Disclosure of material impact of Covid-19 Pandemic on the Company

➢ Impact of the Covid 19 Pandemic on the business:

The SARS-Cov-2 virus responsible for COVID-19 continues to spread across the globe and India. It has contributed to a significant decline and volatility in global and Indian Financial Markets and a significant decrease in the economic activities. On March 11, 2020, the COVID-19 outbreaks were declared as a global pandemic by the World Health Organization. On March 24, 2020, the Indian Government had announced a strict 21-day lockdown which kept on getting extended across the country with gradual and modest relaxations. Since we were in medical line, the office functioned normally but with enhanced measures to reduce any chances of spreading of virus.

➢ Ability to maintain operations including the office spaces functioning and closed down:

We have ensured that our employees, customers, and businesses are least impacted in these extraordinary times. During this lockdown period, the Company carried out its business with effective measures and were quite successful in implementing the same.

Customers - We are proactively trying to service the customers with every possible avenue. The team is actively in touch with customers via calls, emails, social media, and website.

Business - The COVID-19 lockdown has not had any impact on our ability to render services to our customers. The Business and Credit teams are actively communicating with customers having high risk business profiles to jointly evaluate the best possible solution to mitigate the crises.

➢ Schedule, if any, for restarting the operations:

We have opened our units with enhanced measures to reduce any chances of spreading of virus. The office place has been sanitized regularly and all necessary preventive measures like social distancing, temperature testing is being followed. We have kept hand sanitizers at various places in office and also kept masks at reception.

➢ Steps taken to ensure smooth functioning of operations:

In our efforts for the health and wellbeing of employees, steps have been taken to ensure efficient workplace; have moved meetings and trainings to virtual formats; frequent communication via emails and video calls to boost employee morale and create health awareness.

➢ Estimation of the future impact of COVID-19 on its operations:

The extent to which the COVID-19 pandemic will impact the Company’s future results will depend on future developments, which are highly uncertain and the Company will continue to closely monitor the same but chances of any negative impact is low.
Details of Impact of COVID-19 on the Company:

1. **Capital and Financial Resources:** The Company has adequate capital and financial resources to run its business operations.

2. **Profitability:** The Company has recognized provisions as on March 31, 2020 towards its assets including loans based on the information available at this point of time including economic forecasts. The Company believes that it has considered all the possible impact of known events arising out of COVID 19 pandemic in the preparation of financial results.

3. **Liquidity Position:** The current liquidity position of the Company is comfortable and successfully meets its repayment obligations and other commitments.

4. **Ability to serve Debt and other Obligations:** The debt obligations are not applicable on the Company.

5. **Assets:** Based on the past quarterly performance, the delinquencies are significantly under check and over dues are recovered through persistent efforts. Our major customers have good track record of consistent performance of sales and profitability. Therefore company feels secured for repayment obligations of its major customers. Hence, we are adequately protected at portfolio level and no impact on balance sheet is envisaged.

6. **Internal Financial Reporting and Control:** The Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively during post lock down period as well.

Existing contracts/agreements where non fulfillment of the obligations by any party will have significant impact on the listed entity’s business:

The Company at present do not foresee any difficulty in fulfillment of the existing contracts/agreements and obligations which may have any significant impact on the business of the Company.

We may like to state that the foregoing expressions are initial assessment of the situation and the final impact of any activities can only be assessed after the lockdown is over and the normal economic activities commences.
