Company Secretary & Compliance Officer
Encl: As above
Details and reasons for restructuring

In April 2019, Erstwhile Max India had expressed its intent to use the proceeds from divestment of its shareholding in Max Bupa Health Insurance Company ("Max Bupa") for its future growth and to give its shareholders, who do not prefer to be a part of next phase of growth of the Company, an exit option through an appropriate mechanism.

Pursuant to the Composite Scheme of Amalgamation and Arrangement amongst Erstwhile Max India Limited, Max Healthcare Institute Limited, Radiant Life Care Private Limited and Advaita Allied Health Services Limited (now renamed as "Max India Limited") ("the Company") and its respective shareholders and creditors, as sanctioned by the Hon'ble National Company Law Tribunal vide its order dated January 17, 2020 and effective from June 1, 2020, the whole of the Allied Health and Associated Activities Undertaking (as defined in the Scheme and which included the proceeds from the divestment of Max Bupa) was demerged from the erstwhile Max India Limited and vested into the Company, with effect from the appointed date of the Composite Scheme i.e. February 1, 2019.

Pursuant to the listing of the Company, and in line with its above intention to give its shareholders an exit option through an appropriate mechanism, the Company proposes to undertake a scheme of capital reduction, under Section 66 of the Companies Act, 2013, subject to receipt of necessary approvals.

Quantitative and/or qualitative effect of restructuring

Subject to the provisions of the Scheme, the capital reduction shall be for cancellation of a maximum of 1,07,57,252 Equity Shares (i.e. up to 20% of the currently issued capital) of par value of INR 10/- each, for a consideration of INR 85 per share, based on the Equity Shares offered by the Public Shareholders as on the Record Date. This is not a mandatory capital reduction, and equity shares may be offered for cancellation by the public shareholders, at their option.

The maximum cash that is sought to be utilized for the capital reduction is upto INR 92 crores (Rupees Ninety Two Crores only).

The Promoter/ Promoter Group shall not participate in the capital reduction, so as to enable maximum cash availability for the public shareholders.

This capital reduction is not a compulsory exit for the public shareholders, and it is only intended to provide an additional option for partial exit to Max India's shareholders, who may not be keen to participate in Max India's growth story.
Shareholders can choose to participate in capital reduction and get cash in lieu of the Equity Shares tendered, or they may choose not to participate and enjoy a resultant increase in their percentage shareholding, post capital reduction, without additional investment.

As stated above, the Promoter/ Promoter Group shall not participate in the capital reduction.

If the public shareholders of the Company opt to participate in the capital reduction scheme upto the maximum extent approved by the Company, then the shareholding of the Promoter/ Promoter Group in the Company will increase from 40.85% to 51.11%. Such an increase in shareholding of the Promoter/ Promoter Group may result in an obligation to make a public announcement for an open offer under the SEBI (Substantial Acquisition of Shares and Takeovers) Regulations, 2011 ("Takeover Regulations"), despite it being a passive acquisition. Accordingly, the Promoter/ Promoter Group have informed the Company regarding their preference to make an application to SEBI seeking specific exemption under Regulation 11 of the Takeover Regulations from the requirement to make open offer under the Takeover Regulations. The maximum number of shares that may be cancelled under the Scheme is subject to receipt of the aforesaid exemption by the Promoter/ Promoter Group from SEBI.

Assuming that the maximum number of shares of Equity Shareholders are cancelled, as part of the said capital reduction, and based on the shareholding pattern as on September 15, 2020, the pre and post scheme shareholding pattern of the Company has been depicted below:

accompanying statement, prepared in accordance with the recognition and measurement principles laid down

5. As described in Note No. 8 of the Statement, the impact of the Composite Scheme has been considered to restate figures in the corresponding quarter ended June 30, 2019 and preceding quarter ended March 31, 2020 unaudited statements. Financial figures included in the accompanying Statement for the quarter ended June 30, 2019 was reviewed by the company's predecessor auditor who expressed an unmodified conclusion on the statement. Max India to explore rewarding shareholders via Capital Reduction

**Max India to offer acquiring up to a maximum of 20% of its outstanding shares from public shareholders at Rs 85 per share; a premium of 37% to its last closing price of Rs. 62 per share**

**Company to utilize up to Rs 92 Cr. for the capital reduction exercise**

**Offer comes shortly after the relisting of Max India shares post demerger**

15th September 2020, New Delhi

Max India Limited, a part of the USD 3 bn Max Group, today announced that it will explore a capital reduction program to reward its shareholders, as communicated during the divestment of Max Bupa by the erstwhile Max India. The company plans to offer its public (i.e., non-sponsor group) shareholders the option of taking Rs 85 per share for up to 20% of their shareholding in lieu of cancelling these shares.

Max India, which recently relisted on the Indian bourses on August 28, 2020 after a demerger process has a treasury corpus of over Rs 400 Cr. created primarily from divestment proceeds of its erstwhile subsidiary, Max Bupa. It intends to utilize up to Rs 92 Cr. from this corpus for the capital reduction process, while the balance of Rs 300+ Cr. will be apportioned for growth and other operational expenses. Max India’s shares closed at a price of Rs. 62 per share on September 14, 2020. The cash out through a Capital Reduction process translates to a 37% premium to this price.

The Board of Max India approved the capital reduction exercise earlier today. The proposal will also need to be approved by a special resolution of public shareholders. It will additionally need regulatory approvals including from stock market regulator and NCLT, Mumbai. The approvals process is expected to take about 6-8 months. Post capital reduction, Max India’s outstanding shares will decrease by up to 20%, from 5.38 Cr. to 4.3 Cr.

The Max India sponsor group has communicated its intention of not tendering its shares for capital reduction. Consequently, their shareholding is likely to increase to 51% from the current 41%. They will seek a SEBI exemption from the open offer requirement accordingly. The final quantum of capital reduction will be based on SEBI’s decision on exemption.

Max India is the holding company of Max Group’s Residences for Seniors and Senior Care business, collectively known as ‘Antara’. It also owns a skilling company, ‘Max SkillFirst’.

Speaking on the occasion, Mohit Talwar, Vice Chairman, Max Group & Managing Director, Max India said, “We had expressed our intent to reward our shareholders at the time we divested our health insurance business Max Bupa. This capital reduction process is a move towards that intent even though capital conservation has become important after the onset of COVID-19 induced economic slowdown. We will still have sufficient growth capital for growth and other expenses.”
