Bank Bandhan receives breather from RBI on promoter holding dilution

Sebi tightens norms to check misuse of client securities

**PIE TRUST OF INDIA**

MARKETS REGULATOR Sebi on Monday tightened norms to check misuse of clients’ securities to dampen stock speculation.

Against the backdrop of Karvy Broking (KBRK) churning over 50% of its client’s accounts with the help of its promoter, stock market regulator Sebi on Monday issued a notification tightening norms to check misuse of clients’ securities.

The move follows the discovery by the exchange of overuse of clients’ securities by KBRK, in which the promoter had already raised capital for the next few years, which was much more in line with the earnings profile of the company.

Among other measures, Sebi has asked KBRK’s clients to specify the maximum amount that can be used for collateral in the margin account for the next fiscal year.

KBRK was placed under a three-layered structure for better compliance with the rules.

In the new structure, KBRK’s board will be replaced by the holding company Board, with Sebi replacing the board of directors of the company which will be the holding company.

Promoters will have to make all stock and derivative transactions, and the promoter will be responsible for the total number of Bank Bandhan promoter’s holdings in the current year.

The new norms will be effective from July 1, 2023, and from that date, the promoter holding dilution will be in line with the actual dilution.
