## TCS Launches Enterprise 5G Edge Suite with Azure Private Multi-Access Edge Compute to Help Reimagine Customer Experience

*Tata Consultancy Services' Solution Suite Helps Enterprises Synthesize 5G Connectivity with New Technologies, to Transform the Way Customers Consume Products and Reimagine Experiences*

**MUMBAI, March 03, 2022:** Tata Consultancy Services (TCS) (BSE: 532540, NSE: TCS) announced the launch of its Enterprise 5G Edge suite of solutions with Microsoft Azure private mobile edge computing (private MEC). The TCS suite brings together comprehensive capabilities that help enterprises design, integrate, implement, and operate an enterprise 5G edge ecosystem using the Azure private MEC solution and exploit the edge computing advantages for 5G applications.

The new offering serves various industry verticals, bringing together enterprise assessment toolkits for edge and 5G readiness, and edge-native solutions ranging from industrial automation, quality detection, loss prevention, real-time video surveillance, autonomous vehicle management, digital farming, remote field assistance, smart factories, assisted living, immersive experiences with virtual and augmented reality, and more.

The Enterprise 5G Edge suite combines TCS applications with the Azure private MEC solution to help enterprises gain newfound intelligence at the edge, resulting in new network-aware and responsive application capabilities. The offering brings together TCS' IP-enabled automation-driven designs, AI-based modeling and simulations, zero touch provisioning and operation of enterprise 5G edge ecosystem and the new edge platform, securely integrated with enterprise infrastructure.

Microsoft Azure private MEC combines the Azure Private 5G Core running on Azure Stack Edge with other network functions, applications, and edge-optimized Azure IoT services to deliver a broad portfolio of high performance, ultra-low latency solutions that address the modern business needs of enterprises.

TCS will bring the Microsoft Azure technology products in its Pace Ports™, a global network of co-innovation hubs that bring together a collaborative ecosystem of startups, technology partners, and academia, to spur innovation, enabling enterprises to embrace digital transformation and a culture of accelerated innovation for better outcomes.

*"Innovations in the area of 5G and Edge Computing will enable enterprises to transform into real-time, resilient and adaptable businesses. We are delighted to launch the TCS Enterprise 5G Edge suite, which allows enterprises to exploit Microsoft's private MEC ecosystem and provides the lifecycle capabilities required for applications and smart devices to take advantage of private 5G networks,"* said **Kamal Bhadada, Business Group Head, Communications, Media and Information Services, TCS.**

*"TCS' new Enterprise 5G Edge suite, in collaboration with Azure private MEC, helps rapidly deploy private 5G networks and develop new applications for enterprises. We look forward to working with TCS on these opportunities,"* said **Shriraj Gaglani, General Manager, Microsoft Azure for Operators.**

TCS' Microsoft Business Unit works with customers worldwide to accelerate their multi-horizon cloud transformation journeys. TCS has completed over 1,000 successful Azure engagements for more than 225 global customers. TCS recently won the 2021 Microsoft Partner of the Year Award for Azure Intelligent Cloud in France, the Dynamics 365 Field Service in the U.S. Additionally, it is a designated Microsoft Azure Expert Managed Service Partner, recognizing TCS' expertise in delivering the highest quality of service on Azure. Its over 50,000 professionals deliver industry-focused solutions—all powered by the Microsoft Cloud.

**About Tata Consultancy Services (TCS)**

Tata Consultancy Services is an IT services, consulting and business solutions organization that has been partnering with many of the world's largest businesses in their transformation journeys for over 50 years. TCS offers a consulting-led, cognitive powered, integrated portfolio of business, technology and engineering services and solutions. This is delivered through its unique Location Independent Agile™ delivery model, recognized as a benchmark of excellence in software development.

A part of the Tata group, India's largest multinational business group, TCS has over 556,000 of the world's best-trained consultants in 46 countries. The company generated consolidated revenues of US \$22.2 billion in the fiscal year ended March 31, 2021 and is listed on the BSE (formerly Bombay Stock Exchange) and the NSE (National Stock Exchange) in India. TCS' proactive stance on climate change and award-winning work with communities across the world have earned it a place in leading sustainability indices such as the MSCI Global Sustainability Index and the FTSE4Good Emerging Index.
