TCS Positioned as a Leader in Capital Markets Operations by Everest Group

Tata Consultancy Services' Capital Markets Focussed Workflow, Innovative Process Enhancers, and Solutions Backed by the Latest Technologies, Cited as Key Strengths

NEW YORK | MUMBAI, February 14, 2020: Tata Consultancy Services (TCS) (BSE: 532540, NSE: TCS), a leading global IT services, consulting and business solutions organization, has been recognized as a Leader in the Everest Group PEAK Matrix™ for Capital Markets Operations.

In an assessment of 24 global service providers offering capital markets operations services, TCS was placed highest for Vision and Capability, as well as Market Impact. Additionally, it was named a Star Performer for having top quartile year-on-year improvement in its scores.

TCS' strong position in the overall capital markets segment is attributed to consistent growth in its portfolio with multiple new wins. According to the report, the company has continuously worked on creating solutions backed with the latest technology to help its customers solve operational problems more efficiently. It mentions TCS BaNCS™ Cloud for Asset Servicing that automates the servicing of multiple asset classes across custodians, brokerages, asset managers, and investment banks. The report also highlighted a successful POC where TCS powered the world's first cross-border securities settlement between two central depositories using Quartz™ Blockchain.

"With growing competition in the capital markets segment, customer preference for digital channels, and increasingly complex regulations, financial institutions are banking on innovative use of technology to stay ahead," said K Krithivasan, Business Group Head, Banking, Financial Services and Insurance, TCS. "This recognition from an independent third-party research firm is a testament to our vision, capabilities, services offered, and market impact."

TCS offers a comprehensive portfolio of services in the capital markets domain. Its customers include over 85 buy and sell side firms as well as market infrastructure firms and custodians. TCS' in-depth domain solutions cover all functions and include:

- Front Office: Research and analytics, channel management support, para planning for wealth management customers
- Middle Office: Post trade processes including trade affirmation / confirmation, pricing and valuation, portfolio accounting and reconciliations
- Back Office: Settlements, reconciliation and fails management accounting including fund accounting, fund administration, and transfer agency

Guided by its Business 4.0™ thought leadership framework and the Machine First™ Delivery Model (MFDM™), TCS has made steady investments and developed frameworks, point solutions and showcases. These include the wealth and retirement platform on TCS BaNCS, a wealth advisory solution, robo advisor

and event fusion solution, conversational agents powered TCS' proprietary tool Conversa™, interactive customer reporting, X code, and distributed ledger technologies for corporate actions, among other blockchain, robotic process automation, platform modernization-based frameworks.

"In an environment shaped by changing user preferences and pressure from fintechs, it has become critical for financial institutions to connect their front- and back-office functions seamlessly," said Manu Agarwal, Practice Director, BFS Business Process Services, Everest Group. "Supported by strong operational expertise and digital offerings, TCS enables its customers to deliver this superior experience."

"Our rich experience in capital market services, regulatory knowledge, innovative offerings backed by the latest digital technologies, and deep contextual knowledge places us in a strong position to deliver exponential value to our capital markets customers," added Krithivasan.
