Modi cautions people against letting guard down in fight against Covid-19

In his Aliv Aatma Boats address, says pandemic can turn uncontrollable if care not taken

The prime minister, who was to launch the Mission Bhrashtachar Yojana, changed his plan on the last minute.

People-driven fight

"Getting people on the ground of the country," said Mr. Modi, "is the key to our success. And if this is not taken care of, the pandemic can turn uncontrollable."

"There are many people with different views on how to fight the pandemic, and some are even saying that our efforts are not sufficient," he said. "But I want to tell you, the people of this country have been fighting this pandemic for over a year now, and they know what to do."

"The people-driven fight is the only way to win this fight," he added. "We have to rely on the people for the success of this mission."

Insurance, securities firms to use Aadhaar authentication under money-laundering Act

The Finance Ministry has finalized rules under the anti-money-laundering Act to bring insurance, securities and other financial services providers under the purview of the Act.

"These rules will bring all financial institutions under the purview of the Act," said Finance Minister Arun Jaitley. "This will help in effectively tackling money-laundering activities."

The rules, which will come into force from April 1, will require all financial institutions to verify the identity of their customers using Aadhaar. The rules will also require financial institutions to report any suspicious transactions to the Central Government.

The Finance Ministry has also ordered all its inspectors and supervisors to conduct surprise inspections of insurance and securities firms to ensure compliance with the rules.

In the meantime, the government has also issued guidelines to financial institutions to ensure they are fully prepared to comply with the rules.

Centres to funnel Rs 5,000 cr to banks

The Centre will set up a Rs 5,000 crore fund to help banks meet liquidity needs.

"The fund will help banks meet their liquidity needs during the lockdown," said Finance Minister Arun Jaitley.

The fund will be managed by the Reserve Bank of India (RBI), which will provide liquidity to banks on a short-term basis.

The fund will be made available to banks on a rolling basis, with the deadline for availing the fund being April 30.

The fund will be used to finance small and medium enterprises (SMEs) and start-ups.

The fund will be managed by the International Financial Services Centre (IFSC) at Gandhinagar.

Doctors treating Covid-19 cases in India say a more severe type of coronavirus is widespread in the city.

They say samples from the city are more virulent, with a higher mortality rate.

"We have seen a rise in the number of critical cases," said Dr. Sonali Patnaik, consultant pulmonologist at the Post Graduate Institute of Medical Education and Research (PGIMER). "We have also seen a rise in the number of deaths.

"The mortality rate is much higher in patients with underlying medical conditions," she said.

"There are also reports of patients who are dying in their late 40s or early 50s, which is unusual."
