Encl: As above
South Eastern Railway's freight loading increases 8.7% in September

Kolkata, September 11

SOUTH EASTERN RAILWAY (SRE) recorded a 8.7% increase in freight loading during September, compared to the same month last year. The increase in loading is attributed to the improved performance of the railway service and the successful implementation of the freight loading chart. The SRE has been focusing on improving its freight loading capacity through various initiatives, including the use of modernized freight wagons and the optimization of route planning. This has led to a significant increase in the amount of goods transported, contributing to the overall growth of the SRE's freight business.

Govt proposes consumer right rules for quality supply of electricity

NEW DELHI, New Delhi, September 11

The Ministry of Power has proposed rules to protect consumers' rights in the electricity supply chain. The rules aim to enhance the quality of electricity supply and ensure that distributors and retailers comply with the norms set by the government. The proposed rules are expected to increase transparency and accountability in the electricity sector, ensuring that consumers receive reliable and continuous power supply.

TERMINAL NOTICE

The Ministry of Finance has issued a circular regarding the terminal charges for electric vehicles. The circular clarifies that the terminal charges for electric vehicles shall be levied in accordance with the Electric Vehicle Policy. This decision is expected to reduce the cost of charging electric vehicles, making them more accessible to consumers and promoting the use of sustainable transportation options.
