.7 Impairment of non-financial assets

As at each balance sheet date, the Group assesses whether there is an indication that an asset may be impaired and also whether there is an indication of reversal of impairment loss recognised in the previous periods. If any indication exists, or when annual impairment testing for an asset is required, if any, the Group determines the recoverable amount and impairment loss is recognised when the carrying amount of an asset exceeds its recoverable amount.

Recoverable amount is determined:-

a) In the case of an individual asset, at the higher of the fair value less cost to sell and the value in use ; and

b) In the case of cash generating unit (a group of asset that generates identified, independent cash flow), at the higher of the cash generating unit's fair value less cost to sell and the value in use.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discounting rate that reflect the current market assessment of the time value of the money and the risk specific to the asset. In determining fair value less cost of disposal, recent market transaction is taken into account. If no such transaction can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples, quoted share prices for publicly traded companies or other available fair value indicators.

The Group bases its impairment calculation on detailed budgets and forecast calculations which are prepared separately for each of the Group's cash-generating units to which the individual assets are allocated. These budgets and forecast calculations are generally covering a period of five years. For longer periods, a long term growth rate is calculated and applied to project future cash flows after the fifth year.

3.8 Financial Instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

A) Financial Assets

Initial Recognition and measurement of Financial Assets

All financial assets are recognised initially at fair value plus or minus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset.

Financial assets are classified, at initial recognition, in the same manner as described in subsequent measurement.

Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognised on the trade date, i.e. the date the Group commits to purchase or sell the asset

Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in four categories:

- (a) Financial assets at amortised cost
- (b) Financial assets at fair value through other comprehensive income (FVTOCI)
- (c) Financial assets at fair value through profit or loss (FVTPL)
- (d) Equity instruments measured at fair value through other comprehensive income (FVTOCI)

(a) Financial assets at amortised cost

A financial asset that meets the following two conditions is measured at amortised cost (net of any write down for impairment) unless the asset is designated at fair value through profit or loss under the fair value option.

i) Business model test : The objective of the Group's business model is to hold the financial asset to collect the contractual cash flows (rather than to sell the instrument prior to its contractual maturity to realize its fair value changes).

ii) Cash flow characteristics test : The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in the profit or loss. The losses arising from impairment are recognised in the profit or loss.

Notes to the consolidated financial statements for the year ended 31st March, 2021

Effective Interest Rate (EIR) method is a method of calculating the amortised cost of a debt instrument and of allocating interest income over the relevant period. The effective rate is the rate that exactly discounts estimated future cash receipts (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the debt instrument or where appropriate, a shorter period to the net carrying amount on initial recognition

(b) Financial assets at fair value through other comprehensive income (FVTOCI)

A financial asset that meets the following two conditions is measured at fair value through other comprehensive income unless the asset is designated at fair value through profit or loss under the fair value option.

i) Business model test : The financial asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets.

ii) Cash flow characteristics test : The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

(c) Financial assets at fair value through profit or loss (FVTPL)

FVTPL is a residual category for financial assets. Any financial asset, which does not meet the criteria for categorization as at amortized cost or as FVTOCI, is classified as at FVTPL.

In addition, the Group may elect to designate a financial asset, which otherwise meets amortized cost or FVTOCI criteria, as at FVTPL. However, such election is allowed only if doing so reduces or eliminates a measurement or recognition inconsistency (referred to as 'accounting mismatch') that would otherwise arise from measuring financial assets and financial liabilities or recognising the gains or losses on them on different bases.

Financial assets included within the FVTPL category are measured at fair value with all changes recognized in the statement of profit and loss.

(d) Equity instruments measured at fair value through other comprehensive income (FVTOCI)

Equity instruments which are held for trading are classified as at FVTPL. For all other equity instruments, the Group may make an irrevocable election to present in other comprehensive income subsequent changes in the fair value. The Group makes such election on an instrument by instrument basis. The classification is made on initial recognition and is irrevocable.

If an equity investment is not held for trading, an irrevocable election is made at initial recognition to measure it at fair value through other comprehensive income with only dividend income recognised in the statement of profit and loss.

If the Group decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from other comprehensive income to statement of profit and loss, even on sale of investment. However, the Group may transfer the cumulative gain or loss within equity.

Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the statement of profit and loss.

Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised (i.e. removed from the Group's financial statement) when:

The rights to receive cash flows from the asset have expired, or

The Group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either:

(i) the Group has transferred substantially all the risks and rewards of the asset, or

(ii) the Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Group has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Group continues to recognise the transferred asset to the extent of the Group's continuing involvement. In that case, the Group also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Group has retained.

Notes to the consolidated financial statements for the year ended 31st March, 2021

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Group could be required to repay.

Write Off

An entity shall directly reduce the gross carrying amount of a Financial Asset when the entity has no reasonable expectation of recovering a financial asset in its entirety or for a portion thereof.

Impairment of financial assets

The Group applies expected credit losses (ECL) model for measurement and recognition of impairment loss on the following financial assets:

- (a) Financial assets measured at amortised cost
- (b) Financial assets measured at fair value through other comprehensive income (FVTOCI)

Expected Credit Losses are measured through either 12 month ECL or lifetime ECL and it is assessed as following:

For recognition of impairment loss on financial assets, the Group determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If, in the subsequent period, credit quality of the instrument improves, such that there is no longer a significant increase in credit risk since initial recognition, then the entity reverts to recognising impairment loss allowance based on 12-month ECL.

Lifetime ECL are the expected credit losses resulting from all possible default events over the expected life of a financial instrument. The 12-month ECL is a portion of the lifetime ECL which results from default events that are possible within 12 months after the reporting date.

The Group follows 'simplified approach' for recognition of impairment loss allowance on trade receivables. The application of simplified approach does not require the Group to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

The Group follows a provision matrix to determine impairment loss allowance on the portfolio of trade receivables. The provision matrix is based on its historical observed default rates over the expected life of the trade receivables and is adjusted for forward looking estimates. At every reporting date, the historical observed default rates are updated and changes in the forward looking estimates are analysed.

For assessing increase in credit risk and impairment loss, the Group combines financial instruments on the basis of shared credit risk characteristics with the objective of facilitating an analysis that is designed to enable significant increases in credit risk to be identified on a timely basis.

B) Financial liabilities

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The Group's financial liabilities include loans and borrowings, trade and other payables and derivative financial instruments.

Subsequent measurement

The measurement of financial liabilities depends on their classification, as described below:

(a) Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss.

Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the Group that are not designated as hedging instruments in hedge relationships as defined by Ind AS 109. Separated embedded derivatives are also classified as held for trading unless they are designated as effective hedging instruments.

Gains or losses on liabilities held for trading are recognised in the statement of profit and loss.

Financial liabilities designated upon initial recognition at fair value through profit or loss are designated as such at the initial date of recognition, and only if the criteria in Ind AS 109 are satisfied.

(b) Loans and borrowings

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the effective interest rate (EIR) method. Gains and losses are recognised in statement of profit and loss when the liabilities are derecognised as well as through the EIR amortisation process.

Notes to the consolidated financial statements for the year ended 31st March, 2021

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit and loss.

(c) Financial Guarantee Contracts

Financial guarantee contracts issued by the Group are those contracts that require a payment to be made to reimburse the holder for a loss it incurs because the specified debtor fails to make a payment when due in accordance with the terms of a debt instrument. Financial guarantee contracts are recognised initially as a liability at fair value, adjusted for transaction costs that are directly attributable to the issuance of the guarantee. Subsequently, the liability is measured at the higher of the amount of loss allowance determined as per impairment requirements of Ind AS 109 and the amount recognised less cumulative amortisation.

Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit and loss.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realize the assets and settle the liabilities simultaneously.

Derivative financial instruments and hedge accounting

The Group enters into derivative contracts such as forward currency contract, option contract and cross currency and interest rate swaps to hedge foreign currency risks and interest rate risks. Such derivative financial instruments are initially recognised at fair value on the date on which a derivative contract is entered into and are subsequently re-measured at fair value. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative.

Any gains or losses arising from changes in the fair value of derivatives are taken directly to profit or loss, except for the effective portion of cash flow hedges, which is recognised in other comprehensive income and later reclassified to statement of profit and loss when the hedge item affects profit or loss.

3.9 Cash and cash equivalents

Cash and cash equivalent in the balance sheet comprises cash in hand, cash at banks and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash in hand, cash at banks and short-term deposits, as defined above, net of outstanding bank overdrafts, if any, as they are considered an integral part of the cash management.

3.10 Foreign currency Transactions

The Group's consolidated financial statements are presented in Indian Rupee (Rs.) which is also Group's functional currency.

Foreign currency transactions are recorded on initial recognition in the functional currency, using the exchange rates prevailing on the date of transaction. At each balance sheet date, foreign currency monetary items are reported using the closing exchange rate. Exchange rate differences that arise on settlement of monetary items or on translating of monetary items at each balance sheet reporting date at the closing rate are recognised as income or expense in the period in which they arise except exchange difference on monetary items that qualify as a hedging instrument in a cash flow hedge are recognised initially in OCI to the extent the hedge is effective.

Non-monetary items which are carried at historical cost denominated in a foreign currency are reported using the exchange rates prevailing at the date of the transaction. Non-monetary items measured at fair value in a foreign currency are reported using the exchange rates prevailing at the date when fair value is determined.

When a gain or loss on non-monetary items is recognised in OCI any exchange component of that gain / loss shall be recognised in OCI, conversaly when a gain or loss on a non-monetary item is recognised in Profit / loss any exchange component of that gain/loss shall be recognised in Profit / Loss.

3.11 Fair Value Measurement

The Group measures financial instruments, such as, derivatives at fair value at each balance sheet date.

Notes to the consolidated financial statements for the year ended 31st March, 2021

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- (a) In the principal market for the asset or liability, or
- (b) In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Group.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest. A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the consolidated financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities

Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable

Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the consolidated financial statements on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the Group has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

3.12 **Inventories**

Raw materials

Inventories are valued at cost or net realisable value whichever is lower. Cost is determined by using the Weighted average method. Net realisable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and the estimated costs necessary to make the sale.

Finished Goods and Traded Goods

Inventories are valued at lower of cost and net realisable value. Finished goods include cost of conversion and other cost incurred for bringing the inventories to their present location and condition and Traded Goods includes purchase price and other cost incurred for bringing the inventories to their present location and condition.

Stores & Spareparts

Store and Spare Parts are valued at Cost.

3.13 **Employee Benefits**

Short Term Employee Benefits

Short term employee benefits are expensed as the related service is provided. A liability is recognised for the amount expected to be settled wholly before twelve months after the year end, if the Group has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably. It includes Salary, wages, paid annual leave.

Post Employment Benefits

Defined Contribution Plan

Retirement benefits in the form of contribution to Provident fund are defined contribution plans. The contributions are charged to the statement of profit and loss as and when due monthly and are paid to the Government administered Provident Fund towards which the Group has no further obligation beyond its monthly contribution. Superannuation benefit scheme is not existing in the Group.

Notes to the consolidated financial statements for the year ended 31st March, 2021

Defined benefit plans

The Group operates defined benefit plan viz., gratuity. The costs of providing benefits under this plan are determined on the basis of actuarial valuation at each year-end. Actuarial valuation is carried out for the plan using the projected unit credit method.

Defined benefit costs are comprised of:

- a) service cost (including current service cost, past service cost, as well as gains and losses on curtailments and settlements);
- b) Net interest expense or income; and
- c) Re-measurement.

The Group presents the first two components of defined benefit costs in profit or loss in the line item 'Employee benefits expense'. Curtailment gains and losses are accounted for as past service costs. Re-measurement of net defined benefit liability/ asset pertaining to gratuity comprise actuarial gains/ losses (i.e. changes in the present value resulting from experience adjustments and effects of changes in actuarial assumptions) and is reflected immediately in the balance sheet with a charge or credit recognised in other comprehensive income in the period in which they occur. Remeasurement recognised in other comprehensive income is reflected immediately in retained earnings and is not reclassified to profit or loss.

3.14 Borrowing Cost

Borrowing costs that are directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the respective asset. All other borrowing costs are expensed in the period in which it is incurred.

Borrowing costs include interest expense calculated using the effective interest rate method as described in Ind AS 109- Financial Instruments, finance charges in respect of finance leases are recognised in accordance with Ind AS 116- Leases and exchange differences arising from foreign currency borrowings to the extent that they are regarded as an adjustment to interest costs.

3.15 Income Taxes

Income tax expense represents the sum of the tax currently payable and deferred tax. It is recognised in statement of profit and loss except to the extent that it relates to a business combination, or items recognised directly in equity or in other comprehensive income.

Current Tax

Current income tax represents the tax currently payable on the taxable income for the year and any adjustment to the tax in respect of the previous years. It is measured using tax rates enacted or substantively enacted at the reporting date.

Deferred Tax

Deferred tax is provided using the balance sheet approach on temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are reassessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognised outside profit or loss is recognised outside the statement of profit and loss. Deferred tax items are recognised in correlation to the underlying transaction either in other comprehensive income or directly in equity.

Deferred tax assets and liabilities are offset only if:

- (i) entity has a legally enforceable right to set off current tax assets against current tax liabilities; and
- (ii) deferred tax assets and the deferred tax liabilities relate to the income taxes levied by the same taxation authority.

Current and deferred tax is recognised in the statement of profit and loss, except to the extent that it relates to items recognised in the Other Comprehensive Income or directly in equity. In this case, tax is also recognised in other comprehensive income or directly in equity, respectively.

Notes to the consolidated financial statements for the year ended 31st March, 2021

3.16 Provisions, Contingent Liabilities and Contingent Assets

General

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. When the Group expects some or all of a provision to be reimbursed, the reimbursement is recognised as a separate asset, but only when the reimbursement is virtually certain. The expense relating to a provision is presented in the statement of profit and loss net of any reimbursement.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

Contingent Liabilities and Assets

Contingent Liabilities are not recognised but are disclosed in the notes. Contingent Assets are not recognised but disclosed in the consolidated financial statements when economic inflow is probable.

3.17 Earnings per Share

Basic earnings per share is calculated by dividing the net profit or loss for the period after deducting any attributable tax thereto for the period by the weighted average number of equity shares outstanding during the period. For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period is adjusted for the effects of all dilutive potential equity shares.

3.18 Current and Non-current Classification

The Group presents assets and liabilities in the balance sheet based on current/ non current classification.

An asset is current when:

- It is expected to be realised or intended to be sold or consumed in normal operating cycle (twelve months),
- It is held primarily for the purpose of trading,
- It is expected to be realised within twelve months after the reporting period,
- It is cash or cash equivalents unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in normal operating cycle (twelve months),
- It is held primarily for the purpose of trading,
- It is due to be settled within twelve months after the reporting period,

Or

- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

All other liabilities are classified as non-current.

3.19 Business Combination

Business combinations, if any, are accounted for using the acquisition accounting method as at the date of the acquisition, which is the date at which control is transferred to the Group. The consideration transferred in the acquisition and the identifiable assets acquired and liabilities assumed are recognised at fair values on their acquisition date. Goodwill is initially measured at cost, being the excess of the aggregate of the consideration transferred and the amount recognised for non-controlling interests, and any previous interest held, over the net identifiable assets acquired and liabilities assumed. If the Goodwill computed as per IND AS 103 is negative, the acquirer needs to reassess the identification and measurement of the acquiree's identifiable assets, liabilities and contingent liabilities and the measurement of the cost of combination. If negative goodwill remains, this is recognised immediately in OCI and accumulated in equity as Capital Reserve. The Group recognises any non-controlling interests, and any previous interest held, over the net identifiable assets acquired and liabilities assumed. The Group recognises any non-controlling interest in the acquired entity on an acquisition-by-acquisition basis either at fair value or at the non-controlling interest's proportionate share of the acquired entity's net identifiable assets. Consideration transferred does not include amounts related to settlement of pre-existing relationships. Such amounts are recognised in the Statement of Profit and Loss.

Notes to the consolidated financial statements for the year ended 31st March, 2021

Transaction costs are expensed as incurred, other than those incurred in relation to the issue of debt or equity securities. Any contingent consideration payable is measured at fair value at the acquisition date. Subsequent changes in the fair value of contingent consideration are recognised in the statement of Profit and Loss.

If there is an acquisition of an asset or a group of assets that does not constitute a business. In such cases the Group shall identify and recognise the individual identifiable assets acquired (including those assets that meet the definition of, and recognition criteria for, intangible assets in Ind AS 38, Intangible Assets) and liabilities assumed. The cost of the group shall be allocated to the individual identifiable assets and liabilities on the basis of their relative fair values at the date of purchase. Such a transaction or event does not give rise to goodwill.

42 FAIR VALUE MEASUREMENT

The fair value of the financial assets and liabilities are included at the amount at which the instrument could be exchanged in a current transaction between willing parties other than in a forced or liquidation sale.

The following methods and assumptions were used to estimate the fair values:

- (1) Fair value of cash and short-term deposits, trade and other short term receivables, trade payables , other current liabilities, short-term loans from banks and other financial institutions approximate their carrying amounts largely due to the short term maturities of these instruments.
- (2) Financial instruments with fixed and variable interest rate are evaluated by the Company based on parameter such as interest rates and individual credit worthiness of the counterparty. Based on this evaluation, allowances are taken into account for the expected losses of these receivables.

The Company uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique.

Level 1 : Quoted (unadjusted) prices in active markets for identical assets or liabilities.

Level 2 : Other techniques for which all inputs which have a significant effects on the recorded fair value are observable, either directly or indirectly.

Level 3 : Techniques which use inputs that have a significant effects on the recorded fair value that are not based on observable market data.

43 FINANCIAL RISK MANAGEMENT OBJECTIVE AND POLICIES

The Company's principal financial liabilities, other than derivatives, comprise loans and borrowings, trade and other payables and advances from customers. The main purpose of these financial liabilities is to finance the Company's operations, projects under implementation and to provide guarantees to support its operations. The Company's principal financial assets include Investment, loans and advances, trade and other receivables and cash and bank balances that derive directly from its operations.

The Company is exposed to market risk, credit risk and liquidity risk. The Company's financial risk management is an integral part of how to plan and execute its business strategies. The Company's financial risk management policy is set by the Managing Board.

All derivative activities for risk management purposes are carried out by specialist teams that have the appropriate skills, experience and supervision. It is the Company's policy that no trading in derivatives for speculative purposes to be undertaken. The Board of Directors reviews and finalises policies for managing each of these risks, which are summarised below.

A. Market Risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: Interest rate risk, Currency risk and Commodity price risk. Financial instruments affected by market risk include investments and deposits, foreign currency receivables, payables, loans and borrowings and derivative financial instruments.

The Company manages market risk through a treasury department, which evaluates and exercises independent control over the entire process of market risk management. The treasury department recommends risk management objectives and policies, which are approved by Senior Management and the Audit Committee. The activities of this department include management of cash resources, implementing hedging strategies for foreign currency exposures, borrowing strategies and ensuring compliance with market risk limits and policies.

(i) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. In order to optimize the Company's position with regard to interest income and interest expenses to manage the interest rate risk, treasury performs a comprehensive corporate interest rate risk management by balancing the proportion of fixed rate and floating rate financial instruments in its total portfolio.

Interest rate sensitivity

The following table demonstrates the sensitivity to a reasonably possible change in interest rates on the unhedged portion of loans and borrowings. With all other variables held constant, the Company's profit before tax is affected through the impact on floating rate borrowings, as follows:

	(Rs in Lacs)	
	2020-21	2019-20
	(+/-) 50	(+/-) 50
	Basis Points	Basis Points
Effect on profit before tax due to interest rate sensitivity	32.08	29.20

(ii) Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Company's exposure to the risk of changes in foreign exchange rates relates primarily to the Company's operating and financing activities. The Company manages its foreign currency risk by hedging transactions that are expected to realise in future.

Domestic market prices are also generally remains in sync with international market price scenario. Volatility in Crude Oil prices, Currency fluctuation of Rupee vis-à-vis other prominent currencies coupled with demand-supply scenario in the world market affect the effective price and availability of polymers for the Company. Company effectively manages with availability of material as well as price volatility through:

1. Widening its sourcing base
2. Appropriate contracts and commitments
3. Well planned procurement & inventory strategy and
4. Prudent hedging policy on foreign currency exposure

Risk committee of the Company comprising members from Board of Directors and operations has developed and enacted a risk management strategy regarding commodity Price risk and its mitigation.

B. Credit Risk

Credit risk is the risk that a counter party will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Company is exposed to credit risk from its operating activities (primarily trade receivables and advances to suppliers) and from its financing activities, including deposits and other financial instruments.

(i) Trade Receivables

Customer credit risk is managed by each business unit subject to the Company's established policy, procedures and control relating to customer credit risk management. Outstanding customer receivables are regularly monitored. An impairment analysis is performed at each reporting date on an individual basis for major clients. The Company evaluates the concentration of risk with respect to trade receivables as low, as its customers are located in several jurisdictions and operate in largely independent markets.

The ageing analysis of the receivables (gross of provisions) have been considered from the date of the invoice.

44 CAPITAL MANAGEMENT

A. For the purpose of the Company's capital management, equity includes issued equity capital, securities premium and all other equity reserves attributable to the equity share holders, including capital reserve and net debt includes interest bearing loans and borrowings except cash and cash equivalents. The primary objective of the Company's capital management is to safeguard continuity, maintain a strong credit rating and healthy capital ratios in order to support its business and provide adequate return to shareholders through continuing growth.

The Company manages its capital structure and makes adjustments in light of changes in economic conditions and the requirements of the financial covenants. The funding requirement is met through a mixture of equity, internal accruals, long term borrowings and short term borrowings. The Company monitors capital using a gearing ratio, which is net debt divided by total capital plus net debt.

In order to achieve this overall objective, the Company's capital management, amongst other things, aims to ensure that it meets financial covenants attached to the interest-bearing loans and borrowings that define capital structure requirements.

53 LEASES

Ministry of Corporate Affairs ("MCA") through Companies (Indian Accounting Standards) Amendment Rules, 2019 and Companies (Indian Accounting Standards) Second Amendment Rules, has notified Ind AS 116 Leases which replaces the existing lease standard, Ind AS 17 Leases and other interpretations. Ind AS 116 sets out the principles for the recognition, measurement, presentation and disclosure of leases for both lessees and lessors. It introduces a single, on-balance sheet lease accounting model for lessees.

Notes to the consolidated financial statements for the year ended 31st March, 2021

Effective April 1, 2019, the Company has adopted Ind AS 116 "Leases" using modified retrospective approach. The Company's lease asset classes primarily consist of leases for buildings, machinery and warehouses. These leases were classified as "Cancellable Operating Leases" under Ind AS 17. On transition to Ind AS 116 "Leases", the Company has used following practical expedient, when applying Ind AS 116 to leases previously classified as operating leases under Ind AS 17.

- The company didn't recognized Right to Use and Lease liabilities for lease for which the lease terms pertaining to the uncancellable period ends within 12 months on the date of initial transition and low value assets.
- The Company excluded initial direct cost from measurement of the Right to Use assets at the date of initial application.
- The Company uses hindsight in determining the lease term where the contract contains options to extend or terminate the lease.

Hence, the Company has recognised the lease payments associated with those leases as an expense on a straight line basis over the lease term. Lease liabilities were measured at the present value of remaining lease payments, discounted at the Company's actuarial discounting rate. Right to Use is measured at an amount equal to the lease liability adjusted by the amount of any prepaid or accrued lease payments.
