FALLING ELECTRICITY DEMAND

Coal power plants’ PLFs slips to below 50%

PlA OF COAL-BASED PLANTS (IN %)

PLF

115.46
118.45
118.07
118.61

PLF for coal-based plants fell to 70-95 percentile, 93-96 percentile, 89-96 percentile, 83-95 percentile, respectively, in October. This is the lowest PLF since October 2016 for major private plants and 52% for 53.6% in 2017. PLF for coal-based plants fell to 70-95 percentile, 93-96 percentile, 89-96 percentile, 83-95 percentile, respectively, in October. The PLF for major private power plants dropped 14 percentage points, while the PLF for state-owned power plants dropped 12 percentage points.

According to a report by the Energy Ministry, the PLF for the country’s 262 coal power plants dropped 15 percentage points from 95.1% in 2015 to 80.1% in 2017, with 70% of the power plants with PLFs below 70%.

According to the Central Electricity Authority, the number of coal-based stations is likely to come down from 262 to 250 in the next few years if PLF based generation is difficult to maintain, according to the Indian Power Plant Owners’ Forum (IPPOF). The PLF for major private power plants dropped 14 percentage points, while the PLF for state-owned power plants dropped 12 percentage points.

According to a report by the Indian Power Plant Owners’ Forum (IPPOF), 250 out of 262 coal power plants have PLFs below 70%. The Central Electricity Authority has forecasted that the number of coal-based stations is likely to come down from 262 to 250 in the next few years if PLF based generation is difficult to maintain.

**Falling Electric demand**

The Central Electricity Authority has forecasted that the number of coal-based stations is likely to come down from 262 to 250 in the next few years if PLF based generation is difficult to maintain. According to a report by the Indian Power Plant Owners’ Forum (IPPOF), 250 out of 262 coal power plants have PLFs below 70%.

**Govt’s new steel scrap recycling policy to reduce imports**

The steel ministry has announced a new recycling policy to reduce imports.

**Domestic crude output falls 5% in Oct**

Crude oil production fell 4.9% year-on-year to 2.64 million metric tons (MMT), according to the state-owned Oil and Natural Gas Corporation (ONGC). The output fell 5.9% in September.

**Eros boost for India’s battling tourism industry**

The tourism sector has been hit by a series of setbacks in the past year, including the floods in Kerala and the haze in the north. The tourism sector has been hit by a series of setbacks in the past year, including the floods in Kerala and the haze in the north. The tourism sector has been hit by a series of setbacks in the past year, including the floods in Kerala and the haze in the north.

**Moody’s cuts India outlook to ‘negative’**

Moody’s has cut India’s outlook to ‘negative’ from ‘stable’, citing a widening fiscal deficit and a slowing economy.
