RCIL: A Leading Synthetic Yarn Manufacturer

Our Competitive Edge

Quality

At RCIL, we are all united in our relentless pursuit of quality. This is made possible by our years of industry experience, our state-of-the-art manufacturing and a change-oriented work culture which focuses on lean ideologies and continuous improvement.

Customer Centricity

We have forged meaningful relationships with key customers built on the solid foundation of Quality, Mutual Learning, Respect and Trust.

We have been consistently delivering yarns that are the products of choice in the most demanding applications across an imposing breadth of textile-related industries around the world.

Unique Approach to Research and Product Development

Our strong Research and Development efforts together with our uncharacteristically close collaborations with our customers helps us to create, develop, fine-tune and streamline products, and in many cases, even our customer's subsequent processes.

Strong Balance Sheet: Low Net-Debt

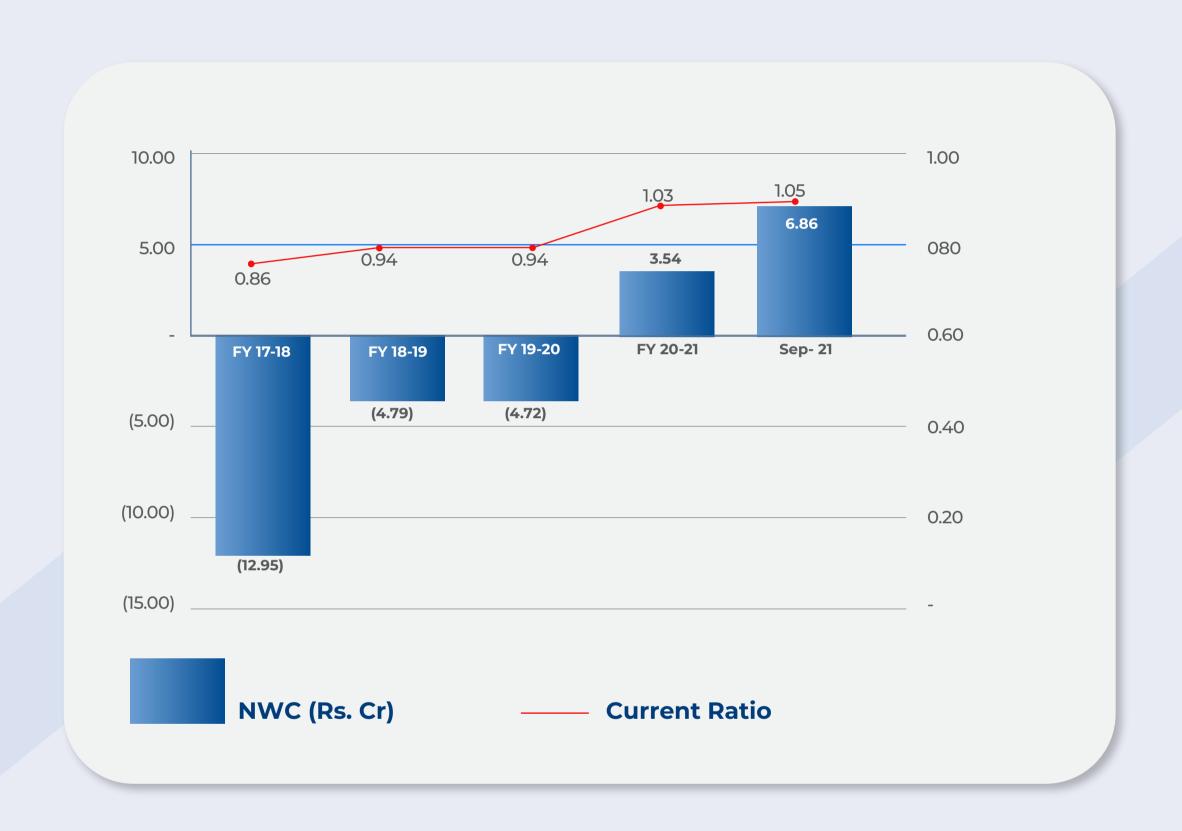

- The effective cost of the Company's Long-Term Debt is approximately 2%
- The Company has consistently been paying Dividend over the last two decades.

Strong Balance Sheet: Efficiently-Managed Working Capital

 The Company has decreased its Debtor Days and Inventory Holding Days to further reduce its working capital cycle.

RCIL Surging Ahead on Strong Tailwinds

Focus on Export and our Global Reach

 We export more than 55% of our production around the globe.

 In the prevailing global scenario, many large buyers are trying to reduce the dependence on China. This "China +1" approach provides us with a great opportunity to further penetrate the export market and become an integral part of established value chains.

Proposed Expansion

 The Company is evaluating plans to expand its manufacturing capacity by 6,240 spindles with a focus on technical textiles and other value-added products.

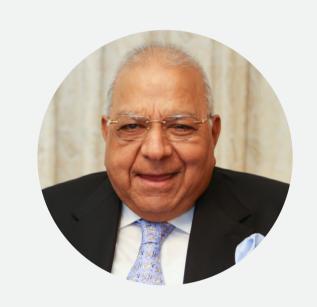

• The Company has enhanced its Solar Power Capacity to 1.4 MW. It endeavors to scale this up to 3.5 MW.

 These initiatives will increase operational efficiencies, reduce operating costs, improve profitability and further increase the flexibility of the company's manufacturing capabilities.
