Eco Recycling Ltd (Ecoreco) is the pioneer e-waste recycling company in the country & has recently completed 25 years of its listing on The Bombay Stock Exchange, is extremely pleased to be part of this prestigious opportunity namely GBS 2020.

As we all know that importance of Waste Management & Recycling has increased multi fold in the present times because of depleting natural resources at a rapid pace. In such a circumstance, Recycling & Recovery is the only alternate to meet the growing demand of raw material for the industries to sustain uninterrupted flow of raw material to produce end products. Eco Recycling Ltd focuses on one of the richest sources of such raw material i.e. electrical & electronic waste (e-waste) and deploys the recovered commodities with the relevant industries.

The electrical and electronic waste industry is worth USD 3 billion in India while the global worth stands to about USD 62 billion. This is a regulated industry in India and producers of electrical & electronic devices are obligated to collect back these devices at the end of life from end consumers and get them recycled with the authorized & registered recycler. It is proud to mention that Ecoreco is the first company in the Country which was authorized by the MPCB and registered by the CPCB and the only company in the segment which is listed on the BSE.
