‘Fixed broadband, Wi-Fi hotspots, digital investments must for all-round growth’

PRESSTOUR OF INDIA

New Delhi, August 17

The Indian government on Wednesday launched a Rs 3,500 crore programme to provide fixed broadband and Wi-Fi hotspots to all buildings and public spaces.

The programme, which aims to provide high-speed internet connectivity to all residential and commercial buildings, public spaces, and educational institutions, is expected to create thousands of jobs in the IT sector.

"This initiative will not only benefit the sector but also create thousands of jobs," Finance Minister Nirmala Sitharaman said.

Sitharaman also thanked the private sector for their contributions to the programme.

"I would like to thank the private sector for their contributions," she said.

In March, the government launched a similar programme to provide Wi-Fi hotspots in all 2.65 lakh government buildings.

"We are also working on providing Wi-Fi hotspots in all 2.65 lakh government buildings," Sitharaman said.

The Indian government on Wednesday also announced a scheme to provide broadband internet connectivity to all residential and commercial buildings, public spaces, and educational institutions.

"This scheme will help close the digital divide and provide equal opportunity to all," Sitharaman said.

SYNOPSIS

The Indian government on Wednesday launched a Rs 3,500 crore programme to provide fixed broadband and Wi-Fi hotspots to all buildings and public spaces.

The programme, which aims to provide high-speed internet connectivity to all residential and commercial buildings, public spaces, and educational institutions, is expected to create thousands of jobs in the IT sector.

"This initiative will not only benefit the sector but also create thousands of jobs," Finance Minister Nirmala Sitharaman said.

Sitharaman also thanked the private sector for their contributions to the programme.

"I would like to thank the private sector for their contributions," she said.

In March, the government launched a similar programme to provide Wi-Fi hotspots in all 2.65 lakh government buildings.

"We are also working on providing Wi-Fi hotspots in all 2.65 lakh government buildings," Sitharaman said.

The Indian government on Wednesday also announced a scheme to provide broadband internet connectivity to all residential and commercial buildings, public spaces, and educational institutions.

"This scheme will help close the digital divide and provide equal opportunity to all," Sitharaman said.

"This initiative will not only benefit the sector but also create thousands of jobs," Finance Minister Nirmala Sitharaman said.

Sitharaman also thanked the private sector for their contributions to the programme.

"I would like to thank the private sector for their contributions," she said.

In March, the government launched a similar programme to provide Wi-Fi hotspots in all 2.65 lakh government buildings.

"We are also working on providing Wi-Fi hotspots in all 2.65 lakh government buildings," Sitharaman said.

The Indian government on Wednesday also announced a scheme to provide broadband internet connectivity to all residential and commercial buildings, public spaces, and educational institutions.

"This scheme will help close the digital divide and provide equal opportunity to all," Sitharaman said.
