SUB: NEWSPAPER PUBLICATION OF UNAUDITED FINANCIAL RESULTS

Dear Sir,

Enclosed herewith are the copies of the newspaper advertisements printed in FINANCIAL EXPRESS (National English daily) and DURANTO BARTA (Vernacular daily) on 16th September, 2020 relating to the Unaudited Financial Results of the Company for the quarter ended 30th June, 2020, published pursuant to Regulation 47 of SEBI (LODR) Regulations, 2015.

The above is for your information and records.

Thanking you.

Yours Faithfully,

FOR HINDUSTHAN UDYOGLIMITED

[SHIKHA BAJAJ]
COMPANY SECRETARY & COMPLIANCE OFFICER
Protecting the ozone layer

World Ozone Day is annually observed to protect the ozone layer. It is celebrated annually on September 16 to raise awareness and attention to the care of the atmosphere. The day is observed by the United Nations to remember the landmark of the Montreal Protocol. The Montreal Protocol is a United Nations treaty concerned with the protection of the ozone layer and combating the emission of ozone-depleting substances. The day is observed to emphasize the importance of maintaining the balance of the earth's atmosphere and to raise awareness about the need to protect the ozone layer.

The ozone layer is a layer of ozone gas found in the stratosphere, the second layer of the Earth's atmosphere. It is located between 8 and 50 kilometers above the surface of the Earth. The ozone layer is formed in the stratosphere when ultraviolet radiation breaks down oxygen molecules in the air. Oxygen atoms are combined with oxygen to form ozone. The ozone layer protects living organisms from harmful ultraviolet radiation by absorbing most of the radiation and blocking it from reaching the Earth's surface.

The ozone layer is crucial for life on Earth. It absorbs up to 99% of the ultraviolet radiation from the sun. This ultraviolet radiation can cause skin cancer, eye damage, and other health problems. It also has an impact on the growth of plants and the survival of animals.

The ozone layer is under threat due to the release of ozone-depleting substances. These substances include chlorofluorocarbons (CFCs), hydrochlorofluorocarbons (HCFCs), and hydrofluorocarbons (HFCs). These substances are released into the atmosphere by human activities, such as the production of refrigerants, solvents, and propellants. The ozone layer is depleted when these substances react with ultraviolet radiation in the stratosphere, creating a hole in the layer.

To protect the ozone layer, countries have signed the Montreal Protocol, which aims to phase out the production of ozone-depleting substances. The protocol has been successful in reducing the production of these substances and has led to a recovery of the ozone layer over some areas.

In conclusion, the ozone layer is a crucial component of the Earth's atmosphere. It protects living organisms from harmful ultraviolet radiation and has a significant impact on the environment. To protect the ozone layer, we must continue to reduce the production of ozone-depleting substances and support international efforts to protect the ozone layer.
Notice Inviting Tender

The Sub-Divisional Officer, Banarhat Irrigation Sub-Divisional Officer (Berhampore), West Bengal has invited the Assistant Engineer, Katwa, Electrical Sub-Division, Katwa, to examine if the Contractor is availing of the benefits of National Credit Rating in the matter of: "Electrical Works due to damages caused by super cyclone Amphan at Monteswar Govt. ITI, under Purulia-I Development Block of village: Bongabari, Post: V. Nagar, Dist: Purulia, for the work of: "E.I. works in connection with water supply under CMDMP, Vide Purulia-II Development Block 30.06.20 up to 2PM, at Sri Ramkrishna Ashram, Bardhaman, from resourceful/ experienced and reputable contractor for the work of: "E.I. works in connection with water supply under CMDMP, Vide Purulia-II Development Block. Notice Inviting Tender No: WBPUR/SDO/2020/1 to 2020_ZPHD_296008_1_1, 30.06.2020

The Sealed tenders are invited by the undersigned during office hours on 3pm.

Notice Inviting Tender No: WBPUR/SDO/2020/1 to 2020_ZPHD_296008_1_1, 30.06.2020
