The Delhi High Court on Tuesday asked telecom regulator Trai to start taking action in accordance with law against those persons not complying with its regulations to curb the problem of unsolicited commercial communications (UCC).

A bench of Chief Justice DN Patel and Justice Prateek Chhatrath gave Trai six weeks time to take action against those persons for not complying with the regulations and if there is no action taken in these cases, it will take action against them.

The bench said that Trai has been given time for five cases and it has not taken action against anyone.

“Start taking action in at least five cases. Don’t show too much friendship. Show that you are interested in execution of the law,” the bench said.

“Ensure that there is more regulation (of headers, unregistered telemarketers and principal entities) as per the regulations and if someone is too much adamant, start taking action against him,” the bench said.

It gave Trai six weeks time to show that it was making progress with regard to registration of the headers, unregistered telemarketers and principal entities, like Paytm, Swiggy and SBI, and listed the matter for hearing on August 28.

The observations and direction by the bench came while hearing a plea by One97 Communications, which runs online payment platform Paytm, alleging that telecom operators are not blocking “phishing” activities over various mobile networks.

Phishing is a cyber crime where people are contacted by e-mail, phone calls or text messages by someone posing as a legitimate representative of an organisation to lure them into part with their sensitive data, including banking and credit card details and passwords.

Senior advocate Dushyant Dave, appearing for Paytm, said he was only seeking strict implementation by Trai and the telecom companies of the regulator’s Telecom Commercial Communications Customer Preferences Regulations (TCCCPR) 2018.

Dave contended that unregistered players are operating on a large scale leading to frauds to the tune of ₹1-2 crore being committed against Paytm customers every month.

He said that all unregistered headers should be removed forthwith and not be allowed to operate on the mobile networks and if telecom companies do not take such steps, then penal action be taken against them.

He said that while Trai has been trying to take everyone’s cooperation on board, its efforts are not sufficient and the time for seeking cooperation from others is over.
