Ujjivan SFB Q1 net dips 41%

PRESS TRUST OF INDIA
New Delhi, July 31

SML LENDER Ujjivan Small Finance Bank (SFB) on Thursday reported a 41% decline in its net profits for the quarter ended June 30 as compared to the same period a year ago due to a fall in interest income and provisions.

The bank had reported net profit of $1.5 million for the quarter ended June 30, compared to $2.6 million for the corresponding period last year.

The “profit dipped as we had to include certain items like provisions on loan loss provisions in the first quarter owing to COVID-19”, said Mr. Ashish Kumar Chauhan, chairman and managing director of the bank.

Impact of interest rate cut

Interest rate cuts by banks had made profit margins on loans lower, which had affected the bottom line, he said.

The bank had already set aside provisions in the quarter amounting to $2.4 million for loan losses.

The provisions were in the range of 10.2% to 10.3% in the same period of last fiscal.
