Ayushman Bharat beneficiaries to get up to ₹15Laid

The health ministry has revised guidelines of umbrella health scheme that will ensure proper treatment for life-threatening diseases.

It has been able to private treatment to all if they are beneficiaries of Ayushman Bharat (AB) and that the package would be allowed to all if "Ayushman Bharat" assurance is declared to all. The minimum package would be covered in the scheme's umbrella.

The ministry also directed the new scheme for those patients who were admitted under certain specific conditions to get up to ₹15Laid.

I-T dept to share taxpayers' PAN, other data with Sebi

The income tax department will share pan and other data on tax avoiders with Sebi, the market regulator in its probe against multiple investors. These records will be shared with the income tax department.

The two organizations will share the data to feed Sebi's investor protection system. These records will be shared with the income tax department.

The laws are expected to end the manipulation of data, which takes place in the market through the reporting of false information.

Air pollution from fossil fuels costs India $1.50 bn yearly

Air pollution from fossil fuels costs India $1.50 billion annually, the national capital being the worst affected.

According to a report by the Indian Journal of Environmental Health, the number of people who die from air pollution in India is 1.6 million annually. The highest number of cases is in Delhi, with over 200,000 people dying in 2015.

The report states that air pollution is responsible for 5.4% of the world's deaths, 4.3% of the global burden of disease, and 2.5% of India's GDP.

The Ministry of Health and Family Welfare has been asked to prepare a comprehensive report on the impact of air pollution on health in India.
