Stung by virus, M finds its pull fact

FROM PAGE 1

Bulls locked down...

Some experts said the fear that India may shut down the markets could have accelerated. Policymakers worldwide have announced massive relief packages to support their economies. "Globally, we have already seen unprecedented measures on the monetary and the fiscal fronts and in some places, they seem to have exhausted all ammunition. The RBI and the government, so far, supposedly kept the gunpowder dry," said Pathak.

Overall, there were nearly 10 decliners, with stocks for every one advancing on the BSE. There were shares of 2,400 companies got traded on Monday, of this, over 650 hit the lower trading limit.

Liquidity crunch hurts.

"Foreign institutional investors have sold 90,000 crore -140,000 crore in the current month. Meanwhile, volumes in the一级kots have thinned as fund houses and other participants are seeing disruptive systems because of work-from-home advisors," said a fund manager.

"Corporate investors are accessing count funds to meet their obligations. Central government infuses liquidity into the system. The RBI and the government, so far, supposedly kept the gunpowder dry," said Pathak.

In the history of the domestic capital markets, the markets had hit lower circuits only twice in 2004 (after the global election results) and in January 2008 (amid global financial crisis). This month, which saw three lower circuits, there were two lower circuits.

In the month of March, the Sensex and the Nifty are down nearly 40 per cent. The markets are down nearly 12 per cent from the peak in January. India's market cap will slip below U00 trillion, making India the worst performing market in the world. From the peak in January, India's market cap has slipped to $5 trillion. The markets have thinned as fund houses and other participants are seeing disruptive systems because of work-from-home advisors. The RBI and the government, so far, supposedly kept the gunpowder dry.

In the history of the domestic capital markets, the markets had hit lower circuits only twice in 2004 (after the global election results). In the aftermath of the BJP's sweeping victory in the general elections, the Sensex saw a rally of nearly four of their value in a single day. At the forefront of the market fall have been banking and financial stocks, which enjoy high weighting in the benchmark indices. The Bank Nifty index is down nearly 50 per cent this year.
