PRESS RELEASE

Infosys Science Foundation Announces a New Direction for the Infosys Prize

To discover and reward extraordinary talent under 40 years of age aimed at providing a greater runway for young researchers to do pioneering work

Bengaluru, India – May 15, 2024: The [Infosys Science Foundation \(ISF\)](#) today announced that it is steering the Infosys Prize in a new direction by transitioning from a mid-career prize to an early-career prize, with the objective of rewarding potential and recognizing the promise of future achievement. The upper age limit for prize winners is being revised to 40 years to enable a transformative impact.

The fundamental objective of the Infosys Prize continues to be to recognize the best research that benefits humanity and creates role models for young scholars and aspiring scientists in India. To further its objective of fostering collaboration and access, the ISF now requires all winners who are based outside India at the time of winning the prize to spend time at Indian institutes of their choice. Winners who are not based in India will be requested to spend 30 days (in a maximum of 2 trips) at a host institute in India, to build networks and spark conversations with research groups here. The Science Foundation hopes that these early collaborations could transform into mutually beneficial long-term partnerships.

The categories that the Infosys Prize recognizes would broadly stay the same. Economics, however, will now be a separate category in the Infosys Prize. Previously, it was awarded under the Social Sciences category. From 2024, the six categories that the Infosys Prize will be awarded in are: Economics, Engineering & Computer Science, Humanities & Social Sciences, Life Sciences, Mathematical Sciences, and Physical Sciences.

Highlighting the rationale behind this change, **Kris Gopalakrishnan, President, Infosys Science Foundation**, said, “Since its inception 15 years ago, ISF has recognized and awarded 92 brilliant minds across disciplines in a demanding global environment. This change in the direction of the Infosys Prize stems from our vision to create a generation of young academicians who are passionate about pursuing a career in scientific research and provide a longer runway for individuals to develop their work that would have the potential to benefit society at large. We believe that this redirection will help serve as a catalyst for future innovation and mobilize young individuals towards shaping a better tomorrow.”

About Infosys Science Foundation

The Infosys Prize is awarded by the Infosys Science Foundation, a not-for-profit trust set up in 2009. The award is given annually to honor outstanding achievements of contemporary researchers and scientists in six categories: Economics, Engineering & Computer Science, Humanities & Social Sciences, Life Sciences, Mathematical Sciences, and Physical Sciences. Each prize consists of a gold medal, a citation, and a purse of USD 100,000. The award intends to celebrate excellence in research and inspire a younger generation of scholars to take up science and research as a career.

Jury Chairs

Prof. Arvind | Prof. Akeel Bilgrami | Prof. Mriganka Sur | Prof. Chandrashekhar Khare | Prof. Shrinivas Kulkarni | Prof. Kaushik Basu

Trustees

Srinath Batni | K. Dinesh | S. Gopalakrishnan | Narayana Murthy | Pratima Murthy | Nandan Nilekani | T. V. Mohandas Pai | Salil Parekh | S. D. Shibulal

About Infosys

Infosys is a global leader in next-generation digital services and consulting. Over 300,000 of our people work to amplify human potential and create the next opportunity for people, businesses and communities. We enable clients in more than 56 countries to navigate their digital transformation. With over four decades of experience in managing the systems and workings of global enterprises, we expertly steer clients, as they navigate their digital transformation powered by cloud and AI. We enable them with an AI-first core, empower the business with agile digital at scale and drive continuous improvement with always-on learning through the transfer of digital skills, expertise, and ideas from our innovation ecosystem. We are deeply committed to being a well-governed, environmentally sustainable organization where diverse talent thrives in an inclusive workplace.

Visit www.infosys.com to see how Infosys (NSE, BSE, NYSE: INFY) can help your enterprise navigate your next.

Safe Harbor

Certain statements in this release concerning our future growth prospects, or our future financial or operating performance, are forward-looking statements intended to qualify for the 'safe harbor' under the Private Securities Litigation Reform Act of 1995, which involve a number of risks and uncertainties that could cause actual results or outcomes to differ materially from those in such forward-looking statements. The risks and uncertainties relating to these statements include, but are not limited to, risks and uncertainties regarding the execution of our business strategy, our ability to attract and retain personnel, our transition to hybrid work model, economic uncertainties, technological innovations such as Generative AI, the complex and evolving regulatory landscape including immigration regulation changes, our ESG vision, our capital allocation policy and expectations concerning our market position, future operations, margins, profitability, liquidity, capital resources, our corporate actions including acquisitions, and cybersecurity matters. Important factors that may cause actual results or outcomes to differ from those implied by the forward-looking statements are discussed in more detail in our US Securities and Exchange Commission filings including our Annual Report on Form 20-F for the fiscal year ended March 31, 2023. These filings are available at www.sec.gov. Infosys may, from time to time, make additional written and oral forward-looking statements, including statements contained in the Company's filings with the Securities and Exchange Commission and our reports to shareholders. The Company does not undertake to update any forward-looking statements that may be made from time to time by or on behalf of the Company unless it is required by law.
