Travel is in our genes aka DNA aka heart. And it clearly shows. In everything we do, everything we have achieved and every milestone we are going to herald. We have experienced and evolved. We have reflected and reinvented. We have travelled and transformed. That is what a journey is all about - of moments on mountaintops and moments in deep valleys of despair.

It is this spirit that has been at the heart of our journey in FY 2022-23. Traversing the path of expanding our in-house manufacturing facilities, enhancing our brand power, embracing new initiatives that deepen brand connections, growing our distribution network, giving wings to our e-commerce business, and institutionalising the critical functions of procurement, design, and development - the strengths that are the heartbeat of any travel luggage company, we have been on the move.

We have loved all the initiatives we have taken, the transformation we have witnessed, the results we have achieved and the strategic direction that will set sail to our future course of growth.

OUR STRENGTHS AND CAPABILITIES

Always on the move to build on our core

Our firm foundation has set us on the right path. We continue to build on our capabilities to enhance our competitive advantage and shape our journey towards new horizons of success.

INDIA'S NUMBER 1 LUGGAGE MAKER SINCE 1970s

VIP Industries has withstood the test of time, captivating multiple generations with its enduring appeal. In the 1970s, we pioneered the manufacturing of briefcases, giving birth to the iconic VIP brand. Despite changing trends and the emergence of unbranded alternatives, VIP has remained resilient, commanding unrivalled prominence in the luggage category. To meet diverse product needs and aspirations, we introduced new brands: Skybags for stylish luggage and backpacks. Carlton for premium segment, Caprese for fashionable handbags, and revitalised Aristocrat as a value-oriented luggage brand for frequent travellers. Our conscious shift towards trendy and youthful designs has yielded substantial dividends, solidifying our position in the industry.

RISING SELF-SUFFICIENCY IN OWN MANUFACTURING

With a focus on self-sufficiency, we have made significant strides in our own manufacturing capabilities. Our state-of-the-art manufacturing units, both in India and Bangladesh, are equipped with cutting-edge technologies. These facilities provide us with greater control over our production process, leading to quality products and sustainable cost efficiencies. To support our future growth and strengthen our margins, we invested ₹100 Crores in expanding our manufacturing capabilities in FY 2022-23. As a result, in-house manufacturing now contributes to 70% of our total revenue, a significant increase from 42% in FY 2019-20.

A BRAND PORTFOLIO THAT CATERS TO ALL PRICE SEGMENTS

Our brand range spans across various price points, ensuring that customers can find a brand tailored to their budget and lifestyle. VIP and Skybags cater to the mid-premium segments, offering stylish and reliable options. Carlton caters to the premium segment, providing sophisticated luggage for young leaders. For the value-conscious consumers, we have Aristocrat, offering quality products at affordable prices. In addition, our handbags for women are sold under the brand Caprese, positioned in the mid-premium category, combining fashion and functionality.

CONTINUOUS THRUST ON INNOVATION AND QUALITY

We have a talented in-house design team that stays attuned to the ever-evolving trends and customer preferences in the luggage industry. With a relentless focus on product innovation, we strive to create exceptional customer experiences. Our track record includes achievements like launching non-upside-down opening bags in 1983 and developing the world's lightest suitcase with durable polypropylene shells in 2005. More recently, we introduced futuristic smart travel gear in 2022, revolutionising the luggage segment. Our products undergo rigorous quality testing, ensuring superior performance, while our comprehensive after-sales services add value to our brand portfolio.

WIDE ACCESSIBILITY WITH MULTICHANNEL DISTRIBUTION

Our wide-reaching distribution network ensures seamless access to our luggage products across India, encompassing ~11,430 points of sale. Through diverse channels including modern trade, multi-brand outlets (MBOs), exclusive brand outlets (EBOs), canteen stores department (CSD), and e-commerce platforms, customers can easily find and purchase our travel products. With strategic penetration down the population strata, we have achieved an impressive 90% market presence in our addressable town universe. To further strengthen brand accessibility, we continue to invest in expanding our retail network, fostering greater customer engagement.

STRONG BRAND CONNECT WITH FOCUS ON DIGITAL MARKETING

In an ever-evolving retail landscape, we are committed to fostering lasting connections with our customers. Through targeted marketing and advertising initiatives, we elevate our brand attributes, forge emotional bonds and ensure our brands are top of mind during crucial purchasing decisions. With a keen understanding of

shifting consumer behaviour, we have expanded our digital footprint and roped in well-known celebrities to promote our products. Collaborations with social media influencers have further extended our brands' digital reach, ensuring a compelling connection with our valued consumers.

FINANCIAL PRUDENCE AND DISCIPLINE

We have demonstrated financial prudence through a stringent working capital policy, and a strong return on capital employed of 30%+. Our integrated manufacturing facilities, efficient distribution network and operational efficiencies have optimised capital utilisation and bolstered our net cash position. During FY 2022-23, working capital cycle was reduced to 89 days from 126 days in the previous year. Looking ahead, the favourable factors of own manufacturing, growth in the organised sector, untapped export opportunities and positive industry trends are expected to drive healthy earnings growth and further strengthen our balance sheet.

COMPETENT MANAGEMENT AND TALENTED TEAM

We pride ourselves on being a professionally managed company that upholds the highest standards of corporate governance and internal controls. Our success is attributed to the expertise and strategic vision of our experienced leadership team. We are supported by a talented workforce that embraces a customer-centric mindset and demonstrates remarkable skills and dedication. Together, our competent leadership and exceptional team form the cornerstone of our achievements and propel us towards continued excellence.

Chairman's Reflections

Dear Shareholders,

I am pleased to present the Annual Report for VIP Industries Limited for the fiscal year ended on March 31, 2023. Our Company has delivered a strong performance, with growth being broad-based across brands and channels. Furthermore, we have made significant strides in executing our transformation plan. This journey is of paramount importance, and we are steadfast in our commitment to drive this transformation, solidifying our foundation for long-term business sustainability.

The luggage & backpacks market in India is estimated to be around ₹10,000 crores¹ with branded players constituting ~56%^{1&2} of the market, while the remaining portion is dominated by the unbranded segment. In recent years, factors such as the implementation of GST, supply chain disruptions caused by the pandemic, and a shifting consumer preference towards branded products are reshaping the industry landscape. To provide a better perspective, while the overall industry is growing at an average rate of 8-10%, the organised segment, synonymous with branded offerings, is outpacing this growth with an impressive rate of 15%. This highlights the strong momentum and promising expansion opportunities within the organised segment.

Throughout the year, our strategic focus has been on fortifying our core strengths. We have made consistent investments in expanding our in-house manufacturing capacity. Our facilities in India and Bangladesh now support high volumes of indigenous production, thereby ensuring high quality products in a cost-effective manner while significantly reducing our sourcing from China. To enhance our manufacturing capabilities even further, we have initiated a capital expenditure plan of ₹200 Crores. These strategic endeavours exemplify our unwavering commitment to meeting the growing demands of our valued customers.

¹ Euromonitor, estimated for Calendar year 2022

² Internal estimates

We are also actively investing in bolstering our distribution network to establish a stronger connection with a broader customer base. The industry is experiencing significant growth fuelled by the aspirations of customers living in Tier 2 and Tier 3 cities, who are eager to explore the world like their metropolitan counterparts. Our strategic expansion to these markets will enable us to cater to the preferences of New India, ensuring our products are accessible to all.

Upholding strong governance practices is fundamental to our operations. We are keenly aware of the evolving expectations and regulatory landscape, and we prioritise earning and maintaining the trust of our valued customers, employees, investors and stakeholders. Our business strategy is shaped by an experienced team of senior leaders who are fully engaged in driving our success. We remain focussed on continually improving our disclosure practices, ensuring that good corporate governance remains the bedrock of our business.

At all our sites and offices, we embrace responsible business practices, prioritising health, safety and environmental standards. Regrettably, we must report a significant fire incident at one of our factories in Bangladesh. Our prompt response ensured that no lives were lost. We conducted a thorough investigation to determine the root cause and swiftly implemented corrective measures to prevent any future recurrence. Aligning with our dedication to being a responsible employer, additional control measures have been implemented across our other factories to mitigate risks effectively. We remain resolute in our efforts to ensure the well-being of our workforce and maintain a safe working environment.

In closing, at VIP Industries, the way we consistently create and deliver that value is by keeping our focus squarely on the future. Our consistent investments in strengthening our business fundamentals will enable us to cater to the expanding aspirations of our customers and drive growth. We owe our success to our hard working and dedicated employees, and on behalf of the Board, I express my gratitude for their invaluable contributions. I would also like to extend a heartfelt thank you to our customers, partners and shareholders for their support. As we continue our journey of value creation, I firmly believe that the future holds even greater prospects for our Company.

Warm regards,

Dilip G. Piramal

Vice Chairperson's Message

Dear Shareholders,

VIP Industries, backed by our formidable scale and trusted brands, we see exciting opportunities for further cementing our position within India's luggage industry. In-line with this intent objective, our Company has been undergoing a period of intense transformation. These strategic measures, combined with our strong focus on innovation, have enabled us to meet the needs of a broader customer base, gain market share in India's organised luggage sector and continue our journey of delivering premier performance.

One of our most significant transformation lies in our manufacturing capabilities. Since FY 2019-20, we have added approximately 2 lakh sq. ft. of manufacturing space, resulting in a remarkable 105% increase in our own manufacturing volumes. Notably, VIP Bangladesh has emerged as the world's largest multi-category bag producing company. Meanwhile, we are actively transforming our India manufacturing facilities into technologically advanced hubs with enhanced capacities for hard luggage production. We have also added new functions to support increased in-house production, thereby reinforcing our supply chain and generating substantial long-term cost efficiencies.

The world of retail is in a state of flux, with customer needs changing rapidly and new entrants continually disrupting the market. This brings its own set of challenges, but it also presents unique opportunities for those who possess a deep understanding of customer preferences and expectations. While we maintain our focus on expanding our physical reach, we are actively transforming our online distribution to provide customers with a seamless omnichannel experience and drive the growth of our e-commerce business. To enhance our e-commerce competencies and support the execution of our e-commerce strategy, we have partnered with a globally leading consultant.

Another significant area of transformation for us lies within our Caprese brand, which caters to the ladies' handbag category. Although the brand is currently in its early stages, we have ambitious plans to elevate its presence by expanding touchpoints and positioning it in the mid-premium to premium segment. The launch of the Caprese website for direct-to-customer delivery and our strategic investments in brand building are aimed at enhancing customer experiences and establishing Caprese as a key driver of future growth for our business.

International markets also present significant potential for us in the upcoming years. For transforming our business in these markets, our initial strategy focusses on expanding our presence in existing export markets and subsequently entering more advanced markets. We believe that our cost competitiveness, driven by our own manufacturing capabilities, combined with our commitment to international quality standards, positions us favourably to capitalise on emerging opportunities.

In summary, VIP Industries is at an exciting stage of growth phase. The demand for bags and luggage is robust and sustainable, driven by factors such as increased travel among Indians and evolving consumer behaviour, where the ownership of bags per household is transitioning to each individual owning multiple bags. As we continue our ongoing transformation journey, we remain dedicated to strengthening our core foundations and delivering enhanced value to our stakeholders.

I would like to thank all our employees for their hard work through the year. I would also like to express my gratitude to my fellow Board Members for their guidance and support. Finally, I offer my sincere appreciation to our customers, business partners, shareholders and all other stakeholders for the trust they have placed in VIP Industries.

Thank you for your interest and support.

Warm regards,

Ms. Radhika Piramal

Managing Director's Message

Dear Shareholders,

I am delighted to report that VIP Industries continued its growth momentum during the year under review. Our performance has been well-rounded, driven by all our brands and channels. We moved ahead on our journey with full vigour, reaching new milestones and investing in building new capabilities. More importantly, by maintaining a steadfast focus on driving transformative changes, we have emerged significantly stronger in our fundamentals, bolstering our cost efficiencies and unlocking greater potential for future growth.

OPERATING ENVIRONMENT

Entering FY 2022-23, we experienced a return to normalcy as public confidence in managing the pandemic situation grew significantly. The resumption of travel, social functions and full reopening of educational institutions created a conducive demand environment for the luggage industry. The past year also witnessed the unfolding of benefits of reforms and initiatives implemented by the government. This positively impacted the overall economic conditions and consumer sentiments, thus fuelling industry demand. The festive season further bolstered various sectors as festive spending rebounded after nearly two years of subdued activity caused by the pandemic. Additionally, headwinds in the unorganised sector added growth impetus for branded players.

Our course for the year, however, was not without obstacles. Inflation, which had not been encountered at such levels for almost a decade, exerted pressure on our profitability and slightly dampened demand. After temporarily closing down many of our Exclusive Brand Outlets (EBOs) during the pandemic to reduce costs, we faced the formidable challenge of scaling them back up at an unprecedented pace. We also had to contend with the closure of several stores of a retail player in our modern trade channel. With our business having considerable dependence on this one account, alternative avenues had to be swiftly explored to regain the demand that would have originated from this retail player.

PERFORMANCE REVIEW

Our strategic readiness to capitalise on the unfolding opportunities presented by an improving operating environment led to an impressive resurgence. We achieved significant growth in both value and volume, surpassing the performance of the previous year and even pre-pandemic levels. Notably, our revenue from operations for FY 2022-23 soared to ₹2,082 Crores, reflecting a remarkable 61% increase compared to the previous year's ₹1,290 Crores.

Analysing the revenue breakdown, strong growth was realised in both the premium/mass premium and value categories. Our modern trade channel demonstrated resilience, compensating for store closures and driving growth through other retail chains, surpassing its pre-pandemic revenues. The complete operationalisation of closed stores under a new partnership positions us favourably for FY 2023-24. Additionally, our strategic initiatives in the international segment yielded fruitful outcomes, with FY 2022-23 marking our highest-ever revenue in this segment. The e-commerce channel also witnessed strong growth, though its performance was weaker relative to other channels.

Even with the growing prominence of the low-margin value segment and the challenges in mitigating high raw material inflation through price adjustments, we effectively maintained gross margins above the 50% threshold. This accomplishment was facilitated by efficient cost management through our ongoing 'SCOUTS' (Structural Cost-Out) programme, aimed at developing long-term competencies. As a result, our EBITDA and EBITDA margin for the year stood at ₹331 Crores and 15.8% respectively, compared to ₹181 Crores and 13.6% in the previous year. Additionally, we allocated ₹12 Crores towards doubtful debt

NOTABLY, OUR REVENUE FROM OPERATIONS FOR FY 2022-23 SOARED TO ₹2,082 CRORES, REFLECTING A REMARKABLE 61% INCREASE COMPARED TO THE PREVIOUS YEAR'S ₹1,290 CRORES.

of our former retail operator in the modern trade channel. Excluding this charge, our underlying EBITDA for the year would have been 17.8%.

Unfortunately, we faced an unfortunate incident where one of our factories in Bangladesh was severely damaged by fire. While the loss is covered by comprehensive insurance, we recorded an exceptional loss of ₹47.2 Crores during the year. Despite this setback, our Profit Before Tax (PBT) before the exceptional loss amounted to ₹229 Crores, making FY 2022-23 the most profitable year in the history of VIP Industries.

To address the impact of the fire incident at our plant, we promptly arranged outsourcing and stop gap solutions within India and Bangladesh. Additionally, we accelerated the implementation of planned capacities in Bangladesh to compensate for the loss. Although the affected factory will take time to be rebuilt, our operational and upcoming facilities have minimised any revenue loss. While our factories, warehouses and workplace are fully fire safety compliant we have further invested in upgrading our safety systems to become best in class and have taken corrective measures to prevent recurrence of such incidents.

UPSTREAM TRANSFORMATION

Over the past two years, we have undergone a transformative journey to strengthen our supply chain and optimise costs. In FY 2022-23, we invested ₹100 Crores to expand our manufacturing capabilities, resulting in a significant increase in the contribution of in-house and controlled manufacturing to our overall product mix. At the end of the year, these accounted for 90% of our product mix, compared to 85% in the previous year and a substantial growth from 54% in FY 2019-20.

To support our in-house manufacturing expansion, we acquired new capabilities, including institutionalising procurement and design & development functions. We also expanded our warehousing and logistics network to accommodate higher volumes.

Maintaining our focus on driving upstream control, we have allocated ₹200 Crores in FY 2023-24 to further enhance our manufacturing capacity through greenfield and brownfield investments in India and Bangladesh. This capital expenditure will cover land acquisition, plant and machinery, with approximately 70% of the investments dedicated to expanding our soft luggage capacity, including upright luggage, backpacks, and duffle bags. We expect to commence commercial production in FY 2024-25, and with our expanded capacity, we will be well-equipped to meet the demand for the next three years.

IN THE PAST YEAR, WE REACHED A SIGNIFICANT MILESTONE BY SUCCESSFULLY ESTABLISHING OVER 125 EBOs, SURPASSING THE IMPRESSIVE BENCHMARK OF 500 STORES. THIS EXPANSION NOT ONLY REINSTATES OUR PRE-PANDEMIC EBO STRENGTH BUT ALSO SURPASSES IT, DESPITE THE CLOSURES WE HAD TO ENDURE DURING THE CHALLENGING PANDEMIC YEARS.

GO-TO-MARKET TRANSFORMATION

We have also been dedicated to enhancing our go-to-market operations, with the aim of making our brands more accessible to customers. Over 200 towns in tier 2 and 3 cities were added to our distribution network during the year. This expansion has led to a remarkable 90% penetration in our relevant towns' universe. We will continue our market penetration strategy to effectively cover all towns with a population of 50,000+ by the middle of the next financial year.

In the past year, we reached a significant milestone by successfully establishing over 125 EBOs, surpassing the impressive benchmark of 500 stores. This expansion not only reinstates our pre-pandemic EBO strength but also surpasses it, despite the closures we had to endure during the challenging pandemic years. Our commitment to EBO expansion remains steadfast as we aim to add an additional 150 outlets in the current financial year, predominantly leveraging the capital light franchisee model. This ambitious expansion strategy will fuel our business growth.

Notwithstanding the success of our physical outlets in driving sales, we recognise the need to adapt to changing customer behaviour in the digital era. During the year, in collaboration with a renowned consulting firm, we launched the 'Accelerator Programme' to expedite our journey towards becoming the best-in-class e-commerce operator. By building essential competencies at an accelerated pace, we are confident of meeting the evolving needs of our customers and strengthening our e-commerce market share.

Furthermore, strategic investments were made to enhance the appeal and visibility of our brands. Our exciting new product launches have resonated with today's discerning customers who seek high-quality, stylish, and feature-rich products. In parallel, high-impact campaigns have resulted in increased customer recall scores and higher engagement on social media for our brands. For our younger brand Caprese, focussed initiatives were undertaken to premiumise the brand through the product portfolio and customer engagement. Notably, we launched the Caprese website for direct-to-customer delivery, enabling us to capitalise on its growth potential.

BUSINESS OUTLOOK

Amid global economic uncertainty, India's economy remains resilient. The recent Consumer Confidence Survey by the Reserve Bank of India reveals positive perceptions of current and future economic conditions among Indian consumers. This optimism extends to household spending, including both essential and discretionary items. Such positive sentiments are encouraging for customer demand and discretionary spending, with potential benefits for the travel and luggage sector.

Moreover, the structural demand drivers for the luggage remain robust. Firstly, the category has significant room for expansion as it remains relatively untapped. Secondly, the surge in travel, including leisure trips and essential journeys, provides a favourable environment for increased demand. Additionally, lifestyle trends such as weddings, educational pursuits and job relocations contribute to the growing need for luggage. Lastly, the industry is witnessing a shift towards branded products, driven by rising incomes and urbanisation. These factors collectively indicate a positive outlook for the organised luggage sector.

At VIP Industries, our proactive expansion in our production capacity and the strengthening of our sales channels will enable us to solidify our leadership position in the premium and semi-premium categories. We are also confident of gaining a stronger foothold in the expanding value segment, as the industry continues its shift from unorganised to organised players.

The backpack category, in particular, presents a significant growth opportunity for us in the coming years. This segment is currently more unorganised compared to other categories in the luggage segment. By offering a diverse range of backpacks at different price points, we aim to cater to a wide range of customer needs and preferences. Additionally, our Caprese brand, in the mass premium category of ladies handbags, is well-positioned for high growth in the coming years.

With rising in-house manufacturing capabilities that offer a substantial cost advantage, we are also exploring new frontiers in exports. Initially, our strategy is to penetrate deeper into existing export markets, followed by expansion into more advanced markets. Our cost competitiveness positions us well, particularly in the context of the "China Plus one" strategy gaining traction in the Western world.

CLOSING THOUGHTS

With the solid foundation we have built and supported by the favourable demand environment, VIP Industries is well poised to deliver fast-paced and profitable growth. Our strong balance sheet reinforces our ability to pursue our growth ambition. I extend my sincere appreciation to all our stakeholders for their steadfast support. Together, we will continue to traverse new horizons, and forge ahead on a path of constant innovation and expansion. At every step, we are propelled by the belief that through transformation and growth, we can deliver better value to all our stakeholders.

Warm regards,

Anindya Dutta

Message from the Executive Director & CFO

Dear Shareholders,

I am thrilled to announce that VIP Industries has maintained its growth momentum throughout the year. Our Company's performance has been robust, showing remarkable growth across various brands and distribution channels.

During the fiscal year 2022-23, our revenue from operations increased to ₹2,082 Crores reflecting an impressive 61% increase compared to the previous year's revenue of ₹1,290 Crores. We observed strong growth in both the premium/mass premium and value categories. Our modern trade channel demonstrated resilience, compensating for store closures and driving growth through other retail chains, surpassing its pre pandemic revenues.

Despite the increasing prominence of the low-margin value segment and the challenges associated with mitigating high raw material inflation through price adjustments, VIP Industries has effectively maintained gross margins above the 50% threshold. This accomplishment is a testament to our commitment to operational efficiency and long-term sustainability.

One of the key contributors is our ongoing 'SCOUTS' (Structural Cost-Out) program. This program focusses on identifying and implementing efficient cost-saving measures across our operations, enabling us to optimise costs while preserving product quality and customer satisfaction.

Our EBITDA and EBITDA margin for FY 2022-23 stood at ₹331 Crores and 15.8%, respectively, compared to ₹181 Crores and 13.6% in the previous year. Our Profit Before Tax (PBT) before the exceptional loss stood at ₹229 Crores, making

FY 2022-23 the most profitable year in the history of VIP Industries. PAT for the year came in at ₹152 Crores, marking a growth of 128% over the previous financial year.

We have demonstrated financial prudence through a stringent working capital policy, and a strong return on capital employed. Our working capital cycle has significantly improved from 126 days in FY 2021-22 to 89 days in FY 2022-23.

As we move forward, we remain dedicated to further enhancing our operational efficiency, exploring innovative cost-saving strategies, and addressing market dynamics to sustain our margins and drive long-term growth. With a strong foundation and favourable demand environment, we are well-positioned to achieve fast-paced and profitable growth. Our strong balance sheet provides the necessary support to pursue our growth ambitions effectively.

I express my sincere gratitude to all our stakeholders for their constant trust and support in VIP Industries.

Best Regards,

Neetu Kashiramka

BUSINESS ENVIRONMENT

Moving in sync with market trends

The operating milieu is changing. Staying attuned to the changing dynamics enables us to make the right strategic decisions and stay ahead of the curve.

Attractive tourism market dynamics

The outbound tourism market in India has been one of the fastest growing in the world over the past few years, second only to China. By 2024, Indian travellers are expected to spend over US\$ 42 billion annually on outbound trips¹. Infrastructure improvements and aviation sector expansion have played a significant role in driving outbound growth. The Indian government plans to invest ₹ 980 billion (US\$ 12 billion) by 2025 to modernise airports and increase their number from 148 to 220².

With a large domestic population, India also boasts one of the world's largest domestic tourism markets.

Enhancements in rail infrastructure will further boost domestic tourism. Domestic air travel demand has also shown a positive trajectory, with a record 13 million passengers carried by domestic airlines in March 2023, marking an 11% increase compared to the corresponding months in 2018 and 2019³.

India's major airports are projected to handle 420 million passengers by 2025 from 192 million currently, and the fleet of Indian carriers is expected to grow from 700 to 2,000 aircraft within five years⁴. These developments indicate a promising future for India's tourism industry and, thereby, for the Indian luggage sector.

How we are responding

- Offering a wide selection of high quality luggage options that cater to diverse travel requirements.
- Scaling up our in-house manufacturing facilities to capitalise on the attractive market opportunity.

FAVOURABLE DEMOGRAPHICS DRIVING DISCRETIONARY SPENDING

India's middle-class segment is experiencing rapid growth, expected to reach 46% by 2030, up from 14% in 2004-05⁵. This burgeoning middle class is characterised by aspirations and a penchant for discretionary spending.

With one of the world's largest and youngest workforces, India also boasts a higher proportion

of millennials and Gen Z in its population compared to developed economies. As of 2021, millennials and Gen Z accounted for 52% of India's population, surpassing the global average of 47%. This demographic trend is expected to continue, with India's Gen Z and Millennial population reaching 50% by 2030, exceeding the global average of 46%⁶. These favourable demographics, combined with urbanisation and rising disposable income, are driving an upswing in discretionary spending.

How we are responding

- Expanding our range of luggage solutions to offer greater variety and choice for the growing middle-class segment.
- Prioritising product innovation to align with the preferences of millennials and Gen Z.
- Strengthening our e-commerce capabilities to tap into the potential of digital channels, which are widely used by today's youth.
- Creating compelling brand communications and promotions, and partnering with influential brand ambassadors to resonate with our target audience and leave a lasting impression.

CUSTOMER HABITS TOWARDS TRAVEL ARE CHANGING

Over the past three decades, travel habits in India have evolved significantly. In the 90s, travel was limited to annual family gatherings or weddings, with one shared bag per family. By the 2000s, the frequency

of travel increased, and business travel emerged as a new trend. Bags per family multiplied, with separate ones for business and leisure trips. In the 2010s, individual ownership of luggage became prevalent, replacing shared bags. The replacement cycle reduced from 8-10 years to 3-5 years.

Over the past decade, we have witnessed a surge in various travel occasions for individuals and families alike. International travel, weekend getaways and solo trips have become increasingly popular. To meet the diverse needs of travellers, the repertoire of bags per person has expanded. Additionally, people have become more conscious of their image and view bags as a statement of their lifestyle, resulting in faster replacement cycles of 2-3 years⁷.

How we are responding

- Introducing a diverse range of luggage options tailored to meet the unique travel needs of different customer segments.
- Engaging with various traveller and customer groups through targeted marketing campaigns to establish a strong connection and understand their specific requirements.

CONSUMER COHORTS ARE GROWING

Aside from travel, the luggage segment now caters to the needs of new and growing consumer cohorts. In India, where wedding expenses have been increasing, luggage has become an integral part of the wedding trousseau. Post-pandemic, wedding expenditures have further increased according to industry estimates.

There has also been an increase in the number of Indian students studying abroad. In 2022, departures from India for international education reached a six-year high at 750,365 students. Additionally, luggage gained popularity as a preferred personal gifting item. Major retail chains also now operating regular promotional gifting of luggage, reflecting its growing appeal among customers.

How we are responding

- Introducing captivating wedding luggage collections that adds a touch of elegance and functionality to this special occasion.
- Elevating the brand salience of our wedding collection through impactful celebrity-driven campaigns.
- Partnering with prominent luggage retailers to amplify promotional gifting opportunities in the luggage category, ensuring wider visibility and increased customer engagement.

DEMAND SHIFTING FROM THE UNORGANISED TO THE ORGANISED SECTOR

The luggage industry in India is witnessing remarkable growth and holds a promising future. From a share of 45% pre-COVID, branded players account for 56% of the market today. Recent industry developments, including the implementation of GST and supply chain disruptions during the pandemic, have played a role in formalising the sector and impacting unorganised players. Moreover, increasing disposable incomes and rising urbanisation have led to a shift in customer preferences towards high-quality branded products. As a result, the organised segment is experiencing impressive growth at 15%, surpassing the industry's average growth rate of 8-10%. This emphasises the strong momentum and lucrative opportunities within the organised segment.

How we are responding

- Expanding our in-house manufacturing facilities to meet the growing demand and also achieve cost efficiencies while ensuring superior product quality.
- Enhancing our distribution network to extend our reach, with a strategic emphasis on expansion down the population-strata to tap into the burgeoning demand in these emerging markets.
- Introducing competitively priced offerings in the value segment, catering to the needs of entry-level buyers seeking affordable yet branded products, thereby expanding our customer base and market share.

MANUFACTURING INFRASTRUCTURE

Transforming our manufacturing capabilities

The strategic shift to in-house manufacturing is transforming our supply chain, enabling us to meet growing demand, reduce supply chain risks and gain a long-term cost advantage.

We have embarked on an extensive expansion of our in-house manufacturing capabilities in India and Bangladesh, bolstering our ability to cater to the surging demand for bags and luggage. This strategic endeavour not only provides us with greater resilience against supply chain disruptions but also empowers us to deliver superior quality products consistently. By leveraging our captive manufacturing capabilities, we achieve enhanced cost efficiencies, further strengthening our competitive edge in the market.

INVESTMENT OF ₹100 CRORES IN FY 2022-23

During the year, we made a capital expenditure of ₹100 Crores to strengthen our in-house capabilities, with an equal allocation of ₹50 Crores in both India and Bangladesh. These significant investments have brought about a transformation in our manufacturing infrastructure, equipping them with advanced technology. Our India facility now boasts enhanced capacity for producing hard luggage, reducing our dependence on Chinese procurement. Moreover, our subsidiary VIP Bangladesh has emerged as the largest multi-category bag producing company globally.

Our ongoing commitment to expanding our in-house infrastructure has yielded substantial outcomes. Since FY 2019-20, we have added 2 lakh sq. ft. of manufacturing space, enabling us to significantly increase our own manufacturing volumes by an impressive 105%. The impact of these investments is evident in our financial performance, with our facilities in India and Bangladesh contributing to 70% of our total revenue in FY 2022-23, compared to 42% in FY 2019-20. This shift towards higher in-house production has positioned us for greater cost competitiveness and upstream control, setting the stage for continued success in the future.

ADDING NEW CAPABILITIES

To support our increased own manufacturing, we acquired new capabilities during the year. We institutionalised the procurement function to streamline our operations and optimise our sourcing process. We also established a dedicated design and development function to drive innovation faster and create compelling products. Additionally, we swiftly expanded our warehousing and logistics network to accommodate higher volumes, enabling seamless distribution. The production capacity expected to be initiated by FY 2023-24 is 2,150 thousand units per month.

**INVESTMENT OF ₹200 CRORES
PLANNED FOR FY 2023-24**

In line with the strong demand landscape, we are committed to fortifying our manufacturing capabilities through significant investments of ₹200 Crores in the current fiscal year. These investments will be utilised for both greenfield and brownfield projects in India and Bangladesh, covering various aspects such as land acquisition, plant and machinery. Notably, around 70% of the investments will be dedicated to enhancing our soft luggage capacity, including upright luggage, backpacks and duffle bags.

**VIP BANGLADESH:

In a mere two-year span, VIP Bangladesh has secured its position as the largest manufacturer of multi-category bags worldwide. Our operations in Bangladesh now encompass the production of all five key bag categories, including hard luggage, soft luggage, uprights, backpacks, duffle bags and even lady's handbags. This achievement not only signifies the exponential growth of our operations but also highlights our exceptional capabilities in manufacturing diverse product lines. With our comprehensive production capacity, we are well-equipped to offer an extensive range of designs and SKUs, solidifying our competitive advantage in the industry.

DISTRIBUTION NETWORK

Transforming our go-to-market capabilities

Accessibility is at the core of our distribution strategy. From physical to digital, we are committed to ensuring that our products are within easy reach of our customers.

As disposable incomes rise, the demand for our products is growing, especially in lower population-strata towns. Moreover, we are attuned to the rising trend of online shopping. Whether it is exploring our products in-store or making purchases from the comfort of their homes, our aim is to provide customers with convenient options as part of our go-to-market strategy.

ADDING 200+ TOWNS TO OUR DISTRIBUTION NETWORK

During the year, we successfully expanded our distribution network

to include over 200 towns in lower population-strata band. This has resulted in an impressive 90% penetration in our addressable towns' universe and takes our reach to over 1,200 towns nationwide. We remain committed to our market penetration strategy, aiming to reach every town with a population of 50,000 or more by the middle of the next financial year. Our goal is to ensure that our products are easily accessible to customers across a wide range of locations and serving the growing demand for our brands.

HIGHEST-EVER ADDITION FOR EBO OUTLETS

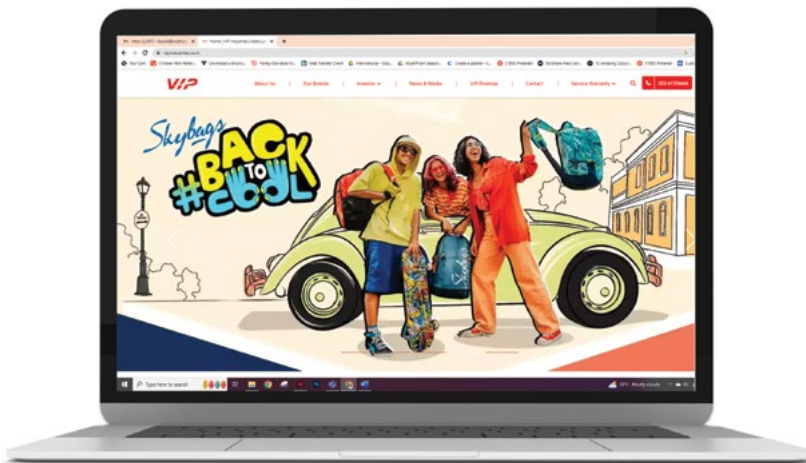

In the past year, we made significant progress by opening over 125 exclusive business outlets (EBOs), reaching a total of 500 stores. This is the highest number of stores we have added in a single year, demonstrating our commitment to expansion. Despite the store closures we faced during the pandemic, we have not only restored our pre-pandemic EBO strength but exceeded it. Looking ahead, our goal is to continue this momentum and add another 100 outlets in the current financial year, primarily through the capital light franchisee model. Our ambitious expansion strategy will enable us to further strengthen our brand accessibility.

TO EXPEDITE OUR E-COMMERCE PROGRESS, WE HAVE INITIATED AN 'ACCELERATOR PROGRAMME' IN COLLABORATION WITH BOSTON CONSULTING GROUP (BCG).

ENHANCING FOCUS ON E-COMMERCE

We are actively transforming our online distribution to offer customers a seamless omnichannel experience and drive the growth of our e-commerce business. Despite our late entry into the e-commerce channel, we are fully committed to quickly closing the gap and seizing the vast opportunities it offers. Our primary focus is to secure a fair market share as well as favourable margins in the e-commerce realm.

To expedite our e-commerce progress, we have initiated an 'Accelerator Programme' in

collaboration with Boston Consulting Group (BCG), a global authority in e-commerce expertise. This strategic partnership aims to equip us with the necessary capabilities and knowledge to become industry leaders in the e-commerce space. Our objective is to develop fundamental competencies that will position us as best-in-class e-commerce operators. The engagement with BCG will span a significant portion of the current financial year, providing ample time for us to build the required capabilities and execute our comprehensive e-commerce strategy.

Our e-commerce strategy revolves around achieving scale and embarking on a premiumisation journey through marketplace operations. We are intensifying our marketing efforts within the e-commerce domain, specifically by increasing our investment in performance marketing within prominent portals. Through thematic advertising and digital mediums, we actively promote our brands to captivate the attention of online shoppers. This includes allocating a larger proportion of our marketing budget to e-commerce initiatives. Additionally, we continually evaluate our portfolio and pricing strategies to align them with the dynamic e-commerce landscape.

Our approach centres around building upon our existing initiatives, prioritising continuity and intensification of our e-commerce efforts. By staying dedicated to our objectives, we are confident in meeting evolving customer needs and transforming our e-commerce business into a thriving and influential force.

EMBRACING SUSTAINABILITY IS CRUCIAL IN TODAY'S WORLD, AND WE ARE TAKING VISIONARY STEPS TO MAKE A POSITIVE IMPACT.

We are steadily heading towards sustainability in our products and contributing to the welfare of the environment in line with the changing consumer preferences. As more people become aware of environmental issues and seek eco-friendly alternatives, companies that prioritise sustainability gain a competitive advantage and appeal to a broader customer base. In the context of our products, there are several ways in which we contribute to sustainability such as :

MATERIAL SELECTION

We focus on using sustainable and eco-friendly materials for our

products. This includes recycled materials RPET, organic fabrics, or innovative materials that have a lower impact on the environment.

MANUFACTURING PROCESSES

Implementing sustainable manufacturing processes can significantly reduce the environmental footprint. This may involve minimising waste and optimising energy usage during production.

PACKAGING

We explore sustainable packaging options, such as using recycled or

biodegradable materials for the product packaging.

By incorporating these strategies and constantly seeking innovative solutions, VIP Industries can align with its vision of sustainability and contribute to the well-being of the environment.

We are working on the designing of 3 soft luggage and 2 hard luggage, using RPET as recycled material.

These projects not only add new products to our portfolio, but also enhance consumer recall and our reputation.

BRAND ACTIVATION

We employed a diverse range of marketing strategies and initiatives to connect with our target audience on a deeper level. Our approach encompassed celebrity endorsements, impactful marketing campaigns, active participation in renowned events, immersive experiential marketing, influencer partnerships, engaging digital experiences, and exciting contests and promotions. Through these efforts, our aim was to foster a stronger bond between our brand and valued customers.

STAR-STUDED FIFA COLLECTION LAUNCH

Skybags created a buzz with its electrifying FIFA Luggage Campaign featuring popular Bollywood star Kartik Aaryan as the brand ambassador. The captivating digital campaigns also included the participation of various other celebrities and influencers. BRAND CAPRESE

Always on the move to establish future growth drivers

We transform today keeping tomorrow in vision. Aligned with this approach, we remained focussed on establishing a strong foundation for the future growth of Caprese.

Our Caprese brand, catering to the ladies' handbag category, is a rising star in our portfolio. We are committed to its growth, expanding touchpoints and positioning it in the mid-premium to premium segment. To achieve this, we unveiled captivating products, collaborated with renowned designer Manish Malhotra to amplify product imagery and executed high-impact campaigns with fashion elites, igniting customer recall and social media engagement.

In terms of channels, we are focussing on direct-to-customer strategies, starting with the launch of our own e-commerce website. Additionally, we are piloting exclusive experience stores to offer a premium Caprese experience. As we witness the positive response during the pilot phase, we eagerly anticipate scaling up this innovative concept, enabling more customers to indulge in the premium world of Caprese.

PEOPLE

Always on the move to build stronger teams

We recognise the significance of enhancing the employee experience for building a more energised and motivated team. In line with this objective, substantial progress has been made in automating various human resource (HR) processes. By leveraging cutting-edge technologies and advanced software solutions, the implementation of HR process automation has proven to be a significant step towards improving the employee experience.

With a strong emphasis on efficiency and streamlined operations, HR-related activities such as employee onboarding, attendance tracking, leave management, and performance evaluations have been successfully automated. This automation has significantly reduced manual efforts and minimised the occurrence of human errors, leading to a smoother and more reliable HR workflow.

Furthermore, the adoption of self-service portals and integrated HR systems has empowered employees to independently access and manage their personal information, benefits, and other activities. This shift towards self-sufficiency and empowerment has created a culture where employees feel in control of their HR-related tasks, fostering a sense of ownership and satisfaction.

We firmly believe that automation is not just a means to enhance efficiency, but also a crucial step towards prioritising employee experience. By utilising automation technologies effectively, we are committed to creating an environment where employees can thrive, grow, and contribute to their fullest potential.

ANNEXURE TO THE NOTICE

EXPLANATORY STATEMENT IN RESPECT OF THE SPECIAL BUSINESS PURSUANT TO SECTION 102(1) OF THE COMPANIES ACT, 2013

As required by Section 102(1) of the Companies Act, 2013 (the Act), the following Explanatory Statement sets out the material facts relating to the Special Business mentioned under item Nos. 4 to 8 in the accompanying Notice:

ITEM NO. 4 and 5

The Board of Directors of the Company ("Board"), on recommendation of the Nomination and Remuneration Committee, had appointed Ms. Neetu Kashiramka as an Additional Director with effect from May 8, 2023 and Executive Director for a term of 5 (five) years with effect from May 8, 2023 to May 7, 2028, on such terms & conditions and remuneration, subject to requisite approval of the members. Ms. Neetu Kashiramka is a qualified Chartered Accountant having over 26 years of post-qualification experience. Ms. Neetu Kashiramka was appointed as Chief Financial Officer of the Company w.e.f April 7, 2020. Ms. Neetu Kashiramka brings in more than two decades of experience in the Corporate Finance function across several organizations. Before joining the Company, she was working as CFO with Greaves Cotton Limited, a listed Company in the Engineering sector.

The Company has received a notice in writing from a member under Section 160 of the Act proposing the candidature of Ms. Neetu Kashiramka for the office of Director of the Company. In accordance with Section 161 of the Companies Act, 2013 ("Act"), Ms. Neetu Kashiramka holds office up to the date of the passing of this resolution. Ms. Neetu Kashiramka fulfils the conditions specified in the Act and the rules made thereunder and Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended from time to time ("Listing Regulations").

Details of Ms. Neetu Kashiramka are provided in the "Annexure 1" to the Notice pursuant to the provisions of the Listing Regulations and Secretarial Standard on General Meetings ("SS-2") issued by the Institute of Company Secretaries of India. The agreement dated May 8, 2023 entered into between the Company and Ms. Neetu Kashiramka as the Executive Director of the Company is open for inspection by the members up to the date of passing of this resolution at the registered office of the Company.

Ms. Neetu Kashiramka was granted 1,50,000 ESARs on August 7, 2020 under VIP Employees Stock Appreciation Rights Plan, 2018 of the Company.

The Executive Director & Chief Financial Officer shall also be entitled for grant of ESARs as may be decided by the Board of Directors or a Committee thereof from time to time, based on achievement of such performance

parameters as may be determined by Board of Directors or a Committee thereof.

Exercise of such ESARs, however is likely to create a perquisite in the hands of Ms. Neetu Kashiramka to the extent of difference between the Market Price on the date of exercise and Exercise Price of the ESARs so vested/to be vested. The Company as per Income Tax law is required to deduct tax on such perquisite value, treating it as a part of salary. Same rate of taxation shall apply as is applicable to salary. The overall limit of the managerial remuneration shall include the value of such perquisite.

The appointment of Ms. Neetu Kashiramka as Executive Director & Chief Financial Officer of the Company requires approval of the members by way of passing of Ordinary Resolution(s) pursuant to the provisions of Sections 152, 196, 197, 203 and any other applicable provisions of the Companies Act, 2013 and the rules made there under (including any statutory modification(s) or re-enactment thereof for the time being in force), read with Schedule V to the Companies Act, 2013. Save and except, Ms. Neetu Kashiramka and her relatives, to the extent of their shareholding interest, if any, in the Company, none of the Directors, Key Managerial Personnel of the Company and their relatives, are in any way concerned or interested (financially or otherwise), in the resolutions set out at Item No. 4 and 5 of the Notice.

The Board recommends passing of an Ordinary Resolution set out in Item no. 4 and 5 of the Notice for approval by the Members.

ITEM NO 6

Equity based compensation is considered to be an integral part of employee compensation across sectors which enables alignment of personal goals of the employees with organizational objectives by participating in the ownership of the Company through stock based compensation scheme. Your Company believes that equity based compensation plans are an effective tool to reward the talents working with your Company and its subsidiaries. With a view to motivate the key work force seeking their contribution to the corporate growth, to create an employee ownership culture, to attract new talents, and to retain them for ensuring sustained growth, your Company has implemented an employee stock appreciation rights ("ESARs") plan namely 'VIP Employees Stock Appreciation Rights Plan 2018' ("ESARP 2018"/" Plan") which covers eligible employees of the Company and of its subsidiaries.

The Company has been granting ESARs to the eligible employees of the Company and of its subsidiaries under ESARP 2018/Plan, which was approved, vide special resolution dated July 17, 2018, passed at 51st Annual General Meeting of the Company.

In August 2021, the SEBI has introduced the SEBI (Share Based Employee Benefits and Sweat Equity) Regulations,

2021, ("New Regulations") which became effective from August 13, 2021 by repealing and merging the SEBI (Share Based Employee Benefits) Regulations, 2014 and the SEBI (Issue of Sweat Equity) Regulations, 2002. To align the ESARP, 2018 in line with the New Regulations, the Nomination and Remuneration Committee at its meeting held on October 29, 2021 had reviewed and approved the changes required to be made to ESARP 2018.

Under the ESARP 2018 the Company can allot 7,06,587 (Seven Lacs Six Thousand Five Hundred and Eighty Seven) equity shares of face value of ₹ 2/- (Rupees Two) each fully paid-up upon exercise of ESARs by eligible employees.

Considering the increase in prices of the equity shares of the Company, which results into allotment of more shares upon exercising of ESARs, the present limit of 7,06,587 (Seven Lacs Six Thousand Five Hundred and Eighty Seven) equity shares of face value of ₹ 2/- (Rupees Two) each fully paid-up would not sufficient for allotment against exercise of ESARs in future. Further, to motivate the Key work force and to retain them, it is proposed to grant additional Employees Stock Appreciation Rights (ESARs) from time to time in one or more tranches. In view of the same, it is proposed to enhance the limits of equity shares from 7,06,587 (Seven Lacs Six Thousand Five Hundred and Eighty Seven) equity shares of face value of ₹ 2/- (Rupees Two) each fully paid-up to 17,06,587 (Seventeen Lacs Six Thousand Five Hundred Eighty Seven) equity shares of face value of ₹ 2/- (Rupees Two) each fully paid-up.

All other terms and conditions of ESARP 2018, shall remain unchanged.

Save and except, Mr. Anindya Dutta, Managing Director, Ms. Neetu Kashiramka, Executive Director & CFO and their relatives, to the extent of their shareholding interest, if any, in the Company and to the extent of their entitlement, if any under the plan, none of the Directors, Key Managerial Personnel of the Company and their relatives, are in any way concerned or interested (financially or otherwise), in the resolutions set out at Item No. 6.

In light of above, you are requested to accord your approval to the Special Resolution as set out at Agenda Item No. 6 of the accompanying notice.

ITEM NO 7

The Non-Executive Directors of your Company bring with them significant professional expertise and rich experience across a wide spectrum of functional areas such as marketing, technology, corporate strategy, information systems and finance. The Board is of the view that it is necessary to pay commission to the Non-Executive Directors commensurate with their roles and responsibilities and the Board should have flexibility in determining the amount payable to Non-Executive Director(s) within the overall permissible limits as per the Act. The Nomination and Remuneration Committee will recommend the maximum commission payable to each

of the Non-Executive Directors while the Board of Directors will decide the maximum commission payable to each of the Independent Directors. The total commission to the all the Non-Executive Director(s) shall not exceed 5 (five) percent of the net profits of the Company in any fiscal year (computed in the manner provided in Section 197 and 198 of the Companies Act, 2013) plus GST at the applicable rate.

The Board recommends the Special Resolution, as set out at Item No. 7 of the Notice, for approval by the Members of the Company.

Except for Non-Executive Director to the extent of the Commission payable to them, none of the Directors, Key Managerial Personnel of the Company and their relatives, are in any way concerned or interested (financially or otherwise), in the proposed Special Resolution set out at Item No. 7 of the Notice.

ITEM NO. 8

Pursuant to Sections 197, 198 read with Schedule V and other applicable provisions, if any, of the Act, as amended from time to time and Rules made thereunder (including any statutory modification(s) or re-enactment(s) thereof for the time being in force), the Members of the Company through Postal Ballot on March 25, 2019 had approved the payment of Commission upto 3 (three) percent of the net profits of the Company to the Non-Executive Directors of the Company in addition to the sitting fees for attending the meetings of the Board of Directors/Committee(s) and re-imbusement of expenses in relation thereto.

Keeping in view the valuable contribution, responsibilities and the time devoted by the Non-Executive Directors, the Board of Directors at their meetings held on May 8, 2023, has recommended and approved the payment of Commission of ₹ 6,81,96,089/- (Rupees Six Crores Eighty One Lakhs Ninety Six Thousand Eighty Nine only) to Mr. Dilip G. Piramal, Chairman (Non-Executive, Non-Independent), which is little lesser than to 3 (three) percent of the net profits of the Company for the financial year 2022-23, computed in accordance with the provisions of Section 198 of the Act.

Mr. Dilip G. Piramal is a promoter of the Company having extensive experience of more than five decades in the luggage industry and has been instrumental in helping and guiding the Company towards both short term growth as well as long term sustainability. As the Chairman of the Board, Mr. Piramal provides vision, thought and leadership which has helped the Company achieve high standards of corporate governance, innovation, brand visibility and overall growth.

His role in building a talent pool by leveraging his wide network of relationships has always been beneficial to the Company. Mr. Piramal provides guidance to the Company's senior management on a vast set of matters. The Board deems it appropriate to recognize his contribution and

deems it fair to remunerate him with the above said amount of commission.

Regulation 17(6) (ca) of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended, necessitates Members' approval by way of Special Resolution for paying remuneration to one Non-Executive Director in excess of 50% (Fifty percent) of the total remuneration payable to all Non-Executive Directors. The above commission as proposed to be paid to Mr. Dilip G. Piramal, exceeds 50% (Fifty percent) of the total annual remuneration payable to all Non-Executive Directors.

Thus, consent of the Members of the Company is being sought by way of Special Resolution.

The Board recommends the Special Resolution, as set out at Item No. 8 of the Notice, for approval by the Members of the Company.

None of the Directors and Key Managerial Personnel of the Company and their relatives, except Mr. Dilip G. Piramal and Ms. Radhika D. Piramal and their relatives are in any way concerned or interested (financially or otherwise) in the proposed Special Resolution set out in Item no. 8 of the Notice.

Management Discussion & Analysis Report

GLOBAL ECONOMY OVERVIEW

The global economy is demonstrating signs of resilience in 2023 after the high market volatility in 2022 owing to geopolitical instability, the Russia- Ukraine war, supply chain disruptions, higher inflation, and tighter monetary conditions, among others. The prolonged war between Russia and Ukraine continues to weigh on global economic activity in 2023. Further, the banking crisis in March 2023 and a debt-ceiling crisis in the United States have raised concerns over macroeconomic stability across the markets and an impending recession. Notwithstanding the headwinds, the real Gross Domestic Product (GDP) grew in the United States, the European Union and emerging and developing economies. The real GDP of the United States grew at 2.1% in 2022 on the back of increased private investment and consumer spending. It is projected to grow at 1.6% in 2023 and 1.1% in 2024. The European economy recorded 2.7% growth in 2022 and is projected to grow at 0.8% in 2023 before rising to 1.4% in 2024. The Emerging Market and Developing Economies (EMDE) also grew at an estimated annual rate of 4% in 2022.

Despite the economic uncertainties, the outlook for the global economy is slightly less gloomy than earlier anticipated. Key factors in the improvement in economic activity and sentiment in 2023 are the rebounding of China's economy, the gradual unwinding of supply chains and the recent decline in energy and food prices. Moreover, global inflation is projected to decrease from 8.7% in 2022 to 7% in 2023 and 4.9% in 2024.

The International Monetary Fund (IMF) has projected global GDP growth to decline from 3.4% in 2022 to 2.8% in 2023 and pick up modestly to 3% in 2024 as inflationary pressures will start to abate. The growth of Advanced Economies (AEs) is projected to decline sharply from 2.7% in 2022 to 1.3% in 2023 before rising to 1.4% in 2024. EMDEs are expected to grow at 3.9% in 2023 and 4.2% in 2024. Asia- Pacific will be the most dynamic of the world's major regions in 2023, predominantly driven by the buoyant outlook for China and India, which will be the major contributors to global economic growth in 2023.

INDIAN ECONOMY OVERVIEW

India continues to be among the fastest-growing economies in the world. Despite a challenging external environment, the Indian economy registered healthy growth in FY 2022-23. The real GDP grew by 7.2% in FY 2022-23 as against 9.1% in FY 2021-22 and reflects India's underlying economic resilience, relatively robust domestic consumption and lesser dependence on global demand. The accelerated pace of economic reforms has led to the sustainable growth of

the Indian economy and strengthened its position in the world. However, higher inflation remains a challenge and headline inflation increased to 6.7% in FY 2022-23 from 5.5% in FY 2021-22. Following the gradual normalisation of global supply chains, softening of global commodity prices, and successive hikes in the policy repo rate by 250 basis points in FY 2022-23 by the Reserve Bank of India (RBI), the consumer price index (CPI) inflation subsided to 4.25% (provisional) in May 2023 against 4.70% recorded in April 2023.

Further, 5.1% growth in the Index of Industrial Production (IIP) in FY 2022- 2023 and 12% Y-o-Y growth in the gross Goods and Services Tax (GST) revenue collection of ₹ 1.57 trillion in May 2023, present signs of optimism for the Indian economy. Despite the weak external demand, the merchandise exports contributed significantly to economic growth in FY 2022-23. It was the highest-ever at US\$ 447.46 billion with 6.03% growth during FY 2022-23 surpassing the previous year's record exports of US\$ 422.00 billion. As per the Union Budget 2023-24, India's export is expected to grow at 12.5% in FY 2023-24, which will further boost the economy.

The IMF projects the Indian economy to advance steadily at 5.9% in FY 2023-24 before rising to 6.3% in FY 2024-25. The optimistic growth stems from positive factors such as the rebound of private consumption, rapid infrastructure development, improvement in capacity utilisation, increased production, and revival in credit growth. Further, emphasis on capital expenditure with an allocation of ₹ 10 lakh crore in the Union Budget 2023-24 will significantly boost industrial competitiveness, strengthen job creation and demand and provide a fillip to the growth momentum. Moreover, the growth-enhancing policies such as production-linked incentives (PLI) scheme and the government's push for self-reliance will boost productivity and have a multiplier effect on the Indian economy. The Indian economy is relatively well positioned to navigate global headwinds in FY 2023-24 primarily due to its resilience, reinvigoration of economic activities, massive demographic strengths, and reliance on domestic drivers.

INDUSTRY OVERVIEW

Luggage Industry in India

The luggage industry in India recorded stellar performance in 2022-23. The luggage and backpack market in India is estimated to be ₹ 10,000 crore with branded players contributing to ~56% of the market. The growth of the industry is driven by increasing sales due to a surge in travel and weddings, rising per capita income, growing urbanisation, rising demand from Tier II and III cities, and

AIR PASSENGER TRAFFIC

continuous innovation and introduction of new products in the market. The industry is experiencing a shift from unorganised to organised sector owing to factors like increasing disposable income, the rapid proliferation of e-commerce/online portals, and customer shift to branded and premium products. Further, changing lifestyles like solo travel, multiple trips in a year, weekend getaways, and international travel have induced shorter replacement cycles in the industry.

The demand for travel and business bags is expected to expand due to an increase in leisure tourism and business travel. As per the Directorate General of Civil Aviation (DGCA), India's domestic air passenger traffic recorded in March 2023 was 13 million, marking an 11% increase compared to the corresponding months in 2018 and 2019. India's major airports are projected to handle 420 million passengers by 2025 from 192 million currently, and the fleet of Indian carriers is expected to grow from 700 to 2,000 aircraft within five years.

The aviation industry's strong demand in FY 2022-23 was supported by widening middle-class demography, millennial and Gen Z population, increasing disposable income, improving consumer sentiment, low-cost airfares and diverse travel packages. Further, the tourism sector is showing signs of revival in FY 2022-23 with the resumption of scheduled international flights and the easing of COVID-19 regulations. With business travel across domestic and international markets showing a rebound post-pandemic, 67% of Indian businesses expect a rise in business travel in 2023 and 77% of businesses are expecting to increase their travel budget in 2023 as compared to 2022. Further,

railway passenger traffic growth momentum is expected to continue led by improved rail travel services. Indian Railway has registered a record earning of ₹ 54,733 crore in the passenger segment during April - January FY 2022-23, an increase of 73% compared to ₹ 31,634 crore in the last fiscal.

To provide a better perspective, while the overall industry is growing at an average rate of 8-10%, the organised segment, synonymous with branded offerings, is outpacing this growth with an impressive rate of 15%. The competition within the organised market has increased significantly with the growing popularity of international brands. The key players are focusing on targeting the millennial and Gen Z population through innovative, high utility fashionable luggage. Factors such as new product variations, online distribution, and a shift from mass to premium price positioning will propel the growth of the luggage industry in India in the coming years.

COMPANY OVERVIEW

VIP Industries Limited (hereinafter referred to as "VIP" or "the Company") is one of Asia's leading luggage manufacturers and suppliers and the second largest in the world. It is an established leader in the organised and oligopolistic Indian luggage market. Operational Review FY 2022-23

- Addition of 125 plus Exclusive Business Outlets (EBOs), the highest-ever addition in any single year, reaching a total of 500 EBO Stores.
- 42 New product launches under various categories.
- Increased contribution of in-house manufacturing to 70% of the total revenue, as against 42% in FY 2019-20.
- Addition of over 200 towns to the distribution network, taking retail penetration to 90% of the relevant towns' universe, resulting in a wide reach to over 1,200 towns nationwide.

OUTLOOK

The outlook for the luggage industry is positive in FY 2023-24. The Company envisages robust growth in the coming years with its well-diversified product portfolio, unparalleled reach, and financial strength on the back of increasing demand, especially for high-growth product segments. It focuses on further enhancing its product, cost saving initiatives, strengthening distribution and own manufacturing capacities.

Despite the global supply chain constraints, exports contributed 5% share to overall sales in FY 2022-23. VIP remains committed to further growing its manufacturing capacity and maintaining overall in-house manufacturing through its Indian and Bangladesh units by FY 2023-24. It will provide the Company with a sustainable competitive advantage and support its overall margin profile in the oligopolistic Indian luggage market. VIP is also planning to expand its retail store network to 650 by the end of FY 2023-24. Capacity expansion and strengthening of the EBO network provide ample growth visibility and sustenance of demand over the medium term. The Company is focused on growing production to meet the market requirements and achieve a higher market share in these brands.

RISK MANAGEMENT

The Company has a structured risk management framework for the timely and effective identification, assessment, and mitigation of key business and operational risks. The Company prioritises the key risks based on severity and probability. It formulates robust mitigation strategies through appropriate checks and balances to monitor and mitigate identified risks to minimise their impact on the Company's operational and financial performance. Key risks include demand risk, operational risk, personnel risk, and technology risk, among others. The Company is also exposed to various external risks and uncertainties such as economic slowdown, declining demand in key markets, unavailability and high cost of raw materials, and increasing sourcing costs due to the disruption in global supply chains.

HUMAN RESOURCES

Human Capital is the most important asset and integral for maintaining the high-quality standards and growth of the Company. The Company has a well-designed HR policy that promotes a safe, harmonious, conducive, and transparent work culture and aligns employees' goals with the organization's growth vision. The HR team regularly conducts training and engagement programs for the enhancement of skills, and capabilities of the employees. Inspired by the Company's values of youthfulness, meritocracy, entrepreneurship, and innovation along with core tenets of open communication, transparency, and agility, its talented employees are always on a quest to take the Company to greater heights. As on March 31, 2023, the Company's total employee strength stood at 9000 (including employees of subsidiary companies).

INTERNAL CONTROL SYSTEM

The Company has an efficient internal control system, commensurate with the nature and size of its business. The internal control structure is designed to ensure that operations are efficient and aligned with the strategic objectives of the Company. The budgetary control system of the Company monitors all the expenditures against

approved budgets on an ongoing basis. Mahajan & Aibara, Chartered Accountants, LLP are the Internal Auditors of the Company. The Internal Auditors maintain the internal control systems to safeguard the Company's assets against losses, provide a high degree of assurance regarding the effectiveness and efficiency of operations, and assess the reliability of financial controls and compliance with laws and regulations. They submit their audit findings and reports to the Audit Committee every quarter. The Audit Committee regularly reviews the adequacy of the internal control systems, and internal audit findings and recommend corrective action plans for the improvement of the business process and internal control system. The management considers and takes appropriate action on the recommendations made by the Statutory Auditors, Internal Auditors, and the Audit Committee of the Board.

Actual results might differ substantially or materially from those either expressed or implied in the Statement depending on the factors that could affect the Company's operations such as economic conditions affecting demand and/ or price conditions in the domestic and overseas markets in which the Company operates, changes in government regulations, tax laws and other statutes and incidental factors. The Company assumes no responsibility to publicly amend, modify or revise any forward-looking statements based on any subsequent developments, information, or events.

Message from the Managing Director for BRSR

We are pleased to publish our Business Responsibility and Sustainability Report for the Financial Year 2022-23. V.I.P. Industries Ltd. (VIP) recognizes that its business activities have wide impact on the society in which it operates and therefore, an effective practice is required, giving due consideration to the interests of its stakeholders including shareholders, customers, employees, suppliers, business partners, local communities, and other organizations. As a responsible corporate citizen, we practice our corporate values through our commitment to grow in a socially and environmentally responsible way, while meeting the interests of our stakeholders. VIP is also committed towards aligning with nature; and has adopted various eco-friendly practices.

VIP was established in 1968 and is presently amongst the world's leading manufacturers and retailers of luggage, backpacks, and handbags. The Company has five leading brands which are positioned across the entire price range, catering to value mid and premium price points. In addition to being an established leader in the organized luggage market in India, we have a growing global footprint with our products supplied in over 45 countries.

Our operations are underpinned by our market-leading brand portfolio, in-house manufacturing capabilities and wide distribution network. Since our inception, we have stayed focused on continuous product innovations and adherence to quality and international aesthetics, enabling us to revolutionize the luggage and travel categories.

Our Sustainability Framework has following 3 pillars:

OUR PLANET

- Conservation of Natural resources
- Energy efficiency and renewable energy
- GHG emission reduction
- Waste minimization, reuse, recycling and responsible disposal

RESPECTFUL WORKPLACES, DIVERSITY & INCLUSION

- Talent Management and Benefits
- Safe and respectful workplaces
- Diversity, Equity, and Inclusion

COMMUNITY

- Funding programs on education & healthcare through various NGO's
- Employment opportunities to the under-privileged

Health & safety is a regular practice at our facilities. This includes measures such as installation of fire protection equipment, conducting fire safety training and ensuring factory hygiene.

We are a socially responsible business committed to women empowerment. Our Bangladesh facility has 70% women employed in our operations.

We continued to promote inclusion and diversity at the workplace. VIP was recognized as a 'Bronze' employer in the IWEI's (India Workplace Equality Index) Top Employers for 2020 which recognizes employers who are leading the way in India to advance LGBT+ inclusion. We have provided several training programs to our management and sales staff as well as induction training to new employees throughout the year. The Company has digitized key people processes like leave, attendance, on-boarding, business reimbursement, travel, and travel reimbursement. To energize the employees, many digital initiatives were organized, including virtual and gamified health challenges, health and wellness sessions, online communication sessions with HR and the leadership team, and online fun-at-work engagements. All these initiatives have helped to promote a positive work environment and drive higher performance.

As we continue to reach new heights, we are continuously contributing to the UN Sustainable Development Goals by prioritizing our three pillar Sustainability Framework.

Please indicate material responsible business conduct and sustainability issues pertaining to environmental and social matters that present a risk or an opportunity to your business, rationale for identifying the same, approach to adapt or mitigate the risk along-with its financial implications, as per the following format

S. No.	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying The risk / opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
1	Circular Economy	O	With shrinking natural resources and increased costs of material, transitioning to circular models has become very important.	We are committed to efficient resource consumption and optimised packaging with zero compromise on product quality and safety. Most of our products are recyclable in nature. Combating challenges such as cost, market performance, consumer protection, as well as water and waste management, we ensure our packaging is fit-for-purpose and made from low- impact material or material which is reusable or recyclable at the end of its life.	NA
2	Product Stewardship	R	Poor quality or contamination could result in safety issues, reputational damage, financial losses, and product recalls. Consumers are also increasingly curious about the impacts of various lifecycle stages of the products they consume, including packing material used and waste generated.	We have established a company-wide quality assurance programme, along with product testing and traceability programmes. We engage with suppliers to establish and maintain clear and stringent norms for raw material safety and quality.	NA

SECTION B: MANAGEMENT AND PROCESS DISCLOSURES

This section is aimed at helping businesses demonstrate the structures, policies and processes put in place towards adopting the NGRBC Principles and Core Elements.

We have implemented following policies towards adopting National Guidelines on Responsible Business Conduct (NGRBC):

PRINCIPLE 2 Businesses should provide goods and services in a manner that is sustainable and safe

We endeavor to protect the environment, meet with the interests of our stakeholders, and ensure cost effectiveness while procuring any raw material or goods. Polymers and aluminum are the main raw materials that we procure mainly from manufacturers/ producers who are well reputed keeping in mind the need for quality and consistency. In recent years, we have further strengthened our manufacturing capabilities and reduced our sourcing from China.

To further reduce our carbon footprint, we have undertaken research and development activity to use recycled material in hard luggage manufacturing activity. Adequate steps are taken for safety during transportation and optimization of logistics which in turn help to mitigate the impact on climate.

Independent Auditor's Report

To the Members of V.I.P. Industries Limited

Report on the Audit of the Standalone Financial Statements

OPINION

1. We have audited the accompanying standalone financial statements of V.I.P. Industries Limited ("the Company"), which comprise the Standalone Balance Sheet as at March 31, 2023, the Standalone Statement of profit and loss (including Other Comprehensive Income), the Standalone Statement of changes in equity and the Standalone cash flow statement for the year then ended, and notes to the standalone financial statements, including a summary of significant accounting policies and other explanatory information.
2. In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2023, total comprehensive income (comprising of profit and other comprehensive income), changes in equity and its cash flows for the year then ended.

BASIS FOR OPINION

3. We conducted our audit in accordance with the Standards on Auditing (SAs) specified under Section 143(10) of the Act. Our responsibilities under those Standards are further described in the "Auditor's Responsibilities for the Audit of the standalone Financial Statements" section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

KEY AUDIT MATTERS

4. Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the standalone financial statements as a whole and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

<ul style="list-style-type: none"> provision for sales returns, where the customer has right to return the goods to the Company; and Discounts offered by the distributors to the costumers in accordance with schemes offered by the Company. <p>The matter has been determined to be a key audit matter in view of the involvement of significant estimates and judgements made by the management.</p>	<p>Based on the above procedures performed, the assessment made by management in respect estimation of rebates, discounts and sales returns was considered to be appropriate.</p>
<p>2. Assessment of litigations in respect of sales tax matters</p> <p>(Refer notes 20 and 39 to the Standalone financial statements)</p> <p>The Company has litigations in respect of certain sales tax matters. In this regard, the Company has recognised a provision and has disclosed the balance under contingent liabilities as at March 31, 2023.</p> <p>Significant management judgment is required to assess these matters and to determine the probability of material outflow of economic resources and whether a provision should be recognised, or a disclosure should be made. Where considered relevant, the management judgement is also supported with legal advice in these cases.</p> <p>We identified this matter as a key audit matter as the ultimate outcome of matters are uncertain and the positions taken by the management are based on the application of judgement, related legal advice including those relating to interpretation of laws and regulations.</p>	<p>Our procedures included the following:</p> <ul style="list-style-type: none"> We evaluated and tested the design and operating effectiveness of key controls surrounding assessment of litigations; We enquired with management the recent updates and the status of litigation matters; We performed our assessment on the underlying calculations supporting the provisions recorded and other disclosures made in the standalone financial statements; We used auditor's experts to evaluate the management's assessment of these matters and assessed changes in the disputes by reading external legal advice taken by the Company, where relevant, to establish the appropriateness of the provisions/disclosures; and, We assessed the adequacy of the Company's disclosures for litigations in respect of the sales tax matters. <p>Based on the above procedures, the assessment made by management in respect of provisions recognized and disclosures made in 'contingent liabilities' relating to these sales tax matters in the standalone financial statements was considered to be appropriate.</p>

OTHER INFORMATION

5. The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Annual report, but does not include the standalone financial statements and our auditor's report thereon.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have

performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

RESPONSIBILITIES OF MANAGEMENT AND THOSE CHARGED WITH GOVERNANCE FOR THE STANDALONE FINANCIAL STATEMENTS

6. The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act. This responsibility also includes maintenance of adequate accounting

records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

7. In preparing the standalone financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so. Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE STANDALONE FINANCIAL STATEMENTS

8. Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.
9. As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:
 - Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
 - Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
10. We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.
11. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.
12. From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would

reasonably be expected to outweigh the public interest benefits of such communication.

REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

13. As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of Section 143 of the Act, we give in the Annexure B a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
14. As required by Section 143(3) of the Act, we report that:
- (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - (c) The Standalone Balance Sheet, the Standalone Statement of Profit and Loss (including other comprehensive income), the Standalone Statement of Changes in Equity and the Standalone Cash Flow Statement dealt with by this Report are in agreement with the books of account.
 - (d) In our opinion, the aforesaid standalone financial statements comply with the Accounting Standards specified under Section 133 of the Act.
 - (e) On the basis of the written representations received from the directors as on March 31, 2023, taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2023, from being appointed as a director in terms of Section 164(2) of the Act.
 - (f) With respect to the adequacy of the internal financial controls with reference to financial statements of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure A".
 - (g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014 (as amended), in our opinion and to the best of our information and according to the explanations given to us:
 - i. The Company has disclosed the impact of pending litigations on its financial position in its standalone financial statements – Refer Note 39 to the standalone financial statements;
 - ii. The Company was not required to recognise a provision as at March 31, 2023 under the applicable law or accounting standards, as it does not have any material foreseeable losses on long-term contract. The Company did not have any derivative contracts as at March 31, 2023.
 - iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company during the year.
 - iv. (a) The management has represented that, to the best of its knowledge and belief, as disclosed in the notes to the accounts, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person(s) or entity(ies), including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries (Refer Note 49 to the standalone financial statements);
 - (b) The management has represented that, to the best of its knowledge and belief, as disclosed in the notes to the accounts, no funds have been received by the Company from any person(s) or entity(ies), including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries (Refer Note 49 to the standalone financial statements); and

- (c) Based on such audit procedures that we considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (a) and (b) contain any material misstatement.
- v. The dividend declared and paid during the year by the Company is in compliance with Section 123 of the Act.
- vi. As proviso to Rule 3(1) of the Companies (Accounts) Rules, 2014 (as amended), which provides for the feature of recording of audit trail (edit log) facility in the accounting software used by the Company for maintenance of books of account and related matters, is applicable for the Company only with effect from financial year beginning April 1, 2023, the reporting under clause (g) of Rule 11 is currently not applicable.
15. The Company has provided for managerial remuneration in accordance with the requisite approvals mandated by the provisions of Section 197 read with Schedule V to the Act.

Annexure A to Independent Auditor's Report

Referred to in paragraph 14(f) of the Independent Auditor's Report of even date to the members of V.I.P Industries Limited on the standalone financial statements for the year ended March 31, 2023

REPORT ON THE INTERNAL FINANCIAL CONTROLS WITH REFERENCE TO FINANCIAL STATEMENTS UNDER CLAUSE (I) OF SUB-SECTION 3 OF SECTION 143 OF THE ACT

1. We have audited the internal financial controls with reference to the standalone financial statements of V.I.P Industries Limited ("the Company") as of March 31, 2023 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

MANAGEMENT'S RESPONSIBILITY FOR INTERNAL FINANCIAL CONTROLS

2. The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting ("the Guidance Note") issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

AUDITOR'S RESPONSIBILITY

3. Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing deemed to be prescribed under Section 143(10) of the Act to the extent applicable to an audit of internal financial controls, both applicable to an audit of internal financial controls and both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements was established and maintained and if such controls operated effectively in all material respects.
4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system with reference to financial

statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

5. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system with reference to financial statements.

MEANING OF INTERNAL FINANCIAL CONTROLS WITH REFERENCE TO FINANCIAL STATEMENTS

6. A company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

INHERENT LIMITATIONS OF INTERNAL FINANCIAL CONTROLS WITH REFERENCE TO FINANCIAL STATEMENTS

7. Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject

to the risk that the internal financial controls with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

OPINION

8. In our opinion, the Company has, in all material respects, an adequate internal financial controls system with reference to financial statements and such internal financial controls with reference to financial statements were operating effectively as

at March 31, 2023, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note issued by ICAI.

* Amount is below the rounding off norm adopted by the Company

- (d) The Company has not revalued its Property, Plant and Equipment (including Right of Use assets) or intangible assets or both during the year (refer Note 49 to the standalone financial statements). Consequently, the question of our commenting on whether the revaluation is based on the valuation by a Registered Valuer, or specifying the amount of change, if the change is 10% or more in the aggregate of the net carrying value of each class of Property, Plant and Equipment (including Right of Use assets) or intangible assets does not arise.
- (e) Based on the information and explanations furnished to us, no proceedings have been initiated on the Company for holding benami property under the Prohibition of Benami Property Transactions Act, 1988 (as amended in 2016) (formerly the Benami Transactions (Prohibition) Act, 1988 (45 of 1988)) and Rules made thereunder (refer Note 49 to the standalone financial statements), and therefore the question of our commenting on whether the Company has appropriately disclosed the details in its standalone financial statements does not arise.
- ii. (a) The physical verification of inventory excluding stocks with third parties has been conducted at reasonable intervals by the Management during the year and, in our opinion, the coverage and procedure of such verification by Management is appropriate. In respect of inventory lying with third parties, these have substantially been confirmed by them. The discrepancies noticed on physical verification of inventory as compared to book records were not 10% or more in aggregate for each class of inventory.
- (b) During the year, the Company has been sanctioned working capital limits in excess of ₹ 5 crores, in aggregate from banks on the basis of security of current assets. The Company has filed quarterly returns or statements with such banks, which are in agreement with the books of account other than those as set out below (Also refer Note 49 to the financial statements)

- (b) According to the information and explanations given to us and on the basis of our audit procedures, we report that the Company has not been declared Wilful Defaulter by any bank or financial institution or government or any government authority. (Also refer Note 49 to the standalone financial statements).
- (c) According to the records of the Company examined by us and the information and explanations given to us, the Company has not obtained any term loans.
- (d) According to the information and explanations given to us, and the procedures performed by us, and on an overall examination of the standalone financial statements of the Company, we report that no funds raised on short-term basis have been used for long-term purposes by the Company.
- (e) According to the information and explanations given to us and on an overall examination of the standalone financial statements of the Company, we report that the Company has not taken any funds from any entity or person on account of or to meet the obligations of its subsidiary. The Company does not have any associate or joint venture.
- (f) According to the information and explanations given to us and procedures performed by us, we report that the Company has not raised loans during the year on the pledge of securities held in its subsidiaries, joint ventures or associate companies.
- x. (a) The Company has not raised any money by way of initial public offer or further public offer (including debt instruments) during the year. Accordingly, the reporting under clause 3(x)(a) of the Order is not applicable to the Company.
- (b) The Company has not made any preferential allotment or private placement of shares or fully or partially or optionally convertible debentures during the year. Accordingly, the reporting under clause 3(x)(b) of the Order is not applicable to the Company.
- xi. (a) During the course of our examination of the books and records of the Company, carried out in accordance with the generally accepted auditing practices in India, and according to the information and explanations given to us, we have neither come across any instance of material fraud by the Company or on the Company, noticed or reported during the year, nor have we been informed of any such case by the Management.
- (b) During the course of our examination of the books and records of the Company, carried out in accordance with the generally accepted auditing practices in India, and according to the information and explanations given to us, a report under Section 143(12) of the Act, in Form ADT-4, as prescribed under rule 13 of Companies (Audit and Auditors) Rules, 2014 was not required to be filed with the Central Government. Accordingly, the reporting under clause 3(xi)(b) of the Order is not applicable to the Company.
- (c) During the course of our examination of the books and records of the Company carried out in accordance with the generally accepted auditing practices in India, and according to the information and explanations given to us, the Company has received whistle-blower complaints during the year, which have been considered by us for any bearing on our audit and reporting. As explained by the management, there was a complaint in respect of which investigations are ongoing as on the date of our report and hence, the impact on our audit report in respect of this complaint cannot be determined at this stage.
- xii. As the Company is not a Nidhi Company and the Nidhi Rules, 2014 are not applicable to it, the reporting under clause 3(xii) of the Order is not applicable to the Company.
- xiii. The Company has entered into transactions with related parties in compliance with the provisions of Sections 177 and 188 of the Act. The details of such related party transactions have been disclosed in the standalone financial statements as required under Indian Accounting Standard 24 "Related Party Disclosures" specified under Section 133 of the Act.
- xiv. (a) In our opinion and according to the information and explanation given to us, the Company has an internal audit system commensurate with the size and nature of its business.

- (b) The reports of the Internal Auditor for the period under audit have been considered by us.
- xv. The Company has not entered into any non-cash transactions with its directors or persons connected with him. Accordingly, the reporting on compliance with the provisions of Section 192 of the Act under clause 3(xv) of the Order is not applicable to the Company.

Statement of Changes in Equity

For the year ended March 31, 2023

(i) Re-measurement of defined benefit plans shall be recognised as a part of retained earnings with separate disclosure of such items along with the relevant amounts in the Notes.

(ii) Nature and purpose of each reserve

Capital reserve - This reserve was created in the Financial year 1987-88 and 1990-91. Capital reserves are created out of capital profits and are usually utilised for issue of Bonus Shares or to adjust capital losses.

Capital redemption reserve - Whenever there is a buy-back or redemption of the share capital, the nominal value of the capital is transferred to the capital redemption reserve out of the free reserves available for distribution. This reserve is usually utilised for issue of bonus shares. The said reserve was created in the financial year 1987-88 by erstwhile Blow Plast Limited, which was later-on merged with the Company in the financial year 2006-07.

Securities premium - Securities premium is used to record the premium on issue of shares. This reserve will be utilised in accordance with the provisions of the Companies Act 2013.

General reserve - General Reserve is a free reserve and is available for distribution as dividend, issue of bonus shares, buyback of the Company's securities. It was created by transfer of amounts out of distributable profits, from time to time.

Equity instruments through other comprehensive income - The Company has opted to recognise changes in fair value of certain investments in equity instruments through other comprehensive income, under an irrevocable option. These changes are accumulated within the FVOCI equity investments reserve within equity. The amount under this reserve will be transferred to retained earnings when such instruments are disposed off.

Employee stock appreciation rights reserve - Employee stock appreciation rights reserve is created by accounting of the grant date fair value of the rights granted to employees under Employee Stock Appreciation Rights Plan 2018 (ESAR Plan 2018). The said reserve shall be utilised for issue of equity shares of the Company against the exercise of the employees share stock appreciation rights by the employees under the ESAR Plan 2018.

The above standalone statement of changes in equity should be read in conjunction with the accompanying notes.

Notes Forming Part of the Standalone Financial Statements

as on and For the year ended March 31, 2023

1. GENERAL INFORMATION

V.I.P. Industries Limited (the 'Company') is a public limited Company and is listed on the BSE Limited and the National Stock Exchange of India Limited (NSE). The Company is engaged inter alia, in the business of manufacturing and marketing of luggage, bags and accessories.

These standalone financial statements were approved for issue by the board of directors on May 08, 2023.

2. SIGNIFICANT ACCOUNTING POLICIES

This note provides a list of the significant accounting policies adopted in the preparation of these standalone financial statements. These policies have been consistently applied to all the years presented, unless otherwise stated.

a Basis of preparation

i) Compliance with Ind AS

The standalone financial statements comply in all material aspects with Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 (the Act) [Companies (Indian Accounting Standards) Rules, 2015] and other relevant provisions of the Act.

ii) Historical cost convention

The financial statements have been prepared on the historical cost basis, except for the following:

- a) Certain financial assets and liabilities that are measured at Fair Value.
- b) Defined benefit plans - Plan assets are measured at Fair Value
- c) Employee Stock appreciation rights are measured at Fair Value

iii) Current and Non Current Classification.

All assets and liabilities have been classified as current or non-current as per the Company's operating cycle and other criteria set out in the Schedule III to the Companies Act, 2013. Based on the nature of products and the time between the acquisition of assets for processing and their realisation in cash and cash equivalents, the Company has ascertained its operating cycle as 12 months for the purpose of current – non-current classification of assets and liabilities.

(iv) New and amended standards adopted by the Company

The Ministry of Corporate Affairs had vide notification dated March 23, 2022 notified Companies (Indian Accounting Standards) Amendment Rules, 2022 which amended certain accounting standards, and are effective April 1, 2022. These amendments did not have any impact on the amounts recognised in prior periods and are not expected to significantly affect the current or future periods.

(v) New and amended standards issued but not effective

The Ministry of Corporate Affairs has vide notification dated March 31, 2023 notified Companies (Indian Accounting Standards) Amendment Rules, 2023 (the 'Rules') which amends certain accounting standards, and are effective April 1, 2023. The Rules predominantly amend Ind AS 12, Income taxes, and Ind AS 1, Presentation of financial statements. The other amendments to Ind AS notified by these rules are primarily in the nature of clarifications. These amendments are not expected to have a material impact on the company in the current or future reporting periods and on foreseeable future transactions. Specifically, no changes would be necessary as a consequence of amendments made to Ind AS 12 as the company's accounting policy already complies with the now mandatory treatment.

b Foreign currency translation

i) Functional and presentation currency

Items included in the financial statements of the Company are measured using the currency of the primary economic environment in which the Company operates ('the functional currency'). The financial statements are presented in Indian rupee (INR), which is the Company's functional and presentation currency.

ii) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates are generally recognised in the statement of Profit and loss. All the foreign exchange gains and

Notes Forming Part of the Standalone Financial Statements

as on and For the year ended March 31, 2023

losses are presented in the statement of Profit and Loss on a net basis within other expenses.

Non-monetary items that are measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. Translation differences on assets and liabilities carried at fair value are reported as part of the fair value gain or loss.

c Revenue recognition

(i) Sale of goods:

Recognition: The Company manufactures and sells a range of luggage and bags in the wholesale and retail market. Sales are recognised when the control of the products has been transferred to the customer. The control of the products is said to have been transferred to the customer when the products are delivered to the customer, the customer has significant risks and rewards of the ownership of the product or when the customer has accepted the product.

The revenue is recognised net of estimated rebates/ discounts pursuant to the schemes offered by the Company, estimated additional discounts and expected sales returns. Accumulated experience is used to estimate and provide for the rebates/ discounts and revenue is only recognised to the extent that is highly probable that significant reversal will not accrue. A refund liability (included in other current liabilities) is recognised for expected volume discounts payable to customers in relation to sales made until the end of the reporting period. The assumptions and estimated amount of rebates/discounts and Returns are reassessed at each reporting period. The Company's obligation to repair or replace faulty products under the standard warranty term is recognised as a provision.

Measurement of revenue:

Revenue is measured at the amount of transaction price. Amounts disclosed as revenue are net of returns (including expected returns), rebates and discounts, goods and service tax.

ii) Export Benefits

In case of export sales made by the Company, export benefits arising from Duty Drawback scheme and Remission of Duties or Taxes on Export Products Scheme are recognised along with underlying revenue.

d Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. The chief operating decision maker of the Company assesses the financial performance and position of the Company and makes strategic decisions. The chief operating decision maker is the Managing director of the Company. Refer note 38 for Segment information presented.

e Income tax, deferred tax and dividend distribution tax

Current and Deferred Income tax

The income tax expense or credit for the period is the tax payable on the current year's taxable income based on the applicable income tax rate adjusted by changes in deferred tax assets and liabilities attributable to temporary differences.

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting year. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions, where appropriate, on the basis of amounts expected to be paid to the tax authorities.

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements.

Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred tax assets are recognised for all deductible temporary differences only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses. Recognition of Deferred Tax Assets on losses would be based on the management estimates of reasonable certainty of future projections of profitability.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends

Notes Forming Part of the Standalone Financial Statements

as on and For the year ended March 31, 2023

either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Current and deferred tax is recognised in the statement of profit and loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

f Leases

i) As a lessee

Leases are recognised as right-of-use assets and a corresponding liability at the date at which the leased asset is available for use by the Company.

Assets and liabilities arising from a lease are initially measured on present value basis. Lease liabilities include the net present value of the following lease payments:

- Lease payments less any lease incentives receivable
- Amounts expected to be payable by the Company under residual value guarantees, if any

The lease payments are discounted using Company's incremental borrowing rate (since the interest rate implicit in the lease cannot be readily determined). Incremental borrowing rate is the rate of interest that the Company would have to pay to borrow over a similar term, and a similar security, the funds necessary to obtain an asset of a similar value to the right-of-use asset in a similar economic environment.

Lease payments are allocated between principal and finance cost. The finance cost is charged to profit or loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

Variable lease payments that depend on any key variable / condition, are recognised in profit or loss in the period in which the condition that triggers those payments occurs.

Right-of-use assets are measured at cost comprising the following:

- The amount of the initial measurement of lease liability

- Any lease payments made at or before the commencement date less any lease incentives received

Right-of-use assets are generally depreciated over the shorter of the asset's useful life and the lease term on a straight-line basis. Payments associated with short-term leases and leases of low-value assets are recognised on a straight-line basis as an expense in profit or loss. Short-term leases are leases with a lease term of 12 months or less.

ii) As a lessor

Lease income from operating leases where the Company is lessor is recognised as income on a straight line basis over the lease term unless the receipts are structured to increase in line with expected general inflation to compensate for the expected inflationary cost increases.

g Property, plant and equipment

Freehold land is carried at historical cost. All other items of property, plant and equipment are stated at historical cost less depreciation. Historical cost includes purchase price including import duties, non-refundable taxes and directly attributable expenses relating to the acquisition of the items.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the company and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance expenses are charged to the statement of profit and loss during the reporting period in which they are incurred.

Capital Work in Progress ('CWIP') comprises of cost of assets not ready for intended use as on the Balance sheet date. CWIP is not depreciated until such time as the relevant asset is completed and ready for its intended use.

Depreciation methods, estimated useful lives and residual value

Depreciation is provided on a pro rata basis on the straight-line method over the estimated useful lives of the assets which is as prescribed under Schedule II to the Companies Act, 2013, except for furniture and fixtures in the Company run stores, Computer Servers,

Notes Forming Part of the Standalone Financial Statements

as on and For the year ended March 31, 2023

Pallets used in warehousing operations, Soft luggage Moulds and Hard Luggage Moulds, where useful life is based on technical evaluation done by management's expert, in order to reflect the actual usage of the assets. The depreciation charge for each period is recognised in the Statement of Profit and Loss. The useful life, residual value and the depreciation method are reviewed at least at each financial year end. If the expectations differ from previous estimates, the changes are accounted for prospectively as a change in accounting estimate.

The estimates of useful lives are as follows:

Assets	Estimated Useful life (in years)
Buildings	
- Factory building	30 years
- Others	60 years
Plant and machinery	
- Single shift	15 years
- Triple shift	7.5 years
- Pallets	3 years
- Electrical Installations	10 years
Moulds and dies	
- Soft luggage	2 years
- Hard luggage	6.17 years
Furniture and fixtures	
- Furniture and fixtures at Company run stores	2 years
- Others	10 years
Office equipments	5 years
Data processing machines	3 years
Vehicles	8 years

The residual values are not more than 5% of the original cost of the asset.

Gains and losses on disposals are determined by comparing proceeds with carrying amount. These are included in the statement of profit and loss account.

h Investment Properties

Property that is held for long-term rental yields or for capital appreciation or both, and that is not occupied by the Company, is classified as Investment property. Investment property is measured initially at its cost, including related transaction costs and where applicable borrowing costs. Subsequent expenditure are capitalised to the asset's carrying amount only when it is probable that future economic benefits

associated with the expenditure will flow to the Company and the cost of the item can be measured reliably. All other repairs and maintenance costs are expensed when incurred. When part of an investment property is replaced, the carrying amount of the replaced part is derecognised. Investment properties (except freehold land) are depreciated using the straight-line method over their estimated useful lives.

The estimates of useful lives are as follows:

Assets	Estimated Useful life (in years)
Buildings	
- Factory building	30 years
- Others	60 years

i Intangible assets

a) Patents, copyrights and other rights

Separately acquired patents and copyrights are shown at historical cost. They have a finite useful life and are subsequently carried at cost less accumulated amortisation and impairment losses.

b) Computer software

Costs associated with maintaining software programmes are recognised as an expense as incurred. Development costs that are directly attributable to the design and testing of identifiable and unique software products controlled by the Company are recognised as intangible assets when the following criteria are met:

- It is technically feasible to complete the software so that it will be available for use
- Management intends to complete the software and use or sell it
- there is an ability to use or sell the software
- It can be demonstrated how the software will generate probable future economic benefits
- Adequate technical, financial and other resources to complete the development and to use or sell the software are available, and
- The expenditure attributable to the software during its development can be reliably measured.

Capitalised development costs are recorded as intangible assets and amortised from the point at which the asset is available for use.

Notes Forming Part of the Standalone Financial Statements

as on and For the year ended March 31, 2023

The estimates of useful lives are as follows:

Assets	Estimated Useful life (in years)
Patents, copyrights and other rights	10 years
Computer Software	3 years

j Impairment of assets

Assets that are subject to depreciation and amortisation are tested for impairment annually or more frequently whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. Recoverable amount is higher of an asset's or cash generating unit's fair value and its value in use. Value in use is the present value of estimated future cash flows expected to arise from the continuing use of an asset and from its disposal at the end of its useful life. For the purpose of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows which are largely independent of the cash flows from other assets or group of assets (cash generating units). Non financial assets that suffered impairment are reviewed for possible reversal of the impairment at the end of each reporting period.

k Inventories

Raw materials, packing materials, stores and spares, work in progress, stock-in-trade and finished goods are stated at the lower of cost and net realisable value. Cost of raw materials, packing materials, stores and spares and stock-in-trade comprise of cost of purchases determined using moving average method. Cost of work-in-progress and finished goods comprise direct materials, direct labour and an appropriate proportion of variable and fixed overhead expenditure, the latter being allocated on the basis of normal operating capacity. Cost of inventories also include all other costs incurred in bringing the inventories to their present location and condition. Cost of purchase inventory are determined after deducting rebates and discounts. Net realisable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and the estimated costs necessary to make the sale.

l Investment in subsidiaries

Investment in subsidiaries which are of equity in nature are carried at cost less impairment, if any. Other Investments in subsidiaries are carried at Fair Value

and gain/loss on fair valuation are recognised through the statement of profit and loss.

m Financial Instruments

A financial instrument is a contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

1) Financial Assets

i) Classification

The Company classifies its financial assets in the following measurement categories:

- At fair value either through other comprehensive income (FVOCI) or through profit and loss (FVTPL); and
- At amortised cost.

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows.

Gains and losses will either be recorded in the statement of profit and loss or other comprehensive income for assets measured at fair value. The Company has made an irrevocable election at the time of initial recognition, to account for investments in equity instruments that are not held for trading, at FVOCI.

For investments in debt instruments, this will depend on the business model in which the investment is held.

The Company reclassifies debt investments when and only when its business model for managing those assets changes.

ii) Measurement

At initial recognition, in case of a financial asset not at fair value through the statement of profit and loss account, the Company measures a financial asset at its fair value plus transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through the statement of profit and loss are expensed in profit or loss.

a) Debt instruments

There are three measurement categories into which the Company classifies its debt instruments:

Amortised cost: Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost. A gain or loss on a debt investment that is subsequently measured at amortised cost is recognised in the statement of profit and loss when the asset is derecognised or impaired. Interest income from these financial assets is included in other income using the effective interest rate method.

Fair value through other comprehensive income (FVOCI): Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets' cash flows represent solely payments of principal and interest, are measured at fair value through other comprehensive income (FVOCI). Movements in the carrying amount are taken through Other comprehensive income (OCI), except for the recognition of impairment gains or losses, interest income and foreign exchange gains and losses which are recognised in profit and loss. When the financial asset is derecognised, the cumulative gain or loss previously recognised in OCI is reclassified from equity to the statement of profit and loss and recognised in other income or other expenses (as applicable).

Fair value through profit and loss (FVTPL): Assets that do not meet the criteria for amortised cost or FVOCI are measured at fair value through the profit and loss. A gain or loss on a debt investment that is subsequently measured at fair value through profit and loss is recognised in the statement of profit and loss in the period in which it arises. Interest income from these financial assets is included in other income.

b) Equity instruments

The Company measures all equity investments (except Equity investment in subsidiaries) at fair value. Where the Company's management has opted to present fair value gains and losses on equity investments in other comprehensive income, there is no subsequent reclassification of fair value gains and losses to profit and loss, subject to derecognition of the asset. Dividends from such investments are recognised in the statement of profit and loss as other income when the Company's right to receive payments is established.

Where the Company's management has not opted to present fair value gains and losses on equity investments in other comprehensive income, changes in fair value are recognised in the statement of profit and loss. Impairment losses (and reversal of impairment losses) on equity investments measured at FVOCI are not reported separately from other changes in fair value.

iii) Impairment of financial assets

The Company assesses on a forward looking basis the expected credit losses associated with its assets carried at amortised cost and FVOCI debt instruments. The impairment methodology applied depends on whether there has been a significant increase in credit risk. The manner in which the Company assesses the credit risk has been disclosed in note number 43A.

For trade receivables only, the Company applies the simplified approach permitted by Ind AS 109 Financial Instruments, which requires expected credit losses to be recognised from initial recognition of the receivables.

iv) Derecognition of financial assets

A financial asset is derecognised only when –

- The Company has transferred the rights to receive cash flows from the financial asset or
- Retains the contractual rights to receive the cash flows of the financial asset, but

Notes Forming Part of the Standalone Financial Statements

as on and For the year ended March 31, 2023

assumes a contractual obligation to pay the cash flows to one or more recipients.

Where the Company has transferred an asset, it evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. In such cases, the financial asset is derecognised. Where the entity has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not derecognised.

Where the Company has neither transferred a financial asset nor retains substantially all risks and rewards of ownership of the financial asset, the financial asset is derecognised if the Company has not retained control of the financial asset. Where the Company retains control of the financial asset, the asset is continued to be recognised to the extent of continuing involvement in the financial asset.

v) Income Recognition

Interest income

Interest income from debt instruments is recognised using the effective interest rate method. The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the gross carrying amount of a financial asset. When calculating the effective interest rate, the Company estimates the expected cash flows by considering all the contractual terms of the financial instrument (for example, prepayment, extension, call and similar options) but does not consider the expected credit losses.

Dividend income

Dividends are recognised in the statement of profit and loss only when the right to receive payment is established, it is probable that the economic benefits associated with the dividend will flow to the Company, and the amount of the dividend can be measured reliably.

vi) Cash and cash equivalents

Cash and cash equivalents include cash on hand, deposits held at call with financial

institutions, other short-term highly liquid investments with original maturities of three months or less, that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value. Bank overdraft are shown within borrowing in current liabilities in the financial statement.

vii) Trade Receivables

Trade receivables are amounts due from customers for goods sold in the ordinary course of business. Trade receivables are recognised initially at the amount of consideration that is unconditional unless they contain significant financing components, when they are recognised at fair value. The Company holds the trade receivables with the objective to collect the contractual cash flows and therefore measures them subsequently at amortised cost using the effective interest method, less expected credit losses.

2) Financial Liabilities

i) Measurement

Financial liabilities are initially recognised at fair value, reduced by transaction costs (in case of financial liabilities not recorded at fair value through profit and loss), that are directly attributable to the issue of financial liability. All financial liabilities are subsequently measured at amortised cost using effective interest method. Under the effective interest method, future cash outflow are exactly discounted to the initial recognition value using the effective interest rate, over the expected life of the financial liability, or, where appropriate, a shorter period. At the time of initial recognition, there is no financial liability irrevocably designated as measured at fair value through profit and loss.

ii) Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the de-recognition

Notes Forming Part of the Standalone Financial Statements

as on and For the year ended March 31, 2023

of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit and loss.

iii) Trade and other payables

These amounts represent liabilities for goods and services provided to the Company prior to the end of financial year which are unpaid. The amounts are unsecured and are usually paid as per payment terms. Trade and other payables are recognised initially at their fair value and subsequently measured at amortised cost using the effective interest rate method.

iv) Derivatives and hedging activities

Derivatives are only used for economic hedging purposes and not as a speculative investments. They are presented as current assets or liabilities to the extent they are expected to be settled within 12 months after the end of the reporting period.

Derivatives are initially recognised at fair value on the date a derivative contract is entered into and are subsequently re-measured to their fair value at the end of each reporting period. The Company enters into derivative contracts to hedge risks which are not designated as hedges. Such contracts are accounted for at fair value through profit or loss.

v) Offsetting financial instruments

Financial assets and liabilities are offset and the net amount is reported in the balance sheet where there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Company or the counter party.

n Employee benefits

(i) Short-term obligations

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the

period in which the employees render the related service are recognised in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

(ii) Other long-term employee benefit obligations

The liabilities for earned leave are not expected to be settled wholly within 12 months after the end of the period in which the employees render the related service. They are therefore measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the projected unit credit method. The benefits are discounted using the appropriate market yields at the end of the reporting period that have terms approximating to the terms of the related obligation. Remeasurements as a result of experience adjustments and changes in actuarial assumptions are recognised in the statement of profit and loss.

(iii) Post-employment obligations

The Company operates the following post-employment schemes:

A) Defined benefit gratuity plan:

The Company provides for gratuity, a defined benefit plan (the "Gratuity Plan") covering eligible employees in accordance with the Payment of Gratuity Act, 1972. The Gratuity Plan provides a lump sum payment to vested employees at retirement, death, incapacitation or termination of employment, of an amount based on the respective employee's salary and the tenure of employment. The liability or asset recognised in the balance sheet in respect of defined benefit gratuity plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The defined benefit obligation is calculated annually by actuaries using the projected unit credit method.

The present value of the defined benefit obligation denominated in Indian rupees is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting

Notes Forming Part of the Standalone Financial Statements

as on and For the year ended March 31, 2023

period on government bonds that have terms approximating to the terms of the related obligation.

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expense in the statement of profit and loss.

Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the period in which they occur, directly in other comprehensive income, which are included in retained earnings in the statement of changes in equity and in the balance sheet. Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognised immediately in the statement of profit and loss as past service cost.

B) Defined benefit provident fund plan:

Provident Fund contributions are made to a Trust administered by the Company. The Company's liability is actuarially determined (using the Projected Unit Credit method) at the end of the year. Gains and losses, if any, arising from changes in actuarial assumptions are recognised in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the statement of changes in equity and in the balance sheet.

(iv) Bonus plans

The Company recognises a liability and an expense for bonuses. The Company recognises a provision where contractually obliged or where there is a past practice that has created a constructive obligation.

(v) Share-based payments

Share-based compensation benefits are provided to employees via the Employee Stock Appreciation Rights Plan.

Liabilities for the Company's share appreciation rights are recognised as employee benefit expense over the relevant vesting period. The fair value of the rights are measured at grant date and an Employee stock appreciation rights

reserve is created in the balance sheet over the vesting period.

o Provisions, contingent liabilities and contingent assets

Provisions: Provisions for legal claims, Service Warranties, discounts and returns are recognised when the Company has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and the amount can be reliably estimated. Provisions are not recognised for future operating losses.

If the effect of time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to passage of time is recognised as a finance cost.

Contingent liabilities: Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made.

Contingent assets: Contingent assets are disclosed when there is a possible asset that arises from past events and where existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company.

p Contributed Equity

Equity shares are classified as equity. Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

q Dividends

Provision is made for the amount of any dividend declared, being appropriately authorised and no longer at the discretion of the entity, on or before the end of the reporting period but not distributed at the end of the reporting period.

r Earnings per share

i) Basic earnings per share

Basic earnings per share is calculated by dividing the net profit for the period attributable to the equity shareholders of the Company, by the weighted average number of equity shares outstanding during the financial year, adjusted for bonus elements in equity shares issued during the year and excluding treasury shares, if any.

ii) Diluted earnings per share

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account:

- the after income tax effect of interest and other financing costs associated with dilutive potential equity shares, and
- the weighted average number of additional equity shares that would have been outstanding assuming the conversion of all dilutive potential equity shares.

s Exceptional items

An item of income or expenses, pertaining to the ordinary activities of the Company, is classified as an exceptional item, when the size, type or incidence of the item merits separate disclosure in order to provide better understanding of the performance of the Company. Accordingly the same is disclosed in the notes accompanying the financial statements.

t Rounding of amounts

All amounts disclosed in the financial statements and notes have been rounded off to the nearest Rupees in Crores (upto two decimals), unless otherwise stated as per the requirement of Schedule III of the Companies Act 2013.

3 CRITICAL ESTIMATES AND JUDGMENTS

In the application of the Company's accounting policies, which are described in note 2, the management is required to make judgement, estimates, and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other process. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the

estimate is revised if the revision affects only that period, or in the period of the revision and future period if the revision affects both current and future period.

The following are the critical estimates and judgements, that have the significant effect on the amounts recognised in the financial statements.

Critical estimates and judgments

i) Estimation of Provisions and Contingent Liabilities

The Company exercises judgment in measuring and recognising provisions and the exposures to contingent liabilities which are related to pending litigation or other outstanding claims. Judgement is necessary in assessing the likelihood that a pending claim will succeed, or a liability will arise, and to quantify the possible range of the financial settlement. Because of the inherent uncertainty in this evaluation process, actual liability may be different from the originally estimated as provision. Although there can be no assurance of the final outcome of the legal proceedings in which the Company is involved, it is not expected that such contingencies will have a material effect on its financial position or profitability. (Refer note 39)

ii) Estimation of rebates, discounts and sales returns

The Company's revenue recognition policy requires estimation of rebates, discounts and sales returns. The Company has a varied number of rebates/discount schemes offered which are primarily driven by the terms and conditions for each scheme including the working methodology to be followed and the eligibility criteria for each of the scheme. The estimates for rebates/discounts need to be based on evaluation of eligibility criteria and the past trend analysis. The Company estimates expected sales returns based on a detailed historical study of past trends. [Refer Note 2(c) and 24]

iii) Estimation of useful life of Property, Plant and Equipment, Intangible assets, Investment properties

Property, Plant and Equipment, Intangible assets, Investment properties represent a significant proportion of the asset base of the Company. The charge in respect of periodic depreciation is derived after determining an estimate of an asset's expected useful life and the expected residual value at the end of its life. The useful

Notes Forming Part of the Standalone Financial Statements

as on and For the year ended March 31, 2023

lives and residual values of Company's assets are determined by management at the time the asset is acquired and reviewed periodically, including at each financial year end. The useful lives are based on historical experience with similar assets as well as anticipation of future events, which may impact their life, such as changes in technology. (Refer note 4, 5 and 6)

iv) Estimation of provision for inventory

The Company writes down inventories to net realisable value based on an estimate of the realisability of inventories. Write downs on inventories are recorded where events or changes in circumstances indicate that the balances may not be realised. The identification of write-downs requires the use of estimates of net selling prices of the down-graded inventories. Where the expectation is different from the original estimate, such difference will impact the carrying value of inventories and write-downs of inventories in the periods in which such estimate has been changed.

v) Estimation of defined benefit obligation

The Company provides defined benefit employee retirement plans. The present value of the defined benefit obligations depends on a number of factors that are determined on an actuarial basis using a number of assumptions. The assumptions used in determining the net cost (income) for post employment plans include the discount rate, salary escalation rate, attrition rate and mortality rate. Any changes in these assumptions will impact the carrying amount of such obligations.

The Company determines the appropriate discount rate, salary escalation rate and attrition rate at the end of each year. In determining the appropriate discount rate, the Company considers the interest rates of government bonds of maturity approximating the terms of the related plan liability and attrition rate and salary escalation rate is determined based on the Company's past trends adjusted for expected changes in rate in the future. (Refer note 27)

vi) Estimated fair value of Financial Instruments

The fair value of financial instruments that are not traded in an active market is determined using valuation techniques. The Management uses its judgment to select a variety of methods and make assumptions that are mainly based

on market conditions existing at the end of each reporting period.

vii) Estimation of provision for warranty claims

The Company offers warranties for its products. Management estimates the related provision for future warranty claims based on historical warranty claim information, as well as recent trends that might suggest that past cost information may differ from future claims. The assumptions made in relation to the current period are consistent with those in the prior year (Refer note 35).

viii) Impairment of trade receivable

The impairment provisions for trade receivable are based on expected credit loss method. The Company uses judgement in making the assumptions in calculating the default rate required for identifying the provision as per the expected credit loss method at the end of each reporting period. (Refer note 14)

ix) Leases

The Company evaluates if an arrangement qualifies to be a lease as per the requirements of Ind AS 116. Identification of a lease requires significant judgment. The Company uses significant judgement in assessing the lease term (including anticipated renewals) and the applicable discount rate. The Company determines the lease term as the non-cancellable period of a lease, together with periods covered by an option to extend the lease if the Company is reasonably certain to exercise that option. The lease term is determined without considering an option to terminate the lease, if the Company is reasonably certain not to exercise that option. In assessing whether the Company is reasonably certain to exercise an option to extend a lease, or not to exercise an option to terminate a lease, it considers all relevant facts and circumstances that create an economic incentive for the Company to exercise the option to extend the lease, or not to exercise the option to terminate the lease. The discount rate is generally based on the incremental borrowing rate specific to the lease being evaluated or for a portfolio of leases with similar characteristics.

The Company obtains independent valuations for its investment properties at least annually based on current prices in an active market for properties of similar nature or recent prices of similar properties. The fair value of investment properties is based on valuation by a independent registered valuer as defined under Rule 2 of the Companies (Registered Valuers and Valuations) Rules, 2017. The main inputs used are the rental growth rates and market rates bases on comparable transactions.

(iii) Minimum undiscounted lease payments receivable (excluding tax) on leases of investment property are as follows:

#The company has made an irrevocable election at initial recognition, to recognise changes in fair value of equity securities which are not held for trading, through OCI, rather than profit and loss as these are strategic investments and the company considered this to be more relevant.

(i) Fair value hierarchy

This section explains the judgements and estimates made in determining the fair values of the financial instruments that are a) recognised and measured at fair value and b) measured at amortised cost and for which fair values are disclosed in the financial statements. To provide an indication about the reliability of the inputs used in determining fair value, the Company has classified its financial instruments into the three levels prescribed under the accounting standard. An explanation of each level follows underneath the table.

Level 1: Level 1 hierarchy includes financial instruments measured using quoted prices. This includes listed equity instruments that have quoted price. The fair value of all equity instruments which are traded in the stock exchanges is valued using the closing price as at the reporting period. The mutual funds are valued using the closing NAV.

Level 2: The fair value of financial instruments that are not traded in an active market is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity-specific estimates.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. This is the case for unlisted equity securities and unlisted preference shares are included in level 3.

There are no transfers between levels 1, 2 and 3 during the year.

(ii) Valuation technique used to determine fair value

Specific valuation techniques used to value financial instruments include:

- Investments in quoted equity instruments are valued using the closing price at Bombay Stock Exchange (BSE) at the reporting period.
- the use of Net Assets Value ('NAV') for valuation of mutual fund investment. NAV represents the price at which the issuer will issue further units and will redeem such units of mutual fund to and from the investors.
- the fair value of the preference shares is determined based on present values and the discount rates used were adjusted for counterparty risk and country risk.

4.2A FINANCIAL RISK MANAGEMENT

The Company's activities expose it to market risk, liquidity risk, credit risk and interest risk.

This note explains the sources of risk which the entity is exposed to and how the entity manages the risk.

The Company has a robust risk management framework comprising risk governance structure and defined risk management processes. The risk governance structure of the Company is a formal organisation structure with defined roles and responsibilities for risk management.

Risk	Exposure arising from	Measurement	Management
Credit risk	Cash and cash equivalents, trade receivables, financial assets measured at amortised cost.	Ageing analysis	Diversification of bank deposits, credit limits and letters of credit
Liquidity risk	Other financial liabilities	Sensitivity analysis	Availability of committed credit lines and borrowing facilities
Market risk - foreign currency risk	Recognised financial assets and liabilities not denominated in Indian rupee (INR)	Sensitivity analysis	Monitoring the movement in exchange rates closely
Market risk - Interest rate risk	Borrowings	Sensitivity analysis	Monitoring the movement in market interest rates closely
Market risk - security prices	Investments in equity securities	Sensitivity analysis	Portfolio diversification

The Company's risk management is carried out by a central treasury department under the guidance from the board of directors. Company's treasury identifies and evaluates financial risks in close co-ordination with the Company's operating units. The board provides written principles for overall risk management, as well as policies covering specific areas, such as foreign exchange risk, interest rate risk, credit risk, use of derivative financial instruments and non-derivative financial instruments, and investment of excess liquidity. There is no change in objectives and process for managing the risk and methods used to measure the risk as compared to previous year.

1) Credit risk :

Credit risk is the risk that the counterparty will not meet its obligation under a financial instrument or customer contract, leading to financial loss. The Credit risk mainly arises from receivables from customers, investments securities, cash and cash equivalents, and deposits with banks and financial institutions.

a) Trade receivables

Trade receivables are typically unsecured and are derived from revenue earned from customers. Credit risk has been managed by the company through credit approvals, establishing credit limits and continuously monitoring the creditworthiness of customers to which the company grants credit terms in the normal course of business. On account of adoption of Ind AS 109, the Company uses expected credit loss model to assess the impairment loss or gain.

The maximum exposure to the credit risk at the reporting date is primarily from trade receivables amounting to ₹ 242.66 Crores as at March 31, 2023 (March 31, 2022– ₹ 206.89 Crores). Trade receivables are typically unsecured and are derived from revenue earned from customers located in India as well as outside India. The Company establishes an allowance for doubtful debts and impairment that represents its estimate of incurred losses in respect of trade receivables.

The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer. The demographics of the customer, including the default risk of the industry, the country and the state in which the customer operates, also has an influence on credit risk assessment.

Credit risk is managed through credit approvals, establishing credit limits and continuously monitoring the creditworthiness of customers to which the Company grants credit terms in the normal course of business.

The Company has used a practical expedient by computing the expected credit loss allowance for trade receivables based on a provision matrix. The provision matrix takes into account historical credit loss experience and adjusted for forward looking information. The expected credit loss allowance is based on the ageing of the days for which the receivables are due and the expected loss rates as given in the provision matrix. The provision matrix at the end of the reporting period is as follows:

Summary of trade receivables and provision with ageing as at March 31, 2023:

The average credit period on sales of products is less than 120 days. Credit risk arising from trade receivables is managed in accordance with the Company's established policy, procedures and control relating to customer credit risk management. Credit quality of a customer is assessed based on a detailed study of credit worthiness and accordingly individual credit limits are defined/modified. The concentration of credit risk is limited due to the fact that the customer base is large.

b) Cash and cash equivalents:

As at the year end, the Company held cash and cash equivalents of ₹ 21.53 crores (March 31, 2022: ₹6.70 crores). The cash and cash equivalents are held with bank and financial institution counterparties with good credit rating. 12-months expected credit losses is used as basis for recognition of loss provision.

c) Other Bank Balances:

Other bank balances are held with bank and financial institution counterparties with good credit rating. 12-months expected credit losses is used as basis for recognition of loss provision

d) Investment in mutual funds:

The Company limits its exposure to credit risk by generally investing in liquid securities and only with counterparties that have a good credit rating. The Company does not expect any losses from non-performance by these counterparties. 12-months expected credit losses is used as basis for recognition of loss provision.

e) Other financial assets:

Other financial assets are neither past due nor impaired. 12-months expected credit losses is used as basis for recognition of loss provision.

f) Investments in debt instruments:

Investments in debt instruments are neither past due nor impaired. Majority of the debt instruments are held within the group i.e. in subsidiaries of the Company.

2) Liquidity risk :

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they become due. Prudent liquidity risk management implies maintaining sufficient cash and marketable securities and the availability of funding through an adequate amount of committed credit facilities to meet obligations when due and to close out market positions. Due to the dynamic nature of the underlying businesses, Company treasury maintains flexibility in funding by maintaining availability under committed credit lines. Management monitors rolling forecasts of the Company's liquidity position (comprising the undrawn borrowing facilities below) and cash and cash equivalents on the basis of expected cash flows.

(i) Financing arrangements

B) Market Risk- Other price risk

(a) Exposure

The Company is mainly exposed to the price risk due to its investment in mutual funds and investment in equity instruments held by the Company and classified in the balance sheet either as fair value through OCI or at fair value through profit or loss. The price risk arises due to uncertainties about the future market values of these investments. To manage its price risk arising from investments in equity securities, the Company diversifies its portfolio. The majority of the Company's equity investments are publicly traded.

B) Defined benefit plan

a) Gratuity:

The Company provides for gratuity for employees as per the Payment of Gratuity Act, 1972. Employees who are in continuous service for a period of 5 years or more are eligible for gratuity. The amount of gratuity payable on retirement/ termination is the employees last drawn basic salary per month computed proportionately for fifteen days salary multiplied by the number of years of service. The gratuity plan is a funded plan and the Company makes contributions to the "VIP Industries Limited Employees Gratuity Fund Trust". The Company does not fully fund the liability and maintains a target level of funding to be maintained over a period of time based on estimations of expected gratuity payments.

iv) Sensitivity analysis

The sensitivity analysis below have been determined based on reasonably possible changes of the respective assumptions occurring at the end of the reporting period, while holding all other assumptions constant.

Assumption	Impact on defined benefit obligation							
	Changes in Assumption (%)		Increase in Assumption		Decrease in Assumption			
	March 31, 2023	March 31, 2022	March 31, 2023	March 31, 2022	March 31, 2023	March 31, 2022		
Discount Rate	1%	1%	Decreased by	0.72	0.67	Increased by	0.79	0.75
Salary Increase	1%	1%	Increased by	0.88	0.71	Decreased by	0.81	0.67
Employee Turnover	1%	1%	Increased by	0.07	0.05	Decreased by	0.08	0.05

The sensitivity analysis presented above may not be representative of the actual change in the defined benefit obligation as it is unlikely that the change in assumptions would occur in isolation of one another as some of the assumptions may be correlated. Furthermore, in presenting the above sensitivity analysis, the present value of the defined benefit obligation has been calculated using the projected unit credit method at the end of the reporting period, which is the same method as applied in calculating the defined benefit obligation asset/ (liability) recognised in the Balance Sheet.

v) The Major category of plan assets of the fair value of the total plan assets are as follows:

	As at March 31, 2023		As at March 31, 2022	
	Amount	in %	Amount	in %
Insurer managed fund	25.47	96%	24.81	96%
Others	0.94	4%	0.90	4%
Total	26.41	100%	25.71	100%

vi) Risk exposure

Aforesaid post-employment benefit plans typically expose the Company to actuarial risks such as: Investment risk, interest rate risk, and salary risk.

Investment risk:	The present value of the defined benefit plan liability is calculated using a discount rate which is determined by reference to market yields at the end of the reporting period on government bonds. If the return on plan asset is below this rate, it will create a plan deficit. Currently, for the plan in India, it has a relatively balanced mix of investments in government securities, and other debt instruments.
Interest risk:	A fall in the discount rate which is linked to the G. Sec. Rate will increase the present value of the liability requiring higher provision. A fall in the discount rate generally increase the mark to market value of the assets depending on the duration of asset.
Salary risk:	The present value of the defined benefit plan liability is calculated by reference to the future salaries of members. As such, an increase in salary of the members more than assumed level will increase the plan's liability.

vii) Defined benefit liability and employer contributions

The Company expects to make a contribution for the year ending March 31, 2024 is ₹ NIL Crores (March 31, 2023 is NIL Crores) to the defined benefit plans during the next financial year.

The average duration of the defined benefit plan obligation at the end of the reporting period is 7 years. The expected maturity analysis of undiscounted gratuity benefits is as follows:

	Less than a year	Between 1-2 Years	Between 2-5 Years	Over 5 Years	Total
March 31, 2023					
Defined benefit obligations - Gratuity	2.40	4.12	6.32	13.57	26.41
March 31, 2022					
Defined benefit obligations - Gratuity	5.17	1.80	6.66	12.18	25.81

b) Provident Fund

Provident fund for eligible employees is managed by the Company through the "VIP Industries Limited Employees Provident Fund Trust", in line with the Provident fund and Miscellaneous Provisions Act 1952. The plan guarantees interest at the rate notified by the Provident Fund Authorities. The contribution by the employer and employee together with the interest accumulated thereon are payable to employees at the time of their separation from the Company or retirement whichever is earlier. The benefits vest immediately on rendering the services by the employee. The Company does not currently have any unfunded plans.

In terms of the guidance note issued by the Institute of Actuaries of India for measurement of provident fund liabilities, the actuary has provided a valuation of provident fund liability and based on the assumptions provided below, there is no shortfall as at March 31, 2023. The Company has contributed ₹ 4.03 Crores (March 31, 2022: ₹3.18 Crores) towards VIP Industries Limited Employees Provident Fund Trust during the year ended March 31, 2023.

Independent Auditor's Report

To the Members of V.I.P. Industries Limited

Report on the Audit of the Consolidated Financial Statements

OPINION

1. We have audited the accompanying consolidated financial statements of V.I.P Industries Limited (hereinafter referred to as the "Holding Company" or "The Company") and its subsidiaries (Holding Company and its subsidiaries together referred to as "the Group"), (refer Note 40 to the attached consolidated financial statements), which comprise the consolidated Balance Sheet as At March 31, 2023, and the consolidated Statement of Profit and Loss (including Other Comprehensive Income) , the consolidated Statement of Changes in Equity and the consolidated Cash Flow statement for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies and other explanatory information (hereinafter referred to as "the consolidated financial statements").
2. In our opinion and to the best of our information and according to the explanations given to us, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally

accepted in India, of the consolidated state of affairs of the Group, as at March 31, 2023, and consolidated total comprehensive income (comprising of profit and other comprehensive income), consolidated changes in equity and its consolidated cash flows for the year then ended.

BASIS FOR OPINION

3. We conducted our audit in accordance with the Standards on Auditing (SAs) specified under Section 143(10) of the Act. Our responsibilities under those Standards are further described in the "Auditor's Responsibilities for the Audit of the Consolidated Financial Statements" section of our report. We are independent of the Group, in accordance with the ethical requirements that are relevant to our audit of the consolidated financial statements in India in terms of the Code of Ethics issued by the Institute of Chartered Accountants of India and the relevant provisions of the Act, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors in terms of their reports referred to in sub-paragraph 14, 15 and 16 of the Other Matters section below is sufficient and appropriate to provide a basis for our opinion.

KEY AUDIT MATTERS

4. Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key audit matter	How our audit addressed the key audit matter
<p>1. Estimation of rebates, discounts and sales returns (Refer Note 3 (ii) to the consolidated financial statements)</p> <p>The Company sells its products through various channels like modern trade, distributors, retailers, institutions, etc., and recognises liabilities related to rebates, discounts and right of return.</p> <p>As per the accounting policy of the Company, the revenue is recognised upon transfer of control of goods to the customer and thus requires an estimation of the revenue taking into consideration rebates, discounts and right of return as per the terms of the contracts.</p> <p>With regard to determination of revenue, the management is required to make significant estimates in respect of following:</p>	<p>Our procedures included the following:</p> <ul style="list-style-type: none"> • Obtained an understanding with regard to controls relating to recording of rebates, discounts, sales returns and the estimation of revenue, period end provisions, and tested the design and operating effectiveness of such controls; • Verified the inputs used in the estimation of revenue (in context of rebates, discounts and sales returns) to the source data; • Assessed the underlying assumptions used for determination of rebates, discount rates, sales returns etc.; • Verified the completeness of liabilities recognised by evaluating the parameters for a sample of schemes;

Key audit matter	How our audit addressed the key audit matter
<ul style="list-style-type: none"> the rebates/ discounts linked to sales, which will be given to the customers pursuant to schemes offered by the Company; provision for sales returns, where the customer has right to return the goods to the Company; and discounts offered by the distributors to the customers in accordance with schemes offered by the Company. <p>The matter has been determined to be a key audit matter in view of the involvement of significant estimates and judgements made by the management.</p>	<ul style="list-style-type: none"> Performed analysis for past trends by comparing recent actuals with the estimates of earlier periods; Tested credit notes issued to customers and payments made to them during the year and subsequent to the year end in along with the terms of the related schemes. <p>Based on the above procedures performed, the assessment made by management in respect estimation of rebates, discounts and sales returns was considered to be appropriate.</p>
<p>2. Assessment of litigation in respect of sales tax (Refer Notes 19 and 39 to the consolidated Financial Statements)</p> <p>The Company has litigations in respect of certain sales tax matters. In this regard, the Company has recognised a provision and has disclosed the balance under contingent liabilities as at March 31, 2023.</p> <p>Significant management judgment is required to assess these matters and to determine the probability of material outflow of economic resources and whether a provision should be recognised or a disclosure should be made. Where considered relevant, the management judgement is also supported with legal advice in these cases.</p> <p>We identified this matter as a key audit matter as the ultimate outcome of matters are uncertain and the positions taken by the management are based on the application of judgement, related legal advice including those relating to interpretation of laws and regulations.</p>	<p>Our procedures included the following:</p> <ul style="list-style-type: none"> We evaluated and tested the design and operating effectiveness of key controls surrounding assessment of litigations; We enquired with management the recent updates and the status of litigation matters; We performed our assessment on the underlying calculations supporting the provisions recorded and other disclosures made in the consolidated financial statements; We also used auditor's experts to evaluate the management's assessment of these matters and assessed changes in the disputes by reading external legal advice taken by the Company, where relevant, to establish the appropriateness of the provisions / disclosures; and, We assessed the adequacy of the Company's disclosures for litigations in respect of the sales tax matters. <p>Based on the above procedures, the assessment made by management in respect of provisions recognised and disclosures made in 'contingent liabilities' relating to these sales tax matters in the consolidated financial statements was considered to be appropriate.</p>

OTHER INFORMATION

5. The Holding Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Annual report but does not include the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent

with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed and the reports of the other auditors as furnished to us (Refer paragraph 15 and 16 below), we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

RESPONSIBILITIES OF MANAGEMENT AND THOSE CHARGED WITH GOVERNANCE FOR THE CONSOLIDATED FINANCIAL STATEMENTS

6. The Holding Company's Board of Directors is responsible for the preparation and presentation of these consolidated financial statements in term of the

requirements of the Act that give a true and fair view of the consolidated financial position, consolidated financial performance and consolidated cash flows, and changes in equity of the Group in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act. The respective Board of Directors of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Directors of the Holding Company, as aforesaid.

7. In preparing the consolidated financial statements, the respective Board of Directors of the companies included in the Group are responsible for assessing the ability of the Group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.
 8. The respective Board of Directors of the companies included in the Group are responsible for overseeing the financial reporting process of the Group.
- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
 - Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3) (i) of the Act, we are also responsible for expressing our opinion on whether the Holding company has adequate internal financial controls with reference to consolidated financial statements in place and the operating effectiveness of such controls.
 - Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
 - Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
 - Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
 - Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities included in the consolidated financial statements of which we are the independent auditors. For the other entities included in the consolidated financial statements, which have been audited by other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

9. Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.
10. As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

11. We communicate with those charged with governance of the Holding Company and such other entities included in the consolidated financial statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.
12. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.
13. From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.
15. We did not audit the financial information of 4 subsidiary companies located outside India, whose financial information reflect total assets of ₹ 300.76 crores and net assets of ₹ 64.25 crores as at March 31, 2023, total revenue of ₹ 666.62 crores, total comprehensive profit (comprising of profit and other comprehensive income) of ₹ 65.18 crores and net cash flows amounting to ₹ 1.03 crore for the year ended on that date, as considered in the consolidated Ind AS financial statements, whose financial information have not been audited by us. This financial information have been audited by other auditors whose reports have been furnished to us, and our opinion on the consolidated financial statements insofar as it relates to the amounts and disclosures included in respect of these subsidiaries and our report in terms of sub-section (3) of Section 143 of the Act including report on Other Information insofar as it relates to the aforesaid subsidiaries is based solely on the reports of the other auditors.
16. We did not audit the financial statements of a subsidiary company located in India whose financial statements reflect total assets of ₹ 0.02 Crores and net assets of ₹ 0.01 Crores as at March 31, 2023, total revenue of ₹ * Crores, total comprehensive income (comprising of loss and other comprehensive income) of ₹ (*) Crores and net cash flows amounting to ₹ (*) Crores for the year ended on that date, as considered in the consolidated Ind AS financial statements, whose financial information have not been audited by us. These financial statements have been audited by other auditor whose reports have been furnished to us by the Management, and our opinion on the consolidated Ind AS financial statements insofar as it relates to the amounts and disclosures included in respect of the subsidiary and our report in terms of sub-section (3) of Section 143 of the Act insofar as it relates to the aforesaid subsidiary, is based solely on the reports of the other auditor.

OTHER MATTERS

14. The following 'Other Matter' paragraph was included in the audit report dated May 2, 2023 addressed to us, containing an unmodified audit opinion on the special purpose standalone financial statements of VIP Industries Bangladesh Pvt. Ltd., a subsidiary of the Holding Company issued by an independent firm of auditors, reproduced by us as under:

"There was a major fire at the company's plant located at Mongla EPZ, Bangladesh, on January 31, 2023. The property, plant and equipment and Inventories of the company were destroyed in this incident

The company's operations have been majorly affected due to this incident. The company primarily supplies to its parent company to cater to the Indian markets and considering the current growth environment, the management plans to rebuild and restart the operations shortly. The management is confident of restoring the operations as per the plans charted out.

The company has initiated its Insurance claim process and considering the company's insurance policy, it expects the loss to be adequately covered.

Our opinion is not modified in respect of this matter."

*Amount is below the rounding off norm adopted by the group.

17. Our opinion on the consolidated financial statements, and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matters with respect to our reliance on the work done and the reports of the other auditor.

REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

18. As required by paragraph 3(xxi) of the Companies (Auditor's Report) Order, 2020 ("CARO 2020"), issued by the Central Government of India in terms of sub-section (11) of Section 143 of the Act, we report

that there are no qualifications or adverse remarks included by the respective auditors in their CARO 2020 reports issued in respect of the standalone financial statements of the companies which are included in these Consolidated Financial Statements.

19. As required by Section 143(3) of the Act, we report, to the extent applicable, that:

- (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid consolidated financial statements.
- (b) In our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidated financial statements have been kept so far as it appears from our examination of those books and the reports of the other auditors.
- (c) The Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss (including other comprehensive income), the Consolidated Statement of Changes in Equity and the Consolidated Cash Flow statement dealt with by this Report are in agreement with the relevant books of account and records maintained for the purpose of preparation of the consolidated financial statements.
- (d) In our opinion, the aforesaid consolidated financial statements comply with the Accounting Standards specified under Section 133 of the Act.
- (e) On the basis of the written representations received from the directors of the Holding Company as on March 31, 2023 taken on record by the Board of Directors of the Holding Company and the report of the statutory auditors of its subsidiary company incorporated in India, none of the directors of the Group companies, and incorporated in India is disqualified as on March 31, 2023 from being appointed as a director in terms of Section 164(2) of the Act.
- (f) With respect to the adequacy of internal financial controls with reference to consolidated financial statements of the Holding Company and the operating effectiveness of such controls, refer to our separate report in Annexure A. Reporting under Clause (i) of section 143 (3) of the Act in respect of the adequacy of the internal financial controls with reference to financial statements is not applicable to subsidiary companies not incorporated in India.
- (g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of

the Companies (Audit and Auditor's) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:

- i. The consolidated financial statements disclose the impact, if any, of pending litigations on the consolidated financial position of the Group Refer Note 39 to the consolidated financial statements.
- ii. The Group was not required to recognise a provision as at March 31, 2023 under the applicable law or accounting standards, as it does not have any material foreseeable losses on long-term contract. The Group did not have any derivative contracts as at March 31, 2023.
- iii. There has been no delay in transferring amounts required to be transferred to the Investor Education and Protection Fund by the Holding Company and its subsidiary companies incorporated in India during the year.
- iv. (a) The respective Managements of the Company and its subsidiary which is company incorporated in India whose financial statements have been audited under the Act have represented to us and the other auditor of such subsidiary respectively that, to the best of their knowledge and belief, as disclosed in the notes to the accounts, no funds (which are material either individually or in the aggregate) have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company or any of such subsidiary to or in any other person(s) or entity(ies), including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company or any of such subsidiary ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries. (Refer Note 52 to the consolidated financial statements)
- (b) The respective Managements of the Company and its subsidiary which is company incorporated in India whose

financial statements have been audited under the Act have represented to us and the other auditor of such subsidiary respectively that, to the best of their knowledge and belief, as disclosed in the notes to the accounts, no funds (which are material either individually or in the aggregate) have been received by the Company or any of such subsidiary from any person(s) or entity(ies), including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company or any of such subsidiary shall, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries. (Refer Note 52 to the consolidated financial statements)

- (c) Based on the audit procedures, that has been considered reasonable and appropriate in the circumstances, performed by us and those performed by the auditors of the subsidiary which is company incorporated in India whose financial statements have been audited under the Act, nothing has come to our or other auditor's notice that has caused us or the other auditors to believe that the representations under sub-clause (a) and (b) of Rule 11(e) contain any material misstatement.

- v. The dividend declared and paid during the year by the Holding Company and its subsidiary company incorporated in India, is in compliance with Section 123 of the Act.
- vi. As proviso to Rule 3(1) of the Companies (Accounts) Rules, 2014 (as amended), which provides for the feature of recording of audit trail (edit log) facility in the accounting software used by the Group, for maintenance of books of account and related matters, is applicable for the Company only with effect from financial year beginning April 1, 2023, the reporting under clause (g) of Rule 11 is currently not applicable.

20. The Holding Company has provided for managerial remuneration in accordance with the requisite approvals mandated by the provisions of Section 197 read with Schedule V to the Act. Annexure A to Independent Auditor's Report

Referred to in paragraph 19(f) of the Independent Auditor's Report of even date to the members of V.I.P Industries Limited on the consolidated financial statements for the year ended March 31, 2023

REPORT ON THE INTERNAL FINANCIAL CONTROLS WITH REFERENCE TO CONSOLIDATED FINANCIAL STATEMENTS UNDER CLAUSE (I) OF SUB-SECTION 3 OF SECTION 143 OF THE ACT

1. In conjunction with our audit of the consolidated financial statements of the Company as of and for the year ended March 31, 2023, we have audited the internal financial controls with reference to financial statements of V.I.P Industries Limited (hereinafter referred to as "the Holding Company") and its subsidiary companies, which are companies, incorporated in India, as of that date.

MANAGEMENT'S RESPONSIBILITY FOR INTERNAL FINANCIAL CONTROLS

2. The respective Board of Directors of the Holding Company and its subsidiary company, to whom reporting under clause (i) of sub section 3 of Section 143 of the Act in respect of the adequacy of the internal financial controls with reference to financial statements is applicable, which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

AUDITOR'S RESPONSIBILITY

3. Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note issued by the ICAI and the Standards on Auditing deemed to be prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of internal financial controls and both issued by the ICAI. Those Standards and the Guidance Note

require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements was established and maintained and if such controls operated effectively in all material respects.

4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

5. We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors in terms of their reports referred to in the Other Matters paragraph below is sufficient and appropriate to provide a basis for our audit opinion on the Holding Company's internal financial controls system with reference to consolidated financial statements.

MEANING OF INTERNAL FINANCIAL CONTROLS WITH REFERENCE TO FINANCIAL STATEMENTS

6. A company's internal financial control with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control with reference to financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or

disposition of the company's assets that could have a material effect on the financial statements.

INHERENT LIMITATIONS OF INTERNAL FINANCIAL CONTROLS WITH REFERENCE TO FINANCIAL STATEMENTS

7. Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial control with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

OPINION

8. In our opinion, the Holding Company and its subsidiary company, which is company incorporated in India, have, in all material respects, an adequate internal financial controls system with reference to financial

statements and such internal financial controls with reference to financial statements were operating effectively as at March 31, 2023, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note issued by the ICAI.

OTHER MATTER

9. Our aforesaid reports under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls with reference to financial statements insofar as it relates to subsidiary company, which is company incorporated in India, is based on the corresponding reports of the auditors of such company incorporated in India. Our opinion is not modified in respect of this matter.

Consolidated Statement of Changes in Equity

For the year ended March 31, 2023

(i) Re-measurement of defined benefit plans shall be recognised as a part of retained earnings with separate disclosure of such items along with the relevant amounts in the Notes.

(ii) Nature and purpose of each reserve

Capital reserve - This reserve was created in the Financial year 1987-88 and 1990-91. Capital reserves are created out of capital profits and are usually utilised for issue of Bonus Shares or to adjust capital losses.

Capital redemption reserve - Whenever there is a buy-back or redemption of the share capital, the nominal value of the capital is transferred to the capital redemption reserve out of the free reserves available for distribution. This reserve is usually utilised for issue of bonus shares. The said reserve was created in the financial year 1987-88 by erstwhile Blow Plast Limited, which was later-on merged with the Company in the financial year 2006-07.

Securities premium - Securities premium is used to record the premium on issue of shares. This reserve will be utilised in accordance with the provisions of the Companies Act 2013.

General reserve - General Reserve is a free reserve and is available for distribution as dividend, issue of bonus shares, buyback of the Company's securities. It was created by transfer of amounts out of distributable profits, from time to time.

Equity instruments through other comprehensive income - The Company has opted to recognise changes in fair value of certain investments in equity instruments through other comprehensive income, under an irrevocable option. These changes are accumulated within the FVOCI equity investments reserve within equity. The amount under this reserve will be transferred to retained earnings when such instruments are disposed off.

Employee stock appreciation rights reserve - Employee stock appreciation rights reserve is created by accounting of the grant date fair value of the rights granted to employees under Employee Stock Appreciation Rights Plan 2018 (ESAR Plan 2018). The said reserve shall be utilised for issue of equity shares of the Company against the exercise of the employees share stock appreciation rights by the employees under the ESAR Plan 2018.

Notes Forming Part of the Consolidated Financial Statements

as on and For the year ended March 31, 2023

1. GENERAL INFORMATION

V.I.P. Industries Limited (hereinafter referred to as "the Parent Company" or "the Company") together with its subsidiaries (collectively referred to as "the Group") are engaged in the business of manufacturing, and marketing of luggage, bags and accessories (Refer note 40). The company is a public limited company and is listed on the BSE Limited (BSE) and the National Stock Exchange of India Limited (NSE).

These Consolidated financial statements were approved for issue by the board of directors on May 08, 2023.

2. SIGNIFICANT ACCOUNTING POLICIES

This note provides a list of the significant accounting policies adopted in the preparation of these Consolidated financial statements. These policies have been consistently applied to all the years presented, unless otherwise stated.

a Basis of preparation

i) Compliance with Ind AS

These consolidated financial statements comply in all material aspects with Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 (the Act) [Companies (Indian Accounting Standards) Rules, 2015] and other relevant provisions of the Act.

ii) Historical cost convention

These financial statements have been prepared on the historical cost basis, except for the following:

- a) Certain financial assets and liabilities that are measured at Fair Value.
- b) Defined benefit plans - Plan assets are measured at Fair Value
- c) Employee Stock appreciation rights are measured at Fair Value

iii) Current and Non Current Classification.

All assets and liabilities have been classified as current or non-current as per the group's operating cycle and other criteria set out in the Schedule III to the Companies Act, 2013. Based on the nature of products and the time between the acquisition of assets for processing and their realisation in cash and cash equivalents, the group has ascertained its operating cycle as 12

months for the purpose of current – non-current classification of assets and liabilities.

(iv) New and amended standards adopted by the group

The Ministry of Corporate Affairs had vide notification dated 23 March 2022 notified Companies (Indian Accounting Standards) Amendment Rules, 2022 which amended certain accounting standards, and are effective 1 April 2022. These amendments did not have any impact on the amounts recognised in prior periods and are not expected to significantly affect the current or future periods.

(v) New and amended standards issued but not effective

The Ministry of Corporate Affairs has vide notification dated 31 March 2023 notified Companies (Indian Accounting Standards) Amendment Rules, 2023 (the 'Rules') which amends certain accounting standards, and are effective 1 April 2023.

The Rules predominantly amend Ind AS 12, Income taxes, and Ind AS 1, Presentation of financial statements. The other amendments to Ind AS notified by these rules are primarily in the nature of clarifications.

These amendments are not expected to have a material impact on the group in the current or future reporting periods and on foreseeable future transactions. Specifically, no changes would be necessary as a consequence of amendments made to Ind AS 12 as the company's accounting policy already complies with the now mandatory treatment.

b Foreign currency translation

i) Functional and presentation currency

Items included in the financial statements of the group are measured using the currency of the primary economic environment in which the entity operates ('the functional currency'). The financial statements are presented in Indian rupee (INR), which is the parent Company's functional and presentation currency.

ii) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates at the dates of the transactions. Foreign exchange

Notes Forming Part of the Consolidated Financial Statements

as on and For the year ended March 31, 2023

gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates are generally recognised in the consolidated statement of Profit and loss. All the foreign exchange gains and losses are presented in the consolidated statement of Profit and Loss on a net basis within other expenses.

Non-monetary items that are measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. Translation differences on assets and liabilities carried at fair value are reported as part of the fair value gain or loss.

iii) Transaction of financial statements of foreign entities

On Consolidation, the assets and liabilities of foreign operations are translated into Indian rupees (INR) at the exchange rate prevailing at the reporting date and their statement of profit and loss are translated at exchange rates prevailing on the date of transaction. For practical reasons, the group uses an average rate to translate income and expense items if the average rate approximates the exchange rates on the date of transaction. The exchange differences arising on translation for consolidation are recognised in consolidated statement of Other Comprehensive Income (OCI). On disposal of a foreign operation, the component of OCI relating to that particular foreign operation is reclassified to consolidated statement of Profit and Loss.

c Revenue recognition

(i) Sale of goods:

Recognition: The group manufactures and sells a range of luggage and bags in the wholesale and retail market. Sales are recognised when the control of the products has been transferred to the customer. The control of the products is said to have been transferred to the customer when the products are delivered to the customer, the customer has significant risks and rewards of the ownership of the product or when the customer has accepted the product.

The revenue is recognised net of estimated rebates/ discounts pursuant to the schemes offered by the group, estimated additional discounts and expected sales returns. Accumulated experience

is used to estimate and provide for the rebates/ discounts and revenue is only recognised to the extent that is highly probable that significant reversal will not accrue. A refund liability (included in other current liabilities) is recognised for expected volume discounts payable to customers in relation to sales made until the end of the reporting period. The assumptions and estimated amount of rebates/discounts and Returns are reassessed at each reporting period. The group's obligation to repair or replace faulty products under the standard warranty term is recognised as provision.

Measurement of revenue:

Revenue is measured at the transaction price. Amounts disclosed as revenue are net of returns (including expected returns), rebates and discounts, goods and service tax.

ii) Export Benefits

In case of export sales made by the group, export benefits arising from Duty Drawback scheme and Remission of Duties or Taxes on Export Products Scheme are recognised alongwith underlying revenue.

d Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. The chief operating decision maker assesses the financial performance and position and makes strategic decisions. (Refer note 42)

e Income tax, deferred tax and dividend distribution tax

Current and Deferred Income tax

The income tax expense or credit for the period is the tax payable on the current year's taxable income based on the applicable income tax rate adjusted by changes in deferred tax assets and liabilities attributable to temporary differences.

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting year. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions, where appropriate, on the basis of amounts expected to be paid to the tax authorities.

Notes Forming Part of the Consolidated Financial Statements

as on and For the year ended March 31, 2023

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements.

Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred tax assets are recognised for all deductible temporary differences only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses. Recognition of Deferred Tax Assets on losses would be based on the management estimates of reasonable certainty of future projections of profitability.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Current and deferred tax is recognised in the statement of profit and loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

Foreign Subsidiaries:

The Manufacturing factories are based in Mongla Export Processing Zone (MEPZ) under BEPZA. As per the provisions of S.R.O. No. 219/2012 dated June 27, 2012, the income of the Factory is exempted from tax 100% for the first three years, 50% for next three years and 25% in the seventh year from the date of commencement of commercial production. As per SRO and relevant provisions of Income Tax Ordinance 1984, adequate tax provision has been made on the profits.

f Leases

i) As a lessee

Leases are recognised as right-of-use assets and a corresponding liability at the date at which the leased asset is available for use by the group.

Assets and liabilities arising from a lease are initially measured on present value basis. Lease liabilities include the net present value of the following lease payments:

- Lease payments less any lease incentives receivable
- Amounts expected to be payable by the group under residual value guarantees, if any

The lease payments are discounted using group's incremental borrowing rate (since the interest rate implicit in the lease cannot be readily determined). Incremental borrowing rate is the rate of interest that the group would have to pay to borrow over a similar term, and a similar security, the funds necessary to obtain an asset of a similar value to the right-of use asset in a similar economic environment.

Lease payments are allocated between principal and finance cost. The finance cost is charged to profit or loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

Variable lease payments that depend on any key variable / condition, are recognised in profit or loss in the period in which the condition that triggers those payments occurs.

Right-of-use assets are measured at cost comprising the following:

- The amount of the initial measurement of lease liability
- Any lease payments made at or before the commencement date less any lease incentives received

Right-of-use assets are generally depreciated over the shorter of the asset's useful life and the lease term on a straight-line basis.

Payments associated with short-term leases and leases of low-value assets are recognised on a straight-line basis as an expense in profit or loss. Short-term leases are leases with a lease term of 12 months or less.

Notes Forming Part of the Consolidated Financial Statements

as on and For the year ended March 31, 2023

ii) As a lessor

Lease income from operating leases where the group is lessor is recognised as income on a straight line basis over the lease term unless the receipts are structured to increase in line with expected general inflation to compensate for the expected inflationary cost increases.

g Property, plant and equipment

Freehold land is carried at historical cost. All other items of property, plant and equipment are stated at historical cost less depreciation. Historical cost includes purchase price including import duties, non-refundable taxes and directly attributable expenses to the acquisition of the items.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance expenses are charged to the statement of profit and loss during the reporting period in which they are incurred.

Capital Work in Progress ('CWIP') comprises of cost of assets not ready for intended use as on the Balance sheet date. CWIP is not depreciated until such time as the relevant asset is completed and ready for its intended use.

Depreciation methods, estimated useful lives and residual value

Depreciation is provided on a pro rata basis on the straight-line method over the estimated useful lives of the assets which is as prescribed under Schedule II to the Companies Act, 2013, except for furniture and fixtures in the stores, Computer Servers, Pallets used in warehousing operations, Soft luggage Moulds and Hard Luggage Moulds, where useful life is based on technical evaluation done by management's expert, in order to reflect the actual usage of the assets. The depreciation charge for each period is recognised in the Statement of Profit and Loss. The useful life, residual value and the depreciation method are reviewed at least at each financial year end. If the expectations differ from previous estimates, the changes are accounted for prospectively as a change in accounting estimate.

The estimates of useful lives are as follows:

Assets	Estimated Useful life (in years)
Buildings	
- Factory building	30 years
- Others	60 years
Plant and machinery	
- Single shift	15 years
- Triple shift	7.5 years
- Pallets	3 years
- Electrical Installations	10 years
Moulds and dies	
- Soft luggage	2 years
- Hard luggage	6.17 years
Furniture and fixtures	
- Furniture and fixtures at group run stores	2 years
- Others	10 years
Office equipments	5 years
Data processing machines	3 years
Vehicles	8 years

The residual values are not more than 5% of the original cost of the asset.

Gains and losses on disposals are determined by comparing proceeds with carrying amount. These are included in the statement of profit and loss account.

Foreign Subsidiaries

The estimates of useful lives are as follows:

Assets	Estimated Useful life (in years)
Buildings	20 years
Furniture	10 years
Plant and machinery	5 years
Office equipments	5 years
Data processing machines	3.33 years
Vehicles	5 years

h Investment Properties

Property that is held for long-term rental yields or for capital appreciation or both, and that is not occupied is classified as Investment property. Investment property is measured initially at its cost, including related transaction costs and where applicable borrowing costs. Subsequent expenditure is capitalised to the

Notes Forming Part of the Consolidated Financial Statements

as on and For the year ended March 31, 2023

asset's carrying amount only when it is probable that future economic benefits associated with the expenditure will flow and the cost of the item can be measured reliably. All other repairs and maintenance costs are expensed when incurred. When part of an investment property is replaced, the carrying amount of the replaced part is derecognised. Investment properties (except freehold land) are depreciated using the straight-line method over their estimated useful lives.

The estimates of useful lives are as follows:

Assets	Estimated Useful life (in years)
Buildings	
- Factory building	30 years
- Others	60 years

i Intangible assets

a) Patents, copyrights and other rights

Separately acquired patents and copyrights are shown at historical cost. They have a finite useful life and are subsequently carried at cost less accumulated amortisation and impairment losses.

b) Computer software

Costs associated with maintaining software programmes are recognised as an expense as incurred. Development costs that are directly attributable to the design and testing of identifiable and unique software products controlled by the group are recognised as intangible assets when the following criteria are met:

- It is technically feasible to complete the software so that it will be available for use
- Management intends to complete the software and use or sell it
- there is an ability to use or sell the software
- It can be demonstrated how the software will generate probable future economic benefits
- Adequate technical, financial and other resources to complete the development and to use or sell the software are available, and
- The expenditure attributable to the software during its development can be reliably measured.

Capitalised development costs are recorded as intangible assets and amortised from the point at which the asset is available for use.

The estimates of useful lives are as follows:

Assets	Estimated Useful life (in years)
Patents, copyrights and other rights	10 years
Computer Software	3 years

The estimated useful life in case of foreign subsidiary is as follows

Assets	Estimated Useful life (in years)
Computer Software	3.33 years

j Impairment of assets

Assets that are subject to depreciation and amortisation are tested for impairment annually or more frequently whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. Recoverable amount is higher of an asset's or cash generating unit's fair value and its value in use. Value in use is the present value of estimated future cash flows expected to arise from the continuing use of an asset and from its disposal at the end of its useful life. For the purpose of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows which are largely independent of the cash flows from other assets or group of assets (cash generating units). Non financial assets that suffered impairment are reviewed for possible reversal of the impairment at the end of each reporting period.

k Inventories

Raw materials, packing materials, stores and spares, work in progress, stock-in-trade and finished goods are stated at the lower of cost and net realisable value. Cost of raw materials, packing materials, stores and spares and stock in-trade comprise of cost of purchases determined using moving weighted average method. Cost of work-in-progress and finished goods comprise direct materials, direct labour and an appropriate proportion of variable and fixed overhead expenditure, the latter being allocated on the basis of normal operating capacity. Cost of inventories also include all other costs incurred in bringing the

Notes Forming Part of the Consolidated Financial Statements

as on and For the year ended March 31, 2023

inventories to their present location and condition. Cost of purchase inventory are determined after deducting rebates and discounts.

Net realisable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and the estimated costs necessary to make the sale.

I Financial Instruments

A financial instrument is a contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

1) Financial Assets

i) Classification

The group classifies its financial assets in the following measurement categories:

- At fair value either through other comprehensive income (FVOCI) or through profit and loss (FVTPL); and
- At amortised cost.

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows.

Gains and losses will either be recorded in the statement of profit and loss or other comprehensive income for assets measured at fair value. The group has made an irrevocable election at the time of initial recognition, to account for investment in equity instruments that are not held for trading, at FVOCI.

For investments in debt instruments, this will depend on the business model in which the investment is held.

The group reclassifies debt investments when and only when its business model for managing those assets changes.

ii) Measurement

At initial recognition, in case of a financial asset not at fair value through profit and loss account, the group measures a financial asset at its fair value plus transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value

through profit and loss are expensed in profit and loss.

a) Debt instruments

There are three measurement categories into which the classifies its debt instruments:

Amortised cost: Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost. A gain or loss on a debt investment that is subsequently measured at amortised cost is recognised in the statement of profit and loss when the asset is derecognised or impaired. Interest income from these financial assets is included in other income using the effective interest rate method.

Fair value through other comprehensive income (FVOCI): Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets cash flows represent solely payments of principal and interest, are measured at fair value through other comprehensive income (FVOCI). Movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses, interest income and foreign exchange gains and losses which are recognised in the statement of profit and loss. When the financial asset is derecognised, the cumulative gain or loss previously recognised in OCI is reclassified from equity to profit and loss and recognised in other income or other expenses (as applicable).

Fair value through profit and loss (FVTPL): Assets that do not meet the criteria for amortised cost or FVOCI are measured at fair value through the profit and loss. A gain or loss on a debt investment that is subsequently measured at fair value through profit and loss is recognised in the statement of profit and loss in the period in which it arises. Interest income from

Notes Forming Part of the Consolidated Financial Statements

as on and For the year ended March 31, 2023

these financial assets is included in other income.

b) Equity instruments

The group measures all equity investments at fair value. Where the group's management has opted to present fair value gains and losses on equity investments in other comprehensive income, there is no subsequent reclassification of fair value gains and losses to profit and loss, subject to derecognition of the asset. Dividends from such investments are recognised in the statement of profit and loss as other income when the group's right to receive payments is established.

Where the management has not opted to present fair value gains and losses on equity investments in other comprehensive income, changes in fair value are recognised in the statement of profit and loss. Impairment losses (and reversal of impairment losses) on equity investments measured at FVOCI are not reported separately from other changes in fair value.

iii) Impairment of financial assets

The group assesses on a forward looking basis the expected credit losses associated with its assets carried at amortised cost and FVOCI debt instruments. The impairment methodology applied depends on whether there has been a significant increase in credit risk. The manner in which the group assesses the credit risk has been disclosed in note number 45.

For trade receivables only, the simplified approach is applied as permitted by Ind AS 109 Financial Instruments, which requires expected credit losses to be recognised from initial recognition of the receivables.

iv) Derecognition of financial assets

A financial asset is derecognised only when –

- The group has transferred the rights to receive cash flows from the financial asset or

- Retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients.

Where the group has transferred an asset, it evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. In such cases, the financial asset is derecognised. Where the entity has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not derecognised.

Where the group has neither transferred a financial asset nor retains substantially all risks and rewards of ownership of the financial asset, the financial asset is derecognised if the group has not retained control of the financial asset. Where the group retains control of the financial asset, the asset is continued to be recognised to the extent of continuing involvement in the financial asset.

v) Income Recognition

Interest income

Interest income from debt instruments is recognised using the effective interest rate method. The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the gross carrying amount of a financial asset. When calculating the effective interest rate, the group estimates the expected cash flows by considering all the contractual terms of the financial instrument (for example, prepayment, extension, call and similar options) but does not consider the expected credit losses.

Dividend income

Dividends are recognised in the statement of profit and loss only when the right to receive payment is established, it is probable that the economic benefits associated with the dividend will flow and the amount of the dividend can be measured reliably.

vi) Cash and cash equivalents

Cash and cash equivalents include cash on hand, deposits held at call with financial

Notes Forming Part of the Consolidated Financial Statements

as on and For the year ended March 31, 2023

institutions, other short-term highly liquid investments with original maturities of three months or less, that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value. Bank overdraft are shown within borrowing in current liabilities in the financial statement.

vii) Trade Receivables

Trade receivables are amounts due from customers for goods sold in the ordinary course of business. Trade receivables are recognised initially at the amount of consideration that is unconditional unless they contain significant financing components, when they are recognised at fair value. The group holds the trade receivables with the objective to collect the contractual cash flows and therefore measures them subsequently at amortised cost using the effective interest method, less expected credit losses.

2) Financial Liabilities

i) Measurement

Financial liabilities are initially recognised at fair value, reduced by transaction costs (in case of financial liabilities not recorded at fair value through profit and loss), that are directly attributable to the issue of financial liability. All financial liabilities are subsequently measured at amortised cost using effective interest method. Under the effective interest method, future cash outflow are exactly discounted to the initial recognition value using the effective interest rate, over the expected life of the financial liability, or, where appropriate, a shorter period. At the time of initial recognition, there is no financial liability irrevocably designated as measured at fair value through profit and loss.

ii) Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are

substantially modified, such an exchange or modification is treated as the de-recognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit and loss.

iii) Trade and other payables

These amounts represent liabilities for goods and services provided to the group prior to the end of financial year which are unpaid. The amounts are unsecured and are usually paid as per payment terms. Trade and other payables are recognised initially at their fair value and subsequently measured at amortised cost using the effective interest rate method.

iv) Derivatives and hedging activities

Derivatives are only used for economic hedging purposes and not as a speculative investments. They are presented as current assets or liabilities to the extent they are expected to be settled within 12 months after the end of the reporting period.

Derivatives are initially recognised at fair value on the date a derivative contract is entered into and are subsequently re-measured to their fair value at the end of each reporting period. Derivative contracts are used to hedge risks which are not designated as hedges. Such contracts are accounted for at fair value through profit or loss.

v) Offsetting financial instruments

Financial assets and liabilities are offset and the net amount is reported in the balance sheet where there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy.

m Employee benefits

(i) Short-term obligations

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognised in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

(ii) Other long-term employee benefit obligations

The liabilities for earned leave are not expected to be settled wholly within 12 months after the end of the period in which the employees render the related service. They are therefore measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the projected unit credit method. The benefits are discounted using the appropriate market yields at the end of the reporting period that have terms approximating to the terms of the related obligation. Remeasurements as a result of experience adjustments and changes in actuarial assumptions are recognised in the statement of profit and loss.

(iii) Post-employment obligations

The group operates the following post-employment schemes:

A) Defined benefit gratuity plan for the parent company:

The parent company provides for gratuity, a defined benefit plan (the "Gratuity Plan") covering eligible employees in accordance with the Payment of Gratuity Act, 1972. The Gratuity Plan provides a lump sum payment to vested employees at retirement, death, incapacitation or termination of employment, of an amount based on the respective employee's salary and the tenure of employment. The liability or asset recognised in the balance sheet in respect of defined benefit gratuity plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The defined benefit obligation

is calculated annually by actuaries using the projected unit credit method.

The present value of the defined benefit obligation denominated in Indian Rupees is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on government bonds that have terms approximating to the terms of the related obligation.

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expense in the statement of profit and loss.

Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the period in which they occur, directly in other comprehensive income, which are included in retained earnings in the statement of changes in equity and in the balance sheet. Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognised immediately in the statement of profit and loss as past service cost.

B) Defined benefit gratuity plan for the overseas subsidiaries-

The subsidiary companies provides for service benefit for employees as per the Payment of service benefit Act, 2019. Employees who are in continuous service for a period of 5 years or more are eligible for service benefit. The amount of service benefit payable on retirement/ termination is the employees last drawn basic salary per month computed proportionately for fifteen days salary multiplied by the number of years of service. The service benefit plan is a non funded plan and the Company makes provision in the the books over a period of time based on estimations of expected service benefit payments.

The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting

Notes Forming Part of the Consolidated Financial Statements

as on and For the year ended March 31, 2023

period on government bonds that have terms approximating to the terms of the related obligation.

Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the period in which they occur, directly in other comprehensive income, which are included in retained earnings in the statement of changes in equity and in the balance sheet.

C) Defined benefit provident fund plan for the parent company:

Provident Fund contributions are made to a Trust administered by the parent company. The parent company's liability is actuarially determined (using the Projected Unit Credit method) at the end of the year. Gains and losses, if any, arising from changes in actuarial assumptions are recognised in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the statement of changes in equity and in the balance sheet.

D) Contributory Provident Fund for overseas subsidiaries-

A contributory provident fund has been introduced for its eligible employees, obtaining necessary approval from the National Board of Revenue, GOB. Provident Fund is reviewed by a Board of Trustees. All confirmed employees are contributing 8.33% of their basic salary as subscription of the fund and overseas subsidiaries have also contributed at the same rate to the fund. The contributions are invested in compliance with the PF Trust Deed. Members are eligible to withdraw fund as per the BEPZA provident Fund policy 2012.

(iv) Bonus plans

A liability and an expense for bonuses has been recognised. The provision is recognised where contractually obliged or where there is a past practice that has created a constructive obligation.

(v) Share-based payments

Share-based compensation benefits are provided to employees via the Employee Stock Appreciation Rights Plan.

Liabilities for the share appreciation rights are recognised as employee benefit expense over the relevant vesting period. The fair value of the rights are measured at grant date and an Employee stock appreciation rights reserve is created in the balance sheet over the vesting period.

n Provisions, contingent liabilities and contingent assets

Provisions: Provisions for legal claims, Service Warranties, Volume discount and returns are recognised when the group has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and the amount can be reliably estimated. Provisions are not recognised for future operating losses.

If the effect of time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to passage of time is recognised as a finance cost

Contingent liabilities: Contingent liabilities are disclosed when there is a possible obligation arising from past events the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the group or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made.

Contingent assets: Contingent assets are disclosed when there is a possible asset that arises from past events and where existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the group.

o Contributed Equity

Equity shares are classified as equity. Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

p Dividends

Provision is made for the amount of any dividend declared, being appropriately authorised and no longer

Notes Forming Part of the Consolidated Financial Statements

as on and For the year ended March 31, 2023

at the discretion of the entity, on or before the end of the reporting period but not distributed at the end of the reporting period.

q Earnings per share

i) Basic earnings per share

Basic earnings per share is calculated by dividing the net profit for the period attributable to the equity shareholders, by the weighted average number of equity shares outstanding during the financial year, adjusted for bonus elements in equity shares issued during the year and excluding treasury shares, if any.

ii) Diluted earnings per share

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account:

- the after income tax effect of interest and other financing costs associated with dilutive potential equity shares, and
- the weighted average number of additional equity shares that would have been outstanding assuming the conversion of all dilutive potential equity shares.

r Exceptional items

An item of income or expenses, pertaining to the ordinary activities of the group, is classified as an exceptional item, when the size, type or incidence of the item merits separate disclosure in order to provide better understanding of the performance of the group. Accordingly the same is disclosed in the notes accompanying the financial statements.

s Rounding of amounts

All amounts disclosed in the financial statements and notes have been rounded off to the nearest Rupees Crores (upto two decimals), unless otherwise stated as per the requirement of Schedule III of the Companies Act 2013.

3 CRITICAL ESTIMATES AND JUDGMENTS

In the application of the group's accounting policies, which are described in note 2, the management is required to make judgement, estimates, and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other process. The estimates and associated assumptions

are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future period if the revision affects both current and future period.

The following are the critical estimates and judgements, that have the significant effect on the amounts recognised in the consolidated financial statements.

i) Estimation of Provisions and Contingent Liabilities

The group exercises judgment in measuring and recognising provisions and the exposures to contingent liabilities which are related to pending litigation or other outstanding claims. Judgement is necessary in assessing the likelihood that a pending claim will succeed, or a liability will arise, and to quantify the possible range of the financial settlement. Because of the inherent uncertainty in this evaluation process, actual liability may be different from the originally estimated as provision. Although there can be no assurance of the final outcome of the legal proceedings in which the group is involved, it is not expected that such contingencies will have a material effect on its financial position or profitability. (Refer note 39)

ii) Estimation of rebates, discounts and sales returns

The revenue recognition policy requires estimation of rebates, discounts and sales returns. There are a varied number of rebates/discount schemes offered which are primarily driven by the terms and conditions for each scheme including the working methodology to be followed and the eligibility criteria for each of the scheme. The estimates for rebates/discounts need to be based on evaluation of eligibility criteria and the past trend analysis. The expected sales returns are estimated based on a detailed historical study of past trends. [Refer Note 2(c) and 24].

Notes Forming Part of the Consolidated Financial Statements

as on and For the year ended March 31, 2023

iii) Estimation of useful life of Property, Plant and Equipment, Intangible assets, Investment properties

Property, Plant and Equipment, Intangible assets, Investment properties represent a significant proportion of the asset base of the group. The charge in respect of periodic depreciation is derived after determining an estimate of an asset's expected useful life and the expected residual value at the end of its life. The useful lives and residual values of group's assets are determined by management at the time the asset is acquired and reviewed periodically, including at each financial year end. The useful lives are based on historical experience with similar assets as well as anticipation of future events, which may impact their life, such as changes in technology. (Refer note 4, 5 and 6)

iv) Estimation of provision for inventory

The group writes down inventories to net realisable value based on an estimate of the realisability of inventories. Write downs on inventories are recorded where events or changes in circumstances indicate that the balances may not be realised. The identification of write-downs requires the use of estimates of net selling prices of the down-graded inventories. Where the expectation is different from the original estimate, such difference will impact the carrying value of inventories and write-downs of inventories in the periods in which such estimate has been changed.

v) Estimation of defined benefit obligation

The group provides defined benefit employee retirement plans. The present value of the defined benefit obligations depends on a number of factors that are determined on an actuarial basis using a number of assumptions. The assumptions used in determining the net cost (income) for post employment plans include the discount rate, salary escalation rate, attrition rate and mortality rate. Any changes in these assumptions will impact the carrying amount of such obligations.

The appropriate discount rate, salary escalation rate are determined and attrition rate at the end of each year. In determining the appropriate discount rate, the interest rates of government bonds of maturity approximating the terms of the related plan liability are considered and attrition rate and salary escalation rate is determined based on the past trends adjusted for expected changes in rate in the future. (Refer note 27)

vi) Estimated fair value of Financial Instruments

The fair value of financial instruments that are not traded in an active market is determined using valuation techniques. The Management uses its judgment to select a variety of methods and make assumptions that are mainly based on market conditions existing at the end of each reporting period.

vii) Estimation of provision for warranty claims

Warranties are offered for its products. Management estimates the related provision for future warranty claims based on historical warranty claim information, as well as recent trends that might suggest that past cost information may differ from future claims. The assumptions made in relation to the current period are consistent with those in the prior year (Refer note 36 A).

viii) Impairment of trade receivable

The impairment provisions for trade receivable are based on expected credit loss method. The judgement is used in making the assumptions in calculating the default rate required for identifying the provision as per the expected credit loss method at the end of each reporting period. (Refer note 13)

ix) Leases

The group evaluates if an arrangement qualifies to be a lease as per the requirements of Ind AS 116. Identification of a lease requires significant judgement. The group uses significant judgement in assessing the lease term (including anticipated renewals) and the applicable discount rate. The group determines the lease term as the non-cancellable period of a lease, together with both periods covered by an option to extend the lease if the group is reasonably certain to exercise that option; and periods covered by an option to terminate the lease if the group is reasonably certain not to exercise that option. In assessing whether the group is reasonably certain to exercise an option to extend a lease, or not to exercise an option to terminate a lease, it considers all relevant facts and circumstances that create an economic incentive for the group to exercise the option to extend the lease, or not to exercise the option to terminate the lease. The discount rate is generally based on the incremental borrowing rate specific to the lease being evaluated or for a portfolio of leases with similar characteristics.

[#]The group has made an irrevocable election at initial recognition, to recognise changes in fair value of equity securities which are not held for trading, through OCI, rather than profit and loss as these are strategic investments and the group considered this to be more relevant.

(i) Fair value hierarchy

This section explains the judgements and estimates made in determining the fair values of the financial instruments that are (a) recognised and measured at fair value and (b) measured at amortised cost and for which fair values are disclosed in the financial statements. To provide an indication about the reliability of the inputs used in determining fair value, the group has classified its financial instruments into the three levels prescribed under the accounting standard. An explanation of each level follows underneath the table.

Level 1: Level 1 hierarchy includes financial instruments measured using quoted prices. This includes listed equity instruments that have quoted price. The fair value of all equity instruments which are traded in the stock exchanges is valued using the closing price as at the reporting period. The mutual funds are valued using the closing NAV.

Level 2: The fair value of financial instruments that are not traded in an active market is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity-specific estimates.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. This is the case for unlisted equity securities and unlisted preference shares are included in level 3.

There are no transfers between levels 1, 2 and 3 during the year.

(ii) Valuation technique used to determine fair value

Specific valuation techniques used to value financial instruments include:

- Investments in quoted equity instruments are valued using the closing price at Bombay Stock Exchange (BSE) at the reporting period.
- the use of Net Assets Value ('NAV') for valuation of mutual fund investment. NAV represents the price at which the issuer will issue further units and will redeem such units of mutual fund to and from the investors.

(iii) Fair value measurements using significant unobservable inputs (level 3)

The following table presents the changes in level 3 items for the periods ended March 31, 2023 and March 31, 2022:

- a) The carrying amounts of trade receivables, trade payables, cash and cash equivalents, bank balances other than cash and cash equivalents, borrowings, investments (bonds) and other financial liabilities are considered to be the same as their fair values, due to their short-term nature.
- b) The fair values and carrying value for security deposits, other financial assets and other financial liabilities are materially the same.

45 A FINANCIAL RISK MANAGEMENT

The group's activities expose it to market risk, liquidity risk, credit risk and interest risk.

This note explains the sources of risk which the entity is exposed to and how the entity manages the risk.

The group has a robust risk management framework comprising risk governance structure and defined risk management processes. The risk governance structure of the group is a formal organisation structure with defined roles and responsibilities for risk management.

Risk	Exposure arising from	Measurement	Management
Credit risk	Cash and cash equivalents, trade receivables, financial assets measured at amortised cost.	Ageing analysis	Diversification of bank deposits, credit limits and letters of credit
Liquidity risk	Other financial liabilities	Sensitivity analysis	Availability of committed credit lines and borrowing facilities
Market risk - foreign currency risk	Recognised financial assets and liabilities not denominated in Indian rupee (INR)	Sensitivity analysis	Monitoring the movement in exchange rates closely
Market risk - Interest rate risk	Borrowings	Sensitivity analysis	Monitoring the movement in market interest rates closely
Market risk - security prices	Investments in equity securities	Sensitivity analysis	Portfolio diversification

The group's risk management is carried out by a central treasury department under the guidance from the board of directors. group's treasury identifies and evaluates financial risks in close co-ordination with the group's operating units. The board provides written principles for overall risk management, as well as policies covering specific areas, such as foreign exchange risk, interest rate risk, credit risk, use of derivative financial instruments and non-derivative financial instruments, and investment of excess liquidity. There is no change in objectives and process for managing the risk and methods used to measure the risk as compared to previous year.

1) Credit risk :

Credit risk is the risk that the counterparty will not meet its obligation under a financial instrument or customer contract, leading to financial loss. The Credit risk mainly arises receivables from customers, investments securities, cash and cash equivalents, and deposits with banks and financial institutions.

a) Trade receivables

The maximum exposure to the credit risk at the reporting date is primarily from trade receivables amounting to ₹ 255.37 Crores as at March 31, 2023 (March 31, 2022– ₹ 218.51 Crores). Trade receivables are typically unsecured and are derived from revenue earned from customers located in India as well as outside India. The group establishes an allowance for doubtful debts and impairment that represents its estimate of incurred losses in respect of trade receivables.

The group's exposure to credit risk is influenced mainly by the individual characteristics of each customer. The demographics of the customer, including the default risk of the industry, the country and the state in which the customer operates, also has an influence on credit risk assessment.

Credit risk is managed through credit approvals, establishing credit limits and continuously monitoring the creditworthiness of customers to which the group grants credit terms in the normal course of business.

The group has used a practical expedient by computing the expected credit loss allowance for trade receivables based on a provision matrix. The provision matrix takes into account historical credit loss experience and adjusted for forward looking information. The expected credit loss allowance is based on the ageing of the days for which the receivables are due and the expected loss rates as given in the provision matrix. The provision matrix at the end of the reporting period is as follows:

Summary of trade receivables and provision with ageing as at March 31, 2023:

The average credit period on sales of products is less than 120 days. Credit risk arising from trade receivables is managed in accordance with the group's established policy, procedures and control relating to customer credit risk management. Credit quality of a customer is assessed based on a detailed study of credit worthiness and accordingly individual credit limits are defined/modified. The concentration of credit risk is limited due to the fact that the customer base is large.

b) Cash and cash equivalents:

As at the year end, the group held cash and cash equivalents of ₹ 33.14 crores (March 31, 2022: ₹ 17.29 crores). The cash and cash equivalents are held with bank and financial institution counterparties with good credit rating. 12-months expected credit losses is used as basis for recognition of loss provision.

c) Other Bank Balances:

Other bank balances are held with bank and financial institution counterparties with good credit rating. 12-months expected credit losses is used as basis for recognition of loss provision.

d) Investment in mutual funds:

The group limits its exposure to credit risk by generally investing in liquid securities and only with counterparties that have a good credit rating. The group does not expect any losses from non-performance by these counterparties. 12-months expected credit losses is used as basis for recognition of loss provision.

e) Other financial assets:

Other financial assets are neither past due nor impaired. 12-months expected credit losses is used as basis for recognition of loss provision.

f) Investments in debt instruments:

Investments in debt instruments are neither past due nor impaired. Majority of the debt instruments are held within the group i.e. in subsidiaries of the group.

2) Liquidity risk :

Liquidity risk is the risk that the group will not be able to meet its financial obligations as they become due. Prudent liquidity risk management implies maintaining sufficient cash and marketable securities and the availability of funding through an adequate amount of committed credit facilities to meet obligations when due and to close out market positions. Due to the dynamic nature of the underlying businesses, group treasury maintains flexibility in funding by maintaining availability under committed credit lines. Management monitors rolling forecasts of the group's liquidity position (comprising the undrawn borrowing facilities below) and cash and cash equivalents on the basis of expected cash flows.

(i) Financing arrangements

The group had access to the following undrawn borrowing facilities at the end of the reporting period:

3) Market risk :

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises of risks namely interest rate risk, currency risk and other price risk, such as commodity risk.

A) Market Risk- Foreign currency risk

The group operates internationally and portion of the business is transacted in several currencies and consequently the group is exposed to foreign exchange risk through its sales in overseas and purchases from overseas suppliers in various foreign currencies. Foreign currency exchange rate exposure is partly balanced by purchasing of goods, commodities and services in the respective currencies. The group closely monitors the movement in foreign currency exchange rates to strategise the timing operations and effectively optimise the overall exposure.

Unhedged foreign currency exposure

(a) Particulars of unhedged foreign currency exposures as at the reporting date

	1% increase	1% decrease
USD	(0.56)	0.56
Increase / (decrease) in profit or loss	(0.56)	0.56

B) Market Risk- Other price risk

(a) Exposure

The group is mainly exposed to the price risk due to its investment in mutual funds and investment in equity instruments held by the group and classified in the balance sheet either as fair value through OCI or at fair value through profit or loss. The price risk arises due to uncertainties about the future market values of these investments. To manage its price risk arising from investments in equity securities, the group diversifies its portfolio. The majority of the group's equity investments are publicly traded.

(b) Sensitivity

The table below summarizes the impact of increases/decreases of the BSE index on the group's equity and Gain/Loss for the period. The analysis is based on the assumption that the index has increased by 5 % or decreased by 5 % with all other variables held constant, and that all the group's equity instruments moved in line with the index.

Present value of unfunded obligations	3.77	4.70
Fair value of plan assets	-	-
Deficit/ (surplus) of gratuity plan	3.77	4.70

iii) The principal assumptions used in determining gratuity benefit obligations are shown below:

Parent Company Plan	As at March 31, 2023	As at March 31, 2022
Discount rate	7.39%	6.84%
Expected return on plan assets	7.39%	6.84%
Salary escalation rate	9% for the next 2 Years, 5% thereafter starting from the 3rd year	8% for the next 2 Years, 5% thereafter starting from the 3rd year
Employee Turnover Rate	For Service 2 years and below 20% p.a., For Service 3 years to 4 years 15% p.a., For Service 5 years and above 10% p.a.	For Service 2 years and below 20% p.a., For Service 3 years to 4 years 15% p.a., For Service 5 years and above 10% p.a.

Discount rate	8.80%	7.50%
Salary escalation rate	10.00%	10.00%

iv) Sensitivity analysis

The sensitivity analysis below have been determined based on reasonably possible changes of the respective assumptions occurring at the end of the reporting period, while holding all other assumptions constant.

Domestic Plan

Assumption	Impact on defined benefit obligation							
	Changes in Assumption (%)		Increase in Assumption		Decrease in Assumption			
	March 31, 2023	March 31, 2022	March 31, 2023	March 31, 2022	March 31, 2023	March 31, 2022		
Discount Rate	1%	1%	Decreased by	0.72	0.67	Increased by	0.79	0.75
Salary Increase	1%	1%	Increased by	0.88	0.71	Decreased by	0.81	0.67
Employee Turnover	1%	1%	Increased by	0.07	0.05	Decreased by	0.08	0.05

Notes Forming Part of the Consolidated Financial Statements

as on and For the year ended March 31, 2023

(All amounts in ₹ Crores, unless otherwise stated)

Foreign Plan

Assumption	Impact on defined benefit obligation							
	Changes in Assumption (%)		Increase in Assumption		Decrease in Assumption			
	March 31, 2023	March 31, 2022	March 31, 2023	March 31, 2022	March 31, 2023	March 31, 2022		
Discount Rate	1%	1%	Decreased by	0.90	1.00	Increased by	1.20	1.57
Salary Increase	1%	1%	Increased by	1.18	1.51	Decreased by	0.90	0.98

The sensitivity analysis presented above may not be representative of the actual change in the defined benefit obligation as it is unlikely that the change in assumptions would occur in isolation of one another as some of the assumptions may be correlated. Furthermore, in presenting the above sensitivity analysis, the present value of the defined benefit obligation has been calculated using the projected unit credit method at the end of the reporting period, which is the same as that applied in calculating the defined benefit obligation asset/(liability) recognised in the Balance Sheet.

v) The Major category of plan assets of the fair value of the total plan assets are as follows:

	As at March 31, 2023		As at March 31, 2022	
	Amount	in %	Amount	in %
Insurer managed fund	25.47	96%	24.81	96%
Others	0.94	4%	0.90	4%
Total	26.41	100%	25.71	100%

vi) Risk exposure

Aforesaid post-employment benefit plans typically expose the group to actuarial risks such as: Investment risk, interest rate risk, and salary risk.

Investment risk:	The present value of the defined benefit plan liability is calculated using a discount rate which is determined by reference to market yields at the end of the reporting period on government bonds. If the return on plan asset is below this rate, it will create a plan deficit. Currently, for the plan in India, it has a relatively balanced mix of investments in government securities, and other debt instruments.
Interest risk:	A fall in the discount rate which is linked to the G. Sec. Rate will increase the present value of the liability requiring higher provision. A fall in the discount rate generally increase the mark to market value of the assets depending on the duration of asset.
Salary risk:	The present value of the defined benefit plan liability is calculated by reference to the future salaries of members. As such, an increase in salary of the members more than assumed level will increase the plan's liability.

vii) Defined benefit liability and employer contributions

The company expects to make a contribution for the year ending March 31, 2024 is ₹ NIL Crores (March 31, 2023 is ₹ NIL Crores) to the defined benefit plans during the next financial year.

The average duration of the defined benefit plan obligation at the end of the reporting period is 7 years. The expected maturity analysis of undiscounted gratuity benefits is as follows:

	Less than a year	Between 1-2 Years	Between 2-5 Years	Over 5 Years	Total
March 31, 2023					
Defined benefit obligations - Gratuity	2.40	4.12	6.32	13.57	26.41
March 31, 2022					
Defined benefit obligations - Gratuity	5.17	1.80	6.66	12.18	25.81

(All amounts in ₹ Crores, unless otherwise stated)

b) Provident fund for parent company:

Provident fund for eligible employees is managed by the Company through the "VIP Industries Limited Employees Provident Fund Trust", in line with the Provident fund and Miscellaneous Provisions Act 1952. The plan guarantees interest at the rate notified by the Provident Fund Authorities. The contribution by the employer and employee together with the interest accumulated thereon are payable to employees at the time of their separation from the Company or retirement whichever is earlier. The benefits vest immediately on rendering the services by the employee. The Company does not currently have any unfunded plans.

In terms of the guidance note issued by the Institute of Actuaries of India for measurement of provident fund liabilities, the actuary has provided a valuation of provident fund liability and based on the assumptions provided below, there is no shortfall as at March 31, 2023. The Company has contributed ₹ 4.03 Crores (March 31, 2022: ₹3.18 Crores) towards VIP Industries Limited Employees Provident Fund Trust during the year ended March 31, 2023.
