Management’s Message

Commenting on the Company’s performance for Q1 FY2021, Mr. Sameer Gupta, Managing Director, Apollo Pipes said,

“The Q1FY21 performance was impacted due to disruption from COVID-19 and consequential lockdown restrictions. The month of April 2020 was almost a total closure impacting revenue & EBITDA for the quarter with recovery in May & June. I am proud of the way Team Apollo Pipes executed a strong business continuity plan focused on Health, Cost and Cash. The company resumed its operations with strict health and safety protocols.

In the near-term, our focus is towards synchronizing the ramp-up in production capacities and stabilizing supply chains once the macro-situation normalizes. We have also instituted many cost rationalization initiatives and optimum working capital measures to conserve cash flows and ensure steady profitability during this challenging period. We believe there should be a gradual bounce back in consumer sentiment driven by steady restoration of the economy and normalcy in daily day-to-day activities. As an organization, Apollo Pipes remains solid with a strong cash position. Over the longer term, our growth strategy continues to be towards driving volumes by ramping-up utilization at new and existing facilities, increasing contribution from value-added products, and improving our distribution network to emerge as a PAN-India player”.
