Q2FY21 Performance Discussion

Management Commentary

- The financial performance for Q2FY21 has been satisfactory, the company recorded a 19.0% growth in Revenue from Operations with good performance from the export markets that are showing signs of a good recovery. EBITDA margins increased by 227 BPS to 10.3% in Q2FY21, with record EBITDA of 5.06 Crores. As guided in Q1FY21, the temporary effects of increased input costs (domestic) have worn off from the profitability. In fact, the company is observing benign raw material prices from China.
- Company's efforts towards streamlining its expenses and focus on improving the output & efficiency of the manufacturing facility have started paying-off.
- On the Balance Sheet front, the company was carrying record Inventories (prominently raw materials) in an effort to neutralize any potential disruptions from the supply-chain, additionally, the company has drastically slowed-down its procurement in October and November to liquidate part of the inventory.

- In the longer-run, the company remains focused towards reducing its raw material dependency on China and increased domestic procurement. In a phased-manner, the company is strengthening its relationships with domestic suppliers, however, a) Prices and b) Credit remain the two variables in the shorter-run.

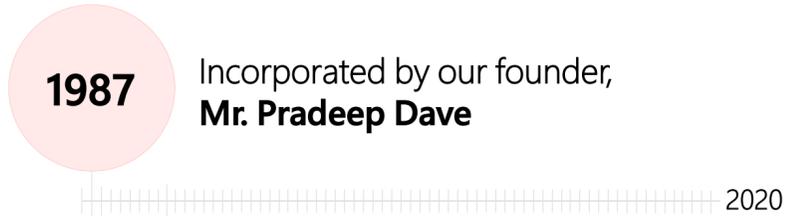

Demand-front

- Although H1FY21 witnessed higher domestic business given the circumstances, the company is witnessing a good recovery in its core export business.
- At present, the company has good visibility with order-book up till February 2021.

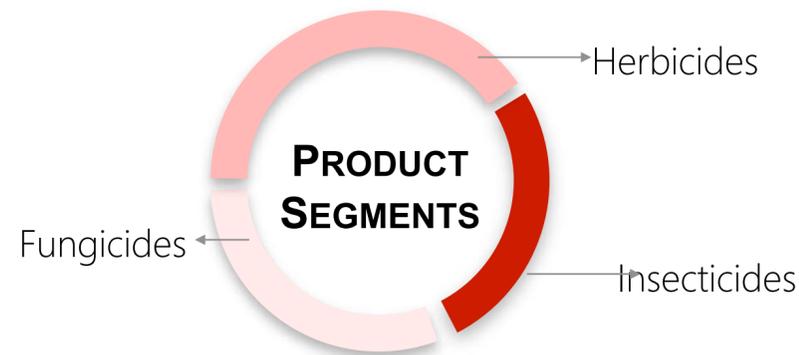

CAPEX

- The Effluent Treatment Plant remains on track, with commencement of civil works at the facility.
- The company continues investing towards product registrations with an increasing registration pipeline.

Introduction

Incorporated in 1987 by our founder **Mr. Pradeep P Dave**, Aimco Pesticides Limited (APL) is a **key player in the Agro Chemicals space.**

The company is into manufacturing, marketing & exporting of technical grade chemicals & formulations of Insecticides, Fungicides and Herbicides.

Strong Export Presence

Strong export presence in **~42 countries globally.**

Government Registered Export house

Recognised for its acumen in **Technical grade chemicals**

In its vast history spanning over 4 decades, the company has been **credited with introducing & commercializing many Agro-chemicals in India.**

First Indian company to manufacture Chlorpyrifos & Triclopyr

First Indian company to manufacture Chlorpyrifos & Triclopyr Technical in India; right after Dow Chemicals (USA).

Second Indian company to manufacture Imidacloprid after Bayer India

History and Evolution

AIMCO
Pesticides
Limited

Investor
Presentation

History &
Evolution

01

Incorporation & early history

- Established in 1987
- Listed on BSE in 1993
- Setup a centralized manufacturing unit in Lote Parshuram in 1993
- 1st India company to manufacture & commercialize Chlorpyrifos technical in 1993
- Commenced exports in 1995
- Established R&D centre recognized by Department of Science & Technology, GOI since 1996
- 1st India company to manufacture & commercialize Triclopyr technical in 2001

02

Debt restructuring & operational turnaround

- RoCE depleted in existing investments due to entry of excessive competition in key products
- Chlorpyrifos turned unprofitable, with more than a dozen plants manufacturing it in the country
- Domestic formulations business under-stress due to severe and continuous droughts in '98-'00
- This all led to low profitability and an inability to service debt. Debt accumulated due to unapplied interest being converted into term loans.
- In between FY10-14, the company offered OTS to banks, completed debt restructuring and turned debt-free by the end of FY2014.

03

Turning profitable and building a foundation

- Post restructuring, the first objective of the company was to turn & stay profitable at all levels
- Company remained agile, utilizing every available business opportunity to turn profitable and rebuild reserves
- Undertook major maintenance & upgradation at Lote Parshuram Facility between FY16-19
- Established a strong footing
- Key focus on scaling manufacturing for technical grade chemicals
- Introduced Bifenthrin technical in 2017

Corporate Ethos

Mission

To **serve the farmer** at the very grass root level, by enhancing farm yields using our understanding and respect for the natural ecological processes

Vision

To be peerless among the stalwarts of the agrochemical industry, by offering the very best of agro-inputs to the farmer, through constant innovation and tailor-made solutions that provide the highest levels of customer satisfaction sustainably.

Environmentally Conscious

The company has recently pledged to attain **ZERO LIQUID EFFLUENT** discharge status in next 5 years.

CSR Activities

As part of its CSR Program, Aimco Pesticides Limited has funded the construction of a new school building with superior infrastructure and advanced facilities for a Primary & Secondary Ashram School – Village Ganjad, Taluka Dahanu, District Palghar.

Manufacturing Facility

AIMCO Pesticides Limited

Investor Presentation

The company operates out of one manufacturing facility located at **Lote Parshuram, Ratnagiri in the state of Maharashtra.**

Set up in 1993

This unit was set up in 1993, as a measure to centralize the manufacturing operations & enter technical manufacturing. Prior to 1993, the company had 4 formulations plant spread throughout the country.

23,000 sq. mt

This facility is located on a plot admeasuring ~23,000 Sq. Mt., with ~50% land available for further development

Fully equipped manufacturing facility.

Pilot Plant with capability to carry out various reactions such as - distillation, dehydration, filtration, washing, etcetera.

Manufacturing both technical grade chemicals and formulations.

~250 Personnel

Total capacity to manufacture & current utilization

Manufacturing Facility

Largest Triclopyr manufacturing capacity in India and Number 3 globally.

Mr. Bhatt has also served in various capacities on the Pesticides Manufacturer's Association of India (PMFAI), one of India's premier agrochemical associations.

Aimco Going Forward

Identifying products for commercial development

In the last few years, since our operational turnaround, the company has been constantly focusing on adding newer molecules to its product portfolio.

Investing in product development, data collection and registration

After the initial development phase, the company is investing in data collection and product registration globally, which is a very time and capital intensive procedure.

Expanding technical portfolio

The company has a principal focus on expanding its competencies in its technical grade portfolio. That is the area in which its strength lies.

Aimco is making continuous efforts to add

- a) Chemicals which would prove to be profitability margin **assertive** and
- b) Have an **opportunity size bigger** than our current products

Long Term Decisions

Outlook

AIMCO
Pesticides
Limited

Investor
Presentation

Outlook

Existing technical products	Additions in technical portfolio	CAPEX	Branded Domestic Formulations	Profitability
<p>We will be focusing on ramping up production, and if necessary capacity, for remunerative products like Bifenthrin in the FY2020-21.</p> <p>The idea is to invest incremental capital only towards margin assertive products, even in our existing portfolio.</p>	<p>There are a few products under development in various categories such as Herbicides, Insecticides, and Plant Growth Regulators (PGR). The company is certain of commercializing at least one key product in FY2021-22.</p>	<p>The company has certain planned capital expenditure for FY2020-21 towards a) Effluent Treatment Plant facility and b) upgradation, automation, and replacement of equipment.</p>	<p>The company is undertaking a steady but very cautious growth in this segment. However, external tailwinds that are expected to last this year will give a boost to this business in FY2020-21. At present, we are receiving good response in this business segment.</p>	<p>Due to reasons communicated, earlier in this presentation, among other factors, we are expecting a healthy improvement in the profitability margins of FY2020-21.</p>
