### Update on Liquidity

- ❑ **Healthy Liquidity position with INR ~1,410 Mn in cash/bank balance, liquid investments, and undrawn CC limits**
- ❑ Successfully raised INR 750 Mn since April 2020
- ❑ Liquidity position has improved driven by the pick-up in collections and the incremental debt capital raised since the start of April. Consequently, the company has repaid all the debt obligations that were due from June'20 onwards and also repaid the moratorium obligations of April & May 2020 (i.e. voluntarily cancelled moratorium) to reduce moratorium interest burden

### Update on Disbursements

- ❑ **Gradually resumed disbursements across all segments from August 2020 onwards**
  - In microfinance, the company is primarily renewing loans of existing customers who have made their repayments and completed their tenure.
  - In the MSME & two-wheeler segments, the company has slowly started disbursing with a more stringent underwriting process

## Update on Collections

❑ Collections have improved across all 3 segments since June 2020, reducing the loan book under moratorium (*details given in the table below*)

- Healthy pick-up witnessed in 2W and MSME collections in July and August 2020; with both segments witnessing over 90% repayment rates, the moratorium book is now in single digits as % of the standalone loan book
- August 2020 repayment rates have shown a minor decline compared to July 2020 owing to - 1) Many festivals and holidays falling in the month of August; 2) Heavy rains in numerous areas of operations which created logistical issues; and 3) Continued intermittent lockdowns in several areas of operations

❑ Cumulative Provisions stood at INR 297 Mn as of 30<sup>th</sup> June 2020 covering 3.9% of the on-book AUM

- **Namra:** Cumulative Provisions stood at INR 192 Mn as of 30<sup>th</sup> June 2020 covering 3.4% of the on-book AUM (June'20)
- **Standalone:** Cumulative Provisions stood at INR 105 Mn as of 30<sup>th</sup> June 2020 covering 5.1% of the on-book AUM (June'20)

❑ *“Overall, the collection efficiency is expected to improve significantly over the next 2-3 months as the unlocking of economy gains pace, restrictions are further relaxed, and the RBI moratorium period comes to an end.”*
