Cultivate fallow land, create job avenues to end farmer suicides: Study

The initiative is expected to generate employment opportunities for local labor, enhancing the rural economy. The project will also contribute to the local community by providing training to farmers and laborers, thereby equipping them with skills and knowledge that are in demand.

Rabi sowing affected in Madhya Pradesh, Punjab; overall acreage down 11 per cent

What does copper consumption say about the economic slowdown?

Challenges remain, with the need for a more significant transformation of the economy and increased focus on infrastructure development to drive growth. The recent trend of copper consumption growth indicates a positive outlook for the economy, highlighting the importance of forward-looking policies and investments in key sectors.
