Geographical Diversification Through Entry Into New Markets

- Over the years, Renaissance has strategically reduced its dependence on the US market and diversified into key jewellery markets across Middle East, Asia Pacific and Europe.
- In addition to having a direct marketing presence through own subsidiaries in USA, UK and Middle East, Renaissance has also diversified its manufacturing base across India and Dubai.
- The acquisition of a manufacturing facility in Dubai has eased entry into the Gulf Cooperation Council (GCC) markets.

Renaissance has continually pursued geographical diversification

- In FY 2011, 85% of its revenues from the US but in FY 2020, US revenue share was reduced to 58%.
- The Vogue acquisition helped to substantially increase the contribution from the Middle East from 8% in FY2016 to 30% in FY2020.
Balance Sheet Discipline : Low Leverage & Efficient Working Capital Management

- The Gems & Jewellery export sector in India, has been negatively affected by capital mismanagement and highly leveraged balance sheets.
- In contrast, Renaissance has steadily grown its business with a highly disciplined approach based on prudent capital allocation and efficient working capital management.
- Inventory days have been reduced by close monitoring and optimization of the entire cycle from orders to delivery till the receipt of money.
- The recent acquisition of Jay Gems Inc was funded through internal accruals. The Debt/Equity ratio is at 0.52 for FY20. Our goal is to bring the Net Debt/Equity down to 0.5.
