MANAGING DIRECTOR'S MESSAGE

“IN THE TIMES OF CRISIS, WE SHOULD SEE THE OPPORTUNITY TO RISE AS CHAMPIONS.”

It was a turbulent year for sure! The winds of change have pervaded every aspect of our lives. But, in times of crisis, we should see the opportunity to rise as champions. Amid the pandemic, we learned one thing for sure, that our fundamental values have never been more critical. We have stood by each other and devoted ourselves to handle dynamic business demands.

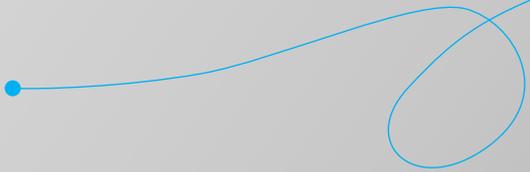

At XTGlobal, we constantly challenge the status quo to anticipate the next challenge or opportunity and stay agile. To summarize XTGlobal's performance in the past year, I can say that when confronted with unprecedented challenges, we responded to the changing business and customer requirements by evolving and adapting. XTGlobal has demonstrated its ability to remain aligned with its goals and maintain the highest levels of customer service in all scenarios.

Mr. Ramarao Atchuta Mullapudi

Managing Director

Top 3 Priorities to Perform like Champions:

Rethinking & Redefining Technology:

As we continue to persevere, adapt, and flourish in the world of technological advancements, we will augment our capabilities to further our digitization initiatives.

Being Resilient & Trust-Worthy:

Team XTGlobal has maintained the trust of our clients and preserved high levels of performance. We will walk this path in the future too.

Supporting Our People:

Although it was pretty demanding, Team XTGlobal has been working remotely and juggling work amidst personal and family obligations. We appreciate and value our workforce for their sincere endeavours.

CHARGING FORWARD IN THIS YEAR

With all the challenges faced and lessons learned, we are now competent to manage the situation better. We can see the light at the end of the tunnel; XTGlobal will continue to innovate and expand its product portfolio to offer the best solutions. Let us promote the technological progress the world needs through digitization, automation, and cloud computing.

I extend a sincere appreciation to our Board of Directors for their strategic guidance; our customers, partners, and suppliers for the trust they placed in us; our shareholders for their support and confidence; and our employees for their dedication.

YEAR AT A GLANCE

XTGlobal's deep knowledge of our clients' processes and systems provides us with a significant advantage as we work with them to build new digital capabilities to make their operations more efficient, effective, and modern.

In alignment with XTGlobal's strategy to provide our clients with advanced technological support, we have invested in four key areas of digital transformation: Cloud (Oracle, MS Azure, AWS), RPA (UiPath, Automation Anywhere), Rapid Application Development (Mendix/Siemens) and AI/ML/Analytics. These capabilities enable our clients to improve on their data-driven decision making, build new functionalities within their product lines, and tap into new revenue streams. They can defend better against technology-enabled competitors, reduce costs, and scale up or down as per requirements.

XTGlobal strives to create modern frameworks, platforms and solutions that leverage a wide range of digital technologies across our clients' businesses to deliver higher levels of efficiency and new value for their customers. For instance, we have used AI/ML, Oracle's APEX platform, and many such tools to improve performance and efficiency of Circulus AP Automation solution. This improved onboarding of new customers with shorter implementation times, made the approval workflows more robust and customizable, enhanced dashboard capabilities, improved response times, and provided a better user-experience. These enhancements have brought in **40** new Circulus clients during 2020-2021.

XTGlobal's growth strategy is focused on:

- Investments in process improvements and digital capabilities
- Successful recruiting, training, and retention models
- Offshore/Onshore/Onsite delivery models
- Focus on clients' requirements, quality, and competitive pricing
- Good corporate governance and financial stability
- Continued investment in project management and technical expertise

Furthermore, building on our internal ability and digital infrastructure has allowed XTGlobal's employees to work from anywhere seamlessly and with high productivity. We have shown by example that being a Live Enterprise is all about imbibing agile practices and investing in digital skills for our workforce.

BUSINESS ACHIEVEMENTS

XTGlobal's continued investment in advanced technologies and partnerships have helped the company drive growth even in difficult times. As the urgency to move to the Cloud increased for enterprises across the world, XTGlobal managed to meet the new demand with its own capabilities as well as right investments in Cloud partnerships at the right time. Our capabilities in emerging technologies such as Low-code application development and Automation have also enabled us to meet our clients' requirements quickly and efficiently.

For XTGlobal, 2020-2021 has seen a positive growth in terms of revenues as well as profit with an increase of 92.13% YoY in Revenue from Operations and a Net Profit of 36.18% as on March 31, 2021.

TREADING THE TOUGH TERRAIN LIKE A CHAMPION

Fortunately, we are in the technology and digitization sector that is easing the lives of people and helping them deal with the challenging market environment efficiently. Though the crisis is far from over, we are seeking new business opportunities, rising up to the challenges while keeping a keen eye on the risks.

COINING NEW FOCAL POINTS FOR NEW PRIORITIES

As we stride forward with an unwavering pursuit of excellence, we have decided to set our eyes on two new focus areas that are like two sides of the same coin:

COMPETENCE: On one front, we are determined to demonstrate organizational competence. XTGlobal has been driving innovation that resonates with the customer's aspirations. Building technology capabilities is our strength, and we will boost it further. Quality client service will be our top priority, with no compromise on professionalism. We have realigned our goals and enhanced our competence in all directions, be it world-class infrastructure or enhancements in our products and services.

COMPASSION: On the other side of the coin is empathy for all the individuals we work with. Our people have worked relentlessly during the biggest global crisis modern human history has seen. We support and encourage safety and wellness for all through sanitization and safety protocols.

All in all, we have a conviction to work with thoughtfulness and win by revolutionizing technology. We will measure our success in terms of XTGlobal's positive impact on its clients, stakeholders as well as the employees.

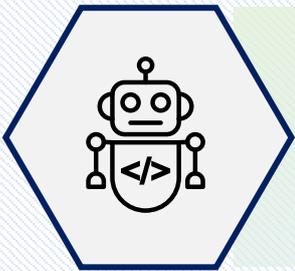

THE YEAR AHEAD

Technology trends have significant potential to drive disruption and deliver opportunity. The ability to successfully leverage digital disruption could be the difference between thriving and failing. Understanding the impact of new technologies will show how we can use them in innovative ways.

IT has the ability to change the way companies compete. From a supporting role in the back office to making strategic data-driven decisions, companies can seize this advantage to gain a sustainable edge in the future.

As a technology-driven company, XTGlobal believes in making IT a competitive advantage for our customers. As the distinction between makers and users of technology blurs, every company is a tech company. Cloud-based IT capabilities are giving even the smaller organizations the capabilities of IT giants at a competitive price.

To give our customers the advantage from their IT investments, XTGlobal has identified certain areas that deliver the greatest value and has decided to make these the areas of focus for the next year:

Robotic Process Automation:

The last few years have shown that the greatest benefit from IT investment comes when it also involves rewiring of the organization's internal processes. Intelligent automation of back-office functions with RPA tools makes processes more efficient, faster, and cheaper.

Data Analytics:

Companies that analyze and use past data as insights for decision making tend to be more successful. Sieving through millions of data bytes or making data available real-time to all stakeholders can make a significant difference.

Rapid Application Development:

XTGlobal has partnered with Mendix, a low-cost application development platform that prioritizes rapid prototype releases and iterations. RAD not only accelerates the application development process but also has several advantages like better flexibility and adaptability, quicker iterations, less coding, shorter testing times, and better risk management.

BOLT and ODTP

The Build-Operate-Lease-Transfer and On-Demand Talent partnership models offer agility and reliability to enable organizations to focus their efforts on growth. It gives them the advantage of having access to world-class talent and resources at short notice to reduce their TAT and reduce operational costs.

Dear Shareholders,

2020-2021 has been all about changing our business and operating models to suit the New Normal. While our core values have remained the same, we have shifted our focus on to new learnings to enhance what we have to offer to our clients. From adopting new technologies to hiring new expertise, we have augmented our services and solutions to suit clients' and markets' changing expectations. We strongly believe that the investments we make today will help us to target new markets with more confidence.

The Board of Directors are deeply thankful to you, our shareholders, for continuing to place your trust in us during these challenging times. We are always ready to expand our product/service portfolio, transform our business models, empower our resources, and develop new partnerships, to create sustainable and consistent growth for XTGlobal Infotech. We hope for your continued support in driving XTGlobal Infotech's growth in the future as well.

CHAMPIONS OF SOCIAL RESPONSIBILITY

While we are in the process of unearthing new ways to emerge stronger, we are also doing our best to conserve our environment and strengthen the communities around us. We are mindful of our actions and sensitive towards the impact that each corporate protocol can have on the environment.

Safeguarding the Environment. Safeguarding the Employees.

Safeguarding the Environment

At XTGlobal, we strive to encourage environment-friendly practices in our everyday operations. We promote paperless processing through office operations as well as through our products! It is recommended to print only when necessary.

All the admin processes like cleaning, pantry activities are planned with a goal to preserve natural resources. For instance, energy-efficient equipment is procured, natural light is preferred when available, food wastage is minimized, and biodegradable cleaning solutions are used. Disposable products that take several years to decompose are discouraged. Whether it is the office supplies or cafeteria operations, we ensure optimal utilization of resources.

We are mindful of our waste disposal procedures and educate our workforce to minimize and segregate plastic, metal, and biodegradable waste.

Safeguarding the Employees

Our employees are maintaining an exceptionally agile response to the needs of the business even against a tough operating backdrop! XTGlobal follows top-notch sanitization protocols and enables remote work to reduce the spread of the virus. We have been consistently sending informational communication, work-from-home recommendations, and good wishes to keep our employees motivated during the pandemic.

XTGlobal respects and values its workforce. Our employee policies are aligned to promote a healthy work-life balance. We provide the personnel with ample exposure to showcase their talent and polish their skills. Our management makes a sincere attempt to accommodate employee needs and feedback. Also, we are honest about our expectations and constraints.

Thus, we foster an environment that facilitates employee well-being, safeguards the environment, promotes growth for all communities we touch and promises a sustainable tomorrow.

INNOVATION AND R&D

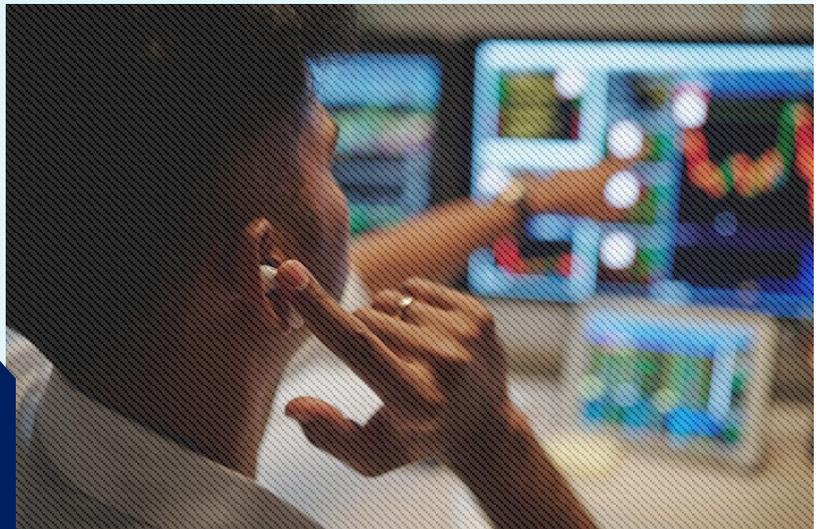

Digital systems have become the backbone of organizations in the new normal. Replacing existing legacy systems with new digital capabilities is the need of the hour as a result of increased demand for mobile workplace solutions, e-commerce, automation, and secure services and solutions.

The pandemic has triggered an accelerated adoption of AI and data to automate processes and operations on every scale. Big Data, Applied AI, Rapid Application Development and Machine Learning came to the rescue in creating faster solutions virtually overnight. Customers too willingly allowed AI to make decisions, powered by masses of data with powerful computing abilities.

2020 was unpredictable but it has produced the fastest digital transformation to have ever been predicted. The last year alone changed businesses more than the last decade did, shifting priorities and letting emerging technologies align with business initiatives. Uncompromising data security and 24/7 connectivity were the driving trends that supported the only viable options such as Work-From-Home or enabling secure deliveries within limited hours.

XTGlobal, as a driver of digital transformation, has embraced this shift and helped our clients reach new possibilities by adopting new technologies efficiently and effectively. By investing in key technologies such as Cloud Computing, RPA, and Rapid Application Development with Low-code tools, XTGlobal managed to accelerate application development and Cloud enablement for our clients. Our partnerships with Oracle, AWS, Microsoft, UiPath, Mendix, and Automation Anywhere gave us the ability to orchestrate and deliver the technology transformation driven by Cloud. This ability to adapt and adopt has made XTGlobal the partner of choice for our clients.

With regards to our Circulus AP Automation solution, our team has worked on several enhancements to make it more customizable for our clients. The performance of the Circulus web application has been improved for faster response times and more robust approval flows. We have also worked on enhancing the customer experience with user friendly screens and features for both Android and iOS version of the Circulus mobile application. We are pleased to inform that the Circulus platform has been extended to Sage Intacct and Sage 300 users.

Currently our focus is on integrating AI and Machine Learning into Circulus' OCR technology to improve the turnaround on data extraction. The dashboard capabilities have also been revamped with Oracle APEX platform and we have added additional functionalities like the *Admin* tab for delegation and document reassignment. We promise to minimize implementation time as much as possible by creating integration templates for various ERPs.

XTGLOBAL - AN EMPLOYEE-CENTRIC ENTERPRISE

XTGlobal understands the benefits of having a great company culture that promotes employee satisfaction and happiness. In these times of uncertainty, it is even more imperative for companies to instill a certain level of belongingness and hope.

XTGlobal's HR initiatives are designed with the best interests of our employees in mind. We believe in investing in employee engagement because we recognize that employee satisfaction and morale matter to attract superior talent.

Work-from-Home: In response to the rising levels of the Corona Virus pandemic in March 2020, XTGlobal proactively approved Work-from-Home to limit employees' exposure to the virus.

Advance Covid Leaves: XTGlobal offers advance leaves of up to 10 days for those employees who have been affected by the Covid-19 virus.

Vaccination Drive: XTGlobal will reimburse the cost of 2 doses of vaccine for employees (up to Rs. 3000). We are also holding corporate vaccination drives in both Hyderabad and Visakhapatnam to help employees gain easy access to the vaccine.

BUSINESS OF THE COMPANY

At XTGlobal, we use IT acumen and innovation to help businesses, both big and small, to drive their digital processes. Companies that embrace digital transformation at the right time proactively get to stay ahead in the race manage to overcome any challenge that comes in the way. A support partner that can understand a company's core business, functionalities, processes, workflows, systems, and operations will be able to craft customized solutions which give the company a unique competitive advantage to thrive in a new business world. XTGlobal can be such a partner because our core competency lies in contextual knowledge, sustainable investment in resources and deep customer relationships. Over the last 22 years, XTGlobal has been offering Business Process Solutions to make enterprises more efficient in their operations by giving them the ability to use latest technologies in their solutions. Our expertise in both Cloud and On-premise technologies as well as advanced tools such as Low-code Application Development and Automation gives our clients the benefit of advancements at all levels, helping them derive value from their IT investments.

Circulus AP Automation and BPO Services

XTGlobal, under the Circulus brand name, offers cloud-based Enterprise and Small & Medium Business Accounts Payable automation solutions to advance AP automation from standard procedure to strategic web-based powerhouse. We offer nonvoice business process outsourcing solutions using both technology and human brainpower to create powerful automation engines. Our methodology allows for scalability of even the most complex business rules and workflow needs.

XTGLOBAL'S SERVICES AND OFFERINGS

XTGlobal is a trusted tech partner providing digital solutions to growing organizations. Our offerings are built on a wide range of technologies, solutions, and systems.

CASE STUDIES

PRODUCTIVITY MONITORING SYSTEM IN OIL AND GAS CONSTRUCTION INDUSTRY

Customer Story:

A Construction company in the Oil and Gas sector in Asia was dependent on a desktop application and Google Sheets to track productivity in the field. They wanted a web-based application that allows users to update productivity information from anywhere and update on a real-time basis

Solution:

XTGlobal developed a Cloud-based Productivity Monitoring System (PMS) based on a simple MVP (Minimum Viable Product) model so that the application can be developed quickly. Using a Cloud-based model, the solution allowed the client to access real-time data about the lost time hours, re-work hours and actual work done.

Key Highlights:

Solution Implemented within

6 Months

Architecture supports thousands of users simultaneously.

PROCESS AUTOMATION USING CIRCULUS AP AUTOMATION AND AWS Textract

Customer Story:

A BPO (Business Process Outsourcing) company was using a manual process to enter data from invoices into clients' AP Automation system. Entering and validating the invoice data against the Purchase Order was time-taking, tedious, and error-prone task.

Solution:

XTGlobal used Circulus AP Automation solution to automate the data-entry and the PO-Matching process. Neural Net using AWS Textract Service was used to extract invoice data from images/pdf files and load it into the AP Automation process. The extraction process was customized as per clients' requirements by sourcing invoice fields, identifying the number of layers and node configurations, and auto-identifying labels for each invoice type.

Key Highlights:

95% Target Accuracy

99% Confidence Level for the Extracted Data

BIG DATA ANALYTICS FOR HEALTHCARE SOLUTIONS

Customer Story:

A provider of solutions for the Therapy and Rehab Management market was looking for support with its data analytics. Since the solutions were based on advanced predictive modelling and real-time analytics, the client needed expertise in technologies such as Big Data, BI, data warehousing, and application development.

Solution:

XTGlobal designed SQL Data Warehouses and leverage Power BI for a visual representation for the numbers. A web application was also developed using Angular and .Net Core RESTful API. Using XTGlobal's offshore resources, XTGlobal came up with a quick and effective data analytics solution for the client within the timeline and budget. An MS SQL expert who was experienced in ERP and Analytics was also provided to support the client's core team.

Key Highlights:

Real-time Big Data Analytics Solution

Offshore Tech Talent Support with BOLT

XTGLOBAL GIVES TRANSPORTATION SOLUTIONS PROVIDER THE POWER TO ZOOM WITH OCI MIGRATION

Customer Story:

A leading provider of innovative technology solutions for the toll and transportation market in the USA was dependent on its On-Premise environments and platforms that were unable to keep up with the pace of transformation. Apart from cutting costs, the client was looking for other benefits to move to the Cloud infrastructure instead of upgrading the On-Premise infrastructure.

Solution:

XTGlobal helped the client move the client's application servers and databases to Oracle Cloud. Using the Lift and Shift approach, XTGlobal successfully migrated the Client's applications and databases to OCI without affecting their functionality. They could migrate On-Premise workloads, e custom and third-party applications to OCI with minimal re-architecture or reintegration.

Key Highlights:

20 Applications Moved to OCI Cloud

12 Databases Moved to Oracle Cloud.

EXPANDING FUNCTIONALITIES WITH LOW-CODE APPLICATION DEVELOPMENT PLATFORMS

Customer Story:

The client is a leading provider of innovative technology solutions for the toll and transformation industry. The client was using an ERP system that had a unified suite of tolling-specific modules, integrated with commercial off-the-shelf applications (COTS), providing complete account management and automated operations of tolling back-office service functions. It was looking to expand the functionalities of this platform.

Solution:

XTGlobal used Mendix low-code platform and tools to add incremental functionalities to the client's application platform. Using an Agile methodology, four core modules were added or enhanced (Online Customer Service, Accounts Receivables, Account Creation, Reporting) that enhanced the application's functionalities significantly.

Key Highlights:

Average Account Creation Time
Reduced to

3 Minutes

Low-code enabled quicker application development time for the new modules and functionalities.

INTEGRATION SOLUTIONS IN MICROSOFT AZURE CLOUD

Customer Story:

Access to real-time data is critical for CPA firms to be able to derive solutions for their clients. A leading CPA firm needed a secure, robust solution to automate the end-to-end data delivery with integration to a third-party API. They also needed an application that automated retrieval of the financial data from Yodlee API.

Solution:

XTGlobal used MS Azure's robust and secure servers, databases and required infrastructure to develop a solution for the client. Using a Rapid Application Delivery (RAD) Model, XTGlobal came up with a customer portal using Azure App Service, Azure SQL Database, and Azure Repos. It designed an integration solution that made data retrieval from Yodlee API as well as authentication easy and secure.

Key Highlights:

4X

PUBLISHING COMPANY AUTOMATES LEGACY BILLING AND REPORTING PROCESSES

Customer Story:

A leading publishing company was using legacy systems and manual processes for its reporting and billing operations which was time consuming and tedious. Using basic tools like AS400, Excel and Outlook, the team was performing data entry and emailing work manually.

Solution:

XTGlobal used UiPath tools to create an automation solution within 2 months that helped the company save both resource time and costs. The entire process was designed to be run in one hour and the BOT was deployed into UiPath Orchestrator for easy monitoring and maintenance.

Key Highlights:

4

FTEs that were involved in the process part-time could be freed from manual tasks.

MANAGEMENT DISCUSSION AND ANALYSIS REPORT

A. Industry Structure and Development

IT Business of most Indian Software Development companies can be classified into Onsite Consulting Services, Offshore Software Services, Product Sales and IT Enabled Services. While Onsite Consulting Services has witnessed a steady growth, Offshore Software business has experienced a significant change either through Dedicated Development Centers for overseas partners or Joint Ventures. We have a global presence, deep domain expertise. The product sales of Indian companies in the international markets has been miniscule, while IT enabled services business has seen a strident growth during the last 7 to 8 years.

The future direction clearly favors Offshore Software Services and IT-enabled Services.

XTGlobal Infotech Limited (Formerly Frontier Informatics Limited) is a Public Listed Company, incorporated and domiciled in India and has its registered office in Hyderabad, Telangana, India. It has a primary listing on BSE Limited (BSE).

B. Opportunities

- a. Offshore Software Maintenance and Enhancements
- b. IT Enabled Services/BPO Operations
- c. Increased IT spending within India

The Company has established adequate internal control systems and procedures both in financial and operational areas that are commensurate with the size and nature of the business of the Company. The constitution of Audit Committee with independent non-executive Directors is instrumental in ensuring mainly the following:

- Oversight of Company's financial reporting process and the disclosures of its financial information to ensure that the financial statements are correct, sufficient and credible.
- Reviewing with management the annual financial statements before submission to the Board, focusing primarily on any changes in accounting policies, compliances with accounting standards etc.
- Discussion with the senior management to ensure adherence to the internal Control systems and processes.
- To ensure that appropriate controls are established and are effective throughout every software development project and conforming to Software Engineering Practices.

C. Threats, Risks and Concerns

1. Competition from countries like China and European Countries in the medium to long term.
2. Large international companies establishing their own subsidiaries instead of depending on Indian Companies.
3. Countries like USA bringing in legislation regarding VISA and work permits discourage hiring of resources from other countries.
4. Impact of COVID Pandemic

In spite of certain negative factors in the international markets, company believes that there are enough global opportunities to be tapped. Countries like China will take a few more years before they can provide wide ranging Software Services of high quality. Company intends to concentrate on Offshore opportunities in Software Maintenance and IT enabled services space as well as computer education and training in the coming few years.

D. Outlook

The management is planning to make reasonable business in the areas of Offshore IT consulting put more marketing efforts to secure Business. The company is looking for strategic business acquisitions to enhance

business opportunities and to gain operational synergy. The company is making endeavours to improve the financial strength of the company by raising funds through issue of Equity shares on preferential basis. The company is also striving hard to secure business opportunities in domestic market, USA and Middle East. To achieve this objective, the company hired marketing experts. The company was not able to raise finances due to the losses incurred by the company over the past few years, which have reduced the company to negative net worth. Your directors are contemplating various measures for improving the strength of the balance sheet and to enable the company to raise investment and other form of funding.

E. Risk and Concerns

The changing situation in USA and Europe may lead to more restrictions on offshore projects and stringent norms for Onsite Consulting services.

F. Strategy

XTGlobal has successfully navigated through multiple technology cycles over the last few years, pivoting and adapting each time to build relevant new capabilities through organic talent development and helping our clients realize the benefits of emerging technologies.

Our responsiveness, agility and adaptability to change have been core to our longevity.

Customer-centricity is at the core of XTGlobal' strategy, organization structure and investment decisions. The philosophy has been to expand and deepen customer engagements by continually looking for new areas in the customer's business where we can add value, proactively invest in building newer capabilities, and launch new offerings to participate in those opportunities.

G. Internal control system and their adequacy

The Company has established adequate internal control systems and procedures both in financial and operational areas that are commensurate with the size and nature of the business of the Company. The constitution of Audit Committee with independent non-executive Directors is instrumental in ensuring mainly the following:

1. Oversight of Company's financial reporting process and the disclosures of its financial information to ensure that the financial statements are correct, sufficient and credible.
2. Reviewing with management the annual financial statements before submission to the Board, focusing primarily on any changes in accounting policies, compliances with accounting standards etc.
3. Discussion with the senior management to ensure adherence to the internal Control systems and processes.
4. To ensure that appropriate controls are established and are effective throughout every software development project and conforming to Software Engineering Practices.

H. Discussion on financial performance with respect to operational performance

Financial statements are prepared under the Historical Cost Convention in accordance with the Indian Generally Accepted Accounting Principles and the provisions of the Companies Act, 2013.

The current scenario in the company is one wherein dynamic changes are the name of the game. There is a constant monitoring and improvement of systems and operations in the company. Appropriate actions both internally and externally are initiated to improve the prospects. Turnaround Management is initiated to revive the company's fortune by pulling together all the available resources for materializing all the available opportunities.

As indicated in the below table, XTGlobal has made an impressive turnaround in the year ended March, 2021, making a profit of Rs. 315.30 Lakhs. This indicates a new beginning that involved a planned strategy of taking in more resources and working on financially viable projects during the year as well as strategizing on opportunities and investments with a focus on revenues.

The financial performance of the company over the years are as under:

Sl. No.	Financial Year	Profit/Loss (Rs. In Lacs)

Practicing Company Secretary's Certificate on Compliance with the Corporate Governance requirements under SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015

To the Members of XTGlobal Infotech Limited

This report contains details of compliance of conditions of Corporate Governance by XTGlobal Infotech Limited ('the Company'), for the year ended 31st March 2021, as stipulated in regulations 17 to 27, clauses (b) to (i) of regulation 46(2) and paragraphs C, D and E of Schedule V of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 ('Listing Regulations') pursuant to the Listing Agreement of the Company with Stock exchanges.

Management's Responsibility

The compliance with the terms and conditions contained in the Corporate Governance is the responsibility of the management of the Company, including the preparation and maintenance of all relevant supporting records and documents.

This responsibility includes the design, implementation and maintenance of internal control and procedures to ensure the compliance with the conditions of the Corporate Governance stipulated in the Listing Regulations.

Our Responsibility

Our examination was limited to procedures and implementation thereof adopted by the Company for ensuring the compliance of the conditions of Corporate Governance. It is neither an audit nor an expression of opinion on the financial statements of the Company. Pursuant to the requirements of the Listing Regulations, it is our responsibility to provide a reasonable assurance whether the Company has complied with the conditions of Corporate Governance as stipulated in Listing Regulations for the year ended 31st March 2021.

We conducted our examination in accordance with the 'Guidance Note on Reports or Certificates for Special Purposes' (Revised 2016), 'Guidance Note on Certification of Corporate Governance', both issued by the Institute of Chartered Accountants of India ('ICAI') and the Standards on Auditing specified under Section 143(10) of the Companies Act, 2013, in so far as applicable for the purpose of this certificate. The Guidance Note on Reports or Certificates for Special Purposes requires that we comply with the ethical requirements of the Code of Ethics issued by the ICAI.

We have complied with the relevant applicable requirements of the Standard on Quality Control (SQC) 1, Quality Control for Firms that perform Audits and Reviews of Historical Financial Information, and Other Assurance and Related Service Engagements.

Our Opinion

In our opinion and to the best of our information and according to the explanations given to us, we certify that the Company has complied with the conditions of Corporate Governance as per the Regulations 17 to 27, clause (b) to (i) of Regulation 46 (2) and paragraphs C, D and E of Schedule V of the Listing Regulations, as applicable.

We state that such compliance is neither an assurance as to the future viability of the Company nor the efficiency or effectiveness with which the management has conducted the affairs of the Company.

INDEPENDENT AUDITORS' REPORT ON STANDALONE QUARTERLY FINANCIAL RESULTS OF XTGLOBAL INFOTECH LIMITED PURSUANT TO THE REGULATION 33 OF THE SEBI (LISTING OBLIGATIONS AND DISCLOSURE REQUIREMENTS) REGULATIONS, 2015

TO
THE BOARD OF DIRECTORS OF
XTGLOBAL INFOTECH LIMITED,
(FORMERLY FRONTIER INFORMATICS LIMITED)

Opinion

We have audited the accompanying Statement of Standalone Financial Results of XTGlobal Infotech Limited (the "Company"), for the quarter and year ended March 31, 2021 being submitted by the Company pursuant to the requirement of Regulation 33 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended (the "Listing Regulations").

In our opinion and to the best of our information and according to the explanations given to us, the Statement:

- I. are presented in accordance with the requirements of Regulation 33 of the Listing Regulations, in this regard; and
- II. gives a true and fair view in conformity with the recognition and measurement principles laid down in the Indian Accounting Standards ("Ind AS") and other accounting principles generally accepted in India of the net profit and total comprehensive income and other financial information of the Company for the quarter and year then ended March 31, 2021.

Basis for Opinion

We conducted our audit of the Statement in accordance with the Standards on Auditing ("SA" s) specified under Section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Results section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("ICAI") together with the ethical requirements that are relevant to our audit of the Standalone Financial Results for the quarter and year ended March 31, 2021 under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion.

Management's and Board of Directors' Responsibilities for the Standalone Annual Financial Results

The Company's Management and the Board of Directors are responsible for the preparation and presentation of these standalone annual financial results that give a true and fair view of the net profit and other comprehensive income and other financial information in accordance with the recognition and measurement principles laid down in Indian Accounting Standards prescribed under Section 133 of the Act and other accounting principles generally accepted in India and in compliance with Regulation 33 of the Listing Regulations. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act; for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone annual financial results that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone annual financial results, the Management and the Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Annual Financial Results

Our objectives are to obtain reasonable assurance about whether the Standalone Financial Results as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this Standalone Financial Results.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Standalone Financial Results, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the Board of Directors.
- Evaluate the appropriateness and reasonableness of disclosures made by the Board of Directors in terms of the requirements specified under Regulation 33 of the Listing Regulations.
- Conclude on the appropriateness of the Board of Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Company to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Statement or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure, and content of the Standalone Financial Results, including the disclosures, and whether the Standalone Financial Results represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the Standalone Financial Results of the Company to express an opinion on the Standalone Financial Results.

Materiality is the magnitude of misstatements in the Standalone Financial Results that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the Standalone Financial Results may be influenced. We consider quantitative materiality and qualitative factors in

- (i) planning the scope of our audit work and in evaluating the results of our work; and
- (ii) to evaluate the effect of any identified misstatements in the Standalone Financial Results.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

We also performed procedures in accordance with the circular No CIR/CFD/CMD 1 /44/2019 issued by the SEBI under Regulation 33(8) of the Listing Regulations, as amended, to the extent applicable.

SIGNIFICANT ACCOUNTING POLICIES AND NOTES TO THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2021

A. General Information

XTGlobal Infotech Limited (Formerly Frontier Informatics Limited) was incorporated under the provisions of Companies Act, 1956 as a limited company on July 29, 1986. It has been operating in the spheres of Software product development, training and software services since its inception. The Equity shares of the company are listed in Bombay Stock Exchange Limited (BSE) since 1996.

B. Basis of preparation of financial statements

B.1. Statement of Compliance

These financial statements are prepared in accordance with the generally accepted accounting principles (GAAP) in India and in compliance with the Indian Accounting Standards (Ind AS) Specified under section 133 of the Companies Act 2013("the Act") read with rule 3 of the Companies (Indian Accounting Standards) Rules, 2015, the Companies (Indian Accounting Standards) (Amendment) Rules, 2017 and other provisions to the Act, to the extent notified and applicable as well as applicable guidance notes and pronouncements of the Institute of Chartered Accountants of India (the ICAI).

Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use. The financial statements correspond to the classification provisions contained in Ind AS 1, "Presentation of Financial Statements". For clarity, various items are aggregated in the statements of profit and loss and balance sheet. These items are disaggregated separately in the notes to the financial statements, where applicable. Previous year figures have been regrouped/re-arranged, wherever necessary.

The financial statements were authorized for issue by the Company's Board of Directors on 18th May 2021.

Details of the accounting policies are included in Note 1.

B.2 Basis of preparation and presentation

The financial statements of the Company have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time).

These financial statements have been prepared under the historical cost convention and on an accrual and going concern basis except for the material items:

- Derivative financial instruments are measured at fair value.
- The defined benefit asset/(liability) is recognized as the present value of defined benefit obligation less fair value of plan assets.
- Employee defined benefit assets/(liability) are recognized as the net total of the fair value of plan assets, plus actuarial losses, less actuarial gains and the present value of the defined benefit obligation.
- Long term loans are measured at amortized cost using the effective interest rate method.

B.3 Functional and presentation currency

The financial statements are presented in Indian rupees, which is the functional currency of the Company. All amounts are in Indian Rupees except share data, unless otherwise stated.

B.4 Operating Cycle

All the assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria set out under Ind-As and in the Schedule III to the Companies Act, 2013.

Assets:

An asset is classified as current when it satisfies any of the following criteria:

- a) it is expected to be realized in, or is intended for sale or consumption in, the Company's normal operating cycle;
- b) it is held primarily for the purpose of being traded;
- c) it is expected to be realized within twelve months after the reporting date; or
- d) it is cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting date.

Liabilities:

A liability is classified as current when it satisfies any of the following criteria:

- a) it is expected to be settled in the Company's normal operating cycle;
- b) it is held primarily for the purpose of being traded;
- c) it is due to be settled within twelve months after the reporting date; or
- d) the Company does not have an unconditional right to defer settlement of the liability for at least twelve months after the reporting date. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

B.5 Critical accounting judgements and key sources of estimation uncertainty.

In the application of the Company's accounting policies, which are described in Note 1, the management of the Company are required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

The following are the areas of estimation uncertainty and critical judgements that the management has made in the process of applying the Company's accounting policies and that have the most significant effect on the amounts recognised in the financial statements:

a) Revenue recognition:

The Company applies judgement to determine whether each service promised to a customer is capable of being distinct, and are distinct in the context of the contract, if not, the promised services are combined and accounted as a single performance obligation. The Company allocates the arrangement consideration to separately identifiable performance obligation deliverables based on their relative stand-alone selling price. In cases where the Company is unable to determine the stand-alone selling price, the Company uses expected cost-plus margin approach in estimating the standalone selling price. The Company uses the percentage of completion method using the input (cost expended) method to measure progress towards completion in respect of fixed price contracts. Percentage of completion method accounting relies on estimates of total expected contract revenue and costs. This method is followed when reasonably dependable estimates of the revenues and costs applicable to various elements of the contract can be made. Key factors that are reviewed in estimating the future costs to complete include estimates of future labour costs and productivity efficiencies. Because the financial reporting of these contracts depends on estimates that are assessed continually during the term of these contracts, revenue recognised, profit and timing of revenue for remaining performance obligations are subject to revisions as the contract progresses to completion. Provisions for estimated losses, if any, on uncompleted contracts are recorded in the period in which such losses become probable based on the expected contract estimates at the reporting date.

b) Impairment testing

Investments in subsidiaries and intangible assets (if any) are tested for impairment at least annually and when events occur or changes in circumstances indicate that the recoverable amount of the asset or cash generating units to which these pertain is less than its carrying value. The recoverable amount of cash generating units is higher of value-in-use and fair value less cost to dispose. The calculation of value in use of a cash generating unit involves use of significant estimates and assumptions which includes turnover and earnings multiples, growth rates and net margins used to calculate projected future cash flows, risk-adjusted discount rate, future economic and market conditions.

c) Income Taxes

Tax jurisdiction for the Company is India. Significant judgements are involved in determining the provision for income taxes including judgement on whether tax positions are probable of being sustained in Income tax assessments. Such assessments involve complex issues which would only be resolved over extended time periods.

d) Deferred Taxes

Deferred tax is recorded on temporary differences between the tax bases of assets and liabilities and their carrying amounts, at the rates that have been enacted or substantively enacted at the reporting date. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable profits during the periods in which those temporary differences and tax loss carry forwards become deductible. The Company considers the expected reversal of deferred tax liabilities and projected future taxable income in making this assessment.

e) Defined Benefit Plans and Compensated Absences

The cost of the defined benefit plans, compensated absences and the present value of the defined benefit obligations are based on actuarial valuation using the projected unit credit method as recommended by Ind AS 19. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

f) Useful Lives of Property, Plant and Equipment

The company depreciates property, plant and equipment on a straight-line basis over estimated useful lives of the assets. Depreciation is derived based on an estimate of an asset's expected useful life and the expected residual value at the end of its life. The lives are based on historical experience with similar assets as well as anticipation of future events, which may impact their life, such as changes in technology. The estimated useful life is reviewed by management of the Company periodically, including at end of each financial year.

B.6. Fair Value Measurement and Valuation Process:

The company measured financial assets and liabilities, if any, at fair value for financial reporting purposes.

The Company recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

1. Significant Accounting Policies**1.1 Revenue Recognition**

The Company derives revenue primarily from software development, maintenance of software and related services and business process services.

Revenues are shown net of goods and services tax. Revenue is recognised upon transfer of control of promised services to customers in an amount that reflects the consideration the Company reliably expects to receive in exchange for those products or services. To recognise revenues, the Company applies the following five step approach:

- 1) identify the contract with a customer,
- 2) identify the performance obligations in the contract,
- 3) determine the transaction price,
- 4) allocate the transaction price to the performance obligations in the contract, and
- 5) recognise revenues when a performance obligation is satisfied

At contract inception, the Company assesses its promise to transfer its services to a customer to identify separate performance obligations. The Company applies judgement to determine whether each product or service promised to a customer is capable of being distinct, and are distinct in the context of the contract, if not, the promised products or services are combined and accounted as a single performance obligation. The Company allocates the arrangement consideration to separately identifiable performance obligations based on their relative stand-alone selling price or residual method. Standalone selling prices are determined based on sale prices for the components when it is regularly sold separately. In cases where the Company is unable to determine the stand-alone selling price, the Company uses third-party prices for similar deliverables or the company uses expected cost-plus margin approach in estimating the stand-alone selling price.

Revenue on time-and-material contracts are recognized as the related services are performed and revenue from the end of the last invoicing to the reporting date is recognized as unbilled revenue. Revenue from fixed-price, fixed-timeframe contracts, where the performance obligations are satisfied over time and where there is no uncertainty as to measurement or collectability of consideration, is recognized as per the percentage-of-completion method. When there is uncertainty as to measurement or ultimate collectability, revenue recognition is postponed until such uncertainty is resolved. Efforts or costs expended have been used to measure progress towards completion as there is a direct relationship between input and productivity. In case of volume-based contracts, revenues and costs are recognized as related services are rendered.

1.2 Other Income

Other income is comprised primarily of interest income, rental income and exchange gain / loss. Interest income is recognized using the effective interest method.

1.3 Foreign Currency Transactions.

Functional currency

The functional currency of the Company is the Indian rupee. These financial statements are presented in Indian rupees (rounded off wherever required)

Transactions and translations

Transactions denominated in foreign currencies are recorded at the exchange rates prevailing at the time of the transaction.

Foreign-currency denominated monetary assets and liabilities are translated into the relevant functional currency at exchange rates in effect at the Balance Sheet date. The gains or losses resulting from such translations are included in net profit in the Statement of Profit and Loss. Non-monetary assets and non-monetary liabilities denominated in a foreign currency and measured at fair value are translated at the exchange rate prevalent at the date when the fair value was determined. Non-monetary assets and non-monetary liabilities denominated in a foreign currency and measured at historical cost are translated at the exchange rate prevalent at the date of the transaction.

Exchange difference on monetary items is recognised in the Statement of Profit and Loss in the period in which it arises except for;

(a) Exchange difference on foreign currency borrowings relating to depreciable capital asset is included in cost of assets.

(b) Exchange difference on foreign currency transactions, on which receipt and/ or payments is not planned, initially recognised in Other Comprehensive Income and reclassified from Equity to profit and loss on repayment of the monetary items.

1.4 Taxes on Income Tax and Deferred Tax

Income tax expense comprises current tax expense and the net change in the deferred tax asset or liability during the year. Current and deferred tax are recognized in statement of profit or loss, except when they relate to items that are recognized in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognized in other comprehensive income or directly in equity, respectively.

1) Current income tax

Current income tax for the current and prior periods are measured at the amount expected to be paid to the income tax authorities based on the taxable income for the period. The tax rates and tax laws used to compute the current tax amount are those that are enacted or substantively enacted as at the reporting date and applicable for the period.

2) Deferred income tax

Deferred tax charge or benefit reflects the tax effects of timing differences between accounting income and taxable income, which originate during the year but reverse after the tax holiday period. The deferred tax charge or benefit and the corresponding deferred tax liabilities or assets are recognized using the tax rates that have been enacted or substantially enacted by the balance sheet date. Deferred tax assets are recognized only to the extent there is reasonable certainty that the assets can be realized in future; however, where there is unabsorbed depreciation or carry forward of losses, deferred tax assets are recognized only if there is a virtual certainty of realization of such assets. Deferred tax assets are reviewed at each balance sheet date and written-down or written-up to reflect the amount that is reasonably / virtually certain to be realized. The break-up of the major components of the deferred tax assets and liabilities as at balance sheet date has been arrived at after setting off deferred tax assets and liabilities where the Company has a legally enforceable right to set-off assets against liabilities and where such assets and liabilities relate to taxes on income levied by the same governing taxation laws.

3) Minimum Alternate Tax

MAT credit entitlement represents amounts paid in a year under Section 115JB of the Income Tax Act 1961 ('IT Act'), in excess of the tax payable, computed on the basis of normal provisions of the IT Act. Such excess amount can be carried forward for set off against future tax payments for ten succeeding years in accordance with the relevant provisions of the IT Act. Since such credit represents a resource controlled by the Company as a result of past events and there is evidence as at the reporting date that the Company will pay normal income tax during the specified period, when such credit would be adjusted, the same has been disclosed as 'MAT Credit entitlement', under 'Other non-current financial assets' in balance sheet with a corresponding credit to the profit and loss account, as a separate line item. Such assets are reviewed as at each balance sheet date and written down to reflect the amount that will not be available as a credit to be set off in future, based on the applicable taxation law then in force.

1.5 Earnings per Share

Basic earnings per equity share is computed by dividing the net profit attributable to the equity holders of the Company and includes post tax effect of any exceptional item by the weighted average number of equity shares outstanding during the period excluding the shares owned by the Trust, outstanding during the period.

Diluted earnings per equity share is computed by dividing the net profit attributable to the equity holders of the Company by the weighted average number of equity shares considered for deriving basic earnings per equity share and also the weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares. The dilutive potential equity shares are adjusted for the proceeds receivable had the equity shares been actually issued at fair value (i.e. the average market value of the outstanding equity shares). Dilutive potential equity shares are deemed converted as at the beginning of the period, unless issued at a later date. Dilutive potential equity shares are determined independently for each period presented.

The number of equity shares and potentially dilutive equity shares are adjusted retrospectively for all periods presented for any share splits and bonus shares issues including for changes effected prior to the approval of the financial statements by the Board of Directors.

1.6 Property, Plant and Equipment (PPE)

Property, plant and equipment are stated at cost less accumulated depreciation and impairment losses if any. The Company identifies and determines separate useful lives for each major component of the property, plant and equipment, if they have a useful life that is materially different from that of the asset as a whole.

Cost of an item of PPE comprises of its purchase price including import duties and non-refundable purchase taxes after deducting trade discounts and rebates, any directly attributable cost of bringing the item to its working condition for its intended use and present value of estimated costs of dismantling and removing the item and restoring the site on which it is located. General and specific borrowing costs directly attributable to the construction of a qualifying asset are capitalised as part of the cost.

Expenses on existing property, plant and equipment, including day-to-day repairs, maintenance expenditure and cost of replacing parts, are charged to the statement of profit and loss for the year during which such expenses are incurred. Gains or losses arising from derecognition of assets are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the statement of profit and loss when the asset is derecognized.

Advances paid towards the acquisition of property, plant and equipment outstanding at each Balance Sheet date is classified as capital advances under other non-current assets and the cost of assets not ready to use before such date are disclosed under 'Capital work-in-progress'. Subsequent expenditures relating to property, plant and equipment are capitalized only when it is probable that future economic benefits associated with these will flow to the Company and the cost of the item can be measured reliably.

1.7 Depreciation

Depreciation is the systematic allocation of the depreciable amount of PPE over its useful life as per Ind AS 16 and is provided on a Reduced Balance Method basis over the useful lives as prescribed in Schedule II to the Act or as per technical assessment. Depreciation is charged on a pro-rata basis for assets purchased / sold during the year.

The management's estimates of the useful lives of various assets for computing depreciation are as follows:

Particulars	Useful life
Plant and Machinery	3
Network Devices	6
Office Equipment – Others	5

The useful lives as given above best represent the period over which the management expects to use these assets, based on technical assessment. The estimated useful lives for these assets are therefore different from the useful lives prescribed under Part C of Schedule II of the Companies Act 2013.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year-end and adjusted prospectively, if appropriate.

1.8 Impairment

Property, plant and equipment are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.

If such assets are considered to be impaired, the impairment to be recognized in the Statement of Profit and Loss is measured by the amount by which the carrying value of the assets exceeds the estimated recoverable amount of the asset. An impairment loss is reversed in the Statement of Profit and Loss if there has been a change in the estimates used to determine the recoverable amount.

1.9 Financial Instruments

Financial assets and liabilities are recognized when the Company becomes a party to the contractual provisions of the instrument. Financial assets and liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value measured on initial recognition of financial asset or financial liability.

Cash and Cash Equivalents

Cash comprises cash on hand and demand deposits with banks. Cash equivalents are short-term balances (with an original maturity of three months or less from the date of acquisition), highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risk of changes in value.

Investments

Investment in subsidiaries are measured at cost less impairment.

Financial assets at Amortized Cost

Financial assets are subsequently measured at amortized cost if these financial assets are held within a business whose objective is to hold these assets in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial Assets at Fair Value through other Comprehensive Income

Financial assets are measured at fair value through other comprehensive income if these financial assets are held within a business whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual term of the financial asset gives rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial Assets at Fair Value through Profit or Loss

Financial assets are measured at fair value through profit or loss unless it is measured at amortized cost or at fair value through other comprehensive income on initial recognition. The transaction costs directly attributable to the acquisition of financial assets and liabilities at fair value through profit or loss are immediately recognized in profit or loss.

Financial Liabilities at Fair Value through Profit or Loss

Financial liabilities are classified as measured at amortised cost or FVTPL. A financial liability is classified as at FVTPL if it is classified as held for trading, or it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognised in profit or

loss. Other financial liabilities are subsequently measured at amortised cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognised in profit or loss. Any gain or loss on derecognition is also recognised in profit or loss.

Derecognition

Financial assets

The Company derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Company neither transfers nor retains substantially all of the risks

and rewards of ownership and does not retain control of the financial asset. If the Company enters into transactions whereby it transfers assets recognised on its balance sheet but retains either all or substantially all of the risks and rewards of the transferred assets, the transferred assets are not derecognised.

Financial liabilities

The Company derecognises a financial liability when its contractual obligations are discharged or cancelled or expire. The Company also derecognises a financial liability when its terms are modified and the cash flows under the modified terms are substantially different. In this case, a new financial liability based on the modified terms is recognised at fair value. The difference between the carrying amount of the financial liability extinguished and the new financial liability with modified terms is recognised in profit or loss.

1.10 Provisions

Provisions are recognized when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, the receivable is recognized as an asset, if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably.

Provisions for onerous contracts are recognized when the expected benefits to be derived by the Company from a contract are lower than the unavoidable costs of meeting the future obligations under the contract. Provisions for onerous contracts are measured at the present value of lower of the expected net cost of fulfilling the contract and the expected cost of terminating the contract.

1.11 Statement of Cash Flows (Cash Flow Statement)

Cash flows are reported using the indirect method, whereby net profit before tax is adjusted for the effects of transactions of a non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Company are segregated.

1.12 Employee benefits

1. Provident Fund:

Employees of the Company receive benefits under the provident fund, a defined benefit plan. The employee and employer each make monthly contributions to the plan. A portion of the contribution is made to the provident fund trust

managed by the Company or Government administered provident fund. The liability is actuarially determined (using the projected unit credit method) at the end of the year. The contributions are charged to the statement of profit and loss in the year when employee renders the related service. There are no other obligations other than the contribution payable to the respective authorities.

2. Gratuity:

The Company provides for gratuity, a defined benefit retirement plan ("the Gratuity Plan") covering eligible employees. The Gratuity Plan provides a lump-sum payment to vested employees at retirement, death, incapacitation or termination of employment, of an amount based on the respective employee's salary and the tenure of employment with the Company. Liabilities with regard to the Gratuity Plan are determined by actuarial valuation, performed by an independent actuary, at each Balance Sheet date using the projected unit credit method.

3. Compensated Absences:

The Company has a policy on compensated absences which are both accumulating and non-accumulating in nature. The expected cost of accumulating compensated absences is determined by Estimation Basis. The actuarial valuation is done at the end of the year. Actuarial gains/losses are immediately taken to statement of profit and loss and are not deferred.

1.13 Investments in Subsidiaries and Associates

The company's investment in its Subsidiaries and Associates are carried at cost.

(FORMERLY FRONTIER INFORMATICS LIMITED)

Opinion

We have audited the accompanying Statement of Consolidated Financial Results of XTGlobal Infotech Limited (the "Company"), for the quarter and year ended March 31, 2021 being submitted by the Company pursuant to the requirement of Regulation 33 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended (the "Listing Regulations").

In our opinion and to the best of our information and according to the explanations given to us, the Statement:

- I. Include the quarterly financial results of the following entities (list of entities included in consolidation);
 - a. XTGlobal Infotech Limited, India (Parent Company)
 - b. Xenosoft Technologies India Private Limited, India (Subsidiary)
 - c. XTGlobal Inc., USA (Indirect Subsidiary)
 - d. Circulus LLC., USA (Indirect Subsidiary)
- II. are presented in accordance with the requirements of Regulation 33 of the Listing Regulations, in this regard; and
- III. gives a true and fair view in conformity with the recognition and measurement principles laid down in the Indian Accounting Standards ("Ind AS") and other accounting principles generally accepted in India of the net profit and total comprehensive income and other financial information of the Company for the quarter and year then ended March 31, 2021.

Basis for Opinion

We conducted our audit of the Statement in accordance with the Standards on Auditing ("SA" s) specified under Section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Results section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("ICAI") together with the ethical requirements that are relevant to our audit of the Consolidated Financial Results for the quarter and year ended March 31, 2021 under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion.

Other Matters

The accompanying financial statements includes audited interim financial results and other audited financial information of 3 subsidiaries whose consolidated interim financial statements reflect Group's Share of total revenue of Rs. 48.67 Crores, Group's share of Net profit after tax of Rs. 3.56 Crores, before making inter-company adjustments for quarter ended March 31, 2021

These interim financial statements and other financial information have been audited by other auditors whose reports have been furnished to us, and our opinion on the financial results for the quarter and year ended March 31, 2021 to the extent they have been derived from such interim financial statements is based solely on the report of such other auditors.

Management's and Board of Directors' Responsibilities for the Consolidated Annual Financial Results

The Company's Management and the Board of Directors are responsible for the preparation and presentation of these Consolidated annual financial results that give a true and fair view of the net profit and other comprehensive income and other financial information in accordance with the recognition and measurement principles laid down in Indian Accounting Standards prescribed under Section 133 of the Act and other accounting principles generally accepted in India and in compliance with Regulation 33 of the Listing Regulations. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act; for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Consolidated annual financial results that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Consolidated annual financial results, the Management and the Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Consolidated Annual Financial Results

Our objectives are to obtain reasonable assurance about whether the Consolidated Financial Results as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this Consolidated Financial Results.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Consolidated Financial Results, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the Board of Directors.

- Evaluate the appropriateness and reasonableness of disclosures made by the Board of Directors in terms of the requirements specified under Regulation 33 of the Listing Regulations.
- Conclude on the appropriateness of the Board of Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Company to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Statement or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure, and content of the Consolidated Financial Results, including the disclosures, and whether the Consolidated Financial Results represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the Consolidated Financial Results of the Company to express an opinion on the Consolidated Financial Results.

Materiality is the magnitude of misstatements in the Consolidated Financial Results that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the Consolidated Financial Results may be influenced. We consider quantitative materiality and qualitative factors in

- (i) planning the scope of our audit work and in evaluating the results of our work; and
- (ii) to evaluate the effect of any identified misstatements in the Consolidated Financial Results.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

We also performed procedures in accordance with the circular No CIR/CFD/CMD 1 /44/2019 issued by the SEBI under Regulation 33(8) of the Listing Regulations, as amended, to the extent applicable.

SIGNIFICANT ACCOUNTING POLICIES AND NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2021

A. General Information

XTGlobal Infotech Limited (Formerly Frontier Informatics Limited) was incorporated under the provisions of Companies Act, 1956 as a limited company on July 29, 1986. It has been operating in the spheres of Software product development, training and software services since its inception. The Equity shares of the company are listed in Bombay Stock Exchange Limited (BSE) since 1996. The Company along with Xenosoft Technologies (India) Private Limited, XTGlobal Inc and Circulus LLC are together referred to as "the Group".

B. Basis of preparation of financial statements

B.1. Statement of Compliance

These financial statements are prepared in accordance with the generally accepted accounting principles (GAAP) in India and in compliance with the Indian Accounting Standards (Ind AS) Specified under section 133 of the Companies Act, 2013("the Act") read with rule 3 of the Companies (Indian Accounting Standards) Rules, 2015, the Companies (Indian Accounting Standards) (Amendment) Rules, 2017 and other provisions to the Act, to the extent notified and applicable as well as applicable guidance notes and pronouncements of the Institute of Chartered Accountants of India (the ICAI).

Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use. The financial statements correspond to the classification provisions contained in Ind AS 1, "Presentation of Financial Statements". For clarity, various items are aggregated in the statements of profit and loss and balance sheet. These items are disaggregated separately in the notes to the financial statements, where applicable. Previous year figures have been regrouped/re-arranged, wherever necessary.

The financial statements were authorized for issue by the Company's Board of Directors on 18th May 2021.

Details of the accounting policies are included in Note 1.

B.2 Basis of preparation and presentation

The financial statements of the Group have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time).

These financial statements have been prepared under the historical cost convention and on an accrual and going concern basis except for the material items:

- Derivative financial instruments are measured at fair value.
- The defined benefit asset/(liability) is recognized as the present value of defined benefit obligation less fair value of plan assets.
- Employee defined benefit assets/(liability) are recognized as the net total of the fair value of plan assets, plus actuarial losses, less actuarial gains and the present value of the defined benefit obligation.
- Long term loans are measured at amortized cost using the effective interest rate method.

B.3 Functional and presentation currency

The financial statements are presented in Indian rupees, which is the functional currency of the Group. All amounts are in Indian Rupees except share data, unless otherwise stated.

B.4 Operating Cycle

All the assets and liabilities have been classified as current or non-current as per the Group's normal operating cycle and other criteria set out under Ind As and in the Schedule III to the Companies Act, 2013.

Assets:

An asset is classified as current when it satisfies any of the following criteria:

- a) it is expected to be realized in, or is intended for sale or consumption in, the Group's normal operating cycle;
- b) it is held primarily for the purpose of being traded;
- c) it is expected to be realized within twelve months after the reporting date; or
- d) it is cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting date.

Liabilities:

A liability is classified as current when it satisfies any of the following criteria:

- a) it is expected to be settled in the Group's normal operating cycle;
- b) it is held primarily for the purpose of being traded;
- c) it is due to be settled within twelve months after the reporting date; or
- d) the Group does not have an unconditional right to defer settlement of the liability for at least twelve months after the reporting date. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

B.5 Critical Accounting Judgements and Key Sources of Estimation Uncertainty.

In the application of the Group's accounting policies, which are described in Note 1, the management of the Group are required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

The following are the areas of estimation uncertainty and critical judgements that the management has made in the process of applying the Group's accounting policies and that have the most significant effect on the amounts recognised in the financial statements:

a) **Revenue Recognition:**

The Group applies judgement to determine whether each service promised to a customer is capable of being distinct, and are distinct in the context of the contract, if not, the promised services are combined and accounted as a single performance obligation. The Group allocates the arrangement consideration to separately identifiable performance obligation deliverables based on their relative stand-alone selling price. In cases where the Group is unable to determine the stand-alone selling price, the Group uses expected cost-plus margin approach in estimating the standalone selling price. The Group uses the percentage of completion method using the input (cost expended) method to measure progress towards completion in respect of fixed price contracts. Percentage of completion method accounting relies on estimates of total expected contract revenue and costs. This method is followed when reasonably dependable estimates of the revenues and costs applicable to various elements of the contract can be made. Key factors that are reviewed in estimating the future costs to complete include estimates of future labour costs and productivity efficiencies. Because the financial reporting of these contracts depends on estimates that are assessed continually during the term of these contracts, revenue recognised, profit and timing of revenue for remaining performance obligations are subject to revisions as the contract progresses to completion. Provisions for estimated losses, if any, on uncompleted contracts are recorded in the period in which such losses become probable based on the expected contract estimates at the reporting date.

b) Impairment Testing

Investments in subsidiaries and intangible assets (if any) are tested for impairment at least annually and when events occur or changes in circumstances indicate that the recoverable amount of the asset or cash generating units to which these pertain is less than its carrying value. The recoverable amount of cash generating units is higher of value-in-use and fair value less cost to dispose. The calculation of value in use of a cash generating unit involves use of significant estimates and assumptions which includes turnover and earnings multiples, growth rates and net margins used to calculate projected future cash flows, risk-adjusted discount rate, future economic and market conditions.

c) Income Taxes

Tax jurisdiction for the Company is India. Significant judgements are involved in determining the provision for income taxes including judgement on whether tax positions are probable of being sustained in Income tax assessments. Such assessments involve complex issues which would only be resolved over extended time periods.

d) Deferred Taxes

Deferred tax is recorded on temporary differences between the tax bases of assets and liabilities and their carrying amounts, at the rates that have been enacted or substantively enacted at the reporting date. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable profits during the periods in which those temporary differences and tax loss carry forwards become deductible. The Group considers the expected reversal of deferred tax liabilities and projected future taxable income in making this assessment.

e) Defined Benefit Plans and Compensated Absences

The cost of the defined benefit plans, compensated absences and the present value of the defined benefit obligations are based on actuarial valuation using the projected unit credit method as recommended by Ind AS 19. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

f) Useful lives of Property, Plant and Equipment

The Group depreciates property, plant and equipment on a straight-line basis over estimated useful lives of the assets. Depreciation is derived based on an estimate of an asset's expected useful life and the expected residual value at the end of its life. The lives are based on historical experience with similar assets as well as anticipation of future events, which may impact their life, such as changes in technology. The estimated useful life is reviewed by management of the Group periodically, including at end of each financial year.

B.6. Fair Value Measurement and Valuation Process:

The Group measured financial assets and liabilities, if any, at fair value for financial reporting purposes.

The Group recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

1. Significant Accounting Policies**1.1 Revenue Recognition**

The Group derives revenue primarily from software development, maintenance of software and related services and business process services.

Revenues are shown net of goods and services tax. Revenue is recognised upon transfer of control of promised services to customers in an amount that reflects the consideration the Group reliably expects to receive in exchange for those products or services. To recognise revenues, the Group applies the following five step approach:

1. identify the contract with a customer,
2. identify the performance obligations in the contract,
3. determine the transaction price,
4. allocate the transaction price to the performance obligations in the contract, and
5. recognise revenues when a performance obligation is satisfied

At contract inception, the Group assesses its promise to transfer its services to a customer to identify separate performance obligations. The Group applies judgement to determine whether each product or service promised to a customer is capable of being distinct, and are distinct in the context of the contract, if not, the promised products or services are combined and accounted as a single performance obligation. The Group allocates the arrangement consideration to separately identifiable performance obligations based on their relative stand-alone selling price or residual method. Standalone selling prices are determined based on sale prices for the components when it is regularly sold separately. In cases where the Group is unable to determine the stand-alone selling price, the Group uses third-party prices for similar deliverables or the Group uses expected cost-plus margin approach in estimating the stand-alone selling price.

Revenue on time-and-material contracts are recognized as the related services are performed and revenue from the end of the last invoicing to the reporting date is recognized as unbilled revenue. Revenue from fixed-price, fixed-timeframe contracts, where the performance obligations are satisfied over time and where there is no uncertainty as to measurement or collectability of consideration, is recognized as per the percentage-of-completion method. When there is uncertainty as to measurement or ultimate collectability, revenue recognition is postponed until such uncertainty is resolved. Efforts or costs expended have been used to measure progress towards completion as there is a direct relationship between input and productivity. In case of volume-based contracts, revenues and costs are recognized as related services are rendered.

1.2 Other Income

Other income is comprised primarily of interest income, rental income and exchange gain / loss. Interest income is recognized using the effective interest method.

1.3 Foreign Currency Transactions.

Functional Currency

The functional currency of the Group is the Indian rupee. These financial statements are presented in Indian rupees (rounded off wherever required)

Transactions and Translations

Transactions denominated in foreign currencies are recorded at the exchange rates prevailing at the time of the transaction.

Foreign-currency denominated monetary assets and liabilities are translated into the relevant functional currency at exchange rates in effect at the Balance Sheet date. The gains or losses resulting from such translations are included in net profit in the Statement of Profit and Loss. Non-monetary assets and non-monetary liabilities denominated in a foreign currency and measured at fair value are translated at the exchange rate prevalent at the date when the fair value was determined. Non-monetary assets and non-monetary liabilities denominated in a foreign currency and measured at historical cost are translated at the exchange rate prevalent at the date of the transaction.

Exchange difference on monetary items is recognised in the Statement of Profit and Loss in the period in which it arises except for;

(a) Exchange difference on foreign currency borrowings relating to depreciable capital asset is included in cost of assets.

(b) Exchange difference on foreign currency transactions, on which receipt and/ or payments is not planned, initially recognised in Other Comprehensive Income and reclassified from Equity to profit and loss on repayment of the monetary items.

1.4 Taxes on Income Tax and Deferred Tax

Income tax expense comprises current tax expense and the net change in the deferred tax asset or liability during the year. Current and deferred tax are recognized in statement of profit or loss, except when they relate to items that are recognized in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognized in other comprehensive income or directly in equity, respectively.

1) Current income tax

Current income tax for the current and prior periods are measured at the amount expected to be paid to the income tax authorities based on the taxable income for the period. The tax rates and tax laws used to compute the current tax amount are those that are enacted or substantively enacted as at the reporting date and applicable for the period.

2) Deferred income tax

Deferred tax charge or benefit reflects the tax effects of timing differences between accounting income and taxable income, which originate during the year but reverse after the tax holiday period. The deferred tax charge or benefit and the corresponding deferred tax liabilities or assets are recognized using the tax rates that have been enacted or substantially enacted by the balance sheet date. Deferred tax assets are recognized only to the extent there is reasonable certainty that the assets can be realized in future; however, where there is unabsorbed depreciation or carry forward of losses, deferred tax assets are recognized only if there is a virtual certainty of realization of such assets. Deferred tax assets are reviewed at each balance sheet date and written-down or written-up to reflect the amount that is reasonably / virtually certain to be realized. The break-up of the major components of the deferred tax assets and liabilities as at balance sheet date has been arrived at after setting off deferred tax assets and liabilities where the Group has a legally enforceable right to set-off assets against liabilities and where such assets and liabilities relate to taxes on income levied by the same governing taxation laws.

3) Minimum Alternate Tax

MAT credit entitlement represents amounts paid in a year under Section 115JB of the Income Tax Act 1961 ('IT Act'), in excess of the tax payable, computed on the basis of normal provisions of the IT Act. Such excess amount can be carried forward for set off against future tax payments for ten succeeding years in accordance with the relevant provisions of the IT Act. Since such credit represents a resource controlled by the Group as a result of past events and there is evidence as at the reporting date that the Group will pay normal income tax during the specified period, when such credit would be adjusted, the same has been disclosed as 'MAT Credit entitlement', under 'Other non-current financial assets' in balance sheet with a corresponding credit to the profit and loss account, as a separate line item. Such assets are reviewed as at each balance sheet date and written down to reflect the amount that will not be available as a credit to be set off in future, based on the applicable taxation law then in force.

1.5 Earnings Per Share

Basic earnings per equity share is computed by dividing the net profit attributable to the equity holders of the Group and includes post tax effect of any exceptional item by the weighted average number of equity shares outstanding during the period excluding the shares owned by the Trust, outstanding during the period.

Diluted earnings per equity share is computed by dividing the net profit attributable to the equity holders of the Group by the weighted average number of equity shares considered for deriving basic earnings per equity share and also the weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares. The dilutive potential equity shares are adjusted for the proceeds receivable had the equity shares been actually issued at fair value (i.e. the average market value of the outstanding equity shares). Dilutive potential equity shares are deemed converted as at the beginning of the period, unless issued at a later date. Dilutive potential equity shares are determined independently for each period presented.

The number of equity shares and potentially dilutive equity shares are adjusted retrospectively for all periods presented for any share splits and bonus shares issues including for changes effected prior to the approval of the financial statements by the Board of Directors.

1.6 Property, Plant and Equipment (PPE)

Property, plant and equipment are stated at cost less accumulated depreciation and impairment losses if any. The Group identifies and determines separate useful lives for each major component of the property, plant and equipment, if they have a useful life that is materially different from that of the asset as a whole.

Cost of an item of PPE comprises of its purchase price including import duties and non-refundable purchase taxes after deducting trade discounts and rebates, any directly attributable cost of bringing the item to its working condition for its intended use and present value of estimated costs of dismantling and removing the item and restoring the site on which it is located. General and specific borrowing costs directly attributable to the construction of a qualifying asset are capitalised as part of the cost.

Expenses on existing property, plant and equipment, including day-to-day repairs, maintenance expenditure and cost of replacing parts, are charged to the statement of profit and loss for the year during which such expenses are incurred. Gains or losses arising from derecognition of assets are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the statement of profit and loss when the asset is derecognized.

Advances paid towards the acquisition of property, plant and equipment outstanding at each Balance Sheet date is classified as capital advances under other non-current assets and the cost of assets not ready to use before such date are disclosed under 'Capital work-in-progress'. Subsequent expenditures relating to property, plant and equipment are capitalized only when it is probable that future economic benefits associated with these will flow to the Group and the cost of the item can be measured reliably.

1.7 Depreciation

Depreciation is the systematic allocation of the depreciable amount of PPE over its useful life as per Ind AS 16 and is provided on a Reduced Balance Method basis over the useful lives as prescribed in Schedule II to the Act or as per technical assessment. Depreciation is charged on a pro-rata basis for assets purchased / sold during the year.

The management's estimates of the useful lives of various assets for computing depreciation are as follows:

Particulars	Useful life
Plant and Machinery	3
Network Devices	6
Office Equipment – Others	5

The useful lives as given above best represent the period over which the management expects to use these assets, based on technical assessment. The estimated useful lives for these assets are therefore different from the useful lives prescribed under Part C of Schedule II of the Companies Act 2013.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year-end and adjusted prospectively, if appropriate.

1.8 Impairment

Property, plant and equipment are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.

If such assets are considered to be impaired, the impairment to be recognized in the Statement of Profit and Loss is measured by the amount by which the carrying value of the assets exceeds the estimated recoverable amount of the asset. An impairment loss is reversed in the Statement of Profit and Loss if there has been a change in the estimates used to determine the recoverable amount.

1.9 Financial Instruments

Financial assets and liabilities are recognized when the Group becomes a party to the contractual provisions of the instrument. Financial assets and liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value measured on initial recognition of financial asset or financial liability.

Cash and Cash Equivalents

Cash comprises cash on hand and demand deposits with banks. Cash equivalents are short-term balances (with an original maturity of three months or less from the date of acquisition), highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risk of changes in value.

Investments

Investment in subsidiaries are measured at cost less impairment.

Financial Assets at Amortized Cost

Financial assets are subsequently measured at amortized cost if these financial assets are held within a business whose objective is to hold these assets in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial Assets at Fair Value through Other Comprehensive Income

Financial assets are measured at fair value through other comprehensive income if these financial assets are held within a business whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset gives rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial Assets at Fair Value through Profit or Loss

Financial assets are measured at fair value through profit or loss unless it is measured at amortized cost or at fair value through other comprehensive income on initial recognition. The transaction costs directly attributable to the acquisition of financial assets and liabilities at fair value through profit or loss are immediately recognized in profit or loss.

Financial Liabilities at Fair Value through Profit or Loss

Financial liabilities are classified as measured at amortised cost or FVTPL. A financial liability is classified as at FVTPL if it is classified as held for trading, or it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognised in profit or loss. Other financial liabilities are subsequently measured at amortised cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognised in profit or loss. Any gain or loss on derecognition is also recognised in profit or loss.

Derecognition

Financial Assets

The Group derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Group neither transfers nor retains substantially all of the risks and rewards of ownership and does not retain control of the financial asset. If the Group enters into transactions whereby it transfers assets recognised on its balance sheet, but retains either all or substantially all of the risks and rewards of the transferred assets, the transferred assets are not derecognised.

Financial Liabilities

The Group derecognises a financial liability when its contractual obligations are discharged or cancelled, or expire. The Group also derecognises a financial liability when its terms are modified and the cash flows under the modified terms are substantially different. In this case, a new financial liability based on the modified terms is recognised at fair value. The difference between the carrying amount of the financial liability extinguished and the new financial liability with modified terms is recognised in profit or loss.

1.10 Provisions

Provisions are recognized when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, the receivable is recognized as an asset, if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably.

Provisions for onerous contracts are recognized when the expected benefits to be derived by the Group from a contract are lower than the unavoidable costs of meeting the future obligations under the contract. Provisions for onerous contracts are measured at the present value of lower of the expected net cost of fulfilling the contract and the expected cost of terminating the contract.

1.11 Statement of Cash Flows (Cash Flow Statement)

Cash flows are reported using the indirect method, whereby net profit before tax is adjusted for the effects of transactions of a non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Group are segregated.

1.12 Employee Benefits

1. Provident Fund: Employees of the Group receive benefits under the provident fund, a defined benefit plan. The employee and employer each make monthly contributions to the plan. A portion of the contribution is made to the

provident fund trust managed by the Group or Government administered provident fund. The liability is actuarially determined (using the projected unit credit method) at the end of the year. The contributions are charged to the statement of profit and loss in the year when employee renders the related service. There are no other obligations other than the contribution payable to the respective authorities.

2. Gratuity:

The Group provides for gratuity, a defined benefit retirement plan ("the Gratuity Plan") covering eligible employees. The Gratuity Plan provides a lump-sum payment to vested employees at retirement, death, incapacitation or termination of employment, of an amount based on the respective employee's salary and the tenure of employment with the Group. Liabilities with regard to the Gratuity Plan are determined by actuarial valuation, performed by an independent actuary, at each Balance Sheet date using the projected unit credit method.

3. Compensated Absences:

The Group has a policy on compensated absences which are both accumulating and non-accumulating in nature. The expected cost of accumulating compensated absences is determined by Estimation Basis. The actuarial valuation is done at the end of the year. Actuarial gains/losses are immediately taken to statement of profit and loss and are not deferred.

1.13 Investments in Subsidiaries and Associates

The Group's investment in its Subsidiaries and Associates are carried at cost.
