The General Manager Dept. Of Corporate Services BSE Ltd. Phiroze Jeejeebhoy Towers Dalal Street, Mumbai-400001 Scrip Code-509709

Dear Sir/Madam,

#### Subject: Investor Presentation – Q4 & FY23

In compliance with Regulation 30 and other applicable provisions of the Listing Regulations, please find enclosed herewith Investor Presentation encompassing, inter-alia, an overview of the Audited Financial Results of International Conveyors Limited ("the Company") for the quarter and year ended March 31, 2023.

Kindly take the same on record.

Thanking You, Yours faithfully, For International Conveyors Ltd

**Dipti Sharma Company Secretary & Compliance Officer** 

Encl: As above

Registered Office & Works I : Falta SEZ, Sector - II, Near Pump House No. 3 Village & Mouza - Akalmegh Dist. South 24 Parganas, West Bengal -743 504

Works II: E-39, M.I.D.C. Area, Chikalthana Aurangabad - 431 006 Maharashtra

### Overview

ICL : India's only Listed player in PVC Conveyor Belting

High Entry Barriers : Long Gestation Period, Dual Regulatory Approvals & Depth of Customer Engagement

Experiencee of Four Decades

A critical consumable for High Growth Mining & Bulk Transportation

Fully Integrated Manufacturing Plant

Marquee International & Domestic Consumers

Building the company with incredible people, competent processes and innovating high-quality products that are long-lasting.

Four Decades Of Business Guided By Core Human Values

ICL was set up to address the key pain point for coal miners - Long waiting period for conveyor belting

### 1979 - 2001

- Mr R K Dabriwala, Founder & MD of ICL, while managing family's erstwhile coalmining business; experienced long waiting periods for conveyor belting an impediment, with the erstwhile Fenner India, a monopoly in India.
- To address this consumer pain point, ICL, in technical collaboration with Scandura Plc, part of the British Belting & Asbestos (BBA) Group of UK (FTSE 100), commenced operations in 1977 in Aurangabad.
- Technical collaboration ended in 1997 as Scandura Plc was acquired by Fenner International, the parent company of Fenner India (now a part of Michelin), which also acquired Dunlop to become Fenner Dunlop.

# Entered International Markets to multiple growth avenues

### 2002 - 2014

- During 1980s-1990s, Coal India and its subsidiaries were primary customers of ICL a pure domestic play.
- ICL moved to international markets with its products finding approvals with the mining authorities and customers in
- USA and Canada in 2002-2003,
- $\circ~$  Australia in 2007-2008 and
- $\circ~$  China in 2012-2013.
- By FY13, 70% of ICL's total sales came from international markets, which was 80% of the total PVC belting exports from India, making ICL the largest PVC Belting exporter from India. ICL enjoyed 35% of domestic market share of PVC belting in India as well.
- During FY13, manufacturing facilities started at Falta SEZ in West Bengal to serve international markets.

Diversification into New Customer Segments, New Products with New Marketing Structure

### 2014 - 2023

- Domestic Demand for PVC Conveyor Belting did not pick up as envisaged
- Favorable regulation led to growth of coal mining in USA .
- Simultaneously ICL moved to serve the needs of miners of potash, phosphate, etc. in North America.
- 100% subsidiaries were created in Australia, USA (North America)
- New products were developed as per the needs and specifications of the customer & countries
- Signed long term contracts with world's largest potash mining companies
- Started supplies to Cement/crusher and waste management industries

Conveyor's belting intended for mining must be engineered to minimize downtime and operate reliably long term, despite tough conditions

Mining Operations Relies Heavily On Belting

٠

- Conveyor belting is critical for bulk transportation of materials like, coal, potash salt etc and no substitute has been found
- ICL design team can undertake full in-house design starting from preliminary design of systems from power and tension calculations all the way through to detailed design
- The ICL team have years of experience in solid woven conveyor belting both for underground and above ground applications
- First company to have BIS Certifications
- Our team has been involved in such projects as:

Moonee colliery (Australia) which was used as the benchmark for underground conveyor systems

Numerous supply arrangements for Indian Coal Mines Support to the customer for selecting belting based on conveyor structure (Sidewinder Software).Pioneer to use PVC belting in Cement industries

Products of International quality, superior technology and testing capability

We manufacture the most extensive range of products comprising Type-3 to Type-12 that are the most suitable for meeting Indian requirements and Type-3 to Type-18 that are popular in markets abroad.

### **Industry Concertation Risk Mitigated**

#### Infrastructure / locational advantage:

- Excellent road infrastructure between Aurangabad and Mumbai
- Convenient rail and air connectivity with Mumbai and New Delhi & is a part of Delhi-Mumbai industrial corridor (DMIC)
- Mumbai sea-port is at a distance of  $\sim$ 350 km and proposed dry port of Jalna is at  $\sim$ 40 km

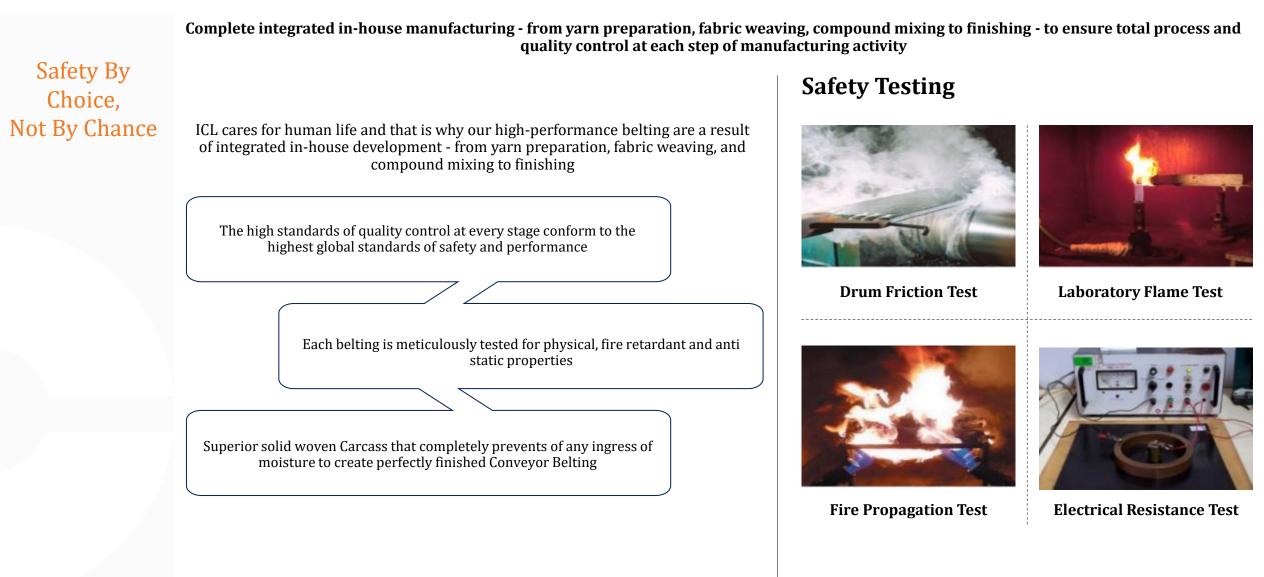

#### Infrastructure / locational advantage:

Kolkata sea-port is at a distance of only ~50 km

#### Cost Advantages :

- Exemption from customs duty and GST on purchase of all raw material and services
- Governed by SEZ laws and conducive cost structures

Long Gestation Period Acts As Huge Entry Barrier We are an ISO 9001:2015 certified Company meeting international quality benchmarks. We also enjoy several certifications and endorsements from stringent global regulatory bodies.

Global – ISO 9001:2015 Certification

### Country specific Mine Safety Approval (Fire Retardant Antistatic – FRAS) for product usage:

Directorate General of Mines Safety (DGMS) approval conforming to IS 3181:1992 (Second Revision). Presently all our belts are BIS approved.

Mine Safety and Health Administration approval conforming to US-MSHA Part-14, Title 30 of Code of Federal Regulations (CFR) Mine Safety and Health Administration approval conforming to US-MSHA Part-18, Title 30 of Code of Federal Regulations (CFR).

Conforming to CSA-M422-14 Type A-1.1.

TestSafe Australia conforming to AS 4606:2012 Grade 'S'.

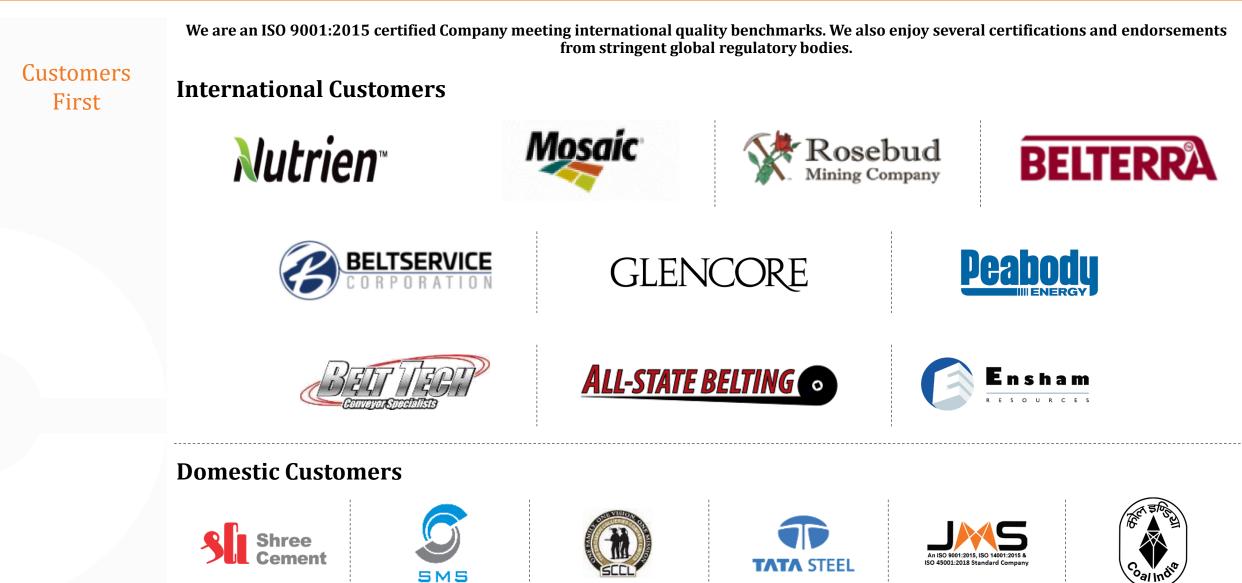

South African Bureau of Standards conforming to SANS 971:2003.

Laboratorio Oficial J.M Madariaga LOM23MINE31119

Customer Stickiness Brand Resonates Well With Customers

- High entry barrier due to Dual Stage Approval process to be an approved supplier
  - Product Approval by regulatory authorities of importing countries
  - $\circ~$  Approvals specific to importing entities
- Long term contracts with approved suppliers to avoid long gestation & tedious process of approvals for vendor selection

Enables the company to continually invest in leading edge equipment, processes and employee training in order to improve the quality of its products.

### **High Revenue Visibility**

- Long term contracts ranging between 5-7 years with customers for order visibility & repeat orders
- Specific tailor-made products manufactured as per Country's & Customers specifications
- Contracts have price variability clause to safeguard swings in raw material prices
- Few manufacturers of the product globally, enables ICL to grab a large market share of a niche industry

# We produce more green energy than we consume

	All our Windmills are generating green energy in the states of Karnataka, Maharashtra, Gujarat and Andhra Pradesh.					
Rs. 14.2 Million Revenues From Renewable	Energy consumed for operations in FY23 is 58,74,909 units .	Renewable Energy generated in FY23 is 60,70,369 units.	At ICL we produce more Green energy than we consume.			
Energy For FY23	Windmill Details		Capacity (KWH)			
	Chitradurga Dist., Karnataka		14,00,000			
	Panchpatta Dist., Maharashtra		14,00,000			
	Kutch Dist., Gujarat		47,00,000			
	Kurnool Dist., Phase - 1, Andhra Pradesh		17,00,000			
	Kurnool Dist., Phase - 2, Andhra Pradesh		17,00,000			

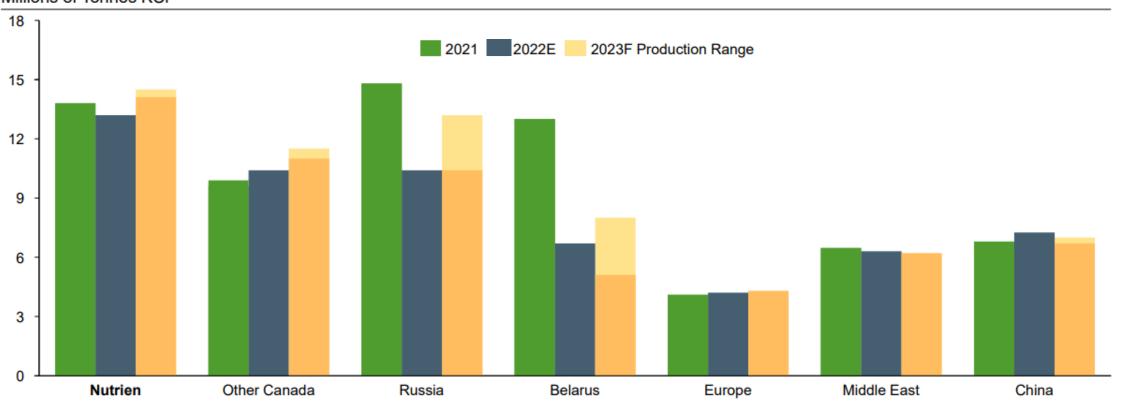

# MINING INDUSTRY AT AN INFLECTION POINT

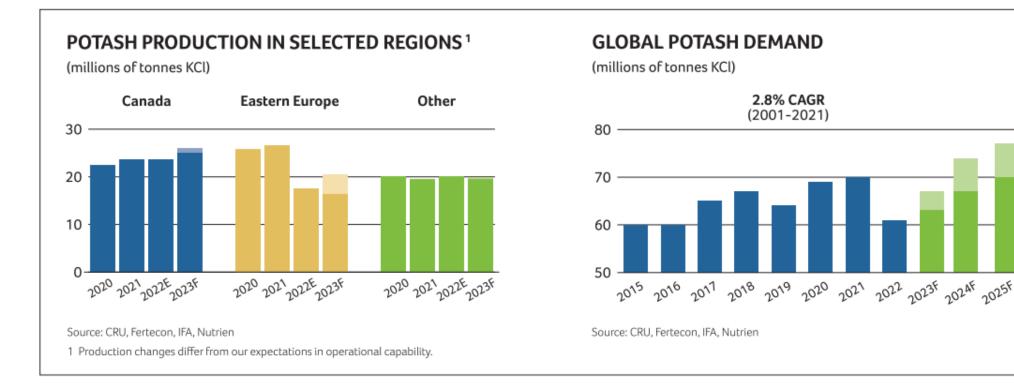

Expect significant reduction in shipments from Eastern Europe due to sanctions and other restrictions; limited existing global capacity available to meaningfully close supply gap

Potash Production in Selected Regions\* Millions of Tonnes KCI

# **Global Potash Deliveries by Region**

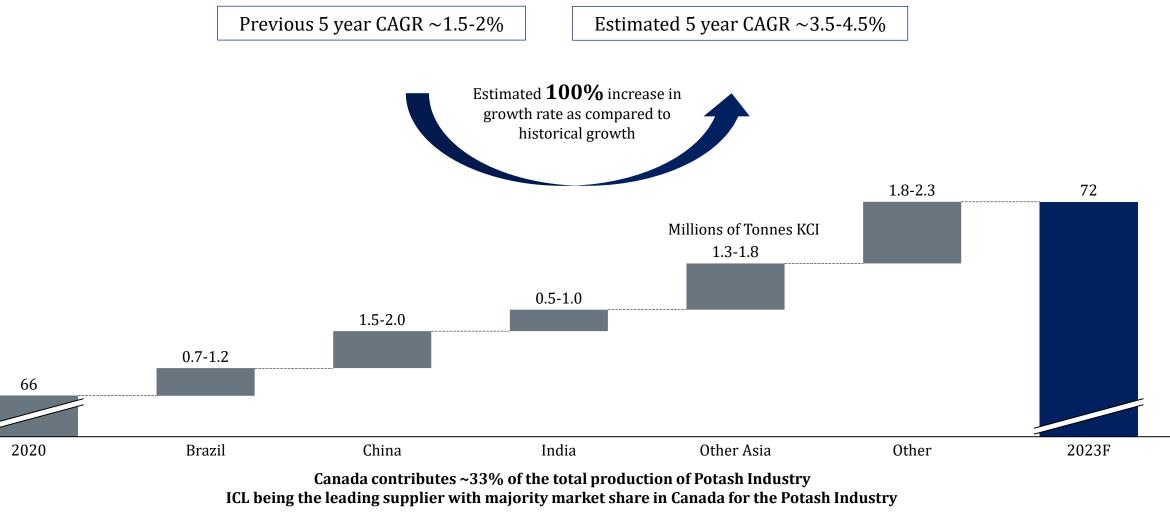

- Improved potash demand is witnessed in early 2023.
- Estimate for global potash shipments in 2023 is 63-67 million tonnes.
- Belarus potash shipments in 2023 are projected to be down 40 to 60 percent and Russian shipments down 15 to 30 percent compared to 2021.Reduction in supply will be most apparent in the first quarter if CY2023 compared to the same period in 2022, as both Belarusian and Russian exports were heavily weighted to early 2022 before sanctions and export restrictions were imposed

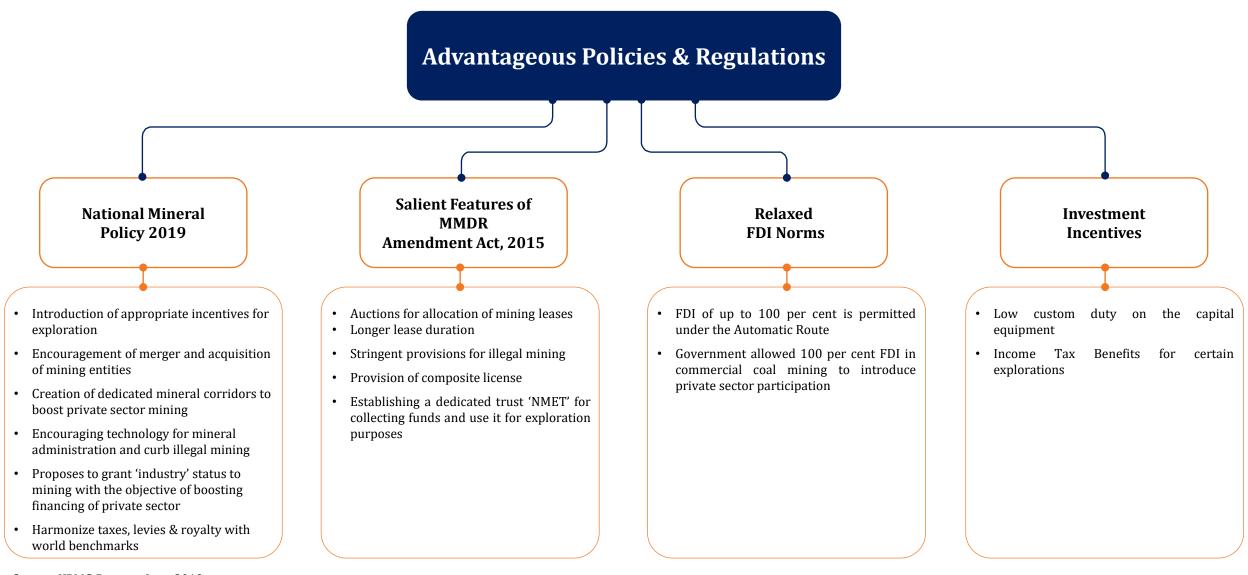

Global potash demand is expected to grow ~7Mmt in the next three years, with medium term growth rates at historic levels. Significant demand growth potential beyond historic rates

Source: Nutrien, Nov 2020

# ...supporting growth across Indian Mining Industry

### **Mining Sector Growth Drives**

India is at an early stage in terms of per capita mineral consumption and has a significant potential to grow at accelerated growth than historical growth

Strong economic growth–Projected to be **fastest growing economy at**least till 2024

New application areas such as electric vehicles, renewables, defense etc.

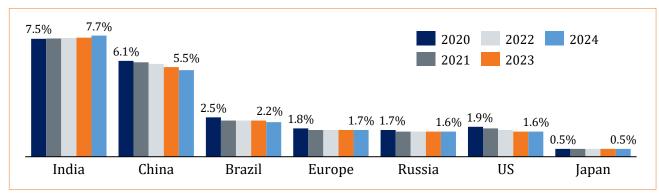

**Technology Development** in the sector increasing efficiencies and productivity

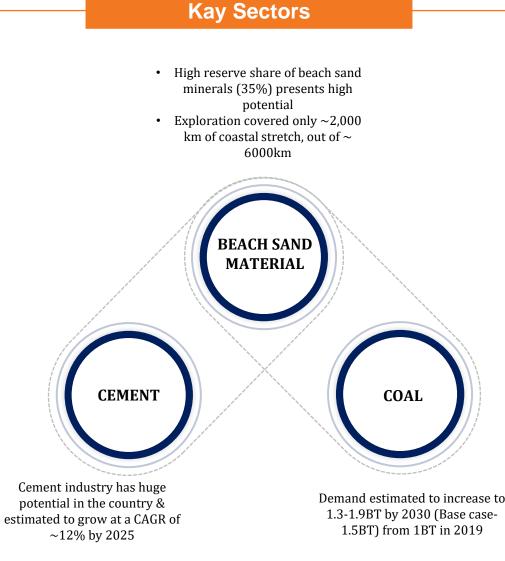

**Make in India** –Focus on increase in Manufacturing share to 25% by 2025

**Growing demand from end-use industries** such as infrastructure, Automotive, Power

Low per capita metal consumption creates tremendous potential

India remains an oasis of growth amongst slowing global outlook

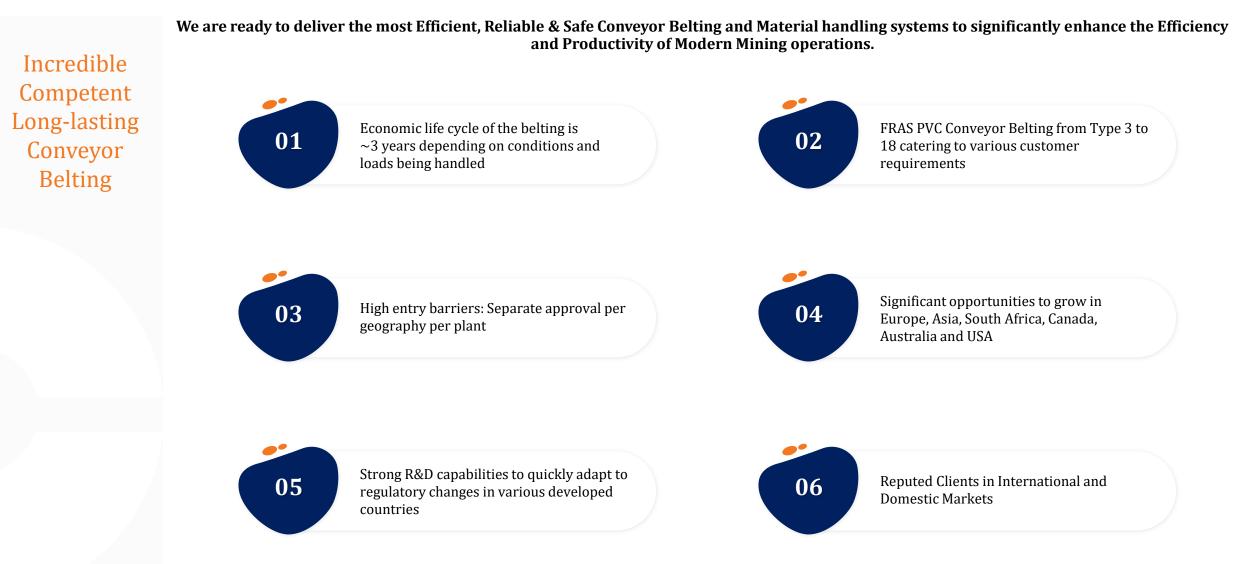

Source: KPMG Report - June 2019, Industry Reports

# ...making us well placed to benefit from rising growth in Mining Activities

#### Our Aim : Zero Defects, Zero Waste, Zero Accidents, Zero Breakdowns

### Learn Today Lead Tomorrow

### **Expand Customer Base**

• Enhance customer base in the USA and Canada, where ICL already enjoys significant customer Relationships

# ∕∎ Ó► Ē -₀► **4**0

### **Penetrate New Markets**

- Penetrate further into Australia underground coal mine segment
- Grow South Africa market.
- Start Supplies to Europe and Russia

### **Increase Product Portfolio**

 Strategic limited marketing alliance with manufacturers and distributors to provide a total basket of conveyor belting – Rubber, PVG and PVC – to select end-users

### Modernize Manufacturing Facilities

- Further Modernize manufacturing facilities in Falta and Aurangabad
- Evaluate ramping up of capacities

Planned Capex To Address The

Growing

Demand

High entry barriers & revival of capex cycle gives us visibility of huge replacement demand Addition of newer products & customers has strengthened our order book giving revenue visibility

Over the period, the commodity sector has been under capitalized. Growth in capacities envisages higher demand generation for our products across sectors, thus diversifying order book from multiple industries.

# Experienced Leadership Team

#### Mr. R K Dabriwala | Managing Director

- JEDP IIM (Calcutta) & Harvard Alumni
- Having more than 5 decades of experience in diversified business and been a joint venture partner to GE, Fanuc, Emerson Electric among other multinationals

#### Mr. Surbhit Dabriwala | Director

- Bachelor of Arts and Science from University of Pennsylvania
- Holds senior level board positions including PNB Metlife India Insurance Co; Elpro International Ltd erstwhile an engineering company with now an exposure to real estate and retail; Partner of Kaer Air LLP, a JV with Kaer Pte Singapore

#### Mr. Prasad Deshpande | Executive Director

- Textile Engineer by qualification and has 30 years of work experience in manufacture of yarns and fabric for industrial application
- Worked with Large corporates and MNC's for last 26 years and has handled business operations both in India and overseas. He was in charge of SRF's facility in Thailand prior to joining ICL

#### Mr. Udit Sethia | Director

- Member of Institute of Chartered Accountants of India
- Associated with the Dabriwala group of companies in a senior executive roles such as Elpro International and I G E (India) Private Limited.

#### Mr. Jeff Maranville | Director of Sales

#### International Conveyors America Ltd., Inc.

- Head of Sales and Marketing in the United States with over 23 years' experience in managing business through a variety of market channels
- He was earlier with Continental group in the USA

#### Mr. Ashok Kumar Gulgulia | Chief Financial Officer

- FCS & B.com with more than 3 decades of experience in Finance & Accounts.
- Associated with ICL since 2000 and is responsible for company law matters, finalization of accounts, taxation & corporate finance
