Sub: Increase in installed capacity of PVC coated fabrics

Dear Sirs,

With reference to Regulations 30 of SEBI (LODR) Regulations, 2015, we wish to inform you that by carrying out some in-house innovations, the Company has been able to improve the drying speed of PVC coated fabrics in its existing ovens, without compromising with the quality of the product.

The management estimates that, as a result of this improvement, the installed capacity of PVC coated fabrics being manufactured by the Company has increased from 78 lakh metres to 94 lakh metres per annum (representing an increase of about 20%) w.e.f. 01st April, 2021.

After studying the figures of actual increase (which should be reflected in the financial results for the quarter which is to end on 30th June 2021), scope of further improvements, if any, will be assessed.

Yours faithfully,
For Jasch Industries Ltd

J.K. Garg
Managing Director
