Sub.: Business Update

Dear Sir / Madam,

This is to inform you that 3B BlackBio Biotech India Limited, a subsidiary of Kilpest India Limited has received an export order for recently launched CE-IVD TRUPCR[®] UTI ID Panel Kit and TRUPCR[®] UTI AST Panel Kit.

The Business Update on the aforesaid acquisition is enclosed as Annexure I for your perusal and information.

We request you to kindly take the above on record.

Thanking You,

Yours faithfully,

For KILPEST INDIA LIMITED

Dhirendra Dubey

Chairman & Managing Director

Annexure – I

**3B BlackBio Receives Order for Recently Launched CE-IVD TRUPCR® UTI ID Panel Kit and TRUPCR® UTI AST Panel Kit**

We are proud to announce that after extensive R&D efforts, our subsidiary company M/s. 3B BlackBio Biotech India Limited has got an export order valued at INR Twenty Million (₹ 20 Million) for our recently launched CE-IVD TRUPCR® UTI ID Panel Kit and TRUPCR® UTI AST Panel Kit. This RT-PCR based multiplex panel allows the detection and differentiation of 14 pathogens that cause urinary tract infections (UTI), as well as 14 antimicrobial resistance (AMR) genes encoding resistance to 5 class of antibiotics in one single run directly from native urine samples within 5 hours. This assay will not only help in early diagnosis of patient infection but will also help the clinicians to judiciously select the most effective antibiotic class for treatment which can reduce spread and rise of antibiotic resistance.

Due to confidentiality reasons the customer details and terms of the transactions are not being disclosed. This export order will pave way for bigger opportunities as it bestows the trust of our customers.

The TRUPCR® range offers one of the largest portfolio of infectious diseases and AMR assays on the market which includes Comprehensive Respiratory Pathogen Detection Panel, VRE Detection, Carbapenem Resistance Detection, MRSA Detection and many more. The range is led by the vision of the company to offer innovative diagnostic solutions to enhance laboratory efficiency and ultimately resulting in better patient care and treatment.

The TRUPCR® products are also offered through 3B BlackBio Biotech India's European Subsidiary, TRUPCR Europe Ltd, based in Manchester, UK. The European subsidiary offers direct tech support, sales and logistics for European customers.

Mr. Dharendra Dubey, CEO stated 'I am delighted by this order which shows laboratories recognize the TRUPCR® kits to be unique in performance and design over competitor assays. This order is in line with our growth to become a leading global player in the molecular diagnostic market'.

About 3B BlackBio Biotech India Ltd

As a subsidiary of Kilpest India Limited, 3B BlackBio is an R&D driven company which develops, validates, and manufactures a range of qPCR (TRUPCR®) molecular diagnostic assays for the oncology and infectious disease markets. In addition, it is currently developing a range of NGS products (TRUNGS®) which will complement the TRUPCR® range of kits.

The company has developed and launched a range of over 100 products which includes assays for Solid Tumor Markers like EGFR, KRAS, NRAS, Colorectal Panel and Hemato-Onco Markers like for BCR-ABL (M) Quantitative Kit (MR 4.7), PML-RaRa, AML, ALL, Paediatric Leukaemia Panels, apart from various panels for infectious diseases, AMR & human genetics.
