To,

BSE Limited
Phiroze Jeejeebhoy Towers
Dalal Street
Mumbai- 400001

BSE Company Code: 536974

Dear Sir/Madam,

Sub: Intimation of Investor Meet

In compliance with regulation 30 of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, we hereby inform that the key managerial persons of the Company shall participate in ‘The Valorem CXO Meet’ event over a video call with various investors/analysts on 17th July, 2020 to discuss in detail about the ordinary course of business and about the industry.

Please note that the above shall be subject to changes, if any.

You are requested to kindly take note of the same.

Thanking you,

For, CAPTAIN POLYPLAST LTD

K. S. Mehta
KHYATI MEHTA
(Company Secretary)
From the IR House that has brought you some of the most innovative and largest investor relation events, Valorem Advisors invites you to its first virtual event: Valorem CXO Meet.

The Valorem CXO Meet will host Directors/CXO’s from corporates over a virtual platform in a well-organized and structured manner, where they will discuss the company’s growth journey and provide insights into the industry, operations, performance, vision, strategy, and also address various questions from the investor community.

Captain Polyplast Limited (CPL) is one of the leading micro irrigation system solutions provider in India. It was founded by Mr. Ramesh Khichadia, Chairman and Managing Director, who is a B. Tech (Agriculture Engineering) from Gujarat Agriculture University and has more than 30 years of experience in the Irrigation business. The next generation of management includes Mr. Ritesh Khichadia, Whole Time Director, who is a BTech from IIT Bombay and a PGDM from IIM Lucknow. The company manufactures a complete range of micro irrigation systems like drip irrigation systems and sprinkler systems at its manufacturing units located at Rajkot, Gujarat and Kurnool, Andhra Pradesh.

The company has a marketing and distribution network across 16 states in India which cover ~90% of the micro irrigation market in India. CPL also exports its products to countries in Africa, Latin America and the Middle East. The company has 13 Sales Offices in Western & Northern parts of India and 13 Stock depots catering to 750+ dealers, through which it directly sells to the farmer. The company focuses on B2C sales directly to the farmer, rather than large government tenders thereby de-risking itself.

Extensive awareness campaigns of the benefits of micro irrigation as well as significant push and subsidies provided by both state and central government helps the sector see good visibility in growth and a tremendous opportunity for companies like CPL with only 10-12% of the country’s agricultural land are covered under micro irrigation.

The company has had a strong 20%+ growth in revenues and EBITDA in last 2 years, with a 3 year CAGR Profit growth of 35%+ and ROE and ROCE of 20%+. With the recently commissioned plant at Kurnool, the company’s focus over the next few years will continue to be on growth, while reducing working capital through increased cash and export sales.
