CIL's total off-take chalks yet another record

In what had turned out to be a high performance FY'22 for Coal India Limited (CIL) with a flurry of previous records bettered, the state-owned coal miner chalked out yet another high in total coal supplies at 608.15 million tonnes (MTs) as of 4th March.

CIL moved past the previous highest coal off-take of 608.14 MTs achieved in FY'19 nearly four weeks before the current fiscal draws to a close.

Coal India Chief Pramod Agrawal pointed out the “sustained efforts and inspired performance” of CIL's subsidiaries and has written to them “to end FY'22 on a sound note scaling even more highs”.

Almost all CIL subsidiaries are ahead in their respective coal off-take numbers over corresponding period last year.

CIL is concentrating its efforts to increase its supplies further in a bid to touch 670 MTs off-take mark in FY'22.

CIL had pipped the 575 MT total coal despatch of FY'21 on 16th February itself. Off-take ending FY'20 was around 580 MTs.

“CIL's current off-take is averaging a little over 2 MTs per day and is expected to go up higher as the month progresses. We are hopeful of reaching 670 MTs if the demand holds” said a senior executive of the company.
