## Enclosure

Dear (Name of Shareholders),

Ref: Folio No. / DP-Client ID: \_\_\_\_\_

We are pleased to inform you that the Annual General Meeting (AGM) of our Company will be held through Video Conferencing (VC) facility on 28.09.2021 at 11 am .

The Annual Report along with the Notice of AGM is available and can be downloaded from our website [www.galadapower.com](http://www.galadapower.com), website of the Stock Exchange i.e., BSE Limited at [www.bseindia.com](http://www.bseindia.com), and in the website of National Securities Depository Limited (NSDL) at <https://www.evoting.nsdl.com>;

In view of the outbreak of COVID-19 pandemic, social distancing norm to be followed and the continuing restriction on movement of persons at several places in the country and pursuant to General Circulars dated April 08, 2020, April 13, 2020, May 05, 2020, September 28, 2020, December 31, 2020 and January 13, 2021 issued by the Ministry of Corporate Affairs ("MCA") (collectively referred to as 'MCA Circulars') and SEBI Circular dated May 12, 2020 and January 15, 2021 ('SEBI Circulars') the holding of the AGM through VC without the physical presence of the Members at a common venue is permitted. In compliance with the above and the relevant provisions of the Companies Act, 2013 ('the Act') and SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 ('Listing Regulations'), the AGM of the Company is being held through VC **only** on **Tuesday, September 28, 2021 at 11:00 a.m.** (IST).

Pursuant to the provisions of Section 108 of the Act read with Rule 20 of the Companies (Management and Administration) Rules, 2014 (as amended), the Secretarial Standard on General Meetings issued by Institute of Company Secretaries of India and Regulation 44 of the Listing Regulations, as amended and the MCA Circulars, the Company is providing the facility of remote e-Voting to its Members in respect of the businesses to be transacted at the AGM and for this purpose, it has appointed NSDL to facilitate voting through electronic means. Accordingly, the facility of casting votes by a Member using remote e-Voting system before the AGM as well as remote e-Voting during the AGM will be provided by NSDL.

The remote e-Voting facility would be available during the following period:

<b>Commencement of e-Voting</b>	<b>10 AM on 25.09.2021</b>
<b>End of e-Voting</b>	<b>5 PM on 27.09.2021</b>

During this period, Members holding shares either in physical form or in dematerialized form as on **21.09. 2021 ('Cut-Off date')** may cast their vote by remote e-Voting before the AGM. The remote e-Voting module shall be disabled by NSDL for voting thereafter. Once the vote on a resolution is cast by the Member, he / she shall not be allowed to change it subsequently. The voting rights of the Members shall be in proportion to their share of the paid-up equity share capital of the Company as on the Cut-Off date i.e., **21.09. 2021**.

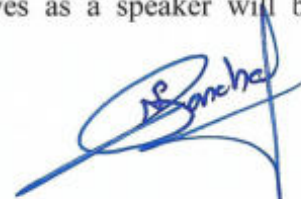

Members will be provided with the facility for remote voting through electronic voting system during the VC proceedings at the AGM and those Members participating at the AGM, who have not already cast their vote by remote e-Voting before the Meeting, will be eligible to exercise their right to vote during such proceedings of the AGM. Members who have cast their vote on resolution(s) by remote e-Voting prior to the AGM will also be eligible to participate at the AGM through VC but shall not be entitled to cast their vote on such resolution(s) again.

**Detailed procedure for remote e-Voting before the AGM / remote e-Voting during the AGM are attached .**

Dear Shareholders,

Mr Nitin V Panchal, Resolution Professional, presents the 49<sup>th</sup> Annual Report and the audited financial statements for the financial year ended March 31, 2021.

### BACKGROUND:

This is to appraise the members that pursuant to an application filed by Stressed Assets Stabilization Fund (SASF) before the Hon'ble National Company Law Tribunal, Hyderabad Bench ("NCLT") in terms of Section 7 of the Insolvency and Bankruptcy Code, 2016 read with the rules and regulations framed there under ("Code"), NCLT had admitted the application and ordered the commencement of corporate insolvency resolution process ("CIR Process") of Galada Power and Telecommunication Limited ("GPTL/Corporate Debtor/Company") vide its order dated 14th August 2019 ("Admission Order"). NCLT had, pursuant to the Admission Order, appointed Mr. Nitin V Panchal as an interim resolution professional (IRP) for the Corporate Debtor. In terms of the Admission Order, inter alia, the management of the affairs of the Corporate Debtor was vested with IRP. Thereafter, the Committee of Creditors (CoC) of the Corporate Debtor appointed Mr. Nitin V Panchal as the resolution professional for the Corporate Debtor ("RP").

In terms of Section 17 of the Code, on commencement of CIRP, the powers of the Board of Directors of GPTL stand suspended and the same are exercised by RP. The management of the affairs of GPTL has also been vested with RP till the time resolution plan is approved by CoC and further approved by NCLT under the Code. The suspended Directors have handed over physical records of the Company to the Resolution Professional.

### FINANCIAL RESULTS

The financial statements for the financial year ended March 31, 2021, forming part of this Annual Report, have been prepared in accordance with the Indian Accounting Standards (Ind AS) as notified by the Ministry of Corporate Affairs.

The Company's financial performance, for the year ended 31<sup>st</sup> March, 2021 and period ended 31<sup>st</sup> March, 2020 is summarized below:-

Rs. in Lacs

Particulars	Year ended 31st March 2021	Year ended 31st March 2020

Interest	15	119
Cash Profit	(143)	(313)
Depreciation	62	69
Exceptional Item	24	---
Profit Before Tax	(229)	(383)
Profit After Tax	(229)	(383)
Dividend	---	---

#### OPERATIONS AND STATE OF AFFAIRS OF THE COMPANY:

The Company is in CIRP under the Code and during the period under review, the Company did not have any business activity and the period ended with a loss of Rs. 229 lakhs as compared to the previous year loss of Rs. 383 lakhs.

During the month of July 2020, an incident of theft was identified by the employees of the Company at Khadoli Silvassa Unit of the company. Certain internal parts of certain machines were stolen. The Resolution Professional has lodged police complaints (online) with jurisdictional police authorities and the investigations for the same are going on. The matter was reported to the CoC immediately and post approval of the CoC, in August 2020 the RP replaced the security service provider, following due procedure and as per the directions of the CoC. Insurance policy in force at the time of theft did not cover the burglary, the company could not file an Insurance Claim for the same. The written down value of the parts stolen is charged to Profit and Loss Account as exceptional item.

The present pandemic situation on account of COVID-19 has been a challenge for the people, communities, business, countries and the world as a whole. It has disruptive impact beyond any parallel. However, during the entire lockdown, the RP and his team with the support and co-operation of the employees of the Company has handled all the functions in compliance with the Code.

#### DIVIDEND & TRANSFER TO RESERVE:

During the year under review, since the Company is in CIRP and due to current year losses, no dividend on the equity shares of the Company has been recommended and no amount is proposed to be transferred to the reserves.

## **STATUS OF CORPORATE INSOLVENCY RESOLUTION PROCESS (CIRP)**

The Hon'ble National Company Law Tribunal, Hyderabad Bench, vide their order IA No 40 of 2020, CP (IB) No.384 /7/HDB/2018 dated 7<sup>th</sup> February 2020, approved the extension of CIRP period by 60 days w.e.f. 10<sup>th</sup> February 2020.(i.e. from 180 days to 240 days).

In response to the application dated 03.12.2020 filed by the RP seeking the exclusion of COVID lockdown period, NCLT, Hyderabad bench vide its order dated 10.06.2021 has granted exclusion period of 106 days on account of COVID 19 with a direction to complete CIRP within the excluded period of 106 days with effect from 10.06.2021 i.e., upto 23.09.2021

Consequent to receipt of above order, RP with the concurrence of CoC on 15<sup>th</sup> June 2021 invited second round of Expression of Interest (EOI) for resolution plan. Four Resolution Applicants (RA) submitted their resolution plans out of which only three Resolution Plans were compliant with the Code and the same were presented to CoC in their meeting held on 18<sup>th</sup> August 2021. Further negotiation with these three Resolution applicants are presently going on. Based on the outcome of the negotiations, all the Resolution Plans will be put up for voting and the relevant application will be filed with Hon'ble NCLT as per the provisions of IBC-2016

RP has also filed Miscellaneous Application IA 89/2020 before Hon'ble NCLT, Hyderabad bench against the Ex-Management, contesting the payments of remuneration and repayment of unsecured loans to Managing Director and Executive Director respectively as 'Preferential Payments' invoking the applicable provisions of the Code and the proceedings are in progress for the same.

## INDEPENDENT AUDITOR'S REPORT

**TO THE MEMBERS OF GALADA POWER AND TELECOMMUNICATION LIMITED, HYDERABAD.**

### Report on the Audit of the Financial Statements

#### Opinion

We have audited the financial statements of **GALADA POWER AND TELECOMMUNICATION LIMITED** ("the Company"), which comprise the balance sheet as at 31st March 2021, the statement of Profit and Loss (including Other Comprehensive Income), statement of changes in equity, statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India including the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, (Ind AS), of the state of affairs of the Company as at March 31, 2021, its loss, the total comprehensive income, changes in equity and its cash flows for the year ended on that date.

#### Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the financial statements.

### **Material Uncertainty Related to Going Concern**

We draw attention to Note 1 to the financial statements which indicates that the company has net accumulated losses of Rs. 10,920.65 lakhs as at the year ended March 31, 2021, and as of that date the company's current liabilities exceeded its total assets by Rs. 5,315.49 lakhs. These conditions, along with other matters as set forth in the said Note, indicate the existence of a material uncertainty that may cast significant doubt about the company's ability to continue as a going concern.

Our opinion is not modified in respect of this matter.

### **Emphasis of Matter:**

We draw attention to the following matters in the Notes to the financial statements:

- a. Note 28 to the financial statements regarding the Claims received by Resolution Professional
- b. Note 32 to the financial statements on non-compliance with the provisions of Sec-205-A (1) of the Companies Act, 1956 regarding transfer of unpaid dividend to a special Bank Account.
- c. Note 33 to the financial statements regarding the appointment and payment of Managerial Remuneration.
- d. Note 31 the financial statements regarding the utilisation of available GST credits.

Our opinion is not modified in respect of these matters.

### **Key Audit Matters**

Key Audit Matters ('KAM') are those matters that, in our professional judgement, were of most significance in our audit of the financial statements of current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. In addition to the matter described in the Material Uncertainty Related to Going Concern section, we have determined the matters described below to be the key audit matters to be communicated in our report

#### **KAM Title**

*Valuation of Deferred Tax Assets*

#### **KAM Description**

The company has not recognised deferred tax asset for deductible temporary differences and unused tax losses. As the utilisation of deferred tax assets is dependent on the company's ability to generate future taxable profits sufficient to utilise deductible temporary differences and tax losses before they expire. We determined this to be a key audit matter due to the inherent limitations in estimation and uncertainty in forecasting the amount and timing of future taxable profits and the reversal of temporary differences and utilisation of tax losses.

Management has supported the non-recoverability of the deferred tax assets mainly with taxable income projections which contain estimates of and tax strategies for future taxable income. Changes in the industrial scenario, the business and its markets and changes in regulations may impact these projections.

#### **Our Response**

Our audit procedures included, among others, evaluating the projected tax computations prepared by the company to assess the recognition and measurement of the current and deferred tax assets and liabilities and evaluate the compliance with the tax legislation. We paid attention to the long-term forecasts and critically assessed the assumptions and judgments underlying these forecasts by considering the historical accuracy of forecasts and the sensitivities of the profit forecasts. We assessed the adequacy and the level of estimation involved.

### **Other Information**

The Company's Resolution Professional is responsible for the other information. The other information comprises the information included in the company's annual report but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether such other information is materially inconsistent with the financial statements, or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

### **Responsibilities of Management and Those Charged with Governance for the Financial Statements**

The Company's Resolution Professional is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance, total comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Resolution Professional is also responsible for overseeing the Company's financial reporting process.

### **Auditor's Responsibilities for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Standards on Auditing, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure, and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

#### **Report on Other Legal and Regulatory Requirements:**

1. As required by the Companies (Auditor's Report) Order, 2016 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Companies Act, 2013, we give in the 'Annexure A' a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
2. As required by Section 143 (3) of the Act, we report that:
  - (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
  - (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books
  - (c) The Balance Sheet, the Statement of Profit and Loss, the statement of changes in equity and the Cash Flow Statement dealt with by this Report are in agreement with the books of account.

- (d) In our opinion, the aforesaid financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.

**Annexure – B to the Auditors' Report**

**Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")**

We have audited the internal financial controls with reference to the financial statements of **GALADA POWER AND TELECOMMUNICATION LIMITED, HYDERABAD** ("the Company") as of 31 March 2021 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

**Management's Responsibility for Internal Financial Controls:**

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control with reference to the financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

**Auditors' Responsibility:**

Our responsibility is to express an opinion on the Company's internal financial controls with reference to the financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to the financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system with reference to the financial statements and their operating effectiveness. Our audit of internal financial controls with reference to the financial statements included obtaining an understanding of internal financial controls with reference to the financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

**Meaning of Internal Financial Controls with Reference to the Financial Statements:**

A company's internal financial control with reference to the financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control with reference to the financial statements includes those policies and procedures that:

1. pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
2. provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and
3. provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

**Inherent Limitations of Internal Financial Controls with Reference to the Financial Statements:**

Because of the inherent limitations of internal financial controls with reference to the financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to the financial statements to future periods are subject to the risk that the internal financial control with reference to the financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

**Opinion:**

In our opinion, the Company has, in all material respects, an adequate internal financial controls system with reference to the financial statements and such internal financial controls with reference to the financial statements were operating effectively as at 31 March 2021, based on the internal control with reference to the financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

**1. Corporate information:**

GALADA POWER AND TELECOMMUNICATION LIMITED was incorporated on 24.06.1972 to manufacture Aluminum conductors and other allied products and is listed on the Bombay Stock Exchange (BSE).

The Company has recorded a net Loss of Rs. 227.13 Lakhs for the year and it has accumulated losses of Rs. 10,920.65 Lakhs as of March 31, 2021, resulting in total erosion of net worth. Further the Company has suspended its operations.

As the Company defaulted in the payment of dues to Financial Institutions and Banks, they have initiated legal proceedings to recover their dues.

Inter alia, SASF made an application before National Company Law Tribunal (NCLT), Hyderabad Bench to initiate Corporate Insolvency Resolution Process under Insolvency and Bankruptcy Code, 2016 claiming default by the company in repayment of dues. The company filed the counter praying for dismissal of the application and for a direction to be issued to SASF to honour their commitment of considering its OTS proposal. NCLT advised both the parties to mutually negotiate and settle the matter before admitting the application made by SASF and posted the case for hearing on 04.06.2019.

On 14th August 2019, Hon'ble National Company Law Tribunal (NCLT), Hyderabad Bench had admitted the petition for initiating Corporate Insolvency Resolution process (CIRP) under the Insolvency and Bankruptcy Code, 2016 (IBC) vide its order dated 14.08.2019 and appointed Mr. Nitin Viswanath Panchal as the Interim Resolution Professional (IRP) in terms of IBC. Mr. Nitin Viswanath Panchal was subsequently confirmed by the Committee of Creditors (CoC) as the Resolution Professional (RP). RP has taken over the charge of the affairs of the Company by suspending the Board with effect from 29.08.2019. By an order dated 07.02.2020, NCLT has extended the CIRP time period by further 60 days with effect from 10.02.2020.

The resolution plans submitted by Resolution Applicants were not approved by CoC. The Resolution Applicants made submissions to CoC for renegotiation and resubmission of Plans, which have been referred to NCLT by the Resolution Professional on 18.05.2020. The Application was dismissed by NCLT vide its order dated 27.10.2020 stating that it has neither jurisdiction nor authority under the code to interfere into the merits of commercial decisions taken by CoC. In response to the application dated 03.12.2020 filed by the RP seeking the exclusion of COVID lockdown period, NCLT, Hyderabad bench vide its order dated 10.06.2021 has granted exclusion period of 106 days on account of COVID 19 with a direction to complete CIRP within the excluded period of 106 days with effect from 10.06.2021 i.e., upto 23.09.2021

Though the above circumstances indicate that a material uncertainty exists that may cast a significant doubt on the company's ability to continue as a going concern, the Company is of the view that an acceptable Resolution Plan can be negotiated with CoC by the Resolution Applicants. Hence, the accompanying financial statements have been prepared on a "going concern" basis.

**2. Basis of Preparation:**

These statements are prepared complying in all material respects with the notified Accounting Standards by the Companies (Indian Accounting Standards) Rules, 2015 as amended from time to time and the relevant provisions of the Companies Act, 2013 and in accordance with the generally accepted accounting principles in India.

The financial statements have been prepared on historical cost basis, except for financial instruments which have been measured at fair value at the end of each reporting period, as required by relevant Ind AS and as explained in the accounting policies mentioned below.

**3. Significant Accounting policies:**

**a) Significant accounting estimates, assumptions, and judgements:**

The preparation of Company's financial statements requires management to make accounting estimates, assumptions and judgements that affect the reported amounts of revenues, expenses, assets and liabilities and the accompanying disclosures of contingencies at the end of the reporting period. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amounts of assets or liabilities in future periods.

**Estimates and Assumptions:**

The key assumptions concerning the future and other key sources of estimation of uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The assumptions and estimates made by the company are based on parameters available/prevaling when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market change or circumstances arising that are beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

**i. Impairment of non-current assets:**

Impairment exists when the carrying value of an asset or cash generating unit exceeds its recoverable amount, which is the higher of its fair value less costs of disposal and its value in use. The fair value less costs of disposal is calculated based on available data from binding sales transactions, conducted at arm's length, for similar assets or observable market prices less incremental costs for disposing of the asset. The value in use calculation is based on a Discounted Cash Flow ("DCF") model. The value in use is sensitive to the discount rate (generally weighted average cost of capital) used for the DCF model as well as the expected future cash-inflows and the growth rate used for exploration purposes.

**ii. Defined Benefit Plans:**

The present value of the gratuity obligation is determined using actuarial valuation. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, rate of increment in salaries and mortality rates. Due to complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All the assumptions are reviewed at each reporting date.

**iii. Fair Value measurement of financial instruments:**

When the fair values of financial assets and financial liabilities on reporting date cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques i.e., the DCF model. The inputs to these models are taken from observable markets.

**iv. Contingencies:**

Management judgement is required for estimating the possible inflow/outflow of resources, if any, in respect of contingencies/claims/litigations against the company/by the company as it is not possible to predict the outcome of pending matters with accuracy.

**v. Property, Plant and Equipment:**

Based on evaluations done by technical assessment team, the management has adopted the useful life and residual value of its Property, Plant and Equipment. Management believes that the assigned useful lives and residual value are reasonable.

**vi. Income Taxes:**

Management judgment is required for the calculation of provision for income taxes and deferred tax assets/liabilities. The Company reviews at each balance sheet date the carrying amount of deferred tax assets/liabilities. The factors used in estimates may differ from actual outcome which could lead to significant adjustment to the amounts reported in the financial statements.

**vii. Lifetime Expected Credit Loss on Trade Receivables and Other Receivables:**

Trade and Other Receivables do not carry any interest and are stated at their transaction value as reduced by lifetime expected credit losses ("LTECL"). Management has evaluated LTECL for different class of its debtors as follows:

Particulars	Up to 365 Days	365- 730 Days	730-1095 Days	Beyond 1095 Days
Expected loss	0.00	50.00	100.00	Write off
Rate (%)				

**b) Current Vs Non-current classifications**

The Company presents assets and liabilities in the balance sheet based on current/ non-current classification.

An asset is treated as current when it satisfies any of the following criteria:

- Expected to be realised or intended to be sold or consumed in normal operating cycle;
- Held primarily for the purpose of trading;
- Expected to be realised within twelve months after the reporting period, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current assets.

A liability is classified as current when it satisfies any of the following criteria:

- Expected to settle the liability in normal operating cycle;
- Held primarily for the purpose of trading;

- iii. Due to be settled within twelve months after the reporting period, or
- iv. There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

All other liabilities are classified as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents. However, a period of 12 months is considered as ultimate operating cycle.

**c) Property, Plant, and Equipment:**

Property, Plant and Equipment are stated at cost net of input credits, less accumulated depreciation, and impairment losses, if any. Cost comprises the purchase price and any attributable cost of bringing the asset to its working condition for its intended use. Borrowing costs relating to acquisition of property, plant and equipment which take substantial period of time to get ready for its intended use are also included to the extent they relate to the period till such assets are ready to be put to use.

The company adopted cost model as its accounting policy in recognition of the property, Plant and Equipment and recognises the transaction value as the cost.

Subsequent expenditure is capitalised to the asset's carrying amount only when it is probable that future economic benefits associated with the expenditure will flow to the company and the cost of the item can be measured reliably. All other repairs and maintenance costs are expensed when incurred.

Capital work in progress includes cost of property, plant, and equipment under installation/under development as at the balance sheet date.

An item of Property, Plant and Equipment is derecognised upon disposal or when no future economic benefits are expected from its use. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is recognised in the Statement of Profit and Loss. Property, Plant and Equipment which are found to be not usable or retired from active use or when no further benefits are expected from their use are removed from the books of account and the carrying value if any is charged to Statement of Profit and Loss.

Assets costing five thousand rupees or less are fully depreciated in the year of purchase.

Depreciation on Property, Plant and Equipment is provided based on the useful lives of the assets as estimated by the Management, which are in line with Schedule II to the Companies Act, 2013

Estimated useful life of the assets are as follows:

Type of the Asset	Method of Depreciation	Useful life considered (Years)
Buildings	SLM	30 – 60
Plant and Equipment	SLM	5-25
Furniture and Fittings	SLM	10
Vehicles	SLM	8-10
Computers	SLM	3
Office Equipment	SLM	5

**d) Impairment of non-financial assets:**

- i. The carrying amounts of assets are reviewed at each balance sheet date if there is any indication of impairment based on internal/external factors. An impairment loss is recognized wherever the carrying amount of an asset exceeds its recoverable amount. The recoverable amount is the greater of the asset's net selling price and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value at the weighted average cost of capital. After impairment, depreciation is provided on the revised carrying amount of the asset over its remaining useful life.
- ii. Reversal of impairment losses recognised in prior years is recorded when there is an indication that the impairment losses recognised for the asset no longer exists or have decreased. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised for the asset in prior years.

**e) Leases:**

The determination of whether an agreement is (or contains) a lease is based on the substance of the arrangement at the inception of the lease. The arrangement is, or contains, a lease if fulfilment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset or assets, even if that right is not explicitly specified in an arrangement.

**Classification on inception of lease:**

a. Operating lease:

Leases where the lessor effectively retains substantially all the risks and benefits of ownership of the leased item, are classified as operating leases.

b. Finance Lease:

A lease is classified as a financial lease where the lessor transfers substantially all the risks and rewards incidental to the ownership of the leased item.

**Accounting of Operating leases:**

a. Where the Company is the lessee:

At the date of commencement of the lease, the Company recognises a right-of-use asset ("ROU") and a corresponding lease liability for all lease arrangements in which it is a lessee, except for Cancellable leases and short-term leases having a lease term up to **36 months**. For remaining leases, the Company recognises the lease payments as an operating expense on a straight-line basis over the period of the lease. In case the escalation in operating lease payments is in line with the expected general inflation rate then the lease payments are charged to statement of profit and loss instead of straight-line method.

b. where the Company is the lessor:

Lease income is recognised in the Statement of Profit and Loss on a straight-line basis over the lease term. Initial direct costs such as legal costs, brokerage costs, etc., are added to the carrying amount of the leased asset and recognised as an expense over the lease term.

f) **Inventories:**

- i. Raw Materials, Stores and Spares and Consumables are stated at lower of Cost and Net realizable value. However, materials and other items held for use in the production of inventories are not written down below cost in which they will be incorporated and expected to be sold at or above cost. Cost is determined on FIFO basis.
- ii. Work-in-progress and finished goods are stated at the lower of cost and net realizable value.
- iii. Cost includes direct materials, labour and a proportion of manufacturing overheads based on actual production. Cost is determined on FIFO basis.
- iv. Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated costs necessary to make the sale.

g) **Revenue recognition:**

Revenue from contracts with customers includes Sale of Goods and Services and is recognised when control of goods or services are transferred to the customer at an amount that reflects the consideration entitled in exchange for those goods or services.

Revenue is measured at the fair value of consideration received or receivable and is recognized when the control in all respects, over the Goods or Services is transferred to and accepted by the customer and the company has not retained any significant risks of ownership and future obligations with respect to such Goods or Services. Specifically, the following basis is adopted for various sources of income:

- i. **Sale of goods:** Revenue is recognised when the significant risks and rewards of ownership of the goods have passed to the buyer and is disclosed net off discounts, taxes collected and returns.
- ii. **Income from Services:** Revenue is recognized as and when the Services are rendered as per the terms of individual Service Contract.
- iii. **Interest:** Interest Income is recognised on a time proportion basis taking into account the amount outstanding and the rate applicable.

iv. **Other Sundry incomes:** Insurance claims, conversion escalations are accounted for on accrual basis.

**h) Borrowing Costs:**

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the borrowing costs.

**i) Retirement and other employee benefits:**

i. Employer's contribution to Provident Fund/Employee State Insurance which is in the nature of defined contribution scheme is expensed off when the contributions to the respective funds are due. There are no other obligations other than the contribution payable to the fund.

ii. The company operates a gratuity plan which is in the nature of defined benefit obligation. The company's liability is provided based on independent actuarial valuation on projected unit credit method made at the end of each financial year as per the requirements of Ind AS 19 on "Employee Benefits".

iii. Gratuity liability is considered as post-employment benefit expense as per Ind AS -19. Accordingly, re-measurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the period in which they occur, directly in other comprehensive income. They are included in the retained earnings in the statement of changes in equity and in the balance sheet.

iv. Accumulated leaves, which are expected to be utilised within the next twelve months, are treated as short-term employee benefits. The Company measures the expected cost of such absences as the additional amount that it expects to pay as a result of the unused entitlement that has accumulated at the reporting date.

The Company treats accumulated leaves expected to be carried forward beyond twelve months, as long-term employee benefit for measurement purposes. Such long-term compensated absences are provided for based on the actuarial valuation using the projected unit credit method at the year-end. Actuarial gains/losses are immediately taken to the statement of profit and loss and are not deferred.

**j) Earnings Per Share:**

Basic earnings per share are calculated by dividing the profit for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period.

For the purpose of calculating diluted earnings per share, the profit for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

**k) Provisions:**

Provisions are recognised when there is a present legal or constructive obligation that can be estimated reliably, as a result of a past event, when it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Provisions are not recognised for future operating losses.

Any reimbursement that the Company can be virtually certain to collect from a third party with respect to the obligation is recognised as a separate asset. However, this asset may not exceed the amount of the related provisions.

Provisions are reviewed at each reporting date and adjusted to reflect the current best estimate. If it is no longer probable that an outflow of economic resources will be required to settle the obligation, the provisions are reversed. Where the effect of the time of money is material, provisions are discounted using a current pre-tax rate that reflects, where appropriate, the risks specific to the liability. When discounting is used, the increase in the provisions due to the passage of time is recognised as a finance cost.

**l) Contingencies:**

Where it is not probable that an inflow or an outflow of economic resources will be required, or the amount cannot be estimated reliably, the asset or the obligation is not recognised in the statement of balance sheet and is disclosed as a contingent asset or contingent liability. Possible outcomes on obligations/rights, whose existence will only be confirmed by the occurrence or non-occurrence of one or more future events are also disclosed as contingent assets or contingent liabilities.

**m) Taxes on Income:**

Tax expense comprises of current and deferred tax. Current income tax is measured at the amount expected to be paid to the tax authorities in accordance with the Income Tax Act, 1961. Current tax includes taxes to be paid on the profit earned during the year and for the prior periods.

Deferred income taxes are provided based on the balance sheet approach considering the temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax is measured based on the tax rates and the tax laws enacted or substantively enacted at the balance sheet date. Deferred tax assets are recognised only to the extent that there is reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realised.

The carrying amount of deferred tax assets are reviewed at each balance sheet date. The company write-off the carrying amount of a deferred tax asset to the extent that it is no longer probable that sufficient future taxable income will be available against which deferred tax asset can be realized. Any such write-off is reversed to the extent that it becomes reasonably certain that sufficient future taxable income will be available.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

**n) Prior period items:**

In case prior period adjustments are material in nature the company prepares restated financial statement as required under Ind AS 8 - "Accounting Policies, Changes in Accounting Estimates and Errors". In case of immaterial items pertaining to prior periods shown under respective items in the Statement of Profit and Loss.

**o) Cash and cash equivalents:**

Cash and cash equivalents include cash on hand and at bank, deposits held at call with banks, other short-term highly liquid investment with original maturities of three months or less that are readily convertible to a known amount of cash which are subject to an insignificant risk of changes in value and are held for meeting short-term cash commitments.

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above, net of outstanding bank overdrafts as they are considered an integral part of the Company's cash management.

**p) Segment Reporting:**

**Identification of Segments:**

The company's operating business are organized and managed separately according to the nature of products and services provided, with each segment representing a strategic business unit that offers different products and serve different markets. The analysis of geographical segments is based on the areas in which major operating divisions of the company operate. Operating Segments are reported in a manner consistent with internal reporting provided to the Executive Manager/ Chief Operating Decision Maker (CODM).

The Board of Directors of the company has identified Managing Director as the CODM.

**Allocation of Common Costs:**

Common allocable costs are allocated to each segment according to relative contribution of each segment to the total common costs.

**Unallocated Items:**

The corporate and other segment includes general corporate income and expense items which are not allocated to any business segment.

**q) Financial instruments:**

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

**Financial Assets:**

**a. Initial recognition and measurement:**

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in statement of profit or loss. Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognised on the trade date, i.e., the date that the company commits to purchase or sell the asset.

**b. Subsequent measurement:**

For the purpose of subsequent measurement, financial assets are classified in to following categories

- a. Debt instruments at amortised cost
- b. Debt Instruments at fair value through profit and loss (FVTPL)
- c. Equity instruments at fair value through profit and loss (FVTPL)

**a. Debts Instruments at amortised cost:**

A 'Debt Instrument' is measured at the amortised cost if both the following conditions are met:

- i. The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- ii. Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of EIR. The EIR amortisation is included in other income in the profit or loss. The losses arising from impairment are recognised in the profit or loss.

**b. Debt Instruments at Fair value through profit and loss (FVTPL):**

As per the Ind AS 101 and Ind AS 109, the Company is permitted to designate the previously recognised financial asset at initial recognition irrevocably at fair value through profit and loss on the basis of fact and circumstances that exists on the date of transition to Ind AS. Debt instruments included within the FVTPL category are measured at fair value with all changes recognised in the statement of Profit and Loss.

**c. Equity instruments at fair value through profit and loss (FVTPL):**

Equity instruments in the scope of Ind AS 109 are measured at fair value. The classification is made on initial recognition and is irrevocable. Subsequent changes in the fair values at each reporting date are recognised in the Statement of Profit and Loss.

**c. Derecognition:**

A financial asset or where applicable, a part of a financial asset is primarily derecognised when:

- a. The rights to receive cash flows from the asset have expired, or
- b. The company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the Company has transferred substantially all the risks and rewards of the asset, or (b) the company has neither transferred nor retained substantially all the risks and rewards of the asset but has transferred control of the asset.

When the company has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates, if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all the risks and rewards of the asset, nor transferred control of the asset, the company continues to recognise the transferred asset to the extent of the company's continuing involvement. In that case, the company also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the company has retained.

**d. Impairment of financial assets:**

In accordance with Ind AS 109, the Company applies expected credit loss (ECL) model for measurement and recognition of impairment loss on the financial instruments.

Expected credit loss is the difference between all contractual cash flows that are due to the company in accordance with the contract and all the cash flows that the entity expects to receive.

The management uses a provision matrix to determine the impairment loss on the portfolio of trade and other receivables. Provision matrix is based on its historically observed expected credit loss rates over the expected life of the trade receivables and is adjusted for forward looking estimates.

Expected credit loss allowance or reversal recognised during the period is recognised as income or expense, as the case may be, in the statement of profit and loss. In case of balance sheet, it is shown as an adjustment from the specific financial asset.

**Financial liabilities:**

**a. Initial recognition and measurement:**

At initial recognition, all financial liabilities are recognised at fair value and in the case of loans, borrowings and payables, net of directly attributable transaction costs.

**b. Subsequent measurement:**

**i. Financial liabilities at fair value through profit or loss**

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Gain or losses on liabilities held for trading are recognised in the profit or loss. The company does not designate any financial liability at fair value through profit or loss.

**ii. Financial liabilities at amortised cost:**

Amortised cost, in case of financial liabilities with maturity more than one year, is calculated by discounting the future cash flows with effective interest rate. The effective interest rate amortisation is included as finance costs in the statement of profit and loss. Financial liability with maturity of less than one year is shown at transaction value.

**c. Derecognition:**

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. The difference between the carrying amount of a financial liability that has been extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss as other income or finance costs.

**Reclassification:**

The Company determines classification of financial assets and liabilities on initial recognition. After initial recognition, no reclassification is made for financial assets which are equity instruments and financial liabilities. If the Company reclassifies financial assets, it applies the reclassification prospectively from the reclassification date which is the first day of the immediately next reporting period following the change in business model. The Company does not restate any previously recognised gains, losses (including impairment gains or losses) or interest.

**r) Fair Value Measurement:**

The Company measures financial instruments at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either

- in the principal market for such asset or liability, or
- in the absence of a principal market, in the most advantageous market which is accessible to the company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- a. Level 1 – Quoted (unadjusted) market prices in active markets for identical assets or liabilities.
- b. Level 2 – Valuation techniques for which the lowest level input that is significant to the fair value measurements is directly or indirectly observable.
- c. Level 3 – Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognised in the financial statements on recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re assessing the categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

**Notes:**

- i. There was a settlement with the Recognised Labour Union Viz., "GPTL Karmika Sangam" in the year 2001 and the settlement amount was paid and accepted by the workmen. The settlement covered 214 workmen against which 205 workmen accepted the payment. Out of 205 workmen, 139 workmen have filed for a further claim in 2017 before the Additional Labour Court alleging that the Company misled the workmen with the support of the President of Union. The case is in the hearing stage. Though the remaining 9 workmen were also part of the Recognised Union refused to accept the payment and abide by the terms of the settlement. The claim made by them towards the arrears of the emoluments is disputed by the Company and pending with the Hon'ble High Court of erstwhile AP.
- ii. Represents the claims made by the transporters on the company towards interest on the arrears of transport charges which is disputed by the company.
- iii. Represents interest claim made by the vendors on the company on delayed payments which is disputed by the company.
- iv. The sales made by Silvassa Unit were exempt from Sales Tax. During the assessment proceedings relating to the years 2008-09 and 2009-10 the company could not submit some of the C Forms and the assessment was completed based on the court direction with a stipulation that if any liability arises on account of non submission of C Forms to the extent of ₹ 1,464,688/- (including interest of ₹ 134,565/-)the same is to be discharged by the company.
- # Represents the difference between salaries payable to employees as per their terms of appointment and actual salaries paid by the Resolution Professional.

28. Consequent to the commencement of Corporate Insolvency Resolution Process (CIRP) under Insolvency and Bankruptcy Code, 2016, all the legal Proceedings initiated by Financial Institutions and Banks were stalled. The Resolution Professional (RP) has received various Claims from financial creditors, operational creditors, employees and other creditors. The overall obligations and liabilities including interest on loans and the principal amount of loans shall be determined during the CIRP. Pending the outcome of CIRP, accounting impact in the books of account has not been considered in respect of excess, short or non-receipt of claims from operational and financial creditors. The difference between claims received by RP and the amounts already reflected in the books of account aggregating to ₹ 2,106.48 crores are not provided in the books of account. Further, interest on claims of financial creditors aggregating to Rs. 3.25 crores from 01.10.2019 to 31.03.2021 including Rs. 2.06 crores for the year ended 31.03.2021 is not provided in the books of account.
29. During the month of July 2020, theft was detected in the Silvassa unit of the company and internal parts of certain machines were stolen. As the company's insurance policies in force do not cover the burglary, the company could not file an insurance claim for the same. Hence, the loss caused by theft being the written down value (WDV) of the parts stolen is charged to the statement of profit and loss as an exceptional item.
30. In terms of Indian Accounting Standard (Ind AS 12) - "Income Taxes" as specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014, there is a net deferred tax asset as on 31st March 2021. In the absence of convincing evidence regarding the availability of sufficient taxable income in near future against which the deferred tax asset can be adjusted, the Company has not recognised the deferred tax asset arising due to temporary differences and unused tax losses at present.
31. Considering the Request for Resolution Plan (RFRP) which contemplates the revival of operations, the company is of the view that it can fully utilise the balance lying in the GST input account grouped under the balance with statutory authorities.
32. The Company declared dividend for the year 1995-96 in the Annual General Meeting held on 30.12.96 and unpaid amount of ₹ 115,56,699/- has become due for transfer to Investor Education and Protection Fund. The Company has not complied with the provisions of Sec-205-A (1) of the Companies Act, 1956 regarding transfer of unpaid dividend to a special bank account and the interest payable for such noncompliance amounting to ₹ 332.60 lakhs up to 31st March 2020 and ₹ 13.87 lakhs for the year is not provided in the books of account. However, the Company is of the opinion that the said Provisions are not applicable to the Company, as the same is payable to the shareholders as per its rehabilitation proposal as payable at a later date.
33. Appointment and payment of Managerial Remuneration:
- a. The reappointment of Executive Director with effect from 01.04.2002 is subject to the conditions laid down in schedule XIII to the Companies Act, 1956. However, the Company has not obtained Central Government approval pursuant to the said conditions for payment of remuneration from that date amounting to ₹ 11,722,515/- and accordingly the provisions of Section 309(5A) of the Companies Act, 1956 are applicable. However, the said amount is charged to the profit and loss account as managerial remuneration, as the management is of the view that the said provisions are not applicable to the Company, as the matter is a part of Rehabilitation Scheme referred to BIFR under the Sick Industrial Companies (Special Provisions) Act, 1985.

Payment of remuneration to the Executive Director with effect from 01.04.2017 amounting to ₹ 1,549,260/- is subject to the approval of the Central Government, as per the provisions of the Section 197 of the companies Act,2013 read with schedule V, as the company has defaulted in repayment of its debts in the preceding financial year before the date of such appointment.

- b. The appointment of Managing Director with effect 01.01.2006 is subject to the conditions laid down in schedule XIII to the Companies Act, 1956. However, the Company has not obtained Central Government approval pursuant to the said conditions for payment of remuneration from that date amounting to ₹ 9,701,839/- and accordingly the provisions of Section 309(5A) of the Companies Act, 1956 are applicable. However, the said amount is charged to the profit and loss account as managerial remuneration, as the management is of the view that the said provisions are not applicable to the Company, as the matter is a part of Rehabilitation Scheme referred to **BIFR** under the Sick Industrial Companies (Special Provisions) Act, 1985.

Payment of remuneration to the Managing Director with effect from 01.01.2015 amounting to ₹ 4,721,895/- is subject to the approval of the Central Government, as per the provisions of the Section 197 of the companies Act,2013 read with schedule V, as the company has defaulted in repayment of its debts in the preceding financial year before the date of such appointment.

34. Disclosure of Sundry Creditors under Trade Payables is based on the information available with the Company regarding the status of the suppliers as defined under the "Micro, Small and Medium Enterprises Development Act, 2006" and relied upon by the Auditors. During the year, there were no transactions with Micro and Small Enterprises; hence the disclosures as per Micro, Small and Medium Enterprise Development Act, 2006, are not applicable to the Company for the time being.

f.	Expected Average remaining working lives of employees (years)	10.10	10.97

7.	Sensitivity Analysis		Amount in ₹	
	Sensitivity	Change	Effects on obligation	
	Discount Rate	+1%	(75,496)	(79,570)
		-1%	82,914	87,500
	Salary Escalation Rate	+1%	107,406	111,343
		-1%	(100,523)	(103,985)

The above sensitivity analysis is based on a change in an assumption while holding all other assumptions constant. In practice, this is unlikely to occur and changes in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same method (projected unit credit method) has been applied as when calculating the defined benefit obligation recognised within the Balance Sheet.

8.	Expected Payout - Gratuity	Amount in ₹	
		For the Year Ended March 31, 2021	For the Year Ended March 31, 2020

	Expected payments – 5th Year	213,554	56,230
	Expected payments – 6th year to 10th Year	526,183	543,881

**9. Other Information:****i. Plan Assets:**

The plan assets are invested in a special fund managed by Life Insurance Corporation of India. Expected Return on Assets is based on rate of return declared by fund managers.

**ii. Present value of defined benefit obligation:**

Present value of the defined benefit obligation is calculated by using Projected Unit Credit method (PUC Method). Under the PUC method a "projected accrued benefit" is calculated at the beginning of the year and again at the end of the year for each benefit that will accrue for all active members of the Plan. The "projected accrued benefit" is based on the Plan's accrual formula and upon service as of the beginning or end of the year but using a member's final compensation projected to the age at which the employee is assumed to leave active service. The Plan Liability is the actuarial present value of the "projected accrued benefits" as of the beginning of the year for active members.

**iii. Expected average remaining service Vs. Average Remaining Future Service:**

The average remaining service can be arithmetically arrived by deducting current age from normal retirement age whereas the expected average remaining future service is arrived actuarially by applying multiple decrements to the average remaining future service namely mortality and withdrawals. Thus, the expected average remaining service is always less than the average remaining future service.

**iv. Current and Non- Current Liability:**

The total of current and non-current liability must be equal with the total of PVO (Present value obligation) at the end of the period. It has been classified in terms of "Schedule III of the Companies Act 2013.

Accordingly, below is the Current and Non-Current classification of Gratuity and Compensated Absences:

Particulars	Amount in ₹	
	As at March 31, 2021	As at March 31, 2020
<b><u>Gratuity: -</u></b>

<b><u>Compensated Absences: -</u></b>		
a. Current Portion	1,017,463	804,221
b. non-current portion	222,054	297,566

- v. The rate of escalation in compensation considered in the above valuation is estimated taking into account inflation, seniority, promotion and other relevant factors and the above information is as certified by an actuary.

## 38. Fair Value of financial instruments:

Amount in ₹

Particulars	As at March 31, 2021	As at March 31, 2020
<b>Financial Assets: -</b>		
<b>At Amortised Cost</b>		
Security Deposits	45,000	45,000
<b>Carrying Value</b>		
Security Deposits	45,000	45,000
<b>Financial Liabilities: -</b>		
<b>At Amortised Cost</b>		
Repayable Security Deposits	1,268,874	3,268,874

<b>Carrying Value</b>		
Repayable Security Deposits	1,268,874	3,268,874
Rupee Term Loans	161,564,000	161,564,000
Short term Borrowings	264,135,400	264,135,400

The management assessed that cash and cash equivalents, trade receivables, trade payables and other current assets/liabilities approximate their carrying amount largely due to the short-term maturities of these instruments.

The fair value of the financial assets and liabilities is reported at the amount at which the instrument could be exchanged in a current transaction between willing parties other than in a forced or liquidation sale.

Fair value of and security deposits have been calculated by discounting future cashflows using rates currently available for debt on similar terms, credit risk and remaining maturities.

Description of significant observable inputs to valuation:

a. Interest free Security Deposits (assets):

The carrying value is assumed to be the fair value of all non-current Security Deposits with no repayment terms.

b. Repayable Security Deposits (liabilities):

Since all the Security Deposits are current in nature the carrying value is assumed to be the fair value of such advances.

d. Rupee Term Loans:

Since all the Rupee Term Loans are either overdue or are current in nature as at the reporting dates, the carrying value is assumed to be the fair value of such term loans.

e. Short Term Borrowings:

Since the short-term borrowings are current in nature and overdue, the carrying value is assumed to be the fair value of such borrowings.

39. Fair Value hierarchy:

The following table provide the fair value measurement hierarchy of the company's assets and liabilities.

Quantitative disclosures of fair value measurement hierarchy for assets as at March 31, 2021:

**42. Financial Risk Management objectives and policies:**

The company is exposed to financial risks arising from its operations and the use of financial instruments. The key financial risks include market risk, credit risk and liquidity risk. The company's risk management policies focus on the unpredictability of financial markets and seek to where appropriate minimize potential adverse effects on the financial performance of the company and there has been no change to the company's exposure to these financial risks or the manner in which it manages and measures the risks.

The following sections provide the details regarding the Company's exposure to the financial risks associated with financial instruments held in the ordinary course of business and the objectives, policies and processes for the management of these risks.

The Company's principal financial liabilities comprise loans and borrowings, trade and other payables. The main purpose of these financial liabilities is to finance and support the Company's operations. The Company's principal financial assets include trade and other receivables and cash and cash equivalents are derived from its operations

The company is exposed to market risk, credit risk and liquidity risk. The Company's management oversees the mitigation of the risks. The Company's financial risk activities are governed by appropriate policies and procedures and that financial risks are identified, measured and managed in accordance with the Company's policies and risk objectives. The management / board reviews and agrees policies for managing each of these risks, which are summarized below.

**i. Market Risk:**

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market prices comprise three types of risk: currency rate risk interest rate risk and other price risks such as equity risk. Financial instruments affected by market risk include loans and advances and deposits.

**a. Interest rate risk:**

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates relates primarily to the Borrowings, loans and advances given by the company and Cash and Cash equivalents.

Since all the company's long-term debt obligations are either overdue or payable within the next twelve months as at the respective reporting dates, the company is not exposed to significant interest risk.

**b. Foreign Currency Risk:**

Currency risk is the risk that the value of a financial instrument will fluctuate due to changes in foreign exchange rates. Currency risk arises when transactions are denominated in foreign currencies.

As there were no transactions denominated in foreign currencies in any of the reporting periods, the company is not exposed to any foreign currency risk as at the respective reporting dates.

**c. Other price risk:**

Other price risk is the risk that the fair value or future cash flows of the Company's financial instruments will fluctuate because of changes in market prices (other than those arising from interest rate risk or currency risk) whether those changes are caused by factors specific to the individual financial instrument or its issuer or by factors affecting all similar financial instruments traded in the market.

The company based on working capital requirement keeps its liquid funds in current accounts. The company doesn't have any significant other price risk.

**ii. Credit risk:**

Credit risk is the risk of loss that may arise on outstanding financial instruments when a counterparty default on its obligations. The Company's exposure to credit risk arises primarily from trade and other receivables. For other financial assets (including cash and term deposits) the Company minimise credit risk by dealing exclusively with high credit rating counterparties. The Company's objective is to seek continual revenue growth while minimising losses incurred due to increased credit risk exposure. The Company trades only with recognised and creditworthy third parties. It is the Company's policy that all customers who wish to trade on credit terms are subject to credit verification procedures.

In addition, receivable balances are monitored on an ongoing basis with the result that the Company's exposure to bad debts is not significant.

**a. Exposure to credit risk:**

At the end of the reporting period the Company's maximum exposure to credit risk is represented by the carrying amount of each class of financial assets recognised in the statement of financial position. No other financial assets carry a significant exposure to credit risk.

**b. Credit risk concentration profile:**

At the end of the reporting period there were no significant concentrations of credit risk. The maximum exposures to credit risk in relation to each class of recognised financial assets is represented by the carrying amount of each financial assets as indicated in the balance sheet.

**c. Financial assets that are neither past due nor impaired:**

Trade and other receivables that are neither past due nor impaired are creditworthy debtors with good payment record with the Company. Cash and term deposits that are neither past due nor impaired are placed with or entered with reputable banks financial institutions or companies with high credit ratings and no history of default.

**iii. Liquidity risk:**

The risk that an entity will encounter difficulty in meeting obligations associated with financial liabilities that are settled by delivering cash or another financial asset.

The company ensures that it has sufficient cash on demand to meet expected operational demands including the servicing of financial obligations; this excludes the potential impact of extreme circumstances that cannot reasonably be predicted.

The table below summarises the maturity profile of the Company's financial liabilities based on contractual undiscounted payments.

**Excessive Risk Concentration:**

Concentrations arise when a number of counterparties are engaged in similar business activities or activities in the same geographical region or have economic features that would cause their ability to meet contractual obligations to be similarly affected by changes in economic, political or other conditions. Concentrations indicate the relative sensitivity of the company's performance to developments affecting a particular industry.

In order to avoid excessive concentrations of risk, the Company's policies and procedures include specific guidelines to focus on the maintenance of a diversified portfolio. Identified concentrations of credit risks are controlled and managed accordingly.

**43. Capital Management:**

Capital includes equity attributable to the equity holders of the company. The primary objective of the capital management is to ensure that it maintain an efficient capital structure and healthy capital ratios in order to support its business and maximise shareholder's value.

The Company manages its capital structure and makes adjustments in light of changes in economic conditions and the requirements of the financial covenants. The Company monitors capital using a gearing ratio, which is, debt divided by total capital plus debt. The Company's policy is to keep the gearing ratio at an optimal level to ensure that the debt related covenants are complied with.
