FOR IMMEDIATE RELEASE

Oracle Financial Services Software Reports
Revenue for the Fiscal Year 2024 of Rs. 6,373 Crore, up 12%
Net Income for the Fiscal Year 2024 of Rs. 2,219 Crore, up 23%
Declares an interim dividend of Rs. 240 per equity share of Rs. 5 face value

Mumbai, India—April 24, 2024: Oracle Financial Services Software Limited (Reuters: ORCL.BO and ORCL.NS), a majority-owned subsidiary of Oracle, today announced results for the quarter and year ended March 31, 2024.

On a consolidated basis, revenue for the fiscal year 2024 was Rs. 6,373 crore, up 12% compared to fiscal year 2022-23. Operating income for fiscal year 2024 was Rs. 2,680 crore, up 13% compared to fiscal year 2023. Net income for fiscal year 2024 was Rs. 2,219 crore, up 23% compared to fiscal year 2023.

On a consolidated basis, revenue for the quarter was Rs. 1,642 crore, up 12% year-over-year. Operating income for the quarter was Rs. 703 crore, up 13% year-over-year. Net income for the quarter was Rs. 560 crore, up 17% year-over-year.

On a consolidated basis, for the three months ended March 31, 2024, the Products business posted a revenue of Rs. 1,491 crore, up 12% year-over-year, and operating income of Rs. 718 crore, up 13% year-over-year. For the same period, the Services business posted a revenue of Rs. 151 crore, up 13% year-over-year, and the operating income of Rs. 44 crore, up 47% year-over-year.

The Board of Directors of the Company declared an Interim Dividend of Rs. 240 per equity share of face value of Rs. 5/- each for the financial year 2023-24.

Makarand Padalkar, Managing Director and Chief Executive Officer, Oracle Financial Services Software, said, “We are very pleased to report double-digit growth in revenues, operating income, and net income for the fiscal year ended March 31, 2024. This was a result of our winning portfolio of products and services focused on the financial services industry. During the fiscal year 2024, we signed license fees of US\$ 137.3 million across our entire range of products registering 43.7% growth over license fee signings in fiscal year 2023. The robust growth of our cloud offering pipeline drove the strength of cloud bookings this fiscal year, and we expect to see continued strength in our cloud offering pipeline. With customer preference shifting toward cloud services, our revenue mix is shifting more toward

recurring revenue services, including cloud services, and less for transactional revenue, including signed license fees which were US\$ 19.9 million for the quarter ended March 31, 2024.

We successfully delivered a number of complex and challenging product implementations across various regions, demonstrating the richness and quality of our offerings. Our strong financial performance this fiscal year reflects the continued importance of our product offerings to global financial institutions, supporting them in their innovation and transformation business objectives.”

Avadhut Ketkar, Chief Financial Officer, Oracle Financial Services Software, said, “For the quarter, our revenue increased by 12% and net income grew by 17% on year-over-year basis. We continued to deliver robust financial performance by offering industry leading products and services to the financial services industry. For the quarter ended March 31, 2024, our operating margin was 43% and net margin was 34%. For the year ended March 31, 2024, we posted operating margin of 42% and net margin of 35%.”

Business Highlights

- The American and African regions each had large size banks go live after upgrading Oracle Financial Crime & Compliance Management to tighten security towards fraudulent practices.
- Banca Transilvania is one of the largest banks in South East Europe by assets. The bank provides retail, business, and corporate banking services to more than 4 million customers. A power user of Oracle Banking technology, the bank has upgraded to the latest versions of Oracle's core banking, payments, branch, and lending technology. This upgrade went live across more than 500 branches across Romania and Italy making this customer the largest by volumes for any Oracle installation in Europe. The bank has benefited significantly with reduced payment and ATM settlements time, direct connectivity to SWIFT, and reducing the number of external applications and workflows.
- One of the prestigious banks in Europe went live with a centralized payment hub by implementing Oracle Banking Payments and Oracle Banking Digital Experience to drive its international branch operations.
