Mr. Ishwarbhai B. Patel, Chairman & CEO, Super Crop Safe Ltd., said, “We are very happy to announce the results of the Second Quarter ended September 2024. This quarter again we have done exceedingly well and at all the fronts our financial performance has been noteworthy. The numbers could have been more impressive but since harvesting season started a little late because this year the Monsoon season ended late.

Altogether the half yearly numbers make us believe that whatsoever target we have set, the company is on the right track with full throttle to achieve that.

We are hopeful of seeing even far better numbers in the second half of this financial year since some of the major initiatives we took during the previous six months are yet to make their presence in the balance sheet. The demand in Q3FY25 will gradually see a decent growth resulting in the substantial increase in our sales, profit and margin.

We continue to focus on our high margin products like SuperGold and others. Day by day many of our products are now being well established in the market and getting overwhelming response. We are sure to keep the momentum continue in the months and years in future also. Certainly the performance of Q2 will be repeated again with far better numbers and margin.”
