Sub: Newspaper publication of Audited Financial Results of Coal India Limited(Standalone & Consolidated) for the 4th Quarter and Financial Year ended 31st March’ 2024

Dear Sir,

We are enclosing hard copies of newspaper publication issued on 3rd May’2024 in one English newspaper namely “The Hindu Business line” All Editions, and Bengali newspaper i.e. “Ei Samay” publishing Audited Financial Results of Coal India Limited(Standalone & Consolidated) for the 4th Quarter and Financial Year ended 31st March’ 2024.

This is for your information and records please.

Yours faithfully,

(BP Dubey)
Company Secretary

Encl: As above
Copper retreats on weak China data

Loudon: Copper prices extended losses as physical demand in China weakened, with LME copper at $8,203.00 a tonne down 0.9 per cent to $8,203.00 a tonne, and spot copper at $8,202 per tonne down 0.6 per cent to $8,202 per tonne.

Cocoa extends losses, coffee also falls

Loudon: Cocoa futures on ICE fell sharply on Wednesday, sliding 1.6 per cent to $2,356 per tonne, as prices fell below $2,500 per tonne for the first time this year.

Rice buy tops 47 mt, down 6% from a year ago

Amidst scorching temperatures across the country, the demand for pulses has also dived, with traders reporting a drop of nearly 70% from last year's levels. According to market sources, the current season's rice crop is expected to be lower than last year's.

Dravidian Motives, Chennai

On the back of a significant drop in the carryout statement from the rabi crop to the country's total procurement in the week ended September 27, 47.10 million tonnes of rice, as compared to 50.69 million tonnes in the previous week ending September 20.

Experts said the fall in carryout was more than the previous year's high of 30 per cent in rice, which had seen a purchase in West Bengal and Madhya Pradesh a producer. However, the government's procurement needs about 60-61 million tonnes, and physical supply of food security, including 5.5 million tonnes of imports for the next year in its market update.

**IMPORT WINNOWING**

Another factor that can limit the tax rates, particularly rice, is the procurement tax of 1% on the excise duty on rice. The tax rate has fallen to 5% in 2019-20 from 7-8% in the previous year.

The excise tax on rice is currently at 11%. However, the tax rate on rice is applicable only in the southern region where there is 5% in the north. The tax rate on soyabean meal is 3% and on mustard meal is 2%

The trend in the tax rates for rice has been relatively stable over the past few years. The tax rate on rice has been around 7-8% in the past few years.

**THESE ARE THE IMPORTANT TERMS**

The tax rates for rice and soyabean meal have remained relatively stable over the past few years. The tax rate on rice has been around 7-8% in the past few years.

**OUR INVESTMENT TIPS**

- For investors, it is recommended to invest in rice and soyabean meal based on the tax rates and the trend in the tax rates over the past few years.

**CHARTGUY SAYS**

During the current fiscal year 2021-22, the government is expected to buy rice from farmers at a price of Rs 2,650 per quintal, which is 10% above the target price.

Fresh From Farm raises $2 million in pre-series A funding

Fresh From Farm, a farm-to-fork platform, which is revolutionizing the way food is sourced, has raised $2 million in a pre-series A round.

The round was led by Noise11 and Angel Network, with investment from Acrew Capital, Niva Merchant Fund, and Manex Capital. The company plans to use the funds to expand its operations across India and to further enhance its technology and product offerings.

The company was founded in 2018 by Kshitiz Singh and Rahul Aggarwal, and it connects farmers directly with consumers, thereby reducing the中间环节 and ensuring fresh and high-quality produce.

Aluminium: Initial shorts if futures drop below $232

Aluminium futures (MCX) shed more than 1% in early trade on Wednesday, with the LME contract leading the retreat after a strong fall in London last week. The metal is used in construction, aerospace and automotive sectors.

Traders also noted that the Chinese aluminium market has been weak, with the country's largest aluminium producer, China Aluminium Co., cutting its output.

**OUR BULLISH**

- The aluminium price is likely to remain bullish in the short term due to strong demand from China and Europe.

**SHORT BULL**

- The aluminium price is likely to remain bearish in the short term due to weak demand from China and Europe.

**NOTES FROM THE COMMODITY CHART**

- The aluminium price is likely to remain range-bound in the short term due to mixed demand from China and Europe.

India's palm oil price up 41% in April; prices rise

Malaysian palm oil futures closed higher on Thursday for a second straight session, with traders pointing to tighter supply conditions.

Maharashtra palm oil price topped Rs 12400 per tonne, the highest since January, and traders attributed it to higher demand from mills.

The benchmark palm oil contract on the大连商品交易所 (DCE) rose 0.1% to settle at 9,744 yuan per tonne, the highest since January, while the futures contract on the Klang chamber of commerce (KCC) in Malaysia closed higher.

**OUR BULLISH**

- The palm oil price is likely to remain bullish in the short term due to strong demand from China and Europe.

**SHORT BULL**

- The palm oil price is likely to remain bearish in the short term due to weak demand from China and Europe.

**NOTES FROM THE COMMODITY CHART**

- The palm oil price is likely to remain range-bound in the short term due to mixed demand from China and Europe.
