A.Karthik
Company Secretary
Small positive growth may not be ruled out in FY21: Karangasem

The paper noted that despite the recent uptick in economic activity, growth may not be ruled out in FY21. The government has directed the Reserve Bank of India (RBI) to keep interest rates low to support economic growth.

Inflation is likely to remain elevated in the near term due to higher commodity prices and supply chain disruptions. The government has announced several measures to support businesses and workers affected by the pandemic. The central bank has also eased monetary policy to provide liquidity to the economy.

In conclusion, the paper stated that the economy is expected to rebound in FY21, driven by pent-up demand and fiscal stimulus.

---

HYDERABAD

The Reserve Bank of India has decided to keep interest rates unchanged at the policy meeting on Thursday, 30th June 2022. The central bank has maintained its stance of accommodative monetary policy to support economic growth and stability.

Inflation is expected to remain elevated in the near term due to higher commodity prices and supply chain disruptions. The government has announced several measures to support businesses and workers affected by the pandemic. The central bank has also eased monetary policy to provide liquidity to the economy.

In conclusion, the paper stated that the economy is expected to rebound in FY21, driven by pent-up demand and fiscal stimulus.
